We have two toolboxes out of which we can fix our health care mess. One reduces coverage, cuts benefits, pays providers less, and raises taxes. That is the old-fashioned toolbox. It will work, but it will be brutal. It will be wrong, and we should do everything we can to prevent it. The other toolbox reforms the health care system itself, making it more intelligent, sensible, helpful, and efficient; with an information technology infrastructure so every American can count on their own secure electronic health record, with improvements in the quality of health care so we maximize the effectiveness while reducing the cost; and with reform of having paid for health care so the health care we want is the health care we are paying for.

The President sees that all of this is doable—and that we need to start now.

His economic recovery legislation put nearly \$20 billion into health information infrastructure. But the President knows there is much more to be done, that these delivery system reforms in health care cannot be flipped on like a light switch. It will require complex workforce, regulatory, and infrastructure changes. Then those changes will have to be implemented and administered. It will take some years, and we need to start now. The Obama budget starts us on that course to fix our broken health care system.

I find it unfortunate that our Republican colleagues don't seem to appreciate the seriousness of these problems and have become a chorus of naysayers with no solutions. It is time to pass a budget that lives up to the expectations of the American people. I hope we will.

I thank the Chair and yield the floor.

The PRESIDING OFFICER. The Senator from New Hampshire.

AIG BONUSES

Mrs. SHAHEEN. Madam President, I would like to applaud my colleague, Senator WHITEHOUSE, for his comments, particularly around health care. I know all of us believe that is critical for us to address.

I rise to express my outrage that AIG has paid over \$165 million in bonuses to executives at the company, after they received a \$173 billion bailout in taxpayer funds. We all know the economic conditions we are facing are very difficult. Unemployment continues to climb around the country and in my home State of New Hampshire. Families are struggling to make ends meet. Existing home sales are at their lowest levels in more than a decade. Small businesses around the country and in New Hampshire are working hard just to make payroll, to buy inventory, and to keep their businesses viable. In fact, this morning I heard from a small businessman in New Hampshire, Mark Lane, who is the head of Coed Sportswear and Printed Matter, talk about the challenges he faces in this recession, trying to get access to credit to keep his business going.

Yet while small businesses and middle-class families are struggling to make it through these difficult times, the very people whose reckless decisionmaking helped put us in this precarious economic situation are rewarding themselves with bonuses paid for with taxpayer dollars. This is unconscionable.

We have been told nothing can be done about the bonuses to AIG employees because they are contractual commitments. Yesterday, we heard the CEO of AIG say he has asked the recipients of the bonuses to give the money back. I believe those employees should do that, and I hope they will. But we should make sure that when

taxpayer money is used, we have done everything possible to prevent the kind of excesses we have seen with AIG.

As a condition of providing financing to General Motors and Chrysler, the Treasury Department required the automakers to renegotiate their collective bargaining agreements with their workers. In order for their employers to get loans from the Treasury, auto-workers gave up cost-of-living increases to their wages and bonuses, among other benefits. It is our obligation, as we did with General Motors and Chrysler, to protect taxpayer dollars. That is why, in January of this year, I voted against releasing an additional \$350 billion in TARP funding. I opposed the release of this funding because I believed we did not have adequate accounting of the money the United States had already spent in the bailout. At the time I said: We need legislation to enhance transparency and to enhance taxpayer protections before we release additional money.

Earlier this year, Senator DORGAN introduced the Taxpayer Protection Act, something I quickly signed on to as a cosponsor. This legislation is designed to limit executive compensation, to prohibit the kinds of bonuses companies such as AIG, which have received Federal economic assistance, can provide to their employees or their executives. Today we are reminded that the use of taxpayer money should be held to the highest standards of transparency and accountability.

I am hopeful this administration—and we have heard the President say he is committed to doing something about the situation at AIG, and we know this Senate is committed to doing something about the situation at AIG with their executive bonuses—and this body will take the appropriate action to recover the taxpayer dollars AIG has so recklessly spent on bonuses. I intend to do everything I can to support those efforts.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

FISCAL IRRESPONSIBILITY

Mr. INHOFE. Madam President, it is my understanding we are confined to 10 minutes during this timeframe. I will do so, although after listening to the presentation of the Senator from Rhode Island, I wish I had a little bit more time. It is mind-boggling that anyone in this country would look at the budget as put forth by this administration and the spending in the omnibus bill of \$410 billion and the deficit for this year of \$1.75 trillion, the \$787 billion stimulus, as well as the national debt which, projecting forward 5 years, will double under this administration, if the President is successful in getting this spending done, and will triple in 10 years—it is going to be dif-

ficult for any Senator to stand and say there is anything fiscally responsible about the behavior of our current President. If you don't believe it, turn on the TV and watch all the tea parties going on around the country. The people understand. They know the level of spending and how outrageous it is.

SIXTH ANNIVERSARY OF OPERATION IRAQI FREEDOM

Mr. INHOFE. Madam President, today is a very significant day. Right now we are actually looking at the sixth anniversary of the Operation Iraqi Freedom. We sometimes have forgotten about the butcher from Iraq and how bad that was. I had personal experience during the first Gulf War of being there and seeing some of the things that went on, the horrible torture and the things that this particular dictator had done to that country. When we went in 6 years ago, it was a very difficult time because we went in with a military that had been downgraded during the Clinton administration. If you take a straight line in terms of what the expenditures were the day he took office, that is how much we reduced it in force strength, in our modernization program. In fact, this euphoric attitude people were talking about, saying the Cold War is over, we no longer need a strong military, that is the environment we had. I think, under those circumstances, we did an incredible job.

I have never been so impressed with an all-volunteer Army. I happen to have been a product of the draft. I believed that offered more discipline. When I went there—and I honestly believe I have made more trips to Iraq and Afghanistan than any other Member as the second-ranking member of the Armed Services Committee—I was privileged to be in places such as Fallujah during all the elections that took place and to see our young people, not all that well equipped, take on difficult odds. The marines in Fallujah were part of this, and it was incredible to watch. It was more than the World War II door-to-door style of combat.

Then I was very proud to be a part of the training of the troops over in Afghanistan. I say that because it was Oklahoma's 45th Division that was involved in training the Afghans on how to train themselves in the A&A. I feel that to have witnessed this, to have been over there in Bagdad, in Kabal, in that whole theater during this time was so impressive to me.

I can remember going into the various mess halls, with our troops there—and at that time, IEDs, at an unprecedented rate, were killing and maiming our soldiers—and the bravery they had. One of the questions they used to ask me, in the early stages of this war—6 years ago and 5 years ago—was: Why is it the American people do not understand what we are doing here? Why

don't they understand if we do not stop the terrorism here, it is going to be back at our borders the way it was on 9/11? My response to them was I think they are. We are not getting good reporting out of the media. That started changing as improvements came along.

As I witnessed the opportunities that were there, our troops, all of a sudden, during this surge anyway, were gaining a lot more support, and that completely turned it around. GEN David Petraeus did a remarkable job. In fact, all our generals over there did.

So I think it is incumbent upon us today to remember this is the 6th year. This is something that was absolutely necessary for the safety and the freedom we enjoy here in this country. We should be applauding all our troops as they come back.

To me, it was a little unconscionable, just 3 or 4 days ago, when the White House was coming out with a program that would have impaired our wounded veterans coming back from Iraq and the Middle East from access to VA health care. Because of all the people—I am sure the phones are ringing off the hook at the White House—last night they backed away from that. But, nonetheless, we are not getting the support we should be getting now for our military at this time.

Keep in mind, if we went through an 8-year period of dropping down the support, and then we look at the budget that is in today, it is an inflated budget in spending in every possible area except defense. I think it should be our priority now, as we remember what happened 6 years ago today.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

CLIMATE CHANGE

Mr. MCCAIN. Madam President, I come to the floor to discuss for a few minutes with my colleague from South Carolina the issue of climate change.

We all know the budget will be forthcoming. We already understand there will be some \$650 billion included in the budget for general revenues that would go as revenues from climate—here it is: \$646 billion over 8 years. According to some aides to the administration, it could be as much as \$2 trillion. Remarkable.

What we have done is we have gone from an attempt to address the issue of climate change through cap and trade to just generating \$680 billion or \$2 trillion without a trace of bipartisanship, without any consultation, without discussions. What we have done on the issue of climate change, by basically funneling \$680-some billion, is we have destroyed any chance of bipartisanship, and the administration is proposing a plan which will have a crippling effect in a bad economy on, particularly, parts of the country and lower income residents in the South and Midwest.

First of all, if we are going to do cap and trade, we should have generous allowances for people who are now operating under certain greenhouse gas emission conditions.

Second of all, any money, any revenues that are gained through cap and trade clearly should not go to just "general revenues." Any funding should go directly to the development of technologies which will then reduce greenhouse gas emissions. That has to be a fundamental principle. So the administration, in this budget, is basically using it as just a revenue raiser.

By the way, the entire budget contains no references to nuclear power, except striking funds for the Yucca Mountain nuclear waste repository, for which the utilities—passing it on to the ratepayers—have paid somewhere between \$8 billion and \$13 billion for Yucca Mountain to be used as a spent nuclear fuel repository. So it is remarkable.

The Secretary of Energy told me in a hearing in the Energy Committee: Yucca Mountain is finished. I said: What about reprocessing? Can't do that either.

So here you have nuclear powerplants—there are 120 of them operating in the United States of America today—and we cannot reprocess and we cannot store. So what do we do? We either keep them in pools or "solidification" outside of nuclear powerplants all over America—clearly, a threat to the Nation's security.

Let me say to my colleagues, I am proud of my record on climate change. I have been all over the world, and I have seen climate change. I know it is real, and I will be glad to continue this debate with my colleagues and people who do not agree with that. I believe climate change is real.

I believe with what we did in addressing acid rain, which was through a cap-and-trade kind of dynamic, we were able to largely eliminate the problem of acid rain in America. So it has been done before, and we can do it again, admittedly on a much smaller scale.

In the Antarctic, in Alaska and even in the rain forests of Brazil and here in the United States, we are feeling the effect of climate change. So here we are, with a chance to work together in a bipartisan fashion on the issue, and what does the administration do? They send over a budget which earmarks \$600-and-some billion—\$646 billion—which would then go to general revenues, with no consultation or discussions on the issue. I am proud to have worked with Senator LIEBERMAN in years past on trying to address the issue of climate change.

Of course, there is no mention of nuclear power. I do not wish to spend my time on the floor, too much, on nuclear power. But according to the Department of Energy—and depending on whom you talk to—solar will con-

tribute something like 5, 10, at most, 15 percent of our renewable energy needs between now and 2050. Wind, tide, all those others may contribute another 10, 15, 20 percent.

There is a vast, gaping hole in our demand for renewable energy, and nuclear power and hydro can fill those. This administration has turned its back completely on nuclear power. So what do we tell the ratepayers and the utilities that have been paying billions of dollars? As I mentioned, somewhere between \$8 billion and \$13 billion they have invested in Yucca Mountain. And now we are canceling it? Well, maybe they ought to get their money back since it was Government action that made Yucca Mountain no longer a viable option.

We need to debate this issue. We need to address it separately. We certainly do not need to address the issue of climate change and how we are going to remedy it through the budget process.

By the way, the Obama administration plans to use revenues as a slush fund to meet budgetary shortfalls, as I mentioned. Only \$120 billion of the \$650 billion in new revenues would go to climate policy spending, \$15 billion a year out of the \$650 billion would go for clean energy technologies. There is no detail in the budget as to what this includes or excludes—except for closing Yucca Mountain.

Nuclear is not mentioned in the entire budget. Most of the remainder of the revenues generated from the present cap-and-trade proposal as sent over and part of the budget will be used to pay for the Making Work Pay tax credit. I would add that the administration argues that the Making Work Pay tax credit will offset the increase in utility bills caused by their cap-and-trade policy. However, the credit is phased out for taxpayers earning between \$75,000 and \$95,000 a year for individuals and \$150,000 to \$190,000 for married couples.

So the administration is insisting on 100 percent auction which, obviously, would be an incredible detriment to a very serious approach. Our economy is suffering. At times such as these, it is particularly important we provide for transition assistance that will not result in higher energy costs. Again, I wish to point out 100 percent auction will harm heavy manufacturers, the very ones who need the help the most: automobiles, concrete, et cetera, and the lower income residents of the South and Midwest.

Every reasonable cap-and-trade bill in the past has been a blend of auction and allocations—except for this one. The hybrid approach allows heavy manufacturers and coal-fired utilities time to meet emissions targets without needing to exponentially raise energy costs for consumers.

So the administration has sent us a budget with not a single mention of nuclear power and Yucca Mountain no

longer an option. No Yucca Mountain means no waste confidence and, certainly, no new licensing, no spent fuel recycling. Secretary Chu is insinuating the French and Japanese, who have been recycling for decades, are "reckless."

So what we need to do is take up separately the issue of climate change legislation. It would have a gradual implementation schedule. It would allow for the economy to adapt while we meet our environmental goals. The policy must aggressively promote nonemitting green energy technologies, such as nuclear power, hydro, and others. We should pursue a hybrid approach of auctioning a portion of credits while reserving a large portion of the credits that we could allocate to those who need the most help, complying with the emission reductions. Revenues should be used to promote new technologies, help low-income people with the increased costs of electricity, and pay down the debt—not expand the Federal Government.

So it is with some regret I come to the floor to discuss this important issue with a total lack of bipartisanship on the part of the administration and, again, express my willingness—in fact, my deep desire—to sit down and try to address, in a bipartisan fashion, this compelling issue, which is endangering the future of this planet and certainly our children's and grandchildren's future, and that is the issue of climate change.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. GRAHAM. Madam President, one, I would like to recognize the role Senator McCain has played on this issue. It is not something he comes to lightly, when the issue of climate change is discussed. He put together a cap-and-trade system with Senator Lieberman at a time when it was not very popular among some Republicans. But I think he understands the issue as well as any Member I have talked with.

The idea that what we put into the environment can affect our environment—I am not a scientist, but that is common sense to me. Acid rain is a reality. It was a reality. You could see it in the Southeast, where the Presiding Officer lives in North Carolina, and in South Carolina. It was a cap-and-trade system, a new technology that solved that problem. So it is not much of a stretch to me that CO₂ carbon emissions that we are putting into our environment from transportation and power production is heating up the planet, but we can have that debate. If you are serious about energy independence as a nation, it would be good to get away from fossil fuels coming from the Mideast. Clean coal technology is something worth pursuing. The worst thing that could happen to the climate change debate is—you cleaned up your

planet and you passed on a better environment to your children only if you did it responsibly.

Really, the worst thing that could happen to the climate change debate is what this administration is doing. They have destroyed, in my opinion, a lot of bipartisanship by coming up with a \$646 billion budget number, revenue to be created from a cap-and-trade system they never talked to anybody about who has been involved in the issue. This is a radical, reckless departure from the climate change debate that existed before they took office.

This 100 percent auction is a bit complicated to explain, but it is a major departure from the solutions that have existed in the past. Under the McCain-Warner-Lieberman approach, 22 percent of the credits available to industry and energy users would be auctioned and there would be an allocation of credits.

What do I mean by that? A cap-and-trade system at its very basic level—concept—is that we are going to put limits on how much carbon you can emit into the air as an industry. We will have one for the power sector, the transportation sector, for manufacturing. We are going to put a cap on these industries, and anything you emit above that cap, you are going to have to go get a credit, purchase a credit.

Well, if you have a 100-percent auction of these credits, hedge funds are going to come in and buy these credits and bid them up, so it would be very hard for an industry to purchase the credits. People start speculating with these credits.

Now, the northeastern compact has a 100-percent auction, but the emission standards they have decided upon allow—basically, it is greater than the current emissions that exist, so the credits only trade for \$3 because they don't have much of a cap that puts pressure on anybody. The only way you will solve this problem is to have caps that will push people to get away from using carbon, but our manufacturing sector is hanging by a thread in the global economy. If you put too much of a burden on these industries to move away from carbon and their cost of doing business goes up vis-a-vis their competitors in China and India, you are going to put them out of business.

So in some circumstances, you have to allocate to these industries some credits so they can make it through the transition phase. This idea of having a 100-percent auction on day one is a radical departure, and it does generate more revenue, and I think that is what this whole exercise is about—revenue—not solving the climate problem. They have a budget problem, and they are using the climate change debate to generate money.

I have asked the Secretary of Energy and the OMB Director: Where did you

get \$646 billion to plug into your budget? What system did you evaluate that would generate that much money? What did the credits trade for? Nobody has a clue. I literally think they made up these numbers. Some people are talking about the \$646 billion being maybe half of what the actual cost would be if you went to a 100 percent auction. So this is a major departure from the way we have tried to solve the climate change problem in the past, and I think it is going to destroy the ability of the Congress to come together to solve a problem that is looming for the world and particularly this country.

So I hope our colleagues who are serious about the climate change issue will reject this proposal, and let's get together, talk among ourselves, rather than making up numbers that will increase the cost to American consumers by hundreds of dollars a month. This idea of using revenue from a cap-and-trade system to pay for a tax plan of the administration is a complete departure from what we have been doing in the past. I wouldn't expect my Democratic colleagues to allow the Republican Party to come up with a cap-and-trade system to fund one of our projects. The money from a cap-and-trade system should go back into the energy economy to help people comply with the cost of a cap-and-trade system and to develop technologies to get us away from using carbon.

The make work pay tax program is something I don't agree with. It doesn't apply to everybody who will be using energy, and it is a departure from how we would envision the use of revenue, and that is a problem that has to be addressed. If the administration is going to insist on a cap-and-trade system that would generate this much money from our economy at a time when we are weak as a nation economically and would dedicate the revenue to controversial programs, they have done more to kill the climate change debate than any group I know of. You have some people who disagree with the idea that climate change is real. I respect them. They are attacking it up front. We are having a genuine debate. But to say you believe in climate change as a result, and you devise a program such as this without talking to anybody means that you have put climate change second to the budget problems you have created by a massive budget. So this is not going to bear fruit. This is a very low point, in my opinion, in the bipartisan effort to try to create a meaningful inclusion to climate change. I hope the administration will reconsider.

To my Democratic colleagues, those of you who stood up and said: We are not going to let reconciliation—we only need 50 votes to pass something regarding climate change; we are not going to go that route, you have done

the country and the Senate a lot of good because if you ever try that, you have destroyed the position of the minority in the Senate on a major piece of legislation, and that is not what we need to be doing. That is certainly not the change that anybody envisioned. That would be a radical departure in terms of how reconciliation has been used in the past.

To take an issue such as climate change, which has a massive economic impact and is politically very difficult with a lot of honestly held differences, and jam that through reconciliation, well, that would not be the politics of the past, that would be the politics of the past on steroids. That would be taking us to a place where no one has gone before, and if you wanted to destroy any chance of working together, that would be a good way to do it.

Now, as to my colleagues on the Democratic side who see through that, God bless you for standing up and not letting that happen.

So I wish to end my discussion with where I began. Senator MCCAIN and others have charted a path that would lead to a bipartisan solution. I hope the President will consider nuclear power because it is very disingenuous to say you want to solve the climate change problem and you will not address nuclear power as part of the solution. Seventy percent of the energy that is created in America that is not emitting, that has no carbon base, comes from nuclear power. When he campaigned for President, candidate Obama openly talked about offshore drilling and nuclear power. When his budget comes out, there is nothing in the budget to enhance nuclear power, and Yucca Mountain is now going to be closed, apparently, and the idea that reprocessing of spent fuel is the way to store less spent fuel seems to be resisted by this administration.

So I thought we were going to have an administration where science trumped politics. Well, I can assure you when it comes to nuclear power, politics is trumping science. Other than that, I have no problem with what they are doing.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from Nevada.

THE BUDGET

Mr. ENSIGN. Madam President, this Nation is in the midst of a serious and defining challenge. Every single day we are buried in the news of our economic turmoil. Thousands more are being laid off, foreclosures are reaching new highs, property values are dipping to new lows, more businesses are shutting their doors, and Americans are struggling to pay for life's essentials. Consumer confidence is tragically low, and Congress has not acted appropriately to make things better. If this is not an-

other Great Depression, it is surely greatly depressing.

Instead of innovative policies that put more money in the hands of consumers and create incentives for small business growth, we are passing trillion-dollar and multibillion-dollar spending bills as if we are in a race to spend money as quickly and as recklessly as possible. It is time to say hold on. It is time to seriously consider what we are doing, what the impact will have, and how we are quickly driving this Nation off a financial cliff.

For as long as living standards have been recorded, Americans have looked to the next generation as an improvement over the last generation. Opportunities, living standards, and conditions have improved. Technology and research have advanced. There is hope that our children will have more, that it will be even better for them. The optimism that has been uniquely American has always driven us to want more for the future generations but, unfortunately, that has changed. Now we are becoming accustomed to taking more from future generations. We are digging ourselves into greater and greater debt at an alarming and an unbelievable rate. We are spending obscene amounts of money today without thinking about who will pay for it. This keeps falling on deaf ears, but it is our children and our grandchildren who will be stuck with the bill.

I know some of my colleagues like to ask: Where was this concern over the last 8 years as the deficits kept rising higher and higher and higher? Rest assured, there has always been a dedicated group of us beating this drum of fiscal responsibility. My question is, why aren't my Democratic colleagues listening now? They can keep blaming the policies of yesterday while this happens, or they can step up now, as more and more of my colleagues have, to demand an end to this selfish spending addiction.

Alexis de Tocqueville once observed that America was made great because of its good and moral people. How good and moral are we if we are so committed to this immediate gratification that we are willing to jeopardize the potential of our children and our grandchildren? If we continue to spend at the rate we are, our children, and even some of us, will be facing tax bills as high as 88 percent. If you think we will still be the land of opportunity with that kind of tax rate, you are wrong.

When I speak to high school students today and tell them they may be facing tax rates as high as 88 percent when they start working, they become speechless. You can see the disbelief and the fear on their faces. It takes a lot to really throw off teenagers these days. Forget doing better than their parents. They won't have a fighting chance at any level of success while bearing this kind of a tax rate burden.

We cannot afford to let selfishness absorb our purpose of life. Once that takes root in our policies, as we are seeing right now, the great experiment of this democracy will be closed and ready for the history books.

Instead, we need to refocus. We need to refocus our efforts on another very American concept—that we are each in control of our own destiny. That means we keep more of our own hard-earned money because we know best how to spend it or save it or invest it. We don't just throw all of our money to the Government and let them choose one cause they believe is better than another cause. That has never been the American way.

Unfortunately, the Obama administration is taking a huge step away from this concept with its effort to knock down charitable groups at a very crucial time. Non-profits around the country are feeling the pain of this economic recession today, and they are serving more and more people and are having a harder and harder time raising the funds they need to address these increased needs. It is a horrible situation. To make it worse, the Obama budget seeks to reduce the tax deduction that donors can take for their contributions. Studies show that this type of change will discourage almost half of those people from making charitable contributions.

The outrage from the non-profit world in Nevada and across the country has been loud and clear. Groups across the spectrum—education, health care, food banks, rehab, et cetera—have all been stunned by this attack on their missions.

Charitable groups have come face to face with an administration that wants to spread the wealth by spending more money on government solutions to education, health care, hunger, and other services.

Unfortunately, the administration's budget is saying to these groups, who work tirelessly in the communities to improve the quality of life of the citizens, that Government knows better and can do better. I believe, as many others do, they are wrong on this point.

I hope more of my colleagues and more Americans will join me in expressing outrage over the Obama Administration's efforts to decrease the charitable deduction for certain taxpayers.

For all the campaigning the President did on transparency in Government spending, he is going to have an awful lot of trouble masking the intent of his budget. It is full of tax hikes that will stifle future growth and knock the wind out of the middle class.

Benjamin Franklin once said:

It is a maxim that those who feel, can best judge.

Well, the American people are feeling a great deal of pain right now. They are in a perfect position to know what

will best improve the economic situation they are facing, and it is not tax increases.

While President Obama has promised not to raise taxes on families who earn less than \$250,000 a year, a proposal called cap and trade will certainly result in people paying more for everything that takes energy to produce—obviously including their electricity bills. This is an indirect tax on all Americans.

This is a quote from last year by then-candidate Barack Obama:

Under my plan of a cap and trade system, electricity rates would necessarily skyrocket.

He is admitting electricity rates will skyrocket under his plan of cap and trade. Does he really think Americans can afford that right now? This is a violation of a campaign promise, just like the one made by the first President Bush when he said, "Read my lips."

Energy Secretary Steven Chu explained earlier this month that because higher prices are supposed to motivate changes necessary to reduce carbon energy use, climate taxes may drive jobs to countries where costs are cheaper. I didn't realize our country was in a position right now to drive jobs overseas. I know lots of Americans who are looking for jobs right here, right now.

People seem to think they have discovered a pot of gold, but that money comes out of the pockets of American families. This is a tax we will all pay—rich and poor. The average annual household burden will be a little over \$3,000—and that is on the low end of the estimate. How many families do you know right now who can handle an additional \$3,000 a year? And because it is a regressive tax, lower income families will actually be hit the hardest.

Compare this to a Making Work Pay tax credit that is supposed to help working families by using money from the new climate tax. Individuals, under the President's proposal, will get \$400 per year, with a phase-out at earnings of individuals earning \$75,000 a year.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. ENSIGN. I ask unanimous consent for 3 more minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ENSIGN. Families will get \$800, with a phase-out of earnings of \$150,000 a year. I am pretty sure that if we ask most families whether they would like to get \$800 in return for paying over \$3,000, they would tell us to just skip the whole exercise. In that respect, the American public is smarter than many folks in Washington.

What will Washington do with the excess money this bill generates? We know what it will do: it will spend it, of course.

Not to worry, President Obama's budget provides targeted tax increases

as well—targeted at small businesses that are responsible for a significant amount of the job creation in this country. Top tax rates on small businesses are going up under President Obama's proposed budget. The lower rate is 33 percent now, and under his proposal it will go to 40 percent. On the highest end, right now, it is 35 percent, and that will go to 42 percent.

History and research have shown that raising taxes on businesses depresses investment. It is not surprising that lower taxes on businesses increase employment and wages. It seems like a no-brainer. But in this new area of Government command and control, President Obama is opting to increase people's taxes—especially on those who creates jobs—in order to pay for a larger and more intrusive Government.

This tax, the President has said, only affects 3 to 4 percent of the small businesses out there. This chart refers to the fact that about half of the small businesses, with 20 or more employees, are eligible for the top tax rates I just pointed out.

This is the important point to make: these small businesses that will be hit by this tax create two-thirds of the jobs in America, and we are going to raise their taxes. That doesn't seem like a bright thing to do, especially with the economic position we are in today. My home State of Nevada has been led by small businesses. We have led the country for many years on the percentage of small businesses creating jobs. We really can't afford to have small business taxes increased in my State, nor in any other State across the country.

Going back to the wise words of Benjamin Franklin, the American people are feeling the pain of this economy. They elected President Obama because he campaigned on a slate of "change." I don't believe this is the change the American people signed up for: reckless and endless spending, higher taxes on small businesses, increased energy costs for all families, fundraising hurdles for charitable groups, and a devastating national debt. The list goes on and on.

Madam President, this is the President's budget, and it is a recipe for disaster. We need to come back to the idea of personal responsibility and letting families and businesses have more of their own money to make the kinds of decisions and investments that will drive prosperity in America.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wisconsin is recognized.

(The remarks of Mr. KOHL and Mr. GRASSLEY pertaining to the introduction of S. 647 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. GRASSLEY. I yield the floor.

EXECUTIVE SESSION

NOMINATION OF ELENA KAGAN TO BE SOLICITOR GENERAL OF THE UNITED STATES

The PRESIDING OFFICER (Mr. BROWN). Under the previous order, the Senate will proceed to executive session to consider the following nomination, which the clerk will report.

The legislative clerk read the nomination of Elena Kagan, of Massachusetts, to be Solicitor General of the United States.

The PRESIDING OFFICER. There is now 6 hours of debate on the nomination, equally divided between Senator LEAHY, the Senator from Vermont, and Senator SPECTER, the Senator from Pennsylvania.

Mr. LEAHY. Mr. President, before we begin, I know that a number of people—I see Senator GRASSLEY, Senator KOHL, and Senator CARDIN on the floor—a number of people have asked me—I hope we will not be taking the full 6 hours. I have not discussed this with Senator SPECTER, so I cannot speak for him. A few of us are going to speak briefly. I hope at some point we will be able to yield back the remainder of our time and go to the vote. I know a number of Senators, especially Senators from the west coast of both parties, tell me they want to try to reach planes later today. And with the weather, there is some problem. So I hope we might be able to yield back time.

Today, the Senate considers the nomination of Elena Kagan to be Solicitor General of the United States. It is fitting that we consider this historic nomination this month—and I think of my wife, my daughter, and my three granddaughters—because, of course, this is Women's History Month. When Elena Kagan is confirmed, she is going to become the first woman to serve as Solicitor General of the United States.

Nearly 10 years ago, President Clinton nominated Elena Kagan for a seat on the Court of Appeals for the DC Circuit. At that time, she had served as a clerk for Supreme Court Justice Thurgood Marshall and for Judge Abner Mikva on the DC Circuit, a law professor at the University of Chicago, Special Counsel to the Senate Judiciary Committee, Associate Counsel to the President of the United States, Deputy Assistant to the President for Domestic Policy, and Deputy Director of the Domestic Policy Council. Her credentials also included two years at Williams and Connolly and a stellar academic career, graduating with honors from Princeton, Oxford, and Harvard Law School, where she was Supervising Editor of the Harvard Law Review. Despite her outstanding record, the then-Republican majority on the Judiciary Committee refused to consider her nomination. In a move that

was unprecedented, she was among the more than 60 highly qualified Clinton nominees that were pocket-filibustered. No Senate majority—Democratic or Republican—has ever done anything like that before or since. Apparently, they felt she wasn't qualified. So she returned to teaching, becoming a professor at Harvard Law School and, in 2003, she became the first woman to be dean of Harvard Law School.

Now, I mention that not just because Elena Kagan reached one of the pinnacles of the legal profession, but in that position, she earned praise from Republicans and Democrats, as well as students and professors, for her consensus-building and inclusive leadership style. She broke the glass ceiling. Now Dean Kagan is poised to break another glass ceiling. Similar to Justice Thurgood Marshall, for whom she clerked, she would make history if confirmed to what Justice Marshall described as "the best job he ever had." I hope that today the Senate will finally confirm her as President Obama's choice to serve the American people as our Solicitor General.

Two weeks ago Dean Kagan's nomination was reported out of the Senate Judiciary Committee, 13 Senators voted in favor, only 3 opposed. Senator KYL, the Assistant Republican Leader, and Senator COBURN voted in favor of the Kagan nomination, and I commend them. Just as I voted for President Bush's nominations of Paul Clement and Gregory Garre to serve as Solicitor General, Senator KYL and Senator COBURN looked past the differences they might have with Dean Kagan's personal views, and recognized her ability to serve as Solicitor General.

I am disappointed that after 2 weeks, with so many critical matters before the Senate, the Republican Senate minority has insisted on 6 hours of debate on a superbly qualified nominee who has bipartisan support. Democrats did not require floor time to debate the nominations of President Bush's last two Solicitors General, Paul Clement and Greg Garre, who were both confirmed by voice vote.

Even the highly controversial nomination of Ted Olson to be Solicitor General, following his role in the Florida recount and years of partisan political activity, was limited in early 2001 to less time. He was eventually confirmed by a narrow margin, 51 to 47. That was the exception. Other than that controversial nomination, every Solicitor General nomination dating back a quarter century has been confirmed by unanimous consent or voice vote with little or no debate.

Just last week, the Republican Senate minority insisted on 7 hours of debate on the Deputy Attorney General nomination before allowing a vote. Of course, after forcing the majority leader to file for cloture to head off a filibuster and then insisting on so much

time, the Republican opposition to that nomination consumed barely 1 hour with floor statements.

I wish instead of these efforts to delay and obstruct consideration of the President's nominees, the Republican Senate minority would work with us on matters of critical importance to the American people. I will note just one current example. Two weeks ago the Senate Judiciary Committee reported an antifraud bill to the Senate. The Leahy-Grassley Fraud Enforcement and Recovery Act, S. 386, needs to be considered without delay. It is an important initiative to confront the fraud that has contributed to the economic and financial crisis we face, and to protect against the diversion of Federal efforts to recover from this downturn.

As last week's front page New York Times story and the public's outrage over the AIG bailout remind us, holding those accountable for the mortgage and financial frauds that have contributed to the worst economic crisis since the Great Depression is what the Senate should be spending its time considering. We have a bipartisan bill that has the support of the United States Department of Justice. It can make a difference. In addition to Senator GRASSLEY, Senator KAUFMAN, Senator KLOBUCHAR, Senator SCHUMER and Senator SHELBY have worked with us on that measure. I would much rather be spending these 6 hours debating and passing that strong and effective antifraud legislation.

Our legislation is designed to reinvigorate our capacity to investigate and prosecute the kinds of frauds that have undermined our economy and hurt so many hardworking Americans. It provides the resources and tools needed for law enforcement to aggressively enforce and prosecute fraud in connection with bailout and recovery efforts. It authorizes \$245 million a year over the next few years for fraud prosecutors and investigators. With this funding, the FBI can double the number of mortgage fraud taskforces nationwide and target the hardest hit areas. The bill includes resources for our U.S. attorneys offices as well as the Secret Service, the HUD Inspector General's Office and the U.S. Postal Inspection Service. It includes important improvements to our fraud and money laundering statutes to strengthen prosecutors' ability to confront fraud in mortgage lending practices, to protect TARP funds, and to cover fraudulent schemes involving commodities futures, options and derivatives as well as making sure the government can recover the ill-gotten proceeds from crime.

I have been trying to get a time agreement to consider the measure ever since March 5 when the Judiciary Committee reported it to the Senate. We can help make a difference for all

Americans. Instead of wasting our time in quorum calls when no one is speaking, or demanding multiple hours of debates on nominations that can be discussed in much less time before being confirmed, let us work on matters that will help get us out of the economic ditch that we have inherited from the policies of the last administration and let us begin to work together on behalf of the American people.

The Kagan nomination is not controversial. Every Solicitor General who served from 1985 to 2009 has endorsed her nomination—Republicans and Democrats from across the political spectrum. They include: Charles Fried, Ken Starr, Drew Days, Walter Dellinger, Seth Waxman, Ted Olson, Paul Clement and Greg Garre. In their letter of support, they wrote:

We who have had the honor of serving as Solicitor General over the past quarter century, from 1985 to 2009, in the administrations of Presidents Ronald Reagan, George H.W. Bush, William Clinton, and George W. Bush, write to endorse the nomination of Dean Elena Kagan to be the next Solicitor General of the United States. We are confident that Dean Kagan will bring distinction to the office, continue its highest traditions and be a forceful advocate for the United States before the Supreme Court.

Prominent lawyers who served in the Office of the Solicitor General in Republican and Democratic administrations have written to praise Dean Kagan's "great legal and personal skills, intellect, integrity, independence and judgment," concluding that "she has all the attributes that are essential to an outstanding Solicitor General."

Deans of 11 of some of the most prominent law schools in the country describe Dean Kagan as "a person of unimpeachable integrity" who "has been a superb dean at Harvard where she has managed to forge coalitions, attract excellent faculty, and satisfy demanding students." They call her "superbly qualified to fulfill the role of representing the United States in the Supreme Court." If there were an equivalent to the ABA rating for judicial nominees, hers would be well-qualified.

One of the conservative professors Dean Kagan helped bring to Harvard Law School was Professor Jack Goldsmith, who took charge of the Office of Legal Counsel after the disastrous tenures of Jay Bybee and John Yoo. Professor Goldsmith, a conservative, praised Dean Kagan as someone who will "take to the Solicitor General's Office a better understanding of the Congress and the Executive branch that she will represent before the Court than perhaps any prior Solicitor General."

Iraq war veterans wrote a letter to the editor of the Washington Times stating that Dean Kagan "has created an environment that is highly supportive of students who have served in

the military," describing the annual Veterans Day dinner for former service members and spouses that she hosts, and the focus she has placed on veterans at Harvard Law School and the military experience of students.

Dean Kagan has taken every conceivable step to meet with Republican Senators and to respond to their supplemental questions to her. Just this week she responded to a letter from the ranking Republican Senator on the committee with extensive written materials. Her answers during her hearing, in her written follow-up questions and then, again, in response to Senator SPECTER's letter, were more thorough than any Solicitor General nominee in my memory. They are light years better than those provided by Ted Olson or other nominees of Republican Presidents. I hope that we will not see Senators applying a double standard to her and her answers. Those who voted for Ted Olson and Paul Clement and Greg Garre based on their answers can hardly criticize Dean Kagan.

Dean Kagan went above and beyond to provide more information than previous nominees. She did not draw the line as Senator SPECTER has previously complained, at saying only as much as needed to get confirmed by a majority vote. Instead, she went well beyond that to disclose as much about her personal views as she thought she could consistent with her duties. As she explained in her March 18, 2009, letter to Senator SPECTER:

[T]he Solicitor General is acting not as policymaker, but as a lawyer representing the long-term interests of the United States. The Solicitor General would make decisions . . . based not on personal views, but on terminate federal interests. And the Solicitor General's office has longstanding and rigorous processes in place, usually involving numerous client agencies and components, to identify and evaluate the nature and extent of these interests.

Dean Kagan has shown that she has a deep understanding of the role of the Solicitor General and her exemplary record makes her well qualified to fulfill those important duties. Last week, when establishing the White House Council on Women and Girls, President Obama noted: "[T]oday, women are serving at the highest levels in all branches of our Government." Let us not take a step backward to the days when women were not allowed to be lawyers or hold the top jobs. I think of the history of when Sandra Day O'Connor graduated from Stanford Law School with a stellar academic record and was told she could only have a secretarial job because, after all, she was a woman. Some woman. She became one of the most prominent members of the U.S. Supreme Court.

It is time for breaking through barriers. It is interesting when you look at the quality of these people. When Sandra Day O'Connor was nominated, one of my close friends in the Senate, who

was her primary supporter, Senator Barry Goldwater of Arizona, brought her to my office. He said:

You know, sometimes she will probably vote ways I will disagree with; sometimes I will agree with her. I am not asking her how she is going to vote on issues, I am just asking her to be honest and fair and use her great talent. That is all anybody can ask for.

She was confirmed, of course, unanimously.

Barry Goldwater was right. I believe I am, too, when I say it is time for breaking through barriers for this highly qualified person. It is also a time for our daughters and granddaughters to see a woman serving as a chief legal advocate on behalf of the United States.

I urge all Senators to support President Obama's nomination and vote to confirm Elena Kagan to be Solicitor General of the United States.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARDIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARDIN. Mr. President, when President Obama nominated Elena Kagan to be the Solicitor General of the United States, I must tell you, I was extremely pleased because I knew of her reputation, I knew of her background, and I thought she would be an excellent choice to be the Solicitor General of the United States.

Chairman LEAHY allowed me to chair the hearing on her confirmation. At that hearing, there were spirited questions asked by many members of the Judiciary Committee. We had a chance to review the background record we go through in the confirmation process. Ms. Kagan responded to the questions of the committee members.

I must tell you, I was even more impressed with this individual to be Solicitor General of the United States. I thought she did an excellent job in responding to the questions of the committee and answering them with candor and giving great confidence that she will represent the United States well before the courts of this country.

The Solicitor General has to appear before the Supreme Court. The Supreme Court Justices can be very difficult in their questioning, as can Members of the Senate during confirmation. I think Elena Kagan demonstrated her ability to represent our Nation well as the Solicitor General of the United States.

She comes to this position very well qualified, as far as her experience is concerned. I know Chairman LEAHY has spoken frequently about the need to continue to restore the morale and integrity of the Department of Justice which has been battered in recent

years. I think Elena Kagan will help us restore the reputation of the Department of Justice and help us because of her dedication—and experience—to public service.

She brings a wide range of service, having served as dean of a law school, a law professor, a senior official at the White House, a lawyer in private practice, a legal clerk for a Justice of the Supreme Court.

A graduate from Princeton University and Harvard Law School, Ms. Kagan clerked for Justice Thurgood Marshall on the Supreme Court and then worked as an associate at the Washington law firm of Williams & Connolly. While teaching law at the University of Chicago, she took on another special assignment as special counsel to Senator JOE BIDEN who was then chairman of the Judiciary Committee. Ms. Kagan assisted in the confirmation hearings of Supreme Court Justice Ruth Bader Ginsburg.

Then in 1995, Ms. Kagan returned to public service to serve as President Clinton's associate White House counsel, Deputy Assistant to the President for Domestic Policy, and Deputy Director of the Domestic Policy Council. So she has a combined academic background as well as public service.

In 1999, Ms. Kagan left Government and began serving as a professor at Harvard Law School, teaching administrative law, constitutional law, civil procedures, and a seminar on legal issues and the Presidency.

In 2003, she was appointed to serve as the dean of the Harvard Law School, becoming the first woman ever to be dean in that school's history.

We have a lot of information that we gather during the confirmation process. One of the most impressive letters was a letter we received from the deans of 11 major law schools in support of the nomination. These are your colleagues. They know you best. They know your qualifications.

The letter states in part that the Office of Solicitor General is a job that "requires administrative and negotiation skills as well as legal acumen, and Elena Kagan excels along all relevant dimensions. Her skills in legal analysis are first rate. Her writings in constitutional and administrative law are highly respected and widely cited. She is an incisive and astute analyst of law, with a deep understanding of both doctrine and policy. . . . Ms. Kagan is also an excellent manager. She has been a superb dean at Harvard . . . Finally, Elena Kagan is known to us as a person of unimpeachable integrity."

The Solicitor General of the United States holds a unique position in our Government. The Solicitor General is charged with conducting all litigation on behalf of the United States in the Supreme Court and is often referred to as the "10th Justice." Indeed, the Supreme Court expects the Solicitor General to provide the Court with candid

advice during oral argument and the filing of briefs on behalf of the United States. The office participates in about two-thirds of all the cases the Court decides on the merits each year.

So it is indeed high praise for Dean Kagan that former Solicitors General Walter Dellinger and Ted Olson joined with six other Solicitors General from both parties—Democrats and Republicans—to write a letter endorsing her nomination. If I might, I would like to quote from the letter from the former Solicitors General who endorse Ms. Kagan's nomination to be Solicitor General of the United States. The letter states, in part:

We are confident that Dean Kagan will bring distinction to the office, continue its highest traditions and be a forceful advocate for the United States before the Supreme Court. Elena Kagan would bring to the position of Solicitor General a breadth of experience and a history of great accomplishment in the law. We believe she will excel at this important job of melding the views of various agencies and departments into coherent positions that advance the best interests of our national government. She will be a strong voice for the United States before the Supreme Court. Her brilliant intellect will be respected by the Justices, and her directness, candor and frank analysis will make her an especially effective advocate.

At the same time, we want the Solicitor General to be independent. That person must exercise independent judgment in representing the best interests of the United States before the Court. Ms. Kagan has shown that independence throughout her career, but she also understands she must follow the law. Let me cite one final letter in support of Ms. Kagan's nomination. The letter is from former Deputy Attorney General Jamie Gorelick and former Attorney General Janet Reno. The letter notes that Elena Kagan would be the first woman to hold this office and that the confirmation will:

... represent an important milestone for the Department of Justice and for women in the legal profession. We have no hesitation in concluding that Kagan possesses the skills and character to excel in the position for which she has been nominated.

Tomorrow will mark President Obama's 60th day in office, and I think it is fitting that today we are on the verge of confirming Elena Kagan's nomination so she can join with the Attorney General in helping to restore the competence of the Department of Justice for the American people. I am certain she will make an excellent Solicitor General, and I hope we will promptly confirm her nomination.

With that, I yield the floor.

Mr. LEAHY. I wish to thank the distinguished Senator from Maryland, who is a valuable member of the Senate Judiciary Committee, for stepping in on such short notice when I had to step off the floor.

I have asked my colleagues on the other side—and I know this is something that is being looked at because

we have both Republicans and Democrats, as I said earlier, trying on a rainy day to move around airplane schedules—if we might be able to have the vote very soon but to reserve the time for Senators who have asked to speak on this subsequent to the vote.

There are no Republicans on the floor at the moment, so I am obviously not going to make a unanimous consent request, but were I to make a unanimous consent request, it would be after consultation with the Republican side that we go ahead and have the rollcall vote and then continue whatever time is necessary for debate.

So I mention that is a request I will make at some point, when there is somebody to represent the Republican leader on the floor.

Until then, I suggest the absence of a quorum, and I ask unanimous consent that the time be charged to both sides equally.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. UDALL of Colorado). Without objection, it is so ordered.

Mr. DURBIN. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORTGAGE CRAM-DOWN

Mr. DURBIN. Mr. President, you are from the State of Ohio; I am from the State of Illinois. We face similar circumstances when it comes to mortgage foreclosures. Lots of the best and strongest cities in my State, large and small, are being inundated with mortgage foreclosures.

Now, this started off with this predatory trap where a lot of people were lured into mortgages they could not afford. But there was a mortgage broker telling them: It will all work out. The price of your home is going to go up, and it is going to be a good source for you to borrow money in the future. So stretch a little. Trust me. You can make these payments, and a year from now, or when the mortgage readjusts, everything is going to be just fine.

It did not work that way. Some people went into these mortgage agreements and negotiations without the equipment to understand what they were getting into.

I am a lawyer by training. I have been through a lot of closings for real estate. We all know what it is about. They sit you in a room, your wife by your side, and put a stack of papers in front of you. They start turning the corners, talking faster than any salesman you have ever run into, telling you: Do not worry about this one, sign

it. Do not worry about this one, sign it. It is routine, required by Federal law—on and on and on. Pretty soon, with your hand weary at the end of half an hour or so, you have signed 30 or 40 documents. They hand you the paper and say: The first payment is due in 60 days. I know you are going to love this place.

That is what most closings are all about. Not many lawyers and very few purchasers stop them and say: I want to read this document. Can you tell me what paragraph 6 means? Are you sure I am understanding everything this means?

Most of the time, the average people in America are at the mercy of the folks sitting around them. They are bankers, they are lawyers, real estate agents. They are at their mercy and, unfortunately, under some circumstances, some people were misled into mortgage arrangements which were just plain wrong.

For the longest time we went through something called no-doc mortgages. Do you know what that means? No documentation.

How much money do you make?

Oh, I don't know, \$50,000.

How much debt do you have?

Oh, I don't know, maybe \$10,000.

You qualify.

Do you need some documentation?

No, we have to move this through fast. We need to capture an interest rate.

This sort of thing was the height of irresponsibility. At the end of the day, people ended up with these subprime mortgages for homes they, frankly, could not afford, and the day quickly came when this house of cards literally collapsed, and mortgages started being foreclosed across America.

Well, it is not just your neighbor's problem when a house is foreclosed upon. It is your problem too. Even if you are making your mortgage payment, that neighbor's misfortune just affected the value of the home you hold near and dear. That neighbor's inability or failure to pay the mortgage payment is going to affect the value of your home where you just made the mortgage payment and continue to. That is the reality.

The Chicago Sun Times recently reported on the situation of Chris and Marcia Parker. They are in the south suburb of Thornton just outside Chicago. They live in a small brick home that Marcia's father built in the early 1950s. She grew up in the house. The couple moved back home to take care of her elderly mother.

At the time they took out a mortgage to pay for a new roof and a new furnace. They ran a small business, but the business failed, causing them to file for bankruptcy. They both landed new jobs with the same company, but were then laid off at the same time last July because of the recession.

Chris, the husband, found a new job; Marcia has not. Now they are falling behind on their mortgage. They put up for sale the house Marcia's father built. They could not find a buyer. They have now received a foreclosure notice. The foreclosure could happen as early as a week from now. They are trying to reach the lender and work out an arrangement to stay in the home her parents built. Worse, they cannot find a place to rent because their previous bankruptcy, based on the failing small business, they have no idea where they are going to live and whether they will lose their home.

Does this sound like a deadbeat couple to you? It does not to me. It sounds like a couple that has fallen on misfortune, tried their best, tried to get back on their feet, and they keep stumbling and falling again despite their best efforts. This family was not reckless. They were not speculators in the market. We are talking about a house her parents built. They did not buy too much house.

This is a story of a family who has tried to do the right thing and is facing the very real possibility of losing their family home and having nowhere to turn. It is happening over and over again.

In Chicago, there were nearly 20,000 homes last year which entered the foreclosure process. This map tells the story. It looks like this great city of Chicago with the measles. Well, it turns out to be this great city of Chicago with a reflection on the 2008 foreclosure filings.

Get down here around Midway Airport where I travel a lot—I go to O'Hare a lot, too, I might add—and take a look at what is going on in these neighborhoods, in these plots. I took a look at one specific Zip Code right around Midway Airport, and I looked at it visually closely. I could only find five blocks in that Zip Code that did not have at least one home in mortgage foreclosure.

Now, if you traveled to these homes, you might notice them when you are flying in and out of the city. These are neat little brick bungalow homes, not lavish homes, basic two- and three-bedroom homes where folks spend the extra dollars to finish the basement, put in an above-ground pool in the backyard, or try to put something in the attic where the kids can sleep over if they want to. These are basic middle-class family homes, and folks are losing them right and left.

Now, 2 weeks ago I went to Albany Park. That is on the north side of the city of Chicago—again, neighborhood after neighborhood of neat little family homes where people care, where the homes are well taken care of, little garden plots and flowers and decorative efforts by them to make sure their home looks special. Smack dab in the middle of that area was a building, a

three-story building that had been, I guess, developed originally as a condo. When they could not sell the condos, they developed it into apartments, and then mortgage foreclosure. That is now boarded up. It has been vandalized by gangs that go in and rip out the copper piping and everything they can get their hands on. The drug gangs hang out there.

I stood around that neighborhood with the neighbors, many of whom were elderly people, folks who have accents because they came to this country and worked hard and now want to retire. They looked at me and said: Senator, what are you going to do about this? This mortgage foreclosure on our block is changing our lives. We put all of our lives in that home, and now this monstrosity of a foreclosure is destroying our property value.

Well, I have been involved in an effort for 2 years to do something about this, 2 straight years. I am still trying. And here is what it is. If you go into bankruptcy, if you have more debts than you have assets, the court right now can take a look at your debts. In some instances, they can try to restructure the debt so you can pay it off.

If you have a vacation home in Florida, the bankruptcy judge can say: Well, rather than foreclose your vacation home in Florida, we think you have enough income coming in that we will work with the lender and try to make the mortgage terms work. If you own a farm, we can work with the lender to make the mortgage terms work. If you own a ranch, same situation. Same thing on that boat, on that car, on that motorcycle; we can do it—with one exception.

Do you know what the exception is? Your private residence. Your personal home. The bankruptcy court is prohibited by law from looking at that mortgage and saving your home. They can save your vacation condo, your ranch, your farm, all of these other things. They cannot save your home.

It makes no sense. If your home means as much to you as it does to my family and most families, you would think that would be a high priority. Who resists this? The banks do and the mortgage bankers do. They have given it this nice, negative name: cram-down. We are going to let the bankruptcy court cram down that mortgage on your home.

Boy, they sure did not use cram-down when it came to vacation homes or farms or ranches, but now they want to stop it. Why? Because many of them do not want to negotiate a new mortgage. It makes no sense.

A bank, when a mortgage goes into foreclosure, will lose at least \$50,000 on that mortgage foreclosure—at least, with legal fees and other expenses. And in 99 percent of the cases in mortgage foreclosure, the house ends up on the

inventory of the bank. That banker who sits behind the desk at your local bank now has to worry about who is going to cut the grass, who is going to drive by to make sure the home is not being vandalized, how in the world they are going to sell it.

What we are trying to do is set up a process so these homes facing foreclosure, thousands and thousands of homes in the city of Chicago which I am honored to represent, and millions of people across America have a fighting chance.

Now, I have made concessions. I have worked on compromises over the 2 years. Some of the financial institutions are finally saying: All right, we will talk to you. When I started working on this problem 2 years ago, they predicted as many as 2 million families in America could lose their homes. They predicted 2 million. We were told by the lending industry that those estimates were grossly exaggerated: 2 years ago, 2 million.

Goldman Sachs now estimates as many as 13 million homes could be lost to foreclosure in the next 5 years. That is one out of every four private residences in America lost to foreclosure, a foreclosed home on every block in every city in every State in America, on average. That is the reality and the truth of this crisis.

Last year when I called up this bill, they said: DURBIN, there you go again. You are exaggerating it. It is not going to be that bad. We will take care of the problem. Well, we gave them all of the help to take care of it, the voluntary programs, and at the end of the day, where are we? We are in a desperate position in this country where we have to step up and finally break this cycle of mortgage foreclosures.

Both sides have to give. I have been willing to compromise, some of the banking institutions have been, to make sure people go into the bank before they go into bankruptcy court, to give them a chance to work out the terms of a mortgage they can afford so they can stay in their homes and neighborhoods can be stabilized.

That is why I fully support President Obama's plan to help 3 to 4 million homeowners save their homes by modifying their mortgages to make them more affordable. The plan creates incentives that we need so that banks will finally do what has not been done for 2 years: aggressively modify loans so foreclosures can be avoided. That is in the best interests of homeowners and banks.

But this plan is voluntary. Voluntary plans have successively failed. Every time we have said to the financial institutions: We will leave it up to you, you decide whether you want to do something, nothing is done of any major consequence. If the lenders don't want to participate in the President's plan or previous plans, they don't have to.

The program pays servicers taxpayer money to offer loan modifications that may not be enough. We need to have at the end the possibility—not the probability but the possibility—that the bankruptcy court will have the last word. That is why the administration has included my plan in their proposal. The President supports my change in the Bankruptcy Code to allow mortgages on primary residences to be modified in bankruptcy just as other debts. If banks don't want judges to modify mortgages for them, they will be far more likely to do it themselves. How would it work? Only families living in the home would qualify. This isn't for speculation. This isn't for that extra condo you bought somewhere in hopes that you could turn a buck. It is your primary residence, the one you live in. Only mortgages for which the foreclosure process has started are eligible. No one who can pay their current mortgage can have a judge change those terms. Judges would be limited in how they can modify the mortgages. They could never create a mortgage that would create a worse result for the bank than foreclosure.

If this bill passes, taxpayers don't lose a buck, and we could have a positive result where many people could win. The mortgages that are modified in bankruptcy will provide far more value to lenders and investors than foreclosure.

Best of all, there is no expense to taxpayers.

This is expensive to taxpayers. Why? Because if the home next door to you goes into foreclosure, the value of your home goes down, property tax revenues go down, and the local unit of government loses the revenue it could receive from those property taxes, for starters.

If you can't buy and sell a home in your neighborhood, do you know what that means to the realtor, to the people who build homes, to those who sell carpeting for new homes, right on down the line?

I will return to the floor next week to talk about this bill. I know opponents hate it. I can't persuade some of them no matter what I do, no matter what concessions I make. But I will not give up. For 2 years, we have been fighting to pass a strong housing bill to turn away this tide of foreclosures in Chicago and across America. I hope that on a bipartisan basis we can do that starting very soon.

I yield the floor.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. What is the business pending before the Senate at the moment?

The PRESIDING OFFICER. The nomination of Elena Kagan to be Solicitor General.

Mr. SPECTER. Mr. President, I came at 2 o'clock, when this nomination was listed for argument, and another Sen-

ator was speaking on another subject. We have just heard another Senator speaking on still another subject. Only two Senators have spoken so far in favor of the nomination. I say to my colleagues on both sides of the aisle, if they have anything to say about the nominee, they ought to come to the floor and speak.

The chairman has raised a proposal about voting on the nomination and speaking afterward. Part of our deliberative process is to have Senators speak with the prospect—maybe unrealistic, maybe foolish—of influencing some other votes. We are not going to influence any votes if we speak after the vote is taken. But it may be that we are not going to have speakers. I urge my colleagues to come to the floor. This is Thursday afternoon. In the Senate, that is a code word. It means we are about to leave. There are no votes tomorrow, so there will be some interest in departure not too long from now. I think we ought to conclude at a reasonable time.

In advance, I had been advised that quite a number of people want to speak for quite a long time. We got an allocation of 3 hours for the Republican side. That means 6 hours equally divided. Now it appears that some who had wanted extensive time will now not be asking for that extensive time. We ought to make the determination as soon as we can as to who wants to speak and for how long so that we can figure out when is a reasonable time to have the vote and conclude the debate so Senators may go on their way.

Turning to the subject matter at hand, the nomination of Dean Elena Kagan for Solicitor General of the United States. I begin by noting Dean Kagan's excellent academic and professional record. I call her Dean Kagan because she has been the dean of the Harvard Law School since 2003.

She has excellent academic credentials: summa cum laude from Princeton in 1981, and magna cum laude from the Harvard Law School in 1986, where she was on the Harvard Law Review. She clerked for Circuit Judge Mikva and Supreme Court Justice Marshall and she has had government service.

I ask unanimous consent that her resume be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. SPECTER. The office of Solicitor General is a very important office. That is the person who makes arguments to the Supreme Court of the United States on behalf of the United States government. In addition to making arguments, the Court frequently asks the Solicitor General for the Solicitor General's opinion on whether a writ of certiorari should be granted in pending cases. So the Solicitor General is sometimes referred to

as the 10th Supreme Court Justice—a pretty important position.

I have gone to substantial length, really great length, to find out about Dean Kagan's approach to the law and approach to the job of Solicitor General and to get some of her ideas on the law because she is nominated to a critical public policymaking position. I had the so-called courtesy visit with her in my office, which was extensive, as ranking member on the Judiciary Committee. We had an extensive hearing, where I questioned her at some length. Written questions were submitted, and she responded. I was not satisfied with the answers that were given, and when her name came before the committee for a vote, I passed. That means I didn't say yea or nay. I wanted to have her nomination reported to the floor so we could proceed, and I wanted an opportunity to talk to her further. I did so earlier this month. I then wrote her a letter asking more questions and got some more replies. I use the word "replies" carefully because I didn't get too many answers as to where she stood on some critical issues.

During the course of the hearing, we discussed extensively some of her very deeply held positions. The question was raised by me, given those positions, would she be able to take a contrary position on some statute that she is obligated to uphold in arguments before the Supreme Court. She said she would. But the question remains, when you feel so strongly—and the record will show what she had to say—whether you can really make a forceful argument as an advocate. Theoretically, you can. Lawyers are not supposed to necessarily believe in their positions; they are supposed to advocate. The clash and clamor of opposing views in our adversarial system is supposed to produce truth. Lawyers advocate more so than state their own positions. But there is a degree of concern when the views are as strongly held as Dean Kagan's have been.

After the long process I have described, I still don't know very much about Dean Kagan. It is frequently hard, in our separation of powers, for the legislative branch to get much information from the executive branch. We look for information, and frequently we are told it is executive privilege. We are told it is part of the deliberative process or we are simply not told anything, with long delays and no responses.

The legislative branch has two critical pressure points. One pressure point is the appropriations process, to withhold appropriations, which, candidly, is not done very often. It is pretty tough to do that. Another point is the confirmation process where nominations are submitted to us to be confirmed, which the Constitution requires. So there the executive branch has no

choice. They can't talk about executive privilege or deliberative process or anything else. But there is a question as to how thorough nominees answers to questions should be.

In discussing what answers we can reasonably expect from Dean Kagan, the issue of the questioning of judicial nominees is implicated to the extent that the tides have shifted as to how many questions Supreme Court nominees are asked. Not too long ago, there weren't even hearings for Supreme Court nominees. Then the generalized view was that nominations were a question of academic and professional qualifications. Then the view was to find out a little bit about the philosophy or ideology of a nominee but not to tread close to asking how specific cases would be decided. The President is customarily afforded great latitude with nominations. Then Senators look for qualifications, with the generalized view that they don't want to substitute their own philosophy or own approach to the law for the discretion of the President. Some Senators do. There is no rule on it. We may be in a period of transition where some have said the Senate ought to do more by way of utilizing Senators' own philosophical positions in evaluating the President's nominees, that we have as much standing on that front as the President. That is an open question, but I don't propose to suggest the answer to it today or to take a position on it. But it bears on how far we can go in asking Dean Kagan questions.

I don't know very much more about her now than I did when we started the process. From the many questions that I asked her on cases, I have picked out a few to illustrate the problem I am having with figuring out where she stands and the problem I am having with her confirmation. One case of substance and notoriety is a case involving insurance for Holocaust survivors.

The Southern District of New York Federal court held that plaintiffs' monetary claims were preempted by executive policy. The Second Circuit wrote to the Secretary of State and asked for the administration's position on the adjudication of these suits with respect to U.S. foreign policy.

Dean Kagan was asked the question of what was her view on this case. This was a pretty highly publicized case, and it is pretty hard to see how an insurance company ought to be preempted or protected by foreign policy considerations. Well, Dean Kagan didn't tell us very much in her answer. The answer takes up two-thirds of a page, and most of it is about the consultative process, which I am, frankly, not much interested in. I want to know what she thinks about the policy.

She said:

At the end of this process, the decision of the Solicitor General on seeking certiorari is likely to reflect in large measure the views

of the State Department as to the magnitude of the foreign policy interests involved.

It does not say very much. I want to know what foreign policy interests she is concerned about.

Another case involving the terrorist attacks captioned "In re Terrorist Attacks on September 11, 2001" where people who were victimized on that day sought damages from Saudi Arabia, Saudi princes, and a banker, who were alleged to have funded Muslim charities that had provided material support for al-Qaida. The Southern District of New York Federal Court dismissed the plaintiffs' claims on the grounds that the defendants were immune from suit. The Second Circuit affirmed, and the Supreme Court then asked the Solicitor General's Office for its recommendation as to whether to grant the petition for certiorari. There, you have the "tenth" Supreme Court Justice, the Solicitor General, coming into the picture.

Well, when I questioned Dean Kagan on this case, her response was: "I am unfamiliar with this case. . . . A critically important part of this process would be to" work with the clients, the Department of State, and the Department of Justice. And the "inquiry would involve exploration of the purposes, scope, and effect of the Foreign Sovereign Immunities Act, as well as consideration of the role private suits might play in combating terrorism and providing support to its victims."

Well, we do not know very much about her views from that answer. There has been a lot of information in the public domain that Saudi charities were involved. Fifteen of the nineteen hijackers were from Saudi Arabia. People were murdered. There are claims pending in court. The question is whether the Supreme Court is going to take the case. Well, I wish to know what the nominee for the position of Solicitor General thinks about it.

I had calls from people in high positions—I do not want to identify them—saying: Well, don't ask those kinds of questions. Somebody in the executive branch. Well, I am not prepared to relinquish the institutional prerogatives of the Senate to ask questions. The executive branch nominees want confirmation. Well, Senators want information to base their opinions on.

In the case of Republic of Iraq v. Beatty, the question was whether Iraq was amenable to suit under the exception to the foreign sovereign immunity clause. American citizens were taken hostage by Saddam Hussein in the aftermath of the first gulf war. They got more than \$10 million in damages. The question, then, is, what would the Solicitor General do? The case is now pending before the Supreme Court. Dean Kagan gives an elongated answer saying very little, virtually nothing:

I have no knowledge of the case and cannot make an evaluation of its merits, even if this

evaluation were appropriate (which I do not believe it would be) while the case is pending before the Court with a brief from the Solicitor General supporting reversal.

Well, Dean Kagan has a point as to how much knowledge she has of the case. But when she says that an evaluation is not appropriate while a brief is pending from the Solicitor General supporting reversal—she is not the Solicitor General. She has not submitted the brief. She is not a party to the action. She is a nominee. She wants to be confirmed. I wish to know how she would weigh this issue.

Americans taken hostage by Saddam Hussein, and the verdict of \$10 million—why not have a judicial determination in a matter of this sort? How much do we defer to foreign governments who have murdered and abused and kidnapped American citizens? I think those are fair questions.

I will discuss one more question because I see my colleague Senator SESSIONS is on the floor.

That is the Kelo case, *Kelo v. London*, a very famous, widely publicized case on eminent domain. Well, does Dean Kagan have the record in the case? Has she gone through it line by line? No, that has not happened. But the case is pretty well known. It is pretty hard to say you do not know much about that. This is what she said in response to my question regarding the case:

I have never written about the Takings Clause; nor have I taught the subject. . . .

Well, if that is relevant—I do not know if we would confirm very many people to the Department of Justice Attorney General position or Solicitor General position or to other positions if you had to have written about it or if you had to have taught a class on the subject. Here again, we know very little as to what she thinks about an issue.

In essence, it is difficult to cast a negative vote on someone with the qualifications and background of Dean Kagan, but we have a major problem of institutional standing to find out from a nominee what the nominee thinks on important questions.

The nominee disagrees with what I have said. I have talked to her about it. She thinks she can be an advocate for issues even though she feels very strongly the other way. She feels she does not have to answer questions because it would be inappropriate because the case is pending and the Solicitor General has rendered an opinion. Well, I disagree with that. I have no illusion the issues I have raised will prevail. I think it is pretty plain that Dean Kagan will be confirmed. But I do not articulate this as a protest vote or as a protest position, but one of institutional prerogatives. We ought to know more about these nominees. We ought to take the confirmation process very seriously. I believe the scarcity

and paucity of Senators who have come to the floor to debate this nomination does not, candidly, speak too well for this institution. We are all waiting to vote to go home. But this is an important position. For a Supreme Court Justice nominee, television cameras would be present during the hearings, and everybody would be there, and everybody would be on camera.

Well, I think we have to pay a little more attention, and I have gone to some length to try to find out more about Dean Kagan. In the absence of being able to do so and to have a judgment on her qualifications, I am constrained to vote no.

Before I yield the floor, Mr. President, again, I ask my colleagues to come to the floor if they are going to have something to say. I would hope we could wind up our activities. We could go until 8 o'clock. I do not think we ought to do that. My view is, we ought to vote no later than 5. But I am not the leader. That is just my view. But I do think people ought to come if they want to speak. Or maybe we will vote at 5 o'clock, and people can speak afterwards. I do not know how it will work out. But I think it would be very healthy if people spoke before the vote on the assumption that we have debate to try to influence other Senators because we are the world's greatest deliberative body, so it says in all the texts.

I yield the floor.

EXHIBIT 1

ELENA KAGAN

SOLICITOR GENERAL OF THE UNITED STATES

Birth: 1960; New York, New York.

Legal Residence: Cambridge, Massachusetts.

Education: B.A., summa cum laude, Princeton University, 1981; Daniel M. Sachs Graduating Fellow, Princeton University; M.Phil., Worcester College, Oxford, 1983; J.D., magna cum laude, Harvard Law School, 1986; Supervising Editor, Harvard Law Review.

Employment: Judicial Clerk, Judge Abner Mikva, U.S. Court of Appeals for the D.C. Circuit, 1986-1987; Judicial Clerk, Justice Thurgood Marshall, U.S. Supreme Court, 1987-1988; Staff Member, Dukakis for President Campaign, 1988; Associate, Williams & Connolly LLP, 1989-1991; Assistant Professor, University of Chicago Law School, 1991-1994; Tenured Professor, 1995-1997; Special Counsel, Senate Judiciary Committee, 1993 (summer); Associate, Counsel to the President, Executive Office of the President, 1995-1996; Deputy Assistant to the President for Domestic Policy, 1997-1999; Visiting Professor, Harvard Law School, 1999-2001; Professor of Law, 2001-Present; Dean, 2003-Present.

Selected Activities and Honors: Public Member, Administrative Conference of the United States, 1994-1995; Litigation Committee Member, American Association of University Professors, 2002-2003; Recipient, 2003 Annual Scholarship Award of the American Bar Association's Section of Administrative Law and Regulatory Practice, 2003; Board of Trustees, Skadden Fellowship Foundation, 2003-Present; Board of Directors, American Law Deans Association, 2004-Present; Research Advisory Council, Goldman Sachs Global Markets Institute, 2005-

2008; Honorary Fellow, Worcester College, Oxford University, 2005-Present; Board of Advisors, National Constitution Center's Peter Jennings Project for Journalists and the Constitution, 2006-Present; Member, New York State Commission on Higher Education, 2007-2008; John R. Kramer Outstanding Law School Dean Award, Equal Justice Works, 2008; Recipient, Arabella Babb Mansfield Award, National Association of Women Lawyers, 2008; Board of Directors, Equal Justice Works, 2008-Present.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. KAUFMAN. Mr. President, I begin by thanking the Senator from Alabama for his courtesy. I appreciate him allowing me to go before him to speak.

I rise today in support of the nomination of Elena Kagan to be Solicitor General of the United States. As we saw from her confirmation hearing in the Judiciary Committee more than a month ago, Elena Kagan has the piercing intellect, superb judgment, and wealth of experience necessary to be an outstanding Solicitor General.

Dean Kagan's academic credentials could not be any more impressive. After graduating summa cum laude and Phi Beta Kappa from Princeton University, she attended the Harvard Law School, served as supervising editor of the Harvard Law Review, and graduated magna cum laude. After law school, she clerked first for Abner Mikva of the District of Columbia Circuit, and then Thurgood Marshall on the U.S. Supreme Court.

That auspicious start to Dean Kagan's legal career was followed by private practice at one of America's leading law firms, and then service in the Office of the Counsel to the President. She has also been a policy adviser to the President, and a legal scholar of the first rank at both the University of Chicago and Harvard.

As others have pointed out, her research and writing in the areas of administrative and constitutional law make her a leading expert on many of the most important issues that come before the Supreme Court.

If that level of experience were not enough, she has spent the last 5 years as the extraordinarily successful dean of the Harvard Law School, which by all accounts is not an easy place to govern.

I note that several of that school's most conservative scholars have voiced their support for this nomination. They praise her vision and judgment, her incredible work habits, and her extraordinary management skills. Just as important, they point to her ability to bridge disagreement, by listening to all sides of an argument, engaging honestly with everyone concerned, and making decisions openly and with good reasons.

No one disputes that Dean Kagan has served Harvard incredibly well. She will do the same for the Office of Solic-

itor General. Her accomplishments as a scholar and teacher are unmatched. Her skill as a leader and manager are beyond dispute.

In fact, she has the support of every single Solicitor General who has served since 1985, including all three who worked in the previous administration. As they wrote to the Judiciary Committee:

We are confident that Dean Kagan will bring distinction to the office, continue its highest traditions and be a forceful advocate for the United States before the Supreme Court.

On a personal note, I want to add that earlier in her career, Dean Kagan spent some time working as an adviser to then-Senator BIDEN. I had the good fortune to get to know her in that context. Based on that experience, and everything I have seen since, I am absolutely convinced not only that she possesses enormous intellect and consummate skill, but also that she is a person of the highest character and unquestioned integrity.

In short, this is an outstanding nominee, and an outstanding nomination.

On March 5, after thorough consideration, a bipartisan majority of the Judiciary Committee—13 to 3—voted to report Dean Kagan's nomination. I urge my colleagues to confirm her without delay, so she can begin the critical task of representing the United States in the Supreme Court.

Mr. President, I yield the floor to the Senator from Alabama.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Mr. President, I wish to share my thoughts about the nomination of Elena Kagan to be Solicitor General.

I have strong concerns about her nomination and will not support her nomination. I do believe the President, like all Presidents, should be entitled to a reasonable degree of deference in selecting executive branch nominees. But for some of the reasons I will set out, and one in particular, I am not able to support this nomination and will not support it.

I believe her record shows a lack of judgment and experience to serve as the Nation's chief legal advocate—a position many have referred to as the Supreme Court's "tenth Justice." It is also a position that has been called the best lawyer job in the world.

Well, so far as I can observe, other than time in the White House Counsel's Office, Dean Kagan has only practiced law for 2 years in a real law firm practicing law. She had very limited experience in the things you would look for in a person of this nature.

But let me discuss one defining moment in her career that I was sort of indirectly involved in because of legislation that was percolating in the Congress, in the Senate and in the House, and it means a lot to me.

During her tenure as dean, Ms. Kagan barred the U.S. military from coming on the Harvard Law School campus to recruit young law graduates to be JAG officers in the U.S. military. That was from November of 2004 through September of 2005. She barred them from coming and recruiting on campus while 150,000 of our finest men and women in this country were serving in combat in Iraq and Afghanistan and during a time in which 938 troops died in combat, preserving the rights of people like law deans, faculty, and students to have all the opinions they want. Her decision to bar the military from her campus during a time of armed conflict represents exceedingly poor judgment and leadership, particularly for someone who wants to lead the Department of Justice, the executive branch, and support the military of the United States.

By refusing to allow military recruiters on the Harvard Law School campus, she placed her own opposition to military policies above the need of our military men and women to receive good legal advice, even from Harvard lawyers. And she did so at a time when the military, serving in conflicts in two foreign countries, was facing a host of complex legal issues. We are still fighting over them, for that matter. Maybe it would have helped if we had some of those graduates participating in them.

I don't believe she ever had a basis to have barred the military from her school's campus, and I believe she should have had the judgment to realize the signal and the impact that was being sent to our military and to the students who want to support and serve in the military. Indeed, President Obama should have realized the signal he was sending by nominating her to this position.

Flagg Youngblood wrote an op-ed in the Washington Times on January 30 and this is what that op-ed stated. I will quote from that article. I think it makes a point. This is a military person:

Since the Solicitor General serves as the advocate for the interests of the American people to the Supreme Court, we're expected to believe Kagan is the best choice? Her nomination smacks of special interest, aimed at protecting the Ivy League's out-of-touch elitism at the expense of students, taxpayers, and our military alike.

And what about the qualified students who desire to serve our country?

In the military, he is referring to.

Second-class, back-of-the-bus treatment, that's what they get, typically having to make time-consuming commutes to other schools and, much worse, the ill-deserved disdain of faculty and peers on their own campuses.

The military, nobly and selflessly, stands alert at freedom's edge, ready to defend our Nation in times of crisis, and should therefore be honored, and, as most Americans would argue, given preferential treatment, for guarding the liberties that academics such as Kagan profess to protect.

That's precisely why Congress intervened more than a decade ago, at the behest of a large majority of Americans who recognize and appreciate what our military does, to fulfill the Constitution's call for a common defense among the few, enumerated Federal powers. And, to stop financing those who undermine that fundamental duty. Yet, left-wing views like Kagan's still disparage the sacrifices our military makes and cause real, quantifiable harm to students and to our Nation at taxpayer expense.

Well, Mr. Youngblood's editorial—he felt deeply about that—deserves, I think, extra force and credibility because he was affected by similar policies when he tried to participate in ROTC while attending Yale University during the 1990s. Due to Yale's exclusion of the ROTC from campus, Mr. Youngblood was forced to travel because he wanted to serve his country, 70 miles to commute to the University of Connecticut to attend the military ROTC classes. His ordeal—and many like it—led to the passage of the Solomon amendment, which is the Federal law that requires colleges to allow military recruiters on campus in order to be eligible for Federal funds.

Well, let me say, that amendment didn't order any university to admit anybody or to allow anybody to come on campus; it simply says when you get a bunch of money from the Federal Government, you at least need to let the military come and recruit students if they would like to join the U.S. military and not exclude them.

So the Solomon amendment is critically important here because it shows that Ms. Kagan's decision to block the military from Harvard Law School's campus was not just wrong as a matter of public and military policy. It was also clearly wrong as a matter of law. While dean at Harvard, Ms. Kagan was a vocal critic of the Solomon amendment. She called the law immoral. She wrote a series of e-mails to the Harvard Law School community complaining about the Solomon amendment and its requirement—horrors—that federally funded universities, if they continue to get Federal money, ought to allow military recruiters on campus or lose the Federal money. She thought that was horrible.

I should note that Harvard receives hundreds of millions of dollars in Federal funding: \$473 million in 2003, \$511 million in 2004, and \$517 million in 2005. That is a lot of money. The Federal highway budget that goes to the State of Alabama is about \$500 million a year. Harvard University gets that much. By opposing the Solomon amendment, Ms. Kagan wanted Harvard to be able to receive these large amounts of taxpayers' dollars without honoring Congress's and President Clinton's judgment that military recruiters were eligible to come on campus. Under the Solomon amendment, Harvard has always had the option of declining Federal funds and relying on

its big endowment—\$34 billion—and their tuition to fund the university. Much smaller institutions, such as Hillsdale College, have chosen to decline Federal funds to carry out their full academic independence. Harvard and Dean Kagan were not willing to do so. They wanted both. They wanted money and the right to kick out the military.

I think she showed her legal judgment regarding the Solomon amendment in 2005 when she joined in an amicus brief of Harvard Law School professors to the U.S. Supreme Court in *Rumsfeld v. FAIR*, opposing the Solomon Amendment's application to Harvard Law School. Unlike the chief litigant—the formal appeal group—in the case, which raised a straightforward first amendment challenge to the Solomon amendment, the brief Ms. Kagan joined with other Harvard Law School professors made a novel argument of statutory interpretation that was too clever for the Supreme Court.

Her brief argued that Harvard Law School did not run afoul of the letter of the Solomon amendment because Harvard law school did not have a policy of expressly barring the military from campus. Harvard, she argued, barred recruiters who discriminate from campus. Her brief reasoned that the Solomon amendment shouldn't apply where the military wasn't singled out, but just ran afoul of a school's non-discrimination policy.

Ms. Kagan's argument was considered by the U.S. Supreme Court and the U.S. Supreme Court upheld the Solomon amendment. In specifically addressing Ms. Kagan's amicus brief with the Harvard professors, Chief Justice Roberts, writing for the Court, dismissed Ms. Kagan's novel statutory interpretation theory using these words:

That is rather clearly not what Congress had in mind in codifying the DOD policy. We refuse to interpret the Solomon amendment in a way that negates its recent revision, and indeed would render it a largely meaningless exercise.

It is telling also to note that the brief she signed on to was unable to convince a single Justice of the Supreme Court to go along with it—not even Justice Ruth Bader Ginsberg who was once general counsel to the American Civil Liberties Union.

Let me mention one more thing people have mentioned about the Kagan decision to bar the military from recruiting on the Harvard campus. Some may have heard that the decision to bar the military was merely honoring a ruling of the Third Circuit, which briefly ruled against the Solomon amendment on a split decision in *Rumsfeld v. FAIR*. It is critical to note that the Third Circuit's ruling never went into effect because the case was appealed to the U.S. Supreme Court and the Third Circuit stayed enforcement of its decision. In other words, the Third Circuit

said: Yes, we have rendered it. We understand our opinion is under appeal. We are not going to issue a mandate or an injunction that our opinion has to be followed. We will allow this case to be decided ultimately by the Supreme Court of the United States.

No injunction was ever entered against enforcement of the Solomon amendment. Any decision by any dean to reject the Solomon amendment and not enforce it was not required by law. The law stayed in effect. In fact, Dean Kagan acknowledged that in an e-mail to the Harvard Law School community in 2005. There was a lot of controversy about this at Harvard. A lot of people weren't happy about it, you can be sure. She admitted in that e-mail that she had barred the military from campus, even though no injunction was in place, saying:

Although the Supreme Court's action meant that no injunction applied against the Department of Defense, I reinstated the application of our anti-discrimination policy to the military . . . ; as a result, the military did not receive assistance during our spring 2005 recruiting season.

So it is clear that the barring of the military took place while the Solomon amendment was, in effect, the law of the land. Her e-mail indicates she understood that at the time. As a result, students who wanted to consider a military career were not allowed to meet with the recruiters on campus. The military was even forced to threaten Harvard University's Federal funding in order to get the military readmitted to campus as time went on. This was all a big deal. The Congress was talking about it. We had debate on it right here on the floor and in the Judiciary Committee, of which I am a member.

I think a nominee to be the Department of Justice's chief advocate before the Supreme Court, to hold the greatest lawyer job in the world, should have a record of following the law and not flouting it. The nominee should, if anything, be a defender of the U.S. military and not one who condemns them. Ms. Kagan's personal political views, I think, are what led to this criticism of the military, this blocking of the military. She opposed a plain congressional act that was put into place after we went through years of discussion and pleading with some of these universities that were barring the military. They had refused to give in, so we passed a law that said, OK, you don't have to admit the military, but we don't have to give you money, and we are not giving you any if you don't admit them. They didn't like that. So Ms. Kagan's refusal of on-campus military recruiters went against a congressional act. Her actions were an affront to our men and women then in combat and now in combat. The Solicitor General should be a person who is anxious and eager and willing to defend

these kinds of statutes and to defend our military's full freedom and right to be admitted to any university, even if some university doesn't agree with the constitutional and lawfully established policies of the Department of Defense.

I would also raise another matter, and I think this is important. If there was some other significant showing, I think, of competence or claim on this position, I would be more willing to consider it. If she were among the most proven practitioners of legal skill before Federal appellate courts or had great experience in these particular positions, maybe I could overcome them. Maybe if she had lots of other cases in her career that could show she had shown wisdom in other areas, but that is not the case. She has zero appellate experience. Dean Kagan has never argued a case before the U.S. Supreme Court, which isn't unusual for most American lawyers, but for somebody who wants to be the Solicitor General whose job it is to argue before the Supreme Court, it is not normal. But for that matter, she has never argued any appellate case before any State supreme court.

In fact, she has never argued a case on appeal before any appellate court, whether Federal, State, local, tribal or military. That is a real lack of experience. When asked about this lack of experience at our hearing, Ms. Kagan tried to compare her record to other nominees saying this:

And I should say, Senator, that I will, by no means, be the first Solicitor General who has not had extensive or, indeed, any Supreme Court argument experience. So I'll just give you a few names:

Robert Bork, Ken Starr, Charles Fried, Wade McCree. None of those people had appeared before the courts prior to becoming solicitor general.

Well, Ms. Kagan's record hardly compares to the names she cited in her own defense.

Regarding Charles Fried, Ms. Kagan was wrong in stating that he never argued to the Supreme Court. Although Professor Fried did not have much in the way of litigation experience before being nominated, he had argued to the Supreme Court while serving as Deputy Solicitor General in Rex Lee's Solicitor General's Office. Accordingly, Mr. Fried had two things Ms. Kagan lacks—Supreme Court experience and experience within the Solicitor General's Office.

Ms. Kagan also compared herself to Ken Starr and Wade McCree, both of whom had a wealth of appellate experience that she lacks. Prior to his nomination to be Solicitor General, Ken Starr served as a U.S. Court of Appeals judge in the District of Columbia—an appellate court—from 1983 to 1989, a court before which the best lawyers in the country appear and argue cases. He had to control and direct their argument, and as a result he got to see and have tremendous experience in that re-

gard as an appellate judge. Wade McCree had even more experience before his nomination. Mr. McCree served as a U.S. Court of Appeals judge in the Sixth Circuit, from 1966 to 1977, 11 years.

Robert Bork also had a strong litigation background before his nomination. He was one of the most recognized, accomplished antitrust lawyers in private practice in the country.

We should not forget the critically important role the Solicitor General plays in our legal system. As Clinton-era Solicitor General Drew Days wrote in the *Kentucky Law Journal*, "the Solicitor General has the power to decide whether to defend the constitutionality of the acts of Congress or even to affirmatively challenge them." That is quite a power—the power to defend statutes in the Supreme Court, or even challenge them in the Supreme Court.

This is a very critical job within our Government. I think it deserves a more experienced lawyer, one with a record that shows more balance and good judgment. I think Ms. Kagan's lack of experience is an additional reason I am uncomfortable with the nomination. I think nominees have to be careful about expressing opinions on matters that might come before them in the future. But for a nonjudicial position, and concerning issues which were commented on today, Senator SPECTER believes she has been less than forthcoming. Had she been more forthcoming, I might have been a little more comfortable with the nominee. Her failure to be responsive to many questions, I think, causes me further concern.

To paraphrase a well-known statement of then-Senator BIDEN—now our Vice President—the job of the Solicitor General does not lend itself to on-the-job training. One time, Rudy Giuliani was arguing about who should be his replacement as U.S. Attorney in Manhattan, and they were discussing people with very little experience. He said: I think it would be nice if they were able to contribute to the discussion every now and then.

I think it is good to have some experience. So I don't see a sense of history here to overcome what I consider to be bad judgment on a very important matter. I supported the nomination of Eric Holder. I like him and I hope he will be a good Attorney General; I think he will. I intend to support most of the other nominees to the Department of Justice. I certainly hope to. But I am not able to support Elena Kagan's nomination in view of her positions concerning the ability of the U.S. military to come on the campus of Harvard and actually recruit the young men and women who might wish to join the military. I think that was wrong. I also believe she has a very significant lack of relevant experience for the position.

I yield the floor.

Mr. INHOFE. I oppose the nomination of Elena Kagan for Solicitor General of the United States. I previously spoke against her on the floor and talked about the reason I was opposed to her as well as David Ogden for his representation of the pornography industry. It is kind of hard for me to understand how someone who is the No. 2 position in the Justice Department has a history of representing the pornography industry. Then, of course, the nominations of Dawn Johnson and Thomas Perrelli I am opposed to because of their strong pro-abortion positions.

But as far as Elena Kagan, it is important for those who are going to vote in favor of her to know some of the things that have happened in her background. Because of its great importance, the office of Solicitor General is often referred to as the 10th Supreme Court Justice.

When serving as a dean of Harvard Law School, she demonstrated poor judgment on a very important issue to me. Ms. Kagan banned the U.S. military from recruiting on campus. She and other law school officials sued to overturn the Solomon amendment. The Solomon amendment originated in the House. Congressman Jerry Solomon had an amendment that said no university could preclude the military from trying to recruit on campus. This was a direct violation of the amendment. She actually was claiming that the Solomon amendment was immoral. She filed an amicus brief with the Supreme Court opposing the amendment. The Court unanimously ruled against her position and affirmed that the Solomon amendment was constitutional.

The Department of Justice needs people who adhere to the law and not to their ideology. While certainly I oppose many of the positions taken by these nominees, I am even more concerned that their records of being ideologically driven will weaken the integrity and neutrality of the Department of Justice.

I oppose the nomination of Elena Kagan.

Mr. HATCH. Mr. President, today I will vote to confirm the nomination of Elena Kagan to be the next Solicitor General of the United States. Because the Constitution gives the appointment power to the President, not to the Senate, I believe the President is owed some deference so long as his nominees are qualified. This standard applies particularly to his executive branch appointments. I will vote for the nomination before us because I believe this standard is satisfied.

Dean Kagan would not be the first Solicitor General to have come from legal academia. Walter Dellinger came to the Clinton administration from Duke, Rex Lee served in the Reagan administration after founding Brigham Young University School of Law.

Nor would Dean Kagan be the first Solicitor General to have come to the post from Harvard. Archibald Cox came from the Harvard law faculty to serve as Solicitor General in the Kennedy administration. Erin Griswold became Solicitor General in 1967 after a dozen years as a Harvard law professor and another 19 as dean. Charles Fried, who taught at Harvard for nearly a quarter century before becoming Solicitor General in 1985, went back to teaching and is now a colleague of Dean Kagan. I was pleased to see him at her confirmation hearing.

I would note two other things about Dean Kagan's qualifications. First, she has no experience arguing before any court. I have long believed that prior judicial experience is not a prerequisite for successful judicial service. Justice Felix Frankfurter taught at Harvard Law School from 1921 until President Franklin D. Roosevelt appointed him to the Supreme Court in 1939. During that time, by the way, he turned down the opportunity to become Solicitor General. But Justice Frankfurter famously wrote in 1957 that the correlation between prior judicial experience and fitness for the Supreme Court is, as he put it, "precisely zero."

But courtroom argument, especially appellate advocacy, is a more specific skill that is related more directly to the Solicitor General's job. As such, Dean Kagan's complete lack of such experience is more significant. Which leads me to the second point that, despite her lack of courtroom experience, every living former Solicitor General has endorsed her nomination. They know better than anyone what it takes to succeed in the post and believe she has what it takes.

Speaking of endorsements, Dean Kagan is also supported by a number of lawyers and former government officials who are well known in conservative legal circles. These include Peter Keisler, who served as Assistant Attorney General and Acting Attorney General under President George W. Bush; Miguel Estrada, prominent Supreme Court practitioner and a former nominee to the U.S. Court of Appeals; Jack Goldsmith, who headed the Justice Department's Office of Legal Counsel under the previous President; and Paul Cappuccio, who served in the Justice Department during the first Bush administration and is now general counsel at TimeWarner.

A few other issues have given me pause during the confirmation process. When Dean Kagan served as a law clerk for Justice Thurgood Marshall, she wrote a memo in a case challenging the constitutionality of the Adolescent Family Life Act. That statute provided funds for demonstration projects aimed at reducing teen pregnancy. Dean Kagan objected to including religious groups in such projects, insisting that "[i]t would be difficult for any reli-

gious organization to participate in such projects without injecting some kind of religious teaching." She actually argued for excluding all religious organizations from programs or projects that are, in her view, "so close to the central concerns of religion." This is a narrow-minded, I think even ignorant, view of religious groups and her recommendation of discrimination against them comes close, it seems to me, to raising a different kind of constitutional problem. Thankfully, the Supreme Court did not follow her suggestion and instead upheld the statute. When asked about it at her hearing in February, Dean Kagan said that, looking back, she now considers that to be, as she put it, "the dumbest thing I ever heard." With all due respect, I agree.

Dean Kagan took a very strong, very public stand against the so-called Solomon Amendment, which withholds federal funds from schools that deny access to military recruiters. Harvard denied such access in protest of the military's exclusion of openly gay servicemembers. Dena Kagan chose to allow access only under the threat of the entire university losing federal money. But she condemned in the exclusion policy in the strongest terms, calling it repugnant and "a profound wrong—a moral injustice of the first order." In her personal capacity, she joined other law professors on a friend of the court brief in the lawsuit challenging the policy. In 2006, the Supreme Court upheld the Solomon Amendment, specifically rejecting the position Dean Kagan had taken, saying: "We refuse to interpret the Solomon Amendment in a way that . . . would render it a largely meaningless exercise." Dean Kagan is entitled to take that or any other position on that or any other issue she chooses. But it raises the question whether she would be able, as the Solicitor General must, to put aside even such strongly held personal views and vigorously defend only the legal interests of the United States. She assured the Judiciary Committee that she could do that, even saying that she would have defended this very statute, the Solomon amendment, in the way that Solicitor General Paul Clement did. I note that Paul Clement is one of the former Solicitors General endorsing Dean Kagan's nomination.

When Dean Kagan's nomination came up for a vote in the Judiciary Committee, I joined the ranking member, Senator SPECTER, in passing because of concerns that she had been insufficiently forthcoming in answering questions during her hearing and written questions afterward. I applaud Senator SPECTER for pursuing this, for meeting with Dean Kagan again, and for pushing her for more information and more thorough answers. She has provided some additional insight into her views, though I respect the fact that her additional effort will not satisfy everyone.

All in all, I have concluded that I can support Dean Kagan's nomination. She is qualified to serve as Solicitor General and I have not seen enough to overcome the basic deference that I believe I must give the President. As such, I will vote to confirm her.

Mr. KYL. The nomination of Elena Kagan to be Solicitor General of the United States is not without controversy. She has a stellar academic record which has been discussed. Following law school, Ms. Kagan served as a judicial clerk for Judge Abner Mikva on the U.S. Court of Appeals and for Supreme Court Justice Thurgood Marshall. After her clerkships, Ms. Kagan joined the DC law firm Williams and Connolly.

Ms. Kagan left private practice to join the faculty of the University of Chicago Law School. In 1995, Ms. Kagan began her service in the Clinton administration as associate counsel to the President and later as deputy assistant to the President for Domestic Policy. In 1999, she left the White House and returned to legal academia, joining the faculty at Harvard Law School. In 2003, Ms. Kagan was named Dean of Harvard Law School, a role in which she was charged with overseeing every aspect of the institution, academic and non-academic alike.

She is well regarded by those who have followed her career.

I am particularly troubled, however, by two matters. First, Dean Kagan's nomination has rightfully received criticism because of her stance on the Solomon amendment. Dean Kagan joined two briefs concerning the legality of the Solomon amendment, one on an amicus brief to the Third Circuit in support of the appellants, *FAIR*, in the case *FAIR v. Rumsfeld*, and the other an amicus brief in support of *FAIR* when the case reached the Supreme Court. By a vote of 9 to 0, the Supreme Court upheld the Solomon Amendment and rejected the argument presented in the brief that Dean Kagan signed. See *Rumsfeld v. FAIR*, 547 U.S. 47, 55–57, 2006. Also, I would like to make one comment about Dean Kagan's actions as dean in this case. As Senator SESSIONS pointed out earlier today, because the case was appealed to the Supreme Court, the Third Circuit stayed enforcement of its decision. Therefore, the Solomon amendment stayed in effect. Dean Kagan acknowledged this in a September 20, 2005, email to the Harvard Law School community, where she admitted that she had barred the military from campus even though no injunction was in place: "Although the Supreme Court's action [granting review] meant that no injunction applied against the Department of Defense, I reinstated the application of our anti-discrimination policy to the military . . . as a result, the military did not receive [Office of Career Services] assistance during our spring 2005 recruiting

season." Thus, Ms. Kagan barred the military from recruiting on campus even though the Solomon amendment remained the law of the land.

Second, I am troubled by Dean Kagan's lack of appellate experience. She has not argued even a single case before the Supreme Court or before any federal or state appellate court. I am quite concerned about her complete lack of appellate advocacy. I am, nevertheless, willing to give her the benefit of the doubt, primarily because of the views of seasoned advocates who know her well and who know the Court well.

All three Solicitors General appointed by President Bush—Ted Olson, Paul Clement, and Greg Garre—signed a letter, January 27, 2009, stating that they "are confident that Dean Kagan will bring distinction to the office, continue its highest traditions and be a forceful advocate for the United States before the Supreme Court." They added, "[h]er brilliant intellect will be respected by the Justices, and her directness, candor and frank analysis will make her an especially effective advocate."

Additionally, among her other supporters are two highly respected conservative lawyers who have known Dean Kagan since the beginning of her legal career. The first is Peter Keisler, who served as Acting Attorney General under President Bush and held a number of other top positions in the Bush Justice Department. He clerked on the U.S. Supreme Court with Elena Kagan, and wrote the following in support of her nomination, January 30, 2009: "[her] combination of strong intellectual capabilities, thoughtful judgment, and her way of dealing respectfully with everybody . . . are . . . among the many reasons she will be a superb Solicitor General, and will represent the government so well before the Court."

Second, Miguel Estrada has known Elena Kagan since law school. He wrote in support of her nomination, January 23, 2009: "Having worked as an attorney in the Solicitor General's Office under Solicitors General of both parties, I am also confident that Elena possesses every talent needed to equal the very best among her predecessors."

I expect a Solicitor General nominated by a President of a different political party to hold views that diverge from my own; but I also expect that nominee to be qualified for the position, able to faithfully execute the responsibilities of the office, and be forthright and honest with members of Congress. She has assured us that her ideology will not interfere with her decisions as Solicitor General. I will closely follow Dean Kagan's tenure as Solicitor General. I will hold her to her commitments.

I would like to make clear that my vote for Dean Kagan is only for the position of Solicitor General, and my

vote does not indicate how I would vote for her if she were nominated for any other position, especially a position that is a lifetime appointment. Specifically, according to numerous news accounts, Dean Kagan is expected to be considered for nomination to the Supreme Court if an opening were to occur during the Obama administration. If she were nominated, her performance as Solicitor General would be critical in my evaluation of her suitability for the Supreme Court. My decision whether to support or oppose her would be strongly influenced by the decisions made by her as Solicitor General, such as the cases for which she does and does not seek review, the positions she argues, and the bases for her arguments. If she approaches her job as Solicitor General ideologically or argues inappropriate positions, I will not hesitate to oppose her nomination.

Mr. WHITEHOUSE. Mr. President, I wish to urge my colleagues to support the nomination of Elena Kagan to be the Solicitor General. In doing so, I will make four brief points.

First, Dean Kagan is extraordinarily qualified as a lawyer with a profound understanding of the issues that dominate the Supreme Court's docket. She has received enormous praise for her leadership of Harvard Law School as dean, in which position she reinvigorated one of the premier legal institutions in our country. And of course Dean Kagan is a scholar of the highest order on questions of administrative and constitutional law. She clearly has the intellectual background and sharp intelligence necessary to represent the interests of the United States with the utmost skill and clarity. She testified in her hearing and in numerous followup questions that she will put the interests of the United States ahead of any of her own beliefs and defend congressional statutes with the vigor and force we expect of the office. She has worked in private practice, as a clerk to the Supreme Court, and as a counsel in the White House. I applaud her willingness to return to Government service. Now, some critics have pointed out that she has not argued before the Supreme Court before. As an attorney who has argued before that Court, I can attest that appearing before the Court indeed is a daunting experience. But Solicitors General Ken Starr, Charles Fried, Robert Bork, and Wade McCree similarly had not argued before the Court. This fact leaves me with no doubt that Dean Kagan will meet the highest expectations of her and that she will excel as Solicitor General.

Second, I would point out that a very large number of leading lawyers have joined me in concluding that Dean Kagan will be an excellent Solicitor General. Dean Kagan's nomination to be Solicitor General has been endorsed by every Solicitor General who served from 1985 to 2009—Charles Fried, Ken

Starr, Drew Days, Walter Dellinger, Seth Waxman, Ted Olson, Paul Clement, and Greg Garre. That is not the Solicitors General from every Democratic administration—that is every Solicitor General over the last 24 years, including conservatives Ted Olson and Ken Starr. Surely their expert opinions should provide a strong indication that Dean Kagan will be an excellent Solicitor General.

Third, it is worth noting the historic nature of this nomination. If confirmed, Dean Kagan would become the first woman confirmed by the Senate to hold the Office of Solicitor General of the United States. Dean Kagan has spent her lifetime breaking glass ceilings, and she is poised to break another for the benefit of generations of women to come.

Finally, I would like to commend Chairman LEAHY for his continuing determination to confirm as many Department of Justice nominees as quickly as possible. The United States deserves the best advocate possible before the Supreme Court. We should confirm Dean Kagan and let her get to work. And we should swiftly confirm the remaining nominees to the Department of Justice. I look forward to continuing to work with Chairman LEAHY in that effort.

Mr. BUNNING. Mr. President, I rise today to speak on the nomination of Dean Elena Kagan of the Harvard School of Law to be Solicitor General of the United States. It is with regret that I announce that I will not be able to support this nomination.

My first reason is that it appears that Dean Kagan's nomination process is not yet complete. My colleague, the ranking member of the Senate Judiciary Committee Senator ARLEN SPECTER, has already spoken on this at some length, but I agree with his thoughts. He asked Dean Kagan, in writing, to expand upon responses she supplied to the Judiciary Committee. In the estimation of several committee members and others, such as myself, she did not provide an adequate response to these requests. I find that it is not possible for me to vote to advance the nomination of someone who has not yet completed the nomination process.

However, we do know some things about Dean Kagan's beliefs. For one thing, she has shown a disdain for the policy contained in the Solomon amendment. The Solomon amendment bars federal aid to universities that prevent military recruitment on campus. This is a good policy and fairly supports our military and the men and women that are a part of it. Dean Kagan defends her position by saying that she opposes the recruiters because of the "Don't Ask, Don't Tell" policy. Whatever her concerns with that policy, it does not seem wise or fair to shut out our nation's military recruit-

ers. By denying recruiters access to America's colleges and universities, our military is weakened. This is the kind of wrongheaded approach that I thought had died out years ago. Unfortunately, it is still alive in the person of the President's nominee to head one of the top positions in the Department of Justice.

Dean Kagan has also expressed an unsettling attitude towards religion and religious organizations. In a memo as a law clerk on the subject of which organizations should receive funding to counsel teenagers on pregnancy, she wrote "It would be difficult for any religious organization to participate in such projects without injecting some kind of religious teaching." She added "When government funding is to be used for projects so close to the central concerns of religion, all religious organizations should be off limits." This seems like an incredibly insensitive, insulting, and impractical view to hold. Does Dean Kagan feel that only atheists are fit to handle government funds? Would she support some sort of a "religious commitment" litmus test? This seems like an attitude that would be unfit for a high ranking member of our government.

It is for these reasons that I cannot support this nomination. I urge my colleagues to join me in opposition.

Mr. CORNYN. Mr. President, I rise to share my views on the nomination of Elena Kagan, who has been nominated by President Obama to serve as Solicitor General of the United States.

As my colleagues know, I have supported several of President Obama's executive nominees and opposed a few others. I believe that it is my constitutional duty to carefully review the record and qualifications of each nominee, while giving an appropriate amount of deference to the President when a nominee is objectively qualified for the position to which they are nominated, regardless of political orientation.

For example, I voted to confirm Secretary of State Hillary Clinton. I likewise voted to confirm Ambassador Ron Kirk to be U.S. Trade Representative.

Unfortunately, I could not reach the same conclusion with Attorney General Eric Holder regarding his fitness to serve as the Nation's top law enforcement official.

And, for the reasons outlined below, I cannot support Elena Kagan's nomination to be Solicitor General. My primary concern with Ms. Kagan's nomination is her continued failure to respond to legitimate and relevant questions posed by me and others.

As I explained when the Judiciary Committee approved Ms. Kagan's nomination on March 5:

Ms. Kagan notes how much she respects the Senate and its institutional role in the nominations process. Regrettably, her refusal to answer legitimate and relevant ques-

tions posed by me and others belies this claimed respect. For this reason, I will be voting 'no' this morning and do not believe that her nomination should be advanced. I hope that Ms. Kagan reconsiders her position because I believe that she is otherwise qualified to serve as Solicitor General.

In response to Senator SPECTER's subsequent request to supplement her answers in writing, Ms. Kagan returned a 22-page letter purporting to do just that. But I concur with Senator SPECTER, the ranking member on the Judiciary Committee, who has determined that too many of Ms. Kagan's answers to relevant and legitimate questions remain incomplete and unresponsive. As Senator SPECTER correctly notes, this is about the Senate's institutional prerogatives.

In sum, I do not believe that Ms. Kagan has provided the basic level of responsiveness that the Senate's constitutional advice and consent function demands. And for that reason I am forced to vote against her.

The PRESIDING OFFICER. The Senator from Vermont is recognized.

Mr. LEAHY. Mr. President, I don't know if there are other Members are coming. While the Senator from Alabama is on the floor, let me note that I heard there may be one or two more Members coming over. I hope they will come soon. I am going to be here, as I have a series of meetings until well after 6, but I know a number on both sides have flights to catch.

Once everybody has spoken, I will suggest that we yield back all time and have a vote. I know the Senator from Alabama had specific time set aside and didn't use all of it. I hope he might join me in calling for other Senators who wish to speak to come over. If they are to speak, it would be better to do it sooner rather than later. It would be a great help to a number of Senators on both sides of the aisle.

Mr. SESSIONS. If the Senator will yield, the chairman of the Judiciary Committee has set up ample time for this to be discussed today. I thank him for that. Senator SPECTER, a little while ago, indicated that he thought the time should be yielded back and we could vote as early as 5. He hoped that would be acceptable, and he urged people to come down if they have comments. I will join him and you in urging people to come down if they have remarks to make. It would be more convenient, I think, for people to have an early vote.

Mr. LEAHY. Mr. President, I thank my friend from Alabama. I urge Members—if there are others—not to wait until 5. And I ask those on the other side of the aisle, if you wish to speak, please do so as soon as possible, because at some point—and we will do this only with notice to the Republican side—I am going to ask unanimous consent to yield back all time and go to a vote.

In the meantime, I suggest the absence of a quorum and ask that the time be equally divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. REED. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REED. Mr. President, it is a distinct honor for me to rise in support of Dean Elena Kagan and her nomination to be Solicitor General of the United States. As most of my colleagues are aware, she has had an illustrious legal career that includes clerking for Judge Abner Mikva on the U.S. Court of Appeals for the District of Columbia and also Justice Thurgood Marshall on the U.S. Supreme Court. She has obtained tenure in two of the most distinguished law schools in the country: the University of Chicago and Harvard Law School. She served as Special Counsel in the Clinton administration, and now she is dean of the Harvard Law School.

I had the privilege of getting to know Dean Kagan through alumni activities at Harvard Law School. She is much younger than I, obviously much smarter than I, but we still are alumni of the same law school. She is extraordinarily qualified to be the Solicitor General based on her intellectual gifts but also in terms of her temperament, her professionalism, her experience, and her innate sense of fairness and decency. She will represent the United States well, not only with her legal analysis but with her commitment to the principles that sustain this country based on the Constitution of the United States. There are many qualities that make her ideally suited for this job—her temperament, her maturity, her judgment, her success in leading one of the most complicated faculties in the country.

Most lawyers have opinions, so when you put 100 or so of them together, you have a lot of different viewpoints. She has led Harvard Law School with great skill and with great success. I think it will be an indication of her ability to lead the Solicitor General's office and to harmonize in principle, reaching substantive agreements, the critical issues that are debated within the this important office and going forward.

In the 5 years she has been dean of the law school, she also received great acclaim for bridging the differences in approaches and viewpoints at the school, with hiring new faculty members with diverse viewpoints, different from hers, recognizing that the heart and soul of an academic institution is debate, vigorous debate, not orthodoxy but vigorous debate, and she has done that.

She has been very attentive to the needs of the students there. I was par-

ticularly impressed when I visited the law school and had a chance to meet some veterans of the U.S. military who had served in Iraq and Afghanistan and who were then current law students at Harvard. Their praise for the dean, both her personal qualities and her leadership qualities, was unstinted. They saw her as someone who deeply appreciated their sacrifice as soldiers, marines, sailors, and airmen in the service of this Nation. They understood this not just from what she said, but from her attitude, her deep and profound respect for their service. I thought that was a particularly telling point, commending her to me in a very real and very immediate sense.

What is also particularly striking about Dean Kagan is that her entire life's work as a legal scholar shows a deep and profound commitment to the Constitution of the United States which governs us all. She has committed herself to giving it meaning, to making it a force to advance the ideals of this country. She brings not only great respect for the Constitution, great knowledge of the Constitution, but also the understanding that this is a document that unites us—our aspirations, our ideals, our hopes, our wishes for the future—it links us to the past and it unites us to go forward into the future.

She was asked by officials at my other alma mater, West Point, in October 2007 to speak to the cadets because they recognize that this is a woman of rare talent as a lawyer and rare judgment, someone who understands that we live in a government of laws, not of men and women. That is a fundamental lesson that must be imparted to those who take an oath to protect with their lives the Constitution of the United States, to recognize that we are a nation of laws, and soldiers, more than anyone else, have to recognize that because it is their lives that give us the opportunity to live under this Constitution of laws.

She used as a touchstone for this speech a place on campus at West Point called Constitution Corner. It was the gift of the West Point class of 1943. It was to recognize that, in fact, soldiers in this great country are servants to the Constitution.

One of the five plaques at this site is entitled "Loyalty to the Constitution," which basically states what all of us who have been in the military are keenly aware, that the United States broke with an ancient tradition. Instead of swearing loyalty to a military leader, American soldiers swear their loyalty to the Constitution of the United States. I had that rare privilege on July 3, 1967, when I took the oath as a cadet at West Point.

The rest of her speech explored the fundamental rule of law, giving purpose and context to what these young men and women, soldiers in our Na-

tion, will do when they lead other soldiers to defend—not territory, not business enterprises, but the foundation of our country—the Constitution of the United States.

She mentioned examples of people who have put the Constitution before their own personal comfort and privilege—President Nixon's Attorney General Archibald Cox, who refused to go along with summary firings in the wake of the Watergate scandal, and President George W. Bush's Attorney General John Ashcroft, our former colleague, both of whom did their best to uphold the rule of law in very trying circumstances. These are examples that I think resonated very well with the cadets.

I believe the dean is someone who has not just the skill, not just the mind, but the heart to serve with distinction as Solicitor General of the United States. She will be a forceful and powerful advocate, not for the administration, not for any small, narrow cause, but for the Constitution of the United States. I believe that is the fundamental role of the Solicitor General, one she will perform admirably.

I recommend without reservation Dean Kagan to this body. I hope we all rise to support her. If confirmed as the first female Solicitor General of the United States, we will be extremely fortunate to have her representing the people of the United States before the Supreme Court of the United States.

Mr. President, I yield the floor. I suggest the absence of a quorum and ask that the time be equally divided between both sides.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BURRIS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. TESTER). Without objection, it is so ordered.

GUN VIOLENCE

Mr. BURRIS. Mr. President, I stand today to discuss a matter of great importance and great sadness to every community across this country. From our biggest cities to our smallest towns, gun violence is stealing the lives of innocent victims. It is tearing apart families, communities, and our own sense of security. Gun violence in our communities must end, and it must end now.

In just the last 2 weeks we have had too many grim reminders of what can happen when there are too many weapons on the street. From Chicago and Maryville, IL, to Samson, AL, we have seen gun violence mix with devastating results.

Friday was a tragic day in Chicago. Last Friday night, 14-year-old Gregory Robinson was gunned down in a car

while driving with his family through Chicago's far south side. This young man's funeral is today. Instead of reaching his dream to become a basketball star at Simeon Career Academy in Chicago, this high school freshman became the 28th Chicago public school student to be killed just this year. Twenty-eight students, Mr. President, I repeat, 28 young lives are now snuffed out.

Last Tuesday was an equally tragic day in the city. On Tuesday, young Franco Avilla, a tenth grader at Roosevelt High School on Chicago's west side, was shot to death. Instead of being the exception, shooting deaths of our school children have now become the rule. Last school year, 26 Chicago public school students were shot during the full 9-month school year. Well, this year, Chicago public schools have already surpassed this sad milestone, and it is only March.

When Franco left his house last Tuesday afternoon, his last words to his father were: "Dad, I'll be back." He never came home. Gun violence took his life.

We must take action now to get these weapons off our streets and end the senseless slaughter of our young people.

Guns played an equally devastating role in the life of Juan Pitts. Mr. PITTS' son, Kendrick, was a 17-year-old student at Bowen High School when he was shot down last month alongside two other Chicago public school students—15-year-old Raheem Washington and 13-year-old Johnny Edwards.

The deaths of these young men are atrocious. Yet the pain and tragedy of the Pitts family has only doubled since then. Two weeks ago, Kendrick's brother, Carnell, who graduated from Bowen High School last year, was shot to death at a gathering on Chicago's south side.

Gangs and gun violence go hand-in-hand. Our youth should be carrying school books instead of firearms. Yet in so many instances, our failure to invest in the education of our youth on the front end is at the root of the violence and imprisonment, as a result, on the back end. Our failure to enact serious, sensible gun control measures make it much more likely these tragedies are going to occur again and again.

We tend to think of gun violence as a problem of large urban areas—a symptom of America's big cities. Well, the truth is, no community is immune to such senseless behavior. I am from a small town. I was born and raised in Centralia, IL, which is about 100 miles south of our State capital of Springfield. I know how close-knit these small-town families and small towns are. I know how safe these towns seem to be.

Sadly, two recent events proved otherwise.

A recent shooting in Maryville, IL, which is about an hour-and-a-half drive

from my hometown of Centralia, reminds us that the dangers associated with guns affect us all, no matter where we live, work, pray or go to school.

Two weeks ago, on a quiet Sunday morning, a 27-year-old gunman walked straight down the aisle of Maryville's First Baptist Church and shot and killed Pastor Winters during the normal weekly service. Just days later, in Samson, AL, we saw the all-too-familiar word flash across our TV screens again—"massacre." A 28-year-old gunman killed a total of 10 individuals and injured many more before he finally took his own life during an hour-long rampage.

The 10 individuals who died, whose lives ended on that tragic Tuesday afternoon, were going about their daily routine without the slightest thought that their lives would end that very day. The many more who were wounded by those gunshots surely never thought they, too, would be victims—survivors, nonetheless—of gun violence.

The stark truth is, everybody is a victim of gun violence. Every Senator in this body has constituents who have been touched by this issue, and it is our responsibility as lawmakers and leaders of this great Nation to ensure assault and semiautomatic weapons do not take the lives of so many innocent victims. We must take action to stop the senseless killing on our Nation's streets, in our communities, at our schools, and in our places of worship. We must take action to increase our gun control measures and decrease our gun violence. Ultimately, by doing so, we will be taking action to ensure our children, our families, and our communities live in a safer place in America.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BURRIS. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURRIS. I ask unanimous consent the time of the quorum call be equally divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURRIS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BENNETT. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BENNETT. Mr. President, I ask unanimous consent that I be allowed to

speak up to 10 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE BUDGET

Mr. BENNETT. Mr. President, President Obama's budget is sending mixed messages to the American people. I know he faces a very difficult time, as do we all. I know he is trying to get the best counsel he can, and I applaud him for that. I do not have a degree in macroeconomics and I know some of the finest macroeconomists in the country are on President Obama's team. I do not know anybody, however, on President Obama's team who has ever run a small business. So, if I may be so presumptuous, I would like to share some of the realities of running a small business with the President's team and see if we can't understand why many of the things that are in the President's budget, in fact, will have directly the opposite effect than he wants.

It is the goal of the administration to increase job creation and spur economic growth. That is a legitimate goal. However, we must understand this about how you increase job creation: You must be sure small businesses are properly taken care of because small businesses provide more than half the jobs Americans hold and small businesses create the new jobs. When large businesses start downsizing, buying people out and laying people off, where do they go? In many instances, those who do not go on unemployment end up in small businesses.

If I may offer my own credentials, I have run businesses that were as small as two people—myself and my secretary. I was recruited to be the CEO—a very high-powered title—of a business that had only four employees. I made number five. We grew that business to the point that there were thousands of employees and the business was ultimately listed on the New York Stock Exchange. So I offer that to the macroeconomists on President Obama's team, to say that if you want to increase jobs and if you want to increase economic growth and thereby increase tax revenue to the Federal Government, you should pay attention to small business.

One of the worst things that can happen to you when you are trying to grow a small business is to make money. That sounds counterintuitive, but it is true. Why? Because you need that money to finance your growth, but the Government shows up and says we want ours in taxes. So you want the tax rate to be as low as possible. The business that I described, that went from four employees to the New York Stock Exchange, was built during what the New York Times and other critics called the decade of greed because the top tax rate was 28 percent, and they thought that was terrible. It was only

28 percent, the top marginal tax rate? That is awful. That only goes for the greedy Americans.

That meant that for every dollar we earned in that business, we got to keep 72 cents of it, which we could use to finance the growth of the business. That business was grown with internally generated funds. Yes, we had a bank line and yes we drew on the bank line, but it was the internally generated funds that made it possible for us to create those thousands of jobs.

Because there were a small number of us in that business, we took the business income onto our personal tax returns. That is allowed under the Tax Code, under what is known as Chapter S, under the Tax Code. We were an S corporation. So while my tax return showed the amount I was paid while I was the CEO of that company, it also showed my share of the profits of the company. None of that came to me. All of that was reinvested in the company. But for tax purposes, it showed up on my tax return. So I, very quickly, for tax purposes, was an American earning more than \$250,000 a year. I was not, but my tax returns showed that I was.

Now, the top tax rate was 28 percent. This was while Ronald Reagan was President. If we were to start that business today and the President's budget were to pass and the President's Tax Code were to be enforced, we would now be paying not 28 percent but 42 percent because you would go to 39.5 percent and then you would have the other add-ons connected with Medicare and the other things that have been changed. I do not believe the business would have survived. I think that tax burden would have been so heavy that we would not be able to make it.

Let me give you the numbers from my own State, to show how important this is. In the State of Utah, we have 68,758 small businesses that employ less than 500 people; we have 65,693 small businesses that employ less than 50 people, and we have 61,057 small businesses that employ less than 20 people.

So the number of people employed by small businesses in Utah—this rules out the farmers, this is not agriculture—is 760,096 in businesses with less than 500 people each. That is 61 percent of Utah's entire employment population.

Now, if you increase the taxes on all of those people on the assumption that they are rich, you increase the taxes on every one of those businesses because they are rich. Look, the owners of the businesses are filing tax returns to show over \$250,000 so they must all be Wall Street brokers and traders. Right.

Now, they are people who are struggling to make the business grow, struggling to provide the jobs. Make no mistake, the tax increases proposed by President Obama's budget will hurt Utah's small businesses, hundreds of thousands of our employees, our

State's economy, and that means, at large, our national economy. So it is a mixed message. The goal is job creation, but the budget will hurt the greatest engine of job creation which is small businesses.

Second, the administration's goal is to increase service in America and invest in the nonprofit sector. That sounds wonderful. Then they turn around and say: If you invest in the nonprofit sector, you, American citizens, we are going to take away a portion of your tax deduction for the gift you give to charity. This is a double hit.

If I am running my small business I have just described, the tax man shows up and gives me less than I can give to charity, and then if I do give some to charity, the tax man shows up and takes more of that away from me by eliminating part of my tax deduction for charity. That is a mixed message. We want you to do this, but we are creating an economic incentive that makes it difficult for you and will penalize you.

Now, finally, the administration has the goal to protect the majority of Americans from tax increases. The President has said over and over that he will not increase taxes for 95 percent of Americans. That sounds wonderful until you turn around and recognize that he is proposing a new energy tax at the gas pump and on your utility bill that will hit 100 percent of Americans.

So on one side: Well, we are not going to hit you on the income tax side. But we are going to take it away from you on the gas pump and utility side. This is because he wants to create a cap-and-trade program. Other countries have cap-and-trade programs. I was in the United Kingdom. I talked to the people about theirs. As they were outlining how it works, I said to them: Do your ratepayers understand they are paying this? This is not money that is created in Heaven.

The answer I got was: Well, they are beginning to. We all saw the reaction of Americans when gas was \$4 a gallon at the pump, and we all felt the heat as our constituents came us to and said: You have got to do something about this; this is far too much for us to pay for gasoline.

Then when the prices came down, that political outrage began to disappear. However, if you do cap and trade in the way the President wants, those prices will start to creep up again. It will be at the gas pump, it will be at the utility. So it is another mixed message.

We have three mixed messages. We want to create jobs, but we are going to tax the greatest engine of creating jobs. We want people to get involved in national service, but we are going to tax them and penalize them if they do. We want Americans, ordinary Ameri-

cans, to go without tax increases, but we are going to increase their taxes on energy and hit them with a fund that will amount to approximately \$650 billion, by virtue of the carbon tax that will come through the cap-and-trade program.

What is the consequence of all of this? My colleagues have talked about the fact that the record spending is going to double the national debt in 5 years, triple it in 10 years. How is the administration going to pay for that? In the ways I have described. They are going to do it through increased taxes.

There is one last thought I want to leave everyone. We can determine here in the Congress how much we spend. We cannot determine here in the Congress how much we take in. We can pass a tax law that will project a certain amount that will come in, but that projection will not come to pass if the economy is not strong. Money does not come from the budget. Money comes from the economy. If the economy is weakened, if the generations of economic growth are weakened in the ways I have described, we will not have the money with which to pay the debt.

So we come back to that which the distinguished Republican leader has said at the beginning of this debate: If you take the President's budget all in all, it spends too much, it taxes too much. And when the taxes do not cover what is being spent, it borrows too much.

I may not be a macroeconomist, but I have a long history of running a business and knowing how devastating the tax man's arrival can be to that business. I have a history of creating jobs, jobs that pay taxes as the employees are compensated. I know this aspect of our economy is one that the Obama administration would be well advised to pay attention to.

I yield the floor.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Mr. President, I ask unanimous consent that at 5 p.m. today, the Senate proceed to vote on confirmation of the nomination of Elena Kagan, and that all debate time on the nomination be yielded back, except that the chairman and ranking member or their designees have 2 minutes each immediately prior to the vote; further, that all provisions of the previous order governing the nomination continue to be effective.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LEAHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Mr. President, I have heard a lot of debate here today. I remind Senators of one thing: The Kagan nomination is not controversial. Every Solicitor General who served from 1985 has endorsed her nomination. That is every Democratic one, every Republican one, across the political spectrum.

Let me read some of the names who have endorsed this woman: Charles Fried, Ken Starr, Drew Days, Walter Dellinger, Seth Waxman, Ted Olson, Paul Clement, Greg Garre. Here is what they wrote in their letter of support:

We who have had the honor of serving as Solicitor General over the past quarter century in the administrations of Presidents Ronald Reagan, George H.W. Bush, William Clinton and George W. Bush, write to endorse the nomination of Dean Elena Kagan to be the next Solicitor General of the United States. We are confident that Dean Kagan will bring distinction to the office, continue its highest traditions, and be a forceful advocate for the United States before the Supreme Court.

One of the conservative professors whom Dean Kagan helped bring to Harvard Law School was Professor Jack Goldsmith. You may remember, he took charge of the Office of Legal Counsel after the disastrous tenures of Jay Bybee and John Yoo.

Professor Goldsmith, a conservative, praised Dean Kagan as someone who takes to the Solicitor General's Office a better understanding of the Congress and the executive branch that she will represent before the Court than perhaps any prior Solicitor General.

I ask unanimous consent that a list of these and the dozens of other supporters be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

LETTERS OF SUPPORT FOR THE NOMINATION OF
ELENA KAGAN TO BE SOLICITOR GENERAL OF
THE UNITED STATES

CURRENT AND FORMER PUBLIC OFFICIALS

David A. Strauss; Gerald Ratner Distinguished Service Professor of Law, The University of Chicago; former Attorney-Adviser in the Office of Legal Counsel of the U.S. Department of Justice and former Assistant to the Solicitor General of the United States.

Charles Fried; Beneficial Professor of Law, Harvard Law School; former Solicitor General.

Clifford M. Sloan; Skadden, Arps, Slate, Meagher & Flom, LLP; former Assistant to the Solicitor General of the United States.

Jack Goldsmith; Professor, Harvard Law School; former Assistant Attorney General, Office of Legal Counsel.

Joint Letter from Former Department of Justice Officials; Janet Reno, former Attorney General;

Jamie S. Gorelick, former Deputy Attorney General; Patricia Wald, former Assistant Attorney General for Legislative Affairs; Eleanor D. Acheson, former Assistant Attorney General for the Office of Policy Development; Loretta C. Argrett, former Assistant Attorney General for the Tax Division; Jo Ann Harris, former Assistant Attorney General for the Criminal Division; Lois Schiffer,

former Assistant Attorney General for the Environment and Natural Resources Division.

Joint Letter from Former Solicitors General; Walter Dellinger, Theodore B. Olson, on behalf of: Charles Fried, Kenneth W. Starr, Drew S. Days III, Seth P. Waxman, Paul Clement, Gregory G. Garre.

Judith A. Miller; former General Counsel, Department of Defense.

Miguel A. Estrada; Gibson, Dunn & Crutcher, LLP; former Assistant to the Solicitor General.

Paul T. Cappuccio; Executive Vice President and General Counsel of Time Warner; former Associate Deputy Attorney General.

Peter Kiesler; former Assistant Attorney General for the Civil Division.

Roberta Cooper Ramo; former President, American Bar Association.

LAW ENFORCEMENT AND CRIMINAL JUSTICE
ORGANIZATIONS.

Women in Federal Law Enforcement.

CIVIL RIGHTS ORGANIZATIONS

John Payton; President and Director-Counsel, NAACP Legal Defense Fund, Inc.

National Association of Women Lawyers.

National Women's Law Center.

OTHER SUPPORTERS

Brackett B. Denniston, III; Senior Vice President and General Counsel, General Electric.

Bradford A. Berenson; Sidley Austin, LLP.

Jeffrey B. Kindler; Chairman of the Board, Chief Executive Officer, Pfizer, Inc.

John F. Manning; Bruce Bromley Professor of Law, Harvard Law School.

Joint Letter from former Harvard Law Students; Katie Biber Chen, Class of 2004; Anjan Choudhury, Class of 2004; Justin Driver, Class of 2004; Isaac J. Lidsky, Class of 2004; Meaghan McLaine, Class of 2004; Carrie A. Jablonski, Class of 2004; Jeffrey A. Pojanowski, Class of 2004; Beth A. Williams, Class of 2004; John S. Williams, Class of 2004; David W. Foster, Class of 2005; Courtney Gregoire, Class of 2005; Rebecca Ingber, Class of 2005; Lauren Sudeall Lucas, Class of 2005; Kathryn Grzenczyk Mantoan, Class of 2005; Anton Metlitsky, Class of 2005; Chris Murray, Class of 2005; Rebecca L. O'Brien, Class of 2005; Beth A. Stewart, Class of 2005; Ryan L. VanGrack, Class of 2005; David S. Burd, Class of 2006; Eun Young Choi, Class of 2006; Matt Cooper, Class of 2006; Brian Fletcher, Class of 2006; David S. Flugman, Class of 2006; Adam D. Harber, Class of 2006; Jeffrey E. Litman, Class of 2006; Dana Mulhauser, Class of 2006; Meredith Osborn, Class of 2006; Matthew Price, Class of 2006; John M. Rappaport, Class of 2006; Kimberly J. Ravener, Class of 2006; Rachel Rebouche, Class of 2006; Zoe Segal-Reichlin, Class of 2006; Jeremiah L. Williams, Class of 2006; Tally Zingher, Class of 2006; L. Ashley Aull, Class of 2007; Daniel F. Benavides, Class of 2007; Robert P. Boxie, III, Class of 2007; Damaris M. Diaz, Class of 2007; Gabriel Kuris, Class of 2007; Adam R. Lawton, Class of 2007; John A. Mathews II, Class of 2007; Michele A. Murphy, Class of 2007; Michael A. Negron, Class of 2007; Alexi Nunn, Class of 2007; Josh Paul Riley, Class of 2007; Jasmin Sethi, Class of 2007; Jane Shvets, Class of 2007; Jason M. Spitalnick, Class of 2007; James Weingarten, Class of 2007; Amy C. Barker, Class of 2008; Kathryn Baugher, Class of 2008; Margaux Hall, Class of 2008; Rochelle Lee, Class of 2008; Daniel P. Pierce, Class of 2008; Elizabeth Russo, Class of 2008; Megan Ryan, Class of 2008; Andrew M. Woods, Class of 2008.

Joint Letter from Former Lawyers in the Solicitor General's Office; Andrew L. Frey, Assistant to the Solicitor General, Deputy Solicitor General; Kenneth S. Geller, Assistant to the Solicitor General, Deputy Solicitor General; Philip Allen Lacovara, Assistant to the Solicitor General, Deputy Solicitor General; Andrew J. Pincus, Assistant to the Solicitor General; Charles A. Rothfeld, Assistant to the Solicitor General; Stephen M. Shapiro, Assistant to the Solicitor General, Deputy Solicitor General.

Joint Letter from Iraq War Veterans and Harvard Law Students; Geoff Orazem, Hagan Scotten, and Erik Swabb.

Joint Letter from Law School Deans; Larry D. Kramer, Dean and Richard E. Lang Professor of Law, Stanford Law School; T. Alexander Aleinikoff, Dean, Georgetown University Law Center; Evan H. Caminker, Dean, The University of Michigan Law School; Michael A. Pitts, Dean, University of Pennsylvania Law School; Harold H. Koh, Dean and Gerard C. and Bernice Latrobe Smith Professor of International Law, Yale Law School; David F. Levi, Dean, Duke University School of Law; Saul Levmore, Dean and William B. Graham Professor of Law, The University of Chicago Law School; Paul G. Mahoney, Dean, University of Virginia School of Law; Richard L. Revesz, Dean and Lawrence King Professor of Law, New York University School of Law; David M. Schizer, Dean, Columbia University School of Law; David van Zandt, Dean, Northwestern University School of Law.

Joseph H. Flom; Skadden, Arps, Slate, Meagher & Flom, LLP.

Judith Lichtman; Senior Advisor, National Partnership for Women & Families.

Laurence H. Tribe; Carl M. Loeb University Professor, Harvard University.

Martin Lipton; Wachtell, Lipton, Rosen & Katz.

Robert D. Joffe; Cravath, Swaine & Moore, LLP.

Robert Katz; The Goldman Sachs Group, Inc.

William F. Lee; Co-Managing Partner, Wilmer-Hale; former Member, Board of Overseers of Harvard College and the Visiting Committee to Harvard Law School.

Mr. LEAHY. It is time for our daughters and granddaughters to see a woman serving as the chief legal advocate on behalf of the United States. I urge all Senators, just as the Republican and Democratic former Solicitors have supported her, to support President Obama's nomination.

Vote to confirm Elena Kagan to be Solicitor General of the United States.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEAHY. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. WHITEHOUSE). Without objection, it is so ordered.

Under the previous order, there will now be 4 minutes of debate, equally divided, prior to a vote on the Kagan nomination.

Mr. LEAHY. Parliamentary inquiry: I thought the vote was going to be at 5 o'clock.

The PRESIDING OFFICER. After the 4 minutes of debate.

Mr. LEAHY. Mr. President, I ask unanimous consent that all time for both sides be yielded back.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is, Will the Senate advise and consent to the nomination of Elena Kagan, of Massachusetts, to be Solicitor General of the United States?

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from California (Mrs. BOXER), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Minnesota (Ms. KLOBUCHAR), and the Senator from Washington (Mrs. MURRAY) are necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Nevada (Mr. ENSIGN), the Senator from South Carolina (Mr. GRAHAM), and the Senator from Mississippi (Mr. COCHRAN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 61, nays 31, as follows:

[Rollcall Vote No. 107 Ex.]

YEAS—61

| | | |
|-----------|------------|-------------|
| Akaka | Gillibrand | Mikulski |
| Baucus | Gregg | Nelson (FL) |
| Bayh | Hagan | Nelson (NE) |
| Begich | Harkin | Pryor |
| Bennet | Hatch | Reed |
| Bingaman | Inouye | Reid |
| Brown | Johnson | Rockefeller |
| Burris | Kaufman | Sanders |
| Byrd | Kerry | Schumer |
| Cantwell | Kohl | Shaheen |
| Cardin | Kyl | Snowe |
| Carper | Landrieu | Stabenow |
| Casey | Lautenberg | Tester |
| Coburn | Leahy | Udall (CO) |
| Collins | Levin | Udall (NM) |

NOT VOTING—7

| | | |
|---------|-----------|--------|
| Boxer | Graham | Murray |
| Cochran | Kennedy | |
| Ensign | Klobuchar | |

The nomination was confirmed.

The PRESIDING OFFICER. Under the previous order, the motion to reconsider is considered made and laid upon the table.

The President will be immediately notified of the Senate's action.

Mr. MCCAIN. The President nominated Elena Kagan, currently dean of Harvard Law School, for Solicitor-General of the United States. While I do not share many of Dean Kagan's views, I especially disagree with Dean Kagan on the constitutionality of the Solomon amendment.

In 2005, Dean Kagan and 53 other law school faculty members filed an amicus brief to declare the Solomon amendment unconstitutional. The Solomon amendment, named for former Congressman Jerry Solomon, allows military recruiters to meet with students on college campuses and allows the Reserve Officers' Training Corps, ROTC, to train on college campuses. The Supreme Court found Dean Kagan's arguments to be unpersuasive and declared the Solomon Amendment to be constitutional. I believe the Supreme Court was absolutely correct in its decision.

It is my hope that as Solicitor General, Dean Kagan will not allow her personal viewpoint on this important issue to prohibit the implementation of the Solomon amendment and that our military recruiters continue to recruit the best and brightest at our Nation's colleges to serve in our military.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will resume legislative session.

The majority leader is recognized.

UNANIMOUS CONSENT REQUEST— H.R. 1586

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 1586, an act to impose an additional tax on bonuses received from certain TARP recipients, just received from the House and at the desk; that the Baucus-Grassley amendment, which is the text of S. 651, which was introduced today by Senators BAUCUS, GRASSLEY, and others, be considered and agreed to, the motions to reconsider be laid upon the table, the bill, as amended, be read three times, passed, and the motion to reconsider be laid on the table.

The PRESIDING OFFICER. Is there objection?

Mr. KYL. Mr. President, reserving the right to object, I don't believe Congress should rush to pass yet another piece of hastily crafted legislation in this very toxic atmosphere, at least without understanding the facts and the potential unintended consequences. Frankly, I think that is how we got into the current mess.

As the chairman of the Finance Committee said last week:

Frankly it was such a rush—we're talking about the stimulus bill now—to get it passed, I didn't have time and other conferees didn't have time to address the provisions that were modified significantly.

I don't know what is in this legislation. Nobody else knows what is in this legislation. There have been no hearings. It seems to me the Banking Committee should have a hearing. The Finance Committee should have a hearing. Obviously, any tax legislation should be vetted through the Finance Committee. I am a member of that committee. We haven't had any meetings to talk about this. Other Senators need time to consider the bill and offer amendments through the regular order through the committee process. More importantly, because of the public interest, the public ought to have the right to review this legislation to make sure it doesn't have any additional loopholes or unintended consequences.

The Baucus bill, as I understand it, is retroactive, not something we ordinarily do with tax policy. It seems to me we ought to have these hearings before we let this legislation come to the body. Therefore, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. REID. Mr. President, before my friend leaves, I appreciate the statement of my friend from Arizona. At least he is willing to look at it and study it, and I appreciate that very much. The Republican leader in the House, of course, was opposed to it, so we are glad the Republican assistant leader, the Republican whip, as a member of the Finance Committee, will look at it. The bill has been filed on our side and, hopefully, we can work toward getting something done. I appreciate the statement of the Senator from Arizona.

I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. KAUFMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KAUFMAN. Mr. President, I ask unanimous consent to proceed as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

FAIRNESS OF FINANCIAL MARKETS

Mr. KAUFMAN. Mr. President, I wish to spend a few minutes talking about action that needs to be taken to restore the credibility of the fairness of the American financial markets.

On Monday, Senators ISAKSON, TESTER, and I introduced S. 605, which directs the Securities and Exchange Commission to write regulations that will deal effectively with abusive short selling.

One of the abusive techniques addressed in the bill is so-called "naked

short selling." Naked short selling is when traders sell shares they don't own and have no ability to deliver at the time of sale—which dilutes the value of a company's shares and can drive prices down artificially.

Before the ink on our bill was even dry, we received a profoundly disappointing report from the SEC's inspector general entitled "Practices Related to Naked Short Selling Complaints and Referrals," a report detailing the results of an audit on the SEC Division of Enforcement's policies, procedures and practices for processing complaints about naked short selling.

An astounding 5,000 complaints about abusive short selling were sent to the SEC's Enforcement Division between January 1, 2007 and June 1, 2008. There could be no mistaking the scale of the potential problem that that number of complaints reflected. Incredibly, a mere 123 complaints were referred for further investigation. Worse, and I quote: "none of the forwarded complaints resulted in enforcement actions . . ." five thousand complaints, zero enforcement actions.

Not surprisingly, the SEC inspector general has concluded that the processes for dealing with such complaints need a fundamental overhaul.

Accordingly, the IG made 11 suggestions for improvements. And how did the Enforcement Division respond? It agreed to one of the IG's recommendations, and declined to move on the rest.

I have been around Washington and the Senate for 36 years, but rarely have I seen an inspector general's call for action so summarily dismissed.

In its comments to the IG report, the SEC Enforcement Division stated:

there is hardly unanimity in the investment community or the financial media on either the prevalence, or the dangers, of "naked" short selling.

I ask my colleagues: Why would the SEC Enforcement Division want to wait until there is unanimity in the investment community and the financial media to enforce the law? Why would the SEC Enforcement Division in its comments to the IG report want to give a virtual "green light" to continued abusive naked short selling? That is an enforcement division that is not worthy of its name.

In the IG's response to the Enforcement Division, the IG notes that it is "disappointed" that the Enforcement Division only concurred with one of the 11 recommendations in the audit report. The IG is "particularly concerned" that the Enforcement Division did not concur in its first three recommendations—that the Division should develop a written in-depth triage analysis for naked short selling complaints.

Moreover, the IG notes:

SEC has repeatedly recognized that naked short selling can depress stock prices and have harmful effects on the market. In

adopting a naked short selling antifraud rule, Rule 10b-21, in October 2008, the Commission stated, "We have been concerned about "naked" short selling and, in particular, abusive 'naked' short selling, for some time.

Where does this leave us, Mr. President? We have an SEC that is ostensibly concerned about abusive naked short selling, but we have an enforcement division—after receiving literally thousands and thousands of complaints about naked short selling—that has brought no enforcement actions and doesn't take seriously an IG audit and recommendations.

This is an outrage.

I want to be clear, this was the record from a review of last year's examination of short selling complaints. This is an issue Mary Schapiro, the new SEC chair, has inherited. She just got to the SEC. But this is a strong indication of the need for real leadership at the SEC. Unless and until that happens, investors will have reason to worry that markets are not yet free of manipulation and abuse.

Of all the challenges confronting our financial system, none is more important than restoring investors' trust and confidence in the market—the belief that the game isn't rigged against them. After the disastrous and unprecedented losses of the past year, millions of Americans will refuse to put their resources back into the stock market until they believe the system is once again sound, fair and adequately overseen by the SEC.

In the not-so-distant past, a strategy of long-term buying-and-holding offered a roadmap for comfortable living in retirement and the ability to provide to our children and grandchildren that all-important economic head start in life.

Then, the market valued companies based on economic fundamentals and expected future profits.

Today, too many people view the stock markets as another gambling casino, dominated by volatility and susceptible to predatory short sellers who profit from false rumors and bear raids.

To restore faith in our securities markets, the Securities and Exchange Commission urgently needs to reflect a clear commitment to meaningful change.

It is time to restore the integrity, efficiency and fairness of our securities markets by preventing manipulative short selling, ensuring that the market fairly values the actual shares issued by a company, and outlawing the creation of "phantom shares" by abusive short sellers.

Let's remember how we got here. The opaque derivatives market allowed some people to play a shell game by leveraging to the hilt and buying and selling synthetic instruments that ultimately crashed in value. The same thing happens through abusive short selling, when traders sell shares they

do not own and have no ability to deliver at the time of sale.

It is like making copies of your car's title, and then selling the title to the car three times, while hoping you can find other cars to deliver if the buyer proceeds.

In some cases, the short interest in a particular company's stock on a given day has spiked dramatically after false rumors have circulated about the company. The data further show that "fails" to deliver are large and problematic.

That is evidence of manipulation. It distorts the market. It must end now.

Let me be clear: the problem isn't short selling itself, which can enhance market efficiency and price discovery.

The problem is that, under current rules, short sellers can sell stocks they haven't actually borrowed in advance of their short sale—and with no uptick rule in place as a circuit breaker. The current standard requires only a "reasonable belief" that a short seller can locate the necessary shares by the delivery date; that is no standard at all and subjects the market to rife abuse.

For the market to flourish again, the SEC must issue rules and enforce them in a way that convinces investors the system is not rigged against them.

One important step the SEC should take now is to reinstate the substance of its former "uptick" rule.

The uptick rule served us well for 70 years until the SEC rescinded it in July 2007. It required short sellers to take a breath and wait for a sale at a higher price before continuing to sell short in declining markets. According to one survey, 85 percent of CEOs, and professionals at NYSE-listed companies favor reinstating it. Fed Chairman Bernanke, bipartisan Members of Congress, and former regulators favor reinstating it. The SEC should do that now.

Restoring the uptick rule is necessary, but not sufficient, to rein in abusive short selling. If the SEC is to alter fundamentally the way stocks trade today, it must also require—and enforce—short sellers possessing at the time of the sale a demonstrable legally enforceable right to deliver the shares—a so-called "pre-borrow" requirement. We simply can't tolerate a market that permits short sellers to create phantom shares that dilute a company's value, erode the value of investors' holdings and manipulate share prices downward.

A recent Bloomberg news report based on SEC data confirmed that so-called "naked" short selling contributed significantly to the demise of Lehman Brothers and Bear Stearns. Those companies took horrendous gambles and their share values had to reflect those serious missteps, but in the absence of "naked" short selling both might nevertheless have survived.

Abusive short selling is gasoline on the fire for distressed stocks and distressed markets. And the knowledge

that it is still tolerated rattles small investors and shakes confidence in our markets.

Mr. President, I ask unanimous consent that this story be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From Bloomberg.com, Mar. 19, 2009]

NAKED SHORT SALES HINT FRAUD IN BRINGING DOWN LEHMAN (CORRECT)
(By Gary Matsumoto)

(Corrects levels of failed-to-deliver shares in second and 18th paragraphs.)

The biggest bankruptcy in history might have been avoided if Wall Street had been prevented from practicing one of its darkest arts.

As Lehman Brothers Holdings Inc. struggled to survive last year, as many as 32.8 million shares in the company were sold and not delivered to buyers on time as of Sept. 11, according to data compiled by the Securities and Exchange Commission and Bloomberg. That was a more than 57-fold increase over the 2007 peak of 567,518 failed trades on July 30.

The SEC has linked such so-called fails-to-deliver to naked short selling, a strategy that can be used to manipulate markets. A fail-to-deliver is a trade that doesn't settle within three days.

"We had another word for this in Brooklyn," said Harvey Pitt, a former SEC chairman. "The word was 'fraud.'"

While the commission's Enforcement Complaint Center received about 5,000 complaints about naked short-selling from January 2007 to June 2008, none led to enforcement actions, according to a report filed yesterday by David Kotz, the agency's inspector general.

The way the SEC processes complaints hinders its ability to respond, the report said.

Twice last year, hundreds of thousands of failed trades coincided with widespread rumors about Lehman Brothers. Speculation that the company was being acquired at a discount and later that it was losing two trading partners both proved untrue.

After the 158-year-old investment bank collapsed in bankruptcy on Sept. 15, listing \$613 billion in debt, former Chief Executive Officer Richard Fuld told a congressional panel on Oct. 6 that naked short sellers had midwived his firm's demise.

GASOLINE ON FIRE

Members of the House Committee on Government Oversight and Reform weren't buying that explanation.

"If you haven't discovered your role, you're the villain today," U.S. Representative John Mica, a Florida Republican, told Fuld.

Yet the trading pattern that emerges from 2008 SEC data shows naked shorts contributed to the fall of both Lehman Brothers and Bear Stearns Cos., which was acquired by JPMorgan Chase & Co. in May.

"Abusive short selling amounts to gasoline on the fire for distressed stocks and distressed markets," said U.S. Senator Ted Kaufman, a Delaware Democrat and one of the sponsors of a bill that would make the SEC restore the uptick rule. The regulation required traders to wait for a price increase in the stock they wanted to bet against; it prevented so-called bear raids, in which successive short sales forced prices down.

DRIVING DOWN PRICES

Reinstating the rule would end the pattern of fails-to-deliver revealed in the SEC data, Kaufman said.

"These stories are deeply disturbing and make a compelling case that the SEC must act now to end abusive short selling—which is exactly what our bill, if enacted, would do," the senator said in an e-mailed statement.

Short sellers arrange to borrow shares, then dispose of them in anticipation that they will fall. They later buy shares to replace those they borrowed, profiting if the price has dropped. Naked short sellers don't borrow before trading—a practice that becomes evident once the stock isn't delivered. Such trades can generate unlimited sell orders, overwhelming buyers and driving down prices, said Susanne Trimboth, a trade-settlement expert and president of STP Advisory Services, an Omaha, Nebraska-based consulting firm.

The SEC last year started a probe into what it called "possible market manipulation" and banned short sales in financial stocks as the number of fails-to-deliver climbed.

'UNSUBSTANTIATED RUMORS'

The daily average value of fails-to-deliver surged to \$7.4 billion in 2007 from \$838.5 million in 1995, according to a study by Trimboth, who examined data from the annual reports of the National Securities Clearing Corp., a subsidiary of the Depository Trust & Clearing Corp.

Trade failures rose for Bear Stearns as well last year. They peaked at 1.2 million shares on March 17, the day after JPMorgan announced it would buy the investment bank for \$2 a share. That was more than triple the prior-year peak of 364,171 on Sept. 25.

Fuld said naked short selling—coupled with "unsubstantiated rumors"—played a role in the demise of both his bank and Bear Stearns.

"The naked shorts and rumor mongers succeeded in bringing down Bear Stearns," Fuld said in prepared testimony to Congress in October. "And I believe that unsubstantiated rumors in the marketplace caused significant harm to Lehman Brothers."

DEVALUING STOCK

Failed trades correlate with drops in share value—enough to account for 30 to 70 percent of the declines in Bear Stearns, Lehman and other stocks last year, Trimboth said.

While the correlation doesn't prove that naked shorting caused the lower prices, it's "a good first indicator of a statistical relationship between two variables," she said.

Failing to deliver is like "issuing new stock in a company without its permission," Trimboth said. "You increase the number of shares circulating in the market, and that devalues a stock. The same thing happens to a currency when a government prints more of it."

Trimboth attributes the almost ninefold growth in the value of failed trades from 1995 to 2007 to a rise in naked short sales.

"You can't have millions of shares fail to deliver and say, 'Oops, my dog ate my certificates,'" she said.

EXPLANATION REQUIRED

On its Web site, the Federal Reserve Bank of New York lists several reasons for fails-to-deliver in securities trading besides naked shorting. They include misunderstandings between traders over details of transactions; computer glitches; and chain reactions, in which one failure to settle prevents delivery in a second trade.

Failed trades in stocks that were easy to borrow, such as Lehman Brothers, constitute a "red flag," said Richard H. Baker, the president and CEO of the Washington-based Managed Funds Association, the hedge fund industry's biggest lobbying group.

"Suffice it to say that in a readily available stock that is traded frequently, there has to be an explanation to the appropriate regulator as to the circumstances surrounding the fail-to-deliver," said Baker, who served in the U.S. House of Representatives as a Republican from Louisiana from 1986 to February 2008.

"If it's a pattern and a practice, there are laws and regulations to deal with it," he said.

FINES AND PENALTIES

Lehman Brothers had 687.5 million shares in its float, the amount available for public trading. In float size, the investment bank ranked 131 out of 6,873 public companies—or in the top 1.9 percent, according to data compiled by Bloomberg.

While naked short sales resulting from errors aren't illegal, using them to boost profits or manipulate share prices breaks exchange and SEC rules and violators are subject to penalties. If investigators determine that traders engaged in the practice to try to influence markets, the Department of Justice can file criminal charges.

Market makers, who serve as go-betweens for buyers and sellers, are allowed to short stock without borrowing it first to maintain a constant flow of trading.

Since July 2006, the regulatory arm of the New York Stock Exchange has fined at least four exchange members for naked shorting and violating other securities regulations. J.P. Morgan Securities Inc. paid the highest penalty, \$400,000, as part of an agreement in which the firm neither admitted nor denied guilt, according to NYSE Regulation Inc.

ENFORCEMENT 'RELUCTANT'

In July 2007, the former American Stock Exchange, now NYSE Alternext, fined members Scott and Brian Arenstein and their companies \$3.6 million and \$1.2 million, respectively, for naked short selling. Amex ordered them to disgorge a combined \$3.2 million in trading profits and suspended both from the exchange for five years. The brothers agreed to the fines and the suspension without admitting or denying liability, according to a release from the exchange.

Of about 5,000 e-mailed tips related to naked short-selling received by the SEC from January 2007 to June 2008, 123 were forwarded for further investigation, according to the report released yesterday by Kotz, the agency's internal watchdog. None led to enforcement actions, the report said.

Kotz, the commission's inspector general, said the enforcement division "is reluctant to expend additional resources to investigate" complaints. He recommended in his report yesterday that the division step up analysis of tips, designating an office or person to provide oversight of complaints.

SCHAPIRO'S PLANS

The enforcement division, in a response included in the report, said "a large number of the complaints provide no support for the allegations" and concurred with only one of the inspector general's 11 recommendations.

SEC Chairman Mary Schapiro, who took office in January, has vowed to reinvigorate the enforcement unit after it drew fire from lawmakers and investors for failing to follow up on tips that New York money manager Bernard Madoff's business was a Ponzi scheme. She has "initiated a process that

will help us more effectively identify valuable leads for potential enforcement action," John Nester, a commission spokesman, said in response to the Kotz report.

Last September, the agency instituted the temporary ban on short sales of financial stock. It also has announced an investigation into "possible market manipulation in the securities of certain financial institutions."

NO EFFECTIVE ACTION

Christopher Cox, who was SEC chairman last year; Erik Sirri, the commission's director for market regulation; and James Brigagliano, its deputy director for trading and markets, didn't respond to requests for interviews. John Heine, a spokesman, said the commission declined to comment for this story.

"It has always puzzled me that the SEC didn't take effective action to eliminate naked shorting and the fails-to-deliver associated with it," Pitt, who chaired the commission from August 2001 to February 2003, said in an e-mail. The agency began collecting data on failed trades that exceed 10,000 shares a day in 2004.

"All the SEC need do is state that at the time of the short sale, the short seller must have (and must maintain through settlement) a legally enforceable right to deliver the stock at settlement," Pitt wrote. He is now the CEO of Kalorama Partners LLC, a Washington-based consulting firm. In August, he and some partners started RegSHO.com, a Web-based service that locates stock to help sellers comply with short-selling rules.

POSTPONED 'INDEFINITELY'

Pitt began his legal career as an SEC staff attorney in 1968, and eventually became the commission's general counsel. In 1978, he joined Fried Frank Harris Shriver & Jacobson LLP, where as a senior corporate partner he represented such clients as Bear Stearns and the New York Stock Exchange. President George W. Bush appointed him SEC chairman in 2001.

The flip side of an uncompleted transaction resulting from undelivered stock is called a "fail-to-receive." SEC regulations state that brokers who haven't received stock 13 days after purchase can execute a so-called buy-in. The broker on the selling side of the transaction must buy an equivalent number of shares and deliver them on behalf of the customer who didn't.

A 1986 study done by Irving Pollack, the SEC's first director of enforcement in the 1970s, found the buy-in rules ineffective with regard to Nasdaq securities. The rules permit brokers to postpone deliveries "indefinitely," the study found.

The effect on the market can be extreme, according to Cox, who left office on Jan. 20. He warned about it in a July article posted on the commission's Web site.

TURBOCHARGED DISTORTION

When coupled with the propagation of rumors about the targeted company, selling shares without borrowing "can allow manipulators to force prices down far lower than would be possible in legitimate short-selling conditions," he said in the article.

"Naked" short selling can turbocharge these "distort-and-short" schemes," Cox wrote.

"When traders spread false rumors and then take advantage of those rumors by short selling, there's no question that it's fraud," Pollack said in an interview. "It doesn't matter whether the short sales are legal."

On at least two occasions in 2008, fails-to-deliver for Lehman Brothers shares spiked just before speculation about the bank began circulating among traders, according to SEC data that Bloomberg analyzed.

On June 30, someone started a rumor that Barclays Plc was ready to buy Lehman for 25 percent less than the day's share price. The purchase didn't materialize.

'GREEN CHEESE'

On the previous trading day, June 27, the number of shares sold without delivery jumped to 705,103 from 30,690 on June 26, a 23-fold increase. The day of the rumor, the amount reached 814,870—more than four times the daily average for 2008 to that point. The stock slumped 11 percent and, by the close of trading, was down 70 percent for the calendar year.

"This rumor ranks up there with the moon is made of green cheese in terms of its validity," Richard Bove, who was then a Ladenburg Thalmann & Co. analyst, said in a July 1 report.

Bove, now vice president and equity research analyst with Rochdale Securities in Lutz, Florida, said in an interview this month that the speculation reflected "an unrealistic view of Lehman's portfolio value." The company's assets had value, he said.

'OBSCENE' LEVERAGE

During the first six days following the Barclays hearsay, the level of failed trades averaged 1.4 million. Then, on July 10, came rumors that SAC Capital Advisors LLC, a Stamford, Connecticut-based hedge fund, and Pacific Investment Management Co. of Newport Beach, California, had stopped trading with Lehman Brothers.

Pimco and SAC denied the speculation. The bank's share price dropped 27 percent over July 10-11.

Banks and insurers wrote down \$969.3 billion last year—and that gave legitimate traders plenty of reason to short their stocks, said William Fleckenstein, founder and president of Seattle-based Fleckenstein Capital, a short-only hedge fund. He closed the fund in December, saying he would open a new one that would buy equities too.

"Financial stocks imploded because of the drunkenness with which executives buying questionable securities levered-up in obscene fashion," said Fleckenstein, who said his firm has always borrowed stock before selling it short. "Short sellers didn't do this. The banks were reckless and they held bad assets. That's the story."

'MARKET DISTRESS'

On May 21, David Einhorn, a hedge fund manager and chairman of New York-based Greenlight Capital Inc., announced he was shorting stock in Lehman Brothers and said he had "good reason to question the bank's fair value calculations" for its mortgage securities and other rarely traded assets.

Einhorn declined to comment for this story. Monica Everett, a spokeswoman who works for the Abernathy Macgregor Group, said Greenlight properly borrows shares before shorting them.

Even when they're legitimate, short sales can depress share values in times of market crisis—in effect turning the traders' negative bets into self-fulfilling prophecies, says Pollack, the former SEC enforcement chief who is now a securities litigator with Fulbright & Jaworski in Washington.

The SEC has been concerned about the issue since at least 1963, when Pollack and others at the commission wrote a study for Congress that recommended the "temporary banning of short selling, in all stocks or in a

particular stock" during "times of general market distress."

AIRPORT RUNWAY

On Sept. 17, two days after Lehman Brothers filed for Chapter 11 bankruptcy, the number of failed trades climbed to 49.7 million, 23 percent of overall volume in the stock.

The next day, the SEC announced its ban on shorting financial companies in 2008. The number of protected stocks ultimately grew to about 1,000. On Sept. 19, the commission announced "a sweeping expansion" of its investigation into possible market manipulation.

The ban, which lasted through Oct. 17, didn't eliminate shorting, according to data from the SEC, the NYSE Arca exchange and Bloomberg. Throughout the period, short sales averaged 24.7 percent of the overall trading in Morgan Stanley, Merrill Lynch & Co. and Goldman Sachs Group Inc. on NYSE Arca. In 2008, short sales averaged 37.5 percent of the overall trading on the exchange in the three companies.

To date, the commission hasn't announced any findings of its investigation.

Pollack, the former SEC regulator, wonders why.

"This isn't a trail of breadcrumbs; this audit trail is lit up like an airport runway," he said. "You can see it a mile off. Subpoena e-mails. Find out who spread false rumors and also shorted the stock and you've got your manipulators."

Mr. KAUFMAN. The new SEC leadership has the opportunity to make the SEC a "can do" agency once more. The SEC is scheduled to meet on April 8 to discuss the uptick rule and abusive short selling. The Chair and commissioners should move quickly to adopt the uptick rule and a pre-borrow requirement.

If not, Congress should do its part and direct the SEC to do that quickly.

After yesterday's IG report and the Enforcement Division's response to it, I am even more convinced that SEC Chair Schapiro needs to grab the reins quickly at the SEC, and get back to standing up for investor interests to restore confidence in the markets. If the SEC won't do it, Congress should require them to do it.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Tennessee is recognized.

Mr. ALEXANDER. I thank the Chair.

(The remarks of Mr. ALEXANDER pertaining to the introduction of S. 659 are printed in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

The PRESIDING OFFICER. The Senator from Michigan is recognized.

Ms. STABENOW. Mr. President, before the Senator from Tennessee leaves, I wish to say how much I enjoyed his comments, and I think no matter which side of the aisle we are on, we get up in the morning wanting to try to make a difference. So I appreciate his sentiments and I appreciate his comments very much, as it relates to what we hope we will all instill in our students and teachers and those who love our country. I appreciate his comments.

AMERICAN AUTOMOBILE
INDUSTRY

Ms. STABENOW. Mr. President, I wish to speak a little bit today about a subject near and dear to my heart, and that is our American auto industry.

Before the global credit crisis happened, our American auto industry was undertaking ambitious restructuring plans. I know there are those who haven't been aware of that up until now but in fact it is true.

For the past decade, our American auto industry has been moving toward improved fuel efficiency, improved quality, and advanced technologies. I am very proud of what the men and women in our country do in terms of building our American automobiles. This was clearly shown as the auto industry laid out the plans before Congress last December. The companies and the workers have been making tremendous sacrifices even before they were asked to do so, to level the playing field with foreign competitors. The idea of cutting, restructuring, layoffs, plant closings are not new. They are, unfortunately, a way of life at the moment in Michigan and other manufacturing States where there have had to be major sacrifices, particularly for workers and their families.

By the end of the current 2005 and 2007 contracts for workers, the labor cost gap between domestic and foreign automakers would have been largely eliminated. They also eliminated 50 percent of the companies' liability for retiree health benefits, and that is before any of the current debate. It was also before the global credit crunch happened. The global credit crunch has hit everybody—every business, large and small, every consumer, every family, every homeowner.

Certainly our auto industry has seen the brunt of the inability to get capital, the inability of people to get a car loan, our auto dealers and the challenges they have had, our auto suppliers, as well as the OEMs.

The failure of our auto industry, if we allow them to go down because of a global credit crisis, would mean a loss of over 400,000 supplier jobs and over 450,000 jobs in the service sector, national deficits, and reductions in personal income. It would be a huge catastrophe if we were to allow the global credit crisis to create a situation in which we would no longer have an American auto industry.

It is important for us to understand that this crisis has similarly affected the foreign automakers, forcing them to request help from China, Canada, Japan, Spain, Great Britain, Brazil, as well as numerous other countries.

We find ourselves in a situation where this credit crisis has profoundly affected the backbone of manufacturing in the United States. We have seen firsthand in Michigan the challenges that GM, Ford, and Chrysler

have faced. We now have a White House auto task force that has been set up to work with General Motors and Chrysler, which have asked for assistance from us in this global credit crisis.

Today we had a very important announcement to help the industry as a whole. I thank the White House auto task force for understanding that along with our automakers, it is critically important that our suppliers be able to pay their bills, supply the parts, and continue to be a very important part of this industry as a whole.

I very much appreciate the fact that a very positive action was taken today by the auto task force to help make capital available during this credit crisis for our tier 1 suppliers.

Our American auto industry represents about 4 percent of our gross national product and 10 percent of our industrial production value. Our auto industry provides health care and pensions to over a million retirees and their families who live all over the country, by the way, not just in Michigan, although we certainly would welcome them back. But they live all over the country.

Auto parts suppliers provide hundreds of thousands of jobs. They are the leading U.S. manufacturing employer. That, again, is why the decision that was made today to make capital available for our auto suppliers is so important.

In turn, those direct jobs contribute to 4.5 million—4.5 million—private industry jobs across the country. That is an additional 5.7 jobs for every single direct supplier job. We are talking in general about an industry that touches every State—not just Michigan, not just Ohio, not just Indiana, but every single State.

The domestic auto industry comprises more than 10 percent of the high yield bond market and is one of the largest sectors in leverage finance for the banks. They spend over \$12 billion a year on research and development. Without this funding, our country would become dependent on foreign ideas and foreign technology that would threaten our role not only in innovation and in the global economy but in our national defense as well.

I come today to say that failure is not an option when it comes to the viability and support for our American auto industry. Right now, if one or more of the American auto companies is allowed to fail, then we can expect as many as 3.3 million lost jobs in the next year. When we think about what we are doing in the stimulus package, in the recovery package, and we think about 3.3 million jobs that would be lost in the auto industry alone, it is stunning.

Think about the recovery plan and the fact we are talking about creating or saving 3.5 million jobs—3.5 million jobs lost if one of the companies went

down. This is a big deal. This is a huge issue for us. That is why I have fought so hard, along with Senator LEVIN and other colleagues, to make sure we are doing everything possible to create a level playing field for the American auto industry so we can maintain these jobs and the strong role—the vital role—they play in this economy.

It is not only about workers—direct workers or indirect workers. The fallout, if we were to see a company fail, would hit thousands of businesses that depend on the auto industry, from parts suppliers to dealers to service industries, body shops, consultants, advertisers, janitorial services—all kinds of other jobs, not counting the restaurant across the street from the plant. When the plant closes, the restaurant goes or the shoe store down the street goes. The drugstore goes. These are basic jobs, huge parts of the economy of thousands and thousands of communities across this country.

Also, let me be clear that the foreign automakers would be hurt as well because manufacturers share so many suppliers. Without the business from Detroit, those suppliers would fail. Many dealers own U.S. and non-U.S. dealerships, and they would not be able to keep operating without the American brands in the mix. That is why I am very pleased that the leadership of Toyota met with the auto task force to urge them to support the American auto industry through this global credit crisis because they know better than anyone that they share the same suppliers.

Again, that is why the decision today by the auto task force is so important, to support tier 1 suppliers because this supports the automakers, foreign and domestic, all over America. This is very important. It would have catastrophic effects on several States already suffering from some of the Nation's highest unemployment rates if, in fact, we would see one or more of these companies go down.

Let me show some of the numbers when we talk about what happens in terms of unemployment and the devastation across the country—people are out of work right now—and what would happen if our American automakers were not supported so they can continue. We would see a shutdown that would increase unemployment levels to over 10 percent in Indiana, Ohio, Rhode Island, Kentucky, South Carolina, Tennessee, California, Oregon, North Carolina, Mississippi, Nevada, Alabama, Missouri, Illinois, and Georgia.

My home State of Michigan already suffers from 11.6 percent unemployment. I understand how painful that is for communities. Rhode Island could lose over 9,000 jobs if we were to see one of our American automakers go under—9,000 jobs. Kentucky could lose 75,000 jobs and go to 11.9 percent unemployment. South Carolina could lose

over 58,000 jobs and go to an unemployment rate of 11.9 percent.

To continue, Tennessee could lose over 106,000 jobs as a result of one of our three domestic automakers going under, which would bring their unemployment rate to 11.8 percent. California could lose over 300,000 jobs.

My point, whether it is Tennessee, California, Oregon, North Carolina, Mississippi, or other States is clearly what happens in Detroit does not stay in Detroit. That is the point. What happens in Detroit affects automakers and Americans all over the country, families who depend on a paycheck from a direct job in the auto industry or a supplier or some other small business. Others would be forced in a recession to find work that is not there. People are barely making it as it is.

My message overall, again, is that what happens in Detroit doesn't stay in Detroit. It goes all over the country. That is why the work of the White House auto task force is so important and why I appreciate so much their willingness to delve deeply into these issues and look at the facts—not the rhetoric but the facts—and determine what is best for the taxpayers, for American families, and for the economy. We owe it to American families. We owe it to the people of Michigan as well.

Part of what they are looking at is the fact that the failure of the American auto industry would put a disastrous burden on top of job loss, a disastrous burden on the Pension Benefit Guaranty Corporation that already faces massive shortfalls, a burden that could trigger tens of billions of dollars in additional pension obligations.

The reality is, those who say let GM go bankrupt, let Chrysler go bankrupt, the obligation to the American taxpayer from pensions alone would far exceed the relatively small request, certainly compared to AIG or Citigroup or any of the other Wall Street requests, a small request, relatively speaking, to keep over 3.5 million people working in this country in good-paying jobs.

It would have a debilitating ramifications for our industrial base which would undermine our military challenges, which I mentioned before. I was at a terrific business on Monday that makes equipment for large trucks, our big long-haul trucks, a great American business called ArvinMeritor. When we look at what they make for those big trucks, the same kinds of brakes, the same kinds of axles, the battery they are developing for a hybrid truck, our largest trucks—all of those are technologies that either are used or will be used by the military, trucks that are being driven in Iraq, military vehicles around the world.

If we lose an American capability to manufacture vehicles, we affect the Department of Defense and we affect

every single man and woman who is serving us today in protecting our country by saying to them: We are going to now rely on foreign companies for our vehicles for the trucks they drive, the cars they drive, the tanks they drive. That doesn't make any sense at all.

We all have a stake in what happens in Detroit. We all have a stake in what happens to our American manufacturers and our American auto industry. We need a 21st century manufacturing strategy that is focused on American manufacturing, advanced manufacturing, as well as national security and energy security. Our automakers are an important part of that, but so are our other suppliers, our other manufacturers.

One of the things I so appreciate about President Obama's vision is that he understands we need to manufacture in this country. The budget he has given us focuses on our ability to create jobs through manufacturing, through manufacturing in the new energy economy, and in the traditional areas of manufacturing. In America, we need a revitalized advanced manufacturing base. That will be a major part of our economic recovery as a country.

Again, none of us can afford for our American automakers to fail. There is not a State represented here that can afford for that to happen. Failure would mean loss of jobs, a loss of capacity for our national defense, and the ability for us to build on an energy independence for the future.

Again, what happens in Detroit doesn't stay in Detroit. It affects every State, every American, and I very much appreciate the commitment of the White House auto task force and President Obama to work with us for a vital and vibrant auto industry for the future.

Mr. President, I yield the floor.

REHABILITATION INSTITUTE OF CHICAGO

Mr. DURBIN. Mr. President, researchers at the Rehabilitation Institute of Chicago pursue scientific discoveries that blend the most advanced medicine with technology to create ability where it has been lost.

Their most recent innovation replaces a lost limb with a robotic one, which is controlled just as their lost arm was controlled—by thoughts and commands transmitted by the brain.

It has captured the world's attention. Their research was published recently in the *Journal of the American Medical Association* and highlighted by the *New York Times*. It gives us a taste of what might be possible as doctors, scientists, and engineers continue to learn more about the human body's nervous system.

It also provides new hope for all Americans who have an amputated arm

or leg, including the hundreds of Iraq and Afghanistan veterans who have lost a limb through their service to our country.

You almost need to be a biomedical engineer to even pronounce the name of the technique developed at the Rehabilitation Institute of Chicago: pattern-recognition control with targeted reinnervation.

But it is easy to understand the procedure's importance to people around the world who have lost a limb.

When a person loses a limb, their brain does not know that the limb is gone. The brain continues to send signals through the nervous system, as if that lost arm or leg still existed. So, when a person who has lost an arm thinks about closing her hand or pointing a finger, her brain continues to send signals intended for the missing limb.

Dr. Todd Kuiken, a biomedical engineer and physician at the Rehabilitation Institute of Chicago, has found a way to harness these signals. His technology allows a patient to operate her prosthetic arm by thinking of the movement, as if her natural arm still existed.

First, Dr. Kuiken takes the good nerves that remain in the shoulder after the loss of an arm. Through surgery, these nerves are redirected and implanted into a patient's healthy remaining muscles in the chest.

When the patient thinks about closing her hand, the brain sends a signal through those redirected nerves into the reinnervated muscle, instead of in the direction of the missing arm.

The next step is to interpret those signals. It is not an easy task. Our hands alone can perform hundreds of movements, from the slightest finger wiggle to the clenching of a fist. Each movement is the result of a different pattern of signals from the brain. The challenge becomes deciphering which pattern means "close the hand"? Which pattern means "turn the wrist"?

Working to unlock the code, Dr. Kuiken and his colleagues now know which pattern is intended to produce a particular arm or hand movement. They place tiny antennas on the patient's chest to detect the patterns. The antennas convert the patterns into digital signals and send those signals to an advanced artificial arm worn by the patient. The signals tell the arm how to move.

The results of Dr. Kuiken's research have been promising. Amanda Kitts was one of the first patients to be fitted with one of the new prosthetics developed by the Defense Department's advanced research program, DARPA.

Amanda owns three daycare centers in Tennessee. She started working with the Rehabilitation Institute in 2006 and spent the following years traveling between Chicago and her home in Knoxville.

Amanda lost one of her arms in an automobile accident. The years she received therapy were difficult for her. She credits the therapists at the Rehabilitation Institute for giving her the strength to realize that her injury didn't have to change her outlook on life.

Amanda thought she would never be able to hug children again, including her son. But because of her new arm, she can.

She says of her new arm: "It was wonderful . . . It made me feel more human because I could work it almost like a regular arm. I just had to think and it responded. My new arm made me feel like I could do anything again."

Dr. Kuiken and the Rehabilitation Institute of Chicago have been working for several years to transfer this technology for the benefit of our wounded servicemembers. Through this collaboration, 10 wounded warriors have received this remarkable surgery at the Brooke Army and Walter Reed Medical Centers and are having their new prostheses fit at these state-of-the-art medical facilities.

Dr. Kuiken and the other researchers on this project deserve our thanks for their efforts, as does the Rehabilitation Institute of Chicago. Every year since 1991, U.S. News and World Report has identified the facility as the best rehabilitation hospital in the United States.

The Rehabilitation Institute is led by the indefatigable Dr. Joanne Smith, who did some of her training and subsequently consulted on patients at the VA. In addition to having expertise in prosthetics, the hospital is a leader in the treatment of traumatic brain injuries, the signature injury of the wars in Iraq and Afghanistan. Dr. Smith has worked to make her hospital's expertise and rehabilitation services available to the VA and the military services.

More work remains to be done to develop the targeted reinnervation technique. The researchers at the Rehabilitation Institute tell me that the sensation nerves to and from a hand—which relay touch sensations from hot to cold and sharp to dull—can also be harnessed. Doctors are working to put sensors into a robotic limb that has the ability to pick up these sensations.

If successful, the technique would allow patients to feel what they touch, as if they were touching it with their missing hand.

Such technology will help someone like Amanda Kitts regain her ability to sense touch from—feeling the texture of an object to knowing how hard she is squeezing her son's hand. The advance in sensing touch would help her reconnect to her world.

I am proud to have supported a \$2 million request in the fiscal year 2009 Defense appropriations legislation to help advance Dr. Kuiken's research in

Chicago. Those men and women in uniform who have lost a limb in service to our country deserve the best technology we have to help them regain their full abilities.

PATH TO BIPARTISAN AGREEMENT

Mr. GREGG. Mr. President, the spiraling cost of health care represents a growing financial crisis for many Americans who either cannot afford quality health care coverage or are struggling to keep the insurance they currently have. When combined with the aging of our population, health care costs are driving the country's long-term fiscal challenges, challenges which we must address in a bipartisan way.

Unfortunately, many proposals being offered to achieve universal health care coverage are pushing us toward a system based on expansive government control, which will eventually lead to rationing, a reduction in the quality of care, and increased health care spending. That is absolutely the wrong way to go.

So, today I join Senator WYDEN and Senator BENNETT as a co-sponsor of the Healthy Americans Act, bi-partisan legislation to overhaul the nation's health care system, in an effort to make quality, affordable health insurance available to all Americans.

I congratulate Senator WYDEN on his leadership in advancing this cause and pulling together this strong bipartisan blueprint that goes a long way towards empowering consumers and the private market to extend health care coverage to all Americans.

Mr. WYDEN. I thank the Senator. I appreciate the co-sponsorship of the Senator from New Hampshire. The only way to produce enduring health reform is to work in a bipartisan manner. Unlike past efforts, through the Healthy Americans Act, there is bi-partisan agreement on the principal issues. Republicans have moved to support covering everyone and Democrats have moved to support private choices.

Mr. GREGG. In addition to the private market approach to expanding coverage, the bill attempts to reduce the growth in health care spending by providing incentives for preventive health care, wellness programs, and disease management, as well as a stronger focus on health care cost containment measures. These measures include lowering administrative costs and focusing on chronic care management, health information technology and medical malpractice reform as tools to control costs.

In addition to his commitment to enact comprehensive health care reform in a budget-neutral manner, I also would like to commend Senator WYDEN on his willingness to work with me to make improvements on last years' pro-

posals. In particular the removal of the Medicare part D price negotiation language, the enhanced language to ensure stronger state flexibility, and the elimination of the non-health related tax provisions are strong improvements to the bill.

Mr. WYDEN. I appreciate Senator GREGG's commitment to moving this process forward and the thoughtfulness in his suggestions. I am happy to work with you and all of our other co-sponsors to continue to make improvements to the bill. While there are challenges on the specifics, as Senator GREGG has said, there's a lot to work with. Senator GREGG and I agree on fiscal responsibility, prevention, wellness, chronic care management, modernizing the tax code, improving the quality of care, containing costs, personal responsibility, and the importance of covering everyone.

Mr. GREGG. I look forward to working with the Senator to make further improvements as well. As I have told the Senator from Oregon in the past, I have some serious concerns about several elements of this plan, including the imposition of mandates; subsidies for higher income individuals; the impact on current market competition; the FDA labeling language regarding comparative effectiveness studies; and the issue of how to determine the appropriate level of coverage offered as part of a health care reform regime.

As you know, the bill uses the Federal Employee Health Benefit Plan, FEHBP, Blue Cross Blue Shield, BCBS, standard plan as he actuarial equivalent for the Healthy Americans Private Insurance, HAPI, plans. As the bill moves forward, our goal should be to create a more cost-effective benchmark that focuses on preventive care and core health care services to encourage greater individual responsibility on over-utilization of care.

Mr. WYDEN. I think Senator GREGG's arguments on these points make a lot of sense. There's more to be said for reviewing alternative proposals such as a default enrollment policy instead of an individual mandate and the role of FDA labeling in comparative effectiveness.

In light of the reports earlier this week that President Obama's health reform plan is estimated to cost more than \$1.5 trillion over the next 10 years, it is better not to overpromise and undermine cost containment. It is important that the Congress find an appropriate benefit standard that will ensure quality coverage for all Americans that will not undermine our efforts to contain costs. I want to thank Senator GREGG for his thoughtful contributions and his willingness to work with me, Senator BENNETT and our bipartisan group. It's our plan to work closely with our leaders—Chairman BAUCUS, Ranking Member GRASSLEY, Chairman KENNEDY, and Ranking Member ENZI—to end 60 years of gridlock.

Mr. GREGG. I appreciate Senator WYDEN's comments and I am hopeful that by joining forces with colleagues on both sides of the aisle on a private market approach, we can begin a bipartisan dialogue, work through our differences, and find workable solutions that will result in a better health care system for all.

SUICIDE IN THE ARMED FORCES

Mr. FEINGOLD. Mr. President, today, on the sixth anniversary of the invasion of Iraq, I want to speak about an epidemic facing the Nation's Armed Forces; namely, the alarming rate of suicides in the services. Yesterday, the Personnel Subcommittee of the Armed Services Committee held an excellent hearing on this topic, and I would like to thank the chairman and ranking member for taking on this important issue. I would also like to discuss an issue that we have so far paid far too little attention to, and that is the way the strain on the force caused by the rate of deployment is compromising our ability to care for servicemembers struggling with mental health concerns.

We have come a long way in addressing this issue. Only a generation ago, Vietnam veterans struggled to get care for the long-term consequences of the trauma they survived during the war. They were trailblazers, and thanks to them the VA has revolutionized the way it cares for veterans. We now have, among other things, counseling centers where combat veterans can go to speak with experienced counselors who are also combat veterans about their difficulties in readjusting to civilian life. I commend the President for emphasizing the need for additional centers and have been a strong advocate for just that in the State of Wisconsin. But more remains to be done.

It is not sufficient to wait until a servicemember is discharged from the Services and transitioned to the VA to respond to the crisis. Let's be honest. There is a conflict between the responsibility to both maintain the readiness of the Armed Forces and adequately respond to the needs of servicemembers struggling with mental health issues. During this time of tremendous strain on the Armed Forces, our noncommissioned officer corps is under incredible pressure to ensure that the servicemembers under their command are ready to meet the demands of combat. We must create the space for them to identify those soldiers who are in need of extra assistance and provide a means for them to provide that assistance.

We must begin by asking men and women in uniform about their experiences and what we can do to support them. I was disappointed that the hearing yesterday did not include the testimony of servicemembers about their personal experiences, so I would like to

take this opportunity to talk about what I have been hearing from servicemembers and their family members from my home State of Wisconsin.

Over 2 years ago, I was approached by a family whose son had taken his own life while serving in Afghanistan. After an investigation of the situation, I learned that the soldier was struggling to meet the grueling demands of his duties and had, perhaps as a result, become isolated from his unit. It was a tragedy for all involved.

Last year, my office was contacted by a soldier who immediately thereafter took his own life. A subsequent investigation revealed that he, too, had become isolated from his own unit. Due to his ongoing struggle with mental illness, his leadership became understandably frustrated with him and repeatedly disciplined him. His doctors decided he was not fit to deploy with his unit which was headed to Iraq. This was a major blow for him. He desperately wanted to deploy with his unit. He became angry and isolated. He sought to be transferred to a wounded warrior transition unit where he could focus on his recovery. Unfortunately, his leadership failed to get him transferred in a timely manner. If they had, he might still be with us today.

I was recently approached by a Wisconsin veteran who lost three of his peers to suicide during his time in the Army. He has informed me that in all three instances one of the main problems was a breakdown in leadership. He has given me a list of recommendations for the Armed Forces to train our noncommissioned officers in suicide prevention. I will ask to have these recommendations printed in the RECORD.

Listening to the voices of these men and women serving in uniform, a consistent pattern has emerged. Our Armed Forces, which are under tremendous pressure due to two ongoing major contingency operations, are struggling to meet the needs of their members while completing their mission.

I suspect that the single most important thing our country can do to address this epidemic is to redeploy from Iraq so that we can take the time to care for the psychologically wounded without putting additional strain on those who have already completed multiple tours. Redeploying would also serve our national security needs by allowing us to better focus on the global threat posed by al-Qaida and its affiliates.

Secondly, we must review the strategy we embraced which has led us to rely so much on the continued sacrifice of so few. We must not make the same mistake again of engaging in a mistaken war of choice. We should not ask those who volunteer to serve their country to bear the burden of a 6-year war absent a compelling need. We, the civilian leadership of this country, owe

it to the men and women in uniform to be more responsible stewards of our Armed Forces.

It is far past time to redeploy U.S. troops from Iraq. I am pleased that the President has set a course for such a redeployment. Now, we can turn to the task of rebuilding our Armed Forces.

Mr. President, I ask unanimous consent to have recommendations to which I referred printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. ARMY SUICIDE PREVENTION PROPOSAL

ABSTRACT

The following correspondence is a proposal consisting of recommendations members of Congress should consider regarding the high numbers of suicides occurring within the Army. Even though this proposal is emphasized towards the structure of the Army, other branches should be able to utilize this proposal in order to improve suicide prevention tactics as well. If measures within this proposal are already being taken, I apologize for the redundancy. This proposal is also not intended to interfere with other preventive measures being considered by the Army. Its sole purpose is to implement ideas, based on my experiences, that should improve the health and welfare of soldiers, increase education for leaders at all levels to utilize while counseling subordinates, and to develop measures commanders should take should leaders abuse their authority, or commit any other acts of misconduct that may hinder health, morale, and welfare of soldiers within the United States Army.

INTRODUCTION

The high numbers of suicides within the United States Army are extremely disturbing. Ever since combat operations commenced in Afghanistan in October of 2001, the suicide rates have been increasing. However, statistics from 2007 and 2008 reveal numbers of suicides that are the highest since the Army began recording numbers of suicides in its history. In January of 2009, 24 soldiers took their own lives. The number of soldiers killed in action was lower than those who committed suicide. In February of 2009, another 18 soldiers committed suicide. Even though the Army has a very serious problem pertaining to suicides by soldiers deployed overseas, a high abundance of soldiers stationed within the United States are committing suicide as well.

I commend the Army's initial and recent efforts intended to handle this serious problem. Increasing the numbers of mental health experts, operating a suicide-prevention hotline, and encouraging soldiers to seek help if symptomatic are steps in the right direction. However, as a 13-year veteran who has dealt with a significant number of soldier suicides in the past, I am aware of other problems that require immediate attention. If these problems are not assessed and corrected, the aforementioned measures will make little difference in the pursuit of suicide prevention. Based on my observations and experiences, the primary core of problems involving suicides by soldiers involve breakdowns of leadership at the lower levels. Therefore, the following proposal will detail recommended improvements of leadership training for younger leaders.

ARMY RECRUITING COMMAND

Army recruiters have perhaps the most arduous duty within the enlisted ranks. They

are required to meet specific standards in regards to attracting individuals to contemplate enlisting into the Army. They work very long hours each day, and often work six days a week. They are under constant pressure to secure enlistments so that the entire Army meets recruit quotas and goals. Overall, the duties they perform are extremely stressful. Recruiters either volunteer to perform recruit duty, or are selected to do so by the Department of the Army. Even though recruiters are noncommissioned officers who are normally more responsible and mature, they too are human beings who are subject to mental health problems due to the nature of their duties. Weeks ago, four recruiters in Houston committed suicide, most likely from extreme pressure from their chains of command. Recruiters normally have no one to turn to in times of stress. Their leaders want them to produce, not complain. Therefore, if they are experiencing any types of mental health problems, most are likely to keep it within themselves. Fellow recruiters must look out for each other, and pay attention to stress that appears beyond the normal stresses associated with recruiting duty. Like others, they should not be ridiculed or chastised should they request treatment. Also, even though it would probably be a difficult task, the Army needs to expand the recruiting command. The more recruiters, the less stress will be placed on recruiters performing their duties today. Also, stigmatization shall not be tolerated if a recruiter feels the need to seek mental health treatment. The fear of stigmatization is a very potential reason for the four suicides that occurred in Houston.

DRILL SERGEANT SCHOOL

Drill Sergeants are perhaps the "elite" of the noncommissioned officers throughout the Army. Like recruiters, they either volunteer to perform this duty, or are selected to do so by the Department of the Army. They are responsible for turning civilians into soldiers. Molding a typical individual into a motivated, highly-disciplined warrior is no walk in the park. Being a drill sergeant requires high levels of dedication and commitment to their duties. Drill Sergeant training is simply the same as going through basic training all over again. They learn what they are going to teach. Since they are the first true soldiers recruits are going to follow, drill sergeants must set an extremely high example at all times. Like recruiting, drill sergeants work long hours. They receive a limited number of days off. Drill sergeants are required to pay extra attention to detail due to the "culture shock" new recruits receive once entering initial-entry or one-station unit training. Basic training is normally a recruit's true separation from family and friends from home. Therefore, they are typically prone to suffering home sickness while being pushed to their limits. Drill sergeants must be adequately trained in recognizing changes in behaviors of their recruits. They must be proficient counselors, especially when recruits appear more stressed than normal. In 1995, a recruit at Fort Benning, Georgia shot himself to death after rifle training. The recruit had apparently hid a round after the training, and went to an isolated area with his weapon after cleaning it. He then used the live round in his possession to commit suicide. The incident was an example of dereliction that can occur if drill sergeants do not perform their duties with high levels of attention to detail.

INITIAL ENTRY TRAINING (IET)/ONE-STATION UNIT TRAINING (OSUT)

As mentioned earlier, entry into the Army is normally a level of "culture shock" for a new Army recruit. Even though they expect initial, or basic training to be a true test, they do not know what to truly expect until they initially experience the high levels of stress at the commencement of training. Drill sergeants are tasked to mold civilians into soldiers in a short period. Therefore, the operational tempo is very high. The stress can be so high that certain recruits may act out of normal character. However, one positive aspect of this level of training is that new recruits are treated the same way. They often turn to each other for support and encouragement. However, separation from loved ones is very difficult. If something negative happens within a recruit's family while he or she is in training, his or her behavior or mental state will most likely change. One of the first blocks of instruction recruits receive should involve the importance of the "buddy system." Drill sergeants must inform their recruits that it is alright to report signs of problems. Even though drill sergeants are hard on their recruits, the last thing they want is for a recruit to feel alienated in any sort of way. If a recruit is suffering from mental distress, immediate intervention is a necessity. It is alright for drill sergeants to demonstrate compassion towards the men and women they are training. Recruits are taught how to pay attention to detail just as much as drill sergeants are. Therefore, unusual behavior, or warning signs of potential suicide must be reported immediately. In the Army, all soldiers, regardless of rank, are safety officers. Recruits must be properly counseled by their cadre. If initial entry trainers cannot solve problems, recruits demonstrating signs of mental distress must be command-referred to mental health services upon immediate signs of problems in order to prevent a catastrophic event from happening.

THE ARMY NONCOMMISSIONED OFFICER EDUCATION SYSTEM (NCOES)

The initial phase of the NCOES involves the Warrior Leadership Course (WLC), which is designed to prepare Army specialists and corporals to become sergeants. Sergeants are normally "team leaders," who have a span of control consisting of two or three subordinate soldiers. This four-week course is military occupation specialty (MOS) non-specific, and covers basic leadership skills. Students receive enhanced proficiency on physical fitness training, teaching skills, drill and ceremony, land navigation, field and garrison leadership, and a written examination. It also involves a situational training exercise (STX) designed to teach hands-on leadership in a battlefield environment. My recommendation is that a thorough block of instruction be implemented that focuses on overall suicide prevention. Students need to be taught what warning signs to look for, and how to properly counsel troubled soldiers, as well as carrying concerns up the NCO support channel and chain of command in order to prevent a crisis from occurring. The block of instruction should consist of classroom instruction and role-playing activities. The role-playing training would be the most beneficial part of the training. It must be as realistic as possible and should give students hands-on experience on listening to soldiers, demonstrating compassion and caring towards a subordinate's problem(s), and providing reassurances that problems can be resolved.

The next phase of the NCOES is the Basic Noncommissioned Officer Course (BNCOC),

which is specific to a sergeant's MOS. The course is mandated for current or future staff sergeants. The length of BNCOC varies by MOS, and is a live-in learning environment conducted in two phases: Phase I, which is a review of blocks of instruction learned in the WLC, and Phase II, which is MOS-specific. This course provides opportunities to acquire the leader, technical, tactical, values, attributes, skills, actions, and knowledge required to lead a squad-sized element of nine soldiers. Like the WLC, a thorough block of instruction should be implemented regarding mental health and suicide prevention. It should involve the same classroom instruction and role-playing activities learned in the WLC. Once again, proactive and realistic role-playing would provide enhanced skills designed to identify warning signs of suicide, tactics to provide compassion towards the troubled soldier, and necessary measures to immediately inform the squad leader's NCO support channel and chain of command.

Promotable staff sergeants or newly-promoted sergeants first class must complete the Advanced Noncommissioned Officer Course (ANCO) in order to lead a platoon-sized element. The course builds on the experiences gained in previous operational assignments and training. It emphasizes skills complementing commissioned officer counterparts. By the time NCOs reach this level of education, they should have adequate knowledge of mental health, soldier human nature, warning signs of suicide, and tactics required to ensure prevention measures are taken.

The final phase of the NCOES is the Sergeants Major Academy (USASMA). Noncommissioned officers (normally master sergeants) attending the academy, are instructed on how to implement policies, procedures, and training techniques and tactics. They are the primary NCOs who would be responsible for the oversight of suicide prevention training within the NCOES. Sergeants major are instructed to oversee operations within a battalion, brigade, division, or other element. Command sergeants major oversee the training and operations of all companies, battalions, brigades, divisions or other higher elements, and serve as the enlisted advisor to commanders of the aforementioned elements. Command sergeants major are the NCOs most responsible for ensuring NCOs are performing their duties properly and professionally. They should mandate suicide prevention training be a part of subordinate unit's training schedules. Suicide prevention training should be conducted by chaplains, and/or installation psychiatrists or psychologists. The same blocks of instruction should be utilized during these training sessions. My recommendation is that command sergeants major mandate one day of training be conducted by each unit quarterly during a fiscal year.

WEST POINT AND OFFICER CANDIDATE SCHOOL

Specific curriculums pertaining to mental health and suicide prevention must be implemented if they do not already exist. Suicide prevention training for officers is extremely important since they make final decisions as to how to handle soldiers who are demonstrating warning signs of committing suicide. More importantly, they must be prepared to initiate investigations within their units that should reveal why a soldier is contemplating suicide. Every unit has a safety officer designated by the unit commander. Safety officers must conduct thorough investigations as to why potential crises arise, who may be responsible for misconduct, and

what measures must be taken in order to rectify the situation without any harm done to anyone.

THE MEDIC SCHOOL AT FORT SAM HOUSTON,
TEXAS

On average, most Army companies have one medic per platoon. Medics, MOS 91W, are enlisted soldiers normally supervised by a medic NCO. Medics can be excellent counselors because many soldiers potentially having a crisis situation often do not feel comfortable talking about their problem(s) with their leadership for fear of stigma. Therefore, any suicide prevention training conducted at the Medical School at Fort Sam Houston must be very thorough and specific. It should involve the same blocks of instruction recommended within the NCOES. It would be of great surprise to me if a thorough block of instruction pertaining to crisis counseling and suicide prevention did not exist at the Army Medical School. Therefore, the United States Army Training and Doctrine Command (TRADOC) should take any potential immediate action to implement more crisis and suicide prevention training if necessary.

THE UNIFORM CODE OF MILITARY JUSTICE
(UCMJ)

I am very aware of some of the potential reasons as to why soldiers resort to suicide. Whether they are experiencing personal problems, are unable to tolerate military stress and operational tempos, or are suffering from depression or any other type of mental illness, soldiers caring for each other are the best preventive measures. Based on my own personal experiences while serving in the Army, I have seen several young NCOs abuse their authority for their own personal satisfaction. I have seen newly-promoted sergeants embarrass subordinates in front of other soldiers just to demonstrate they are in charge, and that any defiance will result in repercussions. In my opinion, the failure to control "rogue," or immature and inexperienced leaders is a significant and contributing factor in soldier suicides. Therefore, more senior NCOs must closely supervise newly-promoted NCOs to ensure soldiers are being cared for and not humiliated. As mentioned earlier, commanders should order investigations be conducted if soldiers are being mistreated. Not only can mistreatment of soldiers increase likelihoods of suicides, they will most likely affect the overall morale and cohesion of an entire unit. Therefore, I recommend commanders adopt and enforce "no tolerance policies" for acts of cruelty or maltreatment of subordinate soldiers by superior NCOs. Such actions violate Article 93 of the UCMJ (Appendix A). If complaints are made, and investigations reveal misconduct has occurred, commanders should either exercise their authority to discipline under Article 15 of the UCMJ (non-judicial punishment), or to order discipline under Article 32 for more serious offenses. However, soldiers must also know and understand their right to file a complaint against their commanding officer if he or she is performing wrongful actions against a soldier. Article 138 of the UCMJ (Appendix B) protects soldiers from wrongful disciplinary action being exercised by a commanding officer. If a soldier believes his or her commander is in violation of Article 138, a soldier should have full right to consult with the next highest commander within his or her chain of command. If no action is taken by that individual, the soldier should seek assistance from the post Inspector General (IG), or the post Staff Judge Advocate. For

example, many soldiers are being separated under Chapter 14 of Army Regulation 635-200 (Appendix C) for acts of misconduct. However, these acts of misconduct may stem from mental health problems such as PTSD. Therefore, soldiers should exercise their rights under Article 138 to request medical separations. Chapter 14 separations normally result in "other than honorable discharges." Such discharges often hinder a veteran's VA health benefits upon separation. Soldiers who served in a combat zone do not deserve such an act of injustice. Appendix D outlines examples of service members separated for misconduct. Another problem involves service members separated for personality disorders. According to Army Regulation 635-200, only a psychiatrist, or any other mental health professional may make such a diagnosis. Based on my experiences, commanders take such action to simply separate a soldier as soon as possible. Separations under Army Regulation 635-200 are performed much quicker than medical evaluation board (MEB) proceedings. While stationed at Fort Stewart, Georgia, I observed an NCO harass a subordinate on several occasions. However, even though the NCO was not properly performing his duties and abusing his authority, the commander declared the soldier as "sub-standard," and had him transferred to another unit, alienating him from his friends and his overall support network. He eventually committed suicide shortly after the transfer. Such aforementioned abuses by NCOs are examples of abuses of authority. They cannot be tolerated. Even though an individual committing suicide is committing a selfish act that cannot be rectified, improper treatment of soldiers does nothing to help the situation. A new clause must be added to Article 93 of the UCMJ. Since females do not deserve to be harassed sexually, or in any other manner, soldiers, regardless of sex, do not deserve to be harassed or chastised for being mentally ill. They deserve treatment. Therefore, I recommend Article 93 be amended to emphasize that any forms of stigma towards soldiers, regardless of rank, be a violation of the article.

MEDICAL EVALUATION BOARDS (MEB)

Medical evaluation board (MEB) proceedings should be commenced for all soldiers demonstrating symptoms of mental illness, regardless of the symptoms or the illness. An MEB establishes a disability rating, and the soldier is separated under honorably. Subsequently, he or she is able to obtain VA medical care for a service-connected disability, and may request disability percentage increases if his or her condition worsens. If a psychiatrist diagnoses a soldier with a "personality disorder," the soldier should not be separated under the provisions of Army Regulation 635-200 governing personality disorders. He or she shall be medically separated with a disability rating.

CONCLUSION

As mentioned in the abstract, this correspondence involves recommendations and proposals that may already have been taken into consideration, or implemented within the Army. This correspondence is not intended in any way to insult the Army in any way. Its primary purpose is to attempt to assist with the prevention of suicides within the Army, regardless of whether soldiers are deployed or not. Too many soldiers have taken their lives over the past few years for unknown reasons. However, I have seen first hand soldiers take their own lives due to failed leadership. It is time to be proactive, and ensure more preventive measures are

taken. Soldiers are human beings, not super heroes. Hence, missions cannot be completed without healthy soldiers on the front lines.

HEALTH CARE REFORM

Mr. BAUCUS. Mr. President, our next big objective is health care reform.

We have a unique opportunity to move forward on health reform this year. Now we must act. We simply cannot afford to wait any longer to fix our Nation's health care system.

We must work together to reduce health care costs, improve quality, and make coverage affordable for all Americans.

In the Finance Committee, we have held 13 hearings to prepare for health reform. Last week, we held a hearing on our Nation's health care workforce. The hearing examined ways to address our current workforce needs. The hearing considered ways to prepare our medical providers for health care reform.

At our hearing, four experts in the field testified about current health care workforce shortages, especially in primary care and nursing, and the witnesses told us that we must address these health workforce needs to meaningfully reform our health system.

Dr. David Goodman, the director of the Center for Health Policy Research, said: "The workforce we train today will shape, for good or bad, tomorrow's health system."

Dr. Goodman continued, "It will be hard to improve access, achieve better health outcomes and decrease health care expenditure growth rates unless we get workforce policy right."

I could not agree more.

Our efforts on health care reform are only as strong as our Nation's health care providers—the nurses, doctors, and other professionals—who are on the front lines caring for patients.

Investing in our health care workforce is critical as we work to expand health insurance coverage to millions of currently uninsured Americans.

During our hearing, Dr. Allan Goroll, a primary care doctor and professor at Harvard University, told us about the Massachusetts experience following the enactment of State health reform. Dr. Goroll said that some newly insured people in Massachusetts are waiting up to 2 months to get a doctor's appointment. That is simply unacceptable.

For our health care reform efforts to succeed, we must directly address these health workforce challenges.

It starts with primary care. Our current system greatly undervalues primary care. As a result, fewer students are going into the field. A recent study found that only 1 in 50 medical students plans a career in primary care internal medicine. That is down from more than one in five in the early 1990s. This trend is especially troubling, because it is clear that a strong

primary care system is a key determinant of high quality, efficient medical care.

During our hearing, we learned that areas of the country with a high proportion of primary care doctors spend less money on health care. And patients there have the same or better outcomes.

We need to invest in our Nation's primary care providers to help improve the quality of our medical care and to bring down health care costs.

Our workforce challenges extend beyond primary care. Our Nation's hospitals continue to face a nursing shortage. Recent news reports tell of shortages of general surgeons and dentists in rural areas. Many parts of the country need more mental health practitioners. And the list could go on.

We need to tackle these challenges head-on. We need to place our Nation's health care workforce on sound footing. And we need to meet the medical needs of all Americans.

This is going to require a renewed focus on the way that we pay for and deliver health care. We must ensure our payment systems reward high quality medical care and encourage medical students to go into critical fields like primary care.

And we are going to need to take a hard look at our national workforce policies to make sure that our health care providers have the right training and skills to deliver excellent care.

This effort is vital for our health reform efforts to succeed. So let's get to work now.

Let's work together to strengthen our Nation's health care workforce. Let's build a health care system that delivers high-quality medical care for everyone. And let's act now.

IDAHOANS SPEAK OUT ON HIGH ENERGY PRICES

Mr. CRAPO. Mr. President, in mid-June, I asked Idahoans to share with me how high energy prices are affecting their lives, and they responded by the hundreds. The stories, numbering well over 1,200, are heartbreaking and touching. While energy prices have dropped in recent weeks, the concerns expressed remain very relevant. To respect the efforts of those who took the opportunity to share their thoughts, I am submitting every e-mail sent to me through an address set up specifically for this purpose to the CONGRESSIONAL RECORD. This is not an issue that will be easily resolved, but it is one that deserves immediate and serious attention, and Idahoans deserve to be heard. Their stories not only detail their struggles to meet everyday expenses, but also have suggestions and recommendations as to what Congress can do now to tackle this problem and find solutions that last beyond today. I ask unanimous consent to have today's letters printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Read below and explain why you or anyone would vote to stop drilling when the country is in such turmoil. Please [tell me why so many people have plenty while] I struggle with student loans that I just paid a company to try and get eliminated. If you want to help me, call the Department of Education and tell them to forgive my student loans. I paid [a company] \$399 to get my loans discharged, so make a call and tell Department of Education to just do it without me suing them. It is said you get a denial letter, then you go to a lawyer just like for disability. Well, here is your chance to help an Idaho teacher that just lost her job due to mismanaged funds with [a local school district]. They are \$2 million in debt so they [laid off several teachers and para-educators]. So I am asking for help.

BLOCKED IN D.C.

Investors Business Daily estimates there are 1 trillion barrels of oil trapped in shale in the U.S. and Canada. Retrieving just a 10th of it would quadruple our current oil reserves. There is a pool of oil in the Gulf of Mexico that is estimated to be as large as any in the Middle East. There is an equally large pool believed to be in Alaska.

The Chinese are attempting to tap into the Gulf oil supply by drilling diagonally from Cuba. I wonder what environmental safeguards they are using?

The fact is that there are environmentally safe methods of extracting oil from shale and drilling in both the Gulf and Alaska. Congress, however, continues to block these efforts. Just last week, the Senate voted to block any extraction from shale in Colorado. In essence, they voted to make your trips to the gas station more expensive, to make air travel more expensive, and to make heating your home more expensive. That is something to think about in an election year.

Another topic: Social Security

Another issue that concerns many Americans these days is the sustainability of major entitlement programs like Social Security and Medicare. With all of Congress' talk about "saving and preserving" these programs, consider these facts about Social Security:

When Social Security (FICA) was introduced it was promised:

Participation in the program would be completely voluntary.

Participants would only have to pay 1% of the first \$1,400 of their annual incomes into the program.

The money the participants elected to put into the program would be deductible from their income for tax purposes each year.

MARY.

Thank you for the opportunity to share my feelings about national energy policy. I cannot understand the thinking of most of the politicians I hear about. If I want to maintain my freedom personally, I make sure I am as self-reliant as possible. I make sure I live within my income. I make sure I own the things I will need to sustain my lifestyle so I have control over them such as homes, cars, tools, computers, supplies, etc. especially if I need them on a long term basis. I rent them only when they are needed temporarily or I am not in a situation to purchase at the time. If I do not produce my own perishables or consumables such as food, water, fuel, etc., I try to make sure I have a good supply in case my sources get interrupted.

The comparison I am trying to make is if we in the USA have the energy available why do not we develop it and use it. It is like we are renting our energy from someone else and they just raised the rent real high.

I am surprised we have not had more problems already with most of our energy coming from other countries. I realize some countries do not have access to large resources of energy and have to rely on other countries to supply it and their ability to decide their future is in great jeopardy. I realize too that some groups of people do not want us to be independent from the rest of the world and therefore try to keep us dependent on other countries as much as possible.

The USA has the technology and resources to become completely independent energywise from the rest of the world. Nuclear energy is a proven and very safe energy source of which we have abundant supplies of fuel material, especially if we reprocess our own spent fuel waste. We have vast amounts of coal that can be used in a clean way and converted to petroleum like fuels (synthetic gas and diesel) with the help of nuclear reactors to produce the hydrogen and heat needed. I think there is plenty of room for renewable energy too. We should use all our resources and have a diverse source of energy recovery methods from wind turbines to nuclear energy and yes even coal, oil, and oil shale. Electric cars are the best solution in some cases but not most. Mass transit works in some places but again not all. Strict pollution controls may be needed in Los Angeles but not in most places in Idaho. I guess the beauty of the "anthropogenic global warming" crisis (at least for the control-oriented groups) is it says everyone no matter where they live are polluters and need to be regulated and controlled. If you can control someone's resources you can control them and access to energy is needed to develop resources and have freedom.

If we can get to the moon and send probes to other planets, we can certainly solve our own energy needs if that were our goal. The problem I see is that that is not the goal of most politicians. Their goal seems to be to breed dependence on the government (and themselves so they can get reelected) and other countries and restrict our freedoms. We go from one crisis to another until they claim they need to have complete control over everything to keep us safe and happy.

I believe we have the technology to extract this energy in clean environmentally-friendly ways. I believe we should be drilling offshore and in ANWR. I realize this is not going to do much to the price of gas right now but it is a medium term solution that will influence energy prices in 10-30 years. A long-term solution is to start using more nuclear energy and developing ways to produce transportation fuels from additional resources such as coal or better electric storage devices or hydrogen etc. Suing OPEC sounds like a bullying technique. Why bite the hand that is currently feeding us? If we demonstrated we were serious about becoming more energy independent, I would bet the price of oil would drop fast in hopes that it would discourage us from doing so. What part of the simple economic principle of supply and demand do most politicians not get?

BILL, Rexburg.

This country has been on a gas-guzzling binge for fifty years. I am sick and tired of hearing people complain about the cost of gas, driving solo in their inefficient cars, and unwilling to carpool or contribute towards mass transit options.

We do not need to expand domestic petroleum production. We need to learn conservation and seek alternative energy sources. The "God given right" to tear up the landscape for oil and selfish use is at the heart of what is wrong with people and their mind-set on a global scale.

Wake up and smell the coffee.
Love and light,

PAMELA.

Thank you for the invitation to share my views on the energy situation. Although gas prices have increased significantly lately, I do not think times are as tough as the media portrays. My grandparents have experienced far worse times than this current period.

Nonetheless, this issue still requires action. I think the best thing Congress can do in the short term is to increase domestic production. This involves several things, specifically getting more refineries built and allowing for drilling in ANWR. I am also a supporter of getting shale oil production started in the US.

In the long term, Congress should provide tax credits for those willing to pursue alternative fuels. Nuclear and hydrogen seem like excellent options. I am not in favor of corn-based ethanol and believe it is an inefficient use of our resources.

Further, Congress has no basis for establishing a windfall profit tax on oil companies. This is inappropriate government intervention. The consequences would be felt and mostly paid for by consumers. This tax would not be a remedy but a hindrance in solving our situation. Please always oppose any legislation of this form.

Thank you for your time. And please act promptly!

JEFF.

Thank you for taking time to read our story. First, with gas prices on the rise, my husband gets grumpy and grumpier. That means less happiness in our home and our marriage. That is a very personal effect. Our children live in Logan, Utah; Nampa, Idaho; Kirksville, Missouri; and Cleveland, Ohio. High fuel costs mean seeing our family less often, which makes me grumpy. My husband and I miss our grandchildren and children quite a bit. Since we have a business and have to pay for delivery trucks, marketing vehicles and other business costs, such as continuing education, utilities, merchandise, etc.—higher fuel costs means lower profit margins. It would be nice to be able to drive tiny vehicles but the winters are so severe here in Southeastern Idaho, we feel safer in a four-wheel drive unit which, of course, costs more to run. Fuel prices affect the cost of everything we buy, such as food, clothing and shelter. I do believe they are necessary. I am working on my college degree so higher fuel costs make my education costs increase, such as delivery costs for books, teaching materials, etc. We do try to conserve by walking, running errands all at one time but if there is an emergency with any of our family or a business problem it means a greater expense to take care of an emergency.

I believe it is time to use what resources are available within the US. I know that conservationists would have us all using horse and buggies again but that is not practical. I believe that there is technology available that would allow us to coexist with wildlife and their habitats and still make use of the petroleum and natural gas deposits that are tied up by conservation laws. Since the "gas embargo" of the 1970s, I have been uncomfortable that our government has not

moved forward to make this great land of ours energy independent.

I do worry about nuclear power since I lived through the Three Island Nuclear incident and Chernobyl. If the nuclear industry has improved, I would consider it. I believe in clean-burning coal, biofuel (as long as it does not raise food prices). I would like to see more refineries, more energy efficiency in all sectors of this nation. That would include business, government, homes, etc. There is so much that could be done; recycling (which in Southeastern Idaho is a joke), conservation, technical advances and so much more. It would be wonderful to truly see the government of this nation stop politicking and start working to address the energy problems of this nation. I am not sure I have all the answers but I do realize that human nature makes change hard. It would be great to see our government setting an example for the rest of the nation.

Again, thank you for reading this and asking our opinion.

LIISA, *Rexburg.*

I do not want anecdotes about how we are suffering, I want us to drill everywhere we have oil. Allow the development of the coal oil industry and tell the environmentalists and the democrats to stop trying to destroy this country. I do not want to live in a socialist or communist society and that is where we are heading.

Thanks for your time.

MIKE, *Naples.*

Thank you for asking for input:

My father is in an assisted living facility located 120 miles from where I live. 240 total miles / 15 miles per gallon = 16 gallons of gas \$4 = \$64. Therefore I am unable to see my father as often as I like as I also have 2 college children and a single income for my household. We are not doing any traveling as everything right now costs too much money due to transportation costs. This, as I know you know, includes food. I moved to Meridian area from a small community where I had everything paid off, had it in budget to be able to pay off house; now I may have to work till I am 75. Anyhow thanks for listening to my rant, I would have replied sooner but am out working on the farm program.

ROB, *Meridian.*

My wife and I are on a fixed income and Medicare. We are not in bad health but still have a lot of doctor's appointments to keep us healthy. We have one car and buy one tank of gas every two weeks. We use our car mainly to do three things: go to church, buy groceries once a week, and go to our doctors—all things to keep us spiritually and physically healthy. Now, with exploding gas prices, caused we feel mainly by the government's lack of action in the past and present, we are having to curtail. Let us see, now we can cut back on church to our spiritual detriment, and we can shop for groceries every other week and extend doctor's appointments to our physical detriment. What will we do in three months, six months, and beyond as gas prices continue to explode, driving up the cost of everything, while the government continues to talk with no action?

Okay, what should be done about the oil crisis? Release U.S. oil reserves immediately to both give relief and to sting those in the futures market that are reaping huge profits. With due consideration for the environment, lift the restrictions on drilling off our coasts and drilling in Alaska and other states.

Start processing oil shale. As reparations, take half the oil produced in Iraq or at least get a price break on Iraqi oil. Open up the nuclear power industry. Put some sanity behind the development of alternate fuels. Give more than lip service to hybrid and electrical cars. Convince us that government cares about us once again.

JON, *Boise.*

We are a retired couple living on less than we use to make. Not only is gas costing us more than we can afford but now we are told that propane will not go down in price as it usually does in the summer. We only have propane for heating and, as you know, it gets cold in Eastern Idaho. To fill our tank, it takes more than \$1000 for 500 gallons. Our car takes \$50 each time we fill it with gasoline. We have a car that gets about 30 miles to the gallon. The price of bread milk and groceries are also getting higher.

I know you support the drill here, drill now, spend less and I thank you for that. But unless something is done to help the Americans, someone will have killed their golden goose—the American consumer in the lower and middle class. We are definitely driving less and conserving where we can but I hear how the liberals want to do away with the tax cuts instead of making them permanent. I am a conservative and I have had enough

DARREL.

First of all I want to thank you for making this forum available. I have lots to say but will try to be brief; you and your staff are busy. I am a flight attendant for Delta Air Lines based in NYC. I live in Horseshoe Bend area and fly to JFK to cross the pond to Europe, working the JFK-Europe flight. Last summer I was able to commute to JFK on the same day I reported to work. Delta is cutting back on flights out of Boise and, since I am an employee, I get on last. This summer it will be harder and harder for me to get to work because Delta is using a lot of regional jets with only 50 and 70 seats to save fuel/Delta flights have 144 seats. Delta is cutting SkyWest (carrier operating the regional jets) flights 15% nationwide. Like most people, I do not get paid until I get to work. I am giving up more of my days off to commute to my job in New York. I certainly hope we can resolve this crisis. I am hoping not only for USA sources for energy but hopeful research and development will be more successful in finding better sources than corn, a low cost food sorely needed in less prosperous countries. Thanks to you and your staff for a great job!

CHERI, *Horseshoe Bend.*

I would just like to state that as a result of the higher gas prices, I had to withdraw from the university I was attending, as I commuted half an hour 3 times a week for class. I am no longer enrolled in that college because I could not make the drive. I am a young college student, married and my husband and I just bought our first home. I had to quit attending school because we simply could not afford to put the gas in even my fuel-efficient Toyota Corolla.

TIFFANY, *Idaho Falls.*

You inquired as to the effect oil prices are having on residents of Idaho. The ones on fixed incomes are having their savings and way of life vanishing. I recently received an e-mail suggesting that our food supply should be geared to a barrel of oil and the profits returned to the American people and farmers. It mentioned that gasoline is eight cents a gallon in Saudi Arabia?

FRANK, *Caldwell.*

High fuel and food costs are hurting both young and old. While gas prices in Idaho are at or above the national average, our hourly wage remains low. Idahoans can no longer afford to travel more than a few miles to work as the daily cost of gasoline to commute from any rural area to the city (e.g. Nampa/Caldwell to Boise) makes the trip prohibitive. Consequently, I would like to make the following recommendations:

1. Immediately end the corn ethanol federal subsidy program that has increased the cost of our food. There is absolutely no merit to this program. It benefits farmers, but the majority of Idaho's citizens and businesses are not farm-related!

2. Prohibit refineries from exporting diesel fuel out of U.S. as they are doing now because they can make more money exporting it! Refineries are shifting production from gasoline to diesel fuel, but not for the benefit of the people of the United States.

RALPH, *Eagle*.

ADDITIONAL STATEMENTS

TRIBUTE TO JENNIFER ROTHSCHILD

• Mr. BOND. Mr. President, I wish today to honor Jennifer Rothschild, a fellow Missourian, who recently received the Foundation Fighting Blindness' Hope and Spirit Award. This award recognizes the people who inspire all of us because of their ability to see literally beyond their vision loss. The award honors the uniquely human qualities that advance the mission of the foundation, and ultimately, the betterment of society.

Jennifer Rothschild is a remarkable individual who inspires people to rise above their challenges, aspire for the extraordinary, and live life to the fullest just as she has done.

Jennifer lost her sight after being diagnosed with a rare, degenerative eye disease. Retinal degenerative diseases affect more than 10 million people in the United States alone, and millions more worldwide. This loss of vision was more than a turning point for Jennifer who had dreams of becoming a commercial artist and cartoonist. However, she soared above that challenge and found a new path.

Jennifer is now a mother, author, speaker, pianist and role model for all those who face challenges. She carries her story and message of encouragement across the country. In a "Good Morning America" interview for her latest of six books, Jennifer said "If I chose to let blindness be my enemy I would be fighting it my whole life. Maybe this was God's way of giving me a really great gift in a really difficult package." It is that optimism and her amazing talent that inspired me the evening she received her Hope and Spirit Award.

I congratulate Jennifer on this latest achievement and look forward to her great work in the future.●

REMEMBERING MARY ELLEN ROZZELL

• Mr. MENENDEZ. Mr. President, today I honor Mary Ellen Rozzell, former President of the National Association of Professional Surplus Lines Offices, NAPSLO, who passed away unexpectedly on March 3, 2009, while attending a NAPSLO conference in Palm Springs, CA.

Mary Ellen was a respected, beloved leader. The president of Continental/Marmorstein & Malone Insurance Agency in Paramus, NJ, she began working in the insurance business with the Marmorstein Agency some 40 years ago. Mary Ellen served as president of New Jersey Surplus Lines Association, NJSLSA, from 1989-1990, and was named as NJSLSA honoree of the year in 1992 due to her outstanding contribution to the New Jersey Surplus Lines Industry. She also served on the New Jersey Insurance Commissioner's Producer Advisory Council, and with the Juvenile Diabetes Foundation.

Her warmth, openness, honesty, and good nature made everyone who met her feel immediately comfortable. These qualities served her very well in life, with family and friends, and in her remarkable career where she rose through the ranks with hard work and honesty. She was always prepared for the trials of life and business and the often difficult decisions required by both. She embraced responsibility, expected accountability and never failed those who depended on her. All who knew her benefitted by her example.

Her family has established the Mary Ellen Rozzell Foundation for AVM Research so that friends and colleagues might contribute to arteriovenous malformation research in Mary Ellen's name.

I extend my sympathy to her family and those close to her. She will be missed greatly by everyone she touched.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Williams, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

ENROLLED BILL SIGNED

At 10:14 a.m., a message from the House of Representatives, delivered by

Mr. Zapata, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 1541. An act to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

The enrolled bill was subsequently signed by the President pro tempore (Mr. BYRD).

At 3:04 p.m., a message from the House of Representatives, delivered by Mr. Zapata, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 1586. An act to impose an additional tax on bonuses received from certain TARP recipients.

At 3:24 p.m., a message from the House of Representatives, delivered by Mr. Zapata, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 1388. An act to reauthorize and reform the national service laws.

At 5:45 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 1216. An act to designate the facility of the United States Postal Service located at 1100 Town and Country Commons in Chesterfield, Missouri, as the "Lance Corporal Matthew P. Pathenos Post Office Building".

MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 1216. An act to designate the facility of the United States Postal Service located at 1100 Town and Country Commons in Chesterfield, Missouri, as the "Lance Corporal Matthew P. Pathenos Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

MEASURES PLACED ON THE CALENDAR

The following bill was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 1388. An act to reauthorize and reform the national service laws.

MEASURES READ THE FIRST TIME

The following bills were read the first time:

H.R. 1586. An act to impose an additional tax on bonuses received from certain TARP recipients.

S. 651. A bill to amend the Internal Revenue Code of 1986 to impose an excise tax on excessive bonuses paid by, and received from, companies receiving Federal emergency economic assistance, to limit the amount of

nonqualified deferred compensation that employees of such companies may defer from taxation, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-981. A communication from the Acting Administrator, Risk Management Agency, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "General Administrative Regulations; Appeal Procedure" (RIN0563-AC18) received in the Office of the President of the Senate on March 16, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-982. A communication from the Acting Administrator, Risk Management Agency, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "General Administrative Regulations; Submissions of Policies, Provisions of Policies, Rates of Premium and Premium Reduction Plans" (RIN0563-AC20) received in the Office of the President of the Senate on March 16, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-983. A communication from the Acting Administrator, Risk Management Agency, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Common Crop Insurance Regulations; Cabbage Crop Insurance Provisions" (RIN0563-AB99) received in the Office of the President of the Senate on March 16, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-984. A communication from the Assistant Secretary of the Navy (Research, Development and Acquisition), transmitting, pursuant to law, a report relative to the determination and findings for authority to award a single source task or delivery order contract; to the Committee on Armed Services.

EC-985. A communication from the Assistant Secretary of the Navy (Installations and Environment), transmitting, pursuant to law, a report relative to the notification of the intent to initiate a public-private competition for environmental services and pest management functions being performed by ninety-four Department of Defense civilian employees located in Norfolk, Virginia; to the Committee on Armed Services.

EC-986. A communication from the Assistant Secretary of the Navy (Installations and Environment), transmitting, pursuant to law, a report relative to the notification of the intent to initiate a public-private competition for base support, vehicle operations, and equipment functions being performed by three hundred ninety Department of Defense civilian employees located in various locations throughout the Mid-Atlantic region; to the Committee on Armed Services.

EC-987. A communication from the Acting Under Secretary of Defense (Personnel and Readiness), transmitting a report on the approved retirement of Lieutenant General James J. Lovelace, United States Army, and his advancement to the grade of lieutenant general on the retired list; to the Committee on Armed Services.

EC-988. A communication from the Principal Deputy, Office of the Under Secretary of Defense (Personnel and Readiness), transmitting the report of (2) officers authorized to wear the insignia of the grade of major general in accordance with title 10, United

States Code, section 777; to the Committee on Armed Services.

EC-989. A communication from the Director, Bureau of Economic Analysis, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Direct Investment Surveys: BE-15, Annual Survey of Foreign Direct Investment in the United States" (RIN0691-AA65) received in the Office of the President of the Senate on March 16, 2009; to the Committee on Commerce, Science, and Transportation.

EC-990. A communication from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Update to Materials Incorporated by Reference" (FRL-8774-8) received in the Office of the President of the Senate on March 17, 2009; to the Committee on Environment and Public Works.

EC-991. A communication from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Standards of Performance for Stationary Combustion Turbines" (FRL-8784-4) received in the Office of the President of the Senate on March 17, 2009; to the Committee on Environment and Public Works.

EC-992. A communication from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Lead; Fees for Accreditation of Training Programs and Certification of Lead-based Paint Activities and Renovation Contractors" (FRL-8404-2) received in the Office of the President of the Senate on March 17, 2009; to the Committee on Environment and Public Works.

EC-993. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Tier I—Industry Director Directive on Domestic Production Deduction (DPD) #3—Field Directive related to compensation expenses currently deducted but attributable to prior periods" (LMSB-04-0209-004) received in the Office of the President of the Senate on March 17, 2009; to the Committee on Finance.

EC-994. A communication from the Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, the report of a vacancy and designation of acting officer in the position of Assistant Administrator for the Bureau for Latin America and the Caribbean, received in the Office of the President of the Senate on March 16, 2009; to the Committee on Foreign Relations.

EC-995. A communication from the Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, the report of a vacancy and designation of acting officer in the position of Assistant Administrator for the Bureau for Democracy, Conflict & Humanitarian Assistance, received in the Office of the President of the Senate on March 19, 2009; to the Committee on Foreign Relations.

EC-996. A communication from the Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, the report of a vacancy and designation of acting officer in the position of Assistant Administrator for the Bureau for Africa, received in the Office of the President of the Senate on March 19, 2009; to the Committee on Foreign Relations.

EC-997. A communication from the Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, the report of a vacancy and designation of acting officer in the position of Assistant Administrator for the Bureau for Legislative and Public Affairs, received in the Office of the President of the Senate on March 19, 2009; to the Committee on Foreign Relations.

EC-998. A communication from the Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, the report of a vacancy and designation of acting officer in the position of Assistant Administrator for the Bureau for Global Health, received in the Office of the President of the Senate on March 19, 2009; to the Committee on Foreign Relations.

EC-999. A communication from the Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, the report of a vacancy and designation of acting officer in the position of Assistant Administrator for the Bureau for Asia, received in the Office of the President of the Senate on March 19, 2009; to the Committee on Foreign Relations.

EC-1000. A communication from the Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, the report of a vacancy and designation of acting officer in the position of Assistant Administrator for the Bureau for Europe and Eurasia, received in the Office of the President of the Senate on March 19, 2009; to the Committee on Foreign Relations.

EC-1001. A communication from the Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, the report of a vacancy and designation of acting officer in the position of Assistant Administrator for the Bureau for Middle East, received in the Office of the President of the Senate on March 19, 2009; to the Committee on Foreign Relations.

EC-1002. A communication from the Acting Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed technical assistance agreement for the export of defense articles, including technical data, and defense services in the amount of \$100,000,000 or more to the Republic of Korea; to the Committee on Foreign Relations.

EC-1003. A communication from the Board Members, Railroad Retirement Board, transmitting, pursuant to law, an annual report relative to the Board's compliance with the Sunshine Act during calendar year 2008; to the Committee on Health, Education, Labor, and Pensions.

EC-1004. A communication from the Acting Chair, Occupational Safety and Health Review Commission, transmitting, pursuant to law, a report relative to the acquisitions made by the agency during fiscal year 2008 from entities that manufacture articles, materials, or supplies outside of the United States; to the Committee on Homeland Security and Governmental Affairs.

EC-1005. A communication from the Attorney of the Office of Assistant General Counsel for Legislation and Regulatory Law, Office of Energy Efficiency and Renewable Energy, Department of Energy, transmitting, pursuant to law, the report of a rule entitled "Federal Procurement of Energy Efficient Products" (RIN1904-AB68) received in the Office of the President of the Senate on March 17, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-1006. A communication from the Acting Assistant Attorney General, Office of Legislative Affairs, Department of Justice, transmitting, pursuant to law, a report entitled "Report of the Attorney General to the Congress of the United States on the Administration of the Foreign Agents Registration Act of 1938, as amended for the six months ending June 30, 2008"; to the Committee on the Judiciary.

EC-1007. A communication from the Secretary, Judicial Conference of the United States, transmitting, a legislative proposal relative to North Dakota Judicial District Divisional Adjustment; to the Committee on the Judiciary.

EC-1008. A communication from the Director of Regulations Management, Veterans Benefits Administration, Department of Veterans Affairs, transmitting, pursuant to law, the report of a rule entitled "The Dr. James Allen Veteran Vision Equity Act of 2007" (RIN2900-AN03) received in the Office of the President of the Senate on March 17, 2009; to the Committee on Veterans' Affairs.

EC-1009. A communication from the Director of Regulations Management, Veterans Benefits Administration, Department of Veterans Affairs, transmitting, pursuant to law, the report of a rule entitled "Termination of Phase-In Period for Full Concurrent Receipt of Military Retired Pay and Veterans Disability Compensation Based on a VA Determination of Individual Unemployability" (RIN2900-AN19) received in the Office of the President of the Senate on March 17, 2009; to the Committee on Veterans' Affairs.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-11. A resolution approved by the Westchester County, New York Board of Legislators urging Congress to establish a National Clean and Safe Water Trust fund to provide regular infrastructure funding; to the Committee on Energy and Natural Resources.

RESOLUTION No. 11

Whereas, many of our nation's water pipes and sewers were installed in the early part of the 20th century, some as far back as the Civil War; and

Whereas, as water systems age and population grows, more and more leaks develop and sewage overflows into our streams, rivers, lakes and ocean, creating serious public health hazards; and

Whereas, many communities do not even have sanitary sewer systems and are forced to rely on failing individual septic systems; and

Whereas, public health agencies issued more than 20,000 warnings against swimming at beaches on U.S. coasts in 2005, and a majority of beach closings are due to sewage overflows and malfunctioning sewage plants; and

Whereas, the Environmental Protection Agency's 2000 Progress in Water Quality Report finds that America could experience stream impairments that predate achievement of secondary treatment standards by 2016 if improvements are not made; and

Whereas, the Water Infrastructure Network, the Environmental Protection Agency, and other government agencies report that the cost of presently known wastewater infrastructure construction needs total between \$300 billion and \$450 billion; and

Whereas, the federal government has cut the main source of funding for clean water year after year; and

Whereas, the National Research Council recently warned that more water-borne disease outbreaks will occur if substantial investments are not made to improve our water pipes and systems; and

Whereas, the President has called for a comprehensive economic recovery package to assist state and local governments in meeting infrastructure needs while stimulating the economy and creating jobs; and

Whereas, there are federal trust funds for other major national investment needs like highways and airports, yet the federal government has yet to establish a trust fund to protect something all people need to survive: water; Now therefore be it.

Resolved, That the Westchester County Board of Legislators, requests that the incoming Administration prioritize funding for water filtration and distribution and wastewater and stormwater infrastructure in any economic stimulus package; and be it further

Resolved, That the Westchester County Board of Legislators, urges Congress to establish a National Clean and Safe Water Trust Fund to provide regular infrastructure funding; and be it further

Resolved, That the Clerk of the Board forward a copy of this Resolution to President Barack Obama, Vice President Joseph Biden, New York State Governor David Paterson, United States Senators Charles Schumer and Hillary Rodham Clinton, and United States Representatives Eliot Engel, Nita Lowey, and John Hall, so that the intent of this Honorable Board be widely known.

POM-12. A resolution adopted by the City of Pembroke Pines, Florida supporting the passage and adoption of an amendment to the Federal regulations allowing for the issuance of tax-exempt bonds to help cities fund their pension obligations; to the Committee on Finance.

RESOLUTION No. 3214

Whereas, in recent years the City of Pembroke Pines, Florida (hereinafter referred to as the "City") has issued bonds to help fund its pension obligations; and

Whereas, under the current federal regulatory scheme, such bonds are taxable, which results in a higher cost to the City than if they were tax exempt; and

Whereas, the City incurs an additional cost of approximately twenty-five percent (25%) as a result of issuing taxable bonds rather than tax-exempt bonds; and

Whereas, allowing for a tax-exemption for the issuance of bonds to fund its pension obligations will result in significant savings to the City, and its taxpayers, particularly at a time when the financial stability of cities and counties throughout the State of Florida, as well as the U.S. economy as a whole, is in a period of uncertainty; and

Whereas, the City Commission deems it to be in the best interests of the citizens and residents of the City to support an amendment to the federal regulations, as well as any other regulations on the State level, allowing for the issuance of tax-exempt bonds to help cities fund their pension obligations. Now, therefore, be it

Resolved by the City Commission of the city of Pembroke Pines, Florida, That:

Section 1. The foregoing "Whereas" clauses are hereby ratified and confirmed as being true and correct and are hereby made a specific part of this Resolution.

Section 2. The City Commission of the City of Pembroke Pines, Florida hereby supports

an amendment to the federal regulations allowing for the issuance of tax-exempt bonds to help cities fund their pension obligations.

Section 3. All resolutions or parts of resolutions on in conflict herewith be, and the same are hereby repealed to the extent of such conflict.

Section 4. If any clause, section, other part or application of this Resolution is held by any court of competent jurisdiction to be unconstitutional or invalid, in part or application, it shall not affect the validity of the remaining portions or applications of this Resolution.

Section 5. This Resolution shall become effective immediately upon its passage and adoption.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. ROCKEFELLER for the Committee on Commerce, Science, and Transportation.

*Gary Locke, of Washington, to be Secretary of Commerce.

By Mr. LEAHY for the Committee on the Judiciary.

Dawn Elizabeth Johnsen, of Indiana, to be an Assistant Attorney General.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mrs. MURRAY (for herself, Mr. COCHRAN, and Mr. KAUFMAN):

S. 638. A bill to provide grants to promote financial and economic literacy; to the Committee on Health, Education, Labor, and Pensions.

By Mr. INHOFE (for himself, Mr. MERKLEY, and Mr. COBURN):

S. 639. A bill to amend the definition of commercial motor vehicle in section 31101 of title 49, United States Code, to exclude certain farm vehicles, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. GREGG (for himself and Mr. LIEBERMAN):

S. 640. A bill to provide Congress a second look at wasteful spending by establishing enhanced rescission authority under fast-track procedures; to the Committee on the Budget.

By Mr. GRASSLEY:

S. 641. A bill to amend the Controlled Substances Act to prevent the abuse of dehydroepiandrosterone, and for other purposes; to the Committee on the Judiciary.

By Mr. BAYH (for himself, Mr. MERKLEY, Mr. BYRD, Mr. DORGAN, Mr. WYDEN, and Mr. LUGAR):

S. 642. A bill to require the Secretary of Defense to establish registries of members and former members of the Armed Forces exposed in the line of duty to occupational and

environmental health chemical hazards, to amend title 38, United States Code, to provide health care to veterans exposed to such hazards, and for other purposes; to the Committee on Armed Services.

By Mr. LAUTENBERG (for himself, Mr. BROWN, and Ms. KLOBUCHAR):

S. 643. A bill to amend title I of the Employee Retirement Income Security Act of 1974, title XXVII of the Public Health Service Act, and the Internal Revenue Code of 1986 to prohibit preexisting condition exclusions for children in group health plans and health insurance coverage in the group and individual markets; to the Committee on Health, Education, Labor, and Pensions.

By Mr. CHAMBLISS (for himself, Mr. KERRY, Mr. DORGAN, Mrs. LINCOLN, Mr. ISAKSON, Mr. WHITEHOUSE, Mr. KENNEDY, Mr. PRYOR, Mr. JOHNSON, Mr. SCHUMER, Mr. ROBERTS, and Mr. INHOFE):

S. 644. A bill to amend title 10, United States Code, to include service after September 11, 2001, as service qualifying for the determination of a reduced eligibility age for receipt of non-regular service retired pay; to the Committee on Armed Services.

By Mrs. LINCOLN (for herself, Mr. CHAMBLISS, and Ms. LANDRIEU):

S. 645. A bill to amend title 32, United States Code, to modify the Department of Defense share of expenses under the National Guard Youth Challenge Program; to the Committee on Armed Services.

By Mr. BURR (for himself, Mr. ALEXANDER, Mr. ROBERTS, Mr. DODD, and Mr. COBURN):

S. 646. A bill to amend section 435(o) of the Higher Education Act of 1965 regarding the definition of economic hardship; to the Committee on Health, Education, Labor, and Pensions.

By Mr. GRASSLEY (for himself and Mr. KOHL):

S. 647. A bill to amend titles XVIII and XIX of the Social Security Act to improve the transparency of information on skilled nursing facilities and nursing facilities and to clarify and improve the targeting of the enforcement of requirements with respect to such facilities; to the Committee on Finance.

By Mr. BINGAMAN (for himself, Ms. SNOWE, and Mr. SANDERS):

S. 648. A bill to amend title XVIII of the Social Security Act to establish a prospective payment system instead of the reasonable cost-based reimbursement method for Medicare-covered services provided by Federally qualified health centers and to expand the scope of such covered services to account for expansions in the scope of services provided by Federally qualified health centers since the inclusion of such services for coverage under the Medicare program; to the Committee on Finance.

By Mr. KERRY (for himself, Ms. SNOWE, Mr. NELSON of Florida, and Mr. WICKER):

S. 649. A bill to require an inventory of radio spectrum bands managed by the national telecommunications and Information Administration and the Federal Communications Commission; to the Committee on Commerce, Science, and Transportation.

By Mr. FEINGOLD:

S. 650. A bill to abolish the death penalty under Federal law; to the Committee on the Judiciary.

By Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. WYDEN, Ms. SNOWE, Mrs. LINCOLN, Mr. KERRY, Ms. STABENOW, Mr. SCHUMER, Mr. MENENDEZ,

Mr. NELSON of Florida, Mr. BINGAMAN, and Ms. CANTWELL):

S. 651. A bill to amend the Internal Revenue Code of 1986 to impose an excise tax on excessive bonuses paid by, and received from, companies receiving Federal emergency economic assistance, to limit the amount of nonqualified deferred compensation that employees of such companies may defer from taxation, and for other purposes; read the first time.

By Mrs. MURRAY:

S. 652. A bill to authorize the Secretary of Health and Human Services to make grants to community health coalitions to assist in the development of integrated health care delivery, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. CARDIN (for himself and Ms. MIKULSKI):

S. 653. A bill to require the Secretary of the Treasury to mint coins in commemoration of the bicentennial of the writing of the Star-Spangled Banner, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. BUNNING (for himself and Ms. MIKULSKI):

S. 654. A bill to amend title XIX of the Social Security Act to cover physician services delivered by podiatric physicians to ensure access by Medicaid beneficiaries to appropriate quality foot and ankle care; to the Committee on Finance.

By Mr. JOHNSON (for himself, Ms. STABENOW, Mr. TESTER, and Mr. THUNE):

S. 655. A bill to amend the Pittman-Robertson Wildlife Restoration Act to ensure adequate funding for conservation and restoration of wildlife, and for other purposes; to the Committee on Environment and Public Works.

By Mr. REED (for himself, Mr. WHITEHOUSE, Mr. KERRY, Ms. MIKULSKI, Ms. KLOBUCHAR, and Mr. KENNEDY):

S. 656. A bill to provide for the adjustment of status of certain nationals of Liberia to that of lawful permanent residents; to the Committee on the Judiciary.

By Mr. GRASSLEY (for himself, Mr. SCHUMER, Mr. LEAHY, Mr. SPECTER, Mr. GRAHAM, Mr. FEINGOLD, Mr. CORNYN, and Mr. DURBIN):

S. 657. A bill to provide for media coverage of Federal court proceedings; to the Committee on the Judiciary.

By Mr. TESTER:

S. 658. A bill to amend title 38, United States Code, to improve health care for veterans who live in rural areas, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. ALEXANDER:

S. 659. A bill to improve the teaching and learning of American history and civics; to the Committee on Health, Education, Labor, and Pensions.

By Mr. HATCH (for himself and Mr. DODD):

S. 660. A bill to amend the Public Health Service Act with respect to pain care; to the Committee on Health, Education, Labor, and Pensions.

By Mr. BINGAMAN (for himself, Ms. COLLINS, Ms. STABENOW, Ms. SNOWE, Mr. BAYH, Mr. BROWN, and Mr. PRYOR):

S. 661. A bill to strengthen American manufacturing through improved industrial energy efficiency, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. CONRAD (for himself, Ms. COLLINS, Mr. WYDEN, Mr. SCHUMER, Mr. KERRY, Ms. KLOBUCHAR, and Mrs. BOXER):

S. 662. A bill to amend title XVIII of the Social Security Act to provide for reimbursement of certified midwife services and to provide for more equitable reimbursement rates for certified nurse-midwife services; to the Committee on Finance.

By Mr. NELSON of Nebraska (for himself, Mr. BROWNBACK, Mr. KENNEDY, Mrs. LINCOLN, Mr. GRASSLEY, Mr. DURBIN, Mr. WHITEHOUSE, Mr. INHOFE, Mr. WYDEN, Mr. CARDIN, Mr. KERRY, Ms. MURKOWSKI, Mr. SPECTER, Mrs. MURRAY, Ms. COLLINS, Ms. STABENOW, Mr. ROBERTS, and Mr. COCHRAN):

S. 663. A bill to amend title 38, United States Code, to direct the Secretary of Veterans Affairs to establish the Merchant Marine Equity Compensation Fund to provide benefits to certain individuals who served in the United States merchant marine (including the Army Transport Service and the Naval Transport Service) during World War II; to the Committee on Veterans' Affairs.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. INHOFE (for himself, Mr. KYL, Mr. DEMINT, Mr. COBURN, Mr. CORNYN, Mr. MARTINEZ, Mr. RISCH, Mr. HATCH, Mr. ENZI, and Mr. BARRASSO):

S. Res. 79. A resolution honoring the life of Paul M. Weyrich and expressing the condolences of the Senate on his passing; to the Committee on the Judiciary.

By Mrs. FEINSTEIN (for herself and Mr. MARTINEZ):

S. Res. 80. A resolution designating the week beginning March 15, 2009, as "National Safe Place Week"; considered and agreed to.

By Ms. COLLINS (for herself, Mr. CARDIN, Ms. SNOWE, Mr. RISCH, Ms. MIKULSKI, Mr. ISAKSON, Mr. CHAMBLISS, Mr. BINGAMAN, Mr. SCHUMER, Mr. SANDERS, Mr. BAYH, Mr. BENNETT, Mr. CASEY, Ms. LANDRIEU, Mr. KYL, Mrs. GILLIBRAND, Mr. WYDEN, Mr. LIEBERMAN, Mrs. FEINSTEIN, Mr. SHELBY, Mrs. MURRAY, Mr. BARRASSO, Ms. MURKOWSKI, Mr. ROBERTS, Mr. BROWN, Mr. SPECTER, Mr. NELSON of Nebraska, Mr. MENENDEZ, Ms. CANTWELL, Mr. ALEXANDER, Mr. WICKER, Mr. THUNE, Mr. VOINOVICH, Mr. HATCH, Mr. DORGAN, Mr. NELSON of Florida, Mr. KERRY, Mr. MCCONNELL, Mr. DURBIN, Mr. WHITEHOUSE, Mr. CORKER, and Mr. BURR):

S. Con. Res. 11. A concurrent resolution condemning all forms of anti-Semitism and reaffirming the support of Congress for the mandate of the Special Envoy to Monitor and Combat Anti-Semitism, and for other purposes; to the Committee on Foreign Relations.

ADDITIONAL COSPONSORS

S. 205

At the request of Mr. BINGAMAN, the name of the Senator from New Mexico (Mr. UDALL) was added as a cosponsor of S. 205, a bill to authorize additional resources to identify and eliminate illicit sources of firearms smuggled into

Mexico for use by violent drug trafficking organizations, and for other purposes.

S. 277

At the request of Mrs. GILLIBRAND, her name was added as a cosponsor of S. 277, a bill to amend the National and Community Service Act of 1990 to expand and improve opportunities for service, and for other purposes.

At the request of Mr. LAUTENBERG, his name was added as a cosponsor of S. 277, *supra*.

At the request of Mr. UDALL of New Mexico, his name was added as a cosponsor of S. 277, *supra*.

S. 353

At the request of Mr. BROWN, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of S. 353, a bill to amend title IV of the Public Health Service Act to provide for the establishment of pediatric research consortia.

S. 391

At the request of Mr. WYDEN, the name of the Senator from New Hampshire (Mr. GREGG) was added as a cosponsor of S. 391, a bill to provide affordable, guaranteed private health coverage that will make Americans healthier and can never be taken away.

S. 422

At the request of Ms. STABENOW, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 422, a bill to amend the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act to improve the prevention, diagnosis, and treatment of heart disease, stroke, and other cardiovascular diseases in women.

S. 423

At the request of Mr. AKAKA, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 423, a bill to amend title 38, United States Code, to authorize advance appropriations for certain medical care accounts of the Department of Veterans Affairs by providing two-fiscal year budget authority, and for other purposes.

S. 431

At the request of Mr. WHITEHOUSE, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 431, a bill to establish the Temporary Economic Recovery Adjustment Panel to curb excessive executive compensation at firms receiving emergency economic assistance.

S. 456

At the request of Mr. DODD, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 456, a bill to direct the Secretary of Health and Human Services, in consultation with the Secretary of Education, to develop guidelines to be used on a voluntary basis to develop plans to manage the risk of food allergy and anaphylaxis in schools and early child-

hood education programs, to establish school-based food allergy management grants, and for other purposes.

S. 457

At the request of Mr. THUNE, the name of the Senator from North Dakota (Mr. CONRAD) was added as a cosponsor of S. 457, a bill to establish pilot projects under the Medicare program to provide incentives for home health agencies to utilize home monitoring and communications technologies.

S. 461

At the request of Mr. CRAPO, the name of the Senator from Kansas (Mr. BROWNBACK) was added as a cosponsor of S. 461, a bill to amend the Internal Revenue Code of 1986 to extend and modify the railroad track maintenance credit.

S. 475

At the request of Mr. BURR, the names of the Senator from Montana (Mr. TESTER) and the Senator from Oregon (Mr. WYDEN) were added as cosponsors of S. 475, a bill to amend the Servicemembers Civil Relief Act to guarantee the equity of spouses of military personnel with regard to matters of residency, and for other purposes.

S. 487

At the request of Mr. HARKIN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 487, a bill to amend the Public Health Service Act to provide for human embryonic stem cell research.

S. 491

At the request of Mr. WEBB, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 491, a bill to amend the Internal Revenue Code of 1986 to allow Federal civilian and military retirees to pay health insurance premiums on a pretax basis and to allow a deduction for TRICARE supplemental premiums.

S. 493

At the request of Mr. CASEY, the name of the Senator from Mississippi (Mr. WICKER) was added as a cosponsor of S. 493, a bill to amend the Internal Revenue Code of 1986 to provide for the establishment of ABLE accounts for the care of family members with disabilities, and for other purposes.

S. 524

At the request of Mr. FEINGOLD, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 524, a bill to amend the Congressional Budget and Impoundment Control Act of 1974 to provide for the expedited consideration of certain proposed rescissions of budget authority.

S. 543

At the request of Mr. DURBIN, the names of the Senator from California (Mrs. BOXER), the Senator from South Dakota (Mr. JOHNSON), the Senator from Minnesota (Ms. KLOBUCHAR) and

the Senator from New Hampshire (Mrs. SHAHEEN) were added as cosponsors of S. 543, a bill to require a pilot program on training, certification, and support for family caregivers of seriously disabled veterans and members of the Armed Forces to provide caregiver services to such veterans and members, and for other purposes.

S. 546

At the request of Mr. REID, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 546, a bill to amend title 10, United States Code, to permit certain retired members of the uniformed services who have a service-connected disability to receive both disability compensation from the Department of Veterans Affairs for their disability and either retired pay by reason of their years of military service or Combat-Related Special Compensation.

S. 571

At the request of Mr. MENENDEZ, the names of the Senator from California (Mrs. FEINSTEIN) and the Senator from Maryland (Mr. CARDIN) were added as cosponsors of S. 571, a bill to strengthen the Nation's research efforts to identify the causes and cure of psoriasis and psoriatic arthritis, expand psoriasis and psoriatic arthritis data collection, and study access to and quality of care for people with psoriasis and psoriatic arthritis, and for other purposes.

S. 581

At the request of Mr. BENNET, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 581, a bill to amend the Richard B. Russell National School Lunch Act and the Child Nutrition Act of 1966 to require the exclusion of combat pay from income for purposes of determining eligibility for child nutrition programs and the special supplemental nutrition program for women, infants, and children.

S. 589

At the request of Mr. FEINGOLD, the name of the Senator from Michigan (Mr. LEVIN) was added as a cosponsor of S. 589, a bill to establish a Global Service Fellowship Program and to authorize Volunteers for Prosperity, and for other purposes.

S. 599

At the request of Mr. CARPER, the names of the Senator from Rhode Island (Mr. WHITEHOUSE) and the Senator from Connecticut (Mr. LIEBERMAN) were added as cosponsors of S. 599, a bill to amend chapter 81 of title 5, United States Code, to create a presumption that a disability or death of a Federal employee in fire protection activities caused by any certain diseases is the result of the performance of such employee's duty.

S. 611

At the request of Mr. LAUTENBERG, the names of the Senator from California (Mrs. FEINSTEIN) and the Senator from Washington (Mrs. MURRAY)

were added as cosponsors of S. 611, a bill to provide for the reduction of adolescent pregnancy, HIV rates, and other sexually transmitted diseases, and for other purposes.

S. 614

At the request of Mrs. HUTCHISON, the names of the Senator from Iowa (Mr. HARKIN), the Senator from Ohio (Mr. BROWN), the Senator from Oklahoma (Mr. INHOFE), the Senator from Illinois (Mr. BURRIS), the Senator from West Virginia (Mr. BYRD) and the Senator from Maryland (Mr. CARDIN) were added as cosponsors of S. 614, a bill to award a Congressional Gold Medal to the Women Airforce Service Pilots ("WASP").

S. 623

At the request of Mr. ROCKEFELLER, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 623, a bill to amend title I of the Employee Retirement Income Security Act of 1974, title XXVII of the Public Service Act, and the Internal Revenue Code of 1986 to prohibit preexisting condition exclusions in group health plans and in health insurance coverage in the group and individual markets.

S. 634

At the request of Mr. HARKIN, the name of the Senator from Nevada (Mr. ENSIGN) was added as a cosponsor of S. 634, a bill to amend the Elementary and Secondary Education Act of 1965 to improve standards for physical education.

S. 636

At the request of Mr. THUNE, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 636, a bill to amend the Clean Air Act to conform the definition of renewable biomass to the definition given the term in the Farm Security and Rural Investment Act of 2002.

S. RES. 49

At the request of Mr. LUGAR, the names of the Senator from Vermont (Mr. LEAHY), the Senator from Mississippi (Mr. WICKER) and the Senator from Georgia (Mr. ISAKSON) were added as cosponsors of S. Res. 49, a resolution to express the sense of the Senate regarding the importance of public diplomacy.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. MURRAY (for herself, Mr. COCHRAN, and Mr. KAUFMAN):

S. 638. A bill to provide grants to promote financial and economic literacy; to the Committee on Health, Education, Labor, and Pensions.

Mrs. MURRAY. Mr. President, there are a number of factors that caused the economic recession we are faced with today. All of us know that.

We can blame executives on Wall Street, who made reckless choices and

ignored long-term consequences to make a quick profit.

We can blame the financial industry regulators, whose lax oversight failed to see the potential risks posed by the new, complex financial products that Wall Street was selling, and we can point a finger at those in the mortgage industry, who ignored that all bubbles eventually burst and that—in the case of housing bubble—the American taxpayers would be left to clean up the mess.

But we also need to look a little closer to home as well. The reality is that one of the contributing causes of this recession is the fact that too many Americans made poor and very often uninformed financial choices when they bought homes in the last several years.

Too many overestimated their own resources, didn't read the fine print, and didn't grasp the terms of their mortgages before signing on the dotted line.

In fact, we need to recognize that too many Americans, from college students to senior citizens, are financially illiterate.

The problem is not limited to mortgage holders. Too many Americans don't know how to budget their household expenses, manage their credit card debt, or even pay their bills on time.

We need to ensure that we don't get into this situation again, by giving all Americans the skills to make sound financial decisions.

We used to say the 3 R's of school are reading, writing, and arithmetic. Well, I think we need to add a fourth R—resource management.

That is why today I am introducing legislation that will help ensure that all Americans get the skills they need to make financial decisions that will protect them and their families.

The Financial and Economic Literacy Improvement Act of 2009 will require the Federal Government to step to the plate and become a real partner in helping Americans manage their finances and make good decisions about housing, employment, and education.

This bipartisan bill, which is cosponsored by Senator COCHRAN, is aimed at helping people of all ages. Our goal is to ensure that high school and college students know the pitfalls of signing up for credit cards and can make informed decisions about student loans.

All young people understand the importance of saving and making smart decisions to ensure a comfortable and dignified retirement and, most important, that we are taking steps to ensure we do not repeat the misguided and uninformed decisions that have contributed to the recession that we find ourselves in today.

Under our bill, the Federal Government will become a strong supporter of making financial literacy education a core part of K-12 education.

I believe that focusing this effort on young people is critical for two reasons:

One, if we are going to avoid another crisis such as this one, we must begin by teaching the next generation to make smart financial decisions; two, because all signs point to another generation that is coming of age already saddled with debt, and we need to help them before it is too late.

This past Sunday, this article ran on the front page of the Olympian newspaper from my State of Washington. I ask unanimous consent to have this article printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Olympian, Mar. 15, 2009]

TEENS AWASH IN CREDIT CARD DEBT

(By Les Blumenthal)

The numbers are startling. More than half of all high school seniors have debit cards and nearly one-third have credit cards.

One-third of college students have four credit cards apiece when they graduate, and more than half of graduates have piled up \$5,000 each in high-interest debt. The number of 18- to 24-year-olds who have declared bankruptcy has increased 96 percent in 10 years.

Surveys show that many of these young people also are financially illiterate: They don't understand such things as interest, minimum payments, credit reports, identity theft or that they might be paying off their school loans for years.

The problem isn't just with the young, however. One in five Americans thinks that the most practical way to become rich is to win the lottery.

Sen. Patty Murray, D-Wash., remembers that her kids started receiving credit card applications when they were 16. She said that she repeatedly heard from people, young and old, who wished they knew more about financial matters.

Murray will introduce legislation this week that would authorize \$1.2 billion in grants over five years to promote financial-literacy education beginning in grade school and stretching into adulthood.

"It's a perfect time to be doing this," Murray said.

Ben Bernanke, the chairman of the Federal Reserve, agrees.

"In light of the problems that have arisen in the subprime mortgage market, we are reminded how critically important it is for individuals to become financially literate at an early age so they are better prepared to make decisions and navigate an increasingly complex financial marketplace," he said nearly a year ago.

Kerry Eickmeyer, 17, a senior at Richland High School in Richland gave up her debit card after about a year when she kept overdrawing her account.

"My mother was getting frustrated," she said.

She and other students at Richland High must take a class in consumer economics before they can graduate. Eickmeyer said she received credit card offers all the time and shredded them.

"I don't need 10 credit cards," she said.

Jesus Pedraza, 19, wished he'd been prepared to handle his personal finances when he entered Washington's Tacoma Community College, even though he doesn't have a credit card.

"I thought I was ready, but money is running out faster than I thought," Pedraza said.

As part of its Human Development 101 class for freshman, Tacoma Community College devotes a section to personal finance. Students track their weekly spending and learn about credit cards, minimum payments, savings plans and investments. James Mendoza, who teaches the class, said he focused on the nuts and bolts of finance.

"We don't expect them to be Warren Buffett, George Soros or any of the big dogs," Mendoza said. "But they need to understand whether a venti mocha is a need or a want."

In the past five years, 17 states added personal finance requirements to their curricula. Last year, former President George W. Bush appointed an Advisory Council on Financial Literacy to work with the private and public sectors to promote financial education. The council is part of the Treasury Department. Its members range from the chairman of Charles Schwab to the leader of Junior Achievement USA.

Murray's bill, co-sponsored by Sen. Thad Cochran, R-Miss., would provide grants to state education agencies that agreed to establish financial literacy standards and assess how well students were doing in elementary, middle and high school. Nonprofit organizations also would be eligible for grants. In addition, grants would be available to community and four-year colleges to offer financial literacy classes for their students and for older adults.

In addition to financial literacy classes offered by school districts, Junior Achievement operates programs in many districts. About 4.5 million young people participate in Junior Achievement programs nationwide.

Other programs also are operating in the schools. Founded by a bankruptcy judge in New York, the Credit Abuse Resistance Education program sends bankruptcy judges around the country to high schools to talk about personal finances.

Pat Williams, a bankruptcy Judge in Spokane, said that when she walked into a class of 25 or so 10th- or 11th-graders, it wasn't hard for her to spot the five that would end up in bankruptcy in three years.

"They are dealing with so much—cell phones, car insurance, credit cards, debit cards," she said. "It was stunning to them to learn there were late charges on a credit card bill."

High school and college students can end up paying for their lack of financial knowledge, said Pam Whalley, the director of the Center for Economic Education at Western Washington University. One survey of high school students found that they expected to earn an average of \$143,000 a year and were confident they could handle the money but that few knew how to do a budget. College students know little about savings, insurance and retirement, and are lured to credit card deals too easily, she said.

"College kids will do anything for a T-shirt," Whalley said.

In the middle of a recession, she said, educating students about financial matters is crucial.

"If you make a mistake during a recession, you have less to fall back on," she said. "If you make a mistake when your job isn't safe, you could lose your house or your car. When you have financial literacy, you have more control over your life."

Mrs. MURRAY. Mr. President, the article discusses the legislation I am introducing today. It also talks about

the financial path that the next generation is currently on. The article pointed out that, right now, one-third of our college students have four credit cards when they graduate. More than half of our graduates have piled up \$5,000 each in high interest debt. The number of 18 to 24-year-olds who have declared bankruptcy has almost doubled in 10 years.

That article also points out that many of our young people are financially illiterate. They understand very little about concepts such as interest or minimum payments or credit reports and the financial reality of having to pay off their student loans for years to come.

Today, with many of our schools struggling to pay teachers and maintain their current programs, a lot of our State and local governments cannot afford to ramp up financial literacy education right now. That is exactly where I believe the Federal Government needs to step up. We cannot afford for our young people to not understand their own finances.

Our bill will authorize \$125 million annually to go to State and local education agencies and their partnerships with organizations experienced in providing high-quality financial literacy and economic instruction.

This funding we will provide will help make financial and economic literacy a part of core academic classes, develop financial literacy standards and testing benchmarks, and provide critical teacher training.

This bill will also help schools weave financial concepts into basic classes, such as math and social studies.

Importantly, this training will not end in high school. Our bill makes the same \$125 million investment in teaching financial literacy in our 2- and 4-year colleges.

That is critical. My constituents often write or tell me about the financial trouble they are struggling with. A lot of them are very desperate for help. They got into situations they didn't understand, and they don't have the resources to fix.

For example, one woman from Olympia, who put off credit card bills to pay her mortgage, wrote to me and said:

I am educated, but was unaware that by being late on a payment or by skipping a payment and trying to make it up, my interest rate could skyrocket to over 26 percent, and late fees could be exponential.

Whether it is skyrocketing interest rates or credit cards or an adjustable rate mortgage that somebody can no longer afford or a retirement plan that they don't understand, I often hear the same thing from people: I wish someone had taught this to me in high school.

This bill we are introducing ensures that we are teaching it in our schools, and it will help people learn the basic skills that will give them a leg up when they are dealing with their bankers.

This crisis we are in cost us dearly. Every weekend when I go home I hear about another business that is closing or another family who cannot pay their bills. But we know if we make changes and smart investments, we can move our country forward. I believe this is one of those smart investments. In January, after President Obama took office, he called for an era of personal responsibility. I believe our bill helps Americans to usher in that era.

I encourage my colleagues to take a look at the bill and cosponsor it and help us move it forward so we can make sure that we have a financially literate country.

Mr. GRASSLEY:

S. 641. A bill to amend the Controlled Substances Act to prevent the abuse of dehydroepiandrosterone, and for other purposes; to the Committee on the Judiciary.

Mr. GRASSLEY. Mr. President, I remain very concerned about the continuing prevalence of performance-enhancing drugs in sports. The ongoing reports of the vast use of performance-enhancing drugs in professional sports, especially Major League Baseball, illustrate the presence of a disturbing culture throughout all sports. It is becoming all too common to read not only about professional athletes using performance-enhancing drugs, but also college and high school athletes turning to these substances to gain a competitive edge. Although Congress passed the Anabolic Steroid Control Act to disrupt this cycle of abuse in 2004, we cannot relent in our efforts to keep performance-enhancing drugs out of our society and away from our children.

The dietary supplement, Dehydroepiandrosterone, DHEA, is readily available online and on the shelves of nutritional stores, but can be used as a performance-enhancing substance. In response to the growing use of performance-enhancing drugs in professional sports, Congress passed the Anabolic Steroid Control Act in 2004. When this bill was being considered, DHEA was among 23 anabolic steroids that are now schedule III controlled substances. Some of my colleagues objected to DHEA being included on this list, because they believed DHEA was harmless and did not have the same anabolic effects as the other steroids on the list. DHEA was subsequently removed from the bill, but the facts do not back up the claims that DHEA is not a performance-enhancing drug or harmless.

According to the U.S. Anti-Doping Agency, DHEA is a pre-cursor hormone to androstenedione and testosterone. These substances became illegal anabolic steroids as a result of the Anabolic Steroid Control Act of 2004. Although the body naturally produces DHEA, the natural production of the hormone ceases around the age of 35.

Many people over this age use DHEA, in low doses, as part of an "anti-aging" regimen. However, when taken in high doses over time, DHEA, like its other relatives in the steroid family, may cause liver damage and cancer. In fact, one study conducted by scientists at Oxford University revealed DHEA use to be strongly associated with breast cancer development. The truth is there are few studies about the long term effects DHEA has on the body. According to Dr. F. Clark Holmes, Director of Sports Medicine at Georgetown University, many proposed studies involving high doses of DHEA are denied approval out of concern that the product may cause irreversible harm to human subjects. Because DHEA is marketed as a dietary supplement, companies are not required to prove their safety to the Food and Drug Administration. However, nearly all the professional sports leagues, the Olympics and the NCAA have banned their athletes from using it for good reason.

What is even more disturbing is the fact that DHEA is being marketed online to younger athletes. One bodybuilding website, directed towards teenagers, features a teen bodybuilder of the week to promote performance-enhancing supplements. A 19-year-old Junior National Champion bodybuilder is one of the bodybuilders on this website. When asked what supplement gave him the greatest gains for his competition this teenager replied, "DHEA." In another website, DHEA is advertised as follows, "If you're a bodybuilder, and want to increase lean body mass at the expense of body fat, actual studies show this supplement may significantly alter body composition, favoring lean mass accrual." Another example on another website describes DHEA in this way, "DHEA is HOT, and you will see why. As a precursor hormone, it leads to the production of other hormones. When this compound is supplemented, it has shown to have awesome effects." These advertisements are geared to the younger crowd, even though DHEA has no legitimate use for teenagers.

These DHEA advertisements, and others like it, are having some impact on young athletes, especially in my state of Iowa. The Iowa Orthopaedic Journal published a study on nutritional supplement use in 20 Northwest Iowa high schools. In this study, 495 male football players and 407 female volleyball players were asked if they used nutritional supplements. The results of this anonymous survey revealed that 8 percent of football players and 2 percent of Volleyball players used supplements. These students identified DHEA as one of the supplements that they used. The students were then asked to give the reason why they used DHEA and the general response was "for performance enhancement."

We have to find a way to keep young people from using a substance that can

do them harm. Three states currently prohibit the sale of DHEA to minors. There are also various supplement stores like GNC and Walgreens that have policies in place that prohibit the sale of DHEA to anyone under 18. If we cannot place DHEA behind the counter, then we should at least make it difficult for teens to walk out of a store with a potentially harmful substance in hand. This is why I'm pleased to introduce the DHEA Abuse Reduction Act of 2009. This bill will place a nationwide restriction on the sale of DHEA for those under 18 years of age. It will also allow those who use DHEA, legitimately, to not have to obtain a prescription to do so. The Coalition for Anabolic Steroid Precursor and Ephedra Regulation, which is comprised of the Nation's leading medical, public health and sports organizations support this legislation. The U.S. Anti-Doping Agency also supports this legislation to keep DHEA away from our children. I urge my colleagues to pass this legislation.

In the highly competitive world of sports, the pressure to use performance-enhancing drugs can be overwhelming. Even though we, as a society, demand excellence from our favorite teams and athletes, we cannot accept this excellence to be falsely aided by a drug. Furthermore, we cannot allow harmful drugs to destroy the health of so many young and promising athletes. We have to continue to curb the use of performance-enhancing drugs for the health of our country and children.

By Mr. GRASSLEY (for himself and Mr. KOHL):

S. 647. A bill to amend titles XVIII and XIX of the Social Security Act to improve the transparency of information on skilled nursing facilities and nursing facilities and to clarify and improve the targeting of the enforcement of requirements with respect to such facilities; to the Committee on Finance.

Mr. KOHL. Mr. President, I rise today to introduce the Nursing Home Transparency and Improvement Act of 2009.

My colleague, Senator GRASSLEY, and I have worked on this legislation together. He is on the floor now and will speak of the bill when I finish my comments.

As chairman of the Special Committee on Aging, the quality of care that is provided to nursing home residents is of great concern to me, and I am proud to introduce this bill with Senator GRASSLEY today.

I have worked with Senator GRASSLEY on nursing home policy for several years. We have commissioned GAO reports, sought input from both industry and reform advocates, and collaborated with the executive branch on various initiatives. This work has generated

some positive results, such as the government's new five-star nursing home rating system.

But we must do more. We believe the bill we introduce today will raise the bar for nursing home quality and oversight nationwide, by strengthening the Federal Government's ability to monitor and advance the level of care provided in nursing homes, for up to five minutes.

First, our bill would give the Government better tools for enforcing high quality standards. For instance, nursing homes would be required to disclose information about all the principal business partners who play a role in the financing and management of the facility, so that the Government can hold them accountable in the case of poor care or neglect. It would also create a national independent monitor pilot program to tackle tough quality and safety issues that must be addressed at the level of corporate management.

Second, our bill would give consumers more information about individual nursing homes and their track record of care. Our bill would grant consumers access to a facility's most recent health and safety report online, and would develop a simple, standardized online complaint form for residents and their families to ensure that their concerns are addressed swiftly. And it would require the Government to collect staffing information from nursing homes on a real-time basis, and make this information available to the public.

Finally, our bill would encourage homes to improve on their own. Under this legislation, facilities would develop compliance and ethics programs to decrease the risk of financial fraud, and quality assurance standards to internally monitor the quality of care provided to residents. We also authorize funds for a national demonstration project on "culture change," a new management style in nursing home care that rethinks relationships between management and frontline workers by empowering nursing aides to take charge of the personalized care of residents. Finally, our bill makes an investment in nursing home staff by offering training on how to handle residents with dementia.

Twenty-two years have passed since Congress last addressed the safety and quality of America's nursing homes in a comprehensive way. As we prepare to debate reforms across our health care system, there has never been a better time to implement these critical improvements to our nation's system of nursing homes. We ask our colleagues for their support.

Madam President, I turn now to Senator GRASSLEY, with whom I worked diligently with a great effort and with tremendous results. He is a man I have enjoyed working with across the aisle

now for many years. He is a high-quality guy. It is in that respect and with that regard that I turn to him now.

The PRESIDING OFFICER. The Senator from Iowa is recognized.

Mr. GRASSLEY. Madam President, I thank the Senator for his kind words. I have had an opportunity to work with him not only on legislation of this type but a lot of other pieces of legislation, and I enjoy working with him because he is a person of great common sense. I thank him for his leadership in this area, and, more importantly, I thank him for serving in the outstanding position as chairman of the Special Committee on Aging, with a lot of responsibilities in the area of making sure aging problems are brought to the forefront.

This legislation we are introducing is called the Nursing Home Transparency and Improvement Act. It brings to the surface some very important issues he is watching as chairman of the Aging Committee. I have some interaction with it because I am a member of the Finance Committee.

This is a critical piece of legislation that brings overdue transparency to consumers regarding nursing home quality and operations. It also provides long needed improvements to our enforcement system.

In America today, there are well over 1.7 million elderly and disabled individuals in over 17,000 nursing home facilities. As the baby boom generation enters retirement, this number is going to rise dramatically. While many people are using alternatives, such as community-based care, nursing homes are going to remain a critical option for elderly and disabled populations.

As the ranking member of the Senate Finance Committee, I have a long-standing commitment to ensuring that nursing home residents receive the safe and quality care we expect for our loved ones. Why? Because the taxpayers put in tens of billions of dollars—I would imagine over \$47 billion or \$48 billion now, and maybe that figure is higher than the last time I looked, but it is billions of dollars. Our Aging Committee and all of Congress have a special responsibility to make sure that money is spent well, and one way of spending it well is to make sure it delivers quality care to these people who are in need.

Unfortunately, as in many areas, with nursing homes, a few bad apples often spoil the barrel. Too many Americans receive poor care, often in a subset of nursing homes. Unfortunately, this subset of chronic offenders stays in business, often keeping their poor track records hidden from the public at large and often facing little or no oversight or enforcement from the Federal Government, based on laws that were passed in 1986 and 1987.

There is a lack of transparency, a lack of accountability, and sometimes

in our approach to nursing homes, quite simply, a lack of common sense—the sort of common sense the Senator from Wisconsin always exhibits in the legislative approach. These are things this legislation seeks to bring to nursing homes and their residents—transparency, accountability, and common sense.

Let's look at transparency. In the market for nursing home care, as in all markets, consumers must often have adequate information to make informed choices. For years, people looking at a nursing home for themselves or their loved ones had no way of knowing a nursing home facility's record of care, inspection history, or which individuals were ultimately responsible for caring for their loved ones.

This bill is intended to change that and to emphasize this point about why we have to be concerned about the type of facility in which a person is placed.

I have never once in my life run into a single elderly or disabled person who said to me: I am dying to get into a nursing home. This is on the continuum care, the stop where people cannot be taken care of beforehand. We need to make sure that is right.

This legislation requires nursing facilities to make available ownership information, including the individuals and entities that are ultimately responsible for a home's operation and management.

Today when I am discussing this bill with people in the industry, I don't have anybody objecting who actually owns a nursing home. But early on, that seemed to be something that, for some reason or another, did not seem to be anybody's business. Tell me it isn't anybody's business who owns a nursing home if they are receiving \$45 billion to \$50 billion of taxpayer money going to that industry. That ownership is very important.

How nursing homes are staffed can greatly affect the care they provide, especially when dealing with complex conditions, such as nursing homes. So you go behind who owns a nursing home, who is working there, and that is pretty important. If you do not have all this information, it leaves residents and their families without clear information about who is ultimately responsible for ensuring that a resident is consistently provided with high-quality care.

This provides transparency, as well, concerning nursing home staffing and surveys. Homes differ widely in terms of the number of specialized staff available to residents, as well as the number of registered nurses and certified nursing assistants who provide much hands-on care.

Let me say it a second time. How a nursing home is staffed can greatly affect the care it provides, especially when dealing with complex cases. This

legislation requires better tracking of this information and requires that this information is available to prospective residents and their families.

In addition, this legislation will help families have a better idea of a nursing home's track record in that it requires better transparency for nursing home inspection reports that are completed on a routine basis.

The Secretary will also now be required to provide consumers with a summary of information on enforcement actions taken against a facility during the previous 3 years.

This same transparency will also provide additional market incentives for poor homes to improve. If customers know about problems, that home is incentivized to improve or face going out of business.

This effort also requires a strong, effective enforcement and monitoring system to ensure safe and quality care at facilities that will not take the necessary steps voluntarily. But even with improved transparency, there are some nursing homes that will not improve on their own.

In the nursing home industry, most homes provide quality care on a very consistent basis. So we need to give inspectors better enforcement tools.

The current system provides incentives to correct problems only temporarily and allows homes to avoid regulatory sanctions while continuing to deliver substandard care to residents. This system must be fixed.

Last year, CMS requested two things: one, statutory authority to collect civil monetary penalties sooner, and, two, the ability to hold those penalties in escrow pending appeal.

To that end, this bill requires nursing homes that have been found in violation of law be given the opportunity to participate in an independent, informal dispute resolution process within 30 days. After that point, depending on the outcome of the appeal, the penalties are collected and held in escrow pending the exhaustion of the appeals process. This will ensure that nursing homes found to be violating the rules actually pay the penalties assessed if it is determined those penalties are appropriate. But we should not have to resort to enforcement. Problems resulting in penalties should be avoided or detected and fixed immediately by the nursing home in the first place. That is why this bill now requires all nursing homes to have compliance and ethics programs, as well as quality assurance and performance improvement programs.

In addition to increased transparency and improved enforcement, this bill provides commonsense solutions to a number of other problems.

This legislation requires the Secretary of HHS to establish a national independent monitoring program to tackle problems specific to interstate and large intrastate nursing chains.

In the case of nursing homes being closed due to poor safety or quality of care, this bill requires that residents and their representatives be given sufficient notice so they can adequately plan a transfer to an appropriate setting.

We need to be very sensitive—and I am very sensitive—to the fact that nursing home residents are often elderly and fragile. Moving them into a new facility is traumatic. So we have to make sure these residents are transferred appropriately and with adequate time and care.

This bill also aims to help nursing homes that self-report their concerns and remedy certain deficiencies, giving those homes that are trying to do their best and find things wrong on their own to get credit for that. By doing so, nursing homes then may have any penalties reduced by 50 percent. This will encourage facilities to take the lead in finding, flagging, and fixing violations.

This bill is also intended to strengthen training requirements for nursing staff by including dementia and abuse prevention training as part of pre-employment.

I am proud to introduce this bill along with my friend Senator KOHL. The Committee on Aging and I have a long history of working together on elderly care issues, and I am happy to continue that work.

I also note today the Government Accountability Office is releasing a report critical of CMS's funding of State oversight entities, such as nursing homes. This report notes that survey activity is sometimes so unreliable that certain homes have not even been inspected in more than 6 years. The report makes a number of recommendations to CMS, and I will be looking very carefully at how CMS follows those recommendations. In the meantime, it is important that we improve transparency and accountability for the inspections that are taking place.

We will continue to do everything we can to make sure that American nursing home residents receive the safe and quality care they deserve. Increasing transparency, improving enforcement tools, strengthening training requirements will go a long way toward achieving that goal. I thank, once again, Senator KOHL.

By Mr. BINGAMAN (for himself, Ms. SNOWE, and Mr. SANDERS):

S. 648. a bill to amend title XVIII of the Social Security Act to establish a prospective payment system instead of the reasonable cost-based reimbursement method for Medicare-covered services provided by Federally qualified health centers and to expand the scope of such covered services to account for expansions in the scope of services provided by Federally qualified health centers since the inclusion of such services for coverage under the

Medicare program; to the Committee on Finance.

Mr. BINGAMAN. Mr. president, I rise today with Senators Snowe and Sanders to introduce the Medicare Access to Community Health Centers, MATCH, Act of 2009.

This legislation addresses a long standing payment issue experienced by a key component of our Nation's health care safety net, community health centers. These centers provide high quality, comprehensive care and serve as the medical home to 18 millions individuals. Over one million of those patients are Medicare beneficiaries.

Over 15 years ago, Congress created the Federally Qualified Health Center, FQHC, Medicare benefit to ensure that health centers were not forced to subsidize Medicare payments with Federal grant dollars. Congress required that centers be paid their reasonable costs for providing care to their Medicare patients. The centers for Medicare and Medicaid Services, CMS, later established a per visit payment cap in regulations based on a payment cap applicable to Rural Health Clinics. CMS applied the cap to FQHCs without much data support and with the promise of future reviews to guarantee that Health Centers were adequately reimbursed. However, these reviews have not taken place. Currently, over 75 percent of health centers are losing money serving Medicare beneficiaries, with losses totaling over \$50 million annually according to an analysis done by the National Association of Community Health Centers, NACHC. In my home State of New Mexico, NACHC estimates that health centers lose more than a million dollars annually.

I have repeatedly asked CMS to review this antiquated cap but I have had little success. So I rise today to introduce legislation to improve the Medicare payment mechanism for FQHCs. The MATCH Act will establish a Prospective Payment System for FQHCs, based on the actual cost of providing care to health center patients. This new mechanism mirrors the successful Medicaid FQHC Prospective Payment System. By reforming the payment structure at FQHCs, we will ensure health centers are able to dedicate their Federal grant dollars for their original intent—providing care to the uninsured. This new mechanism will also increase efficiency and stability in the Medicare program for health centers.

This legislation is long overdue. I ask my colleagues to join me in strengthening the Medicare FQHC program to ensure that health centers can continue to provide high quality, affordable primary and preventive care to our Nation's seniors and people with disabilities.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 648

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Medicare Access to Community Health Centers (MATCH) Act of 2009".

SEC. 2. FINDINGS.

Congress finds that:

(1) NATIONAL IMPORTANCE.—Community health centers serve as the medical home and family physician to over 16,000,000 people nationally. Patients of community health centers represent 1 in 7 low-income persons, 1 in 8 uninsured Americans, 1 in 9 Medicaid beneficiaries, 1 in 10 minorities, and 1 in 10 rural residents.

(2) HEALTH CARE SAFETY NET.—Because Federally qualified health centers (FQHCs) are generally located in medically underserved areas, the patients of Federally qualified health centers are disproportionately low income, uninsured or publicly insured, and minorities, and they frequently have poorer health and more complicated, costly medical needs than patients nationally. As a chief component of the health care safety net, Federally qualified health centers are required by regulation to serve all patients, regardless of insurance status or ability to pay.

(3) MEDICARE BENEFICIARIES.—Medicare beneficiaries are typically less healthy and, therefore, costlier to treat than other patients of Federally qualified health centers. Medicare beneficiaries tend to have more complex health care needs as—

(A) more than half of Medicare patients have at least 2 chronic conditions;

(B) 45 percent take 5 or more medications; and

(C) over half of Medicare beneficiaries have more than 1 prescribing physician.

(4) NEED TO IMPROVE FQHC PAYMENT.—While the Centers for Medicare & Medicaid Services have nearly 15 years' worth of cost report data from Federally qualified health centers, which would equip the agency to develop a new Medicare reimbursement system, the agency has failed to update and improve the Medicare FQHC payment system.

SEC. 3. EXPANSION OF MEDICARE-COVERED PRIMARY AND PREVENTIVE SERVICES AT FEDERALLY QUALIFIED HEALTH CENTERS.

(a) IN GENERAL.—Section 1861(aa)(3) of the Social Security Act (42 U.S.C. 1395x(aa)(3)) is amended to read as follows:

“(3) The term ‘Federally qualified health center services’ means—

“(A) services of the type described in subparagraphs (A) through (C) of paragraph (1), and such other ambulatory services furnished by a Federally qualified health center for which payment may otherwise be made under this title if such services were furnished by a health care provider or health care professional other than a Federally qualified health center; and

“(B) preventive primary health services that a center is required to provide under section 330 of the Public Health Service Act, when furnished to an individual as a patient of a Federally qualified health center and such services when provided by a health care provider or health care professional employed by or under contract with a Federally qualified health center and for this purpose, any reference to a rural health clinic or a

physician described in paragraph (2)(B) is deemed a reference to a Federally qualified health center or a physician at the center, respectively. Services described in the previous sentence shall be treated as billable visits for purposes of payment to the Federally qualified health center."

(b) CONFORMING AMENDMENT TO PERMIT PAYMENT FOR HOSPITAL-BASED SERVICES.—Section 1862(a)(14) of such Act (42 U.S.C. 1395y(a)(14)) is amended by inserting "Federally qualified health center services," after "qualified psychologist services,".

(c) EFFECTIVE DATES.—The amendments made by subsections (a) and (b) shall apply to services furnished on or after January 1, 2010.

SEC. 4. ESTABLISHMENT OF A MEDICARE PROSPECTIVE PAYMENT SYSTEM FOR FEDERALLY QUALIFIED HEALTH CENTER SERVICES.

(a) IN GENERAL.—Paragraph (3) section 1833(a) of the Social Security Act (42 U.S.C. 1395l(a)) is amended to read as follows:

"(3)(A) in the case of services described in section 1832(a)(2)(D)(i) the costs which are reasonable and related to the furnishing of such services or which are based on such other tests of reasonableness as the Secretary may prescribe in regulations including those authorized under section 1861(v)(1)(A), less the amount a provider may charge as described in clause (ii) of section 1866(a)(2)(A) but in no case may the payment for such services (other than for items and services described in section 1861(s)(10)(A)) exceed 80 percent of such costs; and

"(B) in the case of services described in section 1832(a)(2)(D)(ii) furnished by a Federally qualified health center—

"(i) subject to clauses (iii) and (iv), for services furnished on and after January 1, 2010, during the center's fiscal year that ends in 2010, an amount (calculated on a per visit basis) that is equal to 100 percent of the average of the costs of the center of furnishing such services during such center's fiscal years ending during 2008 and 2009 which are reasonable and related to the cost of furnishing such services, or which are based on such other tests of reasonableness as the Secretary prescribes in regulations including those authorized under section 1861(v)(1)(A) (except that in calculating such cost in a center's fiscal years ending during 2008 and 2009 and applying the average of such cost for a center's fiscal year ending during fiscal year 2010, the Secretary shall not apply a per visit payment limit or productivity screen), less the amount a provider may charge as described in clause (ii) of section 1866(a)(2)(A), but in no case may the payment for such services (other than for items or services described in section 1861(s)(10)(A)) exceed 80 percent of such average of such costs;

"(ii) subject to clauses (iii) and (iv), for services furnished during the center's fiscal year ending during 2011 or a succeeding fiscal year, an amount (calculated on a per visit basis and without the application of a per visit limit or productivity screen) that is equal to the amount determined under this subparagraph for the center's preceding fiscal year (without regard to any copayment)—

"(I) increased for a center's fiscal year ending during 2011 by the percentage increase in the MEI (as defined in section 1842(i)(3)) applicable to primary care services (as defined in section 1842(i)(4)) for 2011 and increased for a center's fiscal year ending during 2012 or any succeeding fiscal year by the percentage increase for such year of a market basket of Federally qualified health center costs as de-

veloped and promulgated through regulations by the Secretary; and

"(II) adjusted to take into account any increase or decrease in the scope of services, including a change in the type, intensity, duration, or amount of services, furnished by the center during the center's fiscal year, less the amount a provider may charge as described in clause (ii) of section 1866(a)(2)(A), but in no case may the payment for such services (other than for items or services described in section 1861(s)(10)(A)) exceed 80 percent of the amount determined under this clause (without regard to any copayment);

"(iii) subject to clause (iv), in the case of an entity that first qualifies as a Federally qualified health center in a center's fiscal year ending after 2009—

"(I) for the first such center's fiscal year, an amount (calculated on a per visit basis and without the application of a per visit payment limit or productivity screen) that is equal to 100 percent of the costs of furnishing such services during such center's fiscal year based on the per visit payment rates established under clause (i) or (ii) for a comparable period for other such centers located in the same or adjacent areas with a similar caseload or, in the absence of such a center, in accordance with the regulations and methodology referred to in clause (i) or based on such other tests of reasonableness (without the application of a per visit payment limit or productivity screen) as the Secretary may specify, less the amount a provider may charge as described in clause (ii) of section 1866(a)(2)(A), but in no case may the payment for such services (other than for items and services described in section 1861(s)(10)(A)) exceed 80 percent of such costs; and

"(II) for each succeeding center's fiscal year, the amount calculated in accordance with clause (ii); and

"(iv) with respect to Federally qualified health center services that are furnished to an individual enrolled with a MA plan under part C pursuant to a written agreement described in section 1853(a)(4) (or, in the case of a MA private fee for service plan, without such written agreement) the amount (if any) by which—

"(I) the amount of payment that would have otherwise been provided under clause (i), (ii), or (iii) (calculated as if '100 percent' were substituted for '80 percent' in such clauses) for such services if the individual had not been enrolled; exceeds

"(II) the amount of the payments received under such written agreement (or, in the case of MA private fee for service plans, without such written agreement) for such services (not including any financial incentives provided for in such agreement such as risk pool payments, bonuses, or withholdings) less the amount the Federally qualified health center may charge as described in section 1857(e)(3)(B);".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to services furnished on or after January 1, 2010.

Ms. SNOWE. Mr. President, I rise today to join Senator BINGAMAN to introduce legislation to rectify a long standing problem for community health centers and the millions of Americans who depend on them for primary care access. Health centers serve as the medical home for over 18 million underserved patients. Annually, over 1.2 million of those patients are Medicare beneficiaries and 8.5 million patients are living below the Federal pov-

erty level. Health centers are known for providing high quality, comprehensive care to some of our nation's most vulnerable populations.

Over 17 years ago, Congress created the Federally Qualified Health Center, FQHC, Medicare benefit to ensure that health centers were not forced to subsidize Medicare payments with Federal grant dollars. Therefore, Congress required that centers be paid their reasonable costs for providing care to their Medicare patients. The Centers for Medicare and Medicaid Services, CMS, later established a per visit payment cap in regulations based on a payment cap applicable to rural health clinics. CMS applied the cap to FQHCs with the promise of future reviews to guarantee that health centers were adequately reimbursed. However, CMS has failed to update payments.

Today, the majority of health centers are losing money serving Medicare beneficiaries, causing them to use their Federal grant dollars, intended for care for the uninsured, to supplement Medicare payments. These losses exceed \$50 million annually according to an analysis completed by the National Association of Community Health Centers.

We have repeatedly requested that CMS review this antiquated payment structure with little success. So I rise today again with Senator BINGAMAN to see that FQHCs receive payment for services they provide. This bill will establish a prospective payment system for FQHCs, based on the actual cost of providing care to health center patients. This new mechanism mirrors the successful Medicaid FQHC prospective payment system. By reforming the payment structure at FQHCs, we will ensure that health centers are able to dedicate their Federal grant dollars for their originally intended purpose—providing care to the uninsured.

This legislation is long overdue. I ask my colleagues to join me in strengthening the Medicare FQHC program to make certain that health centers can continue to provide high quality, affordable primary and preventive care to our Nation's seniors and people with disabilities.

By Mr. KERRY (for himself, Ms. SNOWE, Mr. NELSON of Florida, and Mr. WICKER):

S. 649. A bill to require an inventory of radio spectrum bands managed by the National Telecommunications and Information Administration and the Federal Communications Commission; to the Committee on Commerce, Science, and Transportation.

Ms. SNOWE. Mr. President, I rise today, along with Senator KERRY, to introduce legislation that initiates the first step toward comprehensive spectrum policy reform, which is long overdue and paramount to achieving the long-term telecommunications needs of this nation. In addressing comprehensive spectrum reform, the first thing

we must do is to have a clear understanding of how the spectrum is currently being utilized, which is called for by the Radio Spectrum Inventory Act.

Specifically, the Radio Spectrum Inventory Act directs the National Telecommunications and Information Administration and the Federal Communications Commission, with assistance from the Office of Science and Technology, to create a comprehensive and accurate inventory of each spectrum band between 300 Megahertz to 3.5 Gigahertz. The information collected would include the licenses assigned in that band, the number and type of end-user devices deployed, the amount of deployed infrastructure, as well as any relevant unlicensed end user devices operating in the band. This information is fundamental to constructing a comprehensive framework for spectrum policy.

The Radio Spectrum Inventory Act also provides more transparency related to spectrum use by creating a centralized website or portal that would include relevant spectrum and license information accessible by the public. Given that radio spectrum is a public good, we are obligated to provide the public more clarity and accountability on how it is being utilized by both federal and non-federal licensees. It should be noted that this bill does make certain disclosure exceptions for spectrum being used or reserved for national security.

The ultimate goals this legislation sets the path towards achieving are to implement more efficient use of spectrum and to locate additional spectrum that could be auctioned and used for advanced communications and data services in order to meet the growing demand.

Currently, there are more than 270 million wireless subscribers in the US, and consumers used more than 2.2 trillion minutes of use from July 2007 to June 2008—that is more than 6 billion minutes of use a day! While voice communications is the foundation for wireless services, more and more subscribers are utilizing it for broadband due to new emerging wireless technologies.

More specifically, the FCC reported that from December 2005 to December 2007, mobile wireless high-speed subscribership grew nationwide by more than 1,500 percent, and added 15.6 million subscribers in the second half of 2007 alone. The report also shows that new wireless broadband subscribers accounted for 78 percent of the total growth in broadband during that same time.

So it is clear this once nascent service, which was initially thought of as a luxury, has blossomed into a tool that millions of consumers and countless businesses use on a daily basis. Increased mobility, access, and produc-

tivity are all tangible results of wireless technology. It is estimated that the productivity value of all mobile wireless services was worth \$185 billion in 2005.

But with all this growth, we are seeing constraints—spectrum is already a scarce resource—there is no new spectrum to allocate, only redistribute. This problem is also compounded by issues such as Shannon's Law, which defines the maximum possible data speed that can be obtained in a data channel of a communications network. So with wireless, in order to achieve greater bandwidth speeds and capacity, more channels have to be assigned, which means more spectrum has to be allocated. Therefore, finding additional spectrum is essential to meeting the growing demands and needs of consumers and businesses alike.

Just as with the Internet, we have only scratched the surface on what the future of wireless will bring to all areas of life. That is why we must be proactive in advancing supportive spectrum policy and spectrum availability. And this begins with the first step—complete an accurate inventory of what is out there and how it is being used. Once we have that information, we can then perform the necessary analysis of where additional spectrum could be found and allocated toward broadband and advanced communications services. That is why I sincerely hope that my colleagues join Senators KERRY, NELSON, WICKER, and me in supporting this critical legislation.

By Mr. FEINGOLD:

S. 650. A bill to abolish the death penalty under Federal law; to the Committee on the Judiciary.

Mr. FEINGOLD. Mr. President, today I am introducing the Federal Death Penalty Abolition Act of 2009. This bill would abolish the death penalty at the Federal level. It would put an immediate halt to Federal executions and forbid the imposition of the death penalty as a sentence for violations of Federal law.

Since 1976, when the death penalty was reinstated by the Supreme Court, there have been 1,130 executions across the country, including three at the Federal level. During that same time period, 130 people on death row have been exonerated and released from death row. Consider those numbers: 1,130 executions and 130 exonerations in the modern death penalty era. Had those exonerations not taken place, had those 130 people been executed, those executions would have represented an error rate of nearly eleven percent. That is more than an embarrassing statistic; it is a horrifying one, one that should have us all questioning the use of capital punishment in this country. In fact, since 1999 when I first introduced this bill, 54 death row inmates have been exonerated throughout the country.

In the face of these numbers, the national debate on the death penalty has intensified. The country experienced a nationwide moratorium on executions from September 2007 to May 2008 while the U.S. Supreme Court considered whether the lethal injection method of execution complied with the Constitution. From 2004 to 2007 the number of executions and the number of death sentences imposed decreased as more and more voices joined to express doubt about the use of capital punishment in America. The voices of those questioning the fairness of the death penalty have been heard from college campuses and courtrooms and podiums across the Nation, to the Senate Judiciary Committee hearing room, to the United States Supreme Court. The American public understands that the death penalty raises serious and complex issues. In fact, for the first time, a May 2006 Gallup poll reported that more Americans prefer a sentence of life without parole over the death penalty when given a choice. The same poll indicates that 63 percent of Americans think that within the past 5 years an innocent person has been executed. And a 2008 Gallop shows a 5 percent drop in support for the death penalty from October 2007 to October 2008. If anything, the consensus is that it is time for a change. We must not ignore these voices.

The United States Supreme Court also has limited the constitutionally permissible scope of the death penalty in recent years. In 2008 the Court held in *Kennedy vs. Louisiana* that with respect to "crimes against individuals the death penalty should not be expanded to instances where the victim's life was not taken." This decision is consistent with other recent cases in which the U.S. Supreme Court has held that the execution of juvenile offenders and the mentally retarded is unconstitutional.

On the state level, there have been some encouraging developments. Most significantly, just last night, Governor Bill Richardson of New Mexico signed legislation into law that repeals the death penalty in his state. I commend Governor Richardson for his leadership and courage in signing this bill. Governor Richardson issued a statement after he signed the bill that gets to the heart of this issue. His statement read, in part:

The sad truth is the wrong person can still be convicted in this day and age, and in cases where that conviction carries with it the ultimate sanction, we must have ultimate confidence I would say certitude that the system is without flaw or prejudice. Unfortunately, this is demonstrably not the case . . .

Last year New Jersey to legislatively repealed its death penalty statute after a state commission reported that the death penalty "is inconsistent with evolving standards of decency" and recommended abolition. In New York,

the death penalty was overturned by a court decision in 2004 and has not been reinstated by the legislature. While Kansas and New Hampshire still technically have the death penalty on their books, they have not executed anyone since 1976.

Other States have created commissions that have identified serious problems with their capital punishment systems. In Maryland, a 23-member commission tasked with studying all aspects of the State's capital punishment system voted on November 12, 2008, to recommend abolition of the State's death penalty. The Commission cited as reasons the possibility that an innocent person could be mistakenly executed, as well as geographical and racial disparities in its application. The chair of the commission, a former United States Attorney General, stated simply, "It's haphazard in how it's applied, and that's terribly unfair."

This past June, the California Commission on the Fair Administration of Justice completed its review of the California capital punishment system. It found, unanimously and not surprisingly, that the death penalty system in California is broken and in need of repair. North Carolina and Tennessee are also in the midst of studies of their respective death penalty systems.

Of course the state that started it all was Illinois, where on January 31, 2000, then-Governor George Ryan took the historic step of placing a moratorium on executions and creating an independent, blue ribbon commission to review the State's death penalty system. That commission conducted an extensive study of the death penalty in Illinois and released a report with 85 recommendations for reform. The commission concluded that the death penalty system is not fair, and that the risk of executing the innocent is alarmingly real. Governor Ryan later pardoned four death row inmates and commuted the sentences of all remaining Illinois death row inmates to life in prison before he left office in January 2003. Illinois has not executed anyone since.

In addition, in 2007, the American Bar Association issued a series of reports on the fairness and accuracy of capital punishment systems in eight states, and concluded there were serious problems in every state it reviewed.

So while detailed reviews have not been conducted in every state, the studies that have been done have revealed major problems. And these problems whether they be racial disparities, inconsistent application of the death penalty, inadequate indigent defense, or other shortcomings cannot be brushed aside as atypical or as revealing state-specific anomalies in an otherwise perfect system. Years of study have shown that the death penalty does little to deter crime, and that de-

fendants' likelihood of being sentenced to death depends heavily on illegitimate factors such as whether they are rich or poor.

Racial disparities also have been documented again and again. Since reinstatement of the modern death penalty, 80 percent of murder victims in cases where death sentences were handed down were white, even though only 50 percent of murder victims are white. Nationwide, more than half of death row inmates nationwide are African Americans or Hispanic Americans. Since 1976, cases that had a white defendant and a black victim have resulted in 15 executions; in cases involving a black defendant and a white victim, there have been 229 executions.

There is also evidence that seeking capital punishment comes at great monetary cost to taxpayers. The Urban Institute in Maryland examined 162 capital cases that were prosecuted between 1978 and 1999. It found that seeking the death penalty in those cases cost \$186 million more than what those cases would have cost had the death penalty not been sought. In California, according to the California Commission on the Fair Administration of Justice, "the additional cost of confining an inmate to death row, as compared to the maximum security prisons where those sentenced to life without possibility of parole ordinarily serve their sentences, is \$90,000 per year per inmate. With California's current death row population of 670, that accounts for \$63.3 million annually." A report in Washington state indicates that "at the trial level, death penalty cases are estimated to generate roughly \$470,000 in additional costs to the prosecution and defense over the cost of trying the same case as an aggravated murder without the death penalty and costs of \$47,000 to \$70,000 for court personnel." Similar reports detailing the extraordinary financial costs of the death penalty have been generated for States across the Nation.

There are also enormous problems with the right to counsel in death penalty cases. I held a hearing in the Constitution Subcommittee of the Senate Judiciary Committee last year to examine the State of capital defense in this country, and the results were shocking. The witnesses provided sobering testimony about over-worked and under-paid court-appointed lawyers in capital cases, and the lack of investigative and other resources available to them. Just to take a couple of specific examples, Bryan Stevenson of the Equal Justice Initiative testified that in Alabama, 60 percent of people on death row were defended by lawyers appointed by courts who, by statute, could not be paid more than \$1,000 for their out of court time to prepare the case for trial. In Texas, hundreds of death row inmates are awaiting execution after being represented

by lawyers who could not receive more than \$500 for experts or mitigation evidence. Across the country there are hundreds of death row inmates whose lawyers had their compensation capped at levels that make effective assistance impossible.

We also heard more about the American Bar Association State Assessment Project, which found that ineffective defense representation was a serious problem in each of the eight states that the ABA reviewed—and is a major reason why the ABA continues to advocate for a moratorium on capital punishment.

The Federal death penalty, too, has had its share of problems. Capital punishment at the Federal level was reinstated in 1988 in a Federal law that provided for the death penalty for murder in the course of a drug-kingpin conspiracy. It was then expanded significantly in 1994, when an omnibus crime bill expanded its use to a total of some 60 Federal offenses. Despite my best efforts to halt the expansion of the Federal death penalty, more and more provisions have been added over the years. Three individuals have now been executed under the Federal system, and there are 55 inmates on Federal death row.

In 2007, I held a hearing on oversight of the Federal death penalty the first such oversight hearing in the Senate Judiciary Committee in 6 years. Once again, the results were disturbing. The hearing focused on a range of issues, including the lack of information the Justice Department maintains about the application and cost of the death penalty, the lack of transparency in the DOJ decision-making process, concerns about the politicization of the federal death penalty, and the continuing problem of racial disparities in the Federal system.

I was alarmed to learn at the hearing that the Department of Justice from 2001 to 2006 kept virtually no statistics about its implementation of the Federal death penalty. Prior to the hearing, I requested basic statistics for that time period, such as the rate at which the Attorney General overruled U.S. Attorney recommendations not to seek the death penalty, and the race of defendants and victims in Federal capital cases. Before I asked for this information, the Department had not tracked it. Further, the DOJ does not track the monetary costs of the Federal death penalty in any way at all.

We are still lacking basic information about racial disparities in the application of the Federal death penalty. After putting off for years a National Institute of Justice study report ordered by Attorney General Reno at the end of the Clinton Administration to examine this question, DOJ finally released a RAND study in 2006. But the long anticipated report did not address the root question about the application

of the Federal death penalty; it did not study the decision-making process for bringing defendants into the Federal system in the first place. Of course, this study only covers 1995–2000. So we still have very little information about racial disparities from 2001 forward.

I was particularly concerned about information the hearing uncovered about the Attorney General overrule rates. In the Federal system, the Attorney General makes the final decision whether to seek the death penalty in federal cases. Between 2001 and 2006, the Attorney General overruled local U.S. Attorney recommendations not to seek the death penalty in *one out of every three* Federal capital cases. This number is substantially higher than the 16 percent of recommendations not to seek death that were overruled by Attorney General Reno from 1995 to 2000. Not only was the Bush administration far more willing to overrule local U.S. Attorney recommendations, but when it did so, the Government was less likely to actually obtain a death sentence in the case. The Government secured a death sentence in 33 percent of cases where the Attorney General approved a U.S. Attorney recommendation to seek death, but in only 20 percent of cases where the Attorney General overruled the U.S. Attorney recommendation not to seek death.

And at least one U.S. Attorney who objected when his recommendation not to seek death was overruled by Main Justice learned the hard way that dissent was not acceptable. Former U.S. Attorney Paul Charlton, who testified at the hearing I chaired, was fired at least in part because he had the audacity to ask to speak with the Attorney General directly after the Attorney General ordered him to pursue the death penalty in a case where he had recommended against seeking the death penalty.

There is every reason to be optimistic that the new administration will take the significant problems in our federal death penalty system much more seriously. But while we examine the flaws in our death penalty system at both the State and Federal level, we cannot help but note that any use of the death penalty in the United States stands in stark contrast to the majority of nations, which have abolished the death penalty in law or practice. There are now 123 countries that have done so. In 2007, only China, Iran, Saudi Arabia and Pakistan executed more people than we did in the United States. These countries, and others on the list of nations that actively use capital punishment, are countries that we often criticize for human rights abuses. The European Union denies membership to nations that use the death penalty. In fact, it passed a resolution calling for the immediate and unconditional global abolition of the death penalty, and it specifically called

on all states within the United States to abolish the death penalty. Moreover, the United Nations General Assembly adopted a resolution on December 18, 2007, calling for a worldwide moratorium on the death penalty.

We are a Nation that prides itself on the fundamental principles of justice, liberty, equality and due process. We are a Nation that scrutinizes the human rights records of other nations. We should hold our own system of justice to the highest standard.

As a matter of justice, this is an issue that transcends political allegiances. A range of prominent voices in our country is raising serious questions about the death penalty, and these are not just voices of liberals, or of the faith community. They are the voices of former FBI Director William Sessions, former Supreme Court Justice Sandra Day O'Connor, Reverend Pat Robertson, commentator George Will, former Mississippi warden Donald Cabana, and former Baltimore City police officer Michael May. And notably, the editorial boards of the Chicago Tribune and the Dallas Morning News each finally came out in opposition to the death penalty in 2007. The voices of those questioning our application of the death penalty are growing in number, and they are growing louder.

As we begin a new year and a new Congress, I believe the continued use of the death penalty in the United States is beneath us. The death penalty is at odds with our best traditions. It is wrong and it is ineffective. The adage "two wrongs do not make a right" applies here in the most fundamental way. It is time to abolish the death penalty as we seek to spread peace and justice both here and overseas. And it is not just a matter of morality. The continued viability of our criminal justice system as a truly just system that deserves the respect of our own people and the world requires that we take this step. Our Nation's goal to remain the world's leading defender of freedom, liberty and equality demands that we do so.

Abolishing the death penalty will not be an easy task. It will take patience, persistence, and courage. As we work to move forward in a rapidly changing world, let us leave this archaic practice behind.

I ask my colleagues to join me in taking the first step in abolishing the death penalty in our great Nation by enacting this legislation to do away with the Federal death penalty. I also call on each State that authorizes the use of the death penalty to cease this practice. Let us together reject violence and restore fairness and integrity to our criminal justice system.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 650

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Death Penalty Abolition Act of 2009".

SEC. 2. REPEAL OF FEDERAL LAWS PROVIDING FOR THE DEATH PENALTY.

(a) HOMICIDE-RELATED OFFENSES.—

(1) MURDER RELATED TO THE SMUGGLING OF ALIENS.—Section 274(a)(1)(B)(iv) of the Immigration and Nationality Act (8 U.S.C. 1324(a)(1)(B)(iv)) is amended by striking "punished by death or".

(2) DESTRUCTION OF AIRCRAFT, MOTOR VEHICLES, OR RELATED FACILITIES RESULTING IN DEATH.—Section 34 of title 18, United States Code, is amended by striking "to the death penalty or".

(3) MURDER COMMITTED DURING A DRUG-RELATED DRIVE-BY SHOOTING.—Section 36(b)(2)(A) of title 18, United States Code, is amended by striking "death or".

(4) MURDER COMMITTED AT AN AIRPORT SERVING INTERNATIONAL CIVIL AVIATION.—Section 37(a) of title 18, United States Code, is amended, in the matter following paragraph (2), by striking "punished by death or".

(5) MURDER COMMITTED USING CHEMICAL WEAPONS.—Section 229A(a)(2) of title 18, United States Code, is amended—

(A) in the paragraph heading, by striking "DEATH PENALTY" and inserting "CAUSING DEATH"; and

(B) by striking "punished by death or".

(6) CIVIL RIGHTS OFFENSES RESULTING IN DEATH.—Chapter 13 of title 18, United States Code, is amended—

(A) in section 241, by striking " , or may be sentenced to death";

(B) in section 242, by striking " , or may be sentenced to death";

(C) in section 245(b), by striking " , or may be sentenced to death"; and

(D) in section 247(d)(1), by striking " , or may be sentenced to death".

(7) MURDER OF A MEMBER OF CONGRESS, AN IMPORTANT EXECUTIVE OFFICIAL, OR A SUPREME COURT JUSTICE.—Section 351 of title 18, United States Code, is amended—

(A) in subsection (b)—

(i) by striking "(1)"; and

(ii) by striking " , or (2) by death" and all that follows through the end of the subsection and inserting a period; and

(B) in subsection (d)—

(i) by striking "(1)"; and

(ii) by striking " , or (2) by death" and all that follows through the end of the subsection and inserting a period.

(8) DEATH RESULTING FROM OFFENSES INVOLVING TRANSPORTATION OF EXPLOSIVES, DESTRUCTION OF GOVERNMENT PROPERTY, OR DESTRUCTION OF PROPERTY RELATED TO FOREIGN OR INTERSTATE COMMERCE.—Section 844 of title 18, United States Code, is amended—

(A) in subsection (d), by striking "or to the death penalty";

(B) in subsection (f)(3), by striking "subject to the death penalty, or";

(C) in subsection (i), by striking "or to the death penalty"; and

(D) in subsection (n), by striking "(other than the penalty of death)".

(9) MURDER COMMITTED BY USE OF A FIREARM OR ARMOR PIERCING AMMUNITION DURING COMMISSION OF A CRIME OF VIOLENCE OR A DRUG TRAFFICKING CRIME.—Section 924 of title 18, United States Code, is amended—

(A) in subsection (c)(5)(B)(i), by striking "punished by death or"; and

(B) in subsection (j)(1), by striking "by death or".

(10) GENOCIDE.—Section 1091(b)(1) of title 18, United States Code, is amended by striking “death or”.

(11) FIRST DEGREE MURDER.—Section 1111(b) of title 18, United States Code, is amended by striking “by death or”.

(12) MURDER BY A FEDERAL PRISONER.—Section 1118 of title 18, United States Code, is amended—

(A) in subsection (a), by striking “by death or”; and

(B) in subsection (b), in the third undesignated paragraph—

(i) by inserting “or” before “an indeterminate”; and

(ii) by striking “, or an unexecuted sentence of death”.

(13) MURDER OF A STATE OR LOCAL LAW ENFORCEMENT OFFICIAL OR OTHER PERSON AIDING IN A FEDERAL INVESTIGATION; MURDER OF A STATE CORRECTIONAL OFFICER.—Section 1121 of title 18, United States Code, is amended—

(A) in subsection (a), by striking “by sentence of death or”; and

(B) in subsection (b)(1), by striking “or death”.

(14) MURDER DURING A KIDNAPING.—Section 1201(a) of title 18, United States Code, is amended by striking “death or”.

(15) MURDER DURING A HOSTAGE-TAKING.—Section 1203(a) of title 18, United States Code, is amended by striking “death or”.

(16) MURDER WITH THE INTENT OF PREVENTING TESTIMONY BY A WITNESS, VICTIM, OR INFORMANT.—Section 1512(a)(2)(A) of title 18, United States Code, is amended by striking “the death penalty or”.

(17) MAILING OF INJURIOUS ARTICLES WITH INTENT TO KILL OR RESULTING IN DEATH.—Section 1716(j)(3) of title 18, United States Code, is amended by striking “to the death penalty or”.

(18) ASSASSINATION OR KIDNAPING RESULTING IN THE DEATH OF THE PRESIDENT OR VICE PRESIDENT.—Section 1751 of title 18, United States Code, is amended—

(A) in subsection (b)—

(i) by striking “(1)”; and

(ii) by striking “, or (2) by death” and all that follows through the end of the subsection and inserting a period; and

(B) in subsection (d)—

(i) by striking “(1)”; and

(ii) by striking “, or (2) by death” and all that follows through the end of the subsection and inserting a period.

(19) MURDER FOR HIRE.—Section 1958(a) of title 18, United States Code, is amended by striking “death or”.

(20) MURDER INVOLVED IN A RACKETEERING OFFENSE.—Section 1959(a)(1) of title 18, United States Code, is amended by striking “death or”.

(21) WILLFUL WRECKING OF A TRAIN RESULTING IN DEATH.—Section 1992 of title 18, United States Code, is amended—

(A) in subsection (a), in the matter following paragraph (10), by striking “or subject to death.”; and

(B) in subsection (b), in the matter following paragraph (3), by striking “, and if the offense resulted in the death of any person, the person may be sentenced to death”.

(22) BANK ROBBERY-RELATED MURDER OR KIDNAPING.—Section 2113(e) of title 18, United States Code, is amended by striking “death or”.

(23) MURDER RELATED TO A CARJACKING.—Section 2119(3) of title 18, United States Code, is amended by striking “, or sentenced to death”.

(E) MISBEHAVIOR BEFORE THE ENEMY.—Section 899 of title 10, United States Code (article 99), is amended by striking “by death or such other punishment”.

(F) SUBORDINATE COMPELLING SURRENDER.—Section 900 of title 10, United States Code (article 100), is amended by striking “by death or such other punishment”.

(G) IMPROPER USE OF COUNTERSIGN.—Section 901 of title 10, United States Code (article 101), is amended by striking “by death or such other punishment”.

(H) FORCING A SAFEGUARD.—Section 902 of title 10, United States Code (article 102), is amended by striking “suffer death” and all that follows and inserting “be punished as a court-martial may direct.”.

(I) AIDING THE ENEMY.—Section 904 of title 10, United States Code (article 104), is amended by striking “suffer death or such other punishment as a court-martial or military commission may direct” and inserting “be punished as a court-martial or military commission may direct”.

(J) SPIES.—Section 906 of title 10, United States Code (article 106), is amended by striking “by death” and inserting “by imprisonment for life”.

(K) ESPIONAGE.—Section 906a of title 10, United States Code (article 106a), is amended—

(i) by striking subsections (b) and (c);

(ii) by redesignating paragraphs (2) and (3) of subsection (a) as subsections (b) and (c), respectively;

(iii) in subsection (a)—

(I) by striking “(1)”; and

(II) by striking “paragraph (2)” and inserting “subsection (b)”; and

(III) by striking “paragraph (3)” and inserting “subsection (c)”; and

(IV) by striking “as a court-martial may direct,” and all that follows and inserting “as a court-martial may direct.”;

(iv) in subsection (b), as so redesignated—
(I) by striking “paragraph (1)” and inserting “subsection (a)”;

(II) by redesignating subparagraphs (A), (B), and (C) as paragraphs (1), (2), and (3), respectively; and

(v) in subsection (c), as so redesignated, by striking “paragraph (1)” and inserting “subsection (a)”.

(L) IMPROPER HAZARDING OF VESSEL.—The text of section 910 of title 10, United States Code (article 110), is amended to read as follows:

“Any person subject to this chapter who willfully and wrongfully, or negligently, hazards or suffers to be hazarded any vessel of the Armed Forces shall be punished as a court-martial may direct.”.

(M) MISBEHAVIOR OF SENTINEL.—Section 913 of title 10, United States Code (article 113), is amended by striking “, if the offense is committed in time of war” and all that follows and inserting “as a court-martial may direct.”.

(N) MURDER.—Section 918 of title 10, United States Code (article 118), is amended by striking “death or imprisonment for life as a court-martial may direct” and inserting “imprisonment for life”.

(O) DEATH OR INJURY OF AN UNBORN CHILD.—Section 919a(a) of title 10, United States Code, is amended—

(i) in paragraph (1), by striking “, other than death,”; and

(ii) by striking paragraph (4).

(P) CRIMES TRIABLE BY MILITARY COMMISSION.—Section 950v(b) of title 10, United States Code, is amended—

(i) in paragraph (1), by striking “by death or such other punishment”;

(ii) in paragraph (2), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(iii) in paragraph (7), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(iv) in paragraph (8), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(v) in paragraph (9), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(vi) in paragraph (11)(A), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(vii) in paragraph (12)(A), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(viii) in paragraph (13)(A), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(ix) in paragraph (14), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(x) in paragraph (15), by striking “by death or such other punishment”;

(xi) in paragraph (17), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(xii) in paragraph (23), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”;

(xiii) in paragraph (24), by striking “, if death results” and all that follows and in-

serting “as a military commission under this chapter may direct.”;

(xiv) in paragraph (27), by striking “by death or such other punishment”;

(xv) in paragraph (28), by striking “, if death results” and all that follows and inserting “as a military commission under this chapter may direct.”.

(3) JURISDICTIONAL AND PROCEDURAL MATTERS.—

(A) DISMISSED OFFICER’S RIGHT TO TRIAL BY COURT-MARTIAL.—Section 804(a) of title 10, United States Code (article 4(a) of the Uniform Code of Military Justice), is amended by striking “or death”.

(B) COURTS-MARTIAL CLASSIFIED.—Section 816(1)(A) of title 10, United States Code (article 10(1)(A)), is amended by striking “or, in a case in which the accused may be sentenced to a penalty of death” and all that follows through “(article 25a)”.

(C) JURISDICTION OF GENERAL COURTS-MARTIAL.—Section 818 of title 10, United States Code (article 18), is amended—

(i) in the first sentence by striking “including the penalty of death when specifically authorized by this chapter” and inserting “except death”; and

(ii) by striking the third sentence.

(D) JURISDICTION OF SPECIAL COURTS-MARTIAL.—Section 819 of title 10, United States Code (article 19), is amended in the first sentence by striking “for any noncapital offense” and all that follows and inserting “for any offense made punishable by this chapter.”.

(E) JURISDICTION OF SUMMARY COURTS-MARTIAL.—Section 820 of title 10, United States Code (article 20), is amended in the first sentence by striking “noncapital”.

(F) NUMBER OF MEMBERS IN CAPITAL CASES.—

(i) IN GENERAL.—Section 825a of title 10, United States Code (article 25a), is repealed.

(ii) CLERICAL AMENDMENT.—The table of sections at the beginning of subchapter V of chapter 47 of title 10, United States Code, is amended by striking the item relating to section 825a (article 25a).

(G) ABSENT AND ADDITIONAL MEMBERS.—Section 829(b)(2) of title 10, United States Code (article 29(b)(2)), is amended by striking “or, in a case in which the death penalty may be adjudged” and all that follows and inserting a period.

(H) STATUTE OF LIMITATIONS.—Subsection (a) of section 843 of title 10, United States Code (article 43), is amended to read as follows:

“(a)(1) A person charged with an offense described in paragraph (2) may be tried and punished at any time without limitation.

“(2) An offense described in this paragraph is any offense as follows:

“(A) Absence without leave or missing movement in time of war.

“(B) Murder.

“(C) Rape.

“(D) A violation of section 881 of this title (article 81) that results in death to one or more of the victims.

“(E) Desertion or attempt to desert in time of war.

“(F) A violation of section 890 of this title (article 90) committed in time of war.

“(G) Attempted mutiny, mutiny, sedition, or failure to suppress or report a mutiny or sedition.

“(H) A violation of section 899 of this title (article 99).

“(I) A violation of section 900 of this title (article 100).

“(J) A violation of section 901 of this title (article 101).

“(K) A violation of section 902 of this title (article 102).

“(L) A violation of section 904 of this title (article 104).

“(M) A violation of section 906 of this title (article 106).

“(N) A violation of section 906a of this title (article 106a).

“(O) A violation of section 910 of this title (article 110) in which the person subject to this chapter willfully and wrongfully hazarded or suffered to be hazarded any vessel of the Armed Forces.

“(P) A violation of section 913 of this title (article 113) committed in time of war.”.

(I) PLEAS OF ACCUSED.—Section 845(b) of title 10, United States Code (article 45(b)), is amended—

(i) by striking the first sentence; and

(ii) by striking “With respect to any other charge” and inserting “With respect to any charge”.

(J) DEPOSITIONS.—Section 849 of title 10, United States Code (article 49), is amended—

(i) in subsection (d), by striking “in any case not capital”; and

(ii) by striking subsections (e) and (f).

(K) ADMISSIBILITY OF RECORDS OF COURTS OF INQUIRY.—Section 850 of title 10, United States Code (article 50), is amended—

(i) in subsection (a), by striking “not capital and”; and

(ii) in subsection (b), by striking “capital cases or”.

(L) NUMBER OF VOTES REQUIRED FOR CONVICTION AND SENTENCING BY COURT-MARTIAL.—Section 852 of title 10, United States Code (article 52), is amended—

(i) in subsection (a)—

(I) by striking paragraph (1);

(II) by redesignating paragraph (2) as subsection (a); and

(III) by striking “any other offense” and inserting “any offense”; and

(ii) in subsection (b)—

(I) by striking paragraph (1); and

(II) by redesignating paragraphs (2) and (3) as paragraphs (1) and (2), respectively.

(M) RECORD OF TRIAL.—Section 854(c)(1)(A) of title 10, United States Code (article 54(c)(1)(A)), is amended by striking “death.”.

(N) FORFEITURE OF PAY AND ALLOWANCES DURING CONFINEMENT.—Section 858b(a)(2)(A) of title 10, United States Code (article 58b(a)(2)(A)), is amended by striking “or death”.

(O) WAIVER OR WITHDRAWAL OF APPEAL.—Section 861 of title 10, United States Code (article 61), is amended—

(i) in subsection (a), by striking “except a case in which the sentence as approved under section 860(c) of this title (article 60(c)) includes death.”; and

(ii) in subsection (b), by striking “Except in a case in which the sentence as approved under section 860(c) of this title (article 60(c)) includes death, the accused” and inserting “The accused”.

(P) REVIEW BY COURT OF CRIMINAL APPEALS.—Section 866(b) of title 10, United States Code (article 66(b)), is amended—

(i) in the matter preceding paragraph (1), by inserting “in which” after “court-martial”;

(ii) in paragraph (1), by striking “in which the sentence, as approved, extends to death,” and inserting “the sentence, as approved, extends to”; and

(iii) in paragraph (2), by striking “except in the case of a sentence extending to death.”.

(Q) REVIEW BY COURT OF APPEALS FOR THE ARMED FORCES.—Section 867(a) of title 10, United States Code (article 67(a)), is amended—

(i) by striking paragraph (1); and
 (ii) by redesignating paragraphs (2) and (3) as paragraphs (1) and (2), respectively.

(R) EXECUTION OF SENTENCE.—Section 871 of title 10, United States Code (article 71), is amended—

(i) by striking subsection (a);
 (ii) by redesignating subsection (b) as subsection (a);

(iii) by striking subsection (c) and inserting the following:

“(b)(1) If a sentence extends to dismissal or a dishonorable or bad conduct discharge and if the right of the accused to appellate review is not waived, and an appeal is not withdrawn, under section 861 of this title (article 61), that part of the sentence extending to dismissal or a dishonorable or bad conduct discharge may not be executed until there is a final judgment as to the legality of the proceedings (and with respect to dismissal, approval under subsection (a)). A judgment as to legality of the proceedings is final in such cases when review is completed by a Court of Criminal Appeals and—

“(A) the time for the accused to file a petition for review by the Court of Appeals for the Armed Forces has expired and the accused has not filed a timely petition for such review and the case is not otherwise under review by that Court;

“(B) such a petition is rejected by the Court of Appeals for the Armed Forces; or

“(C) review is completed in accordance with the judgment of the Court of Appeals for the Armed Forces and—

“(i) a petition for a writ of certiorari is not filed within the time limits prescribed by the Supreme Court;

“(ii) such a petition is rejected by the Supreme Court; or

“(iii) review is otherwise completed in accordance with the judgment of the Supreme Court.

“(2) If a sentence extends to dismissal or a dishonorable or bad conduct discharge and if the right of the accused to appellate review is waived, or an appeal is withdrawn, under section 861 of this title (article 61), that part of the sentence extending to dismissal or a bad conduct or dishonorable discharge may not be executed until review of the case by a judge advocate (and any action on that review) under section 864 of this title (article 64) is completed. Any other part of a court-martial sentence may be ordered executed by the convening authority or other person acting on the case under section 860 of this title (article 60) when approved by him under that section.”;

(iv) by redesignating subsection (d) as subsection (c); and

(v) in subsection (c), as so redesignated, by striking “, except a sentence of death”.

(S) GENERAL ARTICLE.—Section 934 of title 10, United States Code (article 134), is amended by striking “crimes and offenses not capital” and inserting “crimes and offenses”

(T) JURISDICTION OF MILITARY COMMISSIONS.—Section 948d(d) of title 10, United States Code, is amended by striking “including the penalty of death” and all that follows and inserting “except death.”.

(U) NUMBER OF MEMBERS OF MILITARY COMMISSIONS.—Subsection (a) of section 948m of title 10, United States Code, is amended to read as follows:

“(a) NUMBER OF MEMBERS.—A military commission under this chapter shall have at least 5 members.”.

(V) NUMBER OF VOTES REQUIRED FOR SENTENCING BY MILITARY COMMISSION.—Section 949m of title 10, United States Code, is amended—

(i) in subsection (b)—

(I) by striking paragraph (1); and

(II) by redesignating paragraphs (2) and (3) as paragraphs (1) and (2), respectively; and

(ii) by striking subsection (c).

(W) APPELLATE REFERRAL FOR MILITARY COMMISSIONS.—Section 950c of title 10, United States Code, is amended—

(i) in subsection (b)(1), by striking “except a case in which the sentence as approved under section 950b of this title extends to death.”; and

(ii) in subsection (c), by striking “Except in a case in which the sentence as approved under section 950b of this title extends to death, the accused” and inserting “The accused”.

(X) EXECUTION OF SENTENCE BY MILITARY COMMISSIONS.—

(i) IN GENERAL.—Section 950i of title 10, United States Code, is amended—

(I) in the section heading, by striking “; procedures for execution of sentence of death”;

(II) by striking subsections (b) and (c);

(III) by redesignating subsection (d) as subsection (b); and

(IV) in subsection (b), as so redesignated, by striking “, except a sentence of death”.

(ii) CLERICAL AMENDMENT.—The table of sections at the beginning of subchapter VI of chapter 47A of title 10, United States Code, is amended by striking the item relating to section 950i and inserting the following new item:

“950i. Execution of sentence.”.

(d) CONFORMING AMENDMENTS.—

(1) REPEAL OF CRIMINAL PROCEDURES RELATING TO IMPOSITION OF DEATH SENTENCE.—

(A) IN GENERAL.—Chapter 228 of title 18, United States Code, is repealed.

(B) CLERICAL AMENDMENT.—The table of chapters for part II of title 18, United States Code, is amended by striking the item relating to chapter 228.

(2) OTHER PROVISIONS.—

(A) INTERCEPTION OF WIRE, ORAL, OR ELECTRONIC COMMUNICATIONS.—Section 2516(1)(a) of title 18, United States Code, is amended by striking “by death or”.

(B) RELEASE AND DETENTION PENDING JUDICIAL PROCEEDINGS.—Chapter 207 of title 18, United States Code, is amended—

(i) in section 3142(f)(1)(B), by striking “or death”; and

(ii) in section 3146(b)(1)(A)(i), by striking “death, life imprisonment,” and inserting “life imprisonment”.

(C) VENUE IN CAPITAL CASES.—Chapter 221 of title 18, United States Code, is amended—

(i) by striking section 3235; and

(ii) in the table of sections, by striking the item relating to section 3235.

(D) PERIOD OF LIMITATIONS.—

(i) IN GENERAL.—Chapter 213 of title 18, United States Code, is amended by striking section 3281 and inserting the following:

“§ 3281. Offenses with no period of limitations

“An indictment may be found at any time without limitation for the following offenses:

“(1) A violation of section 274(a)(1)(A) of the Immigration and Nationality Act (8 U.S.C. 1324(a)(1)(A)) resulting in the death of any person.

“(2) A violation of section 34 of this title.

“(3) A violation of section 36(b)(2)(A) of this title.

“(4) A violation of section 37(a) of this title that results in the death of any person.

“(5) A violation of section 229A(a)(2) of this title.

“(6) A violation of section 241, 242, 245(b), or 247(a) of this title that—

“(A) results in death; or

“(B) involved kidnapping or an attempt to kidnap, aggravated sexual abuse or an attempt to commit aggravated sexual abuse, or an attempt to kill.

“(7) A violation of subsection (b) or (d) of section 351 of this title.

“(8) A violation of section 794(a) of this title.

“(9) A violation of subsection (d), (f), or (i) of section 844 of this title that results in the death of any person (including any public safety officer performing duties as a direct or proximate result of conduct prohibited by such subsection).

“(10) An offense punishable under subsection (c)(5)(B)(i) or (j)(1) of section 924 of this title.

“(11) An offense punishable under section 1091(b)(1) of this title.

“(12) A violation of section 1111 of this title that is murder in the first degree.

“(13) A violation of section 1118 of this title.

“(14) A violation of subsection (a) or (b) of section 1121 of this title.

“(15) A violation of section 1201(a) of this title that results in the death of any person.

“(16) A violation of section 1203(a) of this title that results in the death of any person.

“(17) An offense punishable under section 1512(a)(3) of this title that is murder (as that term is defined in section 1111 of this title).

“(18) An offense punishable under section 1716(j)(3) of this title.

“(19) A violation of subsection (b) or (d) of section 1751 of this title.

“(20) A violation of section 1958(a) of this title that results in death.

“(21) A violation of section 1959(a) of this title that is murder.

“(22) A violation of subsection (a) (except for a violation of paragraph (8), (9) or (10) of such subsection) or (b) of section 1992 of this title that results in the death of any person.

“(23) A violation of section 2113(e) of this title that results in death.

“(24) An offense punishable under section 2119(3) of this title.

“(25) An offense punishable under section 2245(a) of this title.

“(26) A violation of section 2251 of this title that results in the death of a person.

“(27) A violation of section 2280(a)(1) of this title that results in the death of any person.

“(28) A violation of section 2281(a)(1) of this title that results in the death of any person.

“(29) A violation of section 2282A(a) of this title that causes the death of any person.

“(30) A violation of section 2283(a) of this title that causes the death of any person.

“(31) An offense punishable under section 2291(d) of this title.

“(32) An offense punishable under section 2332(a)(1) of this title.

“(33) A violation of subsection (a) or (b) of section 2332a of this title that results in death.

“(34) An offense punishable under section 2332b(c)(1)(A) of this title.

“(35) A violation of section 2340A(a) of this title that results in the death of any person.

“(36) A violation of section 2381 of this title.

“(37) A violation of section 2441(a) of this title that results in the death of the victim.

“(38) A violation of section 408(e) of the Controlled Substances Act (21 U.S.C. 848(e)).

“(39) An offense punishable under subsection (a)(2)(B) or (b)(1)(B) of section 46502 of title 49.”

(ii) CLERICAL AMENDMENT.—The table of sections for chapter 213 of title 18, United States Code, is amended by striking the item

relating to section 3281 and inserting the following:

“3281. Offenses with no period of limitations.”.

SEC. 3. PROHIBITION ON IMPOSITION OF DEATH SENTENCE.

(a) IN GENERAL.—Notwithstanding any other provision of law, no person may be sentenced to death or put to death on or after the date of enactment of this Act for any violation of Federal law.

(b) PERSONS SENTENCED BEFORE DATE OF ENACTMENT.—Notwithstanding any other provision of law, any person sentenced to death before the date of enactment of this Act for any violation of Federal law shall serve a sentence of life imprisonment without the possibility of parole.

By Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. WYDEN, Ms. SNOWE, Mrs. LINCOLN, Mr. KERRY, Ms. STABENOW, Mr. SCHUMER, Mr. MENENDEZ, Mr. NELSON of Florida, Mr. BINGAMAN, and Ms. CANTWELL):

S. 651. A bill to amend the Internal Revenue Code of 1986 to impose an excise tax on excessive bonuses paid by, and received from, companies receiving Federal emergency economic assistance, to limit the amount of non-qualified deferred compensation that employees of such companies may defer from taxation, and for other purposes; read the first time.

Mr. BAUCUS. Mr. President, over the past week, we have heard a lot about AIG paying out \$165 million in bonuses to employees of its financial products unit. This is the same company that took \$170 billion in taxpayer money just to stay afloat.

The Government owns 80 percent of AIG. Yet some people in the Government say that they were not able to do anything to stop these bonuses from being paid.

The country is angry, and I am angry.

President Obama ordered Secretary Geithner to use all available legal means to recover these bonuses. But that may not be enough. We may never be able to recover these payments.

The truth is we should not have to be in this position in the first place. When we first passed the TARP funding, Senator GRASSLEY and I fought hard to include strong provisions in the bill on executive compensation. Unfortunately, the TARP program was not run as originally intended.

Even as we discuss this issue, reports are coming out that Fannie Mae and Freddie Mac are planning on paying retention bonuses to their executives.

This type of behavior has to stop, and it has to stop now.

Companies should not be taking taxpayer money for a bailout with one hand, and then paying out big bonuses with the other. Across the country, Americans are losing their jobs. They are stretching every dollar to cover the basic costs of living. Meanwhile, executives and employees at financial insti-

tutions are receiving big bonuses—bonuses that are being paid with taxpayer dollars.

I think that almost all of us can agree that companies receiving taxpayer money should not be paying these big bonuses. Unfortunately, it seems that this type of behavior is not going stop, unless we take action. Using Congress's power to tax appears to be the best option available to us to address these excessive bonuses.

So today, I join with my colleagues Senators GRASSLEY, WYDEN, and SNOWE, as well as others, to introduce a bill to do just that.

This bill makes sure that if a large institution receives government funds, and it then wants to pay out big bonuses, then it is going to face significant tax consequences. This bill would impose a 35 percent excise tax on each of the employer and the employee. It would apply to bonuses earned or paid after January 1 of this year.

For retention bonuses, the excise tax would be imposed on the full amount of the bonus. For all other bonuses, the excise tax would be imposed on all amounts over \$50,000. The bill includes regulatory safeguards that would help to prevent companies from characterizing bonus payments as salaries to avoid the taxes.

This bill would also prevent companies from just deferring these bonuses to avoid paying this excise tax. This bill would prevent taxpayers from deferring more than \$1 million in a 12 month period. If a taxpayer deferred more than \$1 million, then the bill would impose a 20 percent penalty and interest.

Some have concerns about the small banks that want to take Federal money through the new SBA program that the President announced. Others have concerns about the larger banks that did not take much in TARP funds. The restrictions in this bill would not apply to small banks as defined in the tax code. And the restrictions would not apply to banks that receive less than \$100 million of TARP funds or other Government assistance. And if those institutions wanted to pay back their TARP funds, they would no longer be subject to these restrictions.

The way that these companies are doing business must stop. This bill would change the way that TARP recipients and recipients of other similar Government aid operate. These companies would no longer be able to pay out big bonuses or give out huge amounts of deferred compensation without facing significant tax consequences.

The country is going through difficult times. Americans are scrimping and saving just to get by. We owe it to the American taxpayer to do all that we can to ensure that banks do not use taxpayer dollars to pay out big bonuses. I urge all of my Colleagues to join me in cosponsoring this important bill.

By Mr. CARDIN (for himself and Ms. MIKULSKI):

S. 653. A bill to require the Secretary of the Treasury to mint coins in commemoration of the bicentennial of the writing of the Star-Spangled Banner, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. CARDIN. Mr. President, I rise today to introduce the Star-Spangled Banner Commemorative Coin Act. I am pleased that my colleague, the senior Senator from Maryland, is a co-sponsor. This legislation will honor our National Anthem and the Battle for Baltimore, which was a key turning point of the War of 1812, by creating two commemorative U.S. Mint coins.

The War of 1812 confirmed American independence from Great Britain in the eyes of the world. Before the war, the British had been routinely imposing on American sovereignty. They had impressed American merchant seamen into the British Royal Navy, enforced illegal and unfair trade rules with the United States, and allegedly offered assistance to American Indian tribes which were attacking frontier settlements. In response, the United States declared war on Great Britain on June 18, 1812, to protest these violations of “free trade and sailors rights”.

After 2½ years of conflict, the British Royal Navy sailed up the Chesapeake Bay with combined military and naval forces, and in August 1814 attacked Washington, DC, burning to the ground the U.S. Capitol, the White House, and much of the rest of the capital city. After finishing with Washington, DC, the British moved to capture Baltimore, which in 1814 was a larger city.

As the British Royal Navy sailed up the Patapsco River on its way to Baltimore, American forces held the British fleet at Fort McHenry, located just outside of the city. After 25 hours of bombardment, the British failed to take the Fort and were forced to depart. American lawyer Francis Scott Key, who was being held on board an American flag-of-truce vessel, beheld at dawn's early light an American flag still flying atop Fort McHenry. He immortalized the event in a song which later became known as the Star-Spangled Banner.

The flag to which Key referred was a 30' x 42' foot flag made specifically for Fort McHenry. The commanding officer desired a flag so large that the British would have no trouble seeing it from a distance. This proved to be the case as Key visited the British fleet on September 7, 1814, to secure the release of Dr. William Beanes. Dr. Beanes was released, but Key and Beanes were detained on an American flag-of-truce vessel until the end of the bombardment. It was on September 14, 1814, that Key saw the great banner that inspired him to write the song that ultimately became our National Anthem.

The Star-Spangled Banner Commemorative Coins will honor this symbol of our nation and our National Anthem. Under this Act, the U.S. Treasury would mint up to 100,000 \$5 gold coins and 500,000 \$1 silver coins in 2012, in coordination with the 200th Anniversary of the War of 1812. Proceeds from surcharges for the coins will be paid to the Maryland War of 1812 Bicentennial Commission, for bicentennial activities, educational outreach, and preservation and improvement activities pertaining to the sites and structures relating to the War of 1812. I hope my colleagues will join me in supporting this measure in a fitting tribute to a seminal chapter in American history.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 653

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Star-Spangled Banner Commemorative Coin Act”.

SEC. 2. FINDINGS.

The Congress finds as follows:

(1) During the Battle for Baltimore of the War of 1812, Francis Scott Key visited the British fleet in the Chesapeake Bay on September 7, 1814, to secure the release of Dr. William Beanes, who had been captured after the British burned Washington, D.C.

(2) The release of Dr. Beanes was secured, but Key and Beanes were held by the British during the shelling of Fort McHenry, one of the forts defending Baltimore.

(3) On the morning of September 14, 1814, after the 25-hour British bombardment of Fort McHenry, Key peered through the clearing smoke to see a 42-foot by 30-foot American flag flying proudly atop the Fort.

(4) He was so inspired to see the enormous flag still flying over the Fort that he began penning a song, which he named *The Defence of Fort McHenry*, to commemorate the occasion and he included a note that it should be sung to the tune of the popular British melody *To Anacreon in Heaven*.

(5) In 1916, President Woodrow Wilson ordered that the anthem, which had been popularly renamed the *Star-Spangled Banner*, be played at military and naval occasions.

(6) On March 3, 1931, President Herbert Hoover signed a resolution of Congress that officially designated the *Star-Spangled Banner* as the National Anthem of the United States.

SEC. 3. COIN SPECIFICATIONS.

(a) **\$1 SILVER COINS.**—The Secretary of the Treasury (hereafter in this Act referred to as the “Secretary”) shall mint and issue the following coins in commemoration of the bicentennial of the writing of the *Star-Spangled Banner*:

(1) **\$5 GOLD COINS.**—Not more than 100,000 \$5 coins, which shall—

(A) weigh 8.359 grams;

(B) have a diameter of 0.850 inches; and

(C) contain 90 percent gold and 10 percent alloy.

(2) **\$1 SILVER COINS.**—Not more than 500,000 \$1 coins, which shall—

(A) weigh 26.73 grams;

(B) have a diameter of 1.500 inches; and

(C) contain 90 percent silver and 10 percent copper.

(b) **LEGAL TENDER.**—The coins minted under this Act shall be legal tender, as provided in section 5103 of title 31, United States Code.

(c) **NUMISMATIC ITEMS.**—For purposes of sections 5134 and 5136 of title 31, United States Code, all coins minted under this Act shall be considered to be numismatic items.

SEC. 4. DESIGN OF COINS.

(a) **DESIGN REQUIREMENTS.**—

(1) **IN GENERAL.**—The design of the coins minted under this Act shall be emblematic of the War of 1812 and particularly the Battle for Baltimore that formed the basis for the *Star-Spangled Banner*.

(2) **DESIGNATION AND INSCRIPTIONS.**—On each coin minted under this Act, there shall be—

(A) a designation of the value of the coin;

(B) an inscription of the year “2012”; and

(C) inscriptions of the words “Liberty”, “In God We Trust”, “United States of America”, and “E Pluribus Unum”.

(b) **SELECTION.**—The design for the coins minted under this Act shall be—

(1) selected by the Secretary, after consultation with the Maryland War of 1812 Bicentennial Commission and the Commission of Fine Arts; and

(2) reviewed by the Citizens Coinage Advisory Committee.

SEC. 5. ISSUANCE OF COINS.

(a) **QUALITY OF COINS.**—Coins minted under this Act shall be issued in uncirculated and proof qualities.

(b) **MINT FACILITY.**—Only one facility of the United States Mint may be used to strike any particular quality of the coins minted under this Act.

(c) **PERIOD FOR ISSUANCE.**—The Secretary may issue coins under this Act only during the calendar year beginning on January 1, 2012.

SEC. 6. SALE OF COINS.

(a) **SALE PRICE.**—The coins issued under this Act shall be sold by the Secretary at a price equal to the sum of—

(1) the face value of the coins;

(2) the surcharge provided in section 7 with respect to such coins; and

(3) the cost of designing and issuing the coins (including labor, materials, dies, use of machinery, overhead expenses, marketing, and shipping).

(b) **BULK SALES.**—The Secretary shall make bulk sales of the coins issued under this Act at a reasonable discount.

(c) **PREPAID ORDERS.**—

(1) **IN GENERAL.**—The Secretary shall accept prepaid orders for the coins minted under this Act before the issuance of such coins.

(2) **DISCOUNT.**—Sale prices with respect to prepaid orders under paragraph (1) shall be at a reasonable discount.

SEC. 7. SURCHARGES.

(a) **IN GENERAL.**—All sales of coins issued under this Act shall include a surcharge of—

(1) \$35 per coin for the \$5 coin; and

(2) \$10 per coin for the \$1 coin.

(b) **DISTRIBUTION.**—Subject to section 5134(f) of title 31, United States Code, all surcharges received by the Secretary from the sale of coins issued under this Act shall be paid to the Maryland War of 1812 Bicentennial Commission for the purpose of supporting bicentennial activities, educational outreach activities (including supporting scholarly research and the development of exhibits), and preservation and improvement

activities pertaining to the sites and structures relating to the War of 1812.

(c) **AUDITS.**—The Comptroller General of the United States shall have the right to examine such books, records, documents, and other data of the Maryland War of 1812 Bicentennial Commission as may be related to the expenditures of amounts paid under subsection (b).

(d) **LIMITATION.**—Notwithstanding subsection (a), no surcharge may be included with respect to the issuance under this Act of any coin during a calendar year if, as of the time of such issuance, the issuance of such coin would result in the number of commemorative coin programs issued during such year to exceed the annual 2 commemorative coin program issuance limitation under section 5112(m)(1) of title 31, United States Code (as in effect on the date of the enactment of this Act). The Secretary of the Treasury may issue guidance to carry out this subsection.

By Mr. BUNNING (for himself and Ms. MIKULSKI):

S. 654. A bill to amend title XIX of the Social Security Act to cover physician services delivered by podiatric physicians to ensure access by Medicaid beneficiaries to appropriate quality foot and ankle care; to the Committee on Finance.

Mr. BUNNING. Mr. President, today I am reintroducing an important piece of legislation that I have worked on for several years with Senator MIKULSKI from Maryland. I am pleased that she is joining me in introducing this bill today, and I look forward to working with her to get it passed.

The bill we are introducing today, the Equity and Access for Podiatric Physicians Under Medicaid Act, will ensure that Medicaid beneficiaries in all States have access to the services of top-quality podiatric physicians.

Having healthy feet and ankles is critical to keeping individuals mobile, productive and in good long-term health. This is particularly true for individuals with diabetes.

According to the Centers for Disease Control and Prevention, CDC, over 23 million Americans have diabetes, which amounts to over seven percent of the total population. Diabetes is the seventh leading cause of death in this country.

If not managed properly, diabetes can cause several severe health problems, including eye disease or blindness, kidney disease and heart disease. Too often, diabetes can lead to foot complications, including foot ulcers and even amputations. In fact, the CDC estimates that in 2004, about 71,000 people underwent an amputation of a leg, foot or toe because of complications with diabetes.

Proper care of the feet could prevent many of these amputations.

The bill we are introducing today recognizes the important role podiatrists can play identifying and correcting foot problems among diabetics. The bill amends Medicaid's definition of “physicians” to include podiatric

physicians. This will ensure that Medicaid beneficiaries have access to foot care from those most qualified to provide it.

Under Medicaid, podiatry is considered an optional benefit. However, just because it is optional, does not mean that podiatric services are not needed, or that beneficiaries will not seek out other providers to perform these services. Instead, Medicaid beneficiaries will have to receive foot care from other providers who may not be as well trained as a podiatrist in treating lower extremities.

Also, it is important to note that podiatrists are considered physicians under the Medicare program, which allows seniors and disabled individuals to receive appropriate care.

I urge my colleagues to give careful consideration to this important bill. It will help many Medicaid beneficiaries across the country have access to podiatrists that they need.

Finally, I want to thank the Senator from Maryland for helping me reintroduce this legislation today. I hope that by working together we can see this important change made.

Ms. MIKULSKI. Mr. President, I rise today to join Senator BUNNING to introduce the Equity and Access for Podiatric Physicians Under Medicaid Act. I am proud to introduce this legislation that will ensure Medicaid patients have access to care provided by podiatric physicians.

This bill adds podiatric physicians to Medicaid's definition of physicians. Currently, podiatric physicians are defined as physicians under Medicare but not under Medicaid. Medicaid treats podiatric physicians as optional providers. This is a simple, commonsense bill that will treat podiatric physicians the same in Medicare and Medicaid. In this economic tsunami, with shrinking budgets and less to go around for Medicaid with more people in need, states are looking for ways to trim budgets and cut costs—one way to do that could be ending reimbursements to providers on Medicaid's "optional list." That means diabetics who need foot and ankle care but cannot afford to pay out of pocket will not get preventive care from a podiatrist that literally can save life and limb.

In fact, covering podiatric physicians may be a cost-effective measure. Ensuring Medicaid patients access to podiatric physicians will save Medicaid funds in the long term. Seventy-five percent of Americans will experience some type of foot health problem during their lives and foot disease is the most common complication of diabetes leading to hospitalization. Foot care programs with regular examinations could prevent up to 85 percent of these amputations. We must focus more on prevention on our health care system, and podiatrists are important providers of this preventive care.

Podiatric physicians are the only health professionals specially trained to prevent wounds and amputations in the lower limbs in people with chronic conditions like diabetes. Conditions that can devastate feet and ankles. With obesity and diabetes reaching epidemic proportions in the U.S., the work of podiatrists is more important now than ever before. Over 23 million people in this country have diabetes, that is 8 percent of the U.S. populations. Approximately 82,000 people have diabetes-related Leg-, foot or toe amputations each year. Both the CDC and American Diabetes Association recommend that podiatric physicians are a part of the care plan for people with diabetes. Medicaid covers necessary foot and ankle services, so the program should allow podiatric physicians who provide these services to get reimbursed for them. I want Medicaid patients around the country, and the over 600,000 Medicaid patients in Maryland, to have access to these services.

I know how important the care provided by podiatric physicians can be from my own personal experience. Dr. Vince Martorana, a podiatrist practicing in Baltimore did great things for my mother. He handled everything from health maintenance to unique challenges facing my mother, who lived for many years with adult onset diabetes. My severely diabetic mother could walk on her own two feet until she passed away because of Dr. Martorana. My Uncle Tony was also a podiatric physician who practiced in Baltimore for more than 40 years. He was there helping Rosie the Riveters stay on the job during World War II. These were hardworking people who had to stand on their own two feet to make a living and Uncle Tony was going to make sure it happened.

Podiatric physicians need to be recognized for the important role they play in health care and be reimbursed for their services. This bill makes sure that happens and ensures Medicaid patients have access to essential medical and surgical foot and ankle care. The bill is strongly supported by the American Podiatric Medical Association and I urge my colleagues to cosponsor this important legislation.

By Mr. JOHNSON (for himself, Ms. STABENOW, Mr. TESTER, and Mr. THUNE):

S. 655. A bill to amend the Pittman-Robertson Wildlife Restoration Act to ensure adequate funding for conservation and restoration of wildlife, and for other purposes; to the Committee on Environment and Public Works.

Mr. JOHNSON. Mr. President, today I introduced legislation, along with Senators STABENOW and TESTER, that establishes a first-of-its-kind program to dedicate funds to advance important state wildlife recovery and restoration programs.

For many years, Congress has authorized a portion of the fees hunters and anglers pay on fishing and hunting gear to go to the States to support hunting and fishing. This program is a success and is part of the reason why we continue to have such a strong sportsman tradition in our country.

However, a critical need has gone unmet; a need that this bill will fill. The Teaming With Wildlife Act of 2009 leverages a share of the fees that oil and gas companies pay to the Federal government for the right to drill for oil and gas on federal land, to fund programs administered by the States to conserve the habitats of nongame species. This bill is a partnership between the States and Federal Government. Each State and territory developed a wildlife action plan that guides how the funds authorized under this act will be spent. The plans ensure that State wildlife agencies take a comprehensive approach to conservation, focusing on efforts to support nongame species that are not threatened or endangered. States will match the Federal funds, leveraging the success of these on-the-ground conservation projects.

A rich and diverse environment is important to support our strong outdoor and sportsman tradition. All species are linked together. A successful pheasant hunt or landing a trophy walleye is connected to how we enhance the habitat of many other species. Enacting the Teaming With Wildlife Act will build on the tremendously successful programs of the 20th century and move us forward in broadening how we enhance all wildlife resources.

By Mr. REED (for himself, Mr. WHITEHOUSE, Mr. KERRY, Ms. MIKULSKI, Ms. KLOBUCHAR, and Mr. KENNEDY):

S. 656. A bill to provide for the adjustment of status of certain nationals of Liberia to that of lawful permanent residents; to the Committee on the Judiciary.

Mr. REED. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be placed in the RECORD, as follows:

S. 656

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Liberian Refugee Immigration Fairness Act of 2009".

SEC. 2. ADJUSTMENT OF STATUS.

(a) ADJUSTMENT OF STATUS.—

(1) IN GENERAL.—

(A) ELIGIBILITY.—Except as provided under subparagraph (B), the Secretary of Homeland Security shall adjust the status of an alien described in subsection (b) to that of an alien lawfully admitted for permanent residence, if the alien—

(i) applies for adjustment before April 1, 2011; and

(ii) is otherwise eligible to receive an immigrant visa and admissible to the United States for permanent residence, except that, in determining such admissibility, the grounds for inadmissibility specified in paragraphs (4), (5), (6)(A), and (7)(A) of section 212(a) of the Immigration and Nationality Act (8 U.S.C. 1182(a)) shall not apply.

(B) INELIGIBLE ALIENS.—An alien shall not be eligible for adjustment of status under this section if the Secretary of Homeland Security determines that the alien has been convicted of—

(i) any aggravated felony (as defined in section 101(a)(43) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(43)); or

(ii) 2 or more crimes involving moral turpitude.

(2) RELATIONSHIP OF APPLICATION TO CERTAIN ORDERS.—

(A) IN GENERAL.—An alien present in the United States who has been subject to an order of exclusion, deportation, or removal, or has been ordered to depart voluntarily from the United States under any provision of the Immigration and Nationality Act may, notwithstanding such order, apply for adjustment of status under paragraph (1) if otherwise qualified under such paragraph.

(B) SEPARATE MOTION NOT REQUIRED.—An alien described in subparagraph (A) may not be required, as a condition of submitting or granting such application, to file a separate motion to reopen, reconsider, or vacate the order described in subparagraph (A).

(C) EFFECT OF DECISION BY SECRETARY.—If the Secretary of Homeland Security grants an application under paragraph (1), the Secretary shall cancel the order described in subparagraph (A). If the Secretary of Homeland Security makes a final decision to deny the application, the order shall be effective and enforceable to the same extent as if the application had not been made.

(b) ALIENS ELIGIBLE FOR ADJUSTMENT OF STATUS.—

(1) IN GENERAL.—The benefits provided under subsection (a) shall apply to any alien—

(A) who is—

(i) a national of Liberia; and

(ii) has been continuously present in the United States from January 1, 2009, through the date of application under subsection (a); or

(B) who is the spouse, child, or unmarried son or daughter of an alien described in subparagraph (A).

(2) DETERMINATION OF CONTINUOUS PHYSICAL PRESENCE.—For purposes of establishing the period of continuous physical presence referred to in paragraph (1), an alien shall not be considered to have failed to maintain continuous physical presence by reasons of an absence, or absences, from the United States for any period or periods amounting in the aggregate to not more than 180 days.

(c) STAY OF REMOVAL.—

(1) IN GENERAL.—The Secretary of Homeland Security shall provide by regulation for an alien who is subject to a final order of deportation or removal or exclusion to seek a stay of such order based on the filing of an application under subsection (a).

(2) DURING CERTAIN PROCEEDINGS.—Notwithstanding any provision in the Immigration and Nationality Act, the Secretary of Homeland Security shall not order an alien to be removed from the United States if the alien is in exclusion, deportation, or removal proceedings under any provision of such Act and has applied for adjustment of status under subsection (a), except where the Secretary of Homeland Security has made a final determination to deny the application.

(3) WORK AUTHORIZATION.—

(A) IN GENERAL.—The Secretary of Homeland Security may—

(i) authorize an alien who has applied for adjustment of status under subsection (a) to engage in employment in the United States during the pendency of such application; and

(ii) provide the alien with an “employment authorized” endorsement or other appropriate document signifying authorization of employment.

(B) PENDING APPLICATIONS.—If an application for adjustment of status under subsection (a) is pending for a period exceeding 180 days and has not been denied, the Secretary of Homeland Security shall authorize such employment.

(d) RECORD OF PERMANENT RESIDENCE.—Upon the approval of an alien's application for adjustment of status under subsection (a), the Secretary of Homeland Security shall establish a record of the alien's admission for permanent record as of the date of the alien's arrival in the United States.

(e) AVAILABILITY OF ADMINISTRATIVE REVIEW.—The Secretary of Homeland Security shall provide to applicants for adjustment of status under subsection (a) the same right to, and procedures for, administrative review as are provided to—

(1) applicants for adjustment of status under section 245 of the Immigration and Nationality Act (8 U.S.C. 1255); and

(2) aliens subject to removal proceedings under section 240 of such Act (8 U.S.C. 1229a).

(f) LIMITATION ON JUDICIAL REVIEW.—A determination by the Secretary of Homeland Security regarding the adjustment of status of any alien under this section is final and shall not be subject to review by any court.

(g) NO OFFSET IN NUMBER OF VISAS AVAILABLE.—If an alien is granted the status of having been lawfully admitted for permanent residence pursuant to this section, the Secretary of State shall not be required to reduce the number of immigrant visas authorized to be issued under any provision of the Immigration and Nationality Act (8 U.S.C. 1101 et seq.).

(h) APPLICATION OF IMMIGRATION AND NATIONALITY ACT PROVISIONS.—

(1) DEFINITIONS.—Except as otherwise specifically provided in this Act, the definitions contained in the Immigration and Nationality Act (8 U.S.C. 1101 et seq.) shall apply in this section.

(2) SAVINGS PROVISION.—Nothing in this Act may be construed to repeal, amend, alter, modify, effect, or restrict the powers, duties, function, or authority of the Secretary of Homeland Security in the administration and enforcement of the Immigration and Nationality Act or any other law relating to immigration, nationality, or naturalization.

(3) EFFECT OF ELIGIBILITY FOR ADJUSTMENT OF STATUS.—Eligibility to be granted the status of having been lawfully admitted for permanent residence under this section shall not preclude an alien from seeking any status under any other provision of law for which the alien may otherwise be eligible.

By Mr. GRASSLEY (for himself, Mr. SCHUMER, Mr. LEAHY, Mr. SPECTER, Mr. GRAHAM, Mr. FEINGOLD, Mr. CORNYN, and Mr. DURBIN):

S. 657. A bill to provide for media coverage of Federal court proceedings; to the Committee on the Judiciary.

Mr. LEAHY. Mr. President, this week, the Nation celebrates the fifth

annual Sunshine Week—a time when open Government advocates raise their voices to renew the call for open and transparent Government. Our democracy works best when citizens know what their Government is doing. There is no more appropriate time to recommit ourselves to defending the public's right to know.

Today, I am pleased to join Senators GRASSLEY and SCHUMER to reintroduce the Sunshine in the Courtroom Act of 2009. This bipartisan bill will improve access to Federal court proceedings for members of the public who are unable to travel to the courthouse. In the information age, providing the American people access to Federal courts is possible like never before. Not all Americans are able to invest the time and money in travelling to witness public courtroom proceedings.

I commend Senator GRASSLEY for his leadership over the last decade to expand access to the courts. A bipartisan majority of the Senate Judiciary Committee voted to report this legislation in the last Congress, but further consideration stalled on the Senate floor. I hope our efforts to pass this legislation will be successful this year.

The Federal courts serve as a bulwark for the protection of individual rights and liberties, and the Supreme Court is often the final arbiter of Constitutional questions that have a profound effect on all Americans. Allowing the public greater access to Federal courts will deepen Americans' understanding of the work that goes on in the courts. As a result, Americans can be better informed about how important judicial decisions are made.

I have continually supported efforts in Congress to make our Government more transparent and accessible. During my more than 3 decades in the Senate, I have worked to make Federal agencies more open and accountable to the public through a reinvigorated Freedom of Information Act, FOIA, and last year, the first major reforms to FOIA were enacted with the passage of the Leahy-Cornyn OPEN Government Act. I have also supported efforts to make the work of Congress more open to the American people. Just this week, I introduced the OPEN FOIA Act, which would require Congress to openly and clearly state its intention to provide for statutory exemptions to FOIA in proposed legislation. The freedom of information is one of the cornerstones of our democracy. For more than 4 decades, FOIA has been among the most important Federal laws that protect the public's right to know.

The work of the Federal judiciary is also open to the public. Proceedings in Federal courtrooms around this country are open to the public, and jurists publish extensive opinions explaining the reasons for their judgments and decisions. Nevertheless, more can and must be done to increase access to the

Federal courts. All 50 States currently allow some form of audio or video coverage of court proceedings, but the Federal courts lag behind. The legislation we introduce today simply extends this tradition of openness to the Federal level.

Although this bill permits presiding appellate and district court judges to allow cameras in most public Federal court proceedings, it does not require that they do so. An exception is carved out for instances where a camera would violate the due process rights of an involved party. At the same time, the bill protects non-party witnesses by giving them the right to have their voices and images obscured during their testimony. I believe these protections strike the proper balance between security needs and the protection of personal privacy, while at the same time ensuring the public will always have a right to know what their Government is doing.

Finally, the bill authorizes the Judicial conference of the U.S. to issue advisory guidelines for use by presiding judges in determining the management and administration of photographing, recording, broadcasting, or televising the proceedings.

In 1994, the Judicial conference concluded that it was not the right time to permit cameras in the Federal courts, and rejected a recommendation of the Court Administration and Case Management Committee to authorize the use of cameras in Federal civil trial and appellate courts. A majority of the Conference was concerned about the intimidating effect of cameras on some witnesses and jurors.

I understand that the Judicial conference remains opposed to cameras in the Federal courts, and I am sensitive to the conference's concerns. But this legislation grants the presiding judge the authority to evaluate the effect of a camera on particular proceedings and witnesses, and decide accordingly on whether to permit the camera into the courtroom. A blanket prohibition on cameras is an unnecessary limitation on the discretion of the presiding judge.

This legislation is an important step towards making the work of the Federal judiciary more widely available for public scrutiny. I hope all Senators will join us in bringing more transparency to the Federal courts.

By Mr. ALEXANDER:

S. 659. A bill to improve the teaching and learning of American history and civics; to the Committee on Health, Education, Labor, and Pensions.

Mr. ALEXANDER. Mr. President, on a day in a week when there is a lot of news where people are hurting in a serious economy, I have some good news to report, and it will just take me a few minutes to do it. Our senior Senator, Mr. BYRD, Senator TED KENNEDY, who

is chairman of the Committee on Health, Education, Labor and Pensions, and I introduced legislation today that will help push the teaching of U.S. history in our classrooms. The way I like to describe it is by saying this: that it will help to put the teaching of American history and civics back in its rightful place, in our classrooms, so our children can grow up learning what it means to be an American.

The legislation which we have introduced would expand summer academies for outstanding teachers, authorize new teacher programs, require States to set standards for the teaching and learning of U.S. History, and create new opportunities to compare the tests that students take on U.S. history.

Specifically, the legislation would, No. 1, authorize 100 new summer academies for outstanding students and teachers of U.S. history and align those academies with locations in our national park system, such as the John Adams' House in Massachusetts or the Independence Hall in Philadelphia. I see the pages sitting here today. They are real students of U.S. history because they live it and learn it each day they are here. I don't know what their scores are on the advanced placement tests for U.S. history, but I know one fact, which the Chair may be interested in learning: The highest scores in any high school in America on the advanced placement test for U.S. history is not from a New England prep school or a Tennessee prep school or an elite school in some rich part of America; it is from the page school of the House of Representatives. They had better scores on U.S. history than any other high school. I don't know what the Senate page scores were, so I won't compare them.

The point is—and this is an idea David McCullough, a well-known author, had: We would expand the number of presidential and congressional academies for outstanding students and teachers and have them placed in the National Park Service initiative.

Second, the bill we've introduced today would double the authorization of funding for the teaching of American history programs in local school districts, which today involve 20,000 students as a part of the No Child Left Behind Act.

Third, it would require States to develop and implement standards for student assessments in U.S. history, although there would be no Federal reporting requirement, as there is now for reading and mathematics.

Finally, it would allow States to compare history and civics student test scores in the 8th and 12th grades by establishing a 10-State pilot program expanding the National Assessment of Education Progress (NAEP), which is also called the "Nation's Report Card." We have a tradition in the Senate

where each of us, when we first arrive, make a maiden speech. We still call it that. Most of us pick a subject that is important to us. I made mine almost exactly 6 years ago, on March 4, 2003. The subject was something I cared about then and care about today and on which we have made some progress.

I argued, as I mentioned earlier, it was time to put the teaching of American history and civics back in its rightful place in our schools so as our children grow, they can learn what it means to be an American. On the "Nation's Report Card," our worst scores for our seniors in high school are not in math or science but in U.S. history. It will be very difficult for us as a country to succeed if we don't learn where we came from.

I ask unanimous consent that the speech I made 6 years ago be printed in the RECORD immediately following my remarks.

The PRESIDING OFFICER (Mr. BEGICH). Without objection, it is so ordered.

(See Exhibit 1.)

Mr. ALEXANDER. Mr. President, I ask unanimous consent that if Senator BYRD and Senator KENNEDY make statements today on this legislation, as I believe they will, that our statements be put in the RECORD in about the same place, with Senator BYRD's first, then Senator KENNEDY's, and mine third.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ALEXANDER. Mr. President, in the speech I made 6 years ago, I called it the American History and Civics Education Act. I suggested we create summer academies for outstanding students and teachers of American history. The idea was to create one of those academies focused on American history and civics for teachers and one for students and to see how they worked and to gradually expand them.

These presidential academies for students and teachers were modeled after the Tennessee Governors School, which I began when I was Governor of Tennessee, which still continue today, after 20 years. They are relatively inexpensive. They are 2-, 3-, or 4-week schools for students, and one for teachers. They held students in a variety of subjects, such as mathematics, science, the arts, international studies. They come together for a while and inspire one another, and then they go back to their schools and inspire their fellow students. They have been a great success in Tennessee and in other States.

Senator REID, the majority leader, was the whip at that time. He was on the floor when I made my remarks and he asked to be the prime cosponsor of the legislation, and he was. Senator KENNEDY, who has had a long interest in U.S. history, takes his family once a year to some an historical part of the United States. A couple years ago, they

went into Virginia and saw where Patrick Henry made his famous speech. I kid him and say he cares so much about history because he is a part of it in such a big way. Senator KENNEDY heard about the proposal, and he went along the Democratic side and rounded up 20 cosponsors of the legislation. So, Senator KENNEDY, Senator REID and I and several Republican Senators introduced a bill. We had a hearing during which Senator BYRD testified on behalf of my proposal for summer academies. It passed the Senate and the House, and we have had those summer academies now for three summers. One of those is at the Ashland University in Ashland, OH, which has been a great success. I see the students and teachers every summer. I bring them on the Senate floor, and it has been proven that it is good for teachers and good for our country. So that is the reason we want to expand those programs. We also felt we would meet as a group—those of us who have something to do with U.S. history here—and we met with the Library of Congress and with other parts of the Federal Government and many of us are involved in helping Americans learn more about our country's history, especially young people. As part of that, we thought it would be wise to try to consolidate in one section of the Elementary and Secondary Education Act—which we call No Child Left Behind—the various programs we already have for U.S. history and then to expand those that seemed worthwhile.

That is what this legislation does. There is a great need for it. I mentioned earlier that it is our worst subject for high school, even though some of our pages seem to do pretty well. Very few students score at or above the proficient level on the American history exam conducted by the National Assessment for Education Progress. Twenty percent of fourth graders were proficient in U.S. history, 17 percent of eighth graders were proficient in U.S. history, and 12 percent of high school seniors were proficient in U.S. history.

In addition, the No Child Left Behind Act may have had the unintentional effect of reducing the focus on U.S. history, as some school districts have concentrated their efforts on reading and mathematics. Therefore, it is appropriate and necessary to improve and expand State and local efforts to increase the understanding and awareness of American history and to do it, of course, in a way that doesn't preempt State and local responsibility and authority for elementary and secondary education.

Therefore, what the legislation we are doing today will do is expand the summer academies. We call them presidential academies for teachers and congressional academies for students. Those academies were created in 2004 to the number of 100 in the summer

gradually over the years. The priority would be to place those academies in the National Park Service's national centennial parks initiative so the Library of Congress, the Smithsonian, and other museums that have innovative programs in U.S. history can be aligned with these academies. David McCullough, for example, suggested we have the academies at locations such as Andrew Jackson's home in Heritage. I think an even better idea would be to have a week for U.S. teachers at John Adams' home in Massachusetts, with Mr. McCullough as the teacher. That is the idea.

Secondly, we would expand the Nation's report card—we call that NAEP—so there could be a 10-State pilot program for American history and civics student assessment in grades 8 and 12. Today, our Nation's report card doesn't measure State performance in American history. It gives us a picture of how 8th to 12th graders do nationally. This would permit Colorado, Tennessee, Alaska, and California to compare the seniors and, in doing so, call attention to improvements that might need to be made.

The third thing would be to require all States to develop and implement standards and assessments in American history under the No Child Left Behind Act. But it doesn't require any Federal reporting, as we do in other subjects.

Finally, it would take Senator BYRD's program—called Teaching American History, which he put into the No Child Left Behind Act 6 years ago—and it would double the authorization for that program from \$100 million to \$200 million, so it can serve even more than the 20,000 teachers it serves today.

I thank David Cleary and Sarah Rittling of my staff, who have worked hard with the staffs of Senators BYRD and KENNEDY to prepare this legislation. We intend to invite all Members of the Senate, and we hope the House will join us in cosponsoring this.

Finally, I wish to tell one short story to conclude my remarks about some of the teachers who have participated. One of the things a Senator can do is to bring someone on the Senate floor who is not a Senator. It has to be done when the Senate is not in session and I have found it is a great privilege for most Americans. Early one morning last summer, I brought onto the Senate floor the 50 teachers who had been selected—one from each State—for the presidential academy for outstanding teachers of American history. I showed them Daniel Webster's desk right here, and I showed them Jefferson Davis's desk, which is back there, and where the sword mark is where when the Union soldier came in and started chopping the desk, and the soldier who was stopped by a commander who said, "We came to save the Union, not destroy it." I showed them where the ma-

jority and minority leaders speak. They saw "E Pluribus Unum" up there, and "In God We Trust" back there. They learned that we operate by unanimous consent, and we talked about what it would be like to actually try to operate a classroom by unanimous consent, much less the Senate.

As you might expect, they asked a lot of good questions, being outstanding history teachers. I especially remember the final question. I believe it was from the teacher from Oregon who asked: Senator, what would you like for us to take back to our students? I said that what I hope you will take back is that I get up every day, and I believe most of us on either side get up hoping that by the end of the day, we will have done something to make our country look better. It may not look that way on television or read that way in the newspaper because we are sent here to debate great issues. That produces conflict and disagreement a lot of the time. I feel, and I believe all of us feel, we are in a very special place, in a very special country, with a very special tradition. We would like for the students to know that and to know that is how we feel about the job we have.

I am delighted today that Senators BYRD and KENNEDY, who have contributed so much to U.S. history over the years, both in their own personalities and by legislation they have introduced, have joined me in this effort to expand the Federal programs that focus on putting U.S. history and civics in a little higher place in the classroom so that our students learn what it means to be an American.

I invite my colleagues to join us, and I invite all Americans to join us in their communities, in their schools and in their States, to make that a priority.

EXHIBIT 1

REMARKS OF SEN. ALEXANDER—AMERICAN HISTORY AND CIVICS EDUCATION ACT INTRODUCTION

Mr. President, from the Senate's earliest days, new members have observed as we just heard a ritual of remaining silent during floor debates for a period of time that ranged from several weeks to two years. By waiting a respectful amount of time before giving their so-called "maiden speeches," freshman senators hoped their senior colleagues would respect them for their humility.

This information comes from the Senate historian, Richard Baker, who told me that in 1906, the former Governor of Wisconsin, Robert LaFollette, arrived here "anything but humble" (and I'm sensitive to this as a former governor). He waited just three months, a brief period by the standards of those days, before launching his first major address. He spoke for eight hours over three days; his remarks in the Congressional Record consumed 148 pages. As he began to speak, most of the senators present in the chamber pointedly rose from their desks and departed. LaFollette's wife, observing from the gallery, wrote, "There was no mistaking that this was a polite form of hazing."

From our first day here, as the majority leader said, we new members of this 108th

Congress have been encouraged to speak up, and most of us have. But, with the encouragement of the majority leader, several of us intend also to revive the tradition of the maiden address by making a signature speech on an issue that is important both to the country and to each of us. I want to thank my colleagues who are here, and I want to assure all of you that I will not speak for three days—as former Governor LaFollette did.

Mr. President, I rise to address the intersection of two urgent concerns that will determine our country's future. These are also the two topics I care about the most: the education of our children and the principles that unite us as Americans.

It is time that we put the teaching of American history and civics back in its rightful place in our schools so our children can grow up learning what it means to be an American.

Especially during such serious times when our values and way of life are being attacked, we need to understand clearly just what those values are.

In this, most Americans would agree. For example, in Thanksgiving remarks in 2001, President Bush praised our nation's response to September 11. "I call it," he said, "the American character." At about the same time, while speaking at Harvard, former Vice-President Al Gore said, "We should [fight] for the values that bind us together as a country."

Both men were invoking a creed of ideas and values in which most Americans believe. "It has been our fate as a nation," the historian Richard Hofstadter wrote, "not to have ideologies but to be one." This value based identity has inspired both patriotism and division at home, as well as emulation and hatred abroad. For terrorists, as well as for those who admire America, at issue is the United States itself—not what we do, but who we are.

Yet our children do not know what makes America exceptional. National exams show that three-quarters of the nation's 4th, 8th and 12th graders are not proficient in civics knowledge and one-third does not even have basic knowledge, making them "civic illiterates."

Children are not learning about American history and civics because they are not being taught it. American history has been watered down, and civics is too often dropped from the curriculum entirely.

Until the 1960s, civics education, which teaches the duties of citizenship, was a regular part of the high school curriculum, but today's college graduates probably have less civics knowledge than high school graduates of 50 years ago. Reforms, so-called, in the '60s and '70s resulted in the widespread elimination of required classes and curriculum in civics education. Today, more than half the states have no requirement for students to take a course—even for one semester—in American government.

To help put the teaching of American history and civics in its rightful place, today I introduce legislation along with several distinguished co-sponsors including: Senators Reid, Gregg, Santorum, Inhofe and Nickles. We call it the "American History and Civics Act." This act creates Presidential Academies for Teachers of American History and Civics and Congressional Academies for Students of American History and Civics. These residential academies would operate for two weeks (in the case of teachers) and four weeks (for students) during the summer.

Their purpose would be to inspire better teaching and more learning of the key

events, persons and ideas that shape the institutions and democratic heritage of the United States.

I have had some experience with such residential summer academies, when I was Governor of Tennessee. In 1984, we began creating Governor's schools for students and teachers. For example, there was the Governor's School for the Arts at Middle Tennessee State University and the Governor's School of International Studies at the University of Memphis as well as the Governor's School for Teachers of Writing at the University of Tennessee at Knoxville, which was especially successful. Eventually there were eight Governor's Schools helping thousands of Tennessee teachers improve their skills and inspiring outstanding students to learn more about core curriculum subjects. When these teachers and students returned to their schools for the next school year, they brought with them a new enthusiasm for teaching and learning that infected their peers. Dollar for dollar, the Governor's Schools were one of the most effective and popular educational initiatives in our state's history.

States other than Tennessee have had similar success with summer residential academies. The first Governor's school was started in North Carolina in 1963 when Governor Terry Sanford established it at Salem College in Winston-Salem. Upon the establishment of the first school, several states, including Georgia, South Carolina, Arkansas, Kentucky, and Tennessee established similar schools.

For example, in 1973 Pennsylvania established Governor's Schools of Excellence, which has 14 different programs of study. As in Tennessee, students participating in the Pennsylvania Governor's School program attend academies at 8 different colleges to study everything from international studies, to health care and teaching. Also established in 1973, Virginia's Governor's School is a summer residential program for 7500 of the Commonwealth's most gifted students. Mississippi established its Governor's School in 1981. The Mississippi University for Women hosts the program, which is designed to give students academic, creative, and leadership experiences. Every year West Virginia brings 80 of its most talented high school performing and visual arts students to West Liberty State College for a three-week residential program.

These are just a few of the more than 100 Governors' schools in 28 states—clearly the model is a good one. The legislation I propose today applies that successful model to American history and civics education at the national level by establishing Presidential and Congressional academies for students and teachers of those subjects.

Additionally, this proposed legislation authorizes the creation of a national alliance of American history and civics teachers who would be connected by the internet. The alliance would facilitate sharing of best practices in the teaching of American history and civics. It is modeled after an alliance I helped the National Geographic Society begin during the 1980's to put geography back into the American school curriculum. Tennessee and the University of Tennessee were among the first sponsors of the alliance.

This legislation creates a pilot program. Up to 12 Presidential academies for teachers and 12 Congressional Academies for students would be sponsored by educational institutions. The National Endowment for the Humanities would award 2-year renewable

grants to those institutions after a peer review process. Each grant would be subject to rigorous review after three years to determine whether the overall program should continue, expand or end. The legislation authorizes \$25 million annually for the four year pilot program.

There is a broad basis of renewed support for and interest in American history and civics in our country.

David Gordon noted in a recent issue of the Harvard Education Letter: "A 1998 survey by the nonpartisan research organization Public Agenda showed that 84 percent of parents with school-aged children said they believe that the United States is a special country and they want schools to convey that belief to their children by teaching about its heroes and traditions. Similar numbers identified the American ideal as including equal opportunity, individual freedom, and tolerance and respect for others. Those findings were consistent across racial and ethnic groups."

Our national leadership has responded to this renewed interest. In 2000, at the initiative of my distinguished colleague Senator Byrd, Congress created grants for schools that teach American history as a separate subject within school curricula. We appropriated \$100 million for those grants in the recent Omnibus appropriations bill, and rightfully so. They encourage schools and teachers to focus on the teaching of traditional American history, and provide important financial support.

Last September, with historian David McCullough at his side, President Bush announced a new initiative to encourage the teaching of American history and civics. He established the "We the People" program at the NEH, which will develop curricula and sponsor lectures on American history and civics. He announced the "Our Documents" project, run by the National Archives. This would take one hundred of America's most important documents from the National Archives to classrooms and communities across the country. This year, he will convene a White House forum on American history, civics, and service. There, we will discuss new policies to improve the teaching of history and civics in elementary and secondary schools.

This proposed legislation takes the next step by training teachers and encouraging outstanding students. We need to foster a love of this subject and arm teachers with the skills to impart that love to their students.

I am pleased that today one of the leading members of the House of Representatives, Roger Wicker of Mississippi, along with a number of his colleagues, are introducing the same legislation in the House.

I want to thank Senator Gregg, Chairman of the Committee on Health, Education, Labor and Pensions, who has agreed that the committee will hold hearings on this legislation so that we can determine how it might supplement and work with recently enacted legislation and the President's various initiatives.

Mr. President, in 1988, at a meeting of educators in Rochester, the President of Notre Dame University, Monk Malloy, asked this question: "What is the rationale for the public school?" There was an unexpected silence around the room until Al Shanker, the president of the American Federation of Teachers, answered in this way: "The public school was created to teach immigrant children the three R's and what it means to be an American with the hope that they would then go home and teach their parents."

From the founding of America, we have always understood how important it is for citizens to understand the principles that unite us as a country. Other countries are united by their ethnicity. If you move to Japan for example, you can't become Japanese. Americans, on the other hand, are united by a few things in which we believe. To become an American citizen, you subscribe to those principles. If there were no agreement on those principles, as Samuel Huntington has noted, we would be the United Nations instead of the United States of America.

There has therefore been a continuous education process to remind Americans just what those principles are. Thomas Jefferson, in his retirement at Monticello, would spend evenings explaining to overnight guests what he had in mind when he helped create what we call America. By the mid-19th century it was just assumed that everybody knew what it meant to be an American. In his letter from the Alamo, Col. William Barrett Travis pleaded for help simply "in the name of liberty, patriotism and everything dear to the American character."

There were new waves of immigration in the late 19th century that brought to our country a record number of new people from other lands whose view of what it means to be an American was indistinct—and Americans responded by teaching them. In Wisconsin, for example, the Kohler Company actually housed German immigrants together so that they might be "Americanized" during non-working hours.

But the most important Americanizing institution, as Mr. Shanker reminded us in Rochester in 1988, was the new common school. McGuffey's Reader, which was used in many classrooms, sold more than 120 million copies introducing a common culture of literature, patriotic speeches and historical references.

In the 20th century it was war that made Americans stop and think about what we were defending. President Roosevelt made certain that those who charged the beaches of Normandy knew they were defending for freedoms.

But after World War II, the emphasis on teaching and defining the principles that unite us has waned. Unpleasant experiences with McCarthyism in the 1950's, discouragement after the Vietnam War, and history books that left out or distorted the history of African-Americans made some skittish about discussing "Americanism." The end of the Cold War removed a preoccupation with who we were not, making it less important to consider who we are. The Immigration law changes in 1965 brought to our shores many new Americans and many cultural changes. As a result, the American Way became much more often praised than defined.

Changes in community attitudes, as they always are, were reflected in our schools. According to historian Diane Ravitch, the public school virtually abandoned its role as the chief Americanizing Institution. We have gone, she explains, from one extreme (simplistic patriotism and incomplete history) to the other—"public schools with an adversary culture that emphasize the nation's warts and diminish its genuine accomplishments. There is no literary canon. There are no common readings, no agreed upon lists of books, poems and stories from which students and parents might be taught a common culture and be reminded of what it means to be an American."

During this time many of our national leaders contributed to this drift toward agnostic Americanism. These leaders cele-

brated multiculturalism and bilingualism and diversity at a time when there should have been more emphasis on a common culture and learning English and unity.

America's variety and diversity is a great strength, but it is not our greatest strength. Jerusalem is diverse. The Balkans are diverse. America's greatest accomplishment is not its variety and diversity but that we have found a way to take all that variety and diversity and unite ourselves as one country. *E pluribus unum*: out of many, one. That is what makes America truly exceptional.

Since 9/11 the national conversation about what it means to be an American has been different. The terrorists focused their crosshairs on the creed that unites Americans as one country—forcing us to remind ourselves of those principles, to examine and define them, and to celebrate them. The President himself has been the lead teacher. President Bush has literally taken us back to school on what it means to be an American. When he took the country to church on television after the attacks he reminded us that no country is more religious than we are. When he walked across the street to the mosque he reminded the world that we separate church and state and that there is freedom here to believe in whatever one wants to believe. When he attacked and defeated the Taliban, he honored life. When we put planes back in the air and opened financial markets and began going to football games again we celebrated liberty. The President called on us to make those magnificent images of courage and charity and leadership and selflessness more permanent in our every day lives through Freedom Corps. And with his optimism, he warded off doomsayers who tried to diminish the real gift of Americans to civilization, our cockeyed optimism that anything is possible.

Just after 9/11, I proposed an idea I called "Pledge Plus Three." Why not start each school day with the Pledge of Allegiance—as we do here in the Senate—followed by a faculty member or student sharing for three minutes "what it means to be an American." The Pledge embodies many of the ideals of our National Creed: "one nation, under God, indivisible, with liberty and justice for all." It speaks to our unity, to our faith, to our value of freedom, and to our belief in the fair treatment of all Americans. If more future federal judges took more classes in American history and civics and learned more about those values, we might have fewer mind-boggling decisions like the one issued recently by the Ninth Circuit.

Before I was elected to the Senate, I taught some of our future judges and legislators a course at Harvard's John F. Kennedy School of Government entitled "The American Character and America's Government." The purpose of the course was to help policy makers, civil servants and journalists analyze the American creed and character and apply it in the solving of public policy problems. We tried to figure out, if you will, what would be "the American way" to solve a given problem.

The students and I did not have much trouble deciding that America is truly exceptional (not always better, but truly exceptional) or in identifying the major principles of the American Creed or the distinct characteristics of our country. Such principles as: liberty, equal opportunity, rule of law, *laissez faire*, individualism, *e pluribus unum*, the separation of church and state.

But what we also found as we find in this body was that applying those principles to

today's issues was hard work. This was because the principles of the creed often conflicted. For example, when discussing President Bush's faith-based charity legislation, we know that "In God We Trust" but we also know that we don't trust government with God.

When considering whether the federal government should pay for scholarships which middle and low income families might use at any accredited school—public, private or religious—we find that the principle of equal opportunity conflicted with the separation of church and state.

And we find there are great disappointments when we try to live up to our greatest dreams, for example, President Kennedy's pledge that we will "pay any price or bear any burden" to defend freedom, or Thomas Jefferson's assertion that "all men are created equal," or the American dream that for anyone who works hard, tomorrow will always be better than today. We are often disappointed when we try to live up to those dreams.

We learned that, as Samuel Huntington has written, balancing these conflicts and disappointments is what most of American politics and government is about.

Mr. President, if most of our politics and government is about applying to our most urgent problems the principles and characteristics that make us the exceptional United States of America, then we had better get about the teaching and learning of those principles and characteristics.

The legislation I propose today with several co-sponsors will help our schools do what they were established to do in the first place. At a time when there are record numbers of new Americans, and at a time when our values are under attack, at a time when we are considering going to war to defend those values, there can be no more urgent task than putting the teaching of American history and civics back in its rightful place in our schools so our children can grow up learning what it means to be an American.

By Mr. HATCH (for himself and Mr. DODD):

S. 660. A bill to amend the Public Health Service Act with respect to pain care; to the Committee on Health, Education, Labor, and Pensions.

Mr. HATCH. Mr. President, I rise today to introduce the National Pain Care Policy Act of 2009. I am pleased to have worked with my good friend, Senator CHRIS DODD, on this legislation that will create a comprehensive framework for addressing coordinated research, public education and training in pain and pain management. I also want to acknowledge the work of my colleagues in the House, Representatives LOIS CAPPS and MIKE ROGERS, for their efforts in that body to highlight this important health issue.

According to the Centers for Disease Control and Prevention, CDC, more than 25 percent of Americans over age 20 report having suffered pain. Of the older people reporting pain, more than half say their pain lasted for an entire year or longer. But many older people do not report their pain because they believe nothing can be done or they are unaware that effective treatments may exist.

Health care professionals are often not adequately trained to manage their

patients' pain. They may be unfamiliar with the latest research and guidelines, or they might hesitate to prescribe medication for pain management due to concerns about dosing or dependency. A widely acknowledged barrier to patient care includes misconceptions and concerns by health care providers regarding laws and policies on the use of controlled substances. Some patients do not tell their doctors they are experiencing pain because they do not want to bother them or appear to be a complainer.

The National Pain Care Act of 2009 will help researchers, patients and health care providers better understand and manage pain care. It will coordinate federal research activities by establishing an Interagency Pain Coordinating Committee. The legislation also authorizes funds for pain research at the National Institutes of Health, NIH, and requires a report to Congress on the progress made in this area. The Coordinating Committee will summarize in their report the advances in pain care research supported or conducted by federal agencies and identify the research gaps that, if filled, could shed light on the symptoms and causes of pain.

The bill will establish a public awareness campaign highlighting pain as a serious public health issue. The campaign will provide messages to the public on the need to appropriately assess, diagnose, treat and manage pain, and will alert the public to available treatments options for pain care management. It will also help patients weigh the risks and benefits of these options so that they may make better informed decisions with their health care providers.

The National Pain Care Policy Act of 2009 also creates greater training capacity in health-professions schools, hospices and other health care professional training facilities. This training will ensure that more health professionals have the capacity to manage their patients' pain using the most recent findings and improvements in the provision of pain care. Health professionals in a variety of settings will learn better means for assessing, diagnosing, treating and managing pain signs and symptoms and, as a result, will become more knowledgeable about applicable policies on the use of controlled substances.

This bill contains provisions that will help the many Americans who suffer from joint pain, one of the most common types of pain reported. One-third of adults reported joint pain, aching or stiffness, according to a CDC report on the nation's health. It will also reduce hospitalization costs that are associated with hip and knee replacements that may be unnecessary if the underlying pain can be adequately controlled.

Finally, the National Pain Care Act of 2009 will also help migraine suf-

ferers, cancer patients and those experiencing lower back pain. Cancer patients should not have to spend their final days in pain. Lower back pain is the most common cause of job-related disability and relieving that complaint could increase worker productivity and alleviate many lost days of work.

This is an important piece of legislation; it is one that, if passed, will improve the lives of many. Quite frankly, I believe it is long overdue. Similar legislation was introduced last year in both chambers of Congress—the House passed its legislation late in the year, but, unfortunately, the Senate did not consider the bill before the 110th Congress adjourned. The legislation we introduce today is identical to that which the House passed last year. I thank Senator DODD for his leadership on this important issue and I urge my colleagues to support the prompt passage of our bill.

Mr. DODD. Mr. President, I rise today to join my colleague from Utah, Senator ORRIN HATCH, in introducing the National Pain Care Policy Act of 2009. This important legislation would make significant strides in the understanding and treatment of pain as a medical condition. Pain is the most common symptom leading to medical care and a leading health issue. Yet people suffering through pain often struggle to get relief because of a variety of issues. This is why we are introducing this important legislation.

Each year pain results in more than 50 million lost workdays estimated to cost the United States \$100 billion. Beyond the economic impact, pain is a leading cause of disability, with back pain alone causing chronic disability in 1 percent of the population of this country. In the U.S. 40 million people suffer from arthritis, more than 26 million, ages 20 to 64, experience frequent back pain, more than 25 million experience migraine headaches, and 20 million have jaw and lower facial pain each year. It is estimated that 70 percent of cancer patients have significant pain as they fight the disease. Half of all patients in hospitals suffer through moderate to severe pain in their last days. As with many medical conditions, this is a problem that is likely to become worse as the baby boom generation approaches retirement and the population ages.

Sadly, though most pain can be relieved, it often is not. Many suffering patients are reluctant to tell their medical provider about the pain they are experiencing, for fear of being identified as a "bad patient," and concern about addiction often leads patients to avoid seeking or using medications to treat their pain. But even if patients were more forthcoming about their condition, few medical providers are equipped to do something about it. Often they have not been trained in assessment techniques or pain manage-

ment, and are unaware of the latest research, guidelines, and standards for treatment. There is also concern among most providers that prescribing treatment for pain will lead to greater scrutiny by regulatory agencies and insurers.

But we can do something about these barriers and help individuals suffering from pain. The National Pain Care Policy Act would lead to improvements in pain care across the country. The legislation would call for an Institute of Medicine conference on pain care to increase awareness of this issue as a public health problem, identify barriers to pain care and determine action for overcoming those barriers. A number of years ago, my good friend Sen. HATCH helped establish a Pain Consortium at the National Institutes of Health to establish a coordinated pain research agenda. This legislation will codify that consortium and update its mission. The bill addresses the training and education of health care professionals through new grant programs at the Agency for Health Research and Quality, AHRQ, and the Health Resources and Services Administration, HRSA. And finally this legislation creates a national outreach and awareness campaign at the Department of Health and Human Services to educate patients, families, and caregivers about the significance of pain and the importance of treatment.

I want to thank Senator HATCH for his leadership on this issue and urge my colleagues to join us on this important effort to help the millions of Americans suffering from severe pain.

By Mr. BINGAMAN (for himself,
Ms. COLLINS, Ms. STABENOW,
Ms. SNOWE, Mr. BAYH, Mr.
BROWN, and Mr. PRYOR):

S. 661. A bill to strengthen American manufacturing through improved industrial energy efficiency, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. BINGAMAN. Mr. President, today I am introducing a bill, with Senators SUSAN COLLINS, DEBBIE STABENOW, OLYMPIA SNOWE, EVAN BAYH, SHERROD BROWN, and MARK PRYOR that would enable the retooling and transformation of our industrial sector by using less energy, reducing greenhouse gas emissions, and producing the technologies that will help the U.S. and the world break its dependence on fossil fuel.

Today our country is facing some of the toughest economic hurdles that many of us have ever seen. In our manufacturing sector, we have lost nearly a million, high quality jobs in the last year, with over 200,000 jobs lost in just the last month. These are not just jobs that we are losing—the industrial foundation upon which our Nation's wealth has been built is eroding. We are losing technical expertise and the skilled and

inventive workforce that go with these jobs. We are losing the opportunity to grow our economy and the ability to compete on a global scale.

With this current economic downturn, and the energy, climate, and global competitiveness challenges lying before us, we have come to a critical juncture in our Nation's industrial history—we must make a choice as to what the future of manufacturing will be for this country. At this moment, while the rest of the world is at a pause, this nation has the opportunity to re-invent and transform our industrial base to compete globally through technical innovation and product superiority, all while, reducing our dependence on carbon-based fuels, reducing greenhouse gas emissions, and increasing productivity.

The Restoring America's Manufacturing Leadership through Energy Efficiency Act of 2009 establishes the financing mechanisms for both small and large manufacturers to adopt the advanced energy efficient production technologies and processes that will allow them to be more productive and less fuel dependent, cutting costs, not jobs.

Second, this bill provides for public/private partnerships with industry to map out the future of advanced American manufacturing and to develop and deploy the breakthrough technologies that will take us there. By spurring innovation in our manufacturing sector to decrease energy intensity and environmental impacts, while increasing productivity, we can create the high tech, high-value manufacturing processes and jobs for the 21st century that will allow the U.S. to compete against anyone, anywhere.

Third, this legislation supports the domestic production of advanced energy technologies to fuel the growth of renewables and efficiency and capture the clean energy market, creating millions of American jobs.

These steps, combined with the manufacturing tax credit that I included in the American Reinvestment and Recovery Act, a national renewable portfolio standard, and the President's commitment to doubling renewable energy production in just 3 years will serve as a strong base and commitment on which to build the New American Manufacturing. I look forward to the impact that this legislation will have on increasing our industrial competitiveness and hope that we can incorporate additional ideas as the legislative process proceeds.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 661

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Restoring America's Manufacturing Leadership through Energy Efficiency Act of 2009”.

SEC. 2. INDUSTRIAL ENERGY EFFICIENCY GRANT PROGRAM.

Section 399A of the Energy Policy and Conservation Act (42 U.S.C. 6371h-1) is amended—

(1) in the section heading, by inserting “**AND INDUSTRY**” before the period at the end;

(2) by redesignating subsections (h) and (i) as subsections (i) and (j), respectively; and

(3) by inserting after subsection (g) the following:

“(h) **INDUSTRIAL ENERGY EFFICIENCY GRANT PROGRAM.**—

“(1) **IN GENERAL.**—The Secretary shall carry out a program under which the Secretary shall provide grants to eligible lenders to pay the Federal share of creating a revolving loan program under which loans are provided to commercial and industrial manufacturers to implement commercially available technologies or processes that significantly—

“(A) reduce systems energy intensity, including the use of energy intensive feedstocks; and

“(B) improve the industrial competitiveness of the United States.

“(2) **ELIGIBLE LENDERS.**—To be eligible to receive a grant under this subsection, a lender shall—

“(A) be a community and economic development lender that the Secretary certifies meets the requirements of this subsection;

“(B) lead a partnership that includes participation by, at a minimum—

“(i) a State government agency; and

“(ii) a private financial institution or other provider of loan capital;

“(C) submit an application to the Secretary, and receive the approval of the Secretary, for a grant to carry out a loan program described in paragraph (1); and

“(D) ensure that non-Federal funds are provided to match, on at least a dollar-for-dollar basis, the amount of Federal funds that are provided to carry out a revolving loan program described in paragraph (1).

“(3) **PRIORITY.**—In making grants under this subsection, the Secretary shall provide a priority to partnerships that include a power producer or distributor.

“(4) **AWARD.**—The amount of a grant provided to an eligible lender shall not exceed \$100,000,000 for any fiscal year.

“(5) **ELIGIBLE PROJECTS.**—A program for which a grant is provided under this subsection shall be designed to accelerate the implementation of industrial and commercial applications of technologies or processes that—

“(A) improve energy efficiency;

“(B) enhance the industrial competitiveness of the United States; and

“(C) achieve such other goals as the Secretary determines to be appropriate.

“(6) **EVALUATION.**—The Secretary shall evaluate applications for grants under this subsection on the basis of—

“(A) the description of the program to be carried out with the grant;

“(B) the commitment to provide non-Federal funds in accordance with paragraph (2)(D);

“(C) program sustainability over a 10-year period;

“(D) the capability of the applicant;

“(E) the quantity of energy savings or energy feedstock minimization;

“(F) the advancement of the goal under this Act of 25-percent energy avoidance;

“(G) the ability to fund energy efficient projects not later than 120 days after the date of the grant award; and

“(H) such other factors as the Secretary determines appropriate.

“(7) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this subsection \$500,000,000 for each of fiscal years 2010 through 2012.”.

SEC. 3. COORDINATION OF RESEARCH AND DEVELOPMENT OF ENERGY EFFICIENT TECHNOLOGIES FOR INDUSTRY.

As part of the research and development activities of the Industrial Technologies Program of the Department of Energy, the Secretary of Energy shall establish, as appropriate, collaborative research and development partnerships with other programs within the Office of Energy Efficiency and Renewable Energy, including the Building Technologies Program, the Office of Electricity Delivery and Energy Reliability, and programs of the Office of Science—

(1) to leverage the research and development expertise of those programs to promote early stage energy efficiency technology development; and

(2) to apply the knowledge and expertise of the Industrial Technologies Program to help achieve the program goals of the other programs.

SEC. 4. ENERGY EFFICIENT TECHNOLOGIES ASSESSMENT.

(a) **IN GENERAL.**—Not later than 60 days after the date of enactment of this Act, the Secretary of Energy shall commence an assessment of commercially available, cost competitive energy efficiency technologies that are not widely implemented within the United States for the energy intensive industries of—

- (1) steel;
- (2) aluminum;
- (3) forest and paper products;
- (4) food processing;
- (5) metal casting;
- (6) glass;
- (7) chemicals; and
- (8) other industries that (as determined by the Secretary)—

(A) use large quantities of energy;

(B) emit large quantities of greenhouse gas; or

(C) use a rapidly increasing quantity of energy.

(b) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall publish a report, based on the assessment conducted under subsection (a), that contains—

(1) a detailed inventory describing the cost, energy, and greenhouse gas emission savings of each technology described in subsection (a);

(2) for each technology, the total cost, energy, and greenhouse gas emissions savings if the technology is implemented throughout the industry of the United States;

(3) for each industry, an assessment of total possible cost, energy, and greenhouse gas emissions savings possible if state-of-the-art, cost-competitive, commercial energy efficiency technologies were adopted; and

(4) for each industry, a comparison to the European Union, Japan, and other appropriate countries of energy efficiency technology adoption rates, as determined by the Secretary.

SEC. 5. FUTURE OF INDUSTRY PROGRAM.

(a) **IN GENERAL.**—Section 452(c)(2) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17111(c)(2)) is amended by striking the section heading and inserting the following: “**future of industry program**”.

(b) **INDUSTRY-SPECIFIC ROAD MAPS.**—Section 452(c)(2) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17111(c)(2)) is amended—

(1) in subparagraph (E), by striking “and” at the end;

(2) by redesignating subparagraph (F) as subparagraph (G); and

(3) by inserting after subparagraph (E) the following:

“(F) research to establish (through the Industrial Technologies Program and in collaboration with energy-intensive industries) a road map process under which—

“(i) industry-specific studies are conducted to determine the intensity of energy use, greenhouse gas emissions, and waste and operating costs, by process and subprocess;

“(ii) near-, mid-, and long-term targets of opportunity are established for synergistic improvements in efficiency, sustainability, and resilience; and

“(iii) public/private actionable plans are created to achieve roadmap goals; and”.

(c) **INDUSTRIAL RESEARCH AND ASSESSMENT CENTERS.**—

(1) **IN GENERAL.**—Section 452(e) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17111(e)) is amended—

(A) by redesignating paragraphs (1) through (5) as subparagraphs (A) through (E), respectively, and indenting appropriately;

(B) by striking “The Secretary” and inserting the following:

“(1) **IN GENERAL.**—The Secretary”;

(C) in subparagraph (A) (as redesignated by subparagraph (A)), by inserting before the semicolon at the end the following: “, including assessments of sustainable manufacturing goals and the implementation of information technology advancements for supply chain analysis, logistics, industrial and manufacturing processes, and other purposes”; and

(D) by adding at the end the following:

“(2) **CENTERS OF EXCELLENCE.**—

“(A) **IN GENERAL.**—The Secretary shall establish a Center of Excellence at up to 10 of the highest performing industrial research and assessment centers, as determined by the Secretary.

“(B) **DUTIES.**—A Center of Excellence shall coordinate with and advise the industrial research and assessment centers located in the region of the Center of Excellence.

“(C) **FUNDING.**—Subject to the availability of appropriations, of the funds made available under subsection (f), the Secretary shall use to support each Center of Excellence not less than \$500,000 for fiscal year 2010 and each fiscal year thereafter, as determined by the Secretary.

“(3) **EXPANSION OF CENTERS.**—The Secretary shall provide funding to establish additional industrial research and assessment centers at institutions of higher education that do not have industrial research and assessment centers established under paragraph (1).

“(4) **COORDINATION.**—

“(A) **IN GENERAL.**—To increase the value and capabilities of the industrial research and assessment centers, the centers shall—

“(i) coordinate with Manufacturing Extension Partnership Centers of the National Institute of Science and Technology;

“(ii) coordinate with the Building Technologies Program of the Department of Energy to provide building assessment services to manufacturers;

“(iii) increase partnerships with the National Laboratories of the Department of Energy to leverage the expertise and technologies of the National Laboratories for national industrial and manufacturing needs;

“(iv) identify opportunities for reducing greenhouse gas emissions; and

“(v) promote sustainable manufacturing practices for small- and medium-sized manufacturers.

“(5) **OUTREACH.**—The Secretary shall provide funding for—

“(A) outreach activities by the industrial research and assessment centers to inform small- and medium-sized manufacturers of the information, technologies, and services available; and

“(B) a full-time equivalent employee at each center of excellence whose primary mission shall be to coordinate and leverage the efforts of the center with—

“(i) Federal and State efforts;

“(ii) the efforts of utilities; and

“(iii) the efforts of other centers in the region of the center of excellence.

“(6) **WORKFORCE TRAINING.**—

“(A) **IN GENERAL.**—The Secretary shall pay the Federal share of associated internship programs under which students work with industries and manufactures to implement the recommendations of industrial research and assessment centers.

“(B) **FEDERAL SHARE.**—The Federal share of the cost of carrying out internship programs described in subparagraph (A) shall be 50 percent.

“(C) **FUNDING.**—Subject to the availability of appropriations of appropriations, of the funds made available under subsection (f), the Secretary shall use to carry out this paragraph not less than \$5,000,000 for fiscal year 2010 and each fiscal year thereafter.

“(7) **SMALL BUSINESS LOANS.**—The Administrator of the Small Business Administration shall, to the maximum practicable, expedite consideration of applications from eligible small business concerns for loans under the Small Business Act (15 U.S.C. 631 et seq.) for loans to implement recommendations of industrial research and assessment centers established under paragraph (1).”.

(d) **FUTURE OF INDUSTRY PROGRAM.**—Section 452(f) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17111(f)) is amended—

(1) in paragraph (1)—

(A) in subparagraph (C), by striking “\$196,000,000” and inserting “\$216,000,000”;

(B) in subparagraph (D), by striking “\$202,000,000” and inserting “\$232,000,000”; and

(C) in subparagraph (E), by striking “\$208,000,000” and inserting “\$248,000,000”; and

(2) by adding at the end the following:

“(4) **INDUSTRIAL RESEARCH AND ASSESSMENT CENTERS.**—Of the amounts made available under paragraph (1), the Secretary shall use to provide funding to industrial research and assessment centers under subsection (e) not less than—

“(A) \$20,000,000 for fiscal year 2010;

“(B) \$30,000,000 for fiscal year 2011; and

“(C) \$40,000,000 for fiscal year 2012 and each fiscal year thereafter.”.

SEC. 6. SUSTAINABLE MANUFACTURING INITIATIVE.

(a) **IN GENERAL.**—Part E of title III of the Energy Policy and Conservation Act (42 U.S.C. 6341) is amended by adding at the end the following:

“**SEC. 376. SUSTAINABLE MANUFACTURING INITIATIVE.**

“(A) **IN GENERAL.**—As part of the Industrial Technologies Program of the Department of Energy, the Secretary shall carry out a sustainable manufacturing initiative under which the Secretary shall conduct onsite technical reviews and followup implementation—

“(1) to maximize the energy efficiency of systems;

“(2) to identify and reduce harmful emissions and hazardous waste;

“(3) to identify and reduce the use of water in manufacturing processes;

“(4) to identify material substitutes that are not harmful to the environment; and

“(5) to achieve such other goals as the Secretary determines to be appropriate.

“(b) **COORDINATION.**—The Secretary shall carry out the initiative in coordination with—

“(1) the Manufacturing Extension Partnership Program of the National Institute of Standards and Technology; and

“(2) the Administrator of the Environmental Protection Agency.

“(c) **RESEARCH AND DEVELOPMENT PROGRAM FOR SUSTAINABLE MANUFACTURING AND INDUSTRIAL TECHNOLOGIES AND PROCESSES.**—As part of the Industrial Technologies Program of the Department of Energy, the Secretary shall carry out a joint industry-government partnership program to conduct research and development of new sustainable manufacturing and industrial technologies and processes that maximize the energy efficiency of systems, reduce pollution, and conserve natural resources.

“(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as are necessary to carry out this section.”.

(b) **TABLE OF CONTENTS.**—The table of contents of the Energy Policy and Conservation Act (42 U.S.C. prec. 6201) is amended by adding at the end of the items relating to part E of title III the following:

“Sec. 376. Sustainable manufacturing initiative.”.

SEC. 7. INNOVATION IN INDUSTRY GRANTS.

Section 1008 of the Energy Policy Act of 2005 (42 U.S.C. 16396) is amended by adding at the end the following:

“(g) **INNOVATION IN INDUSTRY GRANTS.**—

“(1) **IN GENERAL.**—As part of the program under this section, the Secretary shall carry out a program to pay the Federal share of competitively awarding grants to State-industry partnerships in accordance with this subsection to develop, demonstrate, and commercialize new technologies or processes for industries that significantly—

“(A) reduce energy use and energy intensive feedstocks;

“(B) reduce pollution and greenhouse gas emissions;

“(C) reduce industrial waste; and

“(D) improve domestic industrial cost competitiveness.

“(2) **ADMINISTRATION.**—

“(A) **APPLICATIONS.**—A State-industry partnership seeking a grant under this subsection shall submit to the Secretary an application for a grant to carry out a project to demonstrate an innovative energy efficiency technology or process described in paragraph (1).

“(B) **COST SHARING.**—To be eligible to receive a grant under this subsection, a State-industry partnership shall agree to match, on at least a dollar-for-dollar basis, the amount of Federal funds that are provided to carry out the project.

“(C) **GRANT.**—The Secretary shall provide to a State-industry partnership selected under this subsection a 1-time grant of not more than \$500,000 to initiate the project.

“(3) **ELIGIBLE PROJECTS.**—A project for which a grant is received under this subsection shall be designed to demonstrate successful—

“(A) industrial applications of energy efficient technologies or processes that reduce

costs to industry and prevent pollution and greenhouse gas releases; or

“(B) energy efficiency improvements in material inputs, processes, or waste streams to enhance the industrial competitiveness of the United States.

“(4) EVALUATION.—The Secretary shall evaluate applications for grants under this subsection on the basis of—

“(A) the description of the concept;

“(B) cost-efficiency;

“(C) the capability of the applicant;

“(D) the quantity of energy savings;

“(E) the commercialization or marketing plan; and

“(F) such other factors as the Secretary determines to be appropriate.”.

SEC. 8. STUDY OF ADVANCED ENERGY TECHNOLOGY MANUFACTURING CAPABILITIES IN THE UNITED STATES.

(a) IN GENERAL.—The Secretary of Energy shall enter into an arrangement with the National Academy of Sciences under which the Academy shall conduct a study of the development of advanced manufacturing capabilities for various energy technologies, including—

(1) an assessment of the manufacturing supply chains of established and emerging industries;

(2) an analysis of—

(A) the manner in which supply chains have changed over the 25-year period ending on the date of enactment of this Act;

(B) current trends in supply chains; and

(C) the energy intensity of each part of the supply chain and opportunities for improvement;

(3) for each technology or manufacturing sector, an analysis of which sections of the supply chain are critical for the United States to retain or develop to be competitive in the manufacturing of the technology;

(4) an assessment of which emerging energy technologies the United States should focus on to create or enhance manufacturing capabilities; and

(5) recommendations on the leveraging the expertise of energy efficiency and renewable energy user facilities so that best materials and manufacturing practices are designed and implemented.

(b) REPORT.—Not later than 2 years after the date on which the Secretary enters into the agreement with the Academy described in subsection (a), the Academy shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Energy and Commerce of the House of Representatives, and the Secretary a report describing the results of the study required under this section, including any findings and recommendations.

SEC. 9. INDUSTRIAL TECHNOLOGIES STEERING COMMITTEE.

The Secretary of Energy shall establish an advisory steering committee to provide recommendations to the Secretary on planning and implementation of the Industrial Technologies Program of the Department of Energy.

SEC. 10. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary such sums as are necessary to carry out this Act.

By Mr. CONRAD (for himself, Ms. COLLINS, Mr. WYDEN, Mr. SCHUMER, Mr. KERRY, Ms. KLOBUCHAR, and Mrs. BOXER):

S. 662. A bill to amend title XVIII of the Social Security Act to provide for reimbursement of certified midwife

services and to provide for more equitable reimbursement rates for certified nurse-midwife services; to the Committee on Finance.

Mr. CONRAD. Mr. President, today I am introducing the Midwifery Care Access and Reimbursement Equity, M-CARE, Act of 2009 with my colleague, Senator COLLINS. For too many years, certified nurse midwives, CNMs, have not received adequate reimbursement under the Medicare program. Our legislation takes steps to improve reimbursement and ensure access to these important providers.

There are approximately three million disabled women of child-bearing age on Medicare, and since 1988, midwives have been providing high-quality, low cost maternity services to these women. However, given outdated payment policies, CNMs are only reimbursed at 65 percent of the physician fee schedule. This makes it impossible to make a practice sustainable and is threatening access to CNMs across the country.

The Medicare Payment Advisory Commission, MedPAC, agrees. In a 2002 report, MedPAC recommended that CNMs' reimbursement be increased and acknowledged that the care provided by these individuals is comparable to similar providers.

That is why we are introducing legislation that would provide payment equity for CNMs by reimbursing them at 100 percent of the physician fee schedule. CNMs provide the same care as physicians; therefore, it is only fair to reimburse CNMs at the same level. In fact, a majority of the states reimburse CNMs at 100 percent of the physician fee schedule for out-of-hospital services provided to Medicaid beneficiaries. The time has come to extend this policy to Medicare.

In addition, the M-CARE Act would establish recognition for a certified midwife to provide services under Medicare. Despite the fact that CNMs and CMs provide the same services, Medicare has yet to recognize CMs as eligible providers. Our bill would change this.

A variety of national organizations have expressed their support for this legislation in the past. I am pleased to say that the National Rural Health Association, the National Perinatal Association, the American College of Obstetricians and Gynecologists, along with several nursing organizations, have endorsed this legislation.

This bill will enhance access to “well woman” care for thousands of women in underserved communities. I urge my colleagues to support this legislation and end this inequity once and for all.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 79—HONORING THE LIFE OF PAUL M. WEYRICH AND EXPRESSING THE CONDOLENCES OF THE SENATE ON HIS PASSING

Mr. INHOFE (for himself, Mr. KYL, Mr. DEMINT, Mr. COBURN, Mr. CORNYN, Mr. MARTINEZ, Mr. RISCH, Mr. HATCH, Mr. ENZI, and Mr. BARRASSO) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 79

Whereas Paul M. Weyrich was born and raised in Racine, Wisconsin and became enamored with the political system as a student at the University of Wisconsin-Madison;

Whereas after a short stint as a news reporter, Mr. Weyrich came to Congress in 1966 to serve on the staffs of Senators Gordon L. Allott of Colorado and Carl T. Curtis of Nebraska, handling press relations and other assignments;

Whereas as the original President of the Heritage Foundation, Mr. Weyrich established a respectable and reasoned conservative voice in public policy and political debates in the United States;

Whereas as a pioneer of the modern conservative movement, Mr. Weyrich stood as a vocal defender of economic and religious freedom and established the Free Congress Research and Education Foundation to rally conservatives to the defense of traditional Judeo-Christian values;

Whereas Mr. Weyrich died on December 18, 2008;

Whereas Mr. Weyrich was a true visionary in outreach efforts, launching a television network, training grassroots activists, and influencing both politics and policy; and

Whereas Mr. Weyrich's perseverance in the promotion of his philosophy inspired thousands of people of the United States to dedicate themselves to causes that protect liberty and secure the future of the United States: Now, therefore, be it

Resolved, That the Senate—

(1) expresses gratitude to Paul M. Weyrich for his significant contributions to the conservative movement and for promoting a capitalist, democratic vision for the world;

(2) expresses profound sorrow at the death of Mr. Weyrich; and

(3) conveys its condolences to the family, friends, and colleagues of Mr. Weyrich.

SENATE RESOLUTION 80—DESIGNATING THE WEEK BEGINNING MARCH 15, 2009, AS “NATIONAL SAFE PLACE WEEK”

Mrs. FEINSTEIN (for herself and Mr. MARTINEZ) submitted the following resolution; which was considered and agreed to:

S. RES. 80

Whereas the young people of the United States will bear the bright torch of democracy in the future;

Whereas young people need a safe haven from negative influences, such as child abuse, substance abuse, and crime;

Whereas young people need resources that are readily available to assist them when they are faced with circumstances that compromise their safety;

Whereas the United States needs more community volunteers to act as positive influences on the young people of the United States;

Whereas the Safe Place program is committed to protecting the young people of the United States, the most valuable asset of the Nation, by offering short term safe places at neighborhood locations where trained volunteers are available to counsel and advise young people seeking assistance and guidance;

Whereas the Safe Place program combines the efforts of the private sector and non-profit organizations to reach young people in the early stages of crisis;

Whereas the Safe Place program provides a direct way to assist programs in meeting performance standards relating to outreach and community relations, as set forth in the Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.);

Whereas the Safe Place placard displayed at businesses within communities stands as a beacon of safety and refuge to at-risk young people;

Whereas more than 1,400 communities in 37 States make the Safe Place program available at nearly 16,000 locations;

Whereas more than 200,000 young people have gone to Safe Place locations to get help when faced with crisis situations and have received counseling by phone as a result of Safe Place information the young people received at school;

Whereas, through the efforts of Safe Place coordinators across the United States, each year more than 500,000 students learn in a classroom presentation that the Safe Place program is a resource they can turn to if they encounter abuse or neglect and 1,000,000 Safe Place information cards are distributed; and

Whereas increased awareness of the Safe Place program will encourage more communities to establish Safe Place locations for the young people of the United States: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week beginning March 15, 2009, as "National Safe Place Week"; and

(2) calls upon the people of the United States and interested groups to—

(A) promote awareness of, and volunteer for, the Safe Place program; and

(B) observe the week with appropriate ceremonies and activities.

SENATE CONCURRENT RESOLUTION 11—CONDEMNING ALL FORMS OF ANTI-SEMITISM AND REAFFIRMING THE SUPPORT OF CONGRESS FOR THE MANDATE OF THE SPECIAL ENVOY TO MONITOR AND COMBAT ANTI-SEMITISM, AND FOR OTHER PURPOSES

Ms. COLLINS (for herself, Mr. CARDIN, Ms. SNOWE, Mr. RISCH, Ms. MIKULSKI, Mr. ISAKSON, Mr. CHAMBLISS, Mr. BINGAMAN, Mr. SCHUMER, Mr. SANDERS, Mr. BAYH, Mr. BENNETT, Mr. CASEY, Ms. LANDRIEU, Mr. KYL, Mrs. GILLIBRAND, Mr. WYDEN, Mr. LIEBERMAN, Mrs. FEINSTEIN, Mr. SHELBY, Mrs. MURRAY, Mr. BARRASSO, Ms. MURKOWSKI, Mr. ROBERTS, Mr. BROWN, Mr. SPECTER, Mr. NELSON of Nebraska, Mr. MENENDEZ, Ms. CANTWELL, Mr. ALEXANDER, Mr. WICKER, Mr. THUNE, Mr.

VOINOVICH, Mr. HATCH, Mr. DORGAN, Mr. NELSON of Florida, Mr. KERRY, Mr. MCCONNELL, Mr. DURBIN, Mr. WHITEHOUSE, Mr. CORKER, and Mr. BURR) submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 11

Whereas the United States Government has consistently supported efforts to address the rise in anti-Semitism through its bilateral relationships and through engagement in international organizations such as the United Nations, the Organization for Security and Cooperation in Europe (OSCE), and the Organization of American States;

Whereas, in 2004, Congress passed the Global Anti-Semitism Review Act (Public Law 108-332), which established an Office to Monitor and Combat Anti-Semitism, headed by a Special Envoy to Monitor and Combat Anti-Semitism;

Whereas the Department of State, the Office for Democratic Institutions and Human Rights of the OSCE, and others have reported that periods of Arab-Israeli tension have sparked an increase in attacks against Jewish communities around the world and comparisons of policies of the Government of Israel to those of the Nazis and that, despite growing efforts by governments to promote Holocaust remembrance, the Holocaust is frequently invoked as part of anti-Semitic harassment to threaten and offend Jews;

Whereas, since the commencement of Israel's military operation in Gaza on December 27, 2008, a substantial increase in anti-Semitic violence, including physical and verbal attacks, arson, and vandalism against synagogues, cemeteries, and Holocaust memorial sites, has been reported;

Whereas, among many other examples of the dramatic rise of anti-Semitism around the world, over 220 anti-Semitic incidents have been reported to the Community Security Trust in London since December 27, 2008, approximately eight times the number recorded during the same period last year, and the main Jewish association in France, *Council Représentatif des Institutions Juives de France*, recorded more than 100 attacks in January, including car bombs launched at synagogues, a difference from 20 to 25 a month for the previous year;

Whereas, interspersed with expressions of legitimate criticism of Israeli policy and actions, anti-Semitic imagery and comparisons of Jews and Israel to Nazis have been widespread at demonstrations in the United States, Europe, and Latin America against Israel's actions, and placards held at many demonstrations across the globe have compared Israeli leaders to Nazis, accused Israel of carrying out a "Holocaust" against Palestinians, and equated the Jewish Star of David with the Nazi swastika;

Whereas, in some countries, demonstrations have included chants of "death to Israel," expressions of support for suicide terrorism against Israeli or Jewish civilians, and have been followed by violence and vandalism against synagogues and Jewish institutions;

Whereas some government leaders have exemplified courage and resolve against this trend, including President Nicolas Sarkozy of France, who said he "utterly condemned the unacceptable violence, under the pretext of this conflict, against individuals, private property, and religious buildings," and assured "that these acts would not go unpunished," Justice Minister of the Netherlands Ernst Hirsch Ballin, who announced on

January 14, 2009, that he would investigate allegations of anti-Semitism and incitement to hatred and violence at anti-Israel demonstrations, and parliamentarians who have voiced concern, such as the British Parliament's All-Party Group Against Anti-Semitism, which expressed its "horror as a wave of anti-Semitic incidents has affected the Jewish community";

Whereas, despite these actions, too few government leaders in Europe, the Middle East, and Latin America have taken action against the anti-Semitic environments in their countries and in some cases have even promoted violence;

Whereas other leaders have made hostile pronouncements against Israel and Jews, including the President of Venezuela, Hugo Chavez, who called Israel's actions a "Holocaust against the Palestinian people" and singled out Venezuela's Jewish community, demanding that they publicly renounce Israel's "barbaric acts" and in so doing implying that the Jewish community is co-responsible for any actions by the Government of Israel and thus a legitimate target, the leader of Hamas, Mahmoud al-Zahar, who recently called for Jewish children to be attacked around the world, and the Supreme Leader of Iran, Ayatollah Ali Khamenei, who vowed to confer the status of "martyr" on "anyone who dies in this holy struggle against World Zionism";

Whereas incitement to violence against Jews also continues in state-run media, particularly in the Middle East, where government-owned, government-sanctioned, or government-controlled publishing houses publish newspapers which promulgate anti-Jewish stereotypes and the myth of the Jewish blood libels in editorial cartoons and articles, produce and broadcast anti-Semitic dramatic and documentary series, and produce Arabic translations of anti-Semitic tracts such as "The Protocols of the Elders of Zion" and "Mein Kampf";

Whereas Jewish communities face an environment in which the convergence of anti-Semitic sentiment and demonization of Israel in the public debate have fostered a hostile environment and a sense of global insecurity, especially in places such as Belgium, Argentina, Venezuela, Spain, and South Africa;

Whereas, in response, the United States Government and other governments and multilateral institutions have supported international government and civil society efforts to monitor and report on anti-Semitic activities and introduce preventive initiatives such as tolerance education and Holocaust Remembrance; and

Whereas challenges still remain, with the governments of many countries failing to implement and fund preventive efforts, accurately track and report anti-Semitic crimes, and prosecute offenders: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) unequivocally condemns all forms of anti-Semitism and rejects attempts to rationalize anti-Jewish hatred or attacks as a justifiable expression of disaffection or frustration over political events in the Middle East or elsewhere;

(2) decries the comparison of Jews to Nazis perpetrating a Holocaust or genocide as a pernicious form of anti-Semitism, an insult to the memory of those who perished in the Holocaust, and an affront both to those who survived and the righteous gentiles who saved Jewish lives at peril to their own and who fought to defeat the Nazis;

(3) calls on leaders to speak out against manifestations of anti-Semitism that have

entered the public debate about the Middle East;

(4) applauds those foreign leaders who have condemned anti-Semitic acts and calls on those who have yet to take firm action against anti-Semitism in their countries to do so;

(5) reaffirms its support for the mandate of the Special Envoy to Monitor and Combat Anti-Semitism; and

(6) urges the Secretary of State—

(A) to maintain the fight against anti-Semitism as a foreign policy priority of the United States and to convey the concerns of the United States Government in bilateral meetings;

(B) to continue to raise with United States allies in the Middle East their failure to halt incitement to violence against Jews, including through the use of government-run media;

(C) to urge governments to promote tolerance education and establish mechanisms to monitor, investigate, and punish anti-Semitic crimes, including through utilization of the education, law enforcement training, and civil society capacity building initiatives of the Tolerance and Non-discrimination Department of the Organization for Security and Cooperation in Europe (OSCE);

(D) to swiftly appoint the Special Envoy to Monitor and Combat Anti-Semitism of the Department of State;

(E) to ensure that Department of State Annual Country Reports on Human Rights and International Religious Freedom Reports continue to report on incidents of anti-Semitism and the efforts of foreign governments to address the problem;

(F) to provide necessary training and tools for United States embassies and missions to recognize these trends; and

(G) to ensure that initiatives of the United States Government to train law enforcement abroad incorporate tools to address anti-Semitism.

Ms. COLLINS. Mr. President, I rise today to introduce a bipartisan resolution condemning the recent, troubling rise in anti-Semitism across the globe. The resolution also calls upon world leaders to speak out against anti-Semitic acts and reaffirms that the United States is committed to making the fight against anti-Semitism a top foreign policy priority.

I am very pleased that Senator CARDIN and 40 other Senate colleagues have joined me in saying to the world that we stand tall with the Jewish community against these acts of violence and crimes of hate.

In recent months, there has been a substantial rise in anti-Semitic violence around the globe. We are deeply concerned about the safety and well-being of Jews in Europe, the Middle East, and Latin America, where they have faced a significant increase in anti-Semitic attacks, often very violent. These criminal acts include physical and verbal attacks, arson, and vandalism against synagogues, cemeteries, and Holocaust memorials. In some nations, demonstrations have included chants of “death to Israel” and expressions of support for suicide terrorism against Israeli or Jewish civilians.

Also distressing are the blatantly anti-Semitic Nazi imagery and Holo-

caust comparisons. Our resolution rejects attempts to rationalize Jewish hatred or attacks as justifiable expression of disaffection or frustration over Israeli policy and political events in the Middle East or elsewhere. The Nazi imagery and Holocaust comparisons have been prevalent at demonstrations throughout the world. Placards held at many demonstrations have compared Israeli leaders to Nazis, accused Israel of carrying out a “Holocaust” against the Palestinians, and equated the Jewish Star of David to the Nazi swastika. This is intolerable. We must speak out against these unacceptable acts of hatred and bigotry.

While we applaud those world leaders who have shown courage by condemning these acts, we call on those who have yet to do so to expressly reject anti-Semitism in their own countries. We must continue to impress upon our allies the critical importance of opposing these disturbing trends, all the while ensuring that our own initiatives to address these forms of hate violence are bolstered.

I urge our colleagues to join our effort to raise awareness of this important issue.

Mr. CARDIN. Mr. President, I am deeply troubled by the rise in anti-Semitic acts around the globe, which is why I am joining the junior Senator from Maine in introducing a bipartisan resolution that condemns anti-Semitism and calls upon world leaders to speak out against it. The concurrent resolution reaffirms that the U.S. is committed to making the fight against anti-Semitism a top foreign policy priority.

Senator COLLINS, the other co-sponsors of this resolution, and I are extremely concerned about the safety and well-being of Jewish communities worldwide. In recent weeks and months, Jewish communities around the world have been subjected to vicious anti-Semitic attacks. These attacks include acts of violence and hatred against members of the Jewish community. The criminal acts include physical attacks, arson, and vandalism against synagogues, cemeteries, and Holocaust memorials.

In some nations, demonstrations have included chants of “death to Israel” and expressions of support for suicide terrorism against Israeli or Jewish civilians. Placards held at many demonstrations have compared Israeli leaders to Nazis, accused Israel of carrying out a “Holocaust” against Palestinians, and equated the Jewish Star of David to the Nazi swastika. Anti-Semitism is not a legitimate form of policy or public protest. We cannot, in good conscience, allow these acts of hatred to continue without swift and strong action from world leaders. We must speak out against these atrocities.

We applaud those world leaders who have spoken out against these acts, but

call on those who have yet to do so to take firm action against anti-Semitism in their own countries. We must continue to impress upon our allies and other nations the critical importance of combating anti-Semitism. At the same time, the United States must bolster its own initiatives to address anti-Semitism as a foreign policy priority. The resolution we are introducing today helps to do that so I urge all of my colleagues to support it.

AMENDMENTS SUBMITTED AND PROPOSED

SA 686. Mr. BINGAMAN proposed an amendment to the bill H.R. 146, to establish a battlefield acquisition grant program for the acquisition and protection of nationally significant battlefields and associated sites of the Revolutionary War and the War of 1812, and for other purposes.

TEXT OF AMENDMENTS

SA 686. Mr. BINGAMAN proposed an amendment to the bill H.R. 146, to establish a battlefield acquisition grant program for the acquisition and protection of nationally significant battlefields and associated sites of the Revolutionary War and the War of 1812, and for other purposes; as follows:

Amend the title so as to read: “To designate certain land as components of the National Wilderness Preservation System, to authorize certain programs and activities in the Department of the Interior and the Department of Agriculture, and for other purposes.”.

NOTICE OF HEARING

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Senate Committee on Energy and Natural Resources. The hearing will be held on Thursday, March 26, 2009, at 9:30 a.m., in room SD-366 of the Dirksen Senate Office Building.

The Committee will conduct a legislative hearing on legislation to strengthen American manufacturing through improved industrial energy efficiency.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, U.S. Senate, Washington, DC 20510-6150, or by email to rachel_pasternack@energy.senate.gov.

For further information, please contact Alicia Jackson at (202) 224-3607 or Rachel Pasternack at (202) 224-0883.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on Thursday, March 19, 2009, at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on March 19, 2009 at 10:30 a.m. to conduct a hearing entitled "Modernizing Bank Supervision and Regulation."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Thursday, March 19, 2009, at 10:45 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate to conduct a hearing on Thursday, March 19, 2009, at 9:30 a.m., in room SD-366 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Thursday, March 19, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Senate Committee on the Judiciary be authorized to meet during the session of the Senate to conduct an executive business meeting on Thursday, March 19, 2009, at 10 a.m. in room SD-226 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON SMALL BUSINESS AND ENTREPRENEURSHIP

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Committee on Small Business and Entrepreneurship be authorized to meet during the session of the Senate on Thursday, March 19, 2009, at 10 a.m. to conduct a hearing entitled, "Perspectives

From Main Street on Small Business Lending".

The PRESIDING OFFICER. Without objection, it is so ordered.

FINANCIAL INSTITUTIONS SUBCOMMITTEE

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on March 19, 2009 at 2 p.m. to conduct a financial institutions subcommittee hearing entitled "Current Issues in Deposit Insurance."

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on March 19, 2009 at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Mr. President, what happens in Las Vegas stays in Las Vegas.

NATIONAL SERVICE REAUTHORIZATION ACT—MOTION TO PROCEED

Mr. REID. Mr. President, I ask unanimous consent that it be in order to proceed to Calendar No. 35, H.R. 1388, the National Service Reauthorization Act.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOTURE MOTION

Mr. REID. Mr. President, I now move to proceed to Calendar No. 35, H.R. 1388, and I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to proceed to Calendar No. 35, H.R. 1388, a bill to reauthorize and reform the national service laws.

Harry Reid, Barbara A. Mikulski, Barbara Boxer, Tom Harkin, Daniel K. Akaka, Tom Udall, Patty Murray, Patrick J. Leahy, Bernard Sanders, Sheldon Whitehouse, Christopher J. Dodd, Jon Tester, Mark R. Warner, Robert P. Casey, Jr., Benjamin L. Cardin, Blanche L. Lincoln, Kent Conrad.

Mr. REID. Mr. President, I ask unanimous consent that the cloture vote occur on Monday, March 23 at 6 p.m.; and that if cloture is invoked, then postcloture time count as if cloture had been invoked at 3 p.m. that day; further, that the mandatory quorum be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar Nos. 25, 26, and nominations on the Secretary's desk; that the nominations be confirmed, en bloc; the motions to reconsider be laid upon the table, en bloc; that no further motions be in order; that any statements related to the nominations be printed in the RECORD; that the President be immediately notified of the Senate's action, and the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

EXECUTIVE OFFICE OF THE PRESIDENT

John P. Holdren, of Massachusetts, to be Director of the Office of Science and Technology Policy.

DEPARTMENT OF COMMERCE

Jane Lubchenco, of Oregon, to be Under Secretary of Commerce for Oceans and Atmosphere.

IN THE COAST GUARD

PN116 COAST GUARD nominations (2) beginning KENT P. BAUER, and ending MARK S. MACKEY, which nominations were received by the Senate and appeared in the Congressional Record of February 25, 2009.

PN117 COAST GUARD nominations (2) beginning CORINNA M. FLEISCHMANN, and ending KELLY C. SEALS, which nominations were received by the Senate and appeared in the Congressional Record of February 25, 2009.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

MEASURES READ THE FIRST TIME—H.R. 1586 AND S. 651

Mr. REID. Mr. President, it is my understanding there are two bills at the desk due for a first reading. I therefore ask for their reading en bloc.

The PRESIDING OFFICER. The clerk will report the bills by title for the first time en bloc.

The bill clerk read as follows:

A bill (H.R. 1586) to impose an additional tax on bonuses received from certain TARP recipients.

A bill (S. 651) to amend the Internal Revenue Code of 1986 to impose an excise tax on excessive bonuses paid by, and received from, companies receiving Federal emergency economic assistance, to limit the amount of nonqualified deferred compensation that employees of such companies may defer from taxation, and for other purposes.

Mr. REID. Mr. President, I ask for a second reading en bloc but object to my own request en bloc.

The PRESIDING OFFICER. Objection having been heard, the bills will

receive their second reading on the next legislative day.

NATIONAL SAFE PLACE WEEK

Mr. REID. I ask unanimous consent that we now proceed to S. Res. 80.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 80) designating the week beginning March 15, 2009, as "National Safe Place Week."

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statement be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 80) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 80

Whereas the young people of the United States will bear the bright torch of democracy in the future;

Whereas young people need a safe haven from negative influences, such as child abuse, substance abuse, and crime;

Whereas young people need resources that are readily available to assist them when they are faced with circumstances that compromise their safety;

Whereas the United States needs more community volunteers to act as positive influences on the young people of the United States;

Whereas the Safe Place program is committed to protecting the young people of the United States, the most valuable asset of the Nation, by offering short term safe places at neighborhood locations where trained volunteers are available to counsel and advise young people seeking assistance and guidance;

Whereas the Safe Place program combines the efforts of the private sector and non-profit organizations to reach young people in the early stages of crisis;

Whereas the Safe Place program provides a direct way to assist programs in meeting performance standards relating to outreach and community relations, as set forth in the Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.);

Whereas the Safe Place placard displayed at businesses within communities stands as a beacon of safety and refuge to at-risk young people;

Whereas more than 1,400 communities in 37 States make the Safe Place program available at nearly 16,000 locations;

Whereas more than 200,000 young people have gone to Safe Place locations to get help when faced with crisis situations and have received counseling by phone as a result of Safe Place information the young people received at school;

Whereas, through the efforts of Safe Place coordinators across the United States, each year more than 500,000 students learn in a classroom presentation that the Safe Place

program is a resource they can turn to if they encounter abuse or neglect and 1,000,000 Safe Place information cards are distributed; and

Whereas increased awareness of the Safe Place program will encourage more communities to establish Safe Place locations for the young people of the United States: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week beginning March 15, 2009, as "National Safe Place Week"; and
(2) calls upon the people of the United States and interested groups to—

(A) promote awareness of, and volunteer for, the Safe Place program; and

(B) observe the week with appropriate ceremonies and activities.

APPOINTMENTS

The PRESIDING OFFICER. The Chair, on behalf of the majority leader, pursuant to Section 154 of Public Law 108-199, appoints the following Senator as Chairman of the Senate Delegation to the U.S.-Russia Interparliamentary Group conference during the 111th Congress: the Honorable E. BENJAMIN NELSON of Nebraska.

The Chair, on behalf of the republican leader, pursuant to Section 154 of Public Law 108-199, appoints the following Senator as Vice Chairman of the Senate Delegation to the U.S.-Russia Interparliamentary Group conference during the 111th Congress: the Honorable JUDD GREGG of New Hampshire.

The Chair, on behalf of the republican leader, pursuant to Public Law 96-114, as amended, appoints the following individual to the Congressional Award Board: Dr. Wiley Dobbs of Idaho.

The Chair, on behalf of the republican leader, pursuant to Public Law 111-5, appoints the following individual to the Health Information Technology Policy Committee: Richard Chapman of Kentucky.

ORDERS FOR MONDAY, MARCH 23, 2009

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 2 p.m. Monday, March 23; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, the Senate proceed to a period of morning business until 3 p.m., with Senators permitted to speak for up to 10 minutes each during that time; upon the conclusion of morning business, the Senate resume consideration of the motion to proceed to H.R. 1388, a bill to reauthorize and reform national service laws.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. REID. Mr. President, as provided under the previous order, there will be a vote at 6 p.m. on Monday. That will be on the motion to invoke cloture on the motion to proceed to H.R. 1388.

ORDER FOR ADJOURNMENT

Mr. REID. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order following remarks of Senator CHAMBLISS and Senator SESSIONS, in that order.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Georgia is recognized.

THE BUDGET

Mr. CHAMBLISS. Mr. President, I rise today to talk about the budget as proposed by President Obama and, to put it very bluntly, I am worried. While several aspects of the budget concern me, the one I find most troubling is the direction in which it will take this Nation's deficit. The budget's cost has been pointed out many times on this floor during the past week—\$3.5 trillion is, indeed, a lot of money. But what I would also emphasize is that the President's budget will spawn a deficit of \$1.17 trillion next year.

There are many items on the President's wish list. Some are worthwhile, but many, such as his health care plan, tax increases, and climate change, deserve a long and lively debate in front of the American people before we have any vote on any of those measures. I have four grandchildren—John, Parker, Kimbro, and Anderson—and I am very proud of all four of them. This budget will spend more money than my four grandchildren's generation will ever have a hope of paying back in their lifetimes.

This is not a temporary spike in the deficit. Despite the President's stated intention to reduce the deficit, the smallest deficit envisioned by this budget—\$533 billion in the year 2013—would still be larger than any of the annual budget deficits of the last 8 years. The last 8 years have received a lot of criticism from folks on the other side of the aisle, including our President, but the fact is that the last 8 years are going to pale in comparison, from a deficit standpoint, in the event this budget should pass.

Further, the debt held by the public doubles, from \$5.8 trillion, 41 percent of our GDP, in 2008, to \$11.5 trillion, or 66 percent of GDP, in 2013. If that were not astounding enough, by 2019 debt will have tripled from the 2008 to \$15.4 trillion, or an astonishing 67 percent of our GDP.

Unfortunately, that is not the worst of it. The CBO is expected to release its

numbers for this budget tomorrow. Early reports suggest that its deficit forecast will be some 20 percent higher than the White House has expected with the numbers to which I just alluded.

I am also worried about this budget's \$1.4 trillion tax increase, which will hit our small businesses, the engines of our economy, particularly hard. More than half of small business, with 20 or more employees, will get hit with tax hikes proposed in this budget. That will have a dampening effect on the ability of the small business community to maintain the jobs it has today, much less to think about hiring additional employees.

In my home State of Georgia, fully 98 percent of the State's employers in 2006 were small businesses, according to the U.S. Small Business Administration Office of Advocacy. With a record statewide unemployment rate of 9 percent today, to say that many of them are having a hard time is an understatement. These are small businesses, such as Dixie Industrial Finishing Company in Tucker, GA, which does electroplating. Dixie's vice president, Jim Jones, is also worried. His company has been in business for nearly 50 years and has about 10 employees. Just in the past 2 weeks, because of the very difficult economic times we are in, Jim has had to lay off almost 10 percent of his workforce. Some of these employees have been with the company for 20 to 25 years and were getting close to retirement. I am afraid that, coming during a recession, such tax increases will only add to the financial strain at Dixie as well as other small businesses and further feed the growing job losses in Georgia and elsewhere.

I am a firm believer in the optimism that birthed this great Nation. But no matter how hard we try, we cannot wish the deficit away. We cannot let ourselves throw caution to the wind and act with such fiscal irresponsibility. We are leaving our children and grandchildren in hock forever to pay for the wants of today. Now, not in 5 years or 10 years, is the time for us to exercise responsibility and enact some spending restraint to get this deficit under control. Nothing less than our country's future depends on it.

The American people understand our fiscal problem. The phone calls into my office are overwhelmingly asking the question: Where in the world is this administration taking our country? What is happening to our country from a fiscally responsible standpoint? In what direction is this country really going?

We have to be much more fiscally responsible than the President has proposed in his budget. Very simply stated, his budget spends too much, it taxes too much, and it borrows too much. That is the wrong direction in which this country needs to be going in difficult times or in good times.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alabama.

AIG

Mr. SESSIONS. I thank Senator CHAMBLISS from Georgia for his very fine summary. I think one of the more dramatic situations in which this Congress has found itself, in the face of a projected positive turnaround in the economy, a predicted unprecedented debt for years and years to come.

This cannot go quietly. It is a big deal. We have never seen anything like this before. I hope our Senate colleagues will focus on it. I wanted to first return again to the AIG bonus issue and expand a little bit on the remarks I made earlier in the week.

The simple fact is, we are investing a very large amount of not only money but time, energy, and bombast in how to deal with the one one-thousandth of the AIG bailout money that has gone to bonuses. I think they are utterly unacceptable. They are going to the very division of AIG that got them into trouble. They were the last people who ought to get bonuses.

Now, normally politicians who have a nation to run, Cabinet Secretaries who have an economy to manage, should not be spending a whole lot of time on a private company's bonus plan. But it has become necessary, unavoidable really, because our Government owns 80 percent of this company. We own 80 percent of the stock in AIG after investing \$173 billion to buy that stock. So no wonder people are furious.

If you are running a company, Secretary Geithner, how come we are having bonuses given to people who ought not to be receiving bonuses?

Well, it is a difficult thing with the CEO. Why didn't he do something about it? The CEO, Chairman Liddy of AIG, was put in place by us—first, by Secretary Paulson back when he first started this misguided attempt last fall to take over this company, and he has been kept in place by Secretary Geithner, our new Secretary of the Treasury.

I would also note that Secretary Geithner was walking hand in hand with Secretary Paulson last fall when they conjured up this scheme that sought to alter the financial problems on Wall Street. In reality, Secretary Geithner is the ultimate chairman of the board of AIG. He ultimately is responsible for bonuses, pay scales, office space, whether or not they have airplanes, and all of that stuff. So, oh, what a tangled web we create when we first start to regulate, to take over a private company.

Mr. Geithner needs to get AIG and these banks—in addition to AIG—we have invested in, of which we now own large stock shares, off his portfolio, his list of things to be dealing with. He

needs to be focused on the policies necessary to revive this economy.

Did anybody see Coach K from Duke? He was asked about the President saying they were going to make it to the Final Four. And Coach K did not miss a beat. He just looked up and said: Well, that is nice. But I would really feel better if he were focusing on the economy.

So would I. Distracted by these noteworthy and transient issues over bonuses, Mr. Geithner, who stands at the center of our people's concern over the economy, has not even begun assembling his staff. It is really troubling. I understand there are about 17 vacancies in his top staff. People are basically saying he is running the office himself with very little help.

But he did find time to call Mr. Liddy, the hand-picked CEO at AIG, to demand that he not give bonus payments. He found time to go over to Europe to present—a mortifying spectacle to me, of the once-proud U.S. Secretary of Treasury now urging the big-spending, quasi-socialist Government of Europe to increase their spending, to increase their stimulus package, to increase their debt, and assuring them we are going to do more and we are leading, big government, big taxes, big spending, big debt.

That does not make me proud. Some people may think that is leadership. I am not in that range. That is not my mindset today. Basically, it appeared the Europeans said no. They already thought they had spent enough. They are well below what we are spending as a percentage of their gross domestic product. They are not spending any more.

I remember when I first came here as a young Senator. It came my time to question the Chairman of the Federal Reserve, Mr. Alan Greenspan. I was nervous about it. I am not an economist. So I read to him from an article. I asked him if he agreed with it. It basically said the reason our economy was growing more than Europe, the reason we had quite substantially less unemployment was because we had less taxes, less spending, and less regulation.

So I asked him: Is it less taxes, less spending, and a greater commitment to the free market the reason we are doing better than Europe?

He looked up at me and he said: I absolutely agree with that.

So I have taken that as sort of my marching orders. I still think that is a sound philosophy: to keep our regulations low, keep our taxes low, keep our spending as low as possible. Do not waste money, and we will get through a lot of these difficult issues.

I would also note that I assume that Secretary Geithner at least had some role in this phenomenal, gargantuan proposal the President has just sent over here to us that proposes—get

this—budget deficits higher than any—trillion we have ever seen before.

Last year, President Bush, his budget deficit was a record \$455 billion, and he was criticized for that. He was criticized for a \$412 billion budget deficit back on 9/11, the time when that recession hit us. He reduced it to \$161 billion in 2007, and it jumped to \$455 billion last year.

This year, with the stimulus package and other things we are doing, the projected deficit—as of September 30—will be \$1.8 trillion. Next year, it will be \$1.1 trillion. It is projected to reach its lowest point in 4 years, according to the President's own plan. The lowest point is at \$533 billion, well above the highest amount in the history of the Republic.

In year 10, it would be over \$700 billion. As Senator CHAMBLISS just noted to us, those figures are not accurate. Our own Congressional Budget Office is going to calculate the assumptions given to us by the White House, and everybody is pretty firmly convinced the numbers are going to come in higher and worse than that.

It cannot be so that we will pass a budget that assumes a \$700 billion deficit 10 years from now, when they are also assuming a nice growth, not a recession or anything, but a nice growth at that time. Well, that is a general situation. It is not good. I just cannot believe this Congress would pass such a budget. I believe we will have to push back.

I know a lot of my colleagues on the other side of the aisle are uneasy about it. The more they learn about it, I am confident the more uneasy they are going to be. It is just fact. I mean, you can talk and testify and you can spend, but when you send out a budget in a slick binder, with a blue cover on it, and it is the official projection for the next 10 years from the President of the United States, when they project these kind of numbers, I think the Congress and the American people will rally and do something about it and not accept it.

I just wanted to say that. Now, with regard to AIG, this is a matter of great importance. In addition to teaching us a lesson about the danger of taking over private companies in general, there are some specific special problems with this bailout that I believe are worthy of discussion, and in some points, real investigation.

It was highlighted by the Wall Street Journal in their lead editorial 2 days ago. They pointed out that the bonus flap we have been talking about is a deflection from—a neat deflection—they say, from the “larger outrage, which is the 5-month Beltway cover-up of who benefitted the most from the AIG bailout.”

First, they note that the Federal takeover of this once proud insurance company, AIG, was never approved by the AIG shareholders.

Normally a company that merges or sells or changes its corporate makeup goes through some sort of vote by stockholders. They have proxy votes, solicitations. They attempt to get approval of the stockholders. We just took it over.

The Wall Street Journal notes that, in effect, AIG was used as a conduit, a funnel to bail out others not mentioned. Since September 16, 2008, AIG has sent \$120 billion of their \$173 billion of taxpayer money to banks, municipal governments, and “other derivative counterparties” around the world, not only in the United States.

The Journal goes on to say that this includes at least \$20 billion to European banks and, they wryly note, “charity cases like Goldman Sachs which received at least \$13 billion.”

They further note:

This comes after months of claims by Goldman that all of its AIG bets were adequately hedged and that it needed no “bail-out.” Why take the 13 billion then?

Then the Wall Street Journal, not one to needlessly dump unfairly on the Wall Street business crowd they often speak up for when they believe they are abused, declares importantly:

This needless cover-up is one reason Americans are getting angrier as they wonder if Washington is lying to them about these bailouts.

Then they ask the most critical question. Remember, Congress was told last fall that we had to bail out the banks because they were too large to fail and that their failure would pose a systemic risk to our economy. They said they were going to buy toxic assets. They never said they were going to buy stock. They never hinted they would buy stock in an insurance company.

This is what the Wall Street Journal said about the systemic risk question:

Given the government has never defined “systemic risk,” we’re also starting to wonder exactly which system American taxpayers are paying to protect. It’s not capitalism, in which risk-takers suffer the consequences of bad decisions and in some cases it’s not even Americans. The U.S. government is now in the business of distributing foreign aid to offshore financiers, laundered through a once-great American company.

That is fundamentally true. It is not good. I don’t think we ever should have started down that road.

The Wall Street Journal concludes:

Whether or not these funds ever come back to the Treasury, regulators should now focus on getting AIG back into private hands as soon as possible, and if Treasury and the Fed want to continue bailing out foreign banks, let them make that case honestly and directly, to the American people.

I thank the Wall Street Journal for writing the truth on this complex issue. I don’t like the way it was done. These decisions to hand out billions of dollars were not made in public. Until a few days ago, we didn’t even know who got this money. These banks, these foreign banks, Goldman Sachs,

the ones that have been listed as getting money, we didn’t know their names. Our Secretaries of the Treasury, the two of them, have been passing out this money to these banks through AIG and not even saying where the money went. That is no good. And how do they decide how much to give them? Was there a hearing somewhere where people came, such as in the Senate—poor as we are at it—raised their hands under oath or, much preferred, was there something like a bankruptcy proceeding where a Federal judge calls all the people in, collects the data, figures out what the income is and the debts are, and makes people testify under oath and lawyers cross-examine them and they get down to what the real facts are and then decisions are made about how to handle a company like this?

No, apparently they went in and got down on Mr. Geithner’s rug and Mr. Paulson’s carpet and asked for \$20 billion. And he said: How about 10?

No, I need more.

OK, you get 13.

Of course, they knew one another. That is just a fact. I am not making it up. Where did Secretary Paulson come from? He came from Goldman Sachs. I wonder what it would have looked like if he had given Goldman Sachs \$13 billion publicly.

I am not happy about it. I don’t think the previous administration handled it well. I am disappointed that this administration has taken Mr. Paulson’s right-hand adviser—some say the architect of his plan—and put him in charge of it. He is continuing this indefensible process. I opposed it at the time. I said we are giving too much power to one man. In the history of the Republic, we have never given this kind of power to one man to pass out this kind of money. This is the Senate. It is taxpayers’ money. We threw him \$700 billion and said: Do whatever you think is right. He told us he was going to buy toxic mortgages. Remember that? Within a week, he decided he wasn’t going to buy toxic mortgages. He bought stock; not only in banks, he bought stock in insurance companies. It is a dangerous thing. When you get into owning these companies, people start wanting to know about what kind of bonuses they have, what kind of car the CEO drives, whether they should have a jet plane. The Secretary of the Treasury ought to be involved in other things besides managing corporate affairs. He needs to get us out of these companies as soon as possible.

I talked to some people from a very solid Main Street bank, big Main Street bank, who were pressured to take money at the time they came up with this scheme. They want to pay the money back and get out from under the Federal boot. They are not agreeing yet to do that. I am not happy about that.

I understand another bank may be the same. Others are worried about whether they will be allowed to pay this money back and get out. This bank told us, the people I was talking to: We are ready to get out. We think we will do better. Our stock will go up, if the people know we are not indebted to the government. We are strong enough. We are not happy about this.

They are getting the impression and the fear they have—along with other banks in a similar situation—is that there is a resistance from the Treasury Department to have them do that, which would be unthinkable to me.

I hope we will find out more about it. If there is wrongdoing of a more serious nature than incompetence and bad judgment, I hope it will be pursued. Hopefully not; I hope there is no more than bad judgment. I hope as Americans we learn a lesson that it is not easy and there are all kinds of unanticipated ramifications from the act of taking over private companies.

Mr. Chairman, I ask unanimous consent to have printed in the RECORD the text of this Wall Street Journal editorial, as well as the list of companies benefitting from AIG's bailout.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, Mar. 17, 2009]

THE REAL AIG OUTRAGE

President Obama joined yesterday in the clamor of outrage at AIG for paying some \$165 million in contractually obligated employee bonuses. He and the rest of the political class thus neatly deflected attention from the larger outrage, which is the five-month Beltway cover-up over who benefited most from the AIG bailout.

Taxpayers have already put up \$173 billion, or more than a thousand times the amount of those bonuses, to fund the government's AIG "rescue." This federal takeover, never approved by AIG shareholders, uses the firm as a conduit to bail out other institutions. After months of government stonewalling, on Sunday night AIG officially acknowledged where most of the taxpayer funds have been going.

Since September 16, AIG has sent \$120 billion in cash, collateral and other payouts to banks, municipal governments and other derivative counterparties around the world. This includes at least \$20 billion to European banks. The list also includes American charity cases like Goldman Sachs, which received at least \$13 billion. This comes after months of claims by Goldman that all of its AIG bets were adequately hedged and that it needed no "bailout." Why take \$13 billion then? This needless cover-up is one reason Americans are getting angrier as they wonder if Washington is lying to them about these bailouts.

Given that the government has never defined "systemic risk," we're also starting to wonder exactly which system American taxpayers are paying to protect. It's not capitalism, in which risk-takers suffer the consequences of bad decisions. And in some cases it's not even American. The U.S. government is now in the business of distributing foreign aid to offshore financiers, laundered through a once-great American company.

The politicians also prefer to talk about AIG's latest bonus payments because they deflect attention from Washington's failure to supervise AIG. The Beltway crowd has been selling the story that AIG failed because it operated in a shadowy unregulated world and cleverly exploited gaps among Washington overseers. Said President Obama yesterday, "This is a corporation that finds itself in financial distress due to recklessness and greed." That's true, but Washington doesn't want you to know that various arms of government approved, enabled and encouraged AIG's disastrous bet on the U.S. housing market.

Scott Polakoff, acting director of the Office of Thrift Supervision, told the Senate Banking Committee this month that, contrary to media myth, AIG's infamous Financial Products unit did not slip through the regulatory cracks. Mr. Polakoff said that the whole of AIG, including this unit, was regulated by his agency and by a "college" of global bureaucrats.

But what about that supposedly rogue AIG operation in London? Wasn't that outside the reach of federal regulators? Mr. Polakoff called it "a false statement" to say that his agency couldn't regulate the London office.

And his agency wasn't the only federal regulator. AIG's Financial Products unit has been overseen for years by an SEC-approved monitor. And AIG didn't just make disastrous bets on housing using those infamous credit default swaps. AIG made the same stupid bets on housing using money in its securities lending program, which was heavily regulated at the state level. State, foreign and various U.S. federal regulators were all looking over AIG's shoulder and approving the bad housing bets. Americans always pay their mortgages, right? Mr. Polakoff said his agency "should have taken an entirely different approach" in regulating the contracts written by AIG's Financial Products unit.

That's for sure, especially after March of 2005. The housing trouble began—as most of AIG's troubles did—when the company's board buckled under pressure from then New York Attorney General Eliot Spitzer when it fired longtime CEO Hank Greenberg. Almost immediately, Fitch took away the company's triple-A credit rating, which allowed it to borrow at cheaper rates. AIG subsequently announced an earnings restatement. The restatement addressed alleged accounting sins that Mr. Spitzer trumpeted initially but later dropped from his civil complaint.

Other elements of the restatement were later reversed by AIG itself. But the damage had been done. The restatement triggered more credit ratings downgrades. Mr. Greenberg's successors seemed to understand that the game had changed, warning in a 2005 SEC filing that a lower credit rating meant the firm would likely have to post more collateral to trading counterparties. But rather than managing risks even more carefully, they went in the opposite direction. Tragically, they did what Mr. Greenberg's AIG never did—bet big on housing.

Current AIG CEO Ed Liddy was picked by the government in 2008 and didn't create the mess, and he shouldn't be blamed for honoring the firm's lawful bonus contracts. However, it is on Mr. Liddy's watch that AIG has lately been conducting a campaign to stoke fears of "systemic risk." To mute Congressional objections to taxpayer cash infusions, AIG's lobbying materials suggest that taxpayers need to continue subsidizing the insurance giant to avoid economic ruin.

Among the more dubious claims is that AIG policyholders won't be able to purchase

the coverage they need. The sweeteners AIG has been offering to retain customers tell a different story. Moreover, getting back to those infamous bonuses, AIG can argue that it needs to pay top dollar to survive in an ultra-competitive business, or it can argue that it offers services not otherwise available in the market, but not both.

The Washington crowd wants to focus on bonuses because it aims public anger on private actors, not the political class. But our politicians and regulators should direct some of their anger back on themselves—for kicking off AIG's demise by ousting Mr. Greenberg, for failing to supervise its bets, and then for blowing a mountain of taxpayer cash on their AIG nationalization.

Whether or not these funds ever come back to the Treasury, regulators should now focus on getting AIG back into private hands as soon as possible. And if Treasury and the Fed want to continue bailing out foreign banks, let them make that case, honestly and directly, to American taxpayers.

Mr. SESSIONS. I yield the floor.

ADJOURNMENT UNTIL MONDAY,
MARCH 23, 2009, AT 2 P.M.

The PRESIDING OFFICER. The Senate stands adjourned until 2 p.m., Monday, March 23, 2009.

Thereupon, the Senate, at 6:49 p.m., adjourned until Monday, March 23, 2009, at 2 p.m.

NOMINATIONS

Executive nominations received by the Senate:

DEPARTMENT OF AGRICULTURE

KATHLEEN A. MERRIGAN, OF MASSACHUSETTS, TO BE DEPUTY SECRETARY OF AGRICULTURE, VICE CHARLES F. CONNER, RESIGNED.

DEPARTMENT OF COMMERCE

APRIL S. BOYD, OF THE DISTRICT OF COLUMBIA, TO BE AN ASSISTANT SECRETARY OF COMMERCE, VICE NATHANIEL F. WIENECKE, RESIGNED.

ENVIRONMENTAL PROTECTION AGENCY

MICHELLE DEPASS, OF NEW YORK, TO BE AN ASSISTANT ADMINISTRATOR OF THE ENVIRONMENTAL PROTECTION AGENCY, VICE JUDITH ELIZABETH AYRES, RESIGNED.

DEPARTMENT OF EDUCATION

PETER CUNNINGHAM, OF ILLINOIS, TO BE ASSISTANT SECRETARY FOR COMMUNICATIONS AND OUTREACH, DEPARTMENT OF EDUCATION, VICE LAUREN M. MADDOX.

DEPARTMENT OF LABOR

BRIAN VINCENT KENNEDY, OF VIRGINIA, TO BE AN ASSISTANT SECRETARY OF LABOR, VICE KRISTINE ANN IVERSON, RESIGNED.

IN THE ARMY

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT IN THE UNITED STATES ARMY TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTIONS 624 AND 3064:

To be major general

BRIG. GEN. JAMES K. GILMAN
BRIG. GEN. PHILIP VOLPE

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT IN THE UNITED STATES ARMY TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTIONS 624 AND 3064:

To be brigadier general

COL. WILLIAM B. GAMBLE
COL. RICHARD W. THOMAS

CONFIRMATIONS

Executive nominations confirmed by the Senate, Thursday, March 19, 2009:

EXECUTIVE OFFICE OF THE PRESIDENT

JOHN P. HOLDREN, OF MASSACHUSETTS, TO BE DIRECTOR OF THE OFFICE OF SCIENCE AND TECHNOLOGY POLICY.

DEPARTMENT OF COMMERCE

JANE LUBCHENCO, OF OREGON, TO BE UNDER SECRETARY OF COMMERCE FOR OCEANS AND ATMOSPHERE.

THE ABOVE NOMINATIONS WERE APPROVED SUBJECT TO THE NOMINEES' COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

DEPARTMENT OF JUSTICE

ELENA KAGAN, OF MASSACHUSETTS, TO BE SOLICITOR GENERAL OF THE UNITED STATES.

IN THE COAST GUARD

COAST GUARD NOMINATIONS BEGINNING WITH KENT P. BAUER AND ENDING WITH MARK S. MACKEY, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON FEBRUARY 25, 2009.

COAST GUARD NOMINATIONS BEGINNING WITH CORINNA M. FLEISCHMANN AND ENDING WITH KELLY C. SEALS, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON FEBRUARY 25, 2009.

HOUSE OF REPRESENTATIVES—Thursday, March 19, 2009

The House met at 10 a.m.

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God, Father of us all, Your providential care for our Nation and Your well-timed blessings during singular events of our individual lives, have revealed Your constant and personal love.

Even before we were born, You prepared the way for us with well-chosen people who knew our need. To this very day a single voice can speak wisdom over the din of a crowd. People tell us their dreams and inspire us in our daily efforts.

Someone asks the right question at exactly the right moment and occasions the answer needed but until then hidden.

History has shown us: wars create heroes in our midst. The struggle for civil rights and to put an end to suffering has called forth leadership when most needed.

Lord, You continue to fashion and challenge us until we reach the full potential You have placed within us. Therefore, we are confident in our present difficulties You have placed in position those who know what we need and will guide and protect us.

May Your truth and Your love be realized in us today and last forever.

Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Pennsylvania (Mr. PITTS) come forward and lead the House in the Pledge of Allegiance.

Mr. PITTS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed without amendment a bill of the House of the following title:

H.R. 1512. An act to amend the Internal Revenue Code of 1986 to extend the funding

and expenditure authority of the Airport and Airway Trust Fund, to amend title 49, United States Code, to extend authorizations for the airport improvement program, and for other purposes.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

WON'T YOU BE MY NEIGHBOR DAY

(Mr. DOYLE asked and was given permission to address the House for 1 minute.)

Mr. DOYLE. Madam Speaker, I rise today to bring attention to an upcoming expression of caring and activism. Tomorrow, March 20, would have been Fred Rogers' 81st birthday. It also marks the second annual "Won't You Be My Neighbor Day," a day each year dedicated to furthering the efforts of Pittsburgh native Fred Rogers, known to many as Mr. Rogers from the long-running TV show "Mr. Rogers' Neighborhood."

Fred Rogers spent most of his adult life nurturing the development of self-assured, well-rounded, and caring young people.

Family Communications, Incorporated, the nonprofit organization founded by Fred Rogers in 1971, is asking all Americans to put on their favorite sweater tomorrow and undertake some act of neighborliness or caring—anything from striking up a friendly conversation with your neighbor to helping out in your neighborhood, so long as it helps create closer communities and exemplifies what it really means to be a good neighbor.

I hope my colleagues and people across the country will join me in honoring Fred Rogers' remarkable life's work by observing "Won't You Be My Neighbor Day" tomorrow.

BUREAUCRATIC OFF-ROAD BLOCK

(Mr. REHBERG asked and was given permission to address the House for 1 minute.)

Mr. REHBERG. Mr. Speaker, Montanans can enjoy our beautiful State from the convenience of a road; but to really get out and experience it, we often have to leave the roads behind. That is why off-roading has become a major part of Montana's heritage, and our economy.

Unfortunately, the Consumer Products Safety Commission has erected a

bureaucratic off-road block for young all-terrain vehicle enthusiasts. ATV parts, which are unlikely to be handled by children, have been banned, forcing ATV and motorcycle dealers to remove these products from their showrooms. And now couldn't be a worse time as many of these dealers are just trying to stay afloat through the slow economic times.

I have introduced legislation to fix this problem. We all want to ensure the safety of our kids, but let's put our efforts into protecting them from real threats, not bureaucratic bungling.

SPACE SOLAR ALLIANCE

(Ms. GIFFORDS asked and was given permission to address the House for 1 minute.)

Ms. GIFFORDS. Mr. Speaker, this week the Space Shuttle Discovery docked at the International Space Station to deliver the final platform of solar panels that will support additional laboratories and the arrival of an expanded crew.

As the new chair of the Space and Aviation Subcommittee and a champion of solar energy, I am delighted by the space solar alliance that will advance human knowledge and technological development.

The panels being installed 220 miles above us this week have a wingspan of a 747, and they contain over 32,000 cells, enough to power 50 homes.

Recently, First Solar, an Arizona solar panel maker, announced solar cells that will be less than \$1 per watt. Global Solar, another Arizona company, creates solar cells that can be integrated into military and police gear.

What started as an expensive niche technology is now a consumer-driven, mass-produced product. Solar was absolutely vital to America's success in fulfilling our bold commitment to explore the heavens. Today it is playing a vital role in tackling an equally daunting task, America's energy independence.

OUTRAGE TOWARD AIG

(Mr. PITTS asked and was given permission to address the House for 1 minute.)

Mr. PITTS. Mr. Speaker, House Republicans share the outrage of the American people that AIG would use taxpayer dollars to award executive bonuses during this economic crisis.

But we believe the American people deserve 100 percent of their money

back, not 90 percent. The American people deserve to know that this whole outrage could have been avoided.

Senator WYDEN authored an amendment banning executive bonuses, and that amendment was stripped from the stimulus bill. Senator DODD took responsibility, but he told CNN that “the administration had a problem with the amendment.”

The bill on the floor today to enact a 90 percent tax on AIG employees is just a cynical attempt to divert attention from the truth that Democrats in Congress and this administration made these bonus payments possible in the first place.

House Republicans have legislation that would ensure 100 percent of these bonuses are returned to taxpayers, but they blocked the plan from receiving a vote today. The American people have a right to get 100 percent of their money back, and Mr. Geithner should resign.

WAL-MART BATTLES TO DEVELOP ON BATTLEFIELD

(Mr. WELCH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WELCH. Mr. Speaker, 164 years ago brave Texans and brave Vermonters fought on an historical battlefield about 60 miles south of here, the Battle of the Wilderness. There were 165,000 troops amassed there, including Vermonters from the 1st Brigade; and 1,200 from Vermont's ranks died. Among them was Daniel Lilly, a teacher in Barnard, Vermont. His funeral is still today remembered as the largest funeral in the history of that town. Another, Ed Holden, fought and survived, but saw his brother with his head shot off die on the battlefield.

Today a different battle is taking place on that hallowed ground. It is a conflict between a great American corporation, Wal-Mart, and a great American historic battlefield, the Wilderness. My friend from Texas and I have joined together to ask Wal-Mart to do the right thing and not build its facility, a 140,000-foot facility, on that battlefield where troops were massing.

The question for us is whether we can honor the fallen. And that, as my friend will tell you, is just the way it is.

WAL-MART vs. HALLOWED GROUND

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, I appreciate the historical comments my friend from Vermont has said regarding Union troops from his home State. The Battle of the Wilderness took place in May 1864.

On the second day of the 3-day battle with a statement made by General Lee,

“Texans always move them,” the Texas Brigade successfully forced back Grant's Union troops. However, the Texans sustained 60 percent casualties.

There were 165,000 troops, Union and Confederate, in this Battle of the Wilderness. That is the number of troops that we have in Afghanistan and Iraq put together on one battlefield. There were 29,000 casualties. The fighting was so fierce in the dense woods it caught fire, and hundreds of wounded on both sides burned to death. Their graves are only known by God.

Mr. Speaker, those troops from the North and South were all Americans. Mr. Speaker, here is the battlefield. It is outlined in this black line. On this hallowed ground right here, you can see this X is where Wal-Mart wants to build one of their beautiful stores. There are other locations available for Wal-Mart. So we from the North and South in a bipartisan way want Wal-Mart to build someplace else.

And that's just the way it is.

MARCH MADNESS BRINGS US TOGETHER

(Mr. COHEN asked and was given permission to address the House for 1 minute.)

Mr. COHEN. Mr. Speaker, Democrats and Republicans may disagree on things, and people in my city of Memphis may disagree on things over the years. But one thing that brings us together is March Madness, the NCAA tournament which tips off this morning.

In that tournament will be my home team, the University of Memphis Tigers. They have the longest winning streak in the country, 25 games, and they have the Coach of the Year in John Calipari. We have a great team that came just inches away from winning the national championship last year.

We were seeded number two this year rather than number one where we should have been. But this is the opportunity to show who deserves to be seeded number one. The University of Memphis Tigers that bring my community together and do something that basketball and sports can do for this country in bringing us together in difficult times and giving us a pastime that is so important will do well, and our city will cheer for them and see that they do well.

President Obama has picked them to make the Final Four. He was correct. He picked them to lose to Louisville; he was wrong. We will do well.

Go Tigers.

□ 1015

AIG SCANDAL

(Mrs. BACHMANN asked and was given permission to address the House for 1 minute.)

Mrs. BACHMANN. Mr. Speaker, today we understand that the Obama administration's stimulus bill—the \$1 trillion stimulus bill—was also the AIG bonus protection plan, because we understand now today that language is contained within the stimulus bill that would ensure that the AIG bonuses would stay with the executives who received them.

The American people are outraged. We are outraged as well. But who knew about these bonuses? When did they know about it? CBS News has reported the Obama administration has known for weeks about these bonuses. Senator CHRIS DODD also said that he knew about these bonuses, put the amendment into place, but says it wasn't his language, it was the administration's language.

This is a scandal that is brewing in Washington. We need to have answers. The American people need answers. This is their money that is being spent for these failing businesses. It's time that the American people know what the real truth is.

AIG OUTRAGE

(Ms. TITUS asked and was given permission to address the House for 1 minute.)

Ms. TITUS. Mr. Speaker, I also rise today in outrage over the recent news that AIG paid out over \$165 million to executives, some of whom are no longer with the company.

Every day in southern Nevada, families face tough decisions about their economic futures; can they afford to stay in their home? Are they going to be able to provide for their children's future?

I find it insulting that the CEO of AIG said that his decision to give out these bonuses was “difficult.” Difficult is trying to figure out how to keep a roof over your head when you've lost your job. Difficult is providing for your children when your hours at work have been cut back. Difficult is not deciding if you are going to dole out hundreds of millions of dollars to irresponsible Wall Street executives.

I urge Congress and the administration to act quickly to recoup the taxpayers' money.

NORTHERN IRELAND

(Mr. TIM MURPHY of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. TIM MURPHY of Pennsylvania. Mr. Speaker, on March 7 and 9, the young Government of Northern Ireland was put to the test. Two British soldiers and a policeman were killed by fringe groups trying to change peace to chaos, trying to reach the future through a return to the past. They failed, and the people of Northern Ireland became stronger.

The people voted for peace and acceptance of the Good Friday Agreement. The people voted for their First Minister Peter Robinson and Deputy First Minister Martin McGuinness, who jointly condemned the murders.

The people of Northern Ireland grew stronger when thousands of Catholics, Protestants, Unionists, and Nationalists marched together saying "No going back."

As Americans, as fellow lovers of freedom and democracy, we are with the people of Northern Ireland. We are both nations of law, and can only survive when the law is upheld.

God be with the families who have suffered a loss. And God bless the people and the peace of Northern Ireland.

PROVIDING FOR CONSIDERATION OF MOTIONS TO SUSPEND THE RULES

Ms. PINGREE of Maine. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 257 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 257

Resolved, That it shall be in order at any time on the legislative day of March 19, 2009, for the Speaker to entertain motions that the House suspend the rules relating to a measure addressing excessive compensation paid to employees of corporations in which the Federal government has a significant interest.

The SPEAKER pro tempore. The gentlewoman from Maine is recognized for 1 hour.

Ms. PINGREE of Maine. For the purposes of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. LINCOLN DIAZ-BALART). All time yielded during consideration of the rule is for debate only.

GENERAL LEAVE

Ms. PINGREE of Maine. I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and to insert extraneous materials into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Maine?

There was no objection.

Ms. PINGREE of Maine. Mr. Speaker, I yield as much time to myself as I may consume.

Mr. Speaker, people across the country are rightly outraged by the egregious nature of the AIG bonuses. It is unconscionable for AIG to pay out \$165 million in bonuses to the same top executives who mismanaged the company to the point of failure.

It is fundamentally wrong to be rewarding the very same people who ran AIG while it was losing billions and billions of dollars with risky schemes that directly led to the staggering \$170

billion bailout last year. It is a stunning example of greed and shamelessness, and it is gross mismanagement and misuse of taxpayer funds that borders on criminal.

People in Maine, my district, and around the country are angry. I have heard from hundreds of my constituents sharing their outrage. One resident of Wells, Maine, in the straightforward way that my constituents do, wrote to me in this manner. He said, "Let AIG fail. Let those greedy, blood-sucking executives find out what it means to lose their life savings. You need to tell those that want our tax dollars, these are the conditions, clear and simple. And if you don't want to use it for what we want, you will get nothing." He went on to say, "It has become a sad day in our history when we have to lose our retirements, and then have to give billions to those that have caused the problems, and then, in turn, they give it to themselves as bonuses."

Another Mainer wrote, "I am writing to you because I am absolutely appalled that we, as citizens and taxpayers, have given billions of dollars to AIG, only to have that company give us all the proverbial finger and pay out \$165 million in bonus money to their staff. AIG's conduct, given their own monetary losses that are in the billions of dollars, is criminal."

The small businesses in my State of Maine are doing what businesses around the country are doing; they are diversifying, they are freezing wages. They are using their own resources, adopting cost-saving measures, whatever it takes to stay in business and keep people in their jobs.

Like so many businesses around the country, a businessman in Portland recently chose to dig into his own pocket and use his own money so he wouldn't have to lay off his employees. And just last week, I met with the owners of a small machine shop that had been growing. They came to me with questions about how they could better use the money in the recovery package to stay in business just to stay afloat. They weren't looking to line their own pockets, they were asking for help to keep people employed and keep their business afloat. These are the types of people who are stung the hardest by the AIG bonuses.

Families and businesses in Maine and across the country are struggling to make ends meet and stay in their homes. And they are helping each other out of a shared sense of responsibility. Meanwhile, on Wall Street, we see executives who seem to think they live by a different set of rules and who refuse to take responsibility for the damage they have caused. It is a perfect example of why we have, and will continue to have, a commitment to transparency and oversight in government.

When the House passed TARP last year before I was here, this type of abuse is exactly what the American people were afraid of. We knew there was a chance of waste, fraud or abuse, and now it has come to light. We are here today to fix it. We will continue to forge ahead to fix our struggling economy.

Mr. Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I thank my friend, Ms. PINGREE, for yielding the time and I yield myself such time as I may consume.

What concerns me about this scandalous AIG bonus issue is that the Obama administration was asleep at the wheel. Two weeks ago, the President's press secretary was asked, is the administration confident that it knows what happened to the tens of billions of dollars given to AIG? The response from the President's press secretary was, "It is confident."

Yesterday, we learned that the Obama administration asked the Senate Banking Committee chairman, Mr. DODD, to insert a provision in last month's so-called economic stimulus legislation that had the effect of authorizing AIG's bonuses. First, that gentleman who I just referred to said that he didn't know how the bonus authorization had made it into the legislation, but the next day he said yes, he authorized it after being asked to do so by the Obama administration.

Was the administration complicit? I think this is an issue that Congress needs to investigate. Yesterday, I made a motion on this floor that would have allowed debate on H.R. 1577, a bill introduced by my colleague, Representative PAULSEN, and the rest of the Republican freshmen, to deal with the AIG bonus scandal. My motion was defeated, but it garnered bipartisan support. Every Republican voted for it, and so did eight Democrats on what is a procedural motion—very interesting. Although the motion failed, I am pleased that it attracted the attention of the majority leadership and they finally decided to take action on this scandal.

So, here we are today. Although I support the bills we will consider today, I find it quite unfortunate the way in which the majority leadership has decided to handle this scandal. The heavy-handed process they are using will block all Members of this House from offering amendments. It will also block every procedural right the minority has to shape legislation, including the motion to recommit. It will even limit debate on this important issue to a total of 40 minutes.

Why is the majority refusing Members to participate in the legislative process, Mr. Speaker? This is an issue that Members on both sides of the aisle feel outrage about, so why not allow

Members to participate? Is it because the majority is afraid of the minority's thoughtful ideas? Actually, as Congress debated the so-called stimulus bill, it was the Republicans—the thoughtful opposition—who advocated for transparency and accountability, but again, the majority blocked effort after effort by the minority to participate in the legislative process. That is unfortunate.

Mr. Speaker, I reserve the balance of my time.

Ms. PINGREE of Maine. Mr. Speaker, I yield 2 minutes to the gentlewoman from New York (Mrs. MALONEY).

Mrs. MALONEY. I thank the gentlewoman from the great State of Maine for yielding, and for her important leadership on the Rules Committee.

Mr. Speaker, it has become somewhat rare for the Members of this body to find themselves in virtually universal agreement, but outrage over the retention bonuses for the very members of the AIG Financial Products Division, who brought a corporate giant to its knees and the economy of our Nation to a standstill, has produced such an agreement.

It would be both morally reprehensible and fiscally irresponsible for us to quietly hand over millions to those who have cost this country billions. And it is a rare cause that compels so many Members, all acting independently, to craft bills aimed at righting the same wrong.

The bill we consider now to tax bonus payments, such as the ones in question at AIG, at the effective rate of 90 percent sends a message that cannot be mistaken. The game is finished, the casino is closed.

I applaud Speaker PELOSI, Mr. MILLER, and Chairman RANGEL of the Ways and Means Committee for coming together so swiftly to react and incorporating ideas from many bills—from my colleague, STEVE ISRAEL, from GARY PETERS, from myself, from ELIJAH CUMMINGS, from many, many others—and coming forward swiftly with this bill that would tax at 90 percent. The remaining 10 percent would probably be taxed by States and cities.

If a company receives over \$5 billion of taxpayers' money, and anyone earning over \$250,000, they would be subject to this tax. So it moves the money back to the American taxpayer.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I'm shocked at the shock. I cannot believe that we are here and people are shocked. Every person—or, I don't want to offend anybody, but almost every person on the other side of the aisle—voted for the stimulus bill that had the provision in that protected, authorized, and allowed these bonuses. And today, they're shocked.

When Adam and Eve were expelled from the Garden of Eden, they were then pictured with fig leaves. The bill they want to bring today isn't a fig leaf, it's a fig tree.

Now, Ross Perot, when he ran for President in 1992, he talked about the giant sucking sound. Well, today there is another giant sucking sound going on in Washington, D.C., and that's the tightening of sphincters on both ends of Pennsylvania Avenue as people are having to explain who put into the stimulus bill this provision of law. And specifically, it's title VII, section 111, paragraph 3(i), that basically said that the bonuses that were paid out that people are shocked about today were protected and would not be touched.

Now, I think people have to man up around here and admit responsibility. Mr. Speaker, how much more time do I have?

The SPEAKER pro tempore. The gentleman from Ohio has 1½ minutes remaining.

Mr. LATOURETTE. I am happy to yield my 1½ minutes to anybody on the other side of the aisle who can tell us who was in the room, who took out the Wyden-Snowe amendment that prohibited this executive compensation and inserted section 111, subparagraph 3(i). Anybody?

Who did it? Was it some staffer? We see a Senator on the other side of the Capitol blaming it on the Treasury Secretary. We see the Treasury Secretary blaming the Senate. And the last time I checked, the Secretary of the Treasury doesn't have legislative authority. He didn't write it. Who wrote it?

What I do know is that we told you, how can you give us 90 minutes to read a piece of legislation that's over a thousand pages long? You said, well, who needs to read the legislation? Well, apparently, today, when the chickens have come home to roost, and we have read the legislation and the Democratic majority and the Democratic administration authorized AIG employees—73 of them—to get over a million dollars, today they're embarrassed.

□ 1030

And their response? It's a typical Democratic response: Let's tax people.

It's unconstitutional what they want to do; it's wrong what they want to do. And if we let the majority of this House that does not believe in transparency, that made us vote on a bill after giving us 90 minutes to read it, that is now embarrassed by the first storm that's been created and the finger pointing that they're now engaging in, we shouldn't be here.

Ms. PINGREE of Maine. Mr. Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Michigan (Mr. McCOTTER).

Mr. McCOTTER. I thank the gentleman for yielding.

I too am shocked at the shock. When the stimulus bill came through the House, there were warnings from the minority party that we did not have time to read it, that we would find in that bill things that would be egregious and outrage the sensibilities of the American people.

But I will give credit where credit is due. It is, in fact, in this part a stimulus bill, for it stimulated the greed of the bonus babies at AIG because it protected and approved taxpayer-funded bonuses to that bailed-out company.

Facts are hard things to disprove. Every single Democrat in this House that voted for that bill voted to approve and protect those AIG bonuses. Every single Democrat in the Senate that voted for that stimulus bill, along with three Republican Senators, voted to approve and protect those AIG bonuses. The President of the United States signed into law the protection and approval of those AIG bonuses that they now find so repugnant now that the American people know what was done.

In my mind, this was part of a deliberate strategy to keep the employees at AIG who had broken the bank there to fix the mess that they had made. They knew that this Congress would not go alone with the executive bonuses being paid to bail out companies. They had to protect them with this amendment. It was dropped in in the dead of night.

If you are shocked, be shocked at the Members of your own party or administration that put it in and be shocked that we will now pass a bill of attainder that is unconstitutional to try to cover our, shall we say, tracks on this matter.

Here is the sad reality of where we are today. In a time of crisis, they passed the Wall Street bailout. The nightmarish prognostications of myself and others have been exceeded. Now what we find is an attempt to cover one's tracks with another bill in a time of crisis that will leave no one, no one, safe from the hand of the taxman when the politicians come to cover their tracks at your expense.

The public deserves better. The public deserves transparency. We cannot fail them again.

Ms. PINGREE of Maine. Mr. Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, it's my pleasure to yield 2 minutes to the distinguished gentlewoman from Florida (Ms. GINNY BROWN-WAITE).

Ms. GINNY BROWN-WAITE of Florida. I thank the gentleman for yielding.

Mr. Speaker, a recent headline read "AIG is a P.I.G." And that's exactly the way that most Americans feel.

The TARP bill, however ill-thought out, was intended to slow the bleeding

of our economy. Instead, that money is being used to line the pockets of the very crooks that drew the first blood. You know it and I know it and the American people know it.

However, what the American people do not know is who put that provision in the economic stimulus bill to ensure AIG's ability to pay out these outrageous bonuses. I don't know the answer to that. Was it Senator DODD? Well, just yesterday he said, no, he did it at the behest of the Obama White House. We need to remember this. The American people deserve to know who knew what, when they knew it.

We all agree that the fat cats at AIG shouldn't be rewarded for their irresponsible actions, and we'll take care of that today. But there are bigger questions.

This Member from Florida voted against the stimulus bill. However, most Democrats on the other side voted for the stimulus bill. And it's amazing that now they are so concerned and so shocked about a provision that was put in the bill that they fostered that never went through the Ways and Means Committee, on which I serve. We held a very brief briefing on it, but we did not get to vote on it. We did not get to put any amendments onto it.

I would at this point yield to the gentlewoman handling the bill on the other side, Ms. PINGREE, to ask her, who had the opportunity to vote against it, why she didn't.

Ms. PINGREE of Maine. Thank you very much for yielding.

I want to remind my colleagues on the other side of the aisle that we are here at this moment to pass the rule to allow us to fix this situation.

Ms. GINNY BROWN-WAITE of Florida. Reclaiming my time, I don't believe that the gentlewoman responded to the question.

We're here today to remedy something that you had the opportunity to vote against, you and your colleagues had the opportunity to vote against. That language was in there.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. PINGREE of Maine. Mr. Speaker, I yield myself such time as I may consume.

I wasn't here. Just to remind you, although I'm happy to be here to manage this bill, I was not here when many Members of the House voted on that particular bill. But I do want to say all of us in this Chamber had the opportunity to vote on the conditions on the TARP to make sure we dealt with things like executive compensation, and many of my colleagues on the other side of the aisle, in fact, most of them, refused to vote in favor of those conditions. So we have had those opportunities to do that over time.

I do agree it should be further investigated exactly how things happened

here. We are in one of the most tumultuous times in our economy than any of us have ever faced or previous generations have faced. But I personally voted in favor of those conditions of the TARP. And I do find it a little disingenuous to find many of my new colleagues, whom I am just getting to know, so anxious to talk about executive compensation, capping executive compensation, looking at this, when it was an issue that only probably weeks or months ago they wouldn't have gone near with a 10-foot pole. In fact, they wouldn't even have discussed this. They would have said leave business to itself, we're not going to get involved in this particular issue. This is an issue that has concerned me and my constituents back in my home State for a long time. I was proud to vote in favor of the conditions of the TARP.

And I want to remind my colleagues again we are here today to allow this rule to come to the floor so that we can have full debate on all of the opportunities afforded to us in this bill and this will be with us in only moments as soon as we vote in favor of this rule.

Mr. Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, before I yield, let me say that what Ms. BROWN-WAITE was talking about was the \$800 billion so-called stimulus package. In that legislation was the authorization for these bonuses to AIG. And my understanding is that all of the colleagues on the other side of the aisle voted for that stimulus package. So that's for the record.

And I would urge my colleagues on the other side of the aisle to urge their leadership to take processes seriously. I remember when, that week of the stimulus package, the so-called stimulus package with \$800 billion, the House unanimously voted for a 48-hour period for everybody to be able to see what was in that package, and yet the majority leadership ignored the unanimous view of the House.

So I would urge my colleagues on the other side of the aisle to tell their leadership, please, pay attention to the will of the House, especially and including on process, because we now see that when process is abused, things make it into legislation that later embarrasses those who vote for it.

Mr. Speaker, I yield 2 minutes to the distinguished Member from Texas (Mr. PAUL).

Mr. PAUL. I thank the gentleman for yielding.

Mr. Speaker, I rise today in opposition to this rule as well as the bill because of the lack of need for this and the disgrace that this has brought upon us.

Yesterday, for instance, the Federal Reserve met and they came out and announced that they would create new money to the tune of \$1.25 trillion. The

dollar promptly went down 3 percent, and today it went down another 1.5 percent. And today on emergency legislation, we're going to deal with \$165 million worth of bonuses, which obviously should have never been given. But who's responsible for this? It's the Congress and the President, who signed this.

So this is a distraction. This is an outrage so everybody can go home that voted for this bill and say, look, I am clamping down on this \$165 million but I don't care about the previous \$5 trillion the Fed created and the \$1.25 trillion they created yesterday.

Think of the loss in purchasing power in less than 24 hours. And we think that we can solve this problem. We first appropriate, unconstitutionally, \$350 billion. We give it to the Treasury. We have no strings attached. And then you have an unintended consequence; so we express this outrage. And at the same time, what do we do? We come along and we now propose that we pass a bill of attainder. So we do things that are unconstitutional. They have an unintended consequence. So what is our solution? To further undermine the Constitution.

A line should be drawn in the sand. Let's quit appropriating funds in an unconstitutional manner. Let's quit bankrupting this country. Let's quit destroying our dollar.

If you really want to do something, you ought to consider H.R. 1207, which would monitor and make the Fed answer questions. I understand the Fed and the Treasury were involved in a lot of these antics, and yet the Fed is not even required to answer any questions.

So it's about time we have an open book about the Federal Reserve and solve some of these problems.

Ms. PINGREE of Maine. Mr. Speaker, just in a quick answer to my good colleague from the Rules Committee, Mr. DIAZ-BALART, I was proud to vote in favor of this stimulus bill and very happy to vote for things that are helping my district at this very moment around health care and jobs and road construction and things that are desperately needed in my State.

Mr. Speaker, at this time I yield 3 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. I want to thank the distinguished gentlewoman from Colorado for her leadership, and it's a pleasure to be on the floor with her today. Let me as well thank the Speaker for the opportunity to educate the American public and to dialogue with my colleagues.

I think it's important to note that about 1.1 or 3 trillion of the debt that we are facing is the result of the past administration. We are now climbing a very difficult mountain because of the enormous amount of irresponsibility that occurred. Today we are trying to fix problems that were contractually

based, already existing. And certainly we recognize that we have a combination of a deficit, we have an increasing unemployment rate, and we have an important challenge of fixing the collapsed financial markets.

Everybody has heard of AIG. They finance and insure almost every aspect of our lives. And it was this leadership that focused on the recovery of providing stimulus dollars to our community. It was this leadership that infused into the stimulus package unemployment benefits to extend to hard-working Americans. And certainly it is this leadership that intends to fix this debacle. We will do it together. We will ensure that the moneys that were given to those, either unjustly or unfairly, are returned to the American public.

I don't like the format that we are dealt or the cards that we are dealt. I don't like the idea that we were told that these were existing contracts, that these were retention bonuses.

But now as the transparency opens up, good news. The American people, all of us, can see the structures of capitalism that we'd like to change. But we do believe in Americans being able to recover their investments. We want small businesses to survive. We believe in a capitalistic system. But it has to be fixed. Today is the day we fix it and provide the return of taxpayer dollars.

I am supporting the underlying rule because it is a sense of urgency now. And what we are doing is giving the opportunity to give money back.

I'm a lawyer. I realize that this may be subjected to constitutional challenge and/or the courts, but you know? I'm prepared to battle in the courts. Why? Because they look at issues of equity. What does equity mean? It means who's in here with unclean hands, and if there is a situation where they are taking Federal money, such as AIG, and all of a sudden they give retention bonuses, our courts will look at this legislation and say it is fair to give the money back to the American people because the circumstances have changed. So I'd rather take the chance of going forward on your behalf. And I am grateful to the leadership for allowing us to debate legislation that will help return the money.

We also protect those recipients. If you are making under \$250,000, we do not take that money back.

The SPEAKER pro tempore. The time of the gentleman has expired.

□ 1045

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from California (Mr. DANIEL E. LUNGREN).

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, facts are inconvenient things and the United States Constitution is an inconvenient truth at times, particularly when Congress

wants to show it's upset about something it already did.

Here are the facts. In the stimulus package, an amendment was adopted that the majority put in, the majority voted for, stating that provisions in the TARP and in the stimulus bills that limited compensation payments would not apply to "any bonus payment required to be paid pursuant to a written employment contract executed on or before February 11, 2009."

It was written specifically to protect the very bonuses that we are talking about here today. So now we are asking, how do we undo what we did? And the majority has brought to us a bill that doesn't recognize the truth of the Constitution.

There is something called a bill of attainder. You cannot punish a group because you don't like them. You can't have them treated more onerously than somebody else without a trial.

Now, that's an unfortunate truth that we have to deal with. How can we deal with this? Yesterday in Judiciary Committee, applying bankruptcy principles, we had an alternative. But that's not here on the floor today, because that's arguably constitutional. This is to get headlines to show that we are outraged.

But let me tell you, if we overturn the Constitution to show our outrage, no single American is safe. Because in the future what we will do is say we have a precedent that when we have an unpopular group, when we have a group that deserves some punishment, we won't go through the real laws, what we will do is we will pass a new tax law with confiscatory rates and say we have done it for the American people.

Well, if you do that, you are tearing up the Constitution. I didn't come here to tear up the Constitution to undo something that the majority did just a few weeks ago. We are better than that. We need to protect our Constitution.

Ms. PINGREE of Maine. Mr. Speaker, I yield 2½ minutes to the gentleman from Massachusetts and my colleague on the Rules Committee, Mr. MCGOVERN.

Mr. MCGOVERN. Mr. Speaker, we are not tearing up the Constitution here, we are responding to bad behavior. We are telling corporate America that we are not going to bail them out, our financial institutions. We are not going to bail them out and let them do what AIG just did.

The American people are outraged, and rightly so, at the news that insurance giant AIG has given large bonuses to some of its employees. It is outrageous that a company that is being bailed out by the American people is providing bonuses to the people who dealt in these exotic financial instruments. Those employees made bad bets, and now the American people are paying the tab.

Mr. Speaker, not many of my constituents are getting so-called retention bonuses these days, and I can tell you that. They are not sure if they are going to wake up tomorrow with a job.

In Fall River, the unemployment rate is 16 percent. The city is being forced to lay off police officers and firefighters. Food banks are at their capacity, and they are being asked to pony up so-called retention bonuses for the people who got us into this mess? It is absolutely nuts.

Now I know that the CEO of AIG said yesterday that he has asked the people who have received these bonuses to give them back, and that's great. But I am afraid we can't simply rely on their good-hearted generosity. I understand, and I support the need to ensure the stability of the American banking system.

We need to get the credit flowing again. We need to make sure that people have access to mortgages and car loans and student loans. We need to make sure that small businesses have access to credit.

But we also need to make sure that bad behavior isn't rewarded with taxpayer money, and that's what this bill is all about. And as President Obama has rightly said, we must also put in place the appropriate rules and regulations going forward so that this kind of financial collapse never happens again.

Mr. Speaker, we need to get this right. We inherited a lousy economy from the previous administration, and we are in a position now where we need to help us support our financial institutions, but we need to make sure that we do so in a way that doesn't allow this kind of bad behavior to continue.

I applaud Speaker PELOSI and the leadership for bringing this bill to the floor. I urge my colleagues to support the rule and the underlying bill.

Mr. LINCOLN DIAZ-BALART of Florida. I yield 2 minutes to the distinguished gentleman from California (Mr. DREIER).

Mr. DREIER. Mr. Speaker, our distinguished former colleague, the former chairman of the Ways and Means Committee, Bill Archer, always provided us with a great directive. He said here in this institution we should follow the Hippocratic Oath, that being to do no harm.

Now, Mr. Speaker, we know full well that the stimulus package had no Republican support, and many Republicans were maligned for having just said "no." And we all know very well, Democrats, Republicans alike know that we as Republicans came forward with a bold, robust, strong stimulus package ourselves, but they said we were just the Party of No.

Well, the fact of the matter is, again we offered a viable alternative. But we know very well that rushing as we did to this stimulus package is what has led to the challenge that our friends on

the other side of the aisle are attempting to clean up today. A great deal of harm has been done and this, Mr. Speaker, is just one tiny example.

Over in the visitor's center right now a hearing is being held by our Economic Stimulus Working Group, and testimony was just provided by a man called Mike Stevens of Action Printing from Lubbock, Texas. He was talking about the challenge of trying to get a printing press, and he said that only those banks that did not accept TARP monies had the flexibility to get the credit that he needed to purchase his printing press.

Mr. Speaker, if that example does not underscore, again, that the reach of government into our lives, trying to own companies and engage in this kind of activity is jeopardizing the potential for economic recovery, I believe that it is an absolute mistake for us to be going down this road. And I think those of us who stood up in opposition to this stimulus package have, in fact, had the statement made very, very clear.

Ms. PINGREE of Maine. Mr. Speaker, I yield 2 minutes to the gentleman from Texas, a Member of the Ways and Means Committee, Mr. DOGGETT.

Mr. DOGGETT. AIG—It has become shorthand for “Arrogant, Irresponsible Greed.” The big difference between the AIG insurance bootleggers and Ponzi felon Bernie Madoff is Madoff hasn't asked for a bailout yet, although taxpayers are providing him public housing in prison.

Of course, we wouldn't need to react so swiftly today about these outrageous bonuses if more people had been willing to speak out, not in January, but last September, when the Bush bailout provided almost \$1 trillion on unconditional terms. So many here accepted it, hook, line and sinker. Some of us urged last September the dangers of a bailout with no effective limitation on executive compensation, or on compelling taxpayers to bail out the rest of the world.

Well, today's bill is very important in restoring Eisenhower-level taxes to those who took these bailouts. We need to ensure that it gets to the bonuses paid to foreign AIG employees. We need to question why this bailout helped AIG provide 20 European banks almost \$60 billion, without asking them to sacrifice one red cent.

The same arrogance and indifference to the struggles of American families that necessitate today's bill, means that some of the most creative people in the world are already working to find ways around the bill. They will use the same creativity they have employed to dodge their tax responsibilities by going to offshore tax havens, and creating subsidiaries, and other creative means that we need to guard against in this legislation.

Meaningful reform means getting behind thoroughly crafted legislation

that returns accountability, transparency, responsibility, and the rule of law to markets that haven't had the rule of law for the last 8 years.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. PINGREE of Maine. I yield the gentleman an additional 30 seconds.

Mr. DOGGETT. Ever since the Bush Administration insisted taxpayers fund a near bottomless bailout, the problem has been battling the mindset that some folks are special—they are above responsibility for their actions, above any public accountability.

Today's legislation is important. It has been swift. It is an overdue step that Congress needs to take, but it must be the first step, not the last.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, no more blaming Bush. Mr. DODD said that it's the Obama administration that asked them to authorize these bonuses.

I yield 2 minutes to the distinguished gentlewoman from North Carolina, Dr. FOX.

Ms. FOX. Mr. Speaker, I would like to begin by submitting for the record the vote record for the stimulus bill, which included the provision for the AIG bonuses that the administration pushed for, showing that the gentlewoman from Maine, who said earlier that she had not voted for these bonuses, when she told the gentleman from Florida she didn't vote it.

HOUSE ROLL CALL VOTE 70, FEB. 13, 2009

YEAS (246)

NOT VOTING (4)

Republicans (2): Campbell (CA-48), Lee, C. (NY-26). —

Democrats (2): Clyburn (SC-06), Lipinski (IL-03) P.

Mr. Speaker, this rushed legislation is coming from the same people who threw together the final stimulus bill in the dead of night and gave us over 12 hours to read over 1,000 pages, the same people who drafted the stimulus bill containing a provision that gave the green light to these \$1 million bonuses. They have never learned the expression "Act in haste, repent at leisure."

It's important to note that the same majority, Democrat majority that's expressing outrage over these AIG bonuses—rightly expressing outrage, I might add—is the same majority that voted overwhelmingly for the so-called stimulus that paved the way for these bonuses.

Let's take a measured approach. Unlike the approach that President Bush

took on the bailout-panic last fall, unlike the stimulus frenzy last month that put us where we are today, we can recoup this money in a constitutional manner. In fact, Republicans have a bill that will allow us to do that, but they will not let us vote on that bill.

Now, let me say, also, that we got a letter, or the leadership of this House got a letter, dated January 12, 2009, from Mr. Summers, Dr. Summers, saying, that, he "will ask his Department of Treasury to put in place strict and sensible conditions on CEO compensation and dividend payments until taxpayers get their money back. We will ensure that resources are directed to increasing lending and preventing new financial crises and not to enriching shareholders and executives."

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. LINCOLN DIAZ-BALART of Florida. I yield the gentlewoman an additional 15 seconds.

Ms. FOXX. Mr. MCGOVERN, another Member of the Rules Committee, said, "The statement by the Obama administration, the statement by Larry Summers, is all very encouraging. It demonstrates a real appreciation of what average people are going through."

They really understand average people in this country.

This bill unconstitutionally gets, back 1/1000th—that's one one thousandth of the bailout cash that AIG has gotten. We need to get all of it back—all \$170 billion. We need a bailout exit strategy. And passing unconstitutional laws is not an exit strategy.

Ms. PINGREE of Maine. Mr. Speaker, I do want to thank the gentlelady from North Carolina (Ms. FOXX) for bringing in my voting record and remind her that I was very proud to vote for the stimulus or recovery package, whichever we choose to call it, and have already stated that on the record.

Mr. Speaker, I yield 3 minutes to the gentleman from California (Mr. SHERMAN).

Mr. SHERMAN. Let me set the record straight, particularly with regard to the comments of Mr. DREIER from California. The TARP bill is the one that provided the bailouts. It contained highly ineffectual, giant loophole-containing limits on executive compensation.

Not surprisingly, those provisions did not prevent the outrageous AIG bonuses, nor do they prevent million-dollar a month salaries. It is the TARP bill which should have limited and pretended to limit executive compensation to those who got money from the TARP bill. The gentleman from California voted for the TARP bill, as I understand it. I voted against it, twice.

Then in January we considered a bill that had little or nothing to do with the TARP bailout. It, thankfully, included some effort to control bonuses. That was in addition to the restrictions found in the TARP bill. It was a

step in the right direction, but it was not enough to stop AIG bonuses. To attack people for voting to make the TARP Program a little better, and to have those attacks come from somebody who voted for the TARP bill, seems just a little outrageous.

But what about the bill we are going to consider today? It's a good step, but it ain't going to get us where we need to go. Because the bill we will consider today allows for half-million-dollar a month salaries, million-dollar a month salaries, without any taxation, without any limitation, without any effect from this legislation, just as those million-dollar a month salaries were unaffected by the TARP bill and by the stimulus bill.

□ 1100

We need to come to this floor next week and improve the bill that I hope we pass today—to deal with all executive compensation, not just bonuses. Because if you think people are angry today at the AIG bonuses, you see how angry they get when we tell them we've solved the problem and then they find out some people at bailed-out firms are getting \$500,000 a month salaries. Because they couldn't get bonuses, they went to the employer and said, Well, better make it \$1 million a month.

We have got to deal with the entire compensation package.

The bill we'll consider today also allows unlimited commissions. Now, you could argue that maybe certain commissions shouldn't be limited. But if you don't define the word commission, you can be sure everybody on Wall Street will rename what would have been a bonus into a commission. And it will not be taxed under the bill we are going to deal with today.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. PINGREE of Maine. I yield the gentleman 1 more minute.

Mr. SHERMAN. I thank the gentlelady. Finally, the bill we are going to deal with today deals only with executives of firms that have received capital infusions of over \$5 billion. That means that they got \$5 billion and they sold the Treasury their preferred stock.

Well, that's the way we did business last year. Now Treasury is about to stop buying preferred stock. They're going to start buying toxic assets.

The bill we'll consider today does not deal with those firms who sell \$5 billion, \$10 billion, \$50 billion worth of toxic assets to the U.S. government. So we have to deal with the bailed-out firms that get over \$5 billion, whether they get it for toxic assets or whether they get it for preferred stock.

We have to deal with salaries, we have to deal with commissions, we have to deal with Employee of the Week bonus payments or prize payments. We have to deal with all aspects

of compensation. Until then, our constituents will be justifiably skeptical.

Mr. LINCOLN DIAZ-BALART of Florida. I yield 2 minutes to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. Mr. Speaker, it seems altogether appropriate that the President is appearing on the Jay Leno show tonight. The administration's response to the AIG debacle has been nothing short of a comedy routine all week long. And we in Congress have played Laurel to the administration's Hardy all week long.

What we are about to do with this legislation, however, is not a laughing matter. We are responding to our failure to adequately review the stimulus bill by passing a bill that we have spent even less time reviewing.

A cursory review of this legislation seems to reveal that it's nothing more than a bill of attainder—a measure that is clearly unconstitutional. Does that matter to anyone here?

Let me offer just one example of why we should subject this legislation to a bit more deliberation. We don't have sufficient money in the Treasury, nor can we responsibly borrow enough money to purchase the toxic assets currently on the balance sheets of our financial institutions. We are going to need a great deal of investment from the private sector to do that.

Who in the private sector, Mr. Speaker, seeing what we are doing here today, would put their own money at risk for the possibility of financial return if they know that Congress, with one day's notice, can pass legislation to tax 90 percent of it?

It's tough enough, Mr. Speaker, for government to control the commanding heights of the economy without riding a high horse while doing it.

Ms. PINGREE of Maine. I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. I yield 2 minutes to the distinguished gentleman from Indiana (Mr. PENCE).

Mr. PENCE. Last fall, like a majority of House Republicans, I opposed the Wall Street bailout because I feared we'd arrive at days like today, in part. House Republicans share the outrage of the American people that AIG would use taxpayer dollars to award executive bonuses during an economic crisis. But the Democratic bill brought to the floor today is constitutionally questionable. In its obviously transparent attempt to divert attention away from the truth, the Democrats in Congress and this administration made these bonus payments possible.

House Republicans believe the American people deserve 100 percent of their money back. House Republicans have proposed legislation that will deny AIG one more dime of bailout money until they have recovered all of the bonus payments from their employees.

Lastly, the American people deserve to know this whole outrage could have

been avoided. The truth is that it was a Democrat Senator from Oregon, RON WYDEN, who authored thoughtful legislation that would have banned executive bonuses included in the stimulus bill, and it was—late in the night, late in the process—removed.

Here's what he had to say about it. Senator WYDEN told the Associated Press, "The President goes out and says this is not acceptable, then some backroom deal gets cut and lets these things get paid out anyway."

"He said, 'I think it's unfortunate.' He said we could have had a well-targeted message 'which would have communicated how strongly the administration felt about blocking these executive bonuses,' but I wasn't able to convince them."

"Even Senator CHRIS DODD, the head of the conference committee for the stimulus bill said, 'I didn't negotiate with myself. I wasn't trying to change it on my own. The administration had expressed reservations. They asked for modifications.'"

The American people deserve to know that, thanks to the work of Senator RON WYDEN and Senator OLYMPIA SNOWE, we wouldn't be here today, because the stimulus bill would have banned these bonuses altogether. But that language was removed.

The American people deserve 100 percent of their money back. They deserve to know why House Democrats blocked efforts to ban executive bonuses. We deserve the truth.

Ms. PINGREE of Maine. I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from California (Mr. ROYCE).

Mr. ROYCE. The Democrats have actually controlled this Congress for over the last 2 years, and it was the Democrats who controlled the passage of the TARP legislation in the first place. I voted against that legislation.

But ABC News reported yesterday that "during late-night, closed-door negotiations for the House, Senate, and White House, a measure was stripped out of the stimulus bill that could have restricted these AIG bonuses. The Senate had approved the amendment to the stimulus bill aimed at restricting bonuses over \$100,000 that had been authored by OLYMPIA SNOWE and by RON WYDEN. Then, the provision was stripped out during the closed-door conference involving House and Senate leaders and the White House. Dodd's measure explicitly exempted bonuses agreed to prior to the passage of the stimulus bill."

Now, most of the Democratic Members voted for this on the House floor, all of the Republicans voted against it. That's the record.

We should vote "aye" on this bill. And the reason we should is because it's going to stop executives from com-

ing here to take TARP funds from Washington. It's going to stop capitalists from being converted into quasi-socialists. That's the reason we should vote "aye."

I brought an amendment to this floor in 2005 to try to prevent—with Fannie Mae and Freddie Mac—to try to regulate them for systemic risk, arguing that their over-leveraging as GSEs was going to cause bankruptcy and a financial collapse. It was voted down.

It was voted down, but this year those executives from Fannie Mae and Freddie Mac, it was reported yesterday, they are going to get over \$1 million in bonuses.

How do we stop every executive coming to this town to get TARP money and over-leveraging their firms and then the consequent bailout at cost to the taxpayers?

Well, we passed legislation removing their bonuses so that all of the time and effort that these business executives put into coming to D.C. is reversed.

When you take TARP money, when they do that, they have the full backing of the U.S. government behind them. So they can borrow money without market discipline and without limit, at a lower interest rate than their competitors, and drive them out of business, which is what AIG is doing right now to other smaller private sector businesses.

It's 80 percent owned by the government. Without that market discipline, what consequently happens, economists tell us—and this is exactly what happened with Fannie Mae and Freddie Mac as government-sponsored enterprises—they drive out their competition, they become larger and larger, they over-leverage, and then they collapse, requiring more in government infusions of capital into these institutions.

You have got to change the incentive structure. You have got to put up a firewall between government and the markets. You don't want these fellows down here with their lobbyists. You don't want these men and women, these executives down here trying to figure out ways to get the taxpayers to back them so that they can become quasi-GSEs, because the long-term consequence of becoming a government-sponsored enterprise is the same as what happened to Fannie and Freddie.

This is what economists have tried to explain to us. We finally have a method to distinguish between those in the private sector, those who are free-market businessmen, who are going to take risks, not with government money, and are going to make a salary and are going to pay bonuses to their executives, and those who decide that they want to be quasi-public in nature, that they want to be like Fannie and Freddie.

Why should they make bonuses of \$1 million a year this year for Fannie and

Freddie? Why should they make twice as much as they made in bonuses last year? It is only because, unfortunately, my friends on the other side of the aisle did not listen to this argument on TARP funding.

Ms. PINGREE of Maine. Mr. Speaker I yield 2 minutes to a member of the Ways and Means Committee, the gentleman from North Dakota (Mr. POMEROY).

Mr. POMEROY. I thank the gentlewoman for yielding. Mr. Speaker, the people have spoken on the extraordinary issue of AIG lavishing fat bonuses on some of its executives. Indeed, some of the very people whose reckless actions destroyed this once great company. The people have said no. In fact, they've said: Hell no. And give us our money back.

This is not just another case of runaway corporate greed and arrogance, ripping off shareholders by excesses lavished around the executive suite. These bonuses represent a squandering of the people's money because it's the vast sums we have been forced to pour into this now pathetic company.

The bill before us is unlike any tax bill I have ever seen. But it reflects the strong feelings of our constituents and the bipartisan will of this body. We will not tolerate these actions. We are not going to wring our hands, shake our heads, look at our feet and mumble "Ain't it a shame."

Starting right here, right now, we are saying: No more. We are saying: Give us our money back. And we will not stop until we get it back.

The fact that we have to take this step at all is appalling to me. Have the recipients of these checks no shame at all? They failed in their work. They wrecked a corporate icon. They contributed mightily to the economic crash that has cost the Treasury \$170 billion so far. And they want to cash their bonus checks.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. PINGREE of Maine. I yield another 30 seconds.

Mr. POMEROY. Let today's vote say loud and clear to those running to cash their ill-gotten checks: You disgust us. By any measure, you are disgraced, professional losers. By the way, give us our money back.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 1 minute to the distinguished gentlelady from Illinois (Mrs. BIGGERT).

Mrs. BIGGERT. I thank the gentleman for yielding.

Mr. Speaker, let me be clear. We want the money back—the money that was used for executive bonuses.

But I rise today in opposition to this rule. Frankly, I find it incredibly disappointing how this Congress has handled the AIG situation. And now the majority is simply repeating the same mistakes that led us here.

As we all know, the 1,100-page stimulus package was made public in the dead of night, just hours before the vote. No one could have read it except those that crafted it behind closed doors. No committee hearings were held, no alternatives or amendments were permitted. And now we find another reason why the majority didn't want it exposed to close scrutiny.

Apparently the majority quietly stripped out language passed in the Senate that would have blocked these outrageous bonuses funded with taxpayer dollars.

And who is responsible? First, no one took responsibility or seemed to have any idea who did it. Then Senator DODD admitted that he stripped out the language at the behest of the administration.

Now Congress is making the same bad mistake by passing another piece of rushed legislation introduced in one day, and hasn't had the proper scrutiny.

□ 1115

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, it is my privilege to yield 1 minute to the distinguished gentleman from Minnesota, who has legislation filed and who has been working diligently on this issue, Mr. PAULSEN.

Mr. PAULSEN. Mr. Speaker, I also agree that taxpayers deserve 100 percent of their money back. But, Mr. Speaker, I would urge our colleagues to vote "no" on the rule that is before us today.

Voting "no" on this rule today will allow us to consider the very common-sense proposal that we tried to bring up yesterday and now that the gentleman from Florida is trying to bring up once again today, a bipartisan proposal, actually, that would require not only that the bonuses get returned, have the Treasury Department return those bonuses, but, more importantly, put accountability in place so it never happens again. No more excuses. Requiring the Treasury Department to sign off on any future bonuses, requiring the Treasury Department to sign off on any future contracts regarding TARP legislation.

The bill that is being brought to the floor by the majority today was hastily written, as were provisions of the stimulus bill. It is covering the shoddy work that was done in the oversight of the TARP funds, the shoddy work that was put together in the stimulus bill, and it is covering up the shoddy work as well of government incompetence.

Mr. Speaker, let's have a vote for accountability by voting "no" on this provision so we can insert better bipartisan legislation.

Ms. PINGREE of Maine. Mr. Speaker, I am the last speaker for this side. I will reserve my time until the gentleman has closed for his side and yielded back his time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I am asking all Members to vote "no" on the previous question. It won't preclude consideration of the other suspension bills we expect to consider today, but it will give the administration another way to recover the taxpayer funds given in those outrageous bonuses to AIG, and it will also help prevent another bonus scandal, as Mr. PAULSEN, the author of the legislation that I wish would be able to be debated, has just explained.

So I urge a "no" vote on the previous question, really, to say enough is enough with regard not only with the scandalous misuse of taxpayer funds, but the abuse of the process by the majority; because on an issue like this, where there is outrage on both sides of the aisle, there should be no problem with discussion and debate and consideration of ideas from other Members, not just the office of the leadership here, the majority leadership.

And with regard to what we have heard about blaming the prior administration, it is going to be very interesting, Mr. Speaker, to see how long that lasts. I am sure they will try to make it last for 4 years, but how long will it be effective? Because the authorization for the bonuses was in the so-called stimulus package voted for by the majority.

Mr. Speaker, I ask unanimous consent to have the text of the amendment and extraneous material inserted into the RECORD immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. LINCOLN DIAZ-BALART of Florida. I again urge a "no" vote on the previous question, and I yield back the balance of my time.

Ms. PINGREE of Maine. Mr. Speaker, I can be very brief in my close, and I thank all of the eloquent speakers from our side who have come to the floor to talk about this important issue and the importance of voting on it today.

Let me be clear, a "no" vote, a "no" vote on this, is to allow the executives at AIG to keep their bonuses.

Now, how many people have come before us today to say it is unconscionable to think that they would take taxpayers' dollars to fund a misguided scheme, and then be given bonuses by the taxpayers? It is unthinkable. A "no" vote here is unthinkable.

We have talked about a whole variety of things from each other's voting records to the constitutionality, to a whole range of issues that do and don't apply to what we are talking about right now, and that is to allow a rule to allow us to proceed with doing something about the executive bonuses at AIG.

How many people have come before us? How many constituents have we

heard from who have said: You have got to do something about these bonuses. I am struggling. I am struggling to keep my business going. I am struggling to keep my home going. Numerous things we have all heard from all of our constituents that have said to us, do something, do it right now. That is what people are asking us, in this extreme difficult economy where people are struggling every day, where businesses are struggling, where in my district we are hearing a layoff notice almost every day. People are saying to us, it is time to do something. That is why we are here.

I urge a "yes" vote of my colleagues on the previous question and on the rule.

The material previously referred to by Mr. LINCOLN DIAZ-BALART of Florida is as follows:

AMENDMENT TO H. RES. 257, AS REPORTED OFFERED BY MR. LINCOLN DIAZ-BALART OF FLORIDA

At the end of the resolution, insert the following new section:

SEC. 2. Immediately upon adoption of this resolution, without intervention of any motion or recess, the Speaker shall entertain a motion offered by the Minority Leader or his designee, that the House suspend the rules relating to the bill (H.R. 1577) to require the Secretary of the Treasury to pursue every legal means to stay or recoup certain incentive bonus payments and retention payments made by American International Group, Inc. to its executives and employees, and to require the Secretary's approval of such payments by any financial institution who receives funds under title I of the Emergency Economic Stabilization Act of 2008. Clause 8(a) of rule XX shall not apply to such motion. A motion to adjourn shall not be in order during consideration of such motion.

(The information contained herein was provided by Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's *Precedents of the House of Representatives*, (VI, 308-311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said:

"The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Democratic majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the definition of the previous question used in the *Floor Procedures Manual* published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information from *Congressional Quarterly's* "American Congressional Dictionary": "If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business."

Deschler's *Procedure in the U.S. House of Representatives*, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: "Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Ms. PINGREE of Maine. I yield back the balance of my time and move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. FLAKE. Mr. Speaker, I rise to a question of the privileges of the House and offer the resolution previously noticed.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read as follows:

H. RES. 265

Whereas, Mr. Paul Magliocchetti, a former Appropriations Committee staffer, founded a prominent lobbying firm specializing in obtaining defense earmarks for its clients and

whose offices—along with the home of the founder—were recently raided by the FBI.

Whereas, the lobbying firm has shuttered its political action committee and is scheduled to cease operations at the end of the month but, according to the *New York Times*, "not before leaving a detailed blueprint of how the political money churn works in Congress" and amid multiple press reports that its founder is the focus of a Justice Department investigation. (The *New York Times*, February 20, 2009)

Whereas, CQ Today noted that the firm has "charged \$107 million in lobbying fees from 2000 through 2008" and estimates of political giving by the raided firm have varied in the press, with The Hill reporting that the firm has given \$3.4 million to no less than 284 members of Congress. (CQ Today, March 12, 2009; The Hill, March 4, 2009)

Whereas, The Hill reported that Mr. Magliocchetti is "under investigation for [the firm's] campaign donations," the Washington Post highlighted the fact that federal investigators are "focused on allegations" that he "may have reimbursed some of his staff to cover contributions made in their names . . ." and the *New York Times* noted that federal prosecutors are "looking into the possibility" that he "may have funneled bogus campaign contributions" to members of Congress. (The Hill, February 20, 2009; The Washington Post, February 14, 2009; The *New York Times*, February 11, 2009)

Whereas, Roll Call reported on "the suspicious pattern of giving established by two Floridians who joined [the firm's] board of directors in 2006" and who, with "no previous political profile . . . made more than \$160,000 in campaign contributions over a three-year period" and "generally contributed the same amount to the same candidate on the same days." (Roll Call, February 20, 2009)

Whereas, The Hill also reported that "the embattled defense lobbyist who led the FBI-raided [firm] has entered into a Florida-based business with two associates whose political donations have come into question" and is listed in corporate records as being an executive with them in a restaurant business. (The Hill, February 17, 2009)

Whereas, Roll Call also reported that it had located tens of thousands of dollars of donations linked to the firm that "are improperly reported in the FEC database." (Roll Call, February 20, 2009)

Whereas, CQ Today recently reported that Mr. Magliocchetti and "nine of his relatives—two children, his daughter-in-law, his current wife, his ex-wife and his ex-wife's parents, sister, and brother-in-law" provided "\$1.5 million in political contributions from 2000 through 2008 as the lobbyist's now-embattled firm helped clients win billions of dollars in federal contracts," with the majority of the family members contributing in excess of \$100,000 in that timeframe. (CQ Today, March 12, 2009)

Whereas, CQ Today also noted that "all but one of the family members were recorded as working for [the firm] in campaign finance reports, and most also were listed as having other employers" and with other occupations such as assistant ticket director for a Class A baseball team, a school teacher, a police sergeant, and a homemaker. (CQ Today, March 12, 2009)

Whereas, in addition to reports of allegations related to reimbursing employees and the concerning patterns of contributions of business associates and board members, ABC News reported that some former clients of the firm "have complained of being pressured by [the firm's] lobbyists to write

checks for politicians they either had no interest in or openly opposed." (ABC News The Blotter, March 4, 2009)

Whereas, Roll Call has taken note of the timing of contributions from employees of Mr. Magliocchetti's firm and its clients when it reported that they "have provided thousands of dollars worth of campaign contributions to key Members in close proximity to legislative activity, such as the deadline for earmark request letters or passage of a spending bill." (Roll Call, March 3, 2009)

Whereas, reports of the firm's success in obtaining earmarks for their clients are widespread, with CQ Today reporting that "104 House members got earmarks for projects sought by [clients of the firm] in the 2008 defense appropriations bills," and that 87 percent of this bipartisan group of Members received campaign contributions from the raided firm. (CQ Today, February 19, 2009)

Whereas, clients of Mr. Magliocchetti's firm received at least three hundred million dollars worth of earmarks in fiscal year 2009 appropriations legislation, including several that were approved even after news of the FBI raid and Justice Department investigation into the firm and its founder was well known.

Whereas, the Chicago Tribune noted that the ties between a senior House Appropriations Committee member and Mr. Magliocchetti's firm "reflect a culture of pay-to-play in Washington." and ABC News indicated that "the firm's operations—millions out to lawmakers, hundreds of millions back in earmarks for clients—have made it, for many observers, the poster child for tacit "pay-to-play" politics . . ." (Chicago Tribune, March 2, 2009; ABC News The Blotter, March 4, 2009)

Whereas Roll Call has reported that "a handful of lawmakers had already begun to refund donations tied to" the firm "at the center of a federal probe . . ." (Roll Call, February 23, 2009)

Whereas, the persistent media attention focused on questions about the nature and timing of campaign contributions related to Mr. Magliocchetti, as well as reports of the Justice Department conducting research on earmarks and campaign contributions, raise concern about the integrity of Congressional proceedings and the dignity of the institution.

Whereas, the fact that cases are being investigated by the Justice Department does not preclude the Committee on Standards from taking investigative steps: Now, therefore, be it

Resolved, That

(a) The Committee on Standards of Official Conduct, or a subcommittee of the committee designated by the committee and its members appointed by the chairman and ranking member, shall immediately begin an investigation into the relationship between the source and timing of past campaign contributions to Members of the House related to the founder of the raided firm and earmark requests made by Members of the House on behalf of clients of the raided firm.

(b) The Committee on Standards of Official Conduct shall submit a report of its findings to the House of Representatives within 2 months after the date of adoption of the resolution.

The SPEAKER pro tempore. The resolution qualifies.

MOTION TO TABLE

Mr. BECERRA. Mr. Speaker, I move to lay the resolution on the table.

The SPEAKER pro tempore. The question is on the motion.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. FLAKE. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

Pursuant to clause 8 of rule XX, this 15-minute vote on the motion to table will be followed by 5-minute votes on ordering the previous question on H. Res. 257, and adopting H. Res. 257, if ordered.

The vote was taken by electronic device, and there were—yeas 226, nays 180, answered "present" 15, not voting 10, as follows:

[Roll No. 141]

NOT VOTING—10

Miller, Gary
Napolitano
Olson
Radanovich

□ 1157

Messrs. CALVERT and TEAGUE changed their vote from "yea" to "nay."

Messrs. CONYERS, CLEAVER, ENGEL, SMITH of Washington and Ms. WATSON changed their vote from “nay” to “yea.”

Messrs. BARRETT of South Carolina, LINCOLN DIAZ-BALART of Florida, and WALDEN changed their vote from “nay” to “present.”

Mr. BUTTERFIELD changed his vote from “yea” to “present.”

So the motion was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mrs. NAPOLITANO. Madam Speaker, on Thursday, March 19, 2009, I was absent during rollcall vote No. 141 in order to attend an event with the President in my district. Had I been present, I would have voted “yea” on the motion to table H. Res. 265—Raising a question of privileges of the House.

PROVIDING FOR CONSIDERATION OF MOTIONS TO SUSPEND THE RULES

The SPEAKER pro tempore. The unfinished business is the vote on ordering the previous question on House Resolution 257, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 242, nays 180, not voting 9, as follows:

[Roll No. 142]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining on this vote.

□ 1206

Mr. MCNERNEY changed his vote from “yea” to “nay.”

So the previous question was ordered.

The result of the vote was announced as above recorded.

Stated for:

Mrs. NAPOLITANO. Madam Speaker, on Thursday, March 19, 2009, I was absent during rollcall vote No. 142 in order to attend an event with the President in my district. Had I been present, I would have voted “yea” on ordering the previous question to H. Res. 257—Which provides for consideration of motions to suspend the Rules.

The SPEAKER pro tempore. The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. Ross). Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

TAXING EXECUTIVE BONUSES PAID BY COMPANIES RECEIVING TARP ASSISTANCE

Mr. RANGEL. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1586) to impose an additional tax on bonuses received from certain TARP recipients.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1586

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. BONUSES RECEIVED FROM CERTAIN TARP RECIPIENTS.

(a) IN GENERAL.—In the case of an employee or former employee of a covered TARP recipient, the tax imposed by chapter 1 of the Internal Revenue Code of 1986 for any taxable year shall not be less than the sum of—

(1) the tax that would be determined under such chapter if the taxable income of the taxpayer for such taxable year were reduced (but not below zero) by the TARP bonus received by the taxpayer during such taxable year, plus

(2) 90 percent of the TARP bonus received by the taxpayer during such taxable year.

(b) TARP BONUS.—For purposes of this section—

(1) IN GENERAL.—The term “TARP bonus” means, with respect to any individual for any taxable year, the lesser of—

(A) the aggregate disqualified bonus payments received from covered TARP recipients during such taxable year, or

(B) the excess of—

(i) the adjusted gross income of the taxpayer for such taxable year, over

(ii) \$250,000 (\$125,000 in the case of a married individual filing a separate return).

(2) DISQUALIFIED BONUS PAYMENT.—

(A) IN GENERAL.—The term “disqualified bonus payment” means any retention payment, incentive payment, or other bonus which is in addition to any amount payable to such individual for service performed by such individual at a regular hourly, daily, weekly, monthly, or similar periodic rate.

(B) EXCEPTIONS.—Such term shall not include commissions, welfare or fringe benefits, or expense reimbursements.

(C) WAIVER OR RETURN OF PAYMENTS.—Such term shall not include any amount if the employee irrevocably waives the employee's entitlement to such payment, or the employee returns such payment to the employer, before the close of the taxable year in which such payment is due. The preceding sentence shall not apply if the employee receives any benefit from the employer in connection with the waiver or return of such payment.

(3) REIMBURSEMENT OF TAX TREATED AS TARP BONUS.—Any reimbursement by a covered TARP recipient of the tax imposed under subsection (a) shall be treated as a disqualified bonus payment to the taxpayer liable for such tax.

(c) COVERED TARP RECIPIENT.—For purposes of this section—

(1) IN GENERAL.—The term “covered TARP recipient” means—

(A) any person who receives after December 31, 2007, capital infusions under the Emergency Economic Stabilization Act of 2008 which, in the aggregate, exceed \$5,000,000,000,

(B) the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation,

(C) any person who is a member of the same affiliated group (as defined in section 1504 of the Internal Revenue Code of 1986, determined without regard to paragraphs (2) and (3) of subsection (b)) as a person described in subparagraph (A) or (B), and

(D) any partnership if more than 50 percent of the capital or profits interests of such partnership are owned directly or indirectly by one or more persons described in subparagraph (A), (B), or (C).

(2) EXCEPTION FOR TARP RECIPIENTS WHO REPAY ASSISTANCE.—A person shall be treated as described in paragraph (1)(A) for any period only if—

(A) the excess of the aggregate amount of capital infusions described in paragraph (1)(A) with respect to such person over the amounts repaid by such person to the Federal Government with respect to such capital infusions, exceeds

(B) \$5,000,000,000.

(d) OTHER DEFINITIONS.—Terms used in this section which are also used in the Internal

Revenue Code of 1986 shall have the same meaning when used in this section as when used in such Code.

(e) COORDINATION WITH INTERNAL REVENUE CODE OF 1986.—Any increase in the tax imposed under chapter 1 of the Internal Revenue Code of 1986 by reason of subsection (a) shall not be treated as a tax imposed by such chapter for purposes of determining the amount of any credit under such chapter or for purposes of section 55 of such Code.

(f) REGULATIONS.—The Secretary of the Treasury, or the Secretary's delegate, shall prescribe such regulations or other guidance as may be necessary or appropriate to carry out the purposes of this section.

(g) EFFECTIVE DATE.—This section shall apply to disqualified bonus payments received after December 31, 2008, in taxable years ending after such date.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. RANGEL) and the gentleman from Michigan (Mr. CAMP) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

Mr. RANGEL. First of all, Mr. Speaker, I want to thank Congressman PETERS, Congressman ISRAEL and Congresswoman MALONEY for coming together and working with the committee to see how, the best we could, right a wrong.

Most all Americans believe that a bonus is something that is paid as a reward for a job well done. And certainly we don't believe in the House that when a handful of people receiving taxpayers' money for threatening the community in which we live, and indeed our country and the financial structure of the world, the whole idea that they should be rewarded millions of dollars is repugnant to everything that decent people believe in. But notwithstanding that, it is not our job to tell the private sector what to do; it is our job to say you don't do it at taxpayers' expense.

All this bill does is just pull out that part that they called bonus. And if you received, or the company received, \$5 billion of taxpayers' money, we say the tax that you will pay on this is 90 percent. The rest of your income would be at the regular rate of 35 percent. If, indeed, this combination of the so-called bonus reward is combined with the regular salary and reaches a cap of \$250,000, only the regular 35 percent would count.

Maybe somewhere along the line someone might say, “I don't deserve this, we've caused enough damage, people have lost their jobs, their savings, they've lost their homes, their health insurance, they've lost their dignity, they've lost their pride, and we don't deserve to take this money from the taxpayers.” Then give it back, don't receive it, and the law certainly would not apply. But if you're proud of what you've done, we are saying the buck is going to stop here, the red light is flashing. And anyone thinking about doing this, we say you just pay your

dues to the IRS because we're going to be watching this.

Mr. Speaker, we're not trying to punish anybody, we just say do what you have to do. Rewards are subjective, but you don't do it with taxpayers' money.

At the end of the day, I do hope that this will be a message that will be sent in a bipartisan way. We may have differences in how we resolve this problem in the future, but this problem is there, and we are saying to the IRS and to the commissioner that we really want to make certain that, at the end of the day, they're not the ones that caused the problem and then get rewarded for it.

Mr. Speaker, I reserve the balance of my time.

□ 1215

Mr. Speaker, I reserve the balance of my time.

Mr. CAMP. Mr. Speaker, at this time I yield 1 minute to the distinguished minority leader.

Mr. BOEHNER. Mr. Speaker and my colleagues, I caught a little grief 5 weeks ago when we had the stimulus bill on the floor. Remember the 1,100-page bill that no one had time to read and then no one did read? Obviously, the President didn't have time to read it either, because in that bill was this one sentence, this one sentence that made it clear that someone knew that these AIG bonuses were about to be paid, and they didn't want them stopped. So somehow in the dark of night, this one sentence was added to the bill so that AIG would pay these bonuses to their executives. This language wasn't in the House bill. This language wasn't in the Senate bill. This language showed up in the dead of night, and no one got to see it.

I'm wondering where did the language come from. Who wrote it? Who asked the conferees to put it in the bill? What conferees on the part of the House agreed to this? I'm looking for somebody to put their hand up. That's the whole issue.

This political circus that's going on here today with this bill is not getting to the bottom of the questions of who knew what and when did they know it? Somebody was responsible for drawing up this language. Someone brought it to the conferees. Someone brought it to the Democrat leadership, who wrote this bill in secret, and put this language in there. But we have no idea who it was.

Secondly, the bill that's before us attempts to recoup 90 percent of these bonuses. Why 90 percent? The American people are outraged. I'm outraged. And we just voted down an opportunity to bring a bill to the floor from our freshmen Members that said, real simple: We ought to get 100 percent of this money back. We can get 100 percent of it back because the Treasury Secretary has the ability to get it all back. The

administration has the ability to get it all back. Why don't we just get it all back? And why are we bringing this bill to the floor today to give Members political cover when, in fact, the Treasury Secretary has the authority, the administration has the authority, to get all of it back? But, no, that got voted down. Our bill would have been a better bill.

Thirdly, our colleagues Mr. LATOURETTE and Mr. MCCOTTER have introduced a resolution of inquiry to get all of the documents surrounding communications between the Treasury, the Fed, and AIG to understand who was in the middle of this conversation. People have known about this for months, and yet we just found out about it over the last 48 hours. So we want this resolution of inquiry to be passed by the committee. We want to get to the bottom of all of this. But in the meantime, do we have to have this political charade of bringing this bill out here? I don't think so.

I think this is a bad bill with bad consequences. We didn't see the bill until last night. Nobody in the committee marked it up, nobody debated it, and nobody understands the consequences of what we're about to do. How can we possibly vote "yes" on a bill like this?

Mr. RANGEL. Mr. Speaker, let me try to answer a couple of questions.

Whatever point the minority leader was making as to what happened in the Senate bill, he should have an inquiry and do whatever he has to do. I can say, as a conferee, that issue never was in conference.

Having said that, it doesn't mean whatever he comes up with with his inquiry that these people deserve to have these bonuses at taxpayer expense. And that's the issue before the floor. It has nothing to do with what was in conference. It has everything to do with, do these people deserve, at taxpayers' expense, to receive these types of bonuses?

The second thing is that, while it's only 90 percent Federal, there is local and State liability, and they're entitled in their 10 percent to take a look at that and make the decisions that they have to.

Mr. Speaker, I want to now yield 1 minute to my friend and colleague from New York, Congressman ISRAEL.

Mr. ISRAEL. I thank the distinguished chairman for giving me the honor of cosponsoring this legislation with him.

Mr. Speaker, we have just seen the difference between rhetoric and action. We can finger point. We can lay blame. We can talk about the past. We just want to recover the taxpayers' money for them. We want to recover the money, and others want a resolution of inquiry.

Mr. Speaker, this vote is the difference between solving the problem or

continuing the problem. We're going to cast this vote and go home to our districts, and the American people are going to say to each of us, did you get my money back or did you continue your posturing? Did you get my money back or did you continue in politics? Did you vote to recover my money or did you vote to allow them to get away with my money? That's what this is about, Mr. Speaker.

The American people have had it with the posturing and the partisanship and the politics. They want their money back. And the only way to get their money back, Mr. Speaker, the only way to get it back is to tax it back.

Let me say one other thing, Mr. Speaker. I have heard from some of my friends in New York who said this is unfair. It's unfair because I thought I'd get my bonus. Mr. Speaker, they're going to have to tighten their belts just like the rest of America.

Mr. CAMP. Mr. Speaker, I yield myself 2 minutes.

Frankly, the chairman of the Ways and Means Committee and I agree that bypassing the committee is a dangerous way to legislate. That invites unnecessary errors, and I think the stimulus bill is proof positive, and that's why we are here today. But again we are faced today with a bill that has had no public scrutiny and has not come before the Ways and Means Committee. Mr. Speaker, let us do our jobs.

When Congress acted to stave off an imminent financial and economic collapse, the results of which would have been Depression-era unemployment levels, we did so with faith that past and current administrations would carefully manage the people's money. That trust has been shattered. Lesson learned.

What has been particularly troubling is the difficulty with which the truth has come out recently. After many varying and contradictory excuses, we now know that the Obama administration, working behind closed doors, secretly eliminated provisions that would have prevented the appalling abuse of taxpayer money. Adding insult to injury, they explicitly protected bonuses at companies that in many cases are operating only due to the generosity of the American people. It's a breach of the public trust that should have the Treasury Secretary, who repeatedly failed to pay his own taxes, looking for a new job.

Several of my colleagues on this side of the aisle and even Chairman RANGEL have noted good reasons to oppose the bill before us. It's an extreme use of the Tax Code to correct an extreme and excessive wrong done to the American people. I'm sure we'll hear today that two wrongs don't make a right. But neither does inaction. It is our duty to protect and defend hardworking tax-

paying Americans. At the end of the day, this insult to taxpayers cannot, should not, and will not stand, and I urge my colleagues to vote for the measure.

Mr. RANGEL. Let me thank my leader, the ranking Republican on the committee, for pointing out that this is, and I agree, an extraordinary procedure. And I've given a lot of thought to it. And it just seemed that this is an extraordinary situation when President Bush and Secretary Paulson would come to the Congress and ask for \$700 billion of taxpayers' money, and if we didn't do it in a week or two, the sky would fall not only in the United States but around the world. If, indeed, people among that group of people, who without regard to the people that we were trying to protect, take this money, then it calls for an extraordinary response to it.

So I feel very, very comfortable in saying we tried to look at the arsenal that we had, whether it's the Justice Department, the Finance, the American people demand protection, and that's what we're doing today with your help.

Mr. Speaker, I would like to call on a senior member of the committee, my friend from Michigan, Congressman LEVIN, for 1 minute.

Mr. LEVIN. Mr. Speaker, it's interesting to hear the debate from the other side. I guess some are going to vote "yes," and I hope the vast majority will, after trying to make political points. This isn't the time for that. We are in the midst of a national economic crisis. Almost 4½ million jobs lost during this recession, homes are being lost. I think everybody has to participate in the solution and no one should exploit it.

In one bonus payment, these executives, who worked in the division that helped bring about the havoc, are taking home more money than 99 percent of Americans take home in a year.

The head of AIG has suggested their returning the bonuses. They should. And if they don't, we're taking action. We have the authority under the Tax Code not to punish but to protect the taxpayers of the United States of America. That's what we are doing today, and we should pass this overwhelmingly.

Mr. CAMP. Mr. Speaker, I yield 1 minute to a distinguished member of the Ways and Means Committee, the gentleman from California.

Mr. NUNES. Mr. Speaker, what we should really do here today is slow down.

What I want to know is who's responsible for including this in the stimulus package, authorizing these bonuses? We need to know if it's Senator DODD, if it's Secretary Geithner, or President Obama. Who knew and who knew when? So, to me, if we're looking at whom to blame for this, we ought to be

looking at the folks that voted for the bailout, that voted for the stimulus bill. Every Republican opposed the stimulus bill.

I believe this is a gimmick. I don't think this bill will become law. I don't even know if it's constitutional. This bill never even went through regular order.

I think what we should do today is calm down, stop this process, and go meet in the Ways and Means Committee so that we can go through this bill and determine whether or not this is the right course of action. So today I ask my colleagues to just slow down. Let's read the legislation. Let's not vote on this today. And let's come up with a real solution and not just a gimmick.

Mr. RANGEL. Mr. Speaker, as chairman of the Ways and Means Committee, I've taken a deep breath and am now relaxed. I have reviewed this thing, and I am going home saying we have got the taxpayers' money back. And our colleagues and friends and those who love America as much as I do are saying, hey, slow down, we've got to make an inquiry.

You make your inquiry; we're going to do what we have to do.

Mr. Speaker, I am pleased to present a young man that is a freshman who hasn't been here that long but he came here with a feeling about what is moral, what is just, and the committee appreciates his advice on this bill, Representative PETERS from Michigan, for 1 minute.

Mr. PETERS. Mr. Speaker, today I rise in support of H.R. 1586, legislation that I helped craft that will reclaim outrageous bonuses paid with our taxpayer dollars that were given out to AIG and other companies that received billions in TARP funds. Million-dollar bonuses to the very people who drove our economy to the brink of collapse is simply unacceptable.

When reports of AIG bonuses broke this week, many said there was nothing that we could do because AIG was contractually obligated to pay the rewards. I rejected that notion. Auto industry workers are renegotiating their contracts and making sacrifices as a condition of receiving Federal support. If financial executives had thought that they should be held to a different standard, today they know that we mean business.

□ 1230

I am grateful to my colleagues who worked with me to quickly develop a plan to put a stop to these outrageous bonuses.

I would like to thank Chairman RANGEL, Congressman ISRAEL, and Congresswoman MALONEY for working with me to help write this bill, which turned the outrage of the American people into action for the American taxpayer.

Mr. CAMP. I yield 1 minute to the distinguished gentleman from Nebraska.

Mr. TERRY. The public has an absolute right to be upset, and I share that. But let's look at the facts here. This language that specifically allows the bonuses was written into the stimulus, with the righteous indignation of my colleagues and friends on the Democrat side now demagoguing what they voted for and put in.

Another fact: no Republican was allowed in the room when that conference report was actually written. We do know four people that were involved in writing that: one was Senator REID, Senator DODD, who has claimed responsibility for that language and accepted \$200,000 in donations from AIG; we know Speaker PELOSI was in the room; and we know BARNEY FRANK was, too, probably Secretary Geithner.

Another fact was that the original language, before it got into that private little room, said that bonuses would be banned. But yet they replaced it with specific language allowing the bonuses.

So what we see here today, with the people who actually voted for the bonuses, is a little CYA, a disingenuous attempt to cover their rears.

Mr. RANGEL. Madam Speaker, it seems like my friends on the other side got the wrong bill. If you want support for an inquiry, let's talk about it.

We want the taxpayers' money back, no matter who is wrong. So talking about the inquiry, we are talking about recouping the taxpayers' money.

I yield to my friend, Mr. BLUMENAUER, from Oregon.

Mr. BLUMENAUER. Thank you, Mr. Chairman. I appreciate your leadership and the ability to work with you on this bill on what has been a sharp reversal of past practice.

In most of my career here, we have watched the Tax Code twisted, stretched, bent to lavish rewards on a tiny minority of Americans, a few thousand of the richest Americans, and the favored special interests.

Today, in a sharp reversal, under your leadership, we used the Tax Code to rebalance the scales. We will use the Tax Code to strip away the outrageous benefits of these bonuses to some of the people who helped drive the economy into the ditch in the first place.

We are helping protect taxpayers, get their money back, and I hope, Mr. Chairman, sending a message on how the Tax Code will be used under the Obama administration and in your work on the Ways and Means Committee to be able to help the American public as we move forward to protect and rebalance the American economy.

Mr. CAMP. I yield 1 minute to the distinguished gentleman from Texas (Mr. GOHMERT).

Mr. GOHMERT. Madam Speaker, here, once again, we are going to hastily do something wrong, good intentions. There is nobody in this Congress that wants that money back more than I do.

But going back to September, going back to the stimulus, spendulus, going back to the omnibus, we hastily went through this stuff. Some of us said don't go so fast, and we can make sure we got a better bill, and we didn't do that.

So here we are, going to hastily shred the Constitution, with an ex post facto law that says we will take 90 percent as taxes.

Mr. Speaker, that's not right. We don't take bad law and make worse law shredding the Constitution. You want to get it back, I want more than 90 percent. I want 100 percent.

You do that by forcing them into bankruptcy, going back and putting these preferences aside so we can get 100 percent, and we can get more than just the bonuses in bankruptcy or receivership. That's constitutional.

Don't shred the Constitution after we have already messed up by blowing aside the procedure and doing the hastily wrong thing.

Mr. RANGEL. Well, there is no constitutional challenge here, I can assure you. But one thing may be clear, I may be supporting an inquiry as to who did the stimulus, schpimulus.

The people want to know, are these guys going to get away with what they have done to our communities, what they have done to our homes, what they have done to our pride, what they have done to our country, and what they have done for the world?

So when the score is taken, it is going to be those who voted for the bill and those who voted against it. And that's it. You can go on with your inquiry, but this bill is abundantly clear, and the question is which side are you on?

I yield 1 minute to the distinguished member of the Ways and Means Committee from Florida, Representative MEEK.

Mr. MEEK of Florida. Mr. Chairman, thank you so very much for bringing this bill to the floor.

The bottom line is, at the top of this week, when we all learned what happened with the bonuses and all, the American people wanted to know what the Congress was going to do as it relates to these taxpayer dollars that are being used for the bonuses.

Are you going to get our money back, are you going to file an inquiry? No one called me, no one called my district office and said, "Congressman, please go to Congress and file an inquiry about what happened with my taxpayer dollars." They are saying, "Get it back, get it back now."

Now the other side is talking about the Constitution and wrapping themselves in the flag right now saying that, "oh, my goodness, we are shredding the Constitution." Well, that's the pot calling the kettle black, as far as I am concerned. Because the Supreme Court, and courts throughout the land,

there are unconstitutional measures that have been brought to this floor, and that's up for the courts.

But as far as I am concerned, what we are being told, that this is fine. This language is well in order, and we are going to pass this legislation. So you have to vote up or down.

You can't come with excuses. The bottom line is we are getting the taxpayer dollars back.

PARLIAMENTARY INQUIRIES

Mr. GOHMERT. Parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. GOHMERT. Is it inappropriate and against the rules to ask another person to yield?

The SPEAKER pro tempore. Any Member can ask another Member under recognition to yield.

Mr. GOHMERT. Further parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. GOHMERT. Is it inappropriate, when somebody accuses me of being the pot calling the kettle black, in other words, of being the very thing I am accusing others of doing, of asking the gentleman to yield so I can find out where the heck he is coming from?

The SPEAKER pro tempore. That is not a parliamentary inquiry.

Mr. GOHMERT. So it's inappropriate to ask?

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. GOHMERT. The parliamentary inquiry is, if I am allowed to ask someone to yield after they have called me a name?

The SPEAKER pro tempore. That is not a parliamentary inquiry.

Mr. GOHMERT. So you are saying you don't know whether I can ask another person to yield?

The SPEAKER pro tempore. A Member under recognition is allowed, by House Rules, to determine who they will or will not yield to.

Mr. GOHMERT. All right. So, would it be inappropriate to ask the gentleman who controls the time to specify how I am shredding the Constitution when I say someone else is doing so?

The SPEAKER pro tempore. That's not a parliamentary inquiry.

Does the gentleman have another parliamentary inquiry?

Mr. GOHMERT. I think you have pretty well taken care of that.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will remind all persons in the gallery that they are here as guests of the House, and that any manifestation of approval or disapproval of proceedings or other audible conversation is in violation of the rules of the House.

Mr. CAMP. I yield 1 minute to the distinguished gentleman from Indiana (Mr. BURTON).

Mr. BURTON of Indiana. I thank the gentleman for yielding.

The stimulus bill was 1,100 pages. My good friend, CHARLIE RANGEL, signed that. And in that was this language that was stuck in in the middle of the night that allowed for all these bonuses to be paid to AIG executives.

CHARLIE, you signed that, and nobody on our side voted for it, and nobody on our side read the bill, and nobody on your side read the bill. And that's because they were trying to sneak this through in the middle of the night without anybody knowing it.

In my opinion, this is a way that you cover up a big mistake that was made by you and the conferees. This should never have happened. These bonuses should never have happened. And now you are trying to do something that's of questionable constitutionality to cover up a big mistake. I don't know why you just don't own up to it.

This is something that should not have happened. This is something that the Democrats, my good friend, CHARLIE, and others signed on to, it's a bill that nobody read in this Chamber, and we certainly didn't vote for it.

And now you are saying if we don't vote for this cover-up that you are coming up with, we are the bad guys. We are not. The American people won't be fooled by this.

Mr. RANGEL. Let me say to my friend that you have to look at me and read my lips.

This issue was not before the conference committee. Now, it may have been on the other side.

And after I say that, I am telling you that this has nothing to do with this being the right time to correct anything that you allege is wrong. These people are getting away with murder. They are getting paid for the destruction that they have caused our communities.

And before we leave here, we have to decide not what they did on the other side, because no one back home was asking about the conference report, they are asking, "Are these people going to take away bonuses that taxpayers have paid for?"

And I think that DANNY DAVIS, the gentleman from Illinois, might be in a better position to explain our position in the majority, for 1 minute.

Mr. DAVIS of Illinois. Thank you very much, Mr. Chairman.

Mr. Speaker, where I live on Main Street in America, if you get something that you didn't deserve, or if you get something that was unwarranted, you either give it back or it's taken back. It's my position that these bonuses were unwarranted, not deserved.

If they are not going to give them back, then we are going to take them back, and I know that the people in mainstream America will applaud us.

PARLIAMENTARY INQUIRY

Mr. BURTON of Indiana. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. BURTON of Indiana. My good friend, Mr. RANGEL, took some time to make a statement just a moment ago.

Did he claim any time when he made that statement?

The SPEAKER pro tempore. The gentleman from New York is always charged his allotted time whenever he is speaking.

Mr. BURTON of Indiana. But it was charged to him, the time?

The SPEAKER pro tempore. The gentleman from New York and the gentleman from Michigan, while they are on their time, are charged for that time.

Mr. BURTON of Indiana. Thank you.

Mr. CAMP. At this time I yield 1 minute to the distinguished gentleman from Texas (Mr. BURGESS).

Mr. BURGESS. I thank the gentleman for the recognition.

Mr. Speaker, the President most recently in his inaugural address said, and I am quoting, "And those of us who manage the public's dollars will be held to account—to spend wisely, reform bad habits, and do our business in the light of day—because only then can we restore the vital trust between a people and their government."

Well, I agree wholeheartedly with the President's statement.

Now, if we expect the American people to trust the decisions we are making with their hard-earned money, we, ourselves, must be accountable.

Now, it is a fact that, as Members of Congress, we earn a base pay. Members of leadership earn an amount above that, essentially a bonus, a performance bonus. If this bill were under a rule, I would have an amendment, and the Burgess amendment very simply would tax that extra pay, the bonuses that we give leadership, on top of their congressional salary. The Democrats' leadership solution is to impose a huge tax on bonuses.

But what about raising the tax on their own performance bonuses? Again, Mr. Speaker, how can we expect to be able to restore the vital trust between the people and this government, as the President stated, if we will not first hold ourselves accountable?

AMENDMENT

OFFERED BY MR. BURGESS OF TEXAS

At the end, add the following:

SEC. 2. APPLICATION OF TAX TO CONGRESSIONAL LEADERSHIP.

(a) IN GENERAL.—In the case of a member of Congressional leadership—

(1) so much of the annual rate of pay of such member as exceeds the annual rate of pay of a Member of Congress who is not a member of Congressional leadership shall be treated as a TARP bonus for purposes of section 1, and

(2) the Federal Government shall be treated as covered TARP recipient for purposes of such section.

(b) MEMBER OF CONGRESSIONAL LEADERSHIP.—For purposes of this section, the term “member of Congressional leadership” means the President pro tempore of the Senate, the majority leader and minority leader of the Senate, the Speaker of the House of Representatives, and the majority and minority leader of the House of Representatives.

Mr. RANGEL. May I inquire as to the time remaining on both sides?

The SPEAKER pro tempore. The gentleman from New York has 7¾ minutes remaining, and the gentleman from Michigan has 12½ minutes remaining.

Mr. RANGEL. Mr. Speaker I would like to yield to a distinguished member of the Ways and Means Committee, Mr. ETHERIDGE, 1 minute.

Mr. ETHERIDGE. I thank the gentleman for yielding.

Mr. Speaker, I thank the chairman for bringing this bill forward, we are all outraged, as we should be. It affects every American. The fact that they are using public money to pay bonuses should enrage everyone.

Taxpayer funds should not be used to reward the individuals whose excessive risk-taking caused the financial crisis that has harmed the livelihood of my constituents in North Carolina, people across America and people around the world.

We ought to be outraged. We ought to be together on this. There shouldn't be a division on this issue. There is room for that on others. We should not reward Wall Street traders who have done this, at the expense of people, not just people on Main Street, to people who live on rural roads all across this country.

Mr. Speaker, you know, we voted for this package originally to put money in banks, to lend to people, to buy cars, to save for homes, to pay for college education, to do the things that make a difference and help America grow. And here we are today taking care of the very scoundrels that got us into this mess.

I urge my colleagues to vote for it.

If AIG will not halt these bonuses, and if its employees will not voluntarily turn them down, then this bill will ensure that the money is returned to the taxpayers. I regret having to use the tax code in this manner, but the blatant abuse of taxpayer dollars by AIG leaves us with no other choice. This bill will send a message not only to AIG, but to other companies receiving taxpayer aid that this behavior is unacceptable.

□ 1245

Mr. CAMP. I yield 1 minute to a distinguished member of the Ways and Means Committee, the gentleman from Texas (Mr. BRADY).

Mr. BRADY of Texas. There's no question everyone wants these bonuses returned. That isn't an issue before us today. Taxpayers have a real simple question: When did the White House know about these bonuses, and why didn't they stop them?

The government owns AIG, for heaven's sake, so don't tell me they couldn't have stopped them if they truly would have wanted to.

The bill before us today really is a diversion—an attempt to shift the blame from Democrats who, at the last moment, got approval for these bonuses snuck into the stimulus bill. For our folks back home, the President has said honestly, he didn't know this provision is in the bill. Yet his own White House made the request and they complied with the bill.

Let's not cover up the truth here. Let's get the real answers. That's what taxpayers deserve.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the gentleman from Alabama (Mr. DAVIS).

Mr. DAVIS of Alabama. Thank you, Mr. Chairman. Here we go again. This Congress is finally doing the right thing in a timely fashion, recovering ill-gotten gains. What do the American people do? They turn on the television and they hear this turned, once again, into a partisan controversy, an effort to deflect blame onto the other party, instead of celebrating the fact that we have a chance to do something together as an institution.

This is the heart of the problem, Mr. Chairman. To the many people watching this broadcast now, listening to these proceedings, there are two sets of rules—one set of rules for people who are trying to send their kids to college, who are trying to make a living, but making sacrifices during this incredibly deep recession; and another set for rules for these Wall Street geniuses who are so smart, they figured out how to wreck a company so completely to almost wreck a national economy. That does take a level of skill, I suppose, to figure that out, how to be that bad at doing anything.

We are recouping those ill-gotten gains. And the American people ought to be glad to see this prompt, decisive action. Instead, they are hearing more partisan back and forth.

Mr. CAMP. At this time I yield 2 minutes to the distinguished gentleman from Indiana (Mr. PENCE).

Mr. PENCE. Like a majority of Republicans in Congress last fall, I opposed this Wall Street bailout from the beginning because I feared both the intended consequences and the unintended consequences that would come and bring us to days like today.

House Republicans share the outrage of millions of Americans that AIG would use taxpayer dollars to award executive bonuses. But the plan brought to the floor today by the Democratic majority is a constitutionally questionable bill. It would enact a 90 percent tax on AIG employees and, the truth is, it's a transparent attempt to divert attention away from the fact that Democrats in Congress and this administration made these bonus payments possible.

House Republicans believe the American people deserve 100 percent of their money back. We have offered legislation that would deny one more dime of bailout money to AIG until they collect 100 percent of those bonuses back for the American people. But Democrats have blocked the Republican plan. And the American people deserve to know this entire outrage that has dominated the national debate this week could have been avoided.

Senator RON WYDEN, the Democrat from Oregon, authored thoughtful legislation in the so-called stimulus bill that passed the House. It was legislation that would have banned bonuses of this type but, to use his words, he said “It was unfortunate that it was stripped from the bicameral conference committee.” He said, “We had an opportunity to send a well-targeted message that would have communicated how strongly the administration felt about blocking these excessive bonuses,” but, “I wasn't able to convince them.”

Senator DODD, the chairman of the bicameral conference committee, said the administration expressed reservations about the language. They asked for modifications.

The truth is that Democratic leadership in the House and the Senate were in the room when this language was struck that made these bonuses possible.

The American people deserve to get 100 percent of their money back. They deserve it to be done in a way that doesn't give offense to the Constitution of the United States of America.

Let's do what's right for the American people, and let's speak the truth.

Mr. RANGEL. I would like to yield 1 minute to the gentleman from Colorado (Mr. POLIS).

Mr. POLIS. The power to tax is the power to destroy. I will support destroying this creeping socialism imposed on us by the Bush administration before it takes over our entire economy. Executives and boards of private companies must know that to call in the Federal cavalry means that you will be run out of town when you misbehave.

Businesses beware. You do not want the Federal Government or the American people owning your business. We will hunt down your executives with pitchforks, we will subpoena your boards and haul you before Congress, we will use personal rhetoric to decry your greed, we will make life miserable.

And no, our cruelty will not be reserved just for your executives. Your workers will be bureaucratized, your competent managers squeezed out, your conferences and travel canceled.

I am proud to support this bill, and hope that it serves as a siren call to executives, shareholders, and workers to oppose nationalization of your companies.

In voting for this bill today, Mr. Speaker, we are demonstrating that there is a fate worse than death, and this is it. And if your business might be "too large to fail," then, by all means, spin off divisions and downsize, because too big to fail seals a purgatory stay of abject misery.

Pillage not our public troughs yet ye be pillaged.

The power to tax is the power to destroy. I will support destroying this creeping socialism imposed on us by the Bush administration before it takes over our entire economy. Executives and boards of private companies must know that to call in the federal cavalry means that you will be run out of town when you misbehave.

I am reminded of Emperor Alexius I of Byzantium, who called forth the Christian kings of western Europe to help him hold off the Turks at his gates. Help us, he said, prevent the heathens from taking the holy land.

The Christian kings of the west responded in force. At first the crusades served Alexius's goals. But with time many crusaders saw a richer and easier target in Constantinople itself, and the hordes from the west looted the very emperor's domain who had called them forth.

Businesses beware, you do not want the federal government or the American people owning your business. We will hunt down your executives with pitchforks, we will subpoena your boards and haul you before Congress, we will use personal rhetoric to decry your greed, we will make life miserable. And no, our cruelty will not be reserved for your executives. Your workers will be bureaucratized, your competent managers squeezed out, your conferences cancelled, your work hours extended, your incentive structure turned upside down. I dare say that with a different party in the white house and congress as is unfortunately the case from time to time, your union will be busted and your jobs lost.

I will be supporting this bill, and hope that it serves as a siren call to executives, shareholders, and workers to oppose nationalization of your companies. In voting for this bill today, Mr. Speaker, we are demonstrating that there is a fate worse than death, and this is it.

And if your business might be "too large to fail" then by all means please spin-off divisions and downsize; because too big to fail seals a purgatory stay of abject misery.

Mr. CAMP. I yield 1 minute to the distinguished gentleman from New Jersey (Mr. LANCE).

Mr. LANCE. On opening day, January 6, our leader, Mr. BOEHNER, indicated that we would provide better solutions to the issues confronting the American people. Obviously, on a bipartisan basis, Congress wishes to address this issue, and to address this issue as quickly as possible.

House Republican Members on the Republican side—freshmen—have a better solution, we believe. Our solution—and I'm sorry it's not debated on the floor—the House Republican freshmen would demand that Treasury, notwithstanding any other provision of law, implement a plan within the next

2 weeks to recoup 100 percent of the payment of AIG bonuses.

Also, the freshmen plan on our side says that any future bonus payments of any kind to TARP recipients must be approved in advance by the Department of the Treasury. Third, any future contractual obligations entered into by TARP fund recipients to make bonus payments of any kind must be approved in advance by the Treasury.

We commend to our friends in the majority our freshman Republican proposal in the spirit of bipartisan cooperation.

Mr. RANGEL. I certainly wish I'd heard the Republican freshmen proposal before, because we really wanted to get a bipartisan solution to this problem.

I yield 1 minute to the gentleman from Illinois (Mr. HARE).

Mr. HARE. I thank the chairman.

Mr. Speaker, today we have been told to slow down, take a deep breath. Well, I'm not in the mood for slowing down and I'm not taking a deep breath.

I was in a grocery store and had people coming up, saying, What are you going to do about it?

My friends on the other side have spent the largest portion of the debate today finger-pointing, wondering who said what; who wrote what, when. I do know this. When this vote is called, that board will have red lights and green lights next to every Members' name. And the chairman is absolutely right—for those Members who feel that they cannot and don't want to make sure that these people get their bonuses, they will vote for Mr. RANGEL's bill. For those of you who want to continue to dole it out to the people who deserve it the least, then you're going to have a red light next to it.

I will have a green light next to my name. I am tired of this. These people have stolen the very money that is supposed to help keep people in their homes.

Don't ask me to slow down and don't ask me to be patient. My patience has run out.

I thank the chairman for his work on this bill. And if anybody wants to worry about the constitutionality, you take it up with the court.

Mr. CAMP. I yield 1 minute to the distinguished gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. Mr. Speaker, it is a sad day in Congress when the main justification for passing legislation we don't understand is that we are correcting legislation we didn't read.

We keep hearing that we have got to do this because our constituents are demanding it; that they want to see these executives tarred and feathered.

George Washington once said, "If to please the people we do what we ourselves disprove, how do we later defend our work?" That is the position we are in today.

This is a representative democracy. Our constituents may not understand that this is a bill of attainder, but we know that. We are the representatives of the people—and we know that. And it's our duty to uphold the Constitution.

I don't like the fact that these executives got these bonuses—and we should find a way constitutionally to deal with this issue. But rushing to pass a bill we don't understand to correct a bill we didn't read, is not the solution here today.

Let's reject this proposal.

Mr. RANGEL. At this time I'd like to yield 1 minute to a person that was one of the prime movers in this concept, the gentlewoman from New York (Mrs. MALONEY).

Mrs. MALONEY. Thank you, Chairman RANGEL. New York is so proud of you. Thank you for your leadership. I stand in strong support of the Democratic leadership during this financial crisis.

On Sunday night, the bonuses were sent. On Thursday we are on the floor correcting this and returning the money to the American taxpayer. Rarely have I seen so many Members of Congress come forward with proposals to correct it.

Chairman RANGEL has molded all of the ideas together in this fine proposal before us today. If anyone wants to criticize someone, President Obama has said, "I'm in charge. Criticize me. But then let's get back to work, get our eye on the ball of moving this economy forward, putting Americans back to work, putting more credit out into the communities, stabilizing housing."

President Obama said, "When you're going in the wrong direction, you've got to change course." And under 55 days of his leadership, we have passed the economic recovery bill, we have passed a housing stabilization bill, we have passed measures to stabilize our financial institutions. We are investing in education and health care.

Vote positive. Vote for this bill.

Mr. CAMP. I yield 1 minute to the distinguished gentleman from Florida (Mr. STEARNS).

Mr. STEARNS. My colleagues, here are some facts. Last month, the Senate unanimously approved an amendment that would stop these bonuses. It was an amendment by OLYMPIA SNOWE of Maine and, of course, RON WYDEN from Oregon.

They had that in the bill. They went to the conference. The conference stripped out that amendment, bipartisan amendment, by Senator CHRIS DODD, a Democrat from Connecticut. All of you know that.

Now Mr. RANGEL is here on the floor saying he knew nothing about this conference report. Yet the amendment by Senators SNOWE and WYDEN was stripped out by Senator DODD. And I

find it very difficult, Mr. RANGEL, that you knew nothing about this amendment that was stripped out, explicitly exempting bonuses agreed to prior to the passage of the stimulus bill.

How in the world can you say you knew nothing about it? I've got the exact language from Senator DODD talking about his amendment which stripped out the amendment of Senator SNOWE and Senator WYDEN.

The fact is Republicans have a plan to include 100 percent of these bonuses. I ask Mr. RANGEL: Why didn't you take 100 percent of these bonuses?

The American people have a right to know what the administration knew, and when they knew it.

Mr. Speaker, I rise today to express my outrage at the AIG taxpayer-funded executive bonus giveaway and Senator DODD's and the Obama Administration's potential implication in ensuring AIG would be able to hand out hundreds of millions of taxpayers' dollars to executives who ran AIG into the ground contributing to a global economic crisis.

Insurance company AIG—which has been deemed “too big too fail”—has received \$170 billion in federal bailout money, yet this money has done little to stabilize the company. And now, millions of Americans awoke to news yesterday that their taxpayer dollars intended to prevent AIG from collapse are being funneled to AIG executives in the form of “bonuses.”

The most unfortunate part of this story is that a senior member of the Senate Democratic party offered an amendment allowing this to happen. The utter abuse of taxpayer dollars that we have seen through the TARP program due to lack of transparency and Democrat legislative neglect is staggering. But to know that these bonus payments could have been easily prevented is beyond disheartening. This atrocious abuse of taxpayer dollars must stop now.

Mr. RANGEL. Mr. Speaker, I yield 1 minute to the leader of our Democratic caucus, indeed, a leader in the Congress, the gentleman from Connecticut (Mr. LARSON).

Mr. LARSON of Connecticut. I thank the chairman for bringing this important legislation to the floor in all due speed, because it was necessary.

What is at stake here is really the full faith and credit of our system. When those in the private sector and on Wall Street and the great barons of capital can laugh up their sleeves at the American public that sacrifices on a daily basis, who find themselves unemployed, unable to educate their kids, out of work, and we are going to sit idle and allow them to receive these bonuses? This is wrong. And if we expect to govern as an institution, we have to do the extraordinary and set it right.

These are difficult and uncharted waters and uncharted times and it's time for us to act on behalf of the American people.

Thank you, Mr. RANGEL.

□ 1300

Mr. CAMP. I yield 1 minute to the distinguished gentleman from Georgia (Mr. GINGREY).

Mr. GINGREY of Georgia. Mr. Speaker, I rise in opposition to this majority mendacity bill, or maybe unrighteous indignation bill. You just heard it from the other side.

They want to say to the American people that we are going to make everything all right by getting back with a 90 percent tax this \$175 million. But what they don't say, Mr. Speaker, is how they are going to get back the \$170 billion that was given to AIG in the first place, 1,000 times these bonuses.

Yes, we are outraged over the bonuses; but on our side of the aisle, we are outraged over these bailouts and these giveaways, and there is nothing in this bill about getting the \$170 billion back.

Mr. Speaker, this is the Lenten season, so let me make a little analogy for my non-Catholic friends. This is like asking forgiveness for a mortal sin by saying one Hail Mary, one Hail Mary, this little bill to pass under suspension to get those bonuses back, when the real sin is the \$170 billion that was thrown away on AIG.

Mr. RANGEL. Let the church say “amen.”

I would like to yield 30 seconds to Congressman KRATOVIL from Maryland on this subject.

Mr. KRATOVIL. Mr. Speaker, once again, this body finds itself engaging in a classic example of partisan politics and the blame game. I am no longer interested in wasting any more time or any more taxpayer dollars arguing who is to blame for our failing economy, who is to blame for the AIG bonuses being paid, or who is to blame for a declining sense of personal responsibility we see not just among our AIG executives but across this country.

What I am interested in doing today is doing what we can do to recoup the taxpayer dollars that were used to pay AIG executives bonuses that not only did they not deserve but should be ashamed for having accepted. That is what this bill does.

Now, just so there is no confusion. This body voted to increase the oversight and accountability of the monies provided under TARP in the TARP Reform and Accountability Act. I voted for that legislation to address the exact issue that is now presented at AIG. 166 members of this House voted against it and many of them now stand up and criticize the lack of oversight with regard to these contracts. This country has had enough of partisanship and obstruction on one hand, combined with no solutions on the other.

In terms of the stimulus bill, the language in the bill provided more, not less restrictions on executive pay.

How can those who voted against additional restrictions on the TARP funds and against additional accountability, now stand up and with a straight face argue that we have not done enough.

The American people are tired of these old political games. What we need are solutions, not rhetoric.

Mr. CAMP. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Minnesota (Mrs. BACHMANN).

Mrs. BACHMANN. Mr. Speaker, I thank Mr. CAMP for yielding.

Now we find out that President Obama's stimulus bill, over \$1 trillion stimulus bill, was actually the AIG Bonus Protection Plan. This is a scandal of huge proportions that we are only now just unraveling. It appears that language was put in the stimulus bill that would prevent the United States Government from recouping these outrageous bonuses that were paid to executives at AIG.

The Republicans have a message, and it is this: We want 100 percent of these bonuses to come back to the United States taxpayer, and we say “time out” on these bailouts. No more bailouts. We don't want to see any more. They haven't been working, and the American people are saying enough is enough.

This is a scandal. We need to know, who knew about these bonuses? When did they know about them?

Yesterday in the Financial Services Committee, the CEO, Mr. Liddy, disclosed that the chair of the Federal Reserve knew about the bonuses and acquiesced to them. We are now finding out that the Treasury Secretary as well, or that Mr. Summers, also knew about these several weeks ago. We need an investigation and we need answers.

Mr. CAMP. I yield 1 minute to the distinguished gentleman from Utah (Mr. CHAFFETZ).

Mr. CHAFFETZ. A moment ago we heard you stand up and say that there is a question about whether or not the freshmen were engaged. You had questions about whether or not we would be bipartisan. Are you kidding me? Seriously. We have been here in this body. Look, I am a freshman; I didn't create this problem, but I am here to help clean it up. And the idea and the suggestion that there was no idea, no sense that the freshmen had an idea, because it would come from the Republican side of the aisle.

It is not in the spirit of this body to make a question about whether or not we are going to be participants in this. Absolutely, the Republicans have suggestions. We have been excluded from this process. We were promised time and time again that we would have time to see and read bills, and that has not happened.

I would encourage both sides of the aisle, but especially my friends on the Democratic side of the aisle, to stay true to their word and actually engage and allow us to participate in the dialogue that should be in the best interests of the United States of America and in this body.

Again, I didn't create this mess, but I am here to help clean it up. And any suggestion that says that you didn't know that there was a bill introduced, come on.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Members are reminded to direct their remarks to the Chair.

Mr. CAMP. I yield 1 minute to the distinguished gentleman from Arizona (Mr. SHADEGG).

Mr. SHADEGG. I thank the gentleman for yielding.

It occurs to me that, once again, Democrats in this House are acting in haste and we can repent in leisure. It seems to me fairly clear that there are questions that deserve to be answered.

Secretary Geithner began the week saying that he had only known about these bonuses for roughly 1½ weeks; and yet, yesterday Ed Liddy, the chairman of AIG, said that the Federal Reserve was told about these bonuses in December. Where was Mr. Geithner? How come he didn't act? If he didn't know back then when the bailout occurred, it seems to me he should have known.

Now, flash forward to yesterday again. Not just Mr. Liddy places doubt on what Mr. Geithner claims, but no less than Senator DODD says that, in February, he put the money into the bill at the request of the Treasury Department. Who was the head of the Treasury Department at that point in time? It was Secretary Geithner.

I would suggest that Secretary Geithner wants us to believe that when he was at Fed, he neither knew nor should have known and then, when he was the head of Treasury and the language was put in by the Secretary of the Treasury he neither knew nor should have known. I think there are questions that Mr. Geithner needs to answer before we are asked to vote on this bill.

Mr. RANGEL. I reserve the balance of my time.

Mr. CAMP. I yield myself the balance of our time.

The SPEAKER pro tempore. The gentleman from Michigan (Mr. CAMP) is recognized for the remaining 2½ minutes.

Mr. CAMP. Mr. Speaker, just briefly. We have a chance today to do the right thing by those who acted right, those who went to work every day, paid their taxes, and did nothing wrong, and that is the American taxpayer. This is their money, and we should get it back. I urge support for this legislation.

I yield back the balance of my time.

Mr. RANGEL. I thank the remarks of the other side, and I appreciate and have a great deal of respect for those Members that want to inquire about how these contracts came about, who knew what, and when did they know it.

The Ways and Means Committee has no jurisdiction over these questions,

whether they are valid or not. The real question is, do you really believe that people who did this damage to our families, to our community, to our country and, indeed, the world, deserve a bonus? If you want to know whether it is 90 percent or 100 percent or whether the State or local governments get the 10 percent, that is another question.

We are not always right, but what we are saying is that the American people do not want their taxpayers' money paying for bonuses for people who have caused such destruction, and to that we have unanimity.

So at the end of the day, when we put this on the suspension calendar, it is because we didn't think it was controversial. We didn't think it was a Democratic idea or a Republican idea. We thought you felt the frustration of your constituents in saying stop the thievery at taxpayers' expense.

Now, this has been going on. No one can deny this will not happen. I urge you to vote for this bill for the American people.

Mr. POLIS. Mr. Speaker, the power to tax is the power to destroy. Today I rise in support of H.R. 1586 and destroying the creeping socialism imposed on by the Bush Administration before it takes over our entire economy. Executives and boards of private companies must know that to call in the federal cavalry means that you will be run out of town.

I am reminded of Emperor Alexius I of Byzantium, who called forth the Christian kings of Western Europe to help him hold off the Turks at his gates. Help us, he said, prevent the heathens from taking the holy land.

The Christian kings of the west responded in force. At first the crusades served Alexius' goals, there were some initial "bonuses" such as the taking of Antioch and Jerusalem. But with time many crusaders saw a richer and easier target in Constantinople itself and soon the very forces that Alexius called forth looted his own capital and hastened the demise of the Byzantine Empire.

Businesses beware: You do not want the federal government or the American people owning your business. We will hunt down your executives with pitchforks, we will subpoena your boards and haul you before Congress, we will use personal rhetoric to decry your greed, we will make life so miserable that you will leave. And no, our cruelty will not be reserved for your executives. Your workers will be bureaucratized, your competent managers squeezed out, your travel and conferences cancelled, your work hours extended, your incentive structure turned upside down. I dare say that with a different party in the White House and Congress, as unfortunately happens from time to time, your union will be busted and your jobs lost.

I will be supporting this bill and hope that it serves as a siren call to executives, shareholders, and workers to oppose nationalization of your companies. By voting for this bill today, Mr. Speaker, we are demonstrating that there is a fate worse than death, and that this is it.

And if your business might be "too big to fail" then by all means, please spin-off divi-

sions and downsize because "too big to fail" means that you will end up in this eternal purgatory of misery, blame and scapegoating.

Let your companies die quietly, silently, and call forth not the mighty crusaders from Washington DC lest we loot and pillage your company as the Christian crusader innocently called forth by Alexius I went on to loot the center of eastern Christendom itself.

Pillage not our public troughs lest ye be pillaged.

Ms. WOOLSEY. Mr. Speaker, Wall Street, and possibly some in Congress and the Treasury Department, still don't get it.

When Congress voted to create the TARP program, we were voting to unfreeze the credit markets and get capital flowing again. Little did we know that much of the capital would be flowing out of the Treasury and into the bank accounts of executives at AIG.

As a former Human Resources Manager, I know the value of performance based bonuses in motivating outstanding employee performance. The only thing that these bonuses are motivating is more bad behavior. Obviously we are dealing with a system that is severely broken, where Wall Street executives truly don't know the value of a dollar or even right from wrong.

We need a massive overhaul of our financial services regulations, and it can't come a moment too soon. While H.R. 1586 is a measure to fix a specific problem, we need to put in place laws to prevent these abuses from happening in the first place. The days of the "anything goes" mentality on Wall Street must come to an end, and it must end now.

Mr. Speaker, today must be the first of a series of bills that come to the House Floor to address our broken regulatory and oversight system of the financial services sector. I urge my colleagues to support this legislation as a way not only to express our outrage, but also as our commitment to a new system of regulation and oversight.

Mr. STARK. Mr. Speaker, I rise today in support of H.R. 1586, a simple measure to address an appalling practice.

My constituents are angry. As they scrimp and save and watch the value of their homes and college savings plummet, AIG—the recipient of more than \$180 billion in government funds—has decided to award over \$165 million in bonuses to the very executives that created the ongoing financial mess. I voted against the Wall Street bailout twice, precisely because it rewarded bad actors and bailed out companies that created a financial house of cards. Make no mistake, these bonuses are not necessary to keep the "best and brightest," they are simply a leftover bad habit from a company and an industry that was unregulated and left to run wild.

This legislation is straightforward. Any executive of a company surviving because of government intervention (including AIG, Fannie Mae and Freddie Mac) that has received or chooses to accept a bonus will be taxed at a 90% rate. Companies will no longer continue to be able to reward bad actors at taxpayer expense.

Despite the outrageous behavior of AIG and others, most Americans understand that the current economic times call for shared sacrifice and a renewal of the American dream.

My constituents know that we have to rebuild our nation and turn the page on the last eight years. Today we have the chance to send a message to AIG and others that would put private greed above the public good: enough.

I urge all of my colleagues to support this legislation.

Mr. THORNBERRY. Mr. Speaker, none of us support payments of these bonuses to AIG employees or employees of other companies that the government has had to bail out. Unfortunately, we are only presented with one alternative to correct the situation. Interestingly enough, it is a tax bill.

But the more important point is: How did we get here? We got here because the Democratic majority insisted on passing a 1000 page bill which nobody read and which was not exposed to the light of day, and in the hundreds of provisions in that bill was one that allowed bonuses to be paid. That bill passed without a single Republican in the House voting for it.

And now that the provision tucked away in that 1000 page bill has come to light and proven embarrassing, how does the majority deal with it? They tax it—at a 90% tax rate.

Now if this sounds familiar, it should. Hidden spending provisions, high taxes, spending, taxes, taxes, spending. It's a pattern.

The majority wants to make sure that the government decides who gets what and then is able to take it away. And they want to deflect attention away from their missteps.

The better approach would have been for the Obama Administration not to allow these bonuses to begin with. They can put the necessary conditions on the money. It would have been better to have that 1000 page bill open for viewing and for amendment. Instead we are left with a crass attempt at political cover. There has to be a better way.

Mr. KILDEE. Mr. Speaker, I rise today in support of the H.R. 1586, a bill to impose an additional tax on bonuses received from certain TARP recipients. Financial firms such as AIG, who have accepted government assistance, need to recognize that the days of lavish travel, million dollar bonuses and golden parachutes are over.

When bridge loans were granted to General Motors and Chrysler, they were required to reduce wages and salaries. Auto workers are being asked to accept lower wages and stock contributions to their benefits account—which funds their healthcare—rather than cash.

What are executives at banks and financial institutions asked to do? Maybe spend fewer afternoons at the spa. Those firms should be subject to the same requirements imposed on GM and Chrysler and on their employees. My constituents have had enough of the double standard that rewards greedy executives and punishes working families.

After accepting \$170 billion from the federal government, AIG is responsible to the American taxpayer.

Before I ran for elected office, I was a high school Latin teacher. And I can tell you that in Latin, "bonus" translates to "good." A bonus is supposed to be a reward for something good—for excellent performance, not for running your company into the ground and sending the economy into a tailspin.

AIG's performance warrants a pink slip, not a paycheck.

Mr. HARE. Mr. Speaker, I rise today in strong support of H.R. 1586 to pose an additional tax on bonuses received from TARP recipients. Like my constituents, I am frustrated and angry that the American International Group (AIG) paid \$165 million in bonuses after we have given them billions of hard-earned taxpayer dollars. Clearly, the 'G' in AIG stands for greed.

It is outrageous that taxpayers are subsidizing bonuses as much as \$6.5 million at a time when working families are struggling to make ends meet. I am reminded of the saying: 'Fool me once, shame on you. Fool me twice, shame on me.' I wholeheartedly opposed the decision to pour an additional \$30 billion into AIG earlier this month given the company's record. AIG is a company that spent \$440,000 on a luxury retreat less than a week after receiving its first federal bailout. To make matters worse, the company then spent \$86,000 on an English hunting trip. Enough is enough.

I support any and all legal efforts to recoup this money, and protect working families in this difficult economy.

I urge all my colleagues to vote yes on H.R. 1586 and tell the American people that this Congress is fed up with corporate abuses of the Troubled Asset Relief Program and we will do everything in our power to be better stewards of taxpayer money.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today with pitchfork in hand to take back from the executives at AIG, monies that rightfully belong to the taxpayers of this country. I urge my colleagues to support H.R. 1586.

The understanding that most Members of Congress had when we passed the TARP legislation was that these measures were necessary to keep our financial system from collapse. I believe the term is systemic risk.

We then voted last month for another economic recovery package of over \$700 billion dollars which contained language that limited executive compensation for companies that received certain TARP funds.

It appears that the AIG executives may not have broken the law but certainly the spirit of the law. In other words, if AIG has received over \$190 billion in funds from the federal fiscal coffers in the last year, the company is acting in broad contravention of the essence of the law to use \$165 million of that for bonuses. The country is now \$12 trillion dollars in debt after passage of last month's American Recovery and Reinvestment Act of 2009. We literally cannot afford irresponsible uses of taxpayers' dollars.

Last September, the House and Senate voted on one of the most extraordinary pieces of legislation in the history of our country. During the same time, the federal government loaned the American Insurance Group (AIG) \$85 billion, as the company could no longer access credit to fund its day-to-day operations. In addition, an economic "bailout" package enacted in October (PL 110-343) provided a total of \$700 billion in federal aid to financial institutions to remove "toxic" debts and infuse capital into the credit market.

AIG has now received more than \$180 billion in taxpayer money and is now nearly 80 percent owned by the government. As part of a restructuring plan announced by the Treasury Department earlier this month, AIG is set

to receive an additional \$30 billion in federal rescue aid.

The news that AIG paid \$165 million in retention bonuses, including bonuses of at least \$1 million each to 73 employees who worked in the financial products division that contributed to the company's troubles, has incited fervor among lawmakers and the public over the past week. Eleven of those top bonus recipients—including one who received \$4.6 million—have since left AIG. If these payments were intended to motivate them to stay with the company it truly scares me to think what they might have needed to stay—\$1 million not being enough.

Edward M. Liddy, the chief executive of AIG—selected in consultation with the Treasury Department after the first large infusion of government assistance—testified before a House Financial Services subcommittee that he has called on employees who received in excess of \$100,000 to give back at least half of their bonuses, but which he also said are a legal obligation of the company. The reason that Mr. Liddy was selected is because he was expected to have the common sense as well as the financial sense which his job now entails.

Over two million Americans have lost their jobs in the last four months. Many of them still owe taxes from last year and will not get a stimulus check, TARP payment or waiver to pay those taxes. Neither will they have access in many cases to teams of topflight lawyers from swanky law firms to defend this excess that reminds me of the biblical tale of Sodom and Gomorrah.

Previously, Merrill Lynch paid \$3.6 billion in bonuses days before its merger with Bank of America to avoid collapse. Bank of America, which acquired Merrill Lynch on January 1, 2009 received \$45 billion in bailout money, some of which it used to acquire.

I was pleased to learn that Oversight and Government Reform Committee Chairman TOWNS sent a letter to Bank of America's chief executive last week asking for details on the bonuses. It appears they are ready to comply with Chairman TOWNS's request.

Treasury Secretary Timothy F. Geithner sent a letter about the AIG matter to lawmakers this week saying the Treasury Department will "deduct from the \$30 billion in assistance an amount equal to the amount of those payments."

This bill taxes bonuses given to individuals at a rate of 90 percent—if their employer received more than \$5 billion in federal assistance under the Troubled Asset Relief Program (TARP). It applies to individuals whose total family adjusted gross income exceeds \$250,000 per year, and affects bonuses received after December 31, 2008.

Employees or former employees of covered TARP recipients would face a tax on their income minus the TARP bonus as determined by existing tax code, plus a 90 percent tax on the bonus. The term "TARP bonus" is defined by the bill to include any retention payment, incentive payment, or other bonus that is in addition to the amount paid to the individual at a regular rate, but it does not include commissions, welfare or fringe benefits, or expense reimbursements.

Employees who waive their entitlement to the bonus payments, or return them to their

employers before the close of the taxable year, would not face a TARP bonus tax.

This exemption would not apply, however, if the employee receives any benefit from the employer in connection with a waiver or return. Any reimbursement of the tax by a TARP recipient would be treated as a TARP bonus to the taxpayer.

The TARP recipients that are covered under the bill include any entity that received, after December 31, 2007, capital infusions exceeding \$5 billion under the financial industry "bail-out," as well as the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac). It would also apply to members of affiliated groups or partnerships with more than 50 percent of the capital or profits owned by TARP recipients. Any tax increase as a result of the measure would not be treated as income tax for purposes of determining the amount of any credit against the alternative minimum tax.

Mr. Speaker, I urge this body to seek redress from AIG with this strong piece of legislation so that we may get on with the business of moving our economic recovery forward.

Mr. DINGELL. Mr. Speaker, I rise today in strong support of H.R. 1586, which will impose a significant tax on bonuses received by employees of certain TARP-recipient companies. This legislation, of which I am an original cosponsor, sends a clear message that excessive compensation practices by TARP-recipients are indefensible and, as such, must be heavily penalized. On Tuesday of this week, I introduced my own bill, H.R. 1543, on this matter, which would subject bonuses to employees of TARP-recipients to a 95 percent tax. I am pleased to see that H.R. 1586 incorporates elements of my bill and thank Chairman RANGEL for his kind consideration in doing so.

As AIG's recent actions remind us, it is unconscionable that companies dependent upon the largesse of the federal government for their very existence should in turn pay irresponsibly exorbitant bonuses to the rascals partially responsible for the current recession. From their glass towers, they frittered away the Nation's economic well-being. Compare that to the men and women who work on the assembly lines now being asked to make wage and healthcare concessions—also contractually guaranteed, I might add—to justify the rescue of U.S. manufacturers. If we can demand that decent people, who wear hard hats and blue jeans, must renegotiate their contracts, I see no reason those people wearing neckties and \$1,000 suits should not also have to sacrifice to help their country in this time of need.

In closing, I offer my thanks to Chairman RANGEL, as well as Representatives PETERS, ISRAEL, and MALONEY, for their work to ensure that TARP funds are not wasted on reprehensible and undeserved bonuses. I urge my colleagues to vote in support of H.R. 1586.

Mr. VAN HOLLEN. Mr. Speaker, I rise today in strong support of H.R. 1586, which will recover outsized and unwarranted executive bonuses at companies like AIG that have received taxpayers' money under the Troubled Assets Relief Program (TARP), if those bonuses are not voluntarily repaid.

Mr. Speaker, we simply cannot continue with business as usual. These are serious times, and the American people expect that their hard-earned money will be used to repair the financial system—not reward the very executives that helped cause the current financial crisis. The bonuses at AIG are an egregious waste of taxpayer dollars, and we must take quick and decisive action to ensure that taxpayers are repaid.

I urge my colleagues to join me and pass this bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. RANGEL) that the House suspend the rules and pass the bill, H.R. 1586.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. CAMP. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mr. RANGEL. Mr. Speaker, I ask unanimous consent that Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1586.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

□ 1315

SENSE OF CONGRESS REGARDING BONUSES PAID BY AIG AND OTHER COMPANIES RECEIVING FEDERAL ASSISTANCE

Mr. FRANK of Massachusetts. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 76) expressing the sense of the Congress regarding executive and employee bonuses paid by AIG and other companies assisted with taxpayer funds provided under the Troubled Assets Relief Program of the Secretary of the Treasury.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 76

Whereas the Chairman of the Federal Reserve, Ben Bernanke, said in testimony to Congress on March 3, 2008: "If there is a single episode in this entire 18 months that has made me more angry, I can't think of one, than AIG. AIG exploited a huge gap in the regulatory system; there was no oversight of the financial products division. This was a hedge fund basically that was attached to a large and stable insurance company, made huge numbers of irresponsible bets, took huge losses. We had no choice.";

Whereas, on March 15, 2009, Chairman Bernanke said on the news program "60 Minutes" that "we must address the problem of financial institutions that are deemed too big—or perhaps too interconnected—to fail. Given the highly fragile state of financial markets and the global economy, government assistance to avoid the failures of major financial institutions has been necessary to avoid a further serious destabilization of the financial system, and our commitment to avoiding such a failure remains firm.";

Whereas the Treasury and the Federal Reserve have committed almost \$200 billion in various forms of taxpayer assistance to AIG for the company's liquidity shortages, the purchase of certain assets, and to dispose of other assets for an orderly wind-down of the company;

Whereas the commitment of almost \$200 billion in taxpayer assistance represents one of the largest Federal government rescues of a single private corporation in United States history;

Whereas the Federal Reserve has committed tens of billions of taxpayer dollars in a combination of facilities to purchase AIG's mortgage-backed securities and liabilities tied to collateralized debt obligations;

Whereas the Federal government has taken a 79.9 percent stake in AIG in exchange for providing financial assistance extending credit;

Whereas, under the Emergency Economic Stabilization Act of 2008, the Bush Administration and the Obama Administration have provided AIG with access to \$70 billion in direct capital infusions, which in turn have been used, in part, to cover AIG's collateral for positions taken by the company in unregulated and risky credit default swaps;

Whereas AIG's Financial Products division's irresponsible practice of not setting aside sufficient capital to cover its exposure on more than \$1 trillion of complex financial products, including credit default swaps, have threatened the stability of the financial system and resulted in substantial losses to the company, to pensioners, to investors, and ultimately to the taxpayer;

Whereas, despite the irresponsible actions of AIG executives that threatened the company as a going concern, and exposed taxpayers to almost \$200 billion to cover losses from excessive risks, these executives will receive hundreds of millions of taxpayer money in retention payments and bonuses for performance in 2008 and 2009;

Whereas, in a letter to Treasury Secretary Geithner, AIG CEO Edward Liddy said that "AIG also is committed to seeking other ways to repay the American taxpayers for AIG Financial Products retention payments.";

Whereas, in the same letter, Liddy said that "AIG's hands are tied. Outside counsel has advised that these [retention payments] are legal, binding obligations of AIG, and there are serious legal, as well as business, consequences for not paying. Given the trillion-dollar portfolio at AIG Financial Products, retaining key traders and risk managers is critical to our goal of repayment [to the taxpayer].";

Whereas the appropriate committees in the House of Representatives and the Senate have already convened hearings to examine the sizable government assistance provided to AIG, and the House Financial Services Committee has focused its oversight on the excessive compensation provided AIG's executives and employees, among other matters;

Whereas common sense dictates that a company such as AIG that was so mismanaged as to threaten the stability of the financial system of the Nation and that requires billions of dollars of taxpayer money for its survival should not reward that mismanagement through lavish bonuses; and

Whereas, on March 15, 2009, President Obama stated: "In the last six months, AIG has received substantial sums from the U.S. Treasury. I've asked Secretary Geithner to use that leverage and pursue every legal avenue to block these bonuses and make the American taxpayers whole": Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of Congress that the President is appropriately exercising all of the authorities granted by Congress under the Emergency Economic Stabilization Act of 2008, and any other Federal law, by taking all necessary actions to ensure that—

(1) in the absence of a voluntary decision by AIG employees and executives to forego their contractual retention bonuses, AIG will repay taxpayers for the hundreds of millions of dollars the company provided to executives and employees in retention bonuses;

(2) going forward, companies that receive a capital infusion under title I of the Emergency Economic Stabilization Act of 2008 that the Secretary of the Treasury deems necessary to restore liquidity and stability to the financial system of the United States are prohibited from providing to executives and employees unreasonable and excessive compensation payments that are not directly tied to performance measures, such as repayment of the companies' obligations to the taxpayers, profitability of the company, adherence to appropriate risk management, and transparency and accountability to shareholders, investors, and taxpayers; and

(3) companies that receive a capital infusion under title I of the Emergency Economic Stabilization Act of 2008 that the Secretary of the Treasury deems necessary to restore liquidity and stability to the financial system of the United States are complying with the letter of the provisions included in the American Recovery and Reinvestment Act that strengthen executive compensation restrictions for recipients of capital infusions, such as limiting base salaries for executives to no more than \$500,000 per year, banning golden parachutes, limiting bonuses for executives, requiring shareholders to approve pay packages, requiring executives to certify they are meeting the law's restrictions, requiring a company-wide policy on luxury expenditures, and prohibiting compensation on the basis of excessive risks that threaten the viability of such companies, and adhering to all executive compensation guidelines the Secretary of the Treasury may establish.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. FRANK) and the gentleman from New Jersey (Mr. GARRETT) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

Mr. FRANK of Massachusetts. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, there is a great deal of anger in the Nation, and it is reflected in this House, which is representative of the Nation, about retention bonuses given to people who worked at AIG. Re-

tention bonuses in this situation, Mr. Speaker, strike me as a form of legalized extortion. These are not performance bonuses. I was unclear about that and misspoke about it to some extent. These are bonuses paid solely so that people who had been employed at AIG would not leave AIG as it became clear the company was in trouble.

Specifically, we were told that these retention bonuses go to employees who were engaged in complex financial transactions. Now it is, in sum, these complex financial transactions that caused the company the problem. The insurance entities, regulated by State insurance regulators, caused no problem. In fact, they generated the resources and the revenues that allowed these other people to get themselves in trouble.

According to Mr. Liddy, who was appointed to head AIG after the failure, a decision was initiated by the Federal Reserve last September to lend them money and then make a change in the company's management. Mr. Liddy said he was afraid—and he is genuinely sincere about this—he was afraid that some of these people who had been working at the company and who had intimate knowledge of these complex transactions would leave the company and might, in fact, even use their knowledge in ways that would be adverse to the company.

That is a very sad commentary on them. These are people who were engaged in these transactions, the effect of which was to put the company in trouble. And we are told that they have to be bribed not to abandon the company in their time of trouble.

Now, I am skeptical that the best way to get out of the hole that those people dug was to let them get extra pay for wielding the shovel. I believe there could have been other people hired. My colleague, Mr. CAPUANO, did some good questioning in this. We were told AIG felt, no, they had to pay the bonus. I think that is a very grave error.

My own preference is, and I have urged this on the administration, my preference is that they bring a lawsuit on behalf of the U.S. as the major shareholder so that we can recover here; that is, it is not a case of us as a regulator intruding on a contract by others. This is a case where we are the major owners of this company. And I believe that it is a grave error to enrich people who have apparently threatened to leave the company, abandon it and not help them get out of the problems they created unless they are given these bribes called "retention bonuses." We have a resolution here which talks about several things.

First, it does express our determination to prevent these from happening in the future. We have already done some of that. We should note, this provision here, this decision was made

unilaterally by the Federal Reserve system under a 1932 statute. There was no congressional input whatsoever into the decision last September to do this. The Secretary of the Treasury, Mr. Paulson, accompanied me, the chairman of the Federal Reserve, Mr. Bernanke, and they came to Congress, and they said that Mr. Bernanke had decided to give a loan of \$85 billion to this company. No restrictions were put on the company. Two days later, the same two gentlemen asked us to enact legislation providing for \$700 billion in authority.

At that point, we said, among other things, there has to be some restrictions on the compensation paid. Now we didn't get all the restrictions we wanted because we were in the negotiation process. But it was instructive that when the Fed did it on its own with the Secretary of the Treasury's support, there were no restrictions on compensation. Two days later, we immediately raised that, had a debate and got some of them. Now, we have gone further.

I would make this contrast. We have AIG without any restrictions. Under the TARP program, which Congress voted and which is now being administered by the current administration, we have not only imposed restrictions, we are now being criticized in the press and by some of the recipients for being too tough on them. In the New York Times last week, there was a front page article that said the banks are going to have to give the money back because we are too tough on compensation, lavish entertaining and too much pressure to make loans. There was an article in the Washington Post business section 3 days ago making the same point. I welcome that kind of criticism. I welcome the recognition that we have now become very tough. The problem is that these bonuses were granted under an authority that the Federal Reserve gave before Congress got into the situation and were able to put on the restrictions. This resolution is a beginning of what we will be doing.

There is also, I hope, going to be a lawsuit. I have been pressing the administration for a shareholders' lawsuit to recover the bonuses that have already been paid. And there will be other legislative vehicles. I hope that the Committee on Financial Services will mark up a bill next week which will embody much of what is in this resolution. We will have a markup in committee. I hope we will be able to bring a bill to the floor that will deal with this both prospectively and retroactively. At this point, this is a statement of intention which I think is appropriate because people in this country want to know what we are doing. It will be followed up by a markup in committee.

We have had several hearings on the subject of compensation and a big one

on AIG, obviously, yesterday. And we will have another AIG hearing next week with the Secretary of the Treasury and the Chairman of the Federal Reserve. But we will be marking up legislation next week in committee and voting on it the final week before the recess so that what we state here as our intention I hope will become law.

I reserve the balance of my time.

Mr. GARRETT of New Jersey. I thank the Chair. At this time, I yield 4 minutes to the gentleman from Alabama (Mr. BACHUS).

Mr. BACHUS. Mr. Speaker, I rise in strong opposition to this resolution. Like the American people, I'm extremely disappointed by the recent news that AIG paid millions of dollars in money bonuses after it received a massive government bailout. We all agree that the decisions that led to the collapse of AIG and the payment of large bonuses to some of the same executives who caused the collapse are indefensible.

However, the legislation we vote on today arrives at conclusions based not on facts, but rather, is focused on delivering political cover to my Democratic friends and colleagues. The bill reads, "It is the sense of the Congress that the President is appropriately exercising all of the authorities granted by Congress."

How can we come here today after all we and the American people have learned this week and say that everything the President has done is appropriate? The American people recognize the absurdity of such a statement, and so should we. In reality, there is not a single Member of Congress who can say with certainty that the President has done everything in his power in connection with these bonuses.

For instance, just today, Bloomberg quotes the Senate Banking Committee Chairman CHRIS DODD as saying that the Obama administration asked him to insert a provision in last month's \$787 billion economic stimulus legislation that had the effect of authorizing AIG's bonuses. If that is correct, do you really want to vote to say that what the President did in enabling these bonuses was appropriate? I think not.

We are here today because the majority is trying to paper over its mistake. And now, they are asking us to compound that mistake by endorsing everything the President had done in connection with these million-dollar bonuses. It was a mistake not to read the stimulus package before you voted on it. You didn't read it. You didn't understand it. It had this provision in it. How could we, in good conscience, support legislation lauding the President's actions in allowing these bonus payments if it was that same administration that worked to enact legislation that now prevents us from recouping this \$160 million dollars?

Such a vote would be a vote of confidence for an administration whose actions in handling the AIG matter have not earned the confidence of the American people.

Make no mistake, today's vote is not an effort to ensure oversight nor an effort to hold people responsible for their actions. Today's vote, instead, I conclude by saying, is a thinly veiled political ploy by the Democratic majority to deflect responsibility. That is wrong. The American people know it. Working families deserve better. They deserve an exit strategy from this continued cycle of government bailouts. And they deserve to be repaid 100 percent. They don't deserve a cover-up.

Mr. FRANK of Massachusetts. I yield myself such time as I may consume to say I learn a lot in this job. Now, I have learned about a theory called creationism which in some cases holds that the world was created 4,000 years ago or 7,000 years ago by calculating what the Bible said. But I now am astounded to see a new and more compressed theory of when the world was created. It apparently was created at noon on January 20, 2009.

You just heard someone say, "it is Obama's fault." In September of 2008—and I regret that we are getting into this kind of political discussion—but the gentleman from Alabama raised it. In September of 2008, two appointees of George Bush came to the Congress and said, Mr. Bernanke, the Chairman of the Federal Reserve, who had previously been on the Bush economic advisory staff, and Mr. Paulson, the Secretary of the Treasury, and they said, "we are going to lend \$85 billion through the Federal Reserve to AIG." They didn't ask us.

Mr. BACHUS. Will the gentleman yield?

Mr. FRANK of Massachusetts. Yes.

Mr. BACHUS. The economic stimulus package—

Mr. FRANK of Massachusetts. No, I'm sorry. I will yield to talk about what I am talking about. I take back my time.

Mr. BACHUS. The language was inserted in that bill last night.

Mr. FRANK of Massachusetts. Mr. Speaker, please instruct someone who should know better about the rules. I took back my time. The point is this: He had the chance to make his argument. He wanted to make it political. Yeah, there was something in the stimulus package. Before the stimulus package, there was September of 2008. It does exist. Your revisionism doesn't work.

I would say to my friends on the other side, Mr. Speaker, in September—I note, Mr. Speaker, how sensitive the subject is that I raised. I got one sentence into describing the role of the Bush administration, and up comes my colleague from Alabama, because they don't want this to be discussed.

In September of 2008, George Bush's two top economic appointees came, and Mr. Bernanke informed us that he was going to lend \$85 billion to AIG. I said, at the time, because he said "we have obligations all over the world here, and we have to make our foreign partners know that this is not going to be a default on them." I said, "well, are they contributing?" I asked them at the time, "will there be any contribution from foreign banks to make up what AIG owes?" The answer was "no." So from September of 2008 until January 20, 2009, the Bush administration was in charge of this.

Mr. GARRETT of New Jersey. Would the gentleman yield on that one point?

Mr. FRANK of Massachusetts. I will yield again to your sensitivity.

□ 1330

Mr. GARRETT of New Jersey. It is not to my sensitivity, just that since you are throwing out the dates, you said from September until January.

Mr. FRANK of Massachusetts. January 20, yes.

Mr. GARRETT of New Jersey. Is it not true that somewhere in between there, approximately on November 10, there was a restructuring that was done from the \$85 billion initially, and the gentleman is correct when you said it initially came from the Fed, but restructuring was done perhaps at the request because of the credit ratings and what have you, and they needed to change the terms, and that the funds then came in part from TARP; is that correct?

Mr. FRANK of Massachusetts. Yes. I will reclaim my time to say that the gentleman has just reaffirmed what I said. I said it was the during the Bush administration.

I just reclaimed my time. Do Members not understand the rules on the other side? I yielded twice. I reclaimed my time, Mr. Speaker.

The SPEAKER pro tempore. The gentleman from Massachusetts has the time.

Mr. FRANK of Massachusetts. I got briefly into my response. Two of my colleagues have now jumped up because they don't want the story to be told. I said that it was under the Bush administration.

The gentleman from New Jersey got up, and, frankly, I thought he was going to say, "Oh, no, that was the Federal Reserve, they are not technically the Bush administration."

Instead, what he wanted to do was to drive home my point and say it wasn't just the Federal Reserve, it was the Department of Treasury in November 2008. Who was running the Department of Treasury? Bush appointees. So I accept the gentleman's correction. I should have been more clear that it wasn't just the Federal Reserve, it was also the Secretary of the Treasury and there was a restructuring.

The Bush administration was in control from September of 2008 until January. The decision to lend the money with no restrictions on compensation was a Bush administration decision.

Now, when we had to vote on the rescue plan, we did insist on some compensation restrictions. They were grudgingly applied. Under the current administration, we have greatly expanded these. If, in fact, we had covered the restrictions—well, the restrictions, let's just put it this way, that are now in place on the rescue plan are so tough that people want to give us the money back. The recovery plan, we said they could give the money back.

But the point is that yes, in November of 2008 it became even more of a Bush administration situation because Treasury had a larger role.

I would yield again to the gentleman.

Mr. GARRETT of New Jersey. I appreciate the gentleman yielding.

The point that I was about to make on completion of that was that yes, it was the Bush administration, his Secretary in November, November 10, 2008, who did the restructuring to help the situation move along. But they were not able to do that unilaterally, were they? In other words the TARP money that they spent, they didn't just pull that out of thin air like the Fed when they created money, they had to do that by requesting the House and the Senate to pass TARP legislation. My question to you was: Did that go through the House and who was it that sponsored the TARP legislation that provided the money?

Mr. FRANK of Massachusetts. The answer is the gentleman appears to have forgotten. How did it go through? Yes, the TARP legislation, requested by the Bush administration, did pass the House with the support of a majority of Democrats and a minority of Republicans, but supported by the Republican leadership.

Excuse me.

Mr. Speaker, let me explain to the gentleman, when you are recognized, you can speak. If you are not the one who is recognized, you ask someone to yield. If he yields, as I have done to you twice, you can speak. If he doesn't yield, you wait until someone does. It is an orderly process.

Now, again, I understand that this is an unusual degree to which I am being asked to yield because the Members on the other side want to make a partisan attack and not have the facts. The facts are—no, I will not yield to a continued kind of pattern of interruption because Members don't want the story told. I listened to the gentleman. He asked about how the TARP bill was passed. The Bush administration lobbied for it strongly. The Republican leadership of the House supported it, although a slight majority of the Members voted against it. A heavy majority of Republicans in the Senate passed it.

So the TARP bill did pass with a majority of Republicans in the Senate, the Republican leadership in the House, and Democratic majorities in both Houses, and the Bush administration. It was genuinely bipartisan.

It included some restrictions on compensation, less than I would have liked because Republicans in the Senate, working with the Bush administration, resisted them.

We have since increased both the types of restrictions and the levels. So the answer to the gentleman's question: yes, the TARP bill did pass at the request of the Bush administration with support from the House Republican leadership, which I notice is conspicuously off the floor now to avoid embarrassment, and the majority of Republicans in the Senate. But that's the point, Mr. Speaker, this was initiated by the Bush administration, and the decision to give the TARP money without any restrictions came from the Bush administration.

I reserve the balance of my time.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 1 minute to the gentleman from Nebraska (Mr. TERRY).

Mr. TERRY. Mr. Speaker, the level of hypocrisy is astounding here. The resolution before us asks us to agree by our vote that the President is properly exercising all of the authorities granted to him by the Emergency Economic Stabilization Act, which did ban bonuses and golden parachutes.

What we do know is, the conference report, which was on a complete partisan basis adopted and signed by the President, had protection of bonuses to AIG written into it.

Now what we don't know is how the language that was previously in the stimulus was taken out in conference secretly and this language put in. We do know that Senator DODD was part of it because he has come out publicly and said I accept responsibility for putting this language in.

Now, we don't know who came—

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. GARRETT of New Jersey. I yield the gentleman an additional 15 seconds.

Mr. TERRY. So we know that Senator DODD put this language in, but we don't know at whose request. But he has said at the President's request, probably through Geithner. So I can't in good conscience vote for this saying what the President has done through Secretary Geithner is appropriate.

Mr. FRANK of Massachusetts. Mr. Speaker, I yield 2 minutes to a member of the Financial Services Committee, the gentlewoman from Ohio (Ms. KILROY).

Ms. KILROY. Mr. Speaker, the great Winston Churchill said, "The price of greatness is responsibility." AIG has shown that for them the price of greatness is greed, putting greed above

greatest, putting self-interest above responsibility.

Today I rise in support of this resolution and to express the will of the American people to stop rewarding this behavior.

Let me be clear: We should focus on the behavior of AIG and those traders that were nothing more than gamblers, gambling in credit default swaps not in cards. But in the end, they gambled away the financial security of our markets. And when they failed and put the financial system at risk, the risk was pushed back onto the backs of the American people. America has had enough.

Instead of taking responsibility for the massive damage they have caused, AIG has continued this culture of greed. Today, in this resolution, we can tell these traders that business as usual is over. We don't care about their excuses and contracts. Contracts are, frankly, renegotiated every day. We care about cleaning up this mess and changing the culture that caused this debacle.

This resolution states our intent that without a voluntary decision by AIG employees to give the bonus money back, we will act to make them do so.

Today we hear that some employees have been shamed into giving back this money. Some is not good enough. All is the only option.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 1 minute to the gentleman from Utah (Mr. CHAFFETZ).

Mr. CHAFFETZ. Mr. Speaker, the resolution before us is offered by the gentlewoman from Ohio (Ms. KILROY). I am hopeful she will answer a question or two about the actual bill she has sponsored.

Ms. KILROY, would you mind answering a question about the bill that you are sponsoring? I would like to enter into a colloquy with Ms. KILROY.

Ms. KILROY, you are the sponsor of this bill having enabled this language and voting in favor of the stimulus bill.

The SPEAKER pro tempore. The gentleman from Utah should direct his remarks to the Chair.

Mr. CHAFFETZ. Mr. Speaker, I would just like to ask a question of the woman who just spoke.

The SPEAKER pro tempore. The gentleman from Utah should direct his remarks to the Chair.

Mr. CHAFFETZ. Mr. Speaker, do we know why she walked away? I just wanted the ability to ask a question about the bill that she sponsored.

The SPEAKER pro tempore. The gentleman from Utah has the time.

Mr. CHAFFETZ. Mr. Speaker, I have a question about why she walked away.

The SPEAKER pro tempore. Does the gentleman have a parliamentary inquiry?

Mr. CHAFFETZ. I was trying to ask the Speaker why the gentlewoman would walk away from the microphone

when I simply wanted to ask a question.

The SPEAKER pro tempore. The gentleman from Utah has the time. Does the gentleman from Utah have a parliamentary inquiry?

Mr. CHAFFETZ. The question that I had, Mr. Speaker, is had the gentleman actually read the stimulus bill before she voted on it?

I wanted to ask the gentlewoman if it was her opinion that the administration is doing everything it should to prevent these bonuses from going through?

I also wanted to ask the gentlewoman did these bonuses happen under their watch?

Finally, I wanted to ask her, Didn't the White House ask Senator DODD?

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. FRANK of Massachusetts. I reserve the balance of my time.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 1½ minutes to the gentleman from Delaware (Mr. CASTLE).

Mr. CASTLE. Mr. Speaker, I have followed all of the discussion, and I understand the first vote is an instrumental vote and it actually does something.

This particular resolution I don't understand at all. Essentially, as I see it, it is a cover-up vote for the administration saying they did everything right. I don't disagree that there were problems in the previous administration. There are problems in this administration with all of this. There are a lot of problems in Congress, and perhaps with AIG. But to suggest that this administration has done everything correctly is just not accurate. It was Mr. Geithner, after all, when he was the head of the New York Federal Reserve and made the first payment to AIG in which they received most of the stock of AIG who was involved from that point on. It was his people who were involved from that point on.

There were discussions recently in the stimulus package about who actually took out the language with respect to allowing these bonuses to take place because there was language apparently put in by the Senate that would have prohibited that. And again, the White House was apparently involved in that.

Then there were discussions as to when everybody knew about this. And Mr. Geithner apparently indicated that he was informed I guess late last week and then informed the President. And yet we heard from Mr. Liddy at AIG that the Federal Reserve was involved with this from the beginning and knew about it from the beginning, and he assumed probably shared that information with Treasury.

Either way, you are talking about the administration. Individuals either did know or should have known, and to absolve the administration of fault is just wrong. And whether we vote "yes" or "no" on the previous bill, in my

judgment everybody should vote "no" on this legislation. It is just not proper. I am not even sure why we are trying to consider it today, but it is not proper. It is not accurate. The bottom line is it should have a "no" vote.

Mr. FRANK of Massachusetts. I will continue to reserve.

Mr. GARRETT of New Jersey. I thank the gentleman from Delaware for his comments, and pointing out the fact that members of this administration, specifically Secretary Geithner was actually considered the architect of the AIG bailout bill.

With that, I yield 1 minute to the gentleman from Louisiana (Mr. SCALISE).

Mr. SCALISE. Mr. Speaker, I am angered. The American people are angered. But they are not just angered by what is going on with these bonuses at AIG, they are also angered at what is going on right here in Washington, DC, and in this Capitol by people who helped create this mess.

For those of us who voted against the bailout and who voted against the stimulus bill, we are equally angered not just at the bonuses, but also at the fact that this language was inserted into the stimulus bill.

Senator CHRIS DODD, the chairman of the Senate Banking Committee himself said this language, protecting AIG bonuses, was put in the bill because of a request from the White House.

We deserve to know who at the White House knew about that, who at the White House asked for this language to be put in protecting AIG bonuses. And now that people are rightly angered across the country, they are trying to cover themselves with this language in this resolution which is part of this coverup.

If Secretary Geithner knew that this language was going to be inserted and he helped direct it in there, he needs to resign. But the President needs to answer these questions to the American people who are rightfully angered about what is happening.

Mr. FRANK of Massachusetts. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, it is interesting to listen to my colleagues not try to be problem solvers. The work of this body is to in fact solve problems, fix the capital markets, ensure that we restore the confidence in the capitalistic system. And yes, to overcome mishaps and issues that raise concern with all of us.

Today we create the opportunity and the vehicle to solve these problems. The taxation on retention bonuses speaks loudly on behalf of the American people. The expression of opposition to actions that occurred speaks loudly on behalf of the American people.

□ 1345

This body has many committees that will engage in oversight. My colleagues

don't think that the work will be done—and it will continue—on how these issues came about, but maybe they should look at the past and understand the reason we are here is the \$1.1 trillion debt that was created by the past administration. We are fixing the problem. Let's join those of us who want to work it out on behalf of the American people.

Mr. Speaker, I rise today in support of this resolution that I believe only begins to express the outrage that the American people and many Members of Congress are feeling right now. Our constituents feel like they have been handed a raw deal from the executives at AIG. They have given out large bonuses that would make most people blush with shame.

The understanding that most Members of Congress had when we passed the TARP legislation was that these measures were necessary to keep our financial system from collapse. However, the reality of a few months has proven quite different.

Last month, we voted for another economic recovery package of over \$700 billion which contained language that limited executive compensation for companies that received certain TARP funds.

It appears that the AIG executives may not have broken the law but certainly the spirit of the law. This is unconscionable. It is an outrage that these businessmen have bucked the system and chosen to dole out federally appropriated dollars to their own bank accounts. Where is the fairness? Where is the equity? \$165 million is no small change.

In other words, if AIG has received over \$190 billion in funds from the federal fiscal coffers in the last year, the company is acting in broad contravention of the essence of the law to use \$165 million of that for bonuses. The country is now \$12 trillion dollars in debt after passage of last month's American Recovery and Reinvestment Act of 2009. We literally cannot afford irresponsible uses of taxpayer dollars.

The unemployment rate is on the rise across the country. In fact, in my state of Texas, the unemployment rate has hit 6.4 percent. And that rate is even higher for minorities. Many of the people of Texas, like many Americans, are suffering through this economic downturn.

By voting for this resolution we are not just voting to take the money back, we are voting to get our country back on the right track. The U.S. dollar has traditionally been one of the strongest in the world. But just last week, an official from China appeared to question the holding of U.S. paper.

The losses that led to AIG's essential failure came largely from two sources: The state-regulated AIG insurance subsidiaries' securities lending program, and the AIG Financial Products (AIGFP) subsidiary, a largely unregulated subsidiary that specialized in financial derivatives. And is it not ironic, Mr. Speaker, that most of the bonuses in question went to AIG executives in those two divisions. Bad actors should not benefit from poor performance. The American people should not be required to pay for the missteps of the AIG top brass, particularly during a time when the unemployment rate is creeping up.

Financial derivatives are products that came into the public consciousness during the Orange County default of 1994. Typically derivatives are used to diversify investment portfolios for institutional and retail investors. If we thought that the derivatives beast had been tamed—apparently we were wrong—it has roared back to bite us.

The securities lending losses were largely due to investments in mortgage-backed securities, and are relatively well-defined at this point. At the end of 2008, the outstanding obligations from the AIG securities lending program were approximately \$3 billion, down from over \$82 billion at the start of 2008.

The credit derivative losses from AIGFP, however, are potentially ongoing despite actions taken to limit them. AIG reported approximately \$300 billion in continued notional net exposure to credit derivatives at the end of 2008, down from approximately \$370 billion at the start of 2008.

The government assistance to AIG began with an \$85 billion loan from the Federal Reserve in September 2008. This loan was on relatively onerous terms with a high interest rate and required a handover of 79.9 percent of the equity in AIG to the government.

As AIG's financial position weakened after September, several rounds of additional funding were provided to AIG and the terms were loosened to some degree. The lessening of restrictions was necessary because of the overall deterioration of the economy and certain financial services companies.

The second major restructuring of the assistance to AIG was announced in March 2009 and has yet to be completed. Once it is completed, the assistance to AIG will comprise: (1) Up to \$70 billion in capital injections through preferred share purchases by the Treasury; (2) up to \$40.3 billion in outstanding loans from the Fed; (3) up to \$34.5 billion in Federal Reserve loans retired by securities and equity interests provided to the government by AIG; and (4) up to \$52.5 billion in loans for troubled asset purchases—assets which are now owned by the government.

In addition to possible continuing losses on AIG's derivative portfolio, the ongoing weakness in the economy may weigh heavily on AIG's future results. It is not clear whether the ongoing government involvement in AIG might strengthen or weaken AIG's core insurance business, as consumers could conclude that their policy with AIG is safe due to the government involvement or they could conclude that their policy with AIG is more risky since the government could change the terms of its involvement at any time.

That is why we must, as a Congress, send a strong message to the American people. They need to know that when we write a bill that is circumvented—Congress will act quickly to address it.

PARLIAMENTARY INQUIRY

Mr. GARRETT of New Jersey. Mr. Speaker, parliamentary inquiry, please.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. GARRETT of New Jersey. Is it under the rules of the House that the sponsor of the resolution has to be on

the floor during the presentation of the discussions and debate on the resolution?

The SPEAKER pro tempore. It is not required under the rules of the House.

Mr. GARRETT of New Jersey. Thank you.

Mr. Speaker, I yield 1½ minutes to the gentleman from Texas (Mr. PAUL).

Mr. PAUL. I thank the gentleman for yielding.

Today, there is a lot of expression of outrage—and indeed, there should be.

I don't believe that this resolution really addresses the real problem that we have. It looks like it's giving the administration an excuse by saying that he is only doing what we have asked him to do, and the administration. And in many ways this is true. The real fault, I think, falls within the Congress ever giving this money and allowing this to happen. But to excuse the administration and then complain about these bonuses and think that that can solve our problems, it just won't do that.

The real outrage, I think, is the lack of monitoring of what we do; we give out money, we have no strings attached, we give out hundreds of billions of dollars, and we totally ignore what the Federal Reserve does by issuing literally trillions of dollars. And yet, this is the emergency legislation.

This is politically driven, I happen to believe. I think people would like to express their outrage, and they do. And it's an easy target, picking on AIG, but we create these problems; we create them by doing things that are unconstitutional. We come up with these schemes and these expressions and excuses, and at the same time, we don't address the subject of why do we spend money, and why do we allow a monetary system to operate without any supervision by the Congress? That's where our real problem is. And someday we will address that and deal with this rather than doing it in the political way of saying, well, it's not our fault, it's their fault.

Mr. GARRETT of New Jersey. I thank the gentleman from Texas for pointing out that these problems were, in fact, created through legislation, and that legislation came under the leadership of the Democrat House.

At this time, I yield 1½ minutes to the gentlelady from Kansas (Ms. JENKINS).

Ms. JENKINS. Mr. Speaker, I rise today to express the frustration that my constituents and I have at the abuse of taxpayer dollars.

The American taxpayer, over the past year, has been forced to foot the bill with hundreds of billions to bail out bad decisions made by institutions that were deemed too big to fail, including AIG.

After receiving almost \$200 billion in taxpayer bailout dollars, we now know AIG used some \$165 million to pay bo-

nuses to many of the same executives who got them into this mess in the first place. These bonuses are outrageous; but even more outrageous is that this whole situation could have been avoided. During the closed-door conference committee meetings for the Democrat so-called stimulus bill, a provision was slipped in that permitted the AIG bonuses to be paid.

The \$165 million in bonuses AIG recently made must be recaptured. As the primary—unwilling—investors, the American taxpayers deserve to know how and when they will be repaid and given assurance that their dollars will not be squandered any further.

The legislation voted on today will not recapture 100 percent of taxpayers' money, and it sets a dangerous precedent for punishing individuals by taxing past behavior deemed inappropriate.

It is disappointing how this body continues to let the American people down.

Mr. FRANK of Massachusetts. Mr. Speaker, I yield myself 30 seconds to correct the gentleman from New Jersey.

I have long thought that I pay closer attention to our colleague from Texas (Mr. PAUL) than his Republican colleagues. He talked about legislation, but he was talking about, in part, the legislation that gives the Federal Reserve the ability to do this.

The gentleman from New Jersey is incorrect. This was not created by the TARP legislation which the Congress passed at the request of President Bush, it was under legislation passed in 1932 which gave the Federal Reserve the authority. Mr. Bernanke was acting under that authority. So it is true that the actual loan was made under the administration of George Bush, but he was acting under authority signed by another great Republican President, Herbert Hoover.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 1½ minutes to the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I have not seen this much gnashing of teeth and beating of breasts since Homer penned "The Rape of the Sabine Women".

This is truly amazing. We are being asked to vote on a resolution today that says that the President is doing everything in his power to properly execute a program. Now, I wish I could vote "yes" because I happen to think that the President of the United States, Mr. Obama, is doing the best job that he can, but I can't answer that question. I can't answer that question. And I am going to yield to the distinguished chairman of the Financial Services Committee if he will answer the question. This is the paragraph—hold on, let me get the citation—title VII, section 111, subparagraph (iii).

Somehow, when the bill left the Senate, it had the Wyden-Snowe language

that said “no executive compensation,” and it taxed it. When the bill comes out of the conference committee, it has this paragraph in it that makes possible the bonuses that people are so shocked about today.

Now, I wasn't in the conference committee, I've been transferred to the Appropriations Committee, and so I would yield to the distinguished chairman of the Financial Services Committee if he would tell me—I assume he was a conferee—how did this get in the bill? I'll yield to anybody on the Democratic side. How did this paragraph get in the bill?

This paragraph said that the government could not stop the \$170 billion worth of bonuses, and today we're taxing these bonuses at 90 percent and we're calling these people traitors. Come on. How did this stuff get in the bill? And if you can't answer the question, we can't vote on your resolution.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will remind all persons in the gallery that they are here as a guest of the House and that any manifestation of approval or disapproval of proceedings or other audible conversation is in violation of the rules of the House.

Mr. FRANK of Massachusetts. Mr. Speaker, I reserve the balance of my time.

Mr. GARRETT of New Jersey. Mr. Speaker, before I yield to our leader, I will yield such time to the chairman if he wishes to answer the question that the gentleman from Iowa asked, which was, how did this language get into the legislation which allowed for these bonuses to go through? He did not answer the question before, but I will yield.

Mr. FRANK of Massachusetts. I will confess, Mr. Speaker, I was not paying as close attention to the gentleman from New Jersey.

Mr. GARRETT of New Jersey. Then I take back my time.

Mr. FRANK of Massachusetts. Would he rephrase the question?

Mr. GARRETT of New Jersey. I take back my time. Apparently, the gentleman doesn't know the same rules that he was asking for one of his peers.

The SPEAKER pro tempore. The gentleman from New Jersey has the time.

The Chair would ask Members to be more orderly in yielding and reclaiming time. Specifically, Members should not interrupt after the Member under recognition has expressed an intent not to yield.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 1 minute to our leader, the gentleman from Ohio (Mr. BOEHNER).

Mr. BOEHNER. Let me thank my colleague from New Jersey for yielding.

I can see that the political circus continues here with the second piece of legislation today.

I just want all the Members to know what the first paragraph of the “Resolved” clause is in this resolution. It says, “Resolved by the House of Representatives, the Senate concurring, that it is the sense of Congress that the President is appropriately exercising all of the authorities granted by Congress under the Emergency Economic Stabilization Act of 2008, and any other Federal law.” Are you kidding me?

The Secretary of the Treasury has the ability to do this. Before he gave the last \$30 billion—you know, that was the day after they reported a \$61 billion loss, the Secretary of the Treasury decided they needed another \$30 billion. And before he gave them the \$30 billion, he couldn't have made clearer that no bonuses were going to be paid.

So I don't know how we can put this “resolved” clause in this phony resolution here so all Members can cover their rear-ends that they have come to the floor and they have voted to stop all of these bonuses going to these AIG executives.

This is a joke, and we ought to treat it as such. Vote “no.”

Mr. FRANK of Massachusetts. Mr. Speaker, I yield myself 15 seconds to say that if the gentleman wants to ask me a question—I had said I hadn't heard it—if he would rephrase it, I will try to answer it.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 1½ minutes to the gentleman from Illinois (Mrs. BIGGERT).

Mrs. BIGGERT. I thank the gentleman for yielding.

Mr. Speaker, I rise in opposition to this resolution, for I think it's a sham and an attempt to rewrite history.

When I and many of my colleagues voted against the first TARP bailout, I did so because I thought there weren't enough taxpayer protections. Well, you know what? I was right. But now we find out, to make matters worse, the other side of the aisle made it even worse writing in—in secrecy in the dead of night—a provision that actually took away a provision that would protect the taxpayers from these obscene bonuses. Well, they got caught, and now they have no one to blame but themselves.

When they say to 178 Members on this side of the aisle, “it's my way or the highway,” this is what they get. But my taxpayers shouldn't have to pay for their mistakes or their arrogance. So maybe I will call their bluff and maybe I will vote for their flawed legislation, which is too little, too late, because I want our taxpayer's money back.

I urge my colleagues to oppose this resolution, and I worry about how we're going to solve this problem.

Mr. FRANK of Massachusetts. I will continue to reserve.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 1½ minutes to the gentleman from Texas (Mr. HENSARLING).

Mr. HENSARLING. Mr. Speaker, I thank the gentleman for yielding.

The outrage is continued. What we have today here is nothing short of a legislative coverup. That's what we're looking at here, Mr. Speaker. And when you look at these two different proposals that have come to the floor, one of which would trample on the Constitution in order to perpetrate this legislative coverup. And now we have the spectacle of Senator DODD pointing the finger at Secretary Geithner, and Secretary Geithner pointing the finger at Senator DODD. But what we do know is that our friends on the other side of the aisle, the Democrats, could have prevented this. But this language got in the bill, and all of a sudden it has no parents. Nobody will claim where this came from, this magical language that somehow allows these outrageous AIG bonuses to be paid.

Here's a news flash: Why don't we tell them, “No more Federal money, AIG, until these bonuses are repaid?” Don't come up with this political cover-your-backside language, trying to excuse all the people who are responsible for this in the first place. Don't trample on our Constitution in order to do this legislative coverup.

What happened to supposedly the most open and honest Congress in the history of America? This is transparency? This is honesty? And instead, we have cover up. Vote it down.

Mr. FRANK of Massachusetts. Mr. Speaker, I guess I will never get to answer that question, so I will yield, instead, 1 minute to the Speaker of the House.

Ms. PELOSI. I thank the gentleman for yielding, and I thank him for his leadership in bringing this legislation to the floor and his ongoing leadership in protecting the national interest of the American people as chairman of the Financial Services Committee.

I also want to acknowledge the leadership of Chairman RANGEL of the Ways and Means Committee for the legislation that was debated earlier about how the American people can get their money back, money paid in bonuses for failure, money paid that belongs to the taxpayers.

Mr. Speaker, today we are gathered on the floor to address a symptom, the bonuses, a symptom of the challenge that we face in our economy and in our financial situation in our country. I believe the President is on the right path and did an excellent job in his leadership when we passed the Recovery Act here. This Congress is moving forward with regulatory reform to address the lack of regulation, supervision, and discipline in the financial markets that brought us to this place. The President's initiatives on housing will help people stay in their homes. Addressing the housing crisis is essential to addressing the financial crisis in our country. And then we have to deal with

the stability of our financial institutions.

In the course of doing that, with a massive infusion of cash from the Fed on September 16—long before some in this body were even elected to the Congress—the Federal Reserve transferred these funds and the many funds since then without any requirements or conditions.

We come to a point where it is very clear that there are many in our country who believe that the way a free market system works for them, and not in the national interest, is to nationalize the risk and privatize the gain.

□ 1400

They are entrepreneurial, take risk, enjoy the benefits when success is there. But when it is not, these undue risks have to be paid for by the taxpayer, or so they think. That's just not right.

We all believe in a free market system. We all see that capitalism produces jobs and creates capital, and that is important. It creates wealth and that's important to the success of our economy, creating jobs especially. But it isn't right, it just simply isn't right, when there is a reward, a spelled-out-in-advance reward, for those who will take undue risk and when they fail, they get a bonus; the taxpayer gets the bill. This must end.

And today with these two resolutions, I think that we are making two important statements. One is that the administration should continue in its efforts to recover the money and prevent these bonuses from going forward. And the other is that we want our money back and we want our money back now for the taxpayers. This isn't that complicated. It isn't that complicated.

There are other steps that we can take, and in working in a bipartisan way on the committees of jurisdiction, the Financial Services Committee for one, we will have other pieces of legislation which will ensure that this can never happen again. We're working with the Judiciary Committee to say when is the national interest so offended that it is okay, then, to revisit a contract?

You hear all this talk about, oh, we can't revisit contracts. It's the Constitution. And we respect that, and we would not do so unless we would do so very carefully. But nobody seems to have a problem saying to auto workers in Michigan that their contracts must be revisited, that they have to take a deep cut in order to sustain an industry because that industry is important to our national security; we must have a manufacturing base and we cannot have it be undermined. So if the workers contracts are so subject to review and revision, why is it that when somebody gives a contract for a bonus to

somebody for failure which is known not to be in the national interest that you can't even bring up the subject?

Well, that isn't the subject for today in terms of legislation, but the subject of fairness and justice is. And I would hope that going forth from today, we could work strongly in a bipartisan way to address the real challenges to our economy and the challenge that the fragility of our financial institutions poses. We have to really say is it worth it to us to transfer hundreds of billions of taxpayer money, as Secretary Paulson asked us to do on September 18 when he and Chairman Bernanke visited the Congress? What are the results? Where is the credit circulating on Main Street?

Just getting back to the bonuses for a minute, because of the failure of AIG and the downturn for so many other financial institutions in our country, our people do not have job security. They're afraid of losing their jobs, their homes, their pensions, the college education of their children. It's just not right. There is a direct connection between this nationalizing the risk and privatizing the gain and the economic security of America's families and the strength of Main Street.

So let's take a step and say we want our money back. Here's one way to get it. And then let's work together to do more in that regard to bring justice to the system but, more importantly, to work together to bring stability to our economy.

With that, I urge our colleagues to support the resolutions before us.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 30 seconds to a gentleman now who also wants to get the money back but also wants to find out how we got to this place in the first place, the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I have to apologize to the distinguished chairman of the Financial Services Committee because apparently I wasn't riveting enough when I was chatting before. And I'm happy to restate my question, and if the distinguished Speaker hasn't left the floor, she as well, I assume, had a representative in the conference committee.

My question was simple. These bonuses were not blocked as a result of this paragraph in the stimulus bill. Now, 2 days before we voted on it, every Democrat in the House voted to give us 48 hours to do it. You didn't do it. You gave us 90 minutes. You said 90 minutes is plenty of time. So I assume the Democrats read it. I assume the conferees who were in the room when this paragraph was inserted read it.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. GARRETT of New Jersey. I yield the gentleman an additional 10 seconds.

Mr. LATOURETTE. My question, Mr. Chairman: How did this get in the bill?

I have the same answer, but I'm glad at least we have now heard the question.

Mr. FRANK of Massachusetts. Well, Mr. Speaker, I would say to my friend from Ohio that last remark was kind of bewildering. It wasn't my time. He was out of time. He seemed to be annoyed that I hadn't answered his question, but how I don't know how I could have done that except by sign language, in which I am not proficient. In my time I will address the question. For him to ask me a question as his time expires and then express indignation at my failure to answer it puzzles me.

Mr. Speaker, I reserve the balance of my time.

Mr. BACHUS. Mr. Speaker, I ask unanimous consent to give the chairman 15 seconds to answer the gentleman's question.

Mr. FRANK of Massachusetts. Reserving the right to object, I'm not going to be told I have only 15 seconds to answer a question.

Mr. BACHUS. Mr. Speaker, then I ask unanimous consent to give the chairman 1 minute to answer the gentleman from Ohio's question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alabama?

There was no objection.

The SPEAKER pro tempore. The gentleman from Massachusetts has an additional 1 minute added to his time.

Mr. FRANK of Massachusetts. I thank the gentleman. I will use it and then reserve the balance of my time.

I was not a member of the conference committee. The Financial Services Committee was not directly involved in this. We were more constrained by what we thought was the germaneness to the recovery bill. So the answer is I am not familiar with whatever the reasons were as to why this was put in.

I will say this: If there had been no language whatsoever, we still wouldn't have had the authority. In other words, what did survive was additional authority. Now, if there had been no bill whatsoever, we wouldn't have come even this close. But as to the specific question, the answer is I was not involved.

I would also just say, as chairman of the Financial Services Committee, I monitor pretty closely what goes on. I am not aware of any Republican member of the Financial Services Committee who has approached us and asked us to toughen up compensation restrictions. This interest in compensation restrictions is a fairly new interest. I commend people. I think later in life, it's good to take up new things so you don't get stale. But I do want to note that it is a fairly newfound hobby of my colleagues on the other side. In fact, in September when the Bush administration said they were going to make the loan with no restrictions and we pushed for it—

Mr. BACHUS. Will the gentleman yield?

Mr. FRANK of Massachusetts. I yield to the gentleman from Alabama.

Mr. BACHUS. We're talking about this February. This resolution deals with your resolution that the President in February acted appropriately.

Mr. FRANK of Massachusetts. Reclaiming my time, we now have the nub of it. How dare I mention September of 2008. We're talking about February. I thought the world began on January 20. Apparently it started on February 1.

The fact is that you cannot look at this out of context. It was under the Bush administration that they initiated this loan to AIG. It was under the Bush administration that they asked for TARP and for our efforts to try to restrict compensation.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. GARRETT of New Jersey. Mr. Speaker, can I ask how much time remains on both sides, and was that time that just used then in excess of the 1 minute that was yielded to the gentleman by unanimous consent?

The SPEAKER pro tempore. It was.

The gentleman from New Jersey has 2½ minutes remaining, and the gentleman from Massachusetts has 2¼ minutes remaining.

Mr. GARRETT of New Jersey. With that, Mr. Speaker, I will yield 1 minute to the gentleman from Texas who knows as well as RON PAUL does that the Federal Reserve was created during a Democrat administration.

Mr. GOHMERT. Mr. Speaker, I heard the chairman a moment ago saying Bush was in charge in September. And that's correct. I was glad to hear that.

But some of us back in September were begging the majority and people on this side of the aisle don't give \$700 billion in this fashion to anybody, not Paulson, not Geithner, not anybody. But it passed with the majority of the majority voting for it.

So it's a little difficult to come in here and say the President has done everything he can when President Obama's defense apparently is, well, Bush was bad, he used maybe \$300 billion of the \$700 billion; so we've got Obama \$1.5 trillion, \$1.6 trillion.

Look, if we want to fix this so the President can do all he can, somebody needs to put in the teleprompter that he's directing Geithner to put this outfit in receivership and then go get 100 percent of the bonuses. Then we can talk about doing all he can.

Mr. FRANK of Massachusetts. Mr. Speaker, I reserve the balance of my time.

Mr. GARRETT of New Jersey. Mr. Speaker, I yield 1 minute to the gentleman from Illinois (Mr. ROSKAM).

Mr. ROSKAM. Mr. Speaker, I thank the gentleman for yielding.

A couple of minutes ago we heard from the gentlewoman from California,

the Speaker of the House. She said this isn't complicated. And you know what? It's really not complicated.

It was just a few short weeks ago that the House Republican leader, JOHN BOEHNER, came out here with, I don't know, was it a thousand pages? It was a whole lot of pages in the stimulus package. And he gave a poignant observation, and he made a challenge and he said nobody on that side of the aisle has read this bill. He dropped it, and like a thug those pages hit. And there was silence on the other side because you know what? The other side, Mr. Speaker, could hardly give you eye contact because they hadn't read the bill. And now, lo and behold, we come up with one shuffling answer after another as to how it is that this policy gives AIG the ability to walk away with taxpayer money. The list of excuses knows no end.

So the Speaker is right. This isn't complicated. This is what happens when we abrogate responsibility, when the Congress doesn't read bills, and when we create what my predecessor calls the "greased chute of government."

Mr. FRANK of Massachusetts. Mr. Speaker, I continue to reserve the balance of my time.

Mr. GARRETT of New Jersey. Mr. Speaker, we are essentially here today on a resolution that does nothing much more than to say congratulations to this administration.

When you think about all the outrage across the country, and Americans should be outraged. We all want to get our money back and we will do everything in our power to get our money back. But the Americans are not only outraged at these bonuses, they are not only outraged at AIG and that they paid them out, but they are also outraged that we got here in the first place. And they know the fact that it was Secretary Geithner who was the architect of this. They know that TARP 1, 2, and 3 passed under the leadership of this Democrat House without absolute any strings attached whatsoever. And they know that it was under the leadership of this House that a bill passed that pulled out the restrictions. And so there is no reason why we should be commending this administration on this matter.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. FRANK of Massachusetts. Mr. Speaker, we have passed from creationism to fantasy. It's interesting.

The gentleman from Texas (Mr. GOHMERT) was very critical, in fact, of the actions of the Republican leader. He said we begged people not to vote for the TARP. The Republican leader in the House last fall worked very hard to get it passed. So did the other members of his leadership.

□ 1415

So did the other Members of his leadership, and now he is being denounced

for that. So I guess he broke even on his side, which these days, if you are in the minority, may be a pretty good day.

But the fact is this, the gentleman from New Jersey says, well, the Democrats were in the majority—though he said Democrat majority. Pardon me, for not getting his inflection absolute. Yes, the President of the United States, George Bush, came and asked us to do this, and his two top economic advisers said if you don't do it, there will be a crisis.

But, in fact, that's not directly relevant to the AIG issue. AIG was granted money.

And, by the way, the gentleman from New Jersey again misstates the relevant statute. The statute that we are referring to, that the gentleman from Texas referred to, is not the original one creating the Federal Reserve, it's the 1932 statute that gave them the power to lend money as they wish, signed by another great Republican President, Herbert Hoover.

But the point is that it was the Republican administration that said we had to do this. Yes, there was cooperation, the Republican leadership in the House, the majority in the Senate, believing that there would have been a terrible problem if it wasn't there.

I do want to reiterate that I am now pleased, as Chairman of the Financial Services Committee, that there is this interest on the Republican side in restricting compensation. It has not previously been a strong part of their argument.

However, we will return to the subject of this resolution. The resolution isn't binding, but it is a forerunner of what will be binding.

The Committee on Financial Services will vote next week on binding legislation, and it will bring it to the floor the week after, which will embody much of this, and it will include an effort to deal with this retroactively. There will be legal questions raised, but the fact is that we will have binding legislation to embody this.

This is an important statement. I would say this in closing, Mr. Speaker. We have people now at AIG deciding whether or not they are going to give their money back. The more they give back to us, the better we will be. It won't be totally conclusive.

But to defeat this resolution because it says nice things about President Obama would be a grave error.

Mr. MARSHALL. Mr. Speaker, I voted in favor of this resolution because no company should pay large bonuses to employees after receiving taxpayer funds under the Troubled Assets Relief Program. I agreed to the stated "sense of Congress" that the President is appropriately exercising all powers available to him because I have no reason to conclude otherwise. But I acknowledge the possibility that the President may not be doing all he can to recover the AIG bonuses. No Representative can know everything an Administration is

doing so it is therefore possible that more can be done. If more can be done, it should be done.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. FRANK) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 76.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. GARRETT of New Jersey. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 1586, by the yeas and nays;

H. Con. Res. 76, by the yeas and nays;

H.R. 1216, de novo.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

TAXING EXECUTIVE BONUSES PAID BY COMPANIES RECEIVING TARP ASSISTANCE

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 1586 on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. RANGEL) that the House suspend the rules and pass the bill, H.R. 1586.

The vote was taken by electronic device, and there were—yeas 328, nays 93, not voting 10, as follows:

□ 1444

Messrs. MINNICK and McKEON changed their vote from “yea” to “nay.”

Messrs. THOMPSON of California, YOUNG of Alaska, REHBERG, ALEXANDER, LEWIS of California, WHITFIELD, YOUNG of Florida, BROWN of South Carolina, FLEMING, and FATTAH changed their vote from “nay” to yea.”

Mr. KISSELL changed his vote from “present” to “nay.”

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mrs. NAPOLITANO. Mr. Speaker, on Thursday, March 19, 2009, I was absent during roll-call vote No. 143 in order to attend an event with the President in my district. Had I been present, I would have voted “yea” on the motion to suspend the rules and pass H.R. 1586—Additional tax on bonuses received from certain TARP recipients. We must protect taxpayers' money and ensure TARP funds are not being abused by executives. Executives of TARP funded companies should not receive bonuses for the work they have done that has caused us to arrive at our current economic situation.

SENSE OF CONGRESS REGARDING BONUSES PAID BY AIG AND OTHER COMPANIES RECEIVING FEDERAL ASSISTANCE

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to

the concurrent resolution, H. Con. Res. 76, on which the yeas and nays were ordered.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. FRANK) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 76.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 255, nays 160, not voting 16, as follows:

So (two-thirds not being in the affirmative) the motion was rejected.

The result of the vote was announced as above recorded.

Stated for:

Ms. SLAUGHTER. Mr. Speaker, on rollcall No. 144, had I been present, I would have voted "yea."

Mrs. NAPOLITANO. Madam Speaker, on Thursday, March 19, 2009, I was absent during rollcall vote No. 144 in order to attend an event with the President in my district. Had I

been present, I would have voted "yea" on the motion to suspend the rules and agree to H. Con. Res. 76—Expressing the sense of the Congress regarding executive and employee bonuses paid by AIG and other companies assisted with taxpayer funds provided under the Troubled Assets Relief Program (TARP) of the Secretary of the Treasury. It is absurd that AIG has received \$180 billion in TARP assistance while giving \$165 million in bonuses to the very people who have brought us to our current economic state. We cannot allow the executives of these companies to benefit at the taxpayers' expense.

Mr. MCNERNEY. Mr. Speaker, earlier today my vote in favor of House Concurrent Resolution 76, which was rollcall No. 144, was not properly recorded due to an electronic error. I would like the RECORD to reflect that I would have voted "yea" on this resolution.

PERSONAL EXPLANATION

Mr. DAVIS of Tennessee. Mr. Speaker, on rollcall Nos. 143 and 144, had I been present, I would have voted "yea."

LANCE CORPORAL MATTHEW P. PATHENOS POST OFFICE BUILDING

The SPEAKER pro tempore (Mr. PAS-TOR of Arizona). The unfinished business is the question on suspending the rules and passing the bill, H.R. 1216.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Missouri (Mr. CLAY) that the House suspend the rules and pass the bill, H.R. 1216.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

□ 1500

LEGISLATIVE PROGRAM

(Mr. CANTOR asked and was given permission to address the House for 1 minute.)

Mr. CANTOR. Mr. Speaker, I yield to the gentleman from Maryland, the majority leader, for the purpose of announcing next week's schedule.

Mr. HOYER. I thank the minority whip for yielding.

On Monday the House will meet at 12:30 p.m. for morning-hour debate and 2 p.m. for legislative business. On Tuesday the House will meet at 10:30 a.m. for morning-hour debate and 12 p.m. legislative business. On Wednesday and Thursday the House will meet at 10 a.m. for legislative business. On Friday no votes are expected.

We will consider several bills under suspension of the rules. A complete list of suspensions, as is the tradition, will be announced by the close of business tomorrow. In addition, we will consider

Senate amendments to H.R. 146, the Omnibus Public Land Management Act of 2009 and H.R. 1404, the Federal Land Assistance, Management and Enhancement Act.

Mr. CANTOR. Mr. Speaker, I thank the gentleman.

I would like to ask the gentleman that, in reference to his mention of the public lands omnibus bill, and that will be coming back to the floor, I would like to ask the gentleman, will our side, the Republicans, be given a motion to recommit or an opportunity to amend this bill?

Mr. HOYER. The bill comes back, of course, it is a House bill being returned with amendments as the gentleman, I'm sure, knows, and under those circumstances, of course, we consider that there is not a motion to recommit on that kind of a procedure. So the answer there would be it would not be a motion to recommit. As the gentleman also knows, this bill came two votes short of a two-thirds majority with very significant Republican and Democratic support of the bill. This bill has been hanging around for a long period of time. It is composed largely, although not exclusively, of bills that have passed the House largely on suspension.

So the answer to the gentleman's question is we believe there has been demonstrated overwhelming support for the substance of this bill. It has been hanging around a long time. We want to see it get passed. And the answer is probably not.

Mr. CANTOR. I thank the gentleman.

As the gentleman knows, certainly there are procedures in place to waive the rules so that we can, on the minority side, have a voice in the passage of this legislation consistent with what President Obama has continued to say, which is that we should change the way this town works and continue to allow all sides to have a voice in what Congress does. I think, as we saw over the last week, evidence or results of rushing things through the House and disallowing our side to have a say in legislation may very well end up with wrong results. So I am saddened to hear that we will not be having an opportunity to offer an amendment to that bill.

Mr. HOYER. Will my friend yield on that point?

Mr. CANTOR. Yes.

Mr. HOYER. As the gentleman, I'm sure, knows, many, many of the provisions, I don't know that I have the specific count, are Republican-sponsored bills in this, what the Senate packaged, as you know, so that a large percentage, I don't know exactly what the percentage is, whether it is 30 percent or 35 percent, are Republican-sponsored pieces of legislation.

Mr. CANTOR. I thank the gentleman.

I think that the percentage would probably be reflected in the fact that

there may be 17 or so Republican provisions in the bill out of 140 or so. So I wouldn't necessarily say, Mr. Speaker, that that would reflect what our side would amend or hope to amend the bill with. But I would like to ask the gentleman, Mr. Speaker, that last week he was on the floor and he mentioned that a stem-cell bill will be coming to the floor prior to recess. And since the gentleman has not noticed the bill for next week, I would ask, Mr. Speaker, could the gentleman tell us if he expects it on the floor the following week?

Mr. HOYER. It is possible. I wouldn't send out an expectation. It is being worked on. There is a strong feeling by the sponsors of the legislation, as you know, that passed in the last Congress through this House, handily, that I think in agreement with the administration that, in addition to the administration's Executive Order, legislation is necessary to give certainty to what can and cannot be done by researchers. And we obviously want to make sure that researchers understand what the law is, what the opportunities are, and what the prohibitions are so that legislation is possible. But I want to tell my friend that I did not announce it for next week. I don't expect legislation next week. I think it is possible for the week following, but I don't want to go beyond that. We will certainly let the gentleman know as soon as I know.

Mr. CANTOR. I thank the gentleman.

Mr. Speaker, I would like to ask further questions of the gentleman, as we have been told that the budget will be marked up next week, and I am wondering from the gentleman, number one, if he expects the budget on the floor the following week? In addition to that, I am curious, as are the Members on our side of the aisle, about the subject of your discussions with Chairman SPRATT as to the direction of the budget. There has been a lot of discussion publicly as well as in these halls, about the proposed cap-and-tax proposal, where some economists, those from MIT and others, predict that if we are to provide for the cap-and-tax proposal, that it will cost American families at least \$3,100 every year. That, to me, is a great cause for alarm, especially given the economic times and the struggle that the working families of this country are encountering.

It was also revealed this week that the number provided for in the proposed budget has underestimated the real cost of cap-and-tax. And if that is the case, that is even more alarming given the fact that if we are looking at an over \$3,000 per family tax, what is it that we are doing if we are putting that cost on anybody who pays an electric bill, anyone who pays a gas bill, anyone who buys anything manufactured in this country? So I ask the gentleman if he is contemplating that the budget proposal that will come to the floor will have that in it.

I yield.

Mr. HOYER. I thank the gentleman for yielding.

My presumption is that you have now come up with a new phrase on your side of the aisle. I do know about cap-and-trade. It is talked about regularly. But maybe that is not as politically salient as "cap-and-tax." It seems innovative. But if the gentleman, as I presume he is, is referring to what is commonly known by everybody else as "cap-and-trade," let me say this: The Budget Committee obviously will mark up on the 25th, that is next Wednesday, we expect to bring the budget bill to the floor the following week, the last week before the Easter break. My expectation is there will be provisions in there for energy and global warming consideration. But my further expectation is it will not adopt a premise of one alternative over another, that that will be subject to the legislative process, and that one will not be chosen in the budget itself, so that voting on the budget would not be giving precedent to one alternative over another.

I yield back.

Mr. CANTOR. I thank the gentleman.

Mr. Speaker, I ask whether the gentleman can tell us as to the prospect for reconciliation instructions to be included in the budget. We have heard this week that the White House has told leaders on your side of the aisle to pursue health reform through reconciliation as well. And to us, this seems like a straight-up partisan approach, something I don't think that the American people are looking for right now, especially when it comes to items such as taxes and items like health care that everyone is concerned with. There is no distinction made between hardship on health care between Republican and Democrat.

So I would like to ask the gentleman, will the budget be coming through with reconciliation instructions?

And I yield.

Mr. HOYER. I thank the gentleman for yielding.

First of all, the gentleman indicated that "we have been told by the White House." I had some comments on how the Republican majority responded, from my perspective, without fail to the Bush administration. We have discussions with our White House. We don't tell them. They don't tell us. We have discussions, positive discussions, on how we, together, can move this country forward.

Those discussions clearly have had reconciliation as a subject of discussions. But I will tell the gentleman that those decisions by the Budget Committee have not been made, nor have they been made by the chairman of the Budget Committee. But they clearly are part of the discussion. Reconciliation, as the gentleman knows, has been in our rules for a very long period of time. When the Republicans

were in power, reconciliation was something that they used. They are in the process to facilitate the adoption of the budget and policies consistent with the budget; i.e., to reconcile the budget with the authorization and the policy with the budget that has been adopted. So I say to the gentleman that that is certainly under consideration, but no decision on that has been made.

Mr. CANTOR. I thank the gentleman.

I would hope, Mr. Speaker, that the gentleman would also share the attitude of discussing with us the direction, just as you indicate that the White House discusses but doesn't tell you what to do. So I like that spirit of cooperation.

I would ask the gentleman, Mr. Speaker, further, about any insight you can give us as to TARP 2 budgeting. As we all know, if we do not get the banking system fixed, we won't have the credit system fixed for the small businesses of this country, and we won't see the economy get back on the path to growth. So I would ask the gentleman, is he contemplating a number in the budget? Does your conversation with Chairman SPRATT indicate what we could expect there?

And I will yield.

Mr. HOYER. I don't want to anticipate what the Budget Committee will do. The gentleman is referring to the placeholder that the administration suggested in the budget. They did so because they wanted to present a budget that did, in fact, anticipate possible costs. To that extent, it was probably one of the most honest budgets that we received, honest in the sense that it included the prospective costs. As you know, we have been somewhat critical in the past of costs that we knew were coming down the pike but which were not included. So the administration did that.

Now whether or not the Budget Committee itself decides to include those costs, I don't know. But I do know this, that there has been no decision on an additional TARP appropriation or authorization. Clearly, we are hopeful that we will stabilize the economy. We have moved forward in many respects on a bipartisan basis on this, certainly not in every respect.

We have done some tough things because we thought the crisis that confronted our country demanded action. We have all been very disappointed with some of the manifestations of that. And I think we are going to continue to look at this very carefully. The Financial Services Committee is marking up a bill this coming week, which I expect to have on the floor the following week, dealing with constraints on those who receive funds from the Federal Government, from the taxpayer, to shore up our economy, not to shore up those businesses, but to shore up the businesses as they relate to the impact their failure would have on the economy.

I think that the gentleman and I share a view that we certainly need to have knowledge, and we will have knowledge if the administration believes that it needs additional resources and that Congress will have that to consider. I would say that the environment for such a piece of legislation right now is not particularly good.

Mr. CANTOR. I thank the gentleman.

Mr. Speaker, I would ask the gentleman further on that note about a markup in the Financial Services Committee. I take it to mean that the Financial Services Committee will be working on a piece of legislation, not necessarily aimed at a bank fix and making sure we can get the impaired assets out of the market, but instead, from what I hear the gentleman say, that it is a bill aimed at providing a structure for those businesses, those institutions receiving TARP funds.

I yield.

Mr. HOYER. I think that is accurate.

Mr. CANTOR. I thank the gentleman. And one additional question along those lines, Mr. Speaker, could we expect then the following week for that bill to be coming to the floor?

Mr. HOYER. That is my expectation, yes.

Mr. CANTOR. I thank the gentleman. Mr. Speaker, we heard an announcement from the President of a plan to support small businesses. And as the gentleman knows, the Republican plan for stimulus was focused like a laser on the job creators, which are the small businesses of this economy. We know that 70 percent of the jobs come from small businesses, entrepreneurs and the self-employed. So we were very delighted to see the announcement—and I know the gentleman himself had some public comments to make, as well—lauding the move towards finally saying, if we are going to create jobs, we had better focus on small business. But my concern is, Mr. Speaker, that when you're talking about small business and the SBA, truly nine out of 10 small businesses in this country have not had any encounter with the SBA, nor do they intend to or want to.

I will tell the gentleman, in my district, I had a small business forum last week. I spoke to 25 small business people. What they are asking for is access to credit. They are looking for the banking system to work. They want their own community banks, not necessarily government strings attached to loans.

□ 1515

They also are looking for relief from the tax code. As we have noted on the floor several times, Mr. Speaker, the budget that was proposed by the White House actually impacts small businesses more than anyone else. In fact, 50 percent of those receiving a tax hike in accordance with the President's budget are small businesses.

So with that in mind, and given that the gentleman has applauded the move on the part of the White House to help provide relief to small businesses, I would ask the gentleman if there are any plans to include tax relief for small businesses in the majority's budget as it works its way through committee and then to the floor next week?

I yield to the gentleman.

Mr. HOYER. I thank the gentleman for his question. As you point out, on this side of the aisle we certainly have great concern for small businesses.

Although I don't want to be argumentative, the situation we find ourselves in was inherited. It was inherited from a previous administration that believed in a number of things, particularly the policies that you have offered to once again pursue, which we didn't think would work and, we think, frankly, have in some respects been a cause of the crisis that confronts this country.

Furthermore, we think that the administration's focus on deregulation and taking the regulators out of circulation was a significant cause. We also think that the failure of the Federal Reserve to enforce the 1994 law that was passed by the Congress and which was enforced by Chairman Bernanke in 2007 when he took office, which allowed the Federal Reserve the authority to oversee the subprime market, and the theory that Mr. Greenspan had that the market would regulate itself. In point of fact, we see from AIG that the market did not regulate itself. It went on a binge of irresponsibility and greed.

So I want to make it clear that while we are very concerned about small businesses, it is huge businesses that have put them in the trick bag. It was huge businesses that weren't overseen properly by the previous administration and need to be properly overseen by this administration.

Furthermore, let me say to my friend that the budget that the President has proposed eliminates the capital gains tax for individuals on the sale of certain small business stocks. It makes the research and experimentation tax credit permanent. Ninety-seven percent of small businesses will receive no tax increase in 2010. There is \$28 billion in loan guarantees to expand credit availability for small businesses, and support for \$1.1 billion in direct disaster loans for businesses, homeowners and renters.

Furthermore, the administration has, which you just saw them take action on, a small business lending initiative, not to the big banks, not to the huge organizations, but to small businesses. It is focused on unlocking credit for small businesses. You and I have absolute agreement on that. We need to do that. You talk to your small businesses; all of us do.

I had a meeting with my Chamber of Commerce, and we probably had a hundred small businesses in the auditorium at that point in time. You are absolutely right, they are having real trouble getting credit. I talked to a county commissioner who has a small business in Calvert County. Normally he could go into his bank and get a loan on a handshake for \$30,000 or \$40,000 to expand his business. This time he was looking for \$40,000. He has dealt with this bank for 35 years, and they said, I don't know whether they said Mr. Clark or Mr. Commissioner, but they said, yes, but fill out the form. And it took him 30 days. Now he got it, but he has done business with that small bank for that period of time. So we share that view.

By the end of the month, the Treasury Department will start making direct purchases of up to \$15 billion in securities backed by SBA loans to get the credit market for small businesses moving again.

In addition, in the Recovery Act, we eliminated, as I am sure the gentleman knows, all SBA-backed fees on SBA-backed loans, again to try to facilitate small businesses getting credit.

And it raises from 85 to 90 percent the proportion of loans that the Small Business Administration will guarantee.

Lastly, the U.S. Chamber of Commerce has endorsed these steps to unlock the credit markets for small businesses.

So we are very pleased at the definitive action that we have taken to further the interest you and I share of making sure that small businesses can make it in this extraordinarily bad time which we believe previous policies have caused and which we have inherited.

Mr. CANTOR. I thank the gentleman. Mr. Speaker, how I would respond to that is let's take a step back and look at sort of the events that transpired that led up to the need for today's vote on the AIG bonus payments, okay. I think that the events if we follow them teach us a lesson.

The stimulus bill that included a provision prohibiting the government from disallowing the bonus payments was in that 1,100-page bill. I think it is fair to say, Mr. Speaker, no one in this House read the bill in its entirety. Nor did the public have its right to know realized. I think that ought to give us the sense that we need to be much more deliberative and open about this process.

These ideas, Mr. Speaker, that the gentleman is proposing to help small business, most of which we probably do agree on, but, frankly, the better way to ensure success and a positive result is to have an open process where we all have the ability to offer our ideas, that the ideas and the policies are not just handed down from the majority leader

or the Speaker's office and imposed upon the will of the people of this country.

So I would just reiterate to the gentleman that if we can see our way forward to allow the minority the ability to offer up real, positive alternatives if we disagree, it would all behoove us to work in that fashion. We can end up avoiding the type of result that came from the rushed way that so-called stimulus bill passed this house.

Mr. HOYER. Mr. Speaker, before the gentleman yields back, I just want to make an observation.

I understand what the gentleman said, but the gentleman will recall, of course, that your party had a substitute that it offered that lost on a bipartisan vote, as you recall. So the gentleman did have the opportunity, his party had the opportunity, to offer a substitute which a significant number in his party did not agree with and certainly an overwhelming majority of our party did not agree with, in part because we perceived it as creating far fewer jobs. There is a difference of opinion on that, I understand that, but our perception was that it created about a third of the jobs or saved about a third of the jobs that our bill did.

But that aside, putting aside that disagreement on the figures, the fact is there is no disagreement that you had a substitute. You offered it, and it was defeated.

Mr. CANTOR. I thank the gentleman. How I would just respond before I yield back my time is that there was a stronger bipartisan vote in favor of our substitute than there was in support of the actual bill that passed. I think that we can take that as a signal that this House ought to be open, ventilated, and available for debate.

With that, I yield back the balance of my time, Mr. Speaker, and I thank the gentleman.

ADJOURNMENT TO MONDAY, MARCH 23, 2009

Mr. HOYER. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 12:30 p.m. on Monday next for morning-hour debate.

The SPEAKER pro tempore (Mr. KISSELL). Is there objection to the request of the gentleman from Maryland?

There was no objection.

GENERAL LEAVE

Mr. COHEN. Mr. Speaker, I ask unanimous consent that all Members may be permitted to extend their remarks and to include extraneous material on H. Con. Res. 76.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 146. An act to establish a battlefield acquisition grant program for the acquisition and protection of nationally significant battlefields and associated sites of the Revolutionary War and the War of 1812, and for other purposes.

REPUBLICANS WANT TAXPAYER DOLLARS BACK

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, House Democrats today chose to introduce an unconstitutional joke of a bill in order to clean up the AIG mess Democrats alone created. It was a Democrat spending bill, Democrat language, and only Democrat votes that authorized AIG to hand out bonuses. Democrats wrote the bill alone, secretly, and yet they act surprised.

Republicans have offered a bipartisan solution to get 100 percent of the taxpayers' dollars back, not 90 percent like our Democrat colleagues seek. The American people deserve to have all of that bonus money back, money authorized and spent by Democrat leadership.

The American taxpayers are justly outraged that their tax dollars are lining the pockets of AIG executives. Republicans have a solution to fix this problem, but Democrats don't want to talk about it. Democrats don't want to talk about the mistakes that they have made. American taxpayers deserve better.

In conclusion, God bless our troops, and we will never forget September the 11th.

VETERAN HEALTH CARE

(Mr. SMITH of Nebraska asked and was given permission to address the House for 1 minute.)

Mr. SMITH of Nebraska. Mr. Speaker, approximately 150,000 veterans live in Nebraska, many of whom live in my Third District. I am grateful for their sacrifice and certainly honored to represent them here in the United States House of Representatives.

I rise today to expression extreme disappointment, but also some gratitude for a policy that was made and then rescinded. I am grateful it was rescinded because it would cause a great burden for our veterans who have served us so admirably with sacrifice when they would have to go through the private sector health insurance rather than the VA.

Mr. Speaker, I rise again to express my gratitude because our veterans deserve better than that. They shouldn't

be burdened with such a bureaucratic process. They need a streamlined process so they can experience their health care in a more effective manner.

□ 1530

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

VETERANS' HEALTH CARE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kansas (Mr. MORAN) is recognized for 5 minutes.

Mr. MORAN of Kansas. Mr. Speaker, I oppose a policy proposal by the Obama administration that would break with our country's obligation to its veterans. As we know, our veterans have sacrificed to protect our way of life and deserve the promises that we made to them being kept.

Yesterday, I joined my fellow Republican members of the House Committee on Veterans Affairs and House Republican leaders in sending communications to President Obama in strong opposition to an ill-conceived plan. The administration's plan would bill veterans' private insurance for care related to service-connected injuries. It would permit the Department of Veterans Affairs, the VA, to ignore its core responsibility "to care for him who shall have borne the battle, and for his widow and his orphan." Our country has a binding obligation to provide this care, particularly to those who have become disabled as a result of their service.

It is wrong to shift this responsibility to private insurers—which actually the veterans will pay for in premiums—and to our disabled veterans themselves. Additionally, billing veterans' private insurance could result in higher premiums for the veterans to cover the cost of treating the service-connected injuries. Some disabled veterans may expend their insurance benefits on treatment of service-connected conditions, leaving no benefits for their family. This policy may also discourage employers from hiring disabled veterans.

I encourage, in the strongest possible terms, the administration to shelve this proposal permanently. While we must look for ways to save taxpayer dollars and tackle our runaway budget deficit, we should not ask those who have already sacrificed so much to pay the bill.

We must never forget that our country has a responsibility to its veterans. Congress should honor this obligation by providing the funding necessary for the VA to maintain health care serv-

ices to our men and women who have served us in uniform.

PUBLICATION OF THE RULES OF THE PERMANENT SELECT COMMITTEE ON INTELLIGENCE, 111TH CONGRESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. REYES) is recognized for 5 minutes.

Mr. REYES. Mr. Speaker, pursuant to clause 2(a)(1) of House Rule XI, I hereby submit the Rules of Procedure of the Permanent Select Committee on Intelligence for the 111th Congress, as adopted by the Committee on February 12, 2009.

RULES OF PROCEDURE, FOR THE PERMANENT SELECT COMMITTEE ON INTELLIGENCE, UNITED STATES HOUSE OF REPRESENTATIVES, 111TH CONGRESS

1. MEETING DAY

Regular Meeting Day for the Full Committee. The regular meeting day of the Committee for the transaction of Committee business shall be the first Wednesday of each month, unless otherwise directed by the Chair.

2. NOTICE FOR MEETINGS

(a) Generally. In the case of any meeting of the Committee, the Chief Clerk of the Committee shall provide reasonable notice to every member of the Committee. Such notice shall provide the time and place of the meeting.

(b) Definition. For purposes of this rule, "reasonable notice" means:

(1) Written notification;

(2) Delivered by facsimile transmission, regular mail, or electronic mail that is:

(A) Delivered no less than 24 hours prior to the event for which notice is being given, if the event is to be held in Washington, D.C.; or

(B) Delivered no less than 48 hours prior to the event for which notice is being given, if the event is to be held outside Washington, D.C.

(c) Exception. In extraordinary circumstances only, the Chair may, after consulting with the Ranking Minority Member, call a meeting of the Committee without providing notice, as defined in subparagraph (b), to members of the Committee.

3. PREPARATIONS FOR COMMITTEE MEETINGS

(a) Generally. Designated Committee Staff, as directed by the Chair, shall brief members of the Committee at a time sufficiently prior to any Committee meeting in order to:

(1) Assist Committee members in preparation for such meeting; and

(2) Determine which matters members wish considered during any meeting.

(b) Briefing Materials.

(1) Such a briefing shall, at the request of a member, include a list of all pertinent papers, and such other materials, that have been obtained by the Committee that bear on matters to be considered at the meeting; and

(2) The Staff Director shall also recommend to the Chair any testimony, papers, or other materials to be presented to the Committee at the meeting of the Committee.

4. OPEN MEETINGS

(a) Generally. Pursuant to House Rule XI, but subject to the limitations of subsections (b) and (c), Committee meetings held for the transaction of business and Committee hearings shall be open to the public.

(b) Meetings. Any meeting or portion thereof, for the transaction of business, including the markup of legislation, or any hearing or portion thereof, shall be closed to the public, if the Committee determines by record vote in open session, with a majority of the Committee present, that disclosure of the matters to be discussed may:

(1) Endanger national security;

(2) Compromise sensitive law enforcement information;

(3) Tend to defame, degrade, or incriminate any person; or

(4) Otherwise violate any law or Rule of the House.

(c) Hearings. The Committee may vote to close a Committee hearing pursuant to clause 11(d)(2) of House Rule X, regardless of whether a majority is present, so long as at least two members of the Committee are present, one of whom is a member of the Minority and votes upon the motion.

(d) Briefings. Committee briefings shall be closed to the public.

5. QUORUM

(a) Hearings. For purposes of taking testimony, or receiving evidence, a quorum shall consist of two Committee members, at least one of whom is a member of the Majority.

(b) Other Committee Proceedings. For purposes of the transaction of all other Committee business, other than the consideration of a motion to close a hearing as described in rule 4(c), a quorum shall consist of a majority of members.

6. PROCEDURES FOR AMENDMENTS AND VOTES

(a) Amendments. When a bill or resolution is being considered by the Committee, members shall provide the Chief Clerk in a timely manner with a sufficient number of written copies of any amendment offered, so as to enable each member present to receive a copy thereof prior to taking action. A point of order may be made against any amendment not reduced to writing. A copy of each such amendment shall be maintained in the public records of the Committee.

(b) Reporting Record Votes. Whenever the Committee reports any measure or matter by record vote, the report of the Committee upon such measure or matter shall include a tabulation of the votes cast in favor of, and the votes cast in opposition to, such measure or matter.

(c) Postponement of Further Proceedings. In accordance with clause 2(h) of House Rule XI, the Chair is authorized to postpone further proceedings when a record vote is ordered on the question of approving a measure or matter or adopting an amendment. The Chair may resume proceedings on a postponed request at any time after reasonable notice. When proceedings resume on a postponed question, notwithstanding any intervening order for the previous question, an underlying proposition shall remain subject to further debate or amendment to the same extent as when the question was postponed.

(d) Availability of Record Votes on Committee Website. In addition to any other requirement of the Rules of the House, the Chair shall make the record votes on any measure or matter on which a record vote is taken, other than a motion to close a Committee hearing, briefing, or meeting, available on the Committee's website not later than 2 business days after such vote is taken. Such record shall include an unclassified description of the amendment, motion, order, or other proposition, the name of each member voting in favor of, and each member voting in opposition to, such amendment, motion, order, or proposition, and the names of

those members of the Committee present but not voting.

7. SUBCOMMITTEES

(a) Generally.

(1) Creation of subcommittees shall be by majority vote of the Committee.

(2) Subcommittees shall deal with such legislation and oversight of programs and policies as the Committee may direct.

(3) Subcommittees shall be governed by these rules.

(4) For purposes of these rules, any reference herein to the "Committee" shall be interpreted to include subcommittees, unless otherwise specifically provided.

(b) Establishment of Subcommittees. The Committee establishes the following subcommittees:

(1) Subcommittee on Terrorism, Human Intelligence, Analysis, and Counterintelligence;

(2) Subcommittee on Technical and Tactical Intelligence;

(3) Subcommittee on Oversight and Investigations; and,

(4) Subcommittee on Intelligence Community Management.

(c) Subcommittee Membership.

(1) Generally. Each member of the Committee may be assigned to at least one of the four subcommittees.

(2) Ex Officio Membership. In the event that the Chair and Ranking Minority Member of the full Committee do not choose to sit as regular voting members of one or more of the subcommittees, each is authorized to sit as an ex officio member of the subcommittees and participate in the work of the subcommittees. When sitting ex officio, however, they:

(A) Shall not have a vote in the subcommittee; and

(B) Shall not be counted for purposes of determining a quorum.

(d) Regular Meeting Day for Subcommittees. There is no regular meeting day for subcommittees.

8. PROCEDURES FOR TAKING TESTIMONY OR RECEIVING EVIDENCE

(a) Notice. Adequate notice shall be given to all witnesses appearing before the Committee.

(b) Oath or Affirmation. The Chair may require testimony of witnesses to be given under oath or affirmation.

(c) Administration of Oath or Affirmation. Upon the determination that a witness shall testify under oath or affirmation, any member of the Committee designated by the Chair may administer the oath or affirmation.

(d) Questioning of Witnesses.

(1) Generally. Questioning of witnesses before the Committee shall be conducted by members of the Committee.

(2) Exceptions.

(A) The Chair, in consultation with the Ranking Minority Member, may determine that Committee Staff will be authorized to question witnesses at a hearing in accordance with clause (2)(j) of House Rule XI.

(B) The Chair and Ranking Minority Member are each authorized to designate Committee Staff to conduct such questioning.

(e) Counsel for the Witness.

(1) Generally. Witnesses before the Committee may be accompanied by counsel, subject to the requirements of paragraph (2).

(2) Counsel Clearances Required. In the event that a meeting of the Committee has been closed because the subject to be discussed deals with classified information, counsel accompanying a witness before the

Committee must possess the requisite security clearance and provide proof of such clearance to the Committee at least 24 hours prior to the meeting at which the counsel intends to be present.

(3) Failure to Obtain Counsel. Any witness who is unable to obtain counsel should notify the Committee. If such notification occurs at least 24 hours prior to the witness' appearance before the Committee, the Committee shall then endeavor to obtain voluntary counsel for the witness. Failure to obtain counsel, however, will not excuse the witness from appearing and testifying.

(4) Conduct of Counsel for Witnesses. Counsel for witnesses appearing before the Committee shall conduct themselves ethically and professionally at all times in their dealings with the Committee.

(A) A majority of members of the Committee may, should circumstances warrant, find that counsel for a witness before the Committee failed to conduct himself or herself in an ethical or professional manner.

(B) Upon such finding, counsel may be subject to appropriate disciplinary action.

(5) Temporary Removal of Counsel. The Chair may remove counsel during any proceeding before the Committee for failure to act in an ethical and professional manner.

(6) Committee Reversal. A majority of the members of the Committee may vote to overturn the decision of the Chair to remove counsel for a witness.

(7) Role of Counsel for Witness.

(A) Counsel for a witness:

(i) Shall not be allowed to examine witnesses before the Committee, either directly or through cross-examination; but

(ii) May submit questions in writing to the Committee that counsel wishes propounded to a witness; or

(iii) May suggest, in writing to the Committee, the presentation of other evidence or the calling of other witnesses.

(B) The Committee may make such use of any such questions, or suggestions, as the Committee deems appropriate.

(f) Statements by Witnesses.

(1) Generally. A witness may make a statement, which shall be brief and relevant, at the beginning and at the conclusion of the witness' testimony.

(2) Length. Each such statement shall not exceed five minutes in length, unless otherwise determined by the Chair.

(3) Submission to the Committee. Any witness desiring to submit a written statement for the record of the proceeding shall submit a copy of the statement to the Chief Clerk of the Committee.

(A) Such statements shall ordinarily be submitted no less than 48 hours in advance of the witness' appearance before the Committee and shall be submitted in written and electronic format.

(B) In the event that the hearing was called with less than 24 hours notice, written statements should be submitted as soon as practicable prior to the hearing.

(g) Objections and Ruling.

(1) Generally. Any objection raised by a witness, or counsel for the witness, shall be ruled upon by the Chair, and such ruling shall be the ruling of the Committee.

(2) Committee Action. A ruling by the Chair may be overturned upon a majority vote of the Committee.

(h) Transcripts.

(1) Transcript Required. A transcript shall be made of the testimony of each witness appearing before the Committee during any hearing of the Committee.

(2) Opportunity to Inspect. Any witness testifying before the Committee shall be

given a reasonable opportunity to inspect the transcript of the hearing, and may be accompanied by counsel to determine whether such testimony was correctly transcribed. Such counsel:

(A) May review the transcript only if he or she has the appropriate security clearances necessary to review any classified aspect of the transcript; and

(B) Should, to the extent possible, be the same counsel that was present for such classified testimony.

(3) Corrections.

(A) Pursuant to Rule XI of the House Rules, any corrections the witness desires to make in a transcript shall be limited to technical, grammatical, and typographical corrections.

(B) Corrections may not be made to change the substance of the Testimony.

(C) Such corrections shall be submitted in writing to the Committee within 7 days after the transcript is made available to the witnesses.

(D) Any questions arising with respect to such corrections shall be decided by the Chair.

(4) Copy for the Witness. At the request of the witness, any portion of the witness' testimony given in executive session shall be made available to that witness if that testimony is: subsequently quoted or intended to be made part of a public record. Such testimony shall be made available to the witness at the witness' expense.

(i) Requests to Testify.

(1) Generally. The Committee will consider requests to testify on any matter or measure pending before the Committee.

(2) Recommendations for Additional Evidence. Any person who believes that testimony, other evidence, or commentary, presented at a public hearing may tend to affect adversely that person's reputation may submit to the Committee, in writing:

(A) A request to appear personally before the Committee;

(B) A sworn statement of facts relevant to the testimony, evidence, or commentary; or

(C) Proposed questions for the cross-examination of other witnesses.

(3) Committee Discretion. The Committee may take those actions it deems appropriate with respect to such requests.

(j) Contempt Procedures. Citations for contempt of Congress shall be forwarded to the House only if:

(1) Reasonable notice is provided to all members of the Committee of a meeting to be held to consider any such contempt recommendations;

(2) The Committee has met and considered the contempt allegations;

(3) The subject of the allegations was afforded an opportunity to state either in writing or in person, why he or she should not be held in contempt; and

(4) The Committee agreed by majority vote to forward the citation recommendations to the House.

(k) Release of Name of Witness.

(1) Generally. At the request of a witness scheduled to be heard by the Committee, the name of that witness shall not be released publicly prior to, or after, the witness' appearance before the Committee.

(2) Exceptions. Notwithstanding paragraph (1), the Chair may authorize the release to the public of the name of any witness scheduled to appear before the Committee.

9. INVESTIGATIONS

(a) Commencing Investigations. The Committee shall conduct investigations only if approved by the Chair, in consultation with the Ranking Minority Member.

(b) Conducting Investigations. An authorized investigation may be conducted by members of the Committee or Committee Staff designated by the Chair, in consultation with the Ranking Minority Member, to undertake any such investigation.

10. SUBPOENAS

(a) Generally. All subpoenas shall be authorized by the Chair of the full Committee, upon consultation with the Ranking Minority Member, or by vote of the Committee.

(b) Subpoena Contents. Any subpoena authorized by the Chair of the full Committee, or the Committee, may compel:

(1) The attendance of witnesses and testimony before the Committee; or

(2) The production of memoranda, documents, records, or any other tangible item.

(c) Signing of Subpoena. A subpoena authorized by the Chair of the full Committee, or the Committee, may be signed by the Chair, or by any member of the Committee designated to do so by the Committee.

(d) Subpoena Service. A subpoena authorized by the Chair of the full Committee, or the Committee, may be served by any person designated to do so by the Chair.

(e) Other Requirements. Each subpoena shall have attached thereto a copy of these rules.

11. COMMITTEE STAFF

(a) Definition. For the purpose of these rules, "Committee Staff" or "Staff of the Committee" means:

(1) Employees of the Committee;

(2) Consultants to the Committee;

(3) Employees of other Government agencies detailed to the Committee; or

(4) Any other person engaged by contract, or otherwise, to perform services for, or at the request of, the Committee.

(b) Appointment of Committee Staff and Security Requirements.

(1) Chair's Authority. Except as provided in paragraph (2), the Committee Staff shall be appointed, and may be removed, by the Chair and shall work under the general supervision and direction of the Chair.

(2) Staff Assistance to Minority Membership. Except as provided in paragraphs (3) and (4), and except as otherwise provided by Committee Rules, the Committee Staff provided to the Minority Party members of the Committee shall be appointed, and may be removed, by the Ranking Minority Member of the Committee, and shall work under the general supervision and direction of such member.

(3) Security Clearance Required. All offers of employment for prospective Committee Staff positions shall be contingent upon:

(A) The results of a background investigation; and

(B) A determination by the Chair that requirements for the appropriate security clearances have been met.

(4) Security Requirements. Notwithstanding paragraph (2), the Chair shall supervise and direct the Committee Staff with respect to the security and nondisclosure of classified information. Committee Staff shall comply with requirements necessary to ensure the security and nondisclosure of classified information as determined by the Chair in consultation with the Ranking Minority Member.

12. LIMIT ON DISCUSSION OF CLASSIFIED WORK OF THE COMMITTEE

(a) Prohibition.

(1) Generally. Except as otherwise provided by these rules and the Rules of the House of Representatives, members of the Committee and Committee Staff shall not at any time,

either during that person's tenure as a member of the Committee or as Committee Staff, or anytime thereafter, discuss or disclose, or cause to be discussed or disclosed:

(A) The classified substance of the work of the Committee;

(B) Any information received by the Committee in executive session;

(C) Any classified information received by the Committee from any source; or

(D) The substance of any hearing that was closed to the public pursuant to these rules or the Rules of the House.

(2) Non-Disclosure in Proceedings.

(A) Members of the Committee and the Committee Staff shall not discuss either the substance or procedure of the work of the Committee with any person not a member of the Committee or the Committee Staff in connection with any proceeding, judicial or otherwise, either during the person's tenure as a member of the Committee, or of the Committee Staff, or at any time thereafter, except as directed by the Committee in accordance with the Rules of the House and these rules.

(B) In the event of the termination of the Committee, members and Committee Staff shall be governed in these matters in a manner determined by the House concerning discussions of the classified work of the Committee.

(3) Exceptions.

(A) Notwithstanding the provisions of subsection (a)(1), members of the Committee and the Committee Staff may discuss and disclose those matters described in subsection (a)(1) with:

(i) Members and staff of the Senate Select Committee on Intelligence designated by the chair of that committee;

(ii) The chairmen and ranking minority members of the House and Senate Committees on Appropriations and staff of those committees designated by the chairmen of those committees;

(iii) The chair and ranking minority member of the Subcommittee on Defense of the House Committee on Appropriations and staff of that subcommittee as designated by the chair of that subcommittee; and

(iv) Members and staff of the Intelligence Oversight Panel of the House Appropriations Committee as designated by the chair of that panel.

(B) Notwithstanding the provisions of subsection (a)(1), members of the Committee and the Committee Staff may discuss and disclose only that budget-related information necessary to facilitate the enactment of the annual defense authorization bill with the chairmen and ranking minority members of the House and Senate Committees on Armed Services and the staff of those committees as designated by the chairmen of those committees.

(C) Notwithstanding the provisions of subsection (a)(1), members of the Committee and the Committee Staff may discuss with and disclose to the chair and ranking minority member of a subcommittee of the House Appropriations Committee with jurisdiction over an agency or program within the National Intelligence Program (NIP), and staff of that subcommittee as designated by the chair of that subcommittee, only that budget-related information necessary to facilitate the enactment of an appropriations bill within which is included an appropriation for an agency or program within the NIP.

(D) The Chair may, in consultation with the Ranking Minority Member, upon the written request to the Chair from the Inspector General of an element of the Intelligence

Community, grant access to Committee transcripts or documents that are relevant to an investigation of an allegation of possible false testimony or other inappropriate conduct before the Committee, or that are otherwise relevant to the Inspector General's investigation.

(E) Upon the written request of the head of an Intelligence Community element, the Chair may, in consultation with the Ranking Minority Member, make available Committee briefing or hearing transcripts to that element for review by that element if a representative of that element testified, presented information to the Committee, or was present at the briefing or hearing the transcript of which is requested for review.

(F) Members and Committee Staff may discuss and disclose such matters as otherwise directed by the Committee.

(b) Non-Disclosure Agreement.

(1) Generally. All Committee Staff must, before joining the Committee Staff, agree in writing, as a condition of employment, not to divulge or cause to be divulged any classified information which comes into such person's possession while a member of the Committee Staff, to any person not a member of the Committee or the Committee Staff, except as authorized by the Committee in accordance with the Rules of the House and these rules.

(2) Other Requirements. In the event of the termination of the Committee, members and Committee Staff must follow any determination by the House of Representatives with respect to the protection of classified information received while a member of the Committee or as Committee Staff.

(3) Requests for Testimony of Staff.

(A) All Committee Staff must, as a condition of employment, agree in writing to notify the Committee immediately of any request for testimony received while a member of the Committee Staff, or at any time thereafter, concerning any classified information received by such person while a member of the Committee Staff.

(B) Committee Staff shall not disclose, in response to any such request for testimony, any such classified information, except as authorized by the Committee in accordance with the Rules of the House and these rules.

(C) In the event of the termination of the Committee, Committee Staff will be subject to any determination made by the House of Representatives with respect to any requests for testimony involving classified information received while a member of the Committee Staff.

13. CLASSIFIED MATERIAL

(a) Receipt of Classified Information.

(1) Generally. In the case of any information that has been classified under established security procedures and submitted to the Committee by any source, the Committee shall receive such classified information as executive session material.

(2) Staff Receipt of Classified Materials. For purposes of receiving classified information, the Committee Staff is authorized to accept information on behalf of the Committee.

(b) Non-Disclosure of Classified Information. Any classified information received by the Committee, from any source, shall not be disclosed to any person not a member of the Committee or the Committee Staff, or otherwise released, except as authorized by the Committee in accordance with the Rules of the House and these rules.

(c) Exception for Non-Exclusive Materials.

(1) Non-Exclusive Materials. Any materials provided to the Committee by the executive

branch, if provided in whole or in part for the purpose of review by members who are not members of the Committee, shall be received or held by the Committee on a non-exclusive basis. Classified information provided to the Committee shall be considered to have been provided on an exclusive basis unless the executive branch provides a specific, written statement to the contrary.

(2) Access for Non-Committee Members. In the case of materials received on a non-exclusive basis, the Chair, in consultation with the Ranking Minority Member, may grant non-Committee members access to such materials in accordance with the requirements of Rule 14(f)(4), notwithstanding paragraphs (1), (2), and (3) of Rule 14.

14. PROCEDURES RELATED TO HANDLING OF CLASSIFIED INFORMATION

(a) Security Measures.

(1) Strict Security. The Committee's offices shall operate under strict security procedures administered by the Director of Security and Registry of the Committee under the direct supervision of the Staff Director.

(2) U.S. Capitol Police Presence Required. At least one U.S. Capitol Police officer shall be on duty at all times outside the entrance to Committee offices to control entry of all persons to such offices.

(3) Identification Required. Before entering the Committee's offices all persons shall identify themselves to the U.S. Capitol Police officer described in paragraph (2) and to a member of the Committee or Committee Staff.

(4) Maintenance of Classified Materials. Classified documents shall be segregated and maintained in approved security storage locations.

(5) Examination of Classified Materials. Classified documents in the Committee's possession shall be examined in an appropriately secure manner.

(6) Prohibition on Removal of Classified Materials. Removal of any classified document from the Committee's offices is strictly prohibited, except as provided by these rules.

(7) Exception. Notwithstanding the prohibition set forth in paragraph (6), a classified document, or copy thereof, may be removed from the Committee's offices in furtherance of official Committee business. Appropriate security procedures shall govern the handling of any classified documents removed from the Committee's offices.

(b) Access to Classified Information by Members. All members of the Committee shall at all times have access to all classified papers and other material received by the Committee from any source.

(c) Need-to-know.

(1) Generally. Committee Staff shall have access to any classified information provided to the Committee on a strict "need-to-know" basis, as determined by the Committee, and under the Committee's direction by the Staff Director.

(2) Appropriate Clearances Required. Committee Staff must have the appropriate clearances prior to any access to compartmented information.

(d) Oath.

(1) Requirement. Before any member of the Committee, or the Committee Staff, shall have access to classified information, the following oath shall be executed:

"I do solemnly swear (or affirm) that I will not disclose or cause to be disclosed any classified information received in the course of my service on the House Permanent Select Committee on Intelligence, except when authorized to do so by the Committee or the House of Representatives."

(2) Copy. A copy of such executed oath shall be retained in the files of the Committee.

(e) Registry.

(1) Generally. The Committee shall maintain a registry that:

(A) Provides a brief description of the content of all classified documents provided to the Committee by the executive branch that remain in the possession of the Committee; and

(B) Lists by number all such documents.

(2) Designation by the Staff Director. The Staff Director shall designate a member of the Committee Staff to be responsible for the organization and daily maintenance of such registry.

(3) Availability. Such registry shall be available to all members of the Committee and Committee Staff.

(f) Requests by Members of Other Committees. Pursuant to the Rules of the House, members who are not members of the Committee may be granted access to such classified transcripts, records, data, charts, or files of the Committee, and be admitted on a non-participatory basis to classified hearings of the Committee involving discussions of classified material in the following manner:

(1) Written Notification Required. Members who desire to examine classified materials in the possession of the Committee, or to attend Committee hearings or briefings on a non-participatory basis, must notify the Chief Clerk of the Committee in writing. Such notification shall state with specificity the justification for the request and the need for access.

(2) Committee Consideration. The Committee shall consider each such request by non-Committee members at the earliest practicable opportunity. The Committee shall determine, by record vote, what action it deems appropriate in light of all of the circumstances of each request. In its determination, the Committee shall consider:

(A) The sensitivity to the national defense or the confidential conduct of the foreign relations of the United States of the information sought;

(B) The likelihood of its being directly or indirectly disclosed;

(C) The jurisdictional interest of the member making the request; and

(D) Such other concerns, constitutional or otherwise, as may affect the public interest of the United States.

(3) Committee Action. After consideration of the member's request, the Committee may take any action it deems appropriate under the circumstances, including but not limited to:

(A) Approving the request, in whole or part;

(B) Denying the request;

(C) Providing the requested information or material in a different form than that sought by the member; or

(D) Making the requested information or material available to all members of the House.

(4) Requirements for Access by Non-Committee Members. Prior to a non-Committee member being given access to classified information pursuant to this subsection, the requesting member shall:

(A) Provide the Committee a copy of the oath executed by such member pursuant to House Rule XXIII, clause 13; and

(B) Agree in writing not to divulge any classified information provided to the member, pursuant to this subsection, to any person not a member of the Committee or the Committee Staff, except as otherwise au-

thorized by the Committee in accordance with the Rules of the House and these rules.

(5) Consultation Authorized. When considering a member's request, the Committee may consult the Director of National Intelligence and such other officials it considers necessary.

(6) Finality of Committee Decision.

(A) Should the member making such a request disagree with the Committee's determination with respect to that request, or any part thereof, that member must notify the Committee in writing of such disagreement.

(B) The Committee shall subsequently consider the matter and decide, by record vote, what further action or recommendation, if any, the Committee will take.

(g) Advising the House or Other Committees. Pursuant to Section 501 of the National Security Act of 1947 (50 U.S.C. 413), and to the Rules of the House, the Committee shall call to the attention of the House, or to any other appropriate committee of the House, those matters requiring the attention of the House, or such other committee, on the basis of the following provisions:

(1) By Request of Committee Member. At the request of any member of the Committee to call to the attention of the House, or any other committee, executive session material in the Committee's possession, the Committee shall meet at the earliest practicable opportunity to consider that request.

(2) Committee Consideration of Request. The Committee shall consider the following factors, among any others it deems appropriate:

(A) The effect of the matter in question on the national defense or the foreign relations of the United States;

(B) Whether the matter in question involves sensitive intelligence sources and methods;

(C) Whether the matter in question otherwise raises questions affecting the national interest; and

(D) Whether the matter in question affects matters within the jurisdiction of another Committee of the House.

(3) Views of Other Committees. In examining such factors, the Committee may seek the opinion of members of the Committee appointed from standing committees of the House with jurisdiction over the matter in question, or submissions from such other committees.

(4) Other Advice. The Committee may, during its deliberations on such requests, seek the advice of any executive branch official.

(h) Reasonable Opportunity to Examine Materials. Before the Committee makes any decision regarding any request for access to any classified information in its possession, or a proposal to bring any matter to the attention of the House or another committee, members of the Committee shall have a reasonable opportunity to examine all pertinent testimony, documents, or other materials in the Committee's possession that may inform their decision on the question.

(i) Notification to the House. The Committee may bring a matter to the attention of the House when, after consideration of the factors set forth in this rule, it considers the matter in question so grave that it requires the attention of all members of the House, and time is of the essence, or for any reason the Committee finds compelling.

(j) Method of Disclosure to the House.

(1) Should the Committee decide by record vote that a matter requires the attention of the House as described in subsection (i), it shall make arrangements to notify the House promptly.

(2) In such cases, the Committee shall consider whether:

(A) To request an immediate secret session of the House (with time equally divided between the Majority and the Minority); or

(B) To publicly disclose the matter in question pursuant to clause 11(g) of House Rule X.

(k) Requirement to Protect Sources and Methods. In bringing a matter to the attention of the House, or another committee, the Committee, with due regard for the protection of intelligence sources and methods, shall take all necessary steps to safeguard materials or information relating to the matter in question.

(l) Availability of Information to Other Committees. The Committee, having determined that a matter shall be brought to the attention of another committee, shall ensure that such matter, including all classified information related to that matter, is promptly made available to the chair and ranking minority member of such other committee.

(m) Provision of Materials. The Director of Security and Registry for the Committee shall provide a copy of these rules, and the applicable portions of the Rules of the House of Representatives governing the handling of classified information, along with those materials determined by the Committee to be made available to such other committee of the House or non-Committee member.

(n) Ensuring Clearances and Secure Storage. The Director of Security and Registry shall ensure that such other committee or non-Committee member receiving such classified materials may properly store classified materials in a manner consistent with all governing rules, regulations, policies, procedures, and statutes.

(o) Log. The Director of Security and Registry for the Committee shall maintain a written record identifying the particular classified document or material provided to such other committee or non-Committee member, the reasons agreed upon by the Committee for approving such transmission, and the name of the committee or non-Committee member receiving such document or material.

(p) Miscellaneous Requirements.

(1) Staff Director's Additional Authority. The Staff Director is further empowered to provide for such additional measures, which he or she deems necessary, to protect such classified information authorized by the Committee to be provided to such other committee or non-Committee member.

(2) Notice to Originating Agency. In the event that the Committee authorizes the disclosure of classified information provided to the Committee by an agency of the executive branch to a non-Committee member or to another committee, the Chair may notify the providing agency of the Committee's action prior to the transmission of such classified information.

15. LEGISLATIVE CALENDAR

(a) Generally. The Chief Clerk, under the direction of the Staff Director, shall maintain a printed calendar that lists:

(1) The legislative measures introduced and referred to the Committee;

(2) The status of such measures; and

(3) Such other matters that the Committee may require.

(b) Revisions to the Calendar. The calendar shall be revised from time to time to show pertinent changes.

(c) Availability. A copy of each such revision shall be furnished to each member, upon request.

(d) Consultation with Appropriate Government Entities. Unless otherwise directed by

the Committee, legislative measures referred to the Committee may be referred by the Chief Clerk to the appropriate department or agency of the Government for reports thereon.

16. COMMITTEE WEBSITE

The Chair shall maintain an official Committee web site for the purpose of furthering the Committee's legislative and oversight responsibilities, including communicating information about the Committee's activities to Committee members and other members of the House.

17. MOTIONS TO GO TO CONFERENCE

In accordance with clause 2(a) of House Rule XI, the Chair is authorized and directed to offer a privileged motion to go to conference under clause 1 of House Rule XXII whenever the Chair considers it appropriate.

18. COMMITTEE TRAVEL

(a) Authority. The Chair may authorize members and Committee Staff to travel on Committee business.

(b) Requests.

(1) Member Requests. Members requesting authorization for such travel shall state the purpose and length of the trip, and shall submit such request directly to the Chair.

(2) Committee Staff Requests. Committee Staff requesting authorization for such travel shall state the purpose and length of the trip, and shall submit such request through their supervisors to the Staff Director and the Chair.

(c) Notification to Members.

(1) Generally. Members shall be notified of all foreign travel of Committee Staff not accompanying a member.

(2) Content. All members are to be advised, prior to the commencement of such travel, of its length, nature, and purpose.

(d) Trip Reports.

(1) Generally. A full report of all issues discussed during any travel shall be submitted to the Chief Clerk of the Committee within a reasonable period of time following the completion of such trip.

(2) Availability of Reports. Such report shall be:

(A) Available for review by any member or appropriately cleared Committee Staff; and

(B) Considered executive session material for purposes of these rules.

(e) Limitations on Travel.

(1) Generally. The Chair is not authorized to permit travel on Committee business of Committee Staff who have not satisfied the requirements of subsection (d) of this rule.

(2) Exception. The Chair may authorize Committee Staff to travel on Committee business, notwithstanding the requirements of subsections (d) and (e) of this rule,

(A) At the specific request of a member of the Committee; or

(B) In the event there are circumstances beyond the control of the Committee Staff hindering compliance with such requirements.

(f) Definitions. For purposes of this rule the term "reasonable period of time" means:

(1) No later than 60 days after returning from a foreign trip; and

(2) No later than 30 days after returning from a domestic trip.

19. DISCIPLINARY ACTIONS

(a) Generally. The Committee shall immediately consider whether disciplinary action shall be taken in the case of any member of the Committee Staff alleged to have failed to conform to any rule of the House of Representatives or to these rules.

(b) Exception. In the event the House of Representatives is:

(1) In a recess period in excess of 3 days; or

(2) Has adjourned sine die; the Chair of the full Committee, in consultation with the Ranking Minority Member, may take such immediate disciplinary actions deemed necessary.

(c) Available Actions. Such disciplinary action may include immediate dismissal from the Committee Staff.

(d) Notice to Members. All members shall be notified as soon as practicable, either by facsimile transmission or regular mail, of any disciplinary action taken by the Chair pursuant to subsection (b).

(e) Reconsideration of Chair's Actions. A majority of the members of the full Committee may vote to overturn the decision of the Chair to take disciplinary action pursuant to subsection (b).

20. BROADCASTING COMMITTEE MEETINGS

Whenever any hearing or meeting conducted by the Committee is open to the public, a majority of the Committee may permit that hearing or meeting to be covered, in whole or in part, by television broadcast, radio broadcast, and still photography, or by any of such methods of coverage, subject to the provisions and in accordance with the spirit of the purposes enumerated in the Rules of the House.

21. COMMITTEE RECORDS TRANSFERRED TO THE NATIONAL ARCHIVES

(a) Generally. The records of the Committee at the National Archives and Records Administration shall be made available for public use in accordance with the Rules of the House of Representatives.

(b) Notice of Withholding. The Chair shall notify the Ranking Minority Member of any decision, pursuant to the Rules of the House of Representatives, to withhold a record otherwise available, and the matter shall be presented to the full Committee for a determination of the question of public availability on the written request of any member of the Committee.

22. CHANGES IN RULES

(a) Generally. These rules may be modified, amended, or repealed by vote of the full Committee.

(b) Notice of Proposed Changes. A notice, in writing, of the proposed change shall be given to each member at least 48 hours prior to any meeting at which action on the proposed rule change is to be taken.

THE IRAQ WAR: THE ROAD AHEAD

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. LEE) is recognized for 5 minutes.

Ms. LEE of California. Mr. Speaker, first let me rise to commend Congressman KEITH ELLISON and the Progressive Caucus for organizing Special Orders each and every week. In fact, later this evening there will be one held to talk about the 6-year anniversary of the war and occupation of Iraq. So I rise today to talk about this very briefly.

Six years ago, President George W. Bush launched our Nation into one of the most disastrous, misguided, and dangerous military actions in our history, the initial invasion and proceeding occupation of Iraq. Now, as the new administration seeks to withdraw troops from Iraq, it is essential that

the media, the public, and those of us in elected office support these efforts.

However, this time, no matter how uncomfortable it may be for those of us who fully support President Obama—who himself opposed the invasion from the beginning—we must hold our Iraq policy accountable and demand answers to tough questions regarding how and when our occupation will end.

Last month, to his credit, and we applaud his efforts, President Obama laid forth a timeline for the withdrawal of our military presence in Iraq. His proposal would have two-thirds of our troops home by August of 2010, with the remaining force of approximately 35,000 to 50,000 scheduled to leave by the end of 2011, almost 3 years from now. His announcement received praise from both sides of the political aisle; however, I think that we still need to talk about and have an honest and frank discussion of its merits and potential faults.

Americans seem, collectively, to try to forget about Iraq, but we must remember that this is costing us \$10 billion a month in this economic recession. And while we recognize, appreciate, and applaud the President's decision, his declaration allows us to move forward and focus on other issues. And so what we are trying to do is make sure that we are focused on our comprehensive foreign and military policy at the same time that we are working on our economic and domestic front. While this reaction, of course, is understandable because people are suffering each and every day as a result of the last 8 years, it is also dangerous. We cannot afford to ignore the enormous risks and potential sacrifices that loom ahead.

As one of the founders of the Out of Iraq Caucus, along with Congresswoman MAXINE WATERS and Congresswoman LYNN WOOLSEY, our position has been clear all along; we opposed the war and the occupation from the start, and we have worked day in and day out to end it.

We believe that ending the occupation of Iraq means redeploying all troops—and we mean all troops—and all military contractors out of Iraq. It also means leaving no permanent bases, and renouncing any claim upon Iraqi oil.

We remain concerned about the plan, which calls for 127,000 troops to stay in Iraq until the end of this year and for 35,000 to 50,000 troops to remain in Iraq for another 2½ years after that. We cannot imagine the need for such an enormous military commitment, and we have talked to military experts who also question that.

How did the military planners agree on such a large residual for us, one which is comparable in size to our force levels in South Korea at the height of the Cold War? What role does this transitional force play in the event that vi-

olence flares back up? And what steps are being taken to address the 190,000 American contractors in Iraq, and to dismantle our permanent bases? Some say we don't have permanent bases there, others believe that we do—I am one who believes that we do. And so these questions must be addressed before we can move forward. We respectfully wrote to the President and set forth a set of questions asking some of the looming concerns which some of us still have.

America's interests in Iraq and the region will best be advanced by reducing the size of our military footprint and making greater use of other assets of national power, including diplomacy, reconciliation, commerce, development assistance, and humanitarian aid.

As we solemnly mark the beginning of a seventh year—and it's hard to imagine we have been there 7 years—of the conflict in Iraq, we not only must reflect on the incredible sacrifices made by the men and women who serve in the military, but also, we have to demand an honest assessment of the potential future obstacles that their brothers and sisters in arms will face. As President Obama has said, "We must be as careful getting out of Iraq as we were careless getting in."

ALLOWING PRESS AT DOVER AIR FORCE BASE WHEN FALLEN TROOPS RETURN

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia (Mr. GINGREY) is recognized for 5 minutes.

Mr. GINGREY of Georgia. Mr. Speaker, I rise today to pay tribute to one of our fallen heroes who made the ultimate sacrifice in service to our Nation in Iraq, and to share a letter I recently received from his father, Robert Stokely. Robert's letter relates to a Department of Defense policy that directly affected his family, and most especially, Mr. Speaker, his son.

Mr. Speaker, I would like to take a moment to read this letter, as I feel it is necessary for this body to fully understand this issue in order to protect the dignity of our troops. Robert Stokely is from Newnan, Georgia, my wife's hometown. And of course I represented that area and am very proud of the folks in Newnan.

Mr. Robert Stokely writes:

"I was alarmed at the question asked by Ed Henry at President Obama's address to the Nation on Monday, February 9, 2009, i.e., allowing media access and cameras at Dover Air Force Base where fallen military personnel arrive on their final trip home to an honorable rest. I am also alarmed by an AP news article that Secretary of Defense Robert Gates has ordered a review of the policy. Please take a moment and read my story of meeting my

son, and hopefully you can have a vivid image of why it is important to keep the family first in this matter, for it is a very personal moment when a fallen hero arrives home.

"I met my son's body at Hartsfield-Jackson International Airport in Atlanta on August 24, 2005 as he arrived from Dover. I went alone as a special privilege to take his body to the funeral home, where the family would then be the first to see the most striking, vivid image of a fallen loved one, the flag-draped casket. I rode in the hearse to take him on a 25-mile ride, covering the roads that Mike and I had shared so many days as a divorced dad and son going to and from visitation on weekends, holidays, and summers. It was a 'last ride to take my boy home.'"

And this is in bold font, Mr. Speaker.

"I wore a favorite blue blazer, trousers, and a red and blue striped tie, for my son deserved my respect. As they uncased his casket and draped the American flag over him, I saluted from nearby, tears streaming down my cheeks, as a number of busy U.S. Air cargo employees suddenly stopped in stunned silence, only then realizing what was taking place.

"I held my salute, poor as it was for an untrained civilian, until the flag was completely draped and the edges evenly cornered out. Then I stepped outside to call my wife, Retta, who loved him like one of her own. And as she answered the telephone, with tears still streaming down my cheeks and with a quiver in my voice, I said, 'our boy is home.'"

Mike Stokely was age 23 when he was killed by a roadside bomb in Iraq. While the political debate about Iraq or any other war may be had in a free country like this, such as we enjoy, there is no debate that our military personnel engage in of the politics of when, where, or how long a war is waged. They have a constitutional duty to obey the Commander in Chief's lawful orders.

Mike Stokely, and many others, did their constitutional duty, and in doing so, preserved our freedom. Mike, and those like him who haven't yet but will die for America, do not need to be a media spectacle at Dover Air Force Base.

"I was once asked what I thought the real cost of freedom is. There are many such costs, but for the Stokely family, and like many of us, the highest cost has been paid, a lifetime of love.

"Is it too much to ask, given what the fallen and their families have given America, for us to have that first moment of seeing the flag-draped casket to be ours and ours alone? Should we now be asked to give more so that something so private can be used to sell advertising, to ensure a media outlet's profitable bottom line? Black ink on the bottom line is usually a good

thing, but it cannot be so when it comes at the cost of making a spectacle of our fallen, thus dishonoring their spilled red American blood. I hope your answer will be an unequivocal, unwavering, and unapologetic 'no,' and that you will fight to keep the honorable sanctity of Dover rather than allow it to become a media spectacle.

"Please protect our fallen and their families and the privacy of Dover, for our fallen have given their lives to protect the lifetime of love you and your family and millions of other Americans continue to live and enjoy.

"Proud dad of Sergeant Mike Stokely."

Mr. Speaker, the policy of allowing media to photograph these caskets at Dover Air Force Base is a serious issue for many families that have been struck with the tragedy of losing a loved one in battle. The brave service men and women on their final journey home have given their lives for our freedom. We must ensure that not only are their remains handled with the utmost respect, but that the wishes of their families are given the respect they so richly deserve.

STATUS REPORT ON CURRENT SPENDING LEVELS OF ON-BUDGET SPENDING AND REVENUES FOR FY 2008 AND THE 5-YEAR PERIOD FY 2009 THROUGH FY 2013

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. SPRATT) is recognized for 5 minutes.

Mr. SPRATT. Mr. Speaker, I am transmitting a status report on the current levels of on-budget spending and revenues for fiscal years 2008 and 2009 and for the five-year period of fiscal years 2009 through 2013. This report is necessary to facilitate the application of sections 302 and 311 of the Congressional Budget Act and sections 301 and 302 of S. Con. Res. 70, the Concurrent Resolution on the Budget for Fiscal Year 2009.

The term "current level" refers to the amounts of spending and revenues estimated

for each fiscal year based on laws enacted or awaiting the President's signature.

The first table in the report compares the current levels of total budget authority, outlays, and revenues with the aggregate levels set by S. Con. Res. 70. This comparison is needed to enforce section 311(a) of the Budget Act, which establishes a point of order against any measure that would breach the budget resolution's aggregate levels.

The second table compares the current levels of budget authority and outlays for each authorizing committee with the "section 302(a)" allocations made under S. Con. Res. 70 for fiscal years 2008 and 2009 and fiscal years 2009 through 2013. This comparison is needed to enforce section 302(f) of the Budget Act, which establishes a point of order against any measure that would breach the section 302(a) discretionary action allocation of new budget authority for the committee that reported the measure.

The third table compares the current levels of discretionary appropriations for fiscal years 2008 and 2009 with the "section 302(a)" allocation of discretionary budget authority and outlays to the Appropriations Committee. This comparison is needed to enforce section 302(f) of the Budget Act, which establishes a point of order against any measure that would breach section 302(b) sub-allocations within the Appropriations Committee.

The fourth table gives the current level for fiscal years 2010 and 2011 for accounts identified for advance appropriations under section 302 of S. Con. Res. 70. This list is needed to enforce section 302 of the budget resolution, which establishes a point of order against appropriations bills that include advance appropriations that: (1) are not identified in the joint statement of managers; or (2) would cause the aggregate amount of such appropriations to exceed the level specified in the resolution.

REPORT TO THE SPEAKER FROM THE COMMITTEE ON THE BUDGET—STATUS OF THE FISCAL YEAR 2009 CONGRESSIONAL BUDGET ADOPTED IN S. CON. RES. 70

REPORT TO THE SPEAKER FROM THE COMMITTEE ON THE BUDGET—STATUS OF THE FISCAL YEAR 2009 CONGRESSIONAL BUDGET ADOPTED IN S. CON. RES. 70—Continued

(Reflecting action completed as of March 11, 2009—On-budget amounts, in millions of dollars)

| | Fiscal years— | | |
|---|-------------------|-------------------|------------|
| | 2008 ¹ | 2009 ² | 2009–2013 |
| Current Level: | | | |
| Budget Authority | 2,455,102 | 2,507,220 | n.a. |
| Outlays | 2,435,528 | 2,532,975 | n.a. |
| Revenues | 1,878,433 | 1,986,073 | 12,046,832 |
| Current Level over (+) / under (–) Appropriate Level: | | | |
| Budget Authority | –109,142 | –35,993 | n.a. |
| Outlays | –31,157 | –41,591 | n.a. |
| Revenues | 3,032 | –47,387 | 233,713 |

n.a. = Not applicable because annual appropriations Acts for fiscal years 2010 through 2013 will not be considered until future sessions of Congress.

¹ Notes for 2008:

Current resolution aggregates include \$108,056 million in budget authority and \$28,901 million in outlays covered by section 301(b)(1) (overseas deployments and related activities) that has not been allocated to a committee. The section has not triggered by Appropriations action.

² Notes for 2009:

Current resolution aggregates include \$70,000 million in budget authority and \$74,809 million in outlays covered by section 301(b)(1) (overseas deployments and related activities) that has not been allocated to a committee. The section has not been triggered to date in Appropriations action.

Current resolution aggregates do not include Corps of Engineers emergency spending assumed in the budget resolution, which will not be included in current level due to its emergency designation (section 301(6)(2)).

Current level does not include costs associated with Division A of the Emergency Economic Stabilization Act. CBO was not able to estimate the cost of those provisions at the time the bill was enacted. CBO has produced estimates for their January, 2009 baseline incorporating the latest information on operations of the program as well as their most recent economic forecast. Although the full cost of Division A under these assumptions is not available, CBO has provided an estimate that the TARP will cost \$184 billion in 2009.

BUDGET AUTHORITY

Enactment of measures providing new budget authority for FY 2009 in excess of \$35,993 million (if not already included in the current level estimate) would cause FY 2009 budget authority to exceed the appropriate level set by S. Con. Res. 70.

OUTLAYS

Enactment of measures providing new outlays for FY 2009 in excess of \$41,591 million (if not already included in the current level estimate) would cause FY 2009 outlays to exceed the appropriate level set by S. Con. Res. 70.

REVENUES

Revenues for FY 2009 are below the appropriate levels set by S. Con. Res. 70.

Enactment of measures resulting in revenue reduction for the period of fiscal years 2009 through 2013 in excess of \$233,713 million (if not already included in the current level estimate) would cause revenues to fall below the appropriate levels set by S. Con. Res. 70.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, March 18, 2009
Hon. JOHN M. SPRATT, Jr.,
Chairman, Committee on the Budget, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The enclosed report shows the effects of Congressional action on the fiscal year 2008 budget and reflects activity through September 30, 2008. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of S. Con. Res. 70, the Concurrent Resolution on

the Budget for Fiscal Year 2009, as approved by the Senate and the House of Representatives.

Since the last letter, dated September 9, 2008, the Congress has cleared and the President has signed the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 (Public Law 110-329). Division B of the act provided \$22.9 billion for disaster relief and recovery for 2008; the entire amount was designated as an emergency requirement pursuant to Sec. 301(b)(2) of S. Con. Res. 70. Amounts so designated are exempt from enforcement of the budget resolution. As a result, the enclosed current level report excludes these amounts (see footnote 2 of the report).

This is the final current level letter for fiscal year 2008.

Sincerely,
DOUGLAS W. ELMENDORF,
Director.

Enclosure.

FISCAL YEAR 2008 HOUSE CURRENT LEVEL REPORT AS OF SEPTEMBER 30, 2008

[In millions of dollars]

¹ Includes the following acts that affect budget authority, outlays, or revenues, and were cleared by the Congress during the second session of the 110th Congress, but before the adoption of S. Con. Res. 70, the Concurrent Resolution on the Budget for Fiscal Year 2009: National Defense Authorization Act for Fiscal Year 2008 (P.L. 110-181), Economic Stimulus Act of 2008 (P.L. 110-185), Andean Trade Preference Extension Act of 2008 (P.L. 110-191), Ensuring Continued Access to Student Loans Act of 2008 (P.L. 110-227), Consolidated Natural Resources Act of 2008 (P.L. 110-229), Strategic Petroleum Reserve Fill Suspension and Consumer Act of 2008 (P.L. 110-232), Food, Conservation, and Energy Act of 2008 (P.L. 110-234), SAFETEA-LU Technical Corrections Act of 2008 (P.L. 110-244), and Heroes Earnings Assistance and Relief Act of 2008 (P.L. 110-245).

² Pursuant to section 301(b)(2) of S. Con. Res. 70, provisions designated as emergency requirements are exempt from enforcement of the budget resolution. The amounts so designated for fiscal year 2008, which are not included in the current level totals, are as follows:

| | Budget authority— | Outlays | Revenues |
|---|-------------------|---------|----------|
| Supplemental Appropriations Act, 2008 (P.L. 110-252)— | 115,808— | 35,350— | n.a. |
| Consolidated Security, Disaster Assistance, and Continuing Appropriations—Act, 2009 (P.L. 110-329)— | 22,859— | 0— | n.a. |
| xi — | 138,667— | 35,350— | n.a. |

³ For purposes of enforcing section 311 of the Congressional Budget Act in the House, the budget resolution does not include budget authority, outlays, or revenues for off-budget amounts. As a result, current level excludes these items.

⁴ Periodically, the House Committee on the Budget revises the totals in S. Con. Res. 70, pursuant to various provisions of the resolution.

| | Budget authority | Outlays | Revenues |
|---|------------------|------------|-----------|
| Original Budget Resolution— | 2,563,262— | 2,465,711— | 1,875,392 |
| Revisions:— | | | |
| For the Strategic Petroleum Reserve Fill Suspension and Consumer Protection Act of 2008 (section 323(d))— | —950— | —950— | 0 |
| For the Heroes Earnings Assistance and Relief Tax Act of 2008 (section 323(d))— | 0— | 0— | 8 |
| For the Medicare Improvement for Patients and Providers Act of 2008 (sections 210 and 212(b))— | 1,942— | 1,924— | 1 |
| For the Higher Education Opportunity Act (section 208)— | —10— | 0— | 0 |
| Revised Budget Resolution— | 2,564,244— | 2,466,685— | 1,875,401 |

SOURCE: Congressional Budget Office.
Note: n.a. not applicable; P.L. = Public Law.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, March 18, 2009.
Hon. JOHN M. SPRATT, Jr.,
Chairman, Committee on the Budget, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The enclosed report shows the effects of Congressional action on the fiscal year 2009 budget and is current through March 11, 2009. This report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of S. Con. Res. 70, the Concurrent Resolution on the Budget for Fiscal Year 2009, as approved by the Senate and the House of Representatives.

Pursuant to section 301(b)(2) of S. Con. Res. 70, provisions designated as emergency requirements are exempt from enforcement of the budget resolution. As a result, the enclosed current level report excludes those amounts (see footnote 3 of the report).

Since the last letter, dated September 9, 2008, the Congress has cleared and the President has signed the following acts that affect budget authority, outlays, and revenues for fiscal year 2009:

SSI Extension for Elderly and Disabled Refugees Act (Public Law 110-328);

Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 (Public Law 110-329);

Federal Aviation Administration Extension Act of 2008, Part II (Public Law 110-330);

An act to provide authority for the Federal Government to purchase and insure certain types of troubled assets . . . and for other purposes (Public Law 110-343);

Fostering Connections to Success and Increasing Adoptions Act of 2008 (Public Law 110-351);

QI Program Supplemental Funding Act of 2008 (Public Law 110-379);

Veterans' Benefits Improvement Act of 2008 (Public Law 110-389);

An act to amend the commodity provisions of the Food, Conservation, and Energy Act of

2008 . . . and for other purposes (Public Law 110-398);

Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417);

Inmate Tax Fraud Prevention Act of 2008 (Public Law 110-428);

Rail Safety Improvement Act of 2008 (Public Law 110-432);

An act to extend the Andean Trade Preference Act, and for other purposes (Public Law 110-436);

Unemployment Compensation Extension Act of 2008 (Public Law 110-449);

Worker, Retiree, and Employer Recovery Act of 2008 (Public Law 110-458);

Children's Health Insurance Program Reauthorization Act of 2009 (Public Law 111-3);

American Recovery and Reinvestment Act of 2009 (Public Law 111-5); and

Omnibus Appropriations Act, 2009 (Public Law 111-8).

Sincerely,

DOUGLAS W. ELMENDORF,

Director.

Enclosure.

FISCAL YEAR 2009 HOUSE CURRENT LEVEL REPORT THROUGH MARCH 11, 2009

[In millions of dollars]

¹ Includes the following acts that affect budget authority, outlays, or revenues, and were cleared by the Congress during the second session of the 110th Congress, but before the adoption of S. Con. Res. 70, the Concurrent Resolution on the Budget for Fiscal Year 2009: National Defense Authorization Act for Fiscal Year 2008 (P.L. 110-181), Economic Stimulus Act of 2008 (P.L. 110-185), Andean Trade Preference Extension Act of 2008 (P.L. 110-191), Ensuring Continued Access to Student Loans Act of 2008 (P.L. 110-227), Consolidated Natural Resources Act of 2008 (P.L. 110-229), Strategic Petroleum Reserve Fill Suspension and Consumer Act of 2008 (P.L. 110-232), Genetic Information Non-discrimination Act of 2008 (P.L. 110-233), Food, Conservation, and Energy Act of 2008 (P.L. 110-234), SAFETEA-LU Technical Corrections Act of 2008 (Pl. 110-244), and Heroes Earnings Assistance and Relief Act of 2008 (P.L. 110-245).

² At the time of enactment of P.L. 110-343, and thus for the purposes of current level, the Congressional Budget Office could not estimate the direct spending for Division A of this Act, the largest part of which is the Troubled Assets Relief Program (TARP). CBO's January 2009 baseline includes an estimate of \$184 billion in budget authority and outlays for the TARP.

³ Pursuant to section 301(6)(2) of S. Con. Res. 70, provisions designated as emergency requirements are exempt from enforcement of the budget resolution. The amounts so designated for fiscal year 2009, which are not included in the current level totals, are as follows:

SOURCE: Congressional Budget Office.

Note: n.a. = not applicable; P.L. = Public Law.

| | Budget authority | Outlays | Revenues |
|--|------------------|---------|----------|
| Supplemental Appropriations Act, 2008 (P.L. 110-252) | 85,155 | 87,211 | n.a. |
| Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 (P.L. 110-329) | 10,748 | 6,770 | n.a. |
| American Recovery and Reinvestment Act of 2009 (P.L. 111-5) | 379,042 | 120,087 | -64,821 |
| Omnibus Appropriations Act, 2009 (P.L. 111-8) | 99 | 85 | n.a. |
| Total, enacted emergency requirements | 475,044 | 214,153 | -64,821 |

⁴ For purposes of enforcing section 311 of the Congressional Budget Act in the House, the budget resolution does not include budget authority, outlays, or revenues for off-budget amounts. As a result, current level excludes these items.

⁵ The scoring for P.L. 110-318, an act to amend the Internal Revenue Code of 1986 to restore the Highway Trust Fund, does not change current level totals. P.L. 110-318 appropriated approximately \$8 billion to the Highway Trust Fund. The enactment of this bill followed an announcement by the Secretary of Transportation on September 5, 2008, of an interim policy to slow down payments to states from the Highway Trust Fund. The Congressional Budget Office estimates that P.L. 110-318 will reverse this policy and restore payments to states at levels already assumed in current level. Thus, no change is required.

⁶ Periodically, the House Committee on the Budget revises the totals in S. Con. Res. 70, pursuant to various provisions of the resolution:

| | Budget authority | Outlays | Revenues |
|--|------------------|-----------|-----------|
| Original Budget Resolution | 2,530,703 | 2,565,903 | 2,029,612 |
| Revisions: | | | |
| For the Strategic Petroleum Reserve Fill Suspension and Consumer Protection Act of 2008 (section 323(d)) | 950 | 950 | 0 |
| For the Heroes Earnings Assistance and Relief Tax Act of 2008 (section 323(d)) | 28 | 28 | 32 |

| | Budget authority | Outlays | Revenues |
|---|------------------|-----------|-----------|
| For the Medicare Improvement for Patients and Providers Act of 2008 (sections 210 and 212(b)) | 6,633 | 6,516 | 9 |
| For the Higher Education Opportunity Act (section 208) | —9 | —114 | 0 |
| For the Rail Safety Improvement Act of 2008 (sec. 204) | 3 | 3 | 6 |
| For the Q1 Program Supplemental Funding Act of 2008 (sec. 212(b)) | 45 | 45 | 0 |
| For the Children's Health Insurance Program Reauthorization Act of 2009 (sec. 201) | 10,621 | 2,387 | 3,801 |
| Revised Budget Resolution | 2,548,974 | 2,575,718 | 2,033,460 |

⁷ In previous current level reports, the House Committee on the Budget directed CBO to exclude funding for overseas deployment and related activities of \$70 billion in budget authority and about \$75 billion in outlays from the budget resolution totals. Although this funding is not available under any committee's 302(a) allocation, it is technically available under section 311 of S. Con. Res. 70. Therefore, the committee has withdrawn the direction to exclude the funding in this report.

⁸ S. Con. Res. 70 assumed emergency amounts of \$5,761 million in budget authority and \$1,152 million in outlays for the Corps of Engineers. Because section 301(b)(2) requires that the current level exclude amounts for emergency needs, the House Committee on the Budget has directed that these amounts be excluded from the budget resolution aggregates in the current level report.

AIG SCANDAL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon (Mr. DEFAZIO) is recognized for 5 minutes.

Mr. DEFAZIO. Well, today was 6 months overdue here in the House. Last fall, when President George Bush and Secretary Henry—"Hank," as people like to call him—Paulson—just a regular guy from Wall Street who earned \$750 million in 1 year before he left Wall Street to come here and be Secretary of the Treasury, protecting Main Street interests under the Bush administration—panics the Congress, said the world was on the verge of collapse, and submitted, on a Friday evening, a three-page bill asking that we appropriate \$700 billion and give it to Henry "Hank" Paulson and let him spend it however he deemed fit.

□ 1545

Unfortunately, Congress didn't really improve too much on that original draft. Congress got stampeded. I didn't. I voted against it. And for one glorious moment, one night, one day, we stunned the world by stopping that bill here in the House and saying there are not enough protections for American taxpayers in this bill. There's no guarantee we'll get paid back. There's no real restraint on how Henry "Hank" Paulson of Wall Street is going to spend the money. We fear it will go to bonuses, it will go to waste, it will go to his buddies on Wall Street and he'll use it to penalize his enemies on Wall Street. And that's exactly what happened.

And here we are now, at least \$350 billion later of that \$700 billion. It's estimated, by one group that does weekly estimates, we've lost about a third of the money. The American taxpayers are being told they'll have to pay that back over the next 30 years.

In the meantime, many of these companies and these lords are rewarding themselves with bonuses. We're told, well, these are certifiably smart people. I mean, how can these firms continue to exist without them?

Well, the firms like AIG don't exist anymore except for the largesse from the American taxpayer. They bankrupted their companies. How could anybody think they deserve a performance bonus or a retention bonus of any

sort? What they need is a bonus push out the door. And that should have happened a long time ago. And I've got to say the Obama administration is trying. A big hole was dug here. They are trying to make some sense out of what Bush and Paulson did.

But I am not impressed by our Treasury Secretary, Mr. Geithner, and I think that President Obama should rethink whether or not he is the man for the job at this time. When did Secretary Geithner know about these bonuses that were coming due at AIG? He was head of the New York Fed. He was very involved in bailing out AIG through the Federal Reserve last fall. Did he just find out or has he known? And did he neglect to tell the President, did he neglect to tell the Congress that these bonuses were pending? I don't know for sure. But we need to have that question answered.

Geithner was hired because he said, well, Wall Street's comfortable with him. I'll tell you what. I'd like a Secretary of the Treasury who Wall Street doesn't like because that person is protecting Main Street Americans and the taxpayers of this country instead of coddling these fat, overpaid people on Wall Street who have bankrupted their own companies and are trying to bankrupt America and have caused nationally and worldwide an economic collapse. These certifiably smart people.

So today we began to correct the mistakes that were made here last fall under pressure from Bush and Paulson. But people need to be brought to account. We need to hire the 1,100 agents that the FBI has been asking for for 4 years to fill out their financial fraud and crimes unit. We need to hire those 1,100 people and maybe give some of these people who today are getting bonuses Federal hospitality in the future, a little uniform and a nice warm place to sit behind bars.

We need those investigators. We need that budget. We need to thoroughly review everything that's gone on. And we really need to question the leadership of Secretary Geithner in these matters.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

THE SPEAKER pro tempore. Persons in the gallery are reminded to refrain from audible manifestations of ap-

proval or disapproval of the proceedings of the House.

THE AIG BONUS BILL IS A LEGISLATIVE COVERUP

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia (Mr. BROWN) is recognized for 5 minutes.

Mr. BROWN of Georgia. Mr. Speaker, today leaders in this Congress have hastily pushed through a bill with the direct intent of correcting a mistake, a mistake that could have been prevented in the first place. Let me repeat that. A mistake that could have been prevented in the first place.

We've all seen the devastation that occurs following congressional knee-jerk reactions, and I am afraid that today's AIG bonus bill will not be an exception to that rule.

I have serious constitutional concerns about our government's targeting such a narrow group of citizens with a retroactive tax hike. Regulating the pay of thousands of private citizens because of a mistake made by the leadership of this Congress starts us down a slippery constitutional slope. And what are our constitutional leaders planning to do with the taxes that they collect from this bill? It will probably all go back to AIG in their next bailout payment.

My mama always taught me that two wrongs do not make a right, and this bill is no more than a legislative cover-up by the leadership of this Congress. It's time for this body to instead address the problem that got us here in the first place: the lack of transparency. Lack of transparency is the true perpetrator in this high crime against the taxpayers. Ultimately, the taxpayers are not only the defendant in this case, but also the jury. And I think the taxpayers must serve congressional leaders with a clear verdict.

It's congressional leadership who relinquished their promises for a more transparent government and instead steamrolled the "nonstimulus" stimulus bill down our throats, bypassing the regular committee process and refusing input from the minority party.

Why are my colleagues on the other side acting surprised to find that a provision was ripped out of this bill that would have prevented these bonuses in

the first place? In fact, that was even introduced by a Democratic U.S. Senator. They finally made the 1,000-page bill public in the middle of the night and then steamrolled it through Congress only a few hours later, all without adequate public or congressional scrutiny. This is absolutely outrageous. The American people deserve better and must demand better.

They say that making legislation is like making sausage; you don't want to see it. But I beg to differ because these are trillion-dollar hot dogs that are being slammed and shoved down the throats of the taxpayers, and the taxpayers have to swallow it. It's time for congressional leaders to let taxpayers into the sausage factory. It's time for taxpayers to see what goes on here in Congress and goes into the sausage, and what's left out. Then and only then will we avoid coming back to fix mistakes that shouldn't have been made in the first place.

We have seen bill after bill shoved down the taxpayers' throats. It's a steamroll of socialism that's being shoved down our throats. It's going to strangle the American economy, and it's going to choke the American taxpayers.

Taxpayers deserve better. Taxpayers have to demand better. Taxpayers are not being treated fairly. We've seen bill after bill that's going to hurt the economy. It's going to cost jobs. It's going to create a longer and a deeper recession, maybe even a depression. We have seen people on the other side blame President Bush and they show righteous indignation, and it's totally misplaced because in this last Congress, 110th, now in the 111th, and with this administration, we have seen bill after bill that's going to hurt the economy, that's going to hurt the American taxpayer, that's going to cost jobs. It spends too much, it taxes too much, it borrows too much, and it's going to kill our economy.

We have got to demand more and better from this leadership and this Congress. The steamroll of socialism is being driven by NANCY PELOSI and HARRY REID and this administration, and it must stop because it's going to destroy America economically.

COMMUNICATION FROM FIELD REPRESENTATIVE, THE HONORABLE WALLY HERGER, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from David Meurer, Field Representative, the Honorable WALLY HERGER, Member of Congress:

HOUSE OF REPRESENTATIVES,
Washington, DC, March 16, 2009.

Hon. NANCY PELOSI,
Speaker, House of Representatives,
Washington, DC.

DEAR MADAM SPEAKER: This is to notify you formally, pursuant to Rule VIII of the

Rules of the House of Representatives, that I have been served with a subpoena, issued in the Superior Court of California, County of Shasta for testimony in a criminal case.

After consultation with the Office of General Counsel, I have determined that compliance with the subpoena is consistent with the precedents and privileges of the House.

Sincerely,

DAVID MEURER,
Field Representative.

AIG: THE REAL STORY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Mr. GRAYSON) is recognized for 5 minutes.

Mr. GRAYSON. Do you want to know why AIG went broke, threatening to bring down the whole U.S. economy? It's actually easy to find out. All you have to do is wade through 500-plus pages in the form 10-K that AIG filed 2 weeks ago. It's all in there, and I read it.

Now, derivatives certainly contributed to the problem. That's why the "stress test" on Page 178 says that AIG owes \$500 billion, yes, \$500 billion, if long-term interest rates go up by just 1 percent, as opposed to only \$5 billion, according to Page 183, if San Francisco is destroyed in an earthquake. So now we know why the Federal Reserve has been buying long-term bonds just as fast as the Chinese sell them: to keep its ward AIG from being liable for \$500 billion, because \$500 billion is a lot of money, even to the Federal Reserve.

And to whom would AIG owe that money? The answer is on Page 176. AIG's largest credit exposure, which is 160 percent of its shareholder equity, is to "Money Center/Global Bank Groups." In other words, Wall Street. And almost half of that amount is owed to only five banks.

But the real AIG losses have come not from derivatives but rather from AIG's basic business model. In a news release last Monday, AIG said that it had to make payouts of \$43.7 billion to "securities lending counterparties." That's the phrase: "securities lending counterparties." The news release doesn't explain what that is, but AIG's 10-K does.

The standard insurance business model is as follows: You make money from minimizing your claim payments, and you make more money from your investments. Warren Buffett has explained this countless times in Berkshire Hathaway's 10-Ks. It's a stable, steady business. Indeed, AIG's insurance subsidiaries took in premiums, AIG invested them, and AIG paid out on claims.

But that's when things went horribly wrong. According to AIG's 10-K, AIG's parent company sucked the investment assets out of its insurance subsidiaries and lent them to Wall Street and foreign banks in return for cash. AIG then took this borrowed cash and invested

it—are you ready for this?—in mortgage-backed securities.

It's not in AIG's 10-K, but the counterparties, that is, its friends on Wall Street, undoubtedly took the stocks and bonds borrowed from AIG and sold them short. That's why institutions borrow securities: to sell them, buy them back later at a lower price, return them, and claim the profit. So as the markets dropped, AIG's counterparties laughed all the way to the bank. Except they are banks.

And what about AIG? According to the first few pages of AIG's 10-K, when the counterparties returned the securities to AIG, AIG had trouble coming up with the cash because, first of all, the mortgage-backed securities market had blown up, and, secondly, the securities that AIG had lent out were actually worth far less at that point. Hence the Federal bailout at \$150 billion and counting. And this money, by the way, this money that the Federal Government is giving to AIG, AIG implausibly lists that money as "shareholders' equity" and not loans on its own financial statements.

Now, why would AIG do something as convoluted and nutty as this? To goose its profit a few points by counting both the returns on the lent securities and the returns on the mortgage-backed securities both as its profit. In other words, the motive was greed.

Obviously, AIG shouldn't have done this, and no insurance company ever should be able to do it in the future. This is the kind of financial innovation that brings into focus why we need to regulate in order for this country to survive. The choice is not between regulation and freedom; the choice is between regulation and chaos.

□ 1600

TURN THIS ECONOMY AROUND

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Minnesota (Mrs. BACHMANN) is recognized for 5 minutes.

Mrs. BACHMANN. Mr. Speaker, I rise today to talk about America's economy and where Americans are at right now. We have seen a lot of trouble over the last 2 years, and it needn't be that way.

We could turn this American economy around next quarter. We could truly bring hope and change to the American people if we would put into place a positive solution that would give people certainty about where they are going to go in this economy, and we can. We know it's possible. It's really fairly simple.

All we need to do is this: we need to get people investing in the economy, and you do that by making incentives for that. I am a former Federal tax lawyer. I have lived this life, I know how it works.

Right now we have a high rate on our capital gains tax. Unfortunately, the Obama administration is looking at increasing that tax. We need to go just in the opposition direction. We need to cut the investment tax called capital gains down to zero. The best thing we could do is make that tax permanent to the investor community.

Let Americans know, if you take your money, and if you put it at risk opening a business, hiring people for jobs, in the next 4 years your risk will be paid off because you will have a 0 percent interest rate. That's capital gains.

If we would permanently lower the capital gains to zero for 4 years, we would have incredible domestic investment, as well as foreign investment. Even better, we can take the business tax rate—the United States today has the second highest business tax rate in the world, 34 percent.

America is not an attractive place to invest money. We can change that. We can go from 34 percent on our business tax and bring that down to 9 percent, make it permanent.

What are foreign investors looking for? A safe haven for investment. They want to invest in the United States, but we have a very punitive investment climate.

If we would bring down that business tax rate to 9 percent, we would be able to bring foreign money into the United States and invest and create jobs. Rather than seeing jobs flee the United States to other countries, we will see them come right back into the United States.

That's what we need now, more jobs, more stability, more certainty. We have had enough with economic uncertainty from 2008 to the present. Let's change that equation. We can have a positive alternative.

First, zero capital gains. Second, lower the business tax rate to be one of the lowest in the world.

Third, cut every American's tax rate down by at least 5 percent. We can do that, and that will help Americans keep more of their money.

Fourth, we need to kill the death tax once and for all. If even one American pays the death tax, it's immoral. Why in the world should Uncle Sam be able to reach in the coffin after death and still try to pull the wallet out of an American who is deceased? This is immoral. It shouldn't be.

Then, finally, the alternative minimum tax, we should zero out the alternative minimum tax, which is putting a second tax burden on already over-taxed middle-class Americans.

Also, Sarbanes-Oxley, Sarbanes-Oxley has actually chased capital out of New York City over to London. We need to get that investment capital back in the United States.

That's a pretty simple plan. If we would stay here for the rest of the day,

and if we would stay here tomorrow, as Members of Congress, we could very quickly and simply pass this common-sense legislation that has worked time and time again.

Don't just take my word for it, a woman from Minnesota—take a look at Harvard. Harvard did a study back in 2002 that examined 18 different world economies, and they showed the same thing. They said, what do you do to make economies work, and what do you do that makes economies not work?

Here is what you do, you lower the wages of government employees, you lower transfer payments, welfare payments, and you lower the tax rates. That's what you do, the study concluded, to make economies survive.

What you don't do is increase government spending. What you don't do is increase taxes.

What we have seen in the last 60 days is what you do to make an economy not work or bring more uncertainty into our economy.

The American people deserve a positive solution, and we have got one. Let's get to work, let's stay here, let's make it happen. Instead, what are we seeing happen? We are seeing more spending and higher taxes.

And what did the Federal Reserve try to do this week? They announced that they are going to do another \$1 trillion in purchases. And they just announced today another \$300 billion in buying up long-term Treasury securities. They have already lowered the interest rates to zero, so now they want to flood more money into the money supply, but this reduces the value of dollar.

There is so much we can do to change the economy. Let's get busy.

HONOR THE WISH ACT

The SPEAKER pro tempore (Mr. MASSA). Under a previous order of the House, the gentleman from Tennessee (Mr. COHEN) is recognized for 5 minutes.

Mr. COHEN. Mr. Speaker, today is the sixth anniversary of the Iraq war. We Americans need to remember all those who have made sacrifices because of this war, the 4,259 service men and service women who have given their lives in this conflict.

One of the soldiers who paid the ultimate sacrifice was Specialist Christopher Fox of Memphis, a constituent of mine, who was based in Fort Carson, Colorado.

Only 21 years old, he was on a second tour in Iraq, was due to be discharged from the Army in July of this year. He was looking forward to attending the University of Tennessee at Knoxville, possibly to play football and to study criminal justice. He hoped to be a police officer so his military training would not have gone to waste after he left the service.

But Specialist Fox did not make it home alive. He died in Iraq on September 29, 2008, of wounds sustained when he encountered small-arms fire while on patrol. On this anniversary of the war, we need to remember these sacrifices and do what we can to honor the memory and the wishes of the soldier who has given the ultimate sacrifice.

Specialist Fox wanted his mother figure, not his mother, who was deceased, but his mother figure, a woman who was awarded temporary custody when he was 17, to oversee his burial arrangements, as soldiers are asked to designate someone. Her name was listed on the form that he filled out to direct the disposition of his remains. However, because of current Federal law, it is prohibited that servicemembers designate nonrelatives to make those arrangements.

It is a travesty, Mr. Speaker, that our laws do not allow a soldier's wishes to be honored, especially for something as final, as simple, and as appropriate and meaningful as the disposition of their remains.

Someone who puts their life on the line in defense of their country should be allowed to have whomever they wish to make arrangements for their memorial service. I attended his memorial service in West Memphis, Arkansas. There were few people there. There were no other public officials.

It was unfortunate that even his mother figure wasn't able to make it, she was in Knoxville. But if she would have had the opportunity to make the arrangements, I think we would have seen something different.

It is with this experience that I, along with Congressman JOHN DUNCAN of Tennessee, where his mother figure lived and where he otherwise might have been buried, and DANA ROHR-ABACHER of California, Congresswoman WATSON and Congresswoman GWEN MOORE are filing the Honor the Written Intent of Our Soldier Heroes Act today, or Honor the WISH Act.

This bill will allow service men and women to designate whomever they want to direct the disposition of their remains. I hope my fellow Congress people will join me in sponsoring this act and help move it forward for passage. It seems only appropriate and fitting that we honor the wishes of our soldiers.

ALLEGHENY NATIONAL FOREST

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. THOMPSON) is recognized for 5 minutes.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I bring a serious economic concern from my district today. In the northwest corner of my district in beautiful rural Pennsylvania lies the Allegheny National Forest, established

86 years ago when the Federal Government purchased 513,000 acres that it encompasses.

By agreement in 1923, the subsurface mineral rights in the forest did not convey with the purchase, and oil and natural gas have been harvested ever since. Because of the value of timber harvested and the oil and natural gas produced, the ANF serves as the economic engine of the region, providing good-paying, family-sustaining jobs for many in the oil, natural gas, timber and forest products industry.

In addition, the ANF is not taxable, since it is owned by the Federal Government, making the municipal governments even more reliable on the development of oil, natural gas and the timber in it. Mr. Speaker, what's important to note here is that the Federal Government entered into an agreement with the owners of these subsurface minerals, an agreement which has been honored for 86 years.

Unfortunately, that process has come to a halt. In reacting to lawsuits brought by environmental groups, Forest Service and Justice Department lawyers, who most likely have never stepped foot in the Pennsylvania ANF, are now managing the forest, instead of dedicated ANF Forest Service professionals, who despite many challenges over 8 decades, have carried out their duties admirably.

So when the Forest Service does not issue new permits to proceed with harvesting oil and natural gas, people lose their jobs and the local economy suffers. To demonstrate that this is much more than a legal battle between the Forest Service and environmental groups, I will read a part of one of my many communications I have received from constituents.

"With local drilling being slowed to a virtual halt, we have seen the 'ripple effect' significantly decrease our business. The timber industry is in the worst shape that we have ever seen, and now loggers are not even needed to clear right-of-ways for roads, locations and pipelines.

"For the first time in 30 years we have had to reduce our workforce and contribute to the nearly double-digit unemployment rate."

I find it to be the height of hypocrisy that the Secretary of Energy recently asked OPEC not to decrease its oil production, while at the same time our government is taking actions to prevent the production of our own oil and natural gas. Importing 60 percent of our oil and sending \$700 billion to foreign, often unfriendly countries should dictate government policy that promotes the production of our own oil, not the opposite.

If the Allegheny Defense Project, which is run out of Portland, Oregon, more than 3,000 miles from the beautiful Pennsylvania ANF, continues to use the legal system and their environ-

mental shield to stop the legitimate and environmentally safe harvesting of timber, natural gas and oil from the ANF, or any other forest, I ask that they consider the effect of such efforts on the communities, families and individuals who depend on the safe and sound harvesting of those commodities to keep their jobs and to pay their bills.

Oil and gas production is western Pennsylvania. It's part of our life. It's what we do. It's where Colonel Drake sunk the world's first commercial oil well 150 years ago this year. The safe and environmentally sound harvesting of our resources in the Allegheny National Forest has been going on for decades. There is no reason it should be delayed or stopped now, especially during a recession.

Mr. Speaker, it has been 63 days since the Forest Service has issued any permits for new oil and gas wells in the ANF. This is unacceptable.

I trust that the Forest Service and the Department of Agriculture will resolve this problem quickly so that our community can get back to work producing our own oil and natural gas. And, if not, I will return to this floor and continue to do all I can until it is resolved.

BONUS MYSTERY

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Ohio (Mr. LATOURETTE) is recognized for 60 minutes as the designee of the minority leader.

Mr. LATOURETTE. I want to thank our leader for giving us an hour to talk about something that happened today, this week, that really has us befuddled.

Mr. Speaker, I like a good mystery, I just finished reading another Agatha Christie last night, "Black Coffee," and it wound up being the personal secretary to the manor and Lord, who poisoned him with cyanide.

□ 1615

But it took me until the last couple of pages until I figured it out that this Edward Raynor had in fact poisoned his boss.

Well, who would have thunk that we would have a real live mystery here on Capitol Hill. But we have one. And we're going to talk about a variety of things relative to AIG and the stimulus package and these bonuses that have been paid out that really have people's anger up, at least in Ohio—the phone calls I'm getting. We'll hear from other Members.

But here's what happened. A few weeks ago, the President of the United States indicated he wanted to put forward a stimulus bill and, unlike some commentators, I want President Obama to succeed. I think he's doing the best job that he can.

He entrusted the leadership of the House and Senate to write the bill. The bill was a little over 1,000 pages. I think it was 1,117 pages long. We were nervous because it was spending \$1 trillion. When I say my Republican colleagues and I were nervous, it proposed to spend \$1 trillion rather quickly. We asked early in the week before the vote, Do you think we could read the bill before you ask us to sign on to spending \$1 trillion?

So we had a little motion here on the floor and every Member of the House—every Republican, every Democrat—said: You will have 48 hours to read this bill before we ask you to decide whether it's a good piece of legislation or a bad piece of legislation.

Well, it left the House, it left the Senate, and it went to a conference committee which, Mr. Speaker, I know you know, but others may not know; that's where we send some guys and gals over from the House, they send some over from the Senate. They get together, they work out the final product and then they bring it back to the House and Senate for a vote.

Well, something happened on the way to the vote in that we weren't given 48 hours to read the bill. We were given 90 minutes to read the bill. We made the observation that that's 90 minutes to read 1,000 pages, and a lot of us read pretty quickly, but that was a big challenge. So could you please not ask us to do this, because when you do something that quickly, somebody's going to be embarrassed.

That leads us to our mystery. Today, we had some legislation where there was a lot of gnashing at teeth and pulling of hair, saying that AIG are crooks, somebody called them traitors, so forth and so on, and they shouldn't have gotten these bonuses.

Well, when the bill left the Senate, there was an amendment in the bill offered by a Democratic Senator from Oregon, WYDEN, and a Republican Senator from Maine, OLYMPIA SNOWE, that said there were not going to be—if you took money for the bailout and you're an institution, you couldn't give these crazy bonuses to people. You couldn't give them \$18 million, \$20 million worth of bonuses. That seemed pretty reasonable.

Well, when it went into this meeting, all of a sudden that language came out and this language that I have put up on the easel here was inserted.

For those who want to read it, it's title 7, section 111, subparagraph 3, subparagraph iii.

Now, unlike the Wyden-Snowe language that said we weren't going to do it, this language specifically says that any bonuses, any executive compensation, any million-dollar golden parachute, any retention pay that was agreed to before February 11, 2009—guess what? It wasn't covered. So the bill specifically authorized the payment of these bonuses.

Well, as we warned, and we are not happy that our prediction came true, but there were some people this week that were embarrassed by that. So we passed a bill to tax these bonuses at 90 percent. Stupid idea. But we wouldn't even have had that discussion if somebody, somebody put this paragraph into the bill that specifically allowed the taxpayers of this country to go ahead and pay for these bonuses at AIG. So we do have a Who Dunnit.

From our social studies we know that there are 435 Members of the House of Representatives and there are 100 Senators. I had a piece of paper with the breakdown, and I've misplaced it, but I think after the last election there are 178 Republicans in the Chamber and there are 247 Democratic Representatives. Over in the Senate, there are 41 Republican Senators, 58 Democratic Senators, and we can clear somebody of this mystery already because the Minnesota Senate race has not resolved so we know that Al Franken or Norm Coleman didn't put this paragraph into the bill.

During the debate today I asked the distinguished chairman of the Financial Services Committee, Mr. FRANK of Massachusetts, if he did it. And he said no. So we're going to cross BARNEY FRANK off the mystery list. Now we are down to only—well, let me say this. I didn't do it. So we are down to 533.

I'm joined by other Members here today.

Mr. MCCOTTER. Will the gentleman yield?

Mr. LATOURETTE. Mr. MCCOTTER of Michigan, did you put this into the bill?

Mr. MCCOTTER. Through the Chair to the gentleman from Ohio, I was not in the room that inserted the pro-AIG language into the stimulus.

Mr. LATOURETTE. Thank you very much. Let me get to Mr. THOMPSON of Pennsylvania. Did you write this?

Mr. THOMPSON of Pennsylvania. No, sir, it was not me.

Mr. LATOURETTE. Mr. COLE of Oklahoma, did you write this?

Mr. COLE. No, sir. But I do have some information that might help you as you move forward. I wouldn't say that this would be definitive. I think you should ask every individual, as you're doing.

But I do have a signed list of people that were in the room—that were principal negotiators in the room. I think they need to be able to answer for themselves, as one of them, Mr. FRANK, already has.

I do want to point out in defense of some of our colleagues, Mr. LEWIS' from California name is there, but it's scratched out because he wasn't allowed to be in the room. There's also Mr. CAMP from Michigan. His name is scratched out, too, because he also was not allowed to be in the room.

And then there's the distinguished Senator COCHRAN from Mississippi. His

name is also crossed out because he wasn't allowed to be there. Then there's Senator GRASSLEY from Iowa. His name as well is scratched out.

So I don't know that that would prove that they did not do it, but I think that's a very strong indication they did not. Coincidentally, they're all Republicans. But I thought that might help you as you pursue your vision.

Mr. LATOURETTE. Thank you, Mr. COLE. I think, as Angela Lansbury in *Murder She Wrote*, or Agatha Christie in her books, we're going to call that a clue. I think we have a clue and we're moving in the right direction.

Are there any other Members that want to say anything? Sir, do you want to identify yourself and indicate whether you wrote this?

Mr. FLEMING. Before today, I've never seen that. So I would have liked to have been there, however. I can assure you of that.

Mr. LATOURETTE. You know what? We're getting someplace. So now, by my count, we only have about 525 people to go. I pledge to you, Mr. Speaker, that I will spend as long as it takes to identify who wrote the language.

We are making a little light of it, but it's not funny. Because what you have here on both ends of Pennsylvania Avenue, you have a Senator from Connecticut, the chairman of the Banking Committee over there, and he says, Well, yeah, maybe I wrote it, but I only wrote it because somebody in the administration told me to write it.

Well, again, going from our social studies, we know for a fact that the administration can't write laws. This is the United States Congress. So somebody had to pick up a pen and scratch out the Wyden-Snowe amendment which would have prohibited these bonuses and then written this new paragraph—it's only about 50 words long—and inserted this. And somebody needs to own up to this because you can't have all the drama that we had on the floor today where: I don't know; this is outrageous; they're crooks.

Well, the person that wrote this let this happen. And that's why we find ourselves in our situation today. We have a lot more that we are going to talk about.

Now it's my pleasure to yield to Mr. COLE of Oklahoma.

Mr. COLE. I thank the gentleman for yielding. I thank him for the way in which he framed the debate and did it in a way we can all understand. But this has been a troubling episode as well.

I think I guess what I'd call Bonusgate begins, I like to think, with three words. We've heard a lot of the three words recently. We've heard the word inherit, we've heard the word transparency, and we've heard the word accountability.

Well, this is not a situation that was inherited by this administration or by

this majority. This was a situation that came into being on their watch. This is a situation where they have not been transparent. Quite the opposite. They have done everything they can to obscure what happened, when it happened, who's responsible.

Finally, it's certainly an incident where, at least to this point, nobody has been held accountable for anything. It's just something that somehow is unfortunate, but we are going to move collectively to try and correct before we have even identified who created the problem for us in the first place.

What do we know? Well, we do know a lot. We do know that Secretary Geithner has been involved in designing legislation around both the bailout and the stimulus literally since November—really, since September, when he was involved in his capacity as the Chairman of the Federal Reserve in New York.

We do know that, frankly, he was aware at some point late last year or probably early this year, at the minimum, there were going to be large bonuses paid. Certainly, the Fed had been informed that, and we would expect in his position there and as Secretary of the Treasury he would have been informed.

We do know that he had the means to stop this. He literally released \$30 billion at the beginning of this month to AIG. At that point, he could have said, Look, you do this; no money. You're bankrupt.

I suspect something could have happened where these bonuses wouldn't have been paid out.

We also know that he didn't bother to tell the President of the United States, for whom he works and to whom he is responsible, anything about this until the day before it happened. That's what the Secretary has said, that's what the President has said.

So we know that Mr. Geithner has been around this problem a lot and we know that he did not—or, it appears he did not inform the President.

The second thing we know relates to the stimulus bill. My friend, Mr. LATOURETTE, went through that pretty well. We had a bill that was rammed through, literally was put together in a hurry, where this body guaranteed its Members by unanimous bipartisan vote we would have time to read it. We weren't given the time that in this body we said we would give Members.

We know that the bill eventually ended up in a conference committee. We have a pretty good idea who the six people were there, one of whom we now presume had nothing to do with this. I would certainly take the chairman at his word.

And we know that that language was inserted in that conference. It was not something that was inherited from the last administration. It was not something, to be fair, that was even in the

first version of the stimulus bill. It was something that was specifically put there.

And so, while we know that the majority didn't read the bill and we know that the minority didn't read the bill, and I doubt the President read the bill, somebody read the bill. Somebody read the bill well enough to know, Hey, there's language in here that's going to prevent the payment of bonuses—and we need to get that out and put something in. So somebody did indeed finally read the bill.

We also know that today, rather than confront those questions, we decided we'd do everything we could on the floor of this body to look like we were doing something. As a matter of fact, I would argue we made a lot of the same mistakes.

We presented a bill that hadn't gone through committee, that people hadn't seen, that hadn't been discussed, because we needed to show that we were going to act. And we presented a resolution which, thank goodness, did not make it through, which essentially would have exonerated the administration.

Now those are all things that we know. What should we do, is now the real question, it seems to me. The first thing we should do is do what the President did in the very first week of this administration and say: I made a mistake. I think the classic word was: I screwed up.

I think the President and the administration, certainly the majority, screwed up. I think admitting it would be helpful.

The second thing I would do if I were the President of the United States is fire the Secretary of the Treasury. I wouldn't wait for him to resign. I would make the point that if there's something this explosive and this important and this damaging and you know about it for months and you don't bother to tell me about it until the day before it happens, when I'm in almost no position to do anything about it, I'm sorry, you're not really who I need to be the Secretary of the Treasury. Goodbye.

□ 1630

I think the President would score enormous points within his own party. Indeed, earlier this evening we actually heard essentially a Democratic Member of Congress calling in this floor for him to do exactly that, something he ought to do.

Finally, we need the people in that room to just simply fess up. One out of six of them did it; and, if they did it at somebody else's instructions at the White House, then they ought to tell us who that was. Who sent that language down? Or, "I drafted it," or whatever. But there is not that many people involved. I still retain faith that the truth is going to come out here and

that people will step up and do the right thing.

The great British statesman Winston Churchill was often exasperated with our people and with the United States. He used to like to say, "You can always count on the American people to do the right thing, after they have exhausted every other possibility."

I would suggest that is what the administration has been doing, they have been exhausting possibilities. But in the end, they just simply need to do the right thing: Fire the Secretary, in my opinion, who certainly has not served this President well; admit, whoever put this language in there, that they did it, and tell us who instructed or asked them or requested that they do it; and, finally, just level with the American people instead of pass smokescreen, whitewash legislation, which, by the way, is dangerous in and of itself, as my friend from Ohio alluded. You don't use the Tax Code as a punitive weapon directed at people. It is pretty close to a bill of attainder. It is an extraordinarily bad and blunt instrument, and to do it only to provide cover is, I think, a dangerous thing. I don't think many of my colleagues who voted for this on the other side expect that this will become law. This was a political exercise on this floor put together at the last minute to give people cover when they went home.

So let's show Mr. Churchill for once that perhaps he is mistaken; perhaps we can do the right thing without exhausting every other possibility. I ask the administration to step forward and do that, provide the kind of leadership that the President promised that he would give us in the campaign, leadership that is transparent, leadership that is accountable.

I yield back to my friend from Ohio.

Mr. LATOURETTE. Thank you very much, Mr. COLE. And thank you not only for your comments but also for the clue.

I know that other Members may be wandering around the Capitol giving tours or taking care of constituents, and just in case they didn't hear, Mr. Speaker, I will indicate that we are attempting to solve a mystery.

I have something called a Face Book, and the Face Book has a picture of every Member of Congress in the House and the Senate, and we are going to try to find out, if we can, and maybe others will be willing to help us, who put this paragraph in the stimulus bill that shielded the \$170 million of bonuses that AIG paid to their executives after they got another \$30 billion.

Parenthetically, I heard an argument, people have been beating up these executives as traitors and everything else. I have got to say, I kind of admire a bunch of folks that have bilked the taxpayers out of \$175 billion and—but, anyway.

So what we are doing is we are crossing people off, and I think we are down

to about 525 left. Any Member that wants to come and have his or her picture crossed out so we know it is not them, we are happy to do that.

At this time, it is my pleasure to yield to the chairman of the Republican Policy Committee, Mr. MCCOTTER of Michigan.

Mr. MCCOTTER. I thank the gentleman.

Coming from the Great Lakes State, when I was younger I was always fascinated with the history of maritime travel in our beautiful homeland. And so when I was younger, I saw a book, it was called *The Phantom Freighter*, it was a Hardy Boys mystery, and I read it. I loved how they worked through to find the motivations and to finally unmask the culprit, and eventually I read the whole series. It has kind of rekindled in me today that sense of wonder at who and why something was done, and to work through the mystery to find out: Who could possibly be the hidden hand behind the mystery amendment?

I commend my colleague from Ohio for his search to cut through the fog of our times to find that hidden hand that wrote the mystery amendment, and I will do everything I can to help him with this search, as I trust members of the media will.

Look, in many ways, because this was in the stimulus bill, it has stimulated a lot of reportorial interest in who actually did this. I think that we can assume that if you can unmask the culprit, there may very well be a Pulitzer in it for someone for doing so. But when we look at this, in all seriousness, what we have seen is a classic example of a rush to judgment causing problems.

Now, as a matter of civics, since the subject was broached, when the stimulus bill came to this floor with this amendment inserted into it, it was voted upon by the Members of the House. Not one Republican voted for a stimulus bill with this amendment in it, which means that every Republican voted against approving and protecting AIG's bonuses.

On the Democratic side, every Democrat that voted for that stimulus bill voted for that amendment that approved and protected AIG's bonuses. The President of the United States signed the stimulus bill that included the amendment that approved and protected AIG's bonuses into law. And now that the public is aware of the AIG bonuses, we have seen another rush to misjudgment where we turn the Tax Code into a penal code, where we shred the Constitution to use it as a political fig leaf, and set a heinous precedent in the future for other people who may be disliked or disfavored given the political mood of the moment.

In fact, one of the things, whether you agree with the Constitutional analysis or not, is this: This bill still

allows the bonus recipients to keep 10 percent of their bonuses, and it doesn't do a thing to prevent the \$30 billion that has already been committed to AIG from being drawn upon. I think that if we were going to do anything today, it should have been to get 100 percent of those bonuses to the taxpayers and prevent another dime going to AIG in bailout money. That is just me and 90-some others of my colleagues.

When we look at where we are today with the resolution of inquiry that the gentleman from Ohio introduced, I think I can establish the motive behind the hidden hand that wrote the mystery amendment. I do not believe that this was a mistake. I do not believe that this was simply a matter of venality for a hometown constituency. I think this was an actual matter of economic policy by this administration. If I may explain.

We heard from Mr. Liddy of AIG yesterday that he was very much afraid of losing the people who had caused the problem at AIG before they had managed to fix it. He believed that if these individuals left, he would see a meltdown again of AIG, which he believes would help create economic chaos throughout America.

I believe that, in consultation with individuals from the United States Government and potentially the Federal Reserve Board, he made the determination that these bonuses, retention bonuses were necessary to keep those people at AIG, facilitating what he believes is an orderly unwinding of the mess.

When viewed in the light of having to keep the people who created the problem so they could fix it before they left, this amendment makes sense. This amendment makes sense as a matter of policy, because on January 28, CNN's Mary Snow reported that AIG was expected to receive hundreds of million dollars, at least, in bonuses. That is out in the public realm.

You see, the Senators put forward their amendment to preclude the very types of bonuses AIG received. If you are looking at this as a matter of economic policy, you say to yourself: The AIG bonuses that are coming down the pike are not public. You say to yourself: The politicians in Congress are not going to allow this to happen because the public is going to be apoplectic.

You see the opportunity in the stimulus bill with \$1 trillion of spending being rushed through in the dead of night. You say to yourself, "Oh, oh, the Senators have already put forward an amendment to preclude such bonuses. We are going to have to remove it, and we are going to have to put something in its place to approve, protect, and grandfather the AIG bonuses so we do not lose the, quote/unquote talent that produced the problem and that has to

fix it." It now makes perfect sense. But having established the motive, we have yet to establish the culprit.

The public is apoplectic, as I said earlier, because they do not believe that as a matter of economic policy this amendment is fair to them; that it is patently inequitable, and they do not want the people who caused the problem to benefit from being propped up courtesy of billions of dollars of taxpayer money.

Now, the response in Congress is not to look at the economic policy to make the determination that AIG is too big to fix, that it should be wound down immediately, that taxpayers should be protected. Instead, as I mentioned earlier, we saw a political fig leaf put forward.

The mood was also reminiscent of what I experienced as a young man watching a very important artsy film called *Animal House*. We all remember the scene where they are sitting around Delta House drinking beer, bemoaning their horrible grades at the midterm exams, and Dean Wormer walks in. Immediately the members of Delta House start to hide their beer under their seats and in the back, and the dean looks at them and says, "You know, drinking is illegal in fraternities here at Favor College."

When the public found out about this bonus to AIG executives, when they found out what this amendment allowed and was voted for by a majority of this Congress and signed into law by the President of the United States, you saw the political equivalent of Delta House hiding their beer so Dean Wormer would not be upset. In the event Dean Wormer was not fooled, and neither has been the American public, they want to see the situation resolved; they want all the money back in those bonuses; they want to prevent more money going to AIG; and, as the gentleman from Ohio has pointed out, they want to find out who the hidden hand behind the mystery amendment was.

We talk about transparency in government, we talk about accountability in government, and you are telling me that we can't even determine who put this amendment into a \$1 trillion spending bill that was approved by this Democratic Congress and signed into law by the President of the United States. I would hope that this inquiry becomes a bipartisan cause in the interest of answering that question for the American people.

I yield back to the gentleman from Ohio.

Mr. LATOURETTE. I thank the gentleman from Michigan for his thoughtful remarks, and I thank him also because from Mr. COLE of Oklahoma we got a clue and now from the gentleman of Michigan we have a motive and, thankfully, also the name, "The Mystery of the Hidden Hand." I think that

is what we are going to call this thing, The Mystery of the Hidden Hand.

And, Mr. Speaker, just in case you need your memory refreshed, what we are talking about here is the fact that in the \$1 trillion stimulus bill, which we were given 90 minutes to read and which we indicated maybe that could cause a problem, somebody might be embarrassed, language was removed by somebody, The Hidden Hand, that was put in over in the Senate that would have prohibited AIG from using taxpayers' money and paying out millions of dollars in bonuses to their executives.

Now, The Hidden Hand wasn't done with that, because that didn't accomplish his or her purpose—I think we have got to include women in this, too. It could have been a woman. The Hidden Hand then wrote this paragraph in this \$1 trillion bill that specifically protected and said, "Here is 30 more billion dollars of our taxpayers' money, AIG. And, you know what? This protects you. If you want to give out bonuses, \$1 million, you go right ahead." And today, this Mystery of the Hidden Hand, we don't know who did it. But we are going to work it out.

Mr. Speaker, it is now my pleasure to yield to a new member of the House, Mr. FLEMING of Louisiana. I have the Face Book, Mr. FLEMING, and I have crossed you out. You are not The Hidden Hand. And it is my pleasure to yield to you for your observations.

Mr. FLEMING. I thank the gentleman from Ohio.

Mr. Speaker, just a few months ago, I was on the other side of C-SPAN. I was watching what was going on. I was only elected in December.

I come from North Louisiana, where people respect the institutions, and we are talking about two very big and very important institutions: AIG, which we know is too big to fail. That is the reason why we have been bailing AIG out. And then, of course, our Presidency and Congress itself.

I guess the rhetorical question I have after this embarrassment, which is, first of all, how did this screw-up happen? And, where is that person or persons who is willing to own up to the mistake that was made here?

But going back to the beginning. We remember that in the first TARP issue, money was of course dealt out very quickly, almost overnight, as a result of the need or perceived need for bailout, and we found that money was going to spas in California, and pheasant hunting in the U.K. That should have at least given us some warning that this kind of abuse would happen.

Then, we fast forward. We released the money again, no strings attached, and we find out that some kind of deal was struck, only with Democrats in the room, that first put in and of course then took out in conference, we think, this very important clause that would

have avoided bonuses, very rich bonuses, over \$1 million in some cases, to people who were part of the problem.

□ 1645

It really comes down to this: Is it incompetency, or is it dishonesty? I think that is the second question that we have to answer beyond who was involved in this. Certainly, we have the Secretary of the Treasury, who was approved under dubious conditions to begin with, having somehow forgotten to pay or perhaps incompetently did not pay his taxes. And then he was up to his hips in this whole situation with the bailout but somehow didn't realize that this clause would be put in and then somehow jerked out. Even the administration has more or less offered him up as a scapegoat by saying that they really didn't know really what was going on and that really happened on his watch. I certainly think first and foremost that Mr. Geithner should resign. I think he has done enough damage as it is.

Also today there was a disgrace in the House where we had rammed down our throats a stimulus bill which no Republican supported and which did not contain a protective measure that should have been in to avoid these disgraceful bonuses. It was released only hours before. And being, of course, over 1,000 pages, it was impossible for anyone on this side of the aisle to have any idea of what was in that bill, much less some small clause as this.

After all of that, hoping to gain that money back and perhaps some honor to this House, the Republican freshmen advanced a bill that would have put such strings attached to the \$30 billion left in the bailout that would make it impossible for them to receive it without paying this back 100 percent. Instead, that bill never made it to the floor, and we had upon suspension another bill that was, honestly, a horrible bill, although it was the best bill we have to date, which only took back, through taxes, 90 percent of the money that was paid out in bonuses.

Of course, the question is, is this even constitutional? Is it constitutional to pass a bill that has pointed at a very small segment of the society to punish them and to do it on a retroactive basis? I'm not a lawyer. I don't know. But it would be very interesting to see what comes to light. I would also like to know what part our Speaker had in this. It just seems like that once light is thrown into a situation like this, all the leadership who is behind it blow out like a covey of quail.

So I ask today that perhaps we have investigations, perhaps we find the folks who were really behind this. In any event, we need to avoid this from happening again. So in closing, I would say, Mr. Speaker, that the question is, is it incompetency or dishonesty? I certainly hope it is not the latter. And if

it is incompetency, I think we need to renew some leadership positions and get us back to a competent pathway.

And with that, I yield back.

Mr. LATOURETTE. I thank the gentleman from Louisiana for adding his thoughts to the mystery of the hidden hand.

Mr. Speaker, I would ask how much time of the hour remains?

The SPEAKER pro tempore. Twenty-eight minutes.

Mr. LATOURETTE. Mr. Speaker, I'm glad that the gentleman from Louisiana mentioned the freshman bill that attempted to get to the bottom of this, because sometimes the criticism, and I think it is legitimate criticism sometimes, is that the Republican party is the party of "no," that we don't have any solutions and that all we do is say "no" around here.

The freshman bill is an opportunity, and it is a positive idea. Mr. MCCOTTER and I and about 20 of our colleagues earlier this week introduced something known as a "resolution of inquiry." And Mr. Speaker, if any of your constituents are looking for a project, maybe they could contact the Congress and say, "support H. Res. 251" which simply says, let's get to the bottom of this. Let's have Secretary Geithner come to Capitol Hill with his papers and with his documents, and maybe he, as the Secretary of the Treasury, can shed some light on the mystery of the hidden hand, how good language was taken out of the \$1 trillion stimulus bill and bad language was inserted.

So that measure, H. Res. 251, has been referred to the House Committee on Financial Services. Under the rules of this House, they have 14 days to report it out to the House.

Sometimes when we engage in that type of legislative activity, we are told that we have got a lot of important things, we are very busy here in the House of Representatives, and we really don't have time to get to the bottom of the mystery of the hidden hand, even though that bill spent \$1 trillion of taxpayers' money.

I just want to move to a couple of other charts. I want to keep the paragraph up just in case anybody, any Member should be watching and he or she wants to exclude themselves as the hidden hand, I want them to know what it is we are talking about.

Last summer, many people remember, Mr. Speaker, when the cost of gasoline was going through the roof. Thankfully now that the international situation has died down, supply and demand has taken over and speculators have been driven out of the market, people now in my district are paying about \$1.89 for regular. But last year, when gas just kept going up—and again let me say this. I have consistently said that this is the second Congress, the 111th Congress is the second Congress where there are more Democrats

in the House than there are Republicans. They are the majority party. And quite frankly, in the last Congress, I thought they should have been the majority party because we screwed up as Republicans, and we deserved a little bit of a wake-up call. And we are very proud of the fact that Congress created the first woman Speaker of the House since the founding of our country, Ms. PELOSI of California. But we were consistently told that we couldn't talk about how are we going to solve this energy crisis last year because we were too busy. We had a lot of other important things to do.

I used this chart last year, and it is going to segue into what we are doing this year when the last Congress started and Speaker PELOSI was named the Speaker. Gasoline was \$2.22 a gallon. And so we weren't so worried about gasoline, obviously, but we had important work here, and we passed legislation, and I'm sure these folks and their parents are very proud, congratulating the University of California, Santa Barbara soccer team. We were too busy to do anything about gasoline.

Well, gas shot up to \$2.84. I began to get some phone calls in my office—Mr. MCCOTTER, I'll bet you did too—and so maybe we should begin to focus on gas prices. Well, no, we enacted, and we are very proud of this, National Passport Month. That is what they decided was the most important issue facing the country. Moving forward, gas goes up to \$3.03. And so I know we are going to talk about gasoline today. No. We commended the Houston Dynamo soccer team. I think that we are all told in politics that you have to get the "soccer mom" votes. I think we were well on our way in that last Congress.

Gas goes up to \$3.77, so I know we are going to talk about gas prices, how do we solve the pain at the pump. The most important issue of the day here in the Congress was National Train Day. I like trains. Gas goes up to \$3.84. Well, we honor great cats and rare canids. And I have to tell you, I didn't know what a canid was when the bill came to the floor, but it is a dog. So we honored cats and dogs on that day when our constituents were paying \$3.84. Gas goes up a little bit more to \$4.09. You know we are going to talk about gas prices, right? No. We declared the International Year of Sanitation.

Then, finally, when gas hits \$4.14, before it begins to come down, you know that we had to debate energy prices. We passed the Monkey Safety Act here in the United States Congress.

So you would think that we were chastened by that and perhaps in this Congress, when we have a financial meltdown and 16 Americans are losing their jobs every minute in this country, Mr. Speaker, people have had their 401(k)s wiped out, and so I know that maybe they didn't, you know, they were new in the majority, maybe they

couldn't get things rolling. Now that they have 2 years under their belt, you know that we are going to deal with this financial crisis in a serious way.

This Congress started on January 6 of this year. That was the opening of the 111th Congress. And so we have been at it since January 6. We are now into the middle of March. And the stock market on that day was 9015. And then, of course, because I want to be fair to the new President of the United States, we get to, the stock market drops, and so maybe Congress could have acted in here, but certainly President Obama doesn't bear any responsibility because the next January 20, of course, we all know, was the date of the inauguration. And millions of people came, we were all excited, and we continue to be excited. The stock market then fell down after Inauguration Day to 7936. And the most important thing for us was to support the goals and ideals of national teen dating. Now, I have got teen-agers. I like teen dating. But when the stock market is going down, people are losing their life savings, clearly, we must have something more important to talk about than teen dating.

Well, here is a big drop from 7888 to 7114. And on that day, we have commended Sam Bradford for winning the Heisman trophy. Now, I'm sure that Mr. Bradford is an outstanding football player. I wish him a lot of success as he moves forward through his professional career. But, again, as the stock market has dropped by this time 1,900 points, maybe we can do something about the economy.

Well, then, it continues to go down. And not to be outdone, we had to pass the Monkey Safety Act again because when we passed the Monkey Safety Act in the last Congress, the Senate didn't pass the Monkey Safety Act, so we had to bring the Monkey Safety Act back to pass it this time. I don't want to make light of what caused that. There was a horrible situation in Connecticut where a woman had her face bitten off by a chimpanzee, and luckily she has now gone to the Cleveland Clinic, and she has had the first successful transplant in the country. That is certainly a serious matter. I don't have a problem with making sure that we have a Monkey Safety Act in this country to take care of that situation and others. But clearly, when the stock market has dropped almost 2,000 points, maybe we could do something else.

We run it out to March 3, and do you know what? Rather than helping people with the economy, we passed the Shark Conservation Act on May 3 as the stock market hit 6726. And lastly, the run-out to March 9, this was personally one of my favorites, because I didn't remember, I wasn't the sharpest knife in the drawer when I was going to school. So when they said we are going to have Supporting Pi Day, I thought,

yeah, I like French silk. I like all the pies. But it was mathematical pi, which we know is 3.1416. And as the stock market goes down and approaches the mid 6,000s, the legislation, the most important thing that we could do here in the United States Congress was to celebrate and honor Pi Day.

Folks, listen, there is a reason we get the reputation back home sometimes that we can't walk and chew gum at the same time. I am not saying that all of these things aren't fine things. But when the economy is in the tank, when the stock market is dropping, when people are hurting, when 16 Americans are losing their jobs every minute, maybe, just maybe, we could do something rather than the Monkey Safety Act not once, but twice.

I would be happy to yield to my friend from Michigan.

Mr. McCOTTER. Thank you. To the Chair, how much time is remaining?

The SPEAKER pro tempore. Seventeen minutes.

Mr. McCOTTER. Mr. Speaker, one of the things that we want to make clear about the resolution of inquiry that was drafted and introduced by the gentleman from Ohio is that it is an attempt to get an answer for the American people, and what we want to do is be fair both in providing them the answer and in terms of the people who could be the mysterious hidden hand behind this amendment. We want to get to the bottom of it. We do not want to rush to judgment and cast aspersions on others. We believe that this would be very fair to all involved, especially someone like Secretary Geithner, who no one has said was in the room, who himself has not said whether he was or wasn't. We do not want to prejudge the situation. We would like and welcome Democratic support for this, because we believe that in many ways, the Democratic majority was as blindsided by this amendment as was anybody else.

□ 1700

Of course, we warned that it might take time to read the bill that you vote on, but in the end I truly don't believe that the majority of Democrats in this body supported and approved and wanted to protect the AIG bonuses. We have to be fair about that.

But what they do have the opportunity to participate in now is to get behind the resolution of inquiry so they can show their constituents that they want a fair, orderly process to get the answer to the question of who was the hidden hand behind the mystery amendment. We also would like to have the support of members of the general public who could participate in this and put forward their own theories of who was the hidden hand. If they chose to do so, they can e-mail me at Thaddeus

republicanhousepolicy.com with their theories on potential motives for this mystery amendment and who they believe could be the hidden hand.

As we have seen throughout this process, someone did this. Now I can understand why no one is rushing up to accept the, quote, "credit" for this fine and noble amendment; but we need to know. Again, we welcome Democratic participation and public participation.

But we should not let this opportunity pass us by to get to the bottom of this because the worse thing to happen would be for this to recur. I don't think that is in the interest of the American people, and I don't think it is in the interest of anyone who was elected to serve them in this Chamber. We are sent here to vote on important matters of the day. We are sent here to make very important decisions as employees of the sovereign American people, and they deserve to know what we are voting on because they have to go home and account.

When they don't know what they are voting on, and in many ways get caught in an honest mistake supporting a larger issue while another issue festers beneath the surface, they will be called to account for something that they had no way of knowing. The vast majority of Members wanted to know what was in the bill, and they were not given the time to do so. That is unfortunate. But let's get to the bottom of the mystery of the hidden hand so Members will know what they are voting on when a bill comes to the floor.

One of the things that we have to take into account is the next problem can be avoided. That's why again we welcome Democratic participation and we welcome public participation in getting to the bottom of who was the hidden hand.

In voting today, we have also seen a spillover consequence of what happens when government reacts in a crisis. There is the old joke that is too unfortunately true, is that when in a crisis, government will throw your money at something and hope it goes away. We now have the corollary that when a political crisis happens that threaten politicians, they will rush to judgment and they will take money away as quickly as they can to solve it. We need to break that.

I come from Michigan. We have an 11.6 percent unemployment rate. My constituents cannot understand an economic policy that pays people to stay in their jobs, especially when those were the people who caused the problem that cost them their jobs in the first place by creating a global credit crisis that brought us to the precipice of a global depression. They cannot understand the sanity behind the logic of keeping people who were smart enough to break something, as if they were smart enough to fix it and rewarding

them for it. They cannot understand how people who got rich causing the problem are now going to be overcompensated for fixing the problem that they caused.

What they want is for us to be responsible. What they want in a time of economic chaos is for their subservient government to help reestablish order and equity to our economy. They want us to help build institutional trust again within the financial community.

This amendment in front of us today did more to undercut the attempts to restore public confidence in financial institutions than anything I can think of because when you go home, the reason people do not want to put their hard-earned money out there is for fear of losing their job and seeing their nest egg become smaller. They do not have faith in public and financial institutions that are proven no longer to be too big to fail, that appear to be too big to fix, and they are also very concerned that the economic chaos and institutional disorder that has affected them so direly in these past months is now being replicated by their Federal Government, a government that spends a trillion dollars in a rush to judgment, a government that talks about a \$3.6 trillion budget, that talks about trillion dollar tax increases. This is chaos to my constituents.

And now we add to that the fact that amidst all the talk of trillion dollars, trillion dollars borrowed, spent, trillion dollars taxed, they find out that no one in their government can tell them who wrote the amendment that let AIG executives receive bonuses. They deserve better than this. They deserve an answer because the first thing we have to do in the wake of this AIG bonus disaster is restore public confidence in the one institution they look to to help provide order and sanity and equity within their lives in times of chaos, and that is their Federal Government. Let us not fail them again.

I yield back to the gentleman from Ohio.

Mr. LATOURETTE. I thank my friend from Michigan.

The Speaker of the House spoke today very eloquently, and it is the whole issue of who gets Federal taxpayer dollars and what we require in return. The gentleman from Michigan has been one of the champions in the House relative to the auto industry. I happen to agree with you that we need to make cars in this country, just like we need to make steel in this country. But we told the auto manufacturers that if there was going to be Federal assistance, I didn't happen to agree with it, you did, but if there was going to be Federal assistance, they had to cram down the contracts of the people who worked in the auto plants. And I assume those are contracts. I assume they signed a contract they were going to make X dollars an hour, and the

Congress and Democratic leadership and others said well, if you get some money from the taxpayers, you have to renegotiate those contracts.

About 3 weeks ago we had a piece of legislation on the floor that really baffled me, and it was called the Cram-Down Bill. Even though we tried to get an amendment that said that you couldn't participate if you lied to get a mortgage, that bill basically said if you went to your bank and you lied on the application to get a \$100,000 mortgage, you weren't supposed to get it, you made up your income and you didn't talk about what you owed, the majority gave the judges of this country the ability to cram down that mortgage and say you don't owe \$100,000 any more, you only owe \$60,000.

So clearly if that is where we are going to go, if we are going to target people who make cars in this country and we are going to reward people who lie on their mortgage applications, it is obnoxious. Some people say what's the big deal, it is 50 words. What the big deal is we have said to the auto guys, cram down your wages. We have said to the mortgage holders, cram down your mortgage. But in the dead of night, the hidden hand inserted language that not only didn't prohibit the awarding of \$170 million in bonuses to people, it protected those bonuses; and today, they are shocked. It is a little bit like the man who is taking a bath and throws his clock radio in the bathtub and says, I'm shocked. That's what we have here.

Mr. MCCOTTER. On your line of thought regarding the sanctity of contracts, in many ways we heard that these contracts here could not be voided, that the sanctity of contracts prevailed.

The reality is this amendment was necessary because the sanctity of contract "ended" when a company that would have gone bankrupt but for taxpayer money being injected to save it occurred. That is why this amendment was necessary for precisely the reasons you talk about.

When you look at the disparate treatment of auto workers who have to give up hard-earned, negotiated contractual benefits in exchange to show viability for taxpayer bridge loans, when you talk about responsible lenders having to foot the bill for people who have even lied on their mortgage applications to be bailed out while mortgage contracts are crammed down and rewritten, they cannot abide a company that says we have a sanctity of contract when the reality is there would have been no bonus, no contract if they had gone into bankruptcy. Again, as you have pointed out, but for the Federal taxpayers, the American people's hard-earned savings going in to bail that company out, a company that has not been asked to restructure but to wind down, those contracts were no longer void.

And it also shows the point that had this Congress known, both Republicans and Democrats, I believe, would have demanded that any further bridge-loan assistance to a company, a financial institution, had to have as an attachment, as a precondition, the preclusion of any executive compensation in the terms of a bonus.

Again, we were not allowed that opportunity because in the dead of night, this mystery amendment was offered by a hidden hand.

Mr. LATOURETTE. Mr. Speaker, in conclusion, we have launched the mystery of the hidden hand. Again, the mystery of the hidden hand is somebody, and we just want that person to identify themselves so we can move on to something else. Somebody took out a paragraph in the stimulus bill spending a trillion dollars of taxpayer money that said that AIG and others, anybody who got taxpayer money, could not hand out excessive executive bonuses. The hidden hand removed it and inserted this paragraph in section 7700 that permitted and protected the \$170 million of bonuses that people are now shocked AIG paid out.

We have established motive. We have identified a clue. Mr. COLE was kind enough to give us a clue, and we started with 535 suspects and we have winnowed it down to, well, we are down to about 524 now.

So I am going to bring the face book, Mr. Speaker, next week and every day to the floor, and I will seek out Members of this body and ask them if they are the hidden hand. If they didn't put this paragraph in, I am going to cross their face off. When I am done with the House, I am going to go over to the Senate, if they will let me over there, and I will ask the Senators: Are you the hidden hand? Did you foist this fraud upon the American taxpayer and then not have the courage to own up to it?

Mr. Speaker, we will be back. We will solve the mystery of the hidden hand. The taxpayers deserve no less.

PROGRESSIVE CAUCUS MESSAGE

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Minnesota (Mr. ELLISON) is recognized for 60 minutes as the designee of the majority leader.

Mr. ELLISON. Mr. Speaker, I am here to talk about a very critical anniversary before us tonight, the Iraq anniversary. The Iraq war anniversary is tomorrow, Mr. Speaker, and it is critical that we give this moment due attention.

I am here as the person who leads our Progressive Special Order hour, the Progressive Message, and I want to just start off by thanking Mr. JARED POLIS of Colorado who is here with me tonight who is a member of the Progressive Caucus and who has some very

clear remarks to share with me right now.

Congressman, let me yield to you and can you reflect on this auspicious occasion, the anniversary of the Iraq war.

Mr. POLIS. Thank you, Mr. ELLISON. I would like to read briefly from warnewstoday.blogspot.com.

Fre-
quently in our mainstream media, it seems as if everything is wonderful in Iraq. That couldn't be further from the truth. Every day, Mr. Speaker, there are casualties and deaths of Iraqis. And yes, our American men and women continue to lose their lives overseas.

Today alone, Mr. Speaker, a leading politician from the Iraqi Islamic Party has been assassinated west of Baghdad.

Incident number two, a magnetic bomb targeted a police officer's car in the Shaab neighborhood of eastern Baghdad. It went off at 7:15 p.m. The officer was injured and taken to a hospital.

Incident number three, from today, Mr. Speaker, gunmen shot and wounded two Interior Ministry personnel when they attacked their vehicle in central Baghdad on Wednesday.

Incident number four from today in Kut, police forces found an unknown civilian body, as they do many days, hard to identify, happens often, on the outskirts of town.

In Kirkuk, gunmen killed a landlord and his wife when they stormed their house.

□ 1715

In Mosul, again, today, Mr. Speaker, an employee from the Displacement and Migration Department on Wednesday was shot by an unknown gunman in northern Mosul.

Also in Mosul, a gunman killed a civilian in a drive-by shooting 390 miles north of Baghdad. A roadside bomb killed two civilians when it struck a U.S. patrol in eastern Mosul. And again today, unknown gunman on Thursday killed the Mayor of Dober Dan Village. Again today in Iraq, police found the body of a man shot in the head and chest in a town near Mosul.

When I had the opportunity to go to Iraq last year, Mr. Speaker, and talk to people who served on town councils, mayors—these were in the city of Baghdad, autonomous zones, they had their own city council—it was a high-risk occupation. I was informed that nearly a quarter of the people that serve in those capacities on those local city councils have been assassinated, Mr. Speaker.

There are many who would have us believe that the situation in Iraq is rosy. While it might be pleasant to believe that, Mr. Speaker, today, on the sixth anniversary of the war, we need to face reality. This war will end when we choose for this war to end, Mr. Speaker.

Along with several of my colleagues, and yourself, Mr. Speaker, we signed

the Responsible Plan to End the War in Iraq almost 2 years ago. Joined by our colleagues, Representative EDWARDS, Representative MASSA, Representative PINGREE, Representative PERRIELLO, and myself, as well as a number of retired military personnel, we put forth a plan not only to end the war, but to ensure that this sort of travesty never occurs in our country again, to restore our Constitution and our liberties.

Mr. ELLISON. Will the gentleman from Colorado yield for a moment?

Mr. POLIS. I will.

Mr. ELLISON. You are fresh off the campaign trail, Congressman. You have been knocking on doors, talking to folks, and you know what people are thinking. You haven't been around here long enough to get jaded, and so your level of enthusiasm for the work is still very fresh. What are the American people saying about our involvement now on its sixth year in Iraq?

Mr. POLIS. There are a lot of distractions here at home. We have the most severe recession since the Great Depression. We have scandalous uses of public money that our colleagues on the other side of the aisle talked about that we addressed today with regard to bonuses paid to AIG executives. But there are many Americans who, even today, have their sons and daughters, their brothers and sisters, the mothers and fathers of young Americans in school serving overseas in Iraq today, putting their lives in jeopardy every day and, yes, losing their loved ones every day. And you can bet that for those families that are affected by that, that is one of the most important issues to them.

Mr. ELLISON. Congressman, if you would yield back for a moment, I would like to ask you again; in the course of your work, you're walking around Colorado, you're walking around your district, you're talking to folks, did you talk to any American families who had loved ones who were stop-loss, who are now on their second, third, fourth deployment? Did you see anything like that as I yield back to you, Congressman?

Mr. POLIS. Absolutely. And not only does that divide families, does that compromise the ability of families to provide the kind of family life for their kids that they want to, to support themselves at the level that they want to, not only does it do that, but it divides these families, it compromises our competitiveness as a country, and it weakens our national defense to have men and women serving who would, in many cases, rather be almost anywhere else.

Mr. ELLISON. Congressman, if you would yield back, I can tell you that as a Member of Congress myself—now I'm a sophomore Member, and you and I are closer to not being Congressmen and being long-term veterans—my heart always breaks a little bit when-

ever I talk to a spouse who says my wife or husband is going to be leaving here for a year or 18 months, or how about the situation where a woman walks up and says, see this baby who is 9 months old? She never met her daddy. Is this the kind of thing that you saw while you were on the campaign trail?

Mr. POLIS. I saw many families across our district that were directly affected by this. And as you know, with that duration of service—well beyond what many of our men and women thought they were signing up for—the psychological toll when they return is terrible. To serve under those conditions for several years in a row, continually being re-upped, that becomes your reality, the existence in that war zone. It is very hard, when you finally do return, to rejoin this reality we have here in this country.

Mr. ELLISON. Congressman, as you have done your work, you're fresh off the campaign trail, I wonder, did you ever have any occasion to talk to family members who said, you know, my son came back, but he's kind of different than he was when he left; he used to have a smile, he used to have a joke for everybody, and now it seems like the weight of the world is on this 22-year-old guy, now it seems like my daughter can't find her smile again?

In my great State of Minnesota, we had a young person who sought mental health care, and there wasn't enough room and they couldn't get in right away. And before this person could come back, they took their own life because they couldn't get the helicopters out of their head, they couldn't get the horror, they couldn't get these kind of images out of their mind, and yet, we've learned that suicide is a serious issue for our fighting men and women, particularly in connection with Iraq.

Have you encountered these kind of medical challenges that our veterans are facing in connection with this war?

Mr. POLIS. I have held hands with veterans and their families and borne witness to the tremendous stresses. It is a difficult topic for any of us to talk about without getting emotional. These are men and women who have served our country proudly. We need to make sure that we have the right mental and physical health support services when they return, but most importantly, to bring them out of harm's way.

It is hard to adjust. I talk to many who are living at home, who are depressed, who are living in a basement. They had their whole lives ahead of them, have had to serve several years overseas, have become part of that reality of seeing the cost of war, their co-workers and people in their unit blown up in front of their eyes, sometimes receiving physical injuries, sometimes only mental injuries, but turning back, having a very difficult time reintegrating and getting back to work.

Mr. ELLISON. Congressman, let me tell you, tomorrow marks the beginning of the seventh year of the war in Iraq. Throughout that time, we have lost more than 4,000 of America's bravest men and women. The number, to date, that I have is 4,259, but of course the way this war has been going, it could be 4,260 or 4,270.

We have spent over \$600 billion, with long-term cost projections in the trillions, and we have seen Iraqi civilian casualties estimated at the hundreds of thousands. We know that there are over 30,000 Americans who have been injured. And of course the numbers of deaths are easy to count, but the injuries are more difficult because not all the injuries are manifested in terms of a limb or a scar; but of course we've seen those, too. Let me tell you, if you go to Landstuhl Air Force Base, the hospital there in Germany, you see bright-eyed, young people who have suffered catastrophic injuries, and of course we've seen them back home.

We all know, Congressman, that the purported reasons for going to Iraq—you remember what they are. Would you care to tick off a few of the reasons you and I were told, as Americans, that we needed to go into Iraq? Do you remember what some of those reasons were back almost 6 years ago, Congressman?

Mr. POLIS. We were misinformed and led to believe there were weapons of mass destruction in Iraq.

Mr. ELLISON. Weapons of mass destruction. And all we have been found with, Congressman, is weapons of mass distraction, as we have been given misinformation, disinformation due to a combination of political pressure, cherry-picking effects, and poor intelligence. All these assertions ended up being wrong, wrong, wrong and dramatically undermined American credibility around the world.

Congressman, you also would probably have to agree with me that this war has had a corrosive effect on our standing in the world. Whether you're talking about Abu Ghraib, whether you're talking about Bagram, whether you're talking about—whatever you're talking about, our country, which is known as a beacon of civil and human rights, as the rule of law prevails in America, we have seen this conflict sort of eat at what we stand for. I wonder, are these things that you've encountered as you were out there on the campaign trail and as you have been a Member of this body for the last several weeks?

Mr. POLIS. There is great frustration that this war continues to compromise our very important war on terror. One of the most important fronts on the war on terror is the diplomatic front. This war has undermined our ability to engage other nations on the diplomatic front and continues to this day.

Mr. ELLISON. Well, yielding back, Congressman, you and I also know that

you are right when you say one of the purported reasons was weapons of mass destruction, which you and I learned was not true. We also know that we were told—we went through sort of this link that was sort of made between Saddam Hussein and al Qaeda. What have we learned? The bipartisan—bipartisan, that's Republicans and Democrats—9/11 Commission found that there was "no operational relationship between Iraq and al Qaeda." Claims that 9/11 hijacker Muhammad Atta met with Iraqi agents in Prague turned out to be false. Do remember that one, Congressman?

Mr. POLIS. I remember those insinuations that were made by the administration at the time. Many people were led to believe that somehow, in some way, shape or form, Iraq and Saddam Hussein were aligned with al Qaeda, and it couldn't have been further from the truth.

Mr. ELLISON. Well, Congressman, as you yield back, we were told weapons of mass destruction, links with Saddam Hussein and al Qaeda. And some people said, well, at least Saddam Hussein is gone—and of course we're glad he is gone, but it almost seems like, when the argument was made, that folks acted like it was a cost-free endeavor, that he was just gone and we didn't have to pay dearly as a Nation for it.

But one of the questions that I want to also direct to you, Congressman, is, \$8 billion in reconstruction funding disappeared under the Bush administration's watch. According to Iraq's Public Integrity Commission, roughly \$8 billion in the country's reconstruction funds were "wasted or stolen" between 2007 and the beginning of the invasion. How does that strike you?

When you think about waste, fraud, and abuse, you might have heard that story about that billion dollars in bills sitting on a wooden pallet. How does that strike you? How does that strike your constituents?

Mr. POLIS. You know, our colleagues today from the other side were here holding forth about accountability for this \$160 million, where did this \$160 million go? Who knew and when? And those are questions that we need to answer, but let me say that that pales—\$160 million wrongfully paid to AIG executives, \$8 billion unaccounted for, where is the outrage and where is the investigation?

Mr. ELLISON. Well, Congressman, I think that is a question that we all need to ponder. But Halliburton, after receiving no-bid reconstruction contracts from the Bush White House, wasted hundreds of millions of taxpayer dollars. A 2005 report by Senator BYRON DORGAN and Congressman HENRY WAXMAN cited internal Pentagon audits that question "more than a billion dollars in the company's bills for work in Iraq."

It just boggles the mind. If the American taxpayer, in their generosity, says

let's get water going in Baghdad, let's get electricity going in Baghdad, at least if we spent the money, the people there ought to get it; wouldn't you say so, Congressman?

Mr. POLIS. Absolutely.

Mr. ELLISON. And there have been other costs, those that are less easy to quantify, such as the cost to America's image, which you spoke of very well, Congressman POLIS. And though it is difficult to assign numbers, we know the view of our great Nation has suffered—although I'm happy to report we're on the mend now—and the cost is just really very difficult to calculate.

Let me just remind folks that this is the Progressive message. We are talking about the anniversary of the Iraq war, we are talking about what's going on. We are the Progressive Caucus, and we're talking about a vision of peace and a vision of a progressive message in our country.

I want to get to this panel in our slides, Congressman. And I want to say, after 6 years of the Iraq war, here is sort of the cost that I just alluded to. Here is what we've had to pay. Here are some of the hits—flush with cites on the bottom of each one because we're not just up here talking, we back up what we say at the Progressive message. U.S. troops killed in Iraq, 4,259 as of today.

Mr. POLIS. Each one with a family.

Mr. ELLISON. Each one with a family, each one with a story, each one with a future, each one with a patriotic passion for their Nation, each one who wanted to come home. And each one didn't have to ever go to Iraq because the premise for our involvement was, as you and I just mentioned, those reasons were discovered to not be accurate, the weapons of mass destruction and Saddam Hussein in connection with al Qaeda.

U.S. troops wounded in Iraq, 31,102. And again, these are traumatic brain injuries, these are lost limbs, these are severe injuries—some will heal, some are injuries for a lifetime, as you know, Congressman. And I will yield if you want to comment on any of these. Iraqi civilians killed in the war, about 150,000; that's according to the World Health Organization. Please look it up yourself if you have any questions about that number. And you would have to imagine, in a country of about 29 million people, that there is no Iraqi family that has not seen death and destruction, and this has to be extremely traumatizing.

□ 1730

Iraqi civilians forced from their homes, according to the United Nations High Commissioner for Refugees, about 4.7 million persons who have been homeless as a result of this conflict. That's a big deal. U.S. troops deployed in Iraq, right now we have got about 138,000 people there and, again, a

conflict that, according to the reasons offered to us by the Bush administration, not one should have been there based on the reasons they offered to us.

Impact of war on the U.S. economy, \$1.3 trillion. That's the Congressional Joint Economic Committee Report. I hope folks who might be seeing this, Mr. Speaker, will be willing to look at the Congressional Joint Economic Committee Report, which will cite the impact of this war on our economy as \$1.3 trillion. That's a lot of money. That's a whole lot of money.

Cost of the Iraq War to the average American family, according again to the Congressional Joint Economic Committee Report, that's about \$16,500 per American family. We have paid dearly, too dearly for our involvement in this conflict. And in my view, Mr. Speaker, the cost of even one life is too dear, even \$1 is too dear, but we have made much, much more than that.

Mr. POLIS. Will the gentleman yield?

Mr. ELLISON. Yes, sir.

Mr. POLIS. At top of the chart, it says after 6 years of war in Iraq. I ask you how many more anniversaries must we observe? Is five enough? Is six enough? We have been in this war longer than our Nation was involved in World War II. After 6 years how many more? There was a young boy 12 years old playing video games when this war started who is serving and being injured in Iraq today. How many more years, Mr. ELLISON?

Mr. ELLISON. Congressman, I have just got to tell you that 1 more minute is too much. Our President has said that 16 months is our out date, and I think it's incumbent upon all of us to make sure that it is that or less because, quite frankly, I don't look forward to coming up here another year from now saying that we're still present in Iraq in the way that we are now. We need to out of there. We need to wind our way out. Iraq needs to go back to the people of Iraq. Iraqis need to get ahold of their country and govern their own affairs.

Sometimes we talk about the Iraq War and even here I've used the word "war," but really at this point we are not talking about a war. We are talking about an occupation. And when I say that, I don't mean that in any sort of a derisive way. It's the legal word that is appropriate for this situation. In a war you can win or lose, but in an occupation you can only stay longer than you should or you can leave sooner than you should, but eventually you've got to go; right? So with this America involvement in Iraq, it is time to say to the Iraqi people, "This is your country. We will not abandon you. We will not leave you because, of course, we're deeply implicated in your country at this time, but the reality is the military engagement needs to come to a close."

Let me ask you this, Congressman POLIS: When you think about this statistic, Iraqi civilians forced from their homes and the number of about 4.7 million, how does that strike you when you consider Iraqi boys and girls who used to live one place but now can't because of this military conflict? How does that impact their development? How does that impact their ability to grow up to be strong citizens of the world in, say, 5, 10, 15 years?

Mr. POLIS. As you know, Mr. ELLISON, close to a million of them have been forced from their country and reside in Jordan, reside in Syria, reside in Lebanon in everything ranging from refugee camps to short-term rental housing. It has been an issue in the greater Amman area, do we let them in the school with our Jordanian kids? They're out of school for a while. Sometimes they're in; sometimes they're out. It's spotty. Many of them might never be able to go back. The areas they lived in might be controlled by competing tribes, their houses taken over, forced away at gunpoint.

This dislocation is historical in scope. We are talking about a sizable amount of people within Iraq who have been displaced, some to other countries, some to other parts of Iraq.

Mr. ELLISON. Well, Congressman, I just want to point out to you and to everyone watching, Mr. Speaker, that when one child is forced from their home or one adult, for that matter—a home is like a bowl. Can you imagine making a cake without a bowl? Where are you going to put the eggs? Where are you going to put the milk? Where are you going to put all the ingredients for that cake so that you can make that cake and put it in the oven? Try to imagine raising a family. You don't know where you're going to be. You don't know where your school is going to be. No familiar places. You're a stranger everywhere. This kind of displacement has an impact on a child's ability to learn, a child's ability to embrace the environment that they're in. The child begins to sense that maybe their parents can't really protect them, that maybe they're vulnerable and perhaps that anything could happen to them at any time.

This does not bode well for the future. We're talking about a region of the world that has known way too much conflict, and this conflict is one that we surely need to end. And this idea of displacement, I think, is another thing that we need to talk about in terms of the impact on the development of this society as we talk in this Progressive message this hour and the anniversary of the war in Iraq.

Congressman, let's turn for a moment, then, to veterans' care, if you will. We must begin to take seriously the promise to care for our veterans. Our veterans, prominent men and women, you have them in Colorado and

I've got them in Minnesota. Actually, they are from all over this country. And the fact is with tens of thousands of injured troops returning home, we must work diligently to ensure that they do not fall through the cracks and that every soldier receives care and benefits that they have earned and deserve.

During the 110th Congress, when I was a freshman Member, I was proud to have voted for the largest increase in funding for Veterans Affairs in history, upon passage of H.R. 2642, the Fiscal Year 2008 Military Construction, Veterans Affairs and Related Agencies appropriations bill. We made a real commitment to military hospital construction, improving the quality of care for veterans, improving the lives of veterans, making sure that we shorten the period of time and that their veterans' benefits got to them in a quick way. We not only talked patriotism, we did patriotism as we passed this largest Veterans Affairs funding bill in the history of our country.

In the fall of 2007, I worked closely with the Minnesota congressional delegation to ensure that members of the Minnesota National Guard Unit, the 1/34th Brigade Combat Team receive their full active component GI Bill entitlements. That particular unit, that particular brigade combat team, returned to Minnesota after a 22-month mobilization and deployment to Iraq, the longest tour of any ground combat unit during Operation Iraqi Freedom. Unfortunately, members of the unit were informed after they returned home, Congressman and Mr. Speaker, that they were not eligible for their full GI benefits because their orders to return home cut them a few days short of the eligibility for these benefits. After my office was informed of this decision, I and Mr. TIM WALZ, my congressman and the highest-ranking enlisted Member ever to come to Congress, wrote a letter to the Department of Defense to appeal the decision. The Army responded positively, and most of the soldiers of this very brave, courageous, and successful combat unit were granted waivers to access those educational benefits.

And I just wanted to share that with you, Mr. Speaker and Congressman, because I think it's important that the world know that Members of Congress are fighting for their constituents who have served our country bravely.

And I just want to ask you, Congressman POLIS, if you have any thoughts you want to share with us about our veterans at this time and about our Nation's commitment to this group of Americans. Whether or not we agree on the war, we all agree that the warrior needs to be supported. Any comments as I yield to you?

Mr. POLIS. Thank you, Mr. ELLISON. We have some fortunate news for Colorado veterans. Yesterday morning several of my colleagues from the Colorado delegation and I met with Secretary Shinseki, and he announced that they are moving forward with a new VA hospital at Fitzsimmons to serve our veterans in Colorado. Due to the hard work of your classmate and our colleague Congressman PERLMUTTER and my predecessor who is now on the other side, Senator UDALL, who have for years fighting to improve it. And I have toured the old VA hospital in Colorado. And this new one is going to have a spinal trauma unit. It's going to be state of the art, and it's what we needed.

But there are too many places in our country, as you know, Mr. ELLISON, where veterans don't have the quality of health care that they have earned by serving our country so proudly.

Mr. ELLISON. Well, Congressman, I just want to congratulate you and all the delegation of Colorado on this wonderful news. I believe that Mr. Shinseki is one of the best Veterans Affairs Secretaries our country has ever seen, and I expect that we will be able to work closely with him to not only help the constituents of your great State but probably many others around our country.

I also just want to mention that I'm proud to have the Minneapolis VA hospital in my district, and Minneapolis VA is one of the facilities in our country that I feel very proud to be able to represent. The Minneapolis VA Medical Center has been awarded the 2008 Robert W. Carey Trophy Award for performance and excellence. If I sound like I'm a little proud of them, you're right, I am. The annual Carey Trophy Award, the most prestigious national quality award that the VA bestows, recognizes a VA organization that implements management approaches resulting in high levels of performance and service to our veterans. So I am just real happy to mention that. And I am proud, along with you, as we see veterans in Colorado, Minnesota, all over the country being able to benefit from a responsive Congress, a grateful Congress, for the great service that these brave men and women have given to our country.

Mr. POLIS. Will you yield for a moment?

Mr. ELLISON. Yes, sir.

Mr. POLIS. Let me also add how important it is that the rest of our agenda, the Recovery Act, health care have passed so that our returning veterans are returning to an economy that's growing, that has jobs, that has health care if they were not injured in combat. They deal with the very real issue of health care sometimes for the first time in their lives, if they've been in the military for some period of time right out of college or even before col-

lege, and the importance of the Recovery Act, creating over 3 million jobs, hopefully many of which will go to our returning veterans.

Mr. ELLISON. Congressman, great point. The fact is that our veterans are Americans, of course, some of the finest Americans. They come back to their country; they expect a country that's working. So they can come back and maybe get a green job that will help them build our country on the civilian side. They can help weatherize our neighborhoods. They can help build senior housing, low-income housing. They can do so many things our country needs and help build us a renewable future.

So I think you're absolutely right to introduce the broader economic context that we're in. One thing we don't want to see is to have these veterans who have given so much for so many come back to a country where we're not building, where we're not preparing for the future. So you're right. I'm glad you mentioned the American Economic Recovery and Reinvestment Act. I'm glad you mentioned our efforts to build a health care system that everyone can benefit from. I'm glad you mentioned these important things because, of course, veterans are folks who come into a broader context, and it's not only veterans' benefits that benefit veterans. It's a working, functioning America in which everybody has a slice of the pie.

So, Congressman, as we are wrapping up today, I just want to thank you again for being here with us this afternoon. The Progressive message has to always come week in, week out. Whether or not Members are on a Thursday night jumping on a plane trying to get back home or not, the Progressive message has to be part of what we do every week. And I just want to yield to you to sort of offer some final thoughts as we begin to wrap up our comments tonight.

Mr. POLIS. I would just say that let us hope that next year we are celebrating an anniversary of the end of the Iraq War and not the seventh anniversary of this unjust war in the wrong place.

Mr. ELLISON. Let me join with you in that hope and in that wish. I think I can speak for the members of the Progressive Caucus, Mr. Speaker, when I say that we will be working hard to make that dream a reality.

I also want to point out that there have been a great many Americans, I'm sure Minnesotans and I'm sure Coloradans as well, who have been calling for, working for, pushing for America to assert its soft power in the world and to help make peace in this world and be a source of peace in this world.

□ 1745

You can bet there is a committed group of Americans who are in the

United States Congress who are people who call themselves the Progressive Caucus, and you can find out what we are doing on this Web site, it's cpc.grijalva.house.gov. We are going to be here giving this progressive message every week, and we are the Progressive Caucus.

As I wrap it up, and I just want to thank you for joining me tonight, we are going to be here week in, week out, through rain, shine, winter, summer, talking about a progressive message, a progressive message for America, for the world.

Congressman POLIS, let me thank you again for joining me tonight.

I yield back.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mrs. NAPOLITANO (at the request of Mr. HOYER) for today on account of an event in district with the President.

Mr. CULBERSON (at the request of Mr. BOEHNER) for today on account of personal business.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Ms. LEE of California) to revise and extend their remarks and include extraneous material:)

Mr. REYES, for 5 minutes, today.

Mr. SPRATT, for 5 minutes, today.

Ms. WOOLSEY, for 5 minutes, today.

Ms. LEE of California, for 5 minutes, today.

Mr. DEFAZIO, for 5 minutes, today.

Mr. GRAYSON, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. COHEN, for 5 minutes, today.

Mr. SCHIFF, for 5 minutes, today.

(The following Members (at the request of Mr. MORAN of Kansas) to revise and extend their remarks and include extraneous material:)

Mr. POE of Texas, for 5 minutes, March 26.

Mr. JONES, for 5 minutes, March 26.

Mr. MORAN of Kansas, for 5 minutes, March 23, 24, 25 and 26.

Ms. FOXX, for 5 minutes, today.

Mr. GINGREY of Georgia, for 5 minutes, today.

Mr. BROWN of Georgia, for 5 minutes, today.

Mr. THOMPSON of Pennsylvania, for 5 minutes, today.

(The following Member (at her request) to revise and extend her remarks and include extraneous material:)

Mrs. BACHMANN, for 5 minutes, today.

ENROLLED BILL SIGNED

Lorraine C. Miller, Clerk of the House, reported and found truly enrolled a bill of the House of the following title, which was thereupon signed by the Speaker:

H.R. 1541. An act to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

BILL PRESENTED TO THE PRESIDENT

Lorraine C. Miller, Clerk of the House reports that on March 18, 2009 she presented to the President of the United States, for his approval, the following bill.

H.R. 1127. To extend certain immigration programs.

ADJOURNMENT

Mr. ELLISON. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 5 o'clock and 46 minutes p.m.), under its previous order, the House adjourned until Monday, March 23, 2009, at 12:30 p.m., for morning-hour debate.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

947. A letter from the Director, Department of Defense, transmitting the Department's nineteenth annual report for the Pentagon Renovation and Construction Program Office (PENREN), pursuant to 10 U.S.C. 2674; to the Committee on Armed Services.

948. A letter from the Deputy Under Secretary of Defense for Civilian Personnel Policy, Department of Defense, transmitting the Department's report on the need for and feasibility of a mental health scholarship program, pursuant to Section 1117 of the National Defense Authorization Act (NDAA); to the Committee on Armed Services.

949. A letter from the Chairman, Department of Defense, transmitting the Department's 2008 report on the Military Retirement Fund (MRF), pursuant to 10 U.S.C. 183; to the Committee on Armed Services.

950. A letter from the Assistant Secretary for Installations and Environment, Department of the Navy, transmitting notification of the Department's decision to conduct a streamlined A-76 competition of the administrative management and correspondence services function performed by six military personnel at Tinker Air Force Base, Oklahoma; to the Committee on Armed Services.

951. A letter from the Chair, Congressional Oversight Panel, transmitting the Panel's monthly report pursuant to Section 125(b) of the Emergency Economic Stabilization Act of 2008, Pub. L. 110-343; to the Committee on Financial Services.

952. A letter from the Principal Deputy Assistant Secretary Energy Efficiency and Renewable Energy, Department of Energy, transmitting the Department's report enti-

tled, "Implementation Report: Energy Conservation Standards Activities," pursuant to Section 141 of the Energy Policy Act of 2005; to the Committee on Energy and Commerce.

953. A letter from the Acting Assistant Secretary Legislative Affairs, Department of State, transmitting correspondence from Senate Secretary Emma Lirio-Reyes of the Republic of the Philippines; to the Committee on Foreign Affairs.

954. A letter from the Acting Assistant Secretary Legislative Affairs, Department of State, transmitting the Department's report on all data mining activities, pursuant to Section 804 of the Implementing Recommendations of the 9/11 Commission Act of 2007; to the Committee on Foreign Affairs.

955. A letter from the Secretary General, Inter-Parliamentary Union, transmitting proceedings of the Parliamentary Conference on the World Trade Organization, which was held jointly by the Inter-Parliamentary Union and the European Parliament in Geneva on September 11 through September 12, 2008; to the Committee on Foreign Affairs.

956. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

957. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

958. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

959. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

960. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

961. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

962. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

963. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

964. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

965. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

966. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

967. A letter from the Acting Associate General Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

968. A letter from the Deputy Executive Secretary, U.S. Agency for International Development, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

969. A letter from the Deputy Executive Secretary, U.S. Agency for International Development, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

970. A letter from the Acting Assistant Attorney General, Department of Justice, transmitting the Department's report detailing activities under the Civil Rights of Institutionalized Persons Act during Fiscal Year 2008, pursuant to 42 U.S.C. 1997f; to the Committee on the Judiciary.

971. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Security Zone; Great White Fleet, East Waterway, Seattle, Washington [Docket No.: USCG-2008-0410] (RIN: 1625-AA00) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

972. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; USNS Capella and USNS Pollux, Boston, MA. [Docket No.: USCG-2008-0409] (RIN: 1625-AA00) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

973. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; International Bayfest Boat Parade, Green Bay, WI. [Docket No.: USCG-2008-0481] (RIN: 1625-AA00) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

974. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Santa Cruz Beach Boardwalk Fireworks Display, Santa Cruz, CA. [Docket No.: USCG-2008-0522] (RIN: 1625-AA00) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

975. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Rochester Harborfest, Lake Ontario at the Genesee River, Rochester, NY. [USCG-2008-0489] (RIN: 1625-AA00) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

976. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Toyota/Sea Doo US Regional Championship, Salisbury, Massachusetts [Docket No.: USCG-

2008-0488] (RIN: 1625-AA00) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

977. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Security Zone; Columbia River, All Waters Within a 100-yard Radius Around the M/V MAERSK JEWEL [Docket No.: USCG-2008-0484] (RIN: 1625-AA00) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

978. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Firework Events; Great Lake Annual Firework Events [Docket No.: USCG-2008-0531] received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

979. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Regulated Navigation Area; Cape Fear River, Wilmington, North Carolina [USCG-2008-0468] (RIN: 1625-AA11) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

980. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Seattle Yacht Club's "Opening Day" Marine Parade [Docket No.: USCG-2008-0286] received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

981. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Drawbridge Operation Regulation; Upper Mississippi River, Dubuque, Iowa [USCG-2007-0172] (RIN: 1625-AA09) received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

982. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Drawbridge Operation Regulations; Long Island, New York Inland Waterway from East Rockaway Inlet to Shinnecock Canal, Nassau County, NY, maintenance [USCG-2008-0346] received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

983. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Drawbridge Operation Regulations; Sacramento River, Sacramento, CA, Event — Sacramento International Triathlon [Docket No.: USCG-2008-0317] received February 26, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

984. A letter from the Chief, Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Regulated Area; International Bay City River Roar, Saginaw River, Bay City, MI. EXTENSIONS OF REMARKS

IN SUPPORT OF A BILL TO INCLUDE VETERANS WHO PARTICIPATED IN THE CLEAN-UP OF ENIWETOK ATOLL AS A RADIATION-RISK ACTIVITY FOR THE PURPOSES OF LAWS ADMINISTERED BY THE SECRETARY OF VETERANS AFFAIRS

HON. MADELEINE Z. BORDALLO

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Ms. BORDALLO. Madam Speaker, today I have reintroduced a bill, along with my colleagues, Congressman NEIL ABERCROMBIE of Hawaii and Congressman ENI FALEOMAVAEGA of American Samoa, to amend Title 38 of the United States Code to explicitly define participation in clean-up operations that were undertaken by the United States Army at Eniwetok Atoll of the Republic of the Marshall Islands as a "radiation-risk activity" for the purposes of qualifying veterans who participated in such operations for service-connected benefits administered by the Department of Veterans Affairs. This bill would correct in statute a longstanding inequity for veterans who participated in clean-up of radioactive materials and debris on Eniwetok Atoll resulting from forty-three atmospheric nuclear detonations that occurred there and that were conducted by the United States Government during the late 1940s and throughout the 1950s. Servicemembers were detailed to Eniwetok Atoll during or around the years 1977 through 1982 to confine and cap contaminated soil. Part of the clean-up operations involved the construction of a concrete dome to cover a crater.

The legislation we have reintroduced today would simply allow veterans who participated in any clean-up activity on Eniwetok Atoll during their course of their service to be deemed eligible for Department of Veterans Affairs radiation programs. Such programs provide medical benefits to certain veterans who were exposed to radiation while on Active Duty. Veterans who are currently covered under radiation-risk activities include those who participated on-site in executing the atmospheric tests in the Pacific Basin.

We recognize and commend the atomic veterans who performed clean-up operations on Eniwetok Atoll and thank them for their service to our nation. I introduced the same legislation in the 110th Congress to correct this concern. I hope that our legislation will be given fair consideration by the Committee on Veterans' Affairs in the current Congress. I further hope the Department of Defense makes available to the public, to our veterans and their families, and to the Department of Veterans Affairs all recorded relating to the nature of the tests and clean-up activities that were undertaken on Eniwetok Atoll.

COMMEMORATION OF 20TH ANNIVERSARY OF THE VETERANS ADMINISTRATION BEING MADE A CABINET LEVEL DEPARTMENT

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. RANGEL. Madam Speaker, I rise today to commemorate the 20th anniversary of the establishment of the Veterans Administration as a Cabinet level Department. For some time members of many communities from across the nation have given their loved ones to defend our freedoms as Americans, yet when they returned there was nothing in place to aid them in their transition to civilian life. All of this changed twenty years ago when the Veterans Administration was officially elevated as a cabinet level agency and renamed as the Department of Veterans Affairs. The intrinsic value of having a department such as this has benefited our nation in innumerable ways and now more than ever we see its particular value.

Changes in battle and warfare tactics have caused evolving consequences. It is essential to have a Department that is especially equipped to handle the consequences of engagement in combat, especially the impact of grievous physical wounds. I am especially supportive of our Department of Veterans Affairs and even more pleased to have a person of character and sense of duty such as Eric Shinseki as the new Secretary of Veterans Affairs. The challenge of military personnel transitioning into civilian life becomes even more daunting especially during this period of economic downturn facing our nation. The Department of Veterans Affairs will have to be prepared now more than ever for the growth in the number of veterans needing our assistance to establish their lives once again.

I believe it is our duty as a nation to ensure the well-being of those who have so valiantly given of themselves to protect our nation and I commend the values that have been upheld by the Department of Veterans Affairs.

I introduce into the CONGRESSIONAL RECORD the remarks made by President Obama at the celebration of the 20th anniversary of the Department of Veterans Affairs as a Cabinet Agency on March 16, 2009.

THE WHITE HOUSE,
OFFICE OF THE PRESS SECRETARY,
Washington, DC, March 16, 2009.

REMARKS BY THE PRESIDENT AT THE 20TH ANNIVERSARY OF THE DEPARTMENT OF VETERANS AFFAIRS AS A CABINET AGENCY

DEPARTMENT OF VETERANS AFFAIRS,
WASHINGTON, D.C.

THE PRESIDENT: Thank you very much. To Jim Benson for helping to organize this; for Mahdee for your service to our country—a Pledge of Allegiance that you've shown in your own commitment to protecting this

country; and obviously, to Secretary Shinseki. It is an honor to join you and the hardworking public servants here at the Department of Veterans Affairs as we mark a milestone in the distinguished history of this department.

You know, 20 years ago, on the day the Veterans Administration was officially elevated to a Cabinet-level agency and renamed the Department of Veterans Affairs, a ceremony was held to swear in the administrator of the old entity as Secretary of the new one. And in his remarks that day, President George H.W. Bush declared that the mission of this agency is "so vital that there's only one place for the veterans of America: in the Cabinet Room, at the table with the President of the United States of America." I could not agree more.

I could not be more pleased that Eric Shinseki has taken a seat at that table. Throughout his long and distinguished career in the Army, Secretary Shinseki won the respect and admiration of our men and women in uniform because they've always been his highest priority—and he has clearly brought that same sense of duty and commitment to the work of serving our veterans.

As he knows, it's no small task. This department has more than a quarter of a million employees across America, and its services range from providing education and training benefits, health care and home loans, to tending those quiet places that remind us of the great debt we owe—and remind me of the heavy responsibility that I bear. It's a commitment that lasts from the day our veterans retire that uniform to the day that they are put to rest—and that continues on for their families.

Without this commitment, I might not be here today. After all, my grandfather enlisted after Pearl Harbor and went on to march in Patton's Army. My grandmother worked on a bomber assembly line while he was gone. My mother was born at Fort Leavenworth while he was away. When my grandfather returned, he went to college on the GI Bill; bought his first home with a loan from the FHA; moved his family west, all the way to Hawaii, where he and my grandmother helped to raise me.

And I think about my grandfather whenever I have the privilege of meeting the young men and women who serve in our military today. They are our best and brightest, and they're our bravest—enlisting in a time of war; enduring tour after tour of duty; serving with honor under the most difficult circumstances; and making sacrifices that many of us cannot begin to imagine. The same can be said of their families. As my wife, Michelle, has seen firsthand during visits to military bases across this country, we don't just deploy our troops in a time of war—we deploy their families, too.

So while the mission of this department is always vital, it is even more so during long and difficult conflicts like those that we're engaged in today. Because when the guns finally fall silent and the cameras are turned off and our troops return home, they deserve the same commitment from their government as my grandparents received.

Last month, I announced my strategy for ending the war in Iraq. And I made it very

clear that this strategy would not end with military plans and diplomatic agendas, but would endure through my commitment to upholding our sacred trust with every man and woman who has served this country. And the same holds true for our troops serving in Afghanistan.

The homecoming we face over the next year and a half will be the true test of this commitment: whether we will stand with our veterans as they face new challenges—physical, psychological and economic—here at home.

I intend to start that work by making good on my pledge to transform the Department of Veterans Affairs for the 21st century. That's an effort that, under Secretary Shinseki's leadership, all of you have already begun—conducting a thorough review of your operations all across this agency. And I intend to support this effort not just with words of encouragement, but with resources. That's why the budget I sent to Congress increases funding for this department by \$25 billion over the next five years.

With this budget, we don't just fully fund our VA health care program—we expand it to serve an additional 500,000 veterans by 2013; to provide better health care in more places; and to dramatically improve services related to mental health and injuries like Post-Traumatic Stress Disorder and Traumatic Brain Injury. We also invest in the technology to cut red tape and ease the transition from active duty. And we provide new help for homeless veterans, because those heroes have a home—it's the country they served, the United States of America. And until we reach a day when not a single veteran sleeps on our nation's streets, our work remains unfinished. (Applause.)

Finally, in this new century, it's time to heed the lesson of history, that our returning veterans can form the backbone of our middle class—by implementing a GI Bill for the 21st century. I know you're working hard under a tough deadline, but I am confident that we will be ready for August 1st. And that's how we'll show our servicemen and women that when you come home to America, America will be here for you. That's how we will ensure that those who have "borne the battle"—and their families—will have every chance to live out their dreams.

I've had the privilege of meeting so many of these heroes. Some of the most inspiring are those that I've met in places like Walter Reed—young men and women who've lost a limb or even their ability to take care of themselves, but who never lose the pride they feel for their country. And that is, after all, what led them to wear the uniform in the first place—their unwavering belief in the idea of America; that no matter where you come from, what you look like, who your parents are, this is a place where anything is possible, where anyone can make it, where we take care of each other and look out for each other—especially for those who've sacrificed so much for this country.

These are the ideals that generations of Americans have fought for and bled for and died for. These are the ideals at the core of your mission—a mission that dates back before our founding—one taken up by our first President years before he took office, back when he served as Commander-in-Chief of the Continental Army. Then-General Washington fought tirelessly to support the veterans of America's Revolutionary War. Such support, he argued, should "never be considered as a pension or gratuity . . ." Rather, ". . . it was the price of their blood," and of our independence; ". . . it is, therefore," he

said, "more than a common debt, it is a debt of honor . . ." A debt of honor.

Washington understood that caring for our veterans was more than just a way of thanking them for their service. He recognized the obligation is deeper than that—that when our fellow citizens commit themselves to shed blood for us, that binds our fates with theirs in a way that nothing else can. And in the end, caring for those who have given their fullest measure of devotion to us—and for their families—is a matter of honor—as a nation and as a people.

That's a responsibility you hold, that's the work that you do—repaying that debt of honor, a debt we can never fully discharge. And I know it's not always easy. I know there's much work ahead to transform this agency for the 21st century. But I have the fullest confidence that with Secretary Shinseki's leadership, and with the hard work of the men and women of this department, we will fulfill our sacred trust and serve our returning heroes as well as they've served us.

Thank you. God bless you, and may God bless the United States of America. Thank you, everybody.

HONORING THE MEMORY OF MILDRED JUANITA NETTLES COOK

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. BONNER. Madam Speaker, Wilcox County recently lost a dear friend, and I rise today to honor Mildred Juanita Nettles Cook and pay tribute to her memory.

A lifelong resident of Arlington, Mrs. Cook graduated from Wilcox County High School and, in 1940, she graduated with honors from Alabama State College for Women in Montevallo.

Mrs. Cook was also a lifelong member of the Arlington United Methodist Church, where she served as treasurer and Sunday school superintendent for many years. She was also a member of the United Methodist Women and the Friday Afternoon Club. She was a member of Alabama Charter Chapter #36 United Daughters of the Confederacy and the Lt. Joseph M. Wilcox Chapter of the Daughters of the American Revolution. She served as president of both the Alabama Division and the General Division of the UDC and was known and respected throughout the nation for her leadership in both the Daughters of the Confederacy and the Daughters of the American Revolution.

Mrs. Cook was a charter director of the Town-Country National Bank in Camden. She also served as treasurer of the Arlington Methodist Community and Cemetery Foundation.

Madam Speaker, I ask my colleagues to join me in remembering a dedicated community leader and friend to many throughout south Alabama. "Miss Mildred" will be dearly missed by her family—her sons, Daniel Bragg Cook Jr. and his wife Angela, Samuel McPherson Cook and his wife Claudia, and Abe Crum Cook III and his wife Helen; her grandchildren, Jennifer Mildred Cook Nice, Richard Daniel Cook, Samuel McPherson Cook Jr., John Roan Cook, Claudina Pereira, Marian Denisse

Cook, Abe Crum Cook IV, Braxton Dauphin Cook, and Kathryn Elizabeth Cook; her great-grandchildren, Leina Tsou Cook, Anara Tsou Cook, and Samuel Rikard Cook; and many nieces, nephews, and cousins—as well as the countless friends she leaves behind.

Our thoughts and prayers are with them all during this difficult time.

A TRIBUTE TO JOYLENE WAGNER

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Mrs. Joylene Wagner of Glendale, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our nation's women. Accordingly it is my privilege to highlight Mrs. Wagner as a woman whose extraordinary efforts are vital to my district.

Born and raised in Monrovia, California, Joylene graduated in 1976 from University of California, Santa Cruz with a degree in Western Civilization and continued on to the University of San Diego's Legal Assistant program. During her five years working as a litigation paralegal in San Diego and later in Los Angeles, she served on the founding board of the San Diego Association of Legal Assistants and in the La Jolla University/Community Chorus and Orchestra Association.

Joylene and her husband Robert moved to Glendale in 1981, where they both became active in the Adams Hill Homeowners Association. They are very proud of their 3 children, who all attended Glendale schools. Their daughter Meg now teaches children with autism in Fairfax County, Virginia, son Will serves on the staff of Senator ARLEN SPECTER, and son Nick will graduate from Glendale High School this year.

Since 1985, in addition to singing in the First United Methodist Church choir, Joylene has split her time between volunteering in the schools and community and working part-time teaching children's choral music either at church, in Glendale elementary schools, or at the Los Angeles Children's Chorus. Her community involvement has included serving on the boards of Glendale Healthy Kids, Verdugo Workforce Investment, Los Angeles County School Trustees Association, and the League of Women Voters, as well as on the Glendale Arts and Culture Commission.

Before her election to the Glendale Unified School District Board of Education in 2005, Joylene worked locally as a substitute teacher and completed graduate work in education. She has since served as the Board's President, working to find ways to enrich and increase student learning through arts instruction and career-technical education opportunities. In the face of drastic state funding cuts and in an effort to ensure budgetary support for educational priorities, Joylene has facilitated creative, courageous, and cooperative community conversations about what is most essential for student success.

Joylene's steadfast dedication and selfless service are an invaluable addition to the legacy of Women's History Month. With gratitude

and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of California's 29th Congressional District, Mrs. Joylene Wagner.

PERSONAL EXPLANATION

HON. NEIL ABERCROMBIE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. ABERCROMBIE. Madam Speaker, I regret that I missed rollcall vote No. 107 through 115. Had I been present, I would have voted "aye" on rollcall votes 107 and 109 through 115. I would have voted "no" on rollcall vote 108.

INTRODUCTION OF THE UNIVERSAL RIGHT TO VOTE BY MAIL ACT

HON. SUSAN A. DAVIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mrs. DAVIS of California. Madam Speaker, I rise today to introduce the Universal Right to Vote by Mail Act of 2009—a bill to allow any eligible voter to vote by mail in a federal election if he or she chooses to do so.

In my home state of California, voters already have this right. California is one of the twenty-eight states that already provide this convenient alternative to voters.

While I love the ritual of going to the polls to vote, I know that getting to the polls on Election Day is often difficult. For some, it's impossible.

That is why I have introduced a bill that builds upon the growing trend of states to bring the polls to the voters. I believe we should try to meet our constituents halfway by increasing access to the electoral process.

What I am proposing is not new or even untested. States ranging from my home state of California, to Wisconsin, to North Carolina, to Maine have already adopted this voter-friendly policy.

With mail voting, citizens can vote from the convenience of their own homes. They will have more time to mull over their choices and make informed decisions, and they will be able to do so on their own terms.

Not surprisingly, studies have shown that some of the biggest supporters of voting by mail are parents, who must schedule time to go to the polls around so many other obligations.

Studies have also indicated that adding the option to vote by mail does not create a partisan advantage for one political party over the other.

Republicans and Democrats both benefit from similar increases in voter turnout when voters are given the choice to mail in their ballots.

In fact, overwhelming support for voting by mail is consistent across nearly every demographic—including age, income level, race, education, employment status and ideology. It is a win-win for all Americans.

After adopting a universal right to vote by mail system in 1978, California saw a thirty percent increase in the use of mail-in ballots.

Other states that have implemented this policy have seen the same degree of support from voters, which is why it is hardly surprising that States offering the option of mail-in ballots often experience greater voter participation.

There is also an extremely low incidence of fraud with voting by mail when compared to other methods of voting.

As the former President of the League of Women Voters of San Diego, I care deeply about the integrity of our electoral system.

Twenty-eight states have already proven this option works, and it is safe. It is time to give voters in the remaining states this convenient, secure and affordable alternative.

While I am proud to be from a state where citizens already have this right, I believe democracy works best when all citizens have an equal opportunity to have their voices heard.

Right now, an uneven playing field exists between states that already offer the option of mail-in ballots and states that do not.

When the same election is more accessible to voters in California than it is to voters in other states, the system is unfair.

States that fail to offer this choice stand to compromise their leverage in federal elections by curbing the greatest level of voter participation.

We should follow the lead of over half of our nation's states and ensure a uniformity of rights for all voters.

I ask my colleagues on both sides of the aisle to join me in supporting this effort to strengthen the democratic process and give American voters the choices they deserve.

PERSONAL EXPLANATION

HON. ADAM H. PUTNAM

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. PUTNAM. Madam Speaker, on Monday, March 16, 2009, and Tuesday, March 17, 2009, I was not present for 6 recorded votes. Had I been present, I would have voted the following way: Roll No. 125, yea; Roll No. 126, yea; Roll No. 127, yea; Roll No. 128, yea; Roll No. 129, yea; Roll No. 130, yea.

HONORING DAVID S. GALLATIN, CHIEF EXECUTIVE OFFICER OF EXCELA HEALTH

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. MURTHA. Madam Speaker, I rise today to pay tribute to David S. Gallatin, Chief Executive Officer of Excelsa Health. I would like at this time to draw attention to some of his accomplishments and contributions to our health system and the community of Westmoreland County, Pennsylvania.

David S. Gallatin has long been associated with Excelsa Health and its predecessors,

Westmoreland Health System and Westmoreland Hospital. He served, in a voluntary capacity, on the Board of Trustees from 1982 through 2004. During his time on the Board, he was a member of the Executive Committee (1985 to 2004); served as a member of the Finance Committee (1990 to 2004); filled the role of Vice Chairman (1994 to 1999), was named Chairman from 1999 to 2004.

In January 2003, the Westmoreland Health System Board of Trustees voted unanimously to name David S. Gallatin as its Chief Executive Officer, after having served as Interim Chief Executive Officer, while continuing his role as Board of Trustees Chairman until his term expired June 30, 2004.

David S. Gallatin, cited for his leadership skills and vision, helped devise and implement a turnaround plan for the health system, one that resulted in meaningful growth, capital strength, physician recruitment, and retention of a professional work force. He championed the acquisition of the latest clinical technologies, thereby advancing the quality of care for the residents of Westmoreland County and beyond. Further, he, among others, spearheaded the successful merger of Westmoreland Health System with Latrobe Area Hospital, and later, Mercy Jeannette Hospital, creating and expanding the county's largest and only health care provider, Excelsa Health. His vision of a distributed delivery model assures local access to advanced health care, which is evident in Excelsa Health's Centers for Excellence, state of the art Emergency Departments and nationally recognized Stroke Prevention programs.

Therefore, I join in commending David S. Gallatin for his history of hard work and service to our health system and the communities it serves.

RECOGNIZING NAACP MID-MANHATTAN BRANCH'S SALUTE TO NAACP WOMEN OF EXCELLENCE

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. RANGEL. Madam Speaker, today I rise to ask my colleagues to join me in recognizing NAACP Mid-Manhattan Branch of the Metropolitan Council of NAACP Branches as they pay tribute to the everlasting accomplishments and contributions of the NAACP Women of Excellence in celebration of Women's History Month and the Centennial Anniversary of the National Association for the Advancement of Colored People.

NAACP Mid-Manhattan Branch honors the Honorable Hazel N. Dukes, President of the New York State Conference of NAACP Branches; the Honorable Mildred Roxborough of the NAACP National Development Department; the Honorable Laura D. Blackburne, Counsel for the New York State Conference of NAACP Branches & NAACP Special Contribution Fund; the Honorable Paula Brown Edmé of the NAACP National Development Department; the Honorable Gloria Benfield, Membership Chair for New York State Conference of NAACP Branches; and the Honorable Shirley

Stewart Farmer, Co-Founder of the NAACP Mid-Manhattan Branch. As a Life Member of the National Association for the Advancement of Colored People, I am proud to join Mid-Manhattan Branch in saluting these NAACP Women of Excellence.

Founded in 1909, the NAACP is the nation's oldest and largest civil rights organization. Its members throughout the United States and the world are the premiere advocates for civil rights in their communities, conducting voter mobilization and monitoring equal opportunity in the public and private sectors. The Mid-Manhattan Branch recently celebrated its 40th Anniversary since its founding in 1966.

In the mid 1960s a group of citizens, concerned that there was no NAACP Branch in the Mid-Manhattan area, met for several months to plan a branch. Over 500 letters co-signed by Roy Wilkins and Ralph Bunche, invited hopefully interested residents to a meeting at Freedom House (120 Wall Street, New York, NY).

For forty years, the Mid-Manhattan Branch has been an advocate for all its citizens in the struggle for civil rights and equality. Today, the Branch plays an active role in confronting the gaps and disparities in healthcare, economics, education funding, Criminal Justice, diversity in the Courts and in the Judiciary.

Their efforts continue in voter education, registration and mobilization, as well as youth development and enrichment programs. Today, the Mid-Manhattan Branch has over 600 members, with eight working Committees (Education, Health, Fundraising, Legal Redress, Membership, Civic Engagement, Veteran Affairs, and Youth Council).

A TRIBUTE TO DR. SONYA
MKRYAN

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Dr. Sonya Mkryan of Altadena, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our nation's women. Accordingly it is my privilege to highlight Dr. Mkryan as a woman whose extraordinary efforts are vital to my district.

Sonya was born in Sanjak, the French mandate of Syria, and emigrated at age ten to Soviet Armenia with her parents and three siblings. By the time she travelled from Armenia to the United States with her husband and three children in 1979, she had obtained a PhD in Technical Studies and worked for two decades as a scientist and researcher at the Armenian Academy of Sciences. Her first job in America was as a mechanical inspector for Robertshaw Industrial Products.

As an educator and geophysicist, Sonya has taught in the Pasadena Unified School District as a professor of physics at Polytechnic Institute. For the past twenty-three years she has contributed her knowledge and experience to the County of Los Angeles' Department of Public Social Services in hopes of serving society for the better.

A woman of multiple talents, Sonya is also an artist and a writer. Over the last twenty years she has held several solo shows and has actively participated in many group exhibitions. Aside from scientific articles published in the Russian, she has published six books of poetry and short stories: five in Armenian and the sixth in English. She is a member of the Armenian Writers Union of California and is an honorable member of the International Society of Poets.

Sonya's life story is a testament to the brilliant potential of this nation's women and her steadfast dedication and selfless service are an invaluable addition to the legacy of Women's History Month. With gratitude and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of California's 29th Congressional District, Dr. Sonya Mkryan.

CONGRESSIONAL TRIBUTE
HONORING FAY SINKIN

HON. CHARLES A. GONZALEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

MR. GONZALEZ. Madam Speaker, on March 4, 2009, the world was bereft of a powerhouse environmentalist when Fay Sinkin passed away at the age of 90. Born in New York City, Fay came to San Antonio 66 years ago after marrying Bill Sinkin after he proposed on their first, blind date. Fay quickly made San Antonio her home, and the residents of the city will be forever grateful.

She joined the San Antonio Chapter of the League of Women Voters, serving as its president for several years, and was a tireless fighter for the equality of women and minorities. She was one of the first women in the city to sit on a jury, and she fought the mayor and the city council to improve the living conditions for San Antonio's Blacks and Hispanics.

The protection of the Edwards Aquifer would become her life's work. When Fay heard of the proposal to build a massive development which threatened the city's water supply, she took action. With her allies in the Edwards Aquifer Preservation Trust, she enlisted the assistance of the city's congressman, Henry B. Gonzalez, and set forth to protect her fellow citizens. The Government Canyon State Natural Area now stands where some saw only a chance at quick profit. The growth of San Antonio and the health of its citizens would not have been possible without the work of Fay Sinkin.

Fay and Bill Sinkin continued to work to improve the lives of San Antonians, Texans, and the entire country until the end of her days. Just this past January, she recalled the myriad changes she had seen over six decades in the city, the improvements no one could have imagined when she first arrived, looked out over a land so different from any she had known and declared herself home.

San Antonio was Fay Sinkin's home for 66 years. The City feels a little emptier now, but we have all lived richer, better lives because of the life of Fay Sinkin. Her life may have

ended, but her contributions will live on and generations shall enjoy the fruits of her labor.

PERSONAL EXPLANATION

HON. BOB ETHERIDGE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. ETHERIDGE. Madam Speaker, due to an illness in my family, I was unable to be in attendance on the floor of the House on March 12, 2009, and unable to record my vote on H.R. 1262.

Had I been able to cast my vote on this bill I would have voted in strong support of the Water Quality Investment Act of 2009. H.R. 1262 is a comprehensive bill that will result in a total investment in our nation's water infrastructure of \$18.7 billion over five years, this legislation will fund the Clean Water State Revolving Fund, and provide \$13.8 billion in Federal grants over five years to the Clean Water SRF to provide low-interest loans to communities for wastewater infrastructure.

Our nation's wastewater infrastructure is deteriorating and in dire need of repair. In many regions of the country, sewer systems and water infrastructure facilities were built in a different era and for much smaller populations. Many water systems have reached the end of their useful life or have been completely overwhelmed from increased use. H.R. 1262 goes a long way towards renewing the federal commitment to addressing our nation's substantial needs for water infrastructure to ensure that communities across the country have safe drinking water and effective wastewater treatment facilities.

I am pleased that this legislation has passed the House and I only regret that I was not able to be present to cast my vote in support. In addition to voting "yes" on Rollcall No. 123, I would have voted "no" on Rollcall No. 122, against the Mack Amendment to the bill, which would have removed prevailing wage provisions from the bill. I also would have voted "yes" on Rollcall No. 124, H. Res. 224, supporting the designation of March 14, 2009 as Pi Day.

PUBLIC LANDS SERVICE CORPS
ACT OF 2009

HON. RAÚL M. GRIJALVA

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. GRIJALVA. Madam Speaker, today I am introducing the Public Lands Service Corps Act to expand an already successful program that employs and trains thousands of young people and helps repair and restore our public lands. I am delighted that my colleague, House Natural Resources Committee Chairman NICK RAHALL, has agreed to join me as an original cosponsor of this important bill.

In 1993, when the Public Lands Corps was established through the good work of our late colleague Bruce Vento of Minnesota, there were huge backlogs in labor-intensive work

needed on national park lands, forests, wildlife refuges, historic sites and Indian lands.

Today, we still face those challenges and more: years of inadequate funding have put these agencies further behind on vital maintenance work while infrastructure continues to crumble. Despite the best efforts of our underfunded agencies, natural and cultural resources have been neglected, and in many places the effects of climate change are magnifying earlier problems such as fire risk, damage by insects and invasive species and fragmented habitat.

We have started to attack this problem with the recently passed stimulus legislation, but that is only a start. Much remains to be done on public lands.

The Public Lands Corps is built on a long and proud tradition of conservation service on Federal lands that extends back to President Franklin D. Roosevelt and the Civilian Conservation Corps. That peace-time army, numbering some 3 million young Americans, planted trees, fought fires, maintained trails and built shelters across our nation. The Youth Conservation Corps has given hundreds of thousands of young people valuable skills and experience while undertaking valuable conservation work.

In fiscal year 2008 alone, over 4,000 young people spent countless hours on 289 projects at 111 national park units mending trails, cleaning up campgrounds, controlling erosion, restoring habitat, and other projects to repair and restore park lands, facilities and resources. That was in national parks alone; imagine what we could accomplish if more federal agencies harnessed that pool of talent and enthusiasm for the benefit of our public lands, waters, and coastal and marine systems.

My bill will amend the Public Lands Corps Act of 1993 to expand the authority of the Interior and Agriculture Departments (including such agencies as the National Park Service, the Bureau of Land Management and the U.S. Fish and Wildlife Service, the U.S. Forest Service and the National Oceanic and Atmospheric Administration) to provide service-learning opportunities on public lands; help restore the nation's natural, cultural, historic, archaeological, recreational and scenic resources; train a new generation of public land managers and enthusiasts; and promote the value of public service.

Additionally, the bill adds authority for the National Oceanic and Atmospheric Administration to participate in the program. NOAA, an agency of the Commerce Department, manages the National Marine Sanctuaries System, and with this new authority will be able to offer Corps members a chance to work in restoring coastal and marine systems along our oceans and the Great Lakes.

The bill will reinvigorate the Public Lands Corps programs by modernizing the scope of Corps projects to reflect new challenges, such as climate change; and adding incentives to attract new participants, especially from underrepresented populations.

The legislation will ensure that, during their service term, participants receive adequate training for the work they have been assigned, including agency-specific standards, principles and practices. Language to ensure adequate

housing, authorize participants in existing volunteer programs to contribute both as mentors and on Corps projects, expand the program for college and graduate students, and broaden preferential hire provisions is also included.

The bill would rename the corps as the Public Lands Service Corps, and remove the \$12 million authorization ceiling, paving the way for increased funding for this excellent program.

Madam Speaker, I am pleased that President Obama and Interior Secretary Salazar have made national service a priority, and I am delighted to be a strong supporter of the GIVE Act, which we are considering this week. I want to thank the gentleman from California, Chairman MILLER, for his very generous assistance in the drafting of the Public Lands Corps amendments I am introducing today.

I also want to thank the gentleman from West Virginia, Chairman RAHALL, the chairman of the other committee on which I am proud to serve, the Natural Resources Committee, for his support of this legislation. Other members have also indicated their interest in service-learning on public lands, and I look forward to working with them, and with members of the other body who have a long interest in the Public Lands Corps.

Madam Speaker, we know the tasks and challenges that confront our land and water management agencies are great. This bill will help us meet those challenges.

A TRIBUTE TO DR. MELINDA HSIA

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Dr. Melinda Hsia of South Pasadena, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our nation's women. Accordingly it is my privilege to highlight Dr. Hsia as a woman whose extraordinary efforts are vital to my district.

Born in San Francisco, Melinda graduated from the University of California, Berkeley, with a major in Bacteriology and received her Doctor of Pharmacy at the University of Southern California. She began to master the art of multi-tasking while working at the Glendale Adventist Medical Center for 16 years, when in addition to her medical pursuits, she obtained her real estate license and sold houses part-time. By the time her children, Andrew and Chloe, were born and her husband, Tom, retired, Melinda had become a veteran at juggling multiple roles. Outside of her volunteer efforts Melinda is an avid gardener and a pharmacist at Costco Alhambra where she counsels everyone from pediatric to elderly patients.

Melinda's children have inspired her community involvement year after year. She began as a PTA member at their elementary school, helping to coordinate talent shows, musical productions, and promotions. Once her children entered high school, Melinda became the South Pasadena Music Boosters Club President and an active member of several other committees which coordinate fundraisers and

competitions to support athletic and school clubs. She is currently South Pasadena High School's PTSA Vice President of Programs. In this capacity, Melinda coordinates speaker forums such as "Over-the-Counter Drugs and Teens" and the Developing Capable Young People series. In 2007 she received South Pasadena High School's PTSA Volunteer of the Year award.

In addition to her PTSA involvement, Melinda serves her community as repeat President of the South Pasadena Chinese American Club, which raises funds for local public schools and community projects. The American Cancer Society's Relay for Life, Huntington Library's Chinese Garden, the South Pasadena Educational Foundation, and the Union Station Foundation's Adopt-A-Meal program have all benefitted from Melinda's exemplary philanthropic leadership. She has supplemented her already busy schedule with positions on South Pasadena School District's Real Estate and Budget Advisory Committees and sits on the Board of Directors for the City's Chamber of Commerce.

Melinda's handiwork adorns the entire South Pasadena community, whether as a refurbished classroom or as a floral centerpiece, and her selfless service is an invaluable addition to the legacy of Women's History Month. Her devotion has even created a new generation of volunteers: daughter Chloe was recently named a Bronze and Silver Congressional Award Medalist. With gratitude and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of California's 29th Congressional District, Dr. Melinda Hsia.

IN HONOR OF EDWIN E. BLISS

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. FARR. Madam Speaker, I rise today to honor a great American and community servant, Edwin E. Bliss of Carmel, California for his lifetime of achievements and service above self. Edwin is a highly respected long time resident of the Monterey Peninsula. All of us who have had the good fortune over the years to befriend him, know that Edwin always exhibits his core values of respect, truth, and goodness.

Edwin Earl Bliss was born in Ridgefield, Washington near Portland, Oregon on March 19, 1919. The son of a successful dairy rancher and respected school teacher, Edwin displayed uncommon leadership skills early and often. Editor in high school, fraternity president in college and manager of the Charlton Hotel in Cannes, France while serving as an Army officer during World War II, Edwin led others by example, humility and compassion.

After the war, Ed moved his small family from rural Washington State to quiet Carmel. Called back into the Army to serve in Korea he moved his wife and three children back to Washington to be near family and friends. Upon his release from the military, Ed returned his young excited family permanently back to the Monterey Peninsula.

Here Edwin lives the American dream, raising a wonderful family, building a beautiful home and selflessly serving his community. Edwin Bliss's sense of honesty and respect has guided and propelled him through a successful career in the insurance industry and community service. Leadership with the Pacific Grove Kiwanis, the USO, YMCA and the Life Underwriters Association are just some of the many boards he has served on. But his greatest community love is the Monterey History and Art Association. As a long time board member and President from 1964–65 he was instrumental in laying the early groundwork to establish the Monterey Maritime Museum. While a board member for the National Trust for Historic Preservation, Edwin helped place the Cooper-Molera Adobe in Monterey on the National Registry of Historic Places. In addition, Edwin served on the first board to insure the preservation of Robinson Jeffers' Tor House.

Perhaps Edwin's greatest social love has been the Ancient and Honorable Society of Buckeye. Founded by close friend and then State Senator, Fred S. Farr, Ed has been its guiding light for over fifty years. This annual gathering of ranchers, fishermen, politicians, musicians, doctors, lawyers, educators and businessmen has given rise to local legends and many community events.

Madam Speaker, Edwin Bliss's accomplishments are distinguished and numerous. Edwin has lived an exemplary life grounded in truth, goodness and respect for others. I know my fellow members join me in congratulating him on his 90th birthday.

EARMARK DECLARATION

HON. TODD TIAHRT

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TIAHRT. Madam Speaker, in accordance with the February 2008 New Republican Earmark Standards Guidance, I submit the following in regards to the Fiscal Year 2009 Omnibus Appropriations Act found in H.R. 1105:

ENERGY AND WATER—ARKANSAS RIVER FISH HABITAT, KANSAS

H.R. 1105, the FY 2009 Omnibus Appropriations Act contains a line item for the Arkansas River Fish Habitat in the Army Corps of Engineers' Section 206 account. The entity to receive funding for this project is the United States Army Corps of Engineers, Tulsa District located at 1645 S. 101 East Ave., Tulsa, OK 74128.

The funding will be used to address the feasibility of improving 122 acres of various types of habitat along the Arkansas River in Kansas. This money could be used to complete Plans and Specifications for this proposed restoration site.

This project complies with matching fund requirements.

IN RECOGNITION OF MR. JAMES F. SLOAN ON THE OCCASION OF HIS RETIREMENT AFTER 34 YEARS OF DISTINGUISHED PUBLIC SERVICE

HON. SILVESTRE REYES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. REYES. Madam Speaker, I rise today to pay tribute to a fellow Army veteran, a man of great integrity and an unwavering sense of commitment to his Nation, Mr. James F. Sloan, on the occasion of his retirement after 34 distinguished years of public service.

I have had the pleasure of working with Mr. Sloan in his role as the Coast Guard's Assistant Commandant for Intelligence. When he assumed his duties in 2003, the Coast Guard had only two years earlier been designated a member of the Intelligence Community. In the years since, Mr. Sloan has been responsible for modernizing the Coast Guard intelligence program to keep pace with an ever-expanding and increasingly complex set of national security threats.

Mr. Sloan has also worked to cultivate extensive relationships and collaborative partnerships with other elements of the Intelligence Community. He has been an enthusiastic advocate for bringing the Coast Guard's wide-ranging expertise to bear in a variety of crucial national missions. Under his leadership, the Coast Guard has become an integral actor in the fight against terrorism, providing port security, conducting maritime interdiction, and supplying essential tactical and operational intelligence to a variety of other U.S. Government agencies.

I would be remiss if I failed to mention Mr. Sloan's 21 years of service with the United States Secret Service. During more than two decades, he served as the agency's Deputy Assistant Director for Protective Operations and later as the Senior Program Manager of the Anti-Terrorism programs, where he represented the Secret Service on the National Security Council.

The Nation is better and safer as a result of Mr. Sloan's service. For that, we thank him.

TRIBUTE TO 2009 JOHNSON COUNTY MOVERS AND SHAKERS AWARD WINNERS

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. MOORE of Kansas. Madam Speaker, I rise today to note an important event in the Third Congressional District of Kansas. On April 14, 2009, the Volunteer Center of Johnson County in Overland Park, KS, will honor outstanding youth volunteers. Eighty young people have been nominated by school personnel and nonprofit organizations for their dedication and service to the community. Youth volunteerism continues to grow and be a strong force in Johnson County. These 110 young people exemplify the true meaning of

volunteerism and giving back to their community. It is my honor to recognize each student volunteer and their schools by listing them in the CONGRESSIONAL RECORD.

MOVERS AND SHAKERS CLASS OF 2009

Rana Aliani—Barstow; Colton Anderson—Prairie Trail Jr. High; Samantha Atwell—Olathe South High School; Amber Atwell—Olathe South High School; Sydney Ayers—Barstow; Katie Bauer—Mill Valley High School; Mica Bengtson—Olathe South High School; Terrance M. Benson II—Shawnee Mission North High School; Ben Berger—Blue Valley Northwest High School; Briana Bowen—Shawnee Mission West High School; Nathaniel Bozarth—Olathe North High School; Jessica Brown—Shawnee Mission North High School; Tanner Buzick—Prairie Trail Jr. High; Sally Carmichael—Shawnee Mission West High School; Kristy Carter—Olathe North High School; Caitlin Carter—Shawnee Mission West High School; William Cleek—Olathe North High School; Patrick Connell—Shawnee Mission West High School; Elizabeth Cornell—Olathe South High School; Hannah Cosgrove—Shawnee Mission East High School; Arielle Daniel—Olathe Northwest High School; Rudy Date—Blue Valley Northwest High School; Ben Davis—Shawnee Mission Northwest High School; Tyler Day—Prairie Trail Jr. High; Allison Ens—Olathe Northwest High School; Miranda Erickson—Olathe South High School; Amy Esselman—Shawnee Mission East High School; Emily Feder—Blue Valley Middle School; Melissa Gaddis—Olathe South High School; Evan Gage—Blue Valley Northwest High School.

Jennifer Garren—Shawnee Mission West High School; Christy Garren—Westridge Middle School; Kevin Garrett—Shawnee Mission West High School; Michael Garrett—Shawnee Mission West High School; Andy Gottschalk—Westridge Middle School; Lauren Gregory—Heritage Home School; Jonathan Gregory—Shawnee Mission Northwest High School; Robert Hale—Shawnee Mission West High School; Gabrielle Hanna—Chisholm Trail Jr. High; Amneet Hans—Olathe North High School; Myra Hawkins—Shawnee Mission West High School; Rebekah Hayner—Olathe Northwest High School; Cara Heneger—Shawnee Mission East High School; Lauren Hiatt—Olathe North High School; Taylor Hiatt—Olathe North High School; Tyler Howard—Olathe Northwest High School; Liz Huston—Olathe Northwest High School; Shelby Johnson—Olathe South High School; Taylor Johnston—Shawnee Mission West High School; Chantal Jorawsky—Olathe North High School; Katie Kelter—Olathe Northwest High School; Sean Kennedy—Shawnee Mission North High School; Joshua Kennedy—Shawnee Mission Christian School; Jordyn Kittle—Mill Valley High School; Rachel Knapp—Shawnee Mission West High School; Nicole Knapp—Shawnee Mission West High School; Kelli Koch—Mill Valley High School; Jessica Kruger—Olathe North High School; Samuel Linan—Olathe Northwest High School; Danielle Lucido—Lakewood Middle School.

Jessie Lueck—Blue Valley Northwest High School; Olivia Mansheim—Olathe East High School; Connor McGoldrick—Shawnee Mission West High School; Ashley Mercer—Westridge Middle School; Ashlyn Midyett—Olathe Northwest High School; Collin Myers—Lakewood Middle School; Paige Nawalany—Shawnee Mission Northwest High School; Nicholas Nawalany—Shawnee Mission Northwest High School; Jack Nelson—Olathe Northwest High School; Lucy O'Connor—Shawnee Mission East High School; Alexandra Olsen—Olathe Northwest High

School; Chris Ouyang—Blue Valley Northwest High School; Aalok Patel—Olathe North High School; Nisha Patel—Olathe Northwest High School; Alex Pentola—Olathe South High School; Wade Pittrich—Shawnee Mission Northwest High School; Matthew Ramirez—Olathe North High School; Andy Rao—Blue Valley Northwest High School; Gabrielle Rehor—Trailridge Middle School; Logan Reilly—Westridge Middle School; Rachel Riedel—Westridge Middle School; Angela Ritz—Olathe North High School; Anna Robb—Shawnee Mission West High School; Dayna Rucker—Shawnee Mission North High School; Bethany Ruder—Olathe South High School; Bradley Schmalz—Shawnee Mission Northwest High School; Courtney Schmitz—Olathe South High School; Taylor Schwartz—Barstow; Caleb Shelton—Olathe South High School; Monica Sherraden—Olathe South High School.

Carla Simpson—Olathe North High School; Taranjeet Singh—Shawnee Mission West High School; Kyle Sitomer—Shawnee Mission East High School; Katie Spies—Blue Valley North High School; Alexa Stonebarger—Mission Valley Middle School; Allyssa Strange—Blue Valley Northwest High School; Abby Stuke—Westridge Middle School; Kate Tarne—Trailridge Middle School; Tana Thomason—Olathe Northwest High School; Julie Varriano—Notre Dame de Sion; Katie Vaughan—Prairie Trail Jr. High; Amanda Vaupel—Olathe North High School; Dallas Waage—Spring Hill High School; Jessica Wayne—Olathe South High School; Abby Weltner—Shawnee Mission East High School; Audriana Willis—Olathe Northwest High School; Elyse Wilson—Olathe South High School; Ashley Wismer—Olathe South High School; Marissa Wuller—St. Thomas Aquinas; Alexa Zuchowski—Olathe South High School.

A TRIBUTE TO CATHERINE WILLS

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Ms. Catherine Wills of Monterey Park, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our nation's women. Accordingly it is my privilege to highlight Ms. Wills as a woman whose extraordinary efforts are vital to my district.

Family life in Minneapolis, Minnesota, infused Cathy with the spirit of volunteerism from the very beginning. As a young girl she watched her older sister, Charlotte, transform a personal struggle with spina bifida into success as a community activist. Cathy grew to share her father's concern for social issues such as global poverty, illiteracy, and health care, and she joined Charlotte as a devoted advocate for the physically disabled.

Soon after, Cathy's adventuresome spirit took her all the way to Cairo, Egypt. There she worked in a number of professions, from newspaper reporter to fashion model, advertising representative to tour guide. Cathy even landed a small role in Cecil B. DeMille's epic, "The Ten Commandments." After living abroad, becoming fluent in Arabic, and traveling throughout Europe, she returned to the United States and settled in Monterey Park.

Cathy's thirty-plus years of local community outreach include serving as a Los Angeles County Deputy Sheriff, where she became the first woman assigned to the Detective Division's Homicide Bureau and spent her free time mentoring at-risk girls as a Pasadena YWCA "Big Sister." Following retirement, Cathy has dedicated herself to the City and people of Monterey Park. She served on the board of directors of the Heritage Manor Convalescent Home, was a long-time appointee to the City's Personnel Board, and wrote a community column for the local newspaper.

Armed with a lifetime of experience and gumption, Cathy faced her husband's recent bouts with cancer head on and continues to support the City of Hope National Cancer Research Center. Her current roles include serving on city and county Election boards, fundraising as a member of the Soroptimist Club, and advocating for San Gabriel Valley causes as a founding member of the Concerned Citizens of Monterey Park. Cathy also honors outstanding volunteers as co-chair of the United Democratic Club's annual "People Who Make a Difference" award.

It is my privilege to celebrate Cathy just as she has recognized others for so many years. Her steadfast and selfless service is an invaluable addition to the legacy of Women's History Month. With gratitude and admiration, I ask all Members of Congress to join me today in honoring an extraordinary woman of California's 29th Congressional District, Mrs. Catherine Wills.

COMMENDING SARAH LEE FOSTER

HON. DIANA DeGETTE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Ms. DeGETTE. Madam Speaker, I rise to honor the extraordinary life of an eminent citizen, Mrs. Sarah Lee Foster. This remarkable woman merits both our recognition and esteem as her impressive record of leadership, volunteerism, activism and invaluable service has moved our community forward and thereby, improved the lives of our people.

Sarah Lee Foster has lived a life of active involvement in neighborhood, community and city organization and activism that has focused on safety and quality of life issues. She was born in Holly Grove, Arkansas, graduated from Holly Grove Vocational High School and attended Shorter and Arkansas Baptist colleges. She is a recipient of the Arkansas Travelers Ambassador Award and the Arkansas Sesquicentennial Medallion.

Sarah Lee Foster was the first woman and only four-term president of the Five Points Business Association in Denver. She coordinated the annual Denver Juneteenth Celebration from the late 1970's through the late 1990's; established the community outreach program to serve youth, homeless, and seniors in the area; and, actively promoted cooperative relations between the association, local residents and citizens, other community and neighborhood organizations, and city and state government offices. She has been honored many times by the organization throughout the

years for her outstanding dedication, leadership, and service to the community.

Sarah Lee Foster's accomplishments have also been recognized by many other appreciative persons and community groups, too numerous to name. Her current and past community service records speak for themselves. Her memberships disclose her belief in the universal community. The list of her awards, tributes, certificates, trophies, and honors runs to more than five single-spaced typed pages.

Sarah Lee Foster is the owner of Sarah Lee's Isle of Beauty and Sarah Lee's Modeling Agency. A charter member of the Denver Cosmetology Guild No. 250, she served as the first African American president of the Colorado Cosmetology Association. She was the first African-American nominated to the National Cosmetology Association Board of Directors, and is currently serving her seventh term as Financial Secretary.

Sarah Lee Foster's countless contributions to the Denver and Colorado communities have been recognized by many elected officials and government representatives. Most recently, she was honored by Mayor John W. Hickenlooper with an "Unsung Hero" Award on the occasion of the 150th birthday of the City of Denver in 2008. She has made an indelible impact on the Denver and Colorado communities and her service will be remembered and she deserves to be congratulated for her "good and faithful service". As she prepares to move to Texas to reside near her family, I know that she will take with her the spirit of community and community service she shared with all of us.

Please join me in paying tribute to the life of Sarah Lee Foster, a prominent community leader, on the occasion of her eightieth birthday. Her service, accomplishments and leadership command our respect and serve to build a better future for all Americans.

A PROCLAMATION CONGRATULATING THE NORTH APPALACHIAN EXPERIMENTAL WATERSHED (NAEW) ON THEIR AWARD FROM THE OHIO STATE UNIVERSITY EXTENSION FOR ITS EDUCATIONAL EFFORTS

HON. ZACHARY T. SPACE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SPACE. Madam Speaker:

Whereas, the NAEW conducts research on ways to manage land to protect and improve water quality; and

Whereas, the NAEW works to reduce and prevent flood damages to agricultural areas in Southeastern Ohio; and

Whereas, the NAEW's research has sweeping implications for how water resources can be better managed in agricultural and rural settings all across the country; and

Whereas, the NAEW has received a "Friend of the Extension" Award from the Ohio State University Extension for the strengthened partnership between them, and for their aid in education about forestry, soils, grazing, beef feeding, and many other important rural knowledge bases; now, therefore, be it

Resolved that, along with the Ohio State University Extension, friends and family of the NAEW, and the residents of the 18th Congressional District, I congratulate the North Appalachian Experimental Watershed for receiving this award, and commend their continued work in making water usage in agricultural areas safer, more efficient, and more environmentally friendly.

HONORING THE REVEREND
CLAUDE WILLIAM BLACK, JR.

HON. CHARLES A. GONZALEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. GONZALEZ. Madam Speaker, after 92 years of service to others, the Reverend Claude William Black Jr. died on March 13, 2009. A lifelong San Antonian, Reverend Black was a leader in the Civil Rights Movement, working with A. Philip Randolph, the Reverend Martin Luther King, Jr., and many others. But to all of San Antonio, Reverend Black was so much more than the associate of great men; he was a great man and a great friend.

After graduating from the Andover Newton Theological School, Reverend Black spent eight years ministering to congregations in Massachusetts and Corpus Christi before returning to San Antonio to become the minister of the Mount Zion First Baptist Church in 1949. He would lead the congregation as its pastor for the next 49 years and as pastor emeritus until his death. Under Reverend Black's leadership, Mount Zion would become a cornerstone of San Antonio, providing day care, senior citizen services, and, since 1966, a church-owned Credit Union.

Reverend Black was a leading voice in San Antonio's civil rights movement, protesting segregation and bigotry in the face of threats and assaults on himself and his family. When arsonists burned Mount Zion to the ground in 1974, Reverend Black began the process of rebuilding while the ashes were still warm, telling the city council that, while the building might be gone, his church lived on.

As a member of San Antonio's City Council from 1973 to 1978, Reverend Black was the city's first black mayor pro-tem. He left the Council so that he might dedicate more of his time to other projects and to provide opportunities for the next generation of leaders to make their mark in the City's government.

And that was the kind of man Reverend Black was: indefatigable in working for the causes in which he believed, yet always conscious of the roles that others might play and ready to encourage their involvement. Generations of San Antonians have benefited from his work and his tutelage. While Reverend Black himself is now gone, the foundation he laid down will serve our community for generations more.

A TRIBUTE TO LIBBY NARDO

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Ms. Libby Nardo of Burbank, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our nation's women. Accordingly it is my privilege to highlight Ms. Nardo as a woman whose extraordinary efforts are vital to my district.

When Libby moved to Burbank with her family 55 years ago, her eldest son started school and she started a lifetime of community service. Having begun with Boy & Girl Scouts, Little League, and general church maintenance and bookkeeping, she is now a city-appointed representative of the Senior Citizens' Board of Burbank, co-leader of St. Finbar Catholic Church's venerable service group, the Italian Catholic Federation, and an essential member of the Joslyn Senior Center's leadership team. Libby's ubiquitous presence is astounding: she serves on numerous boards and committees, volunteers with substance abuse prevention and youth literacy programs, and is a dependable and approachable community leader.

Libby is known for her willingness to take on any task, from chairing the Annual Thanksgiving Dinner for over 200 poor and elderly Burbank residents to distributing refreshments at the yearly Senior Prom. Four mornings a week Libby becomes her own travelling food bank. After a quick stop at the nearby market, she sorts and distributes baked goods to local aid and senior centers, churches, and the Salvation Army.

With such an exhaustive catalog of community commitments, it is no wonder Libby is known among her peers as a model of volunteerism. She has previously been honored with both a 20-year service award and a Presidential Lifetime Service Award, and I am pleased to applaud her today.

Libby's steadfast dedication and selfless service are an invaluable addition to the legacy of Women's History Month. With gratitude and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of California's 29th Congressional District, Ms. Libby Nardo.

INTRODUCTION OF THE CURES
CAN BE FOUND ACT

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. PAUL. Madam Speaker, I rise to introduce the Cures Can Be Found Act. This legislation promotes medical research by providing a tax credit for investments and donations to promote adult and umbilical cord blood stem cell research, and provides a \$2,000 tax credit to new parents for the donation of umbilical cord blood that can be used to extract stem cells.

Mr. Speaker, stem cell research has the potential to revolutionize medicine. Stem cells could hold the keys to curing many diseases afflicting millions of Americans, such as diabetes and Alzheimer's. Umbilical cord blood stem cells have already been used to treat over 70 diseases, including sickle cell disease, leukemia, and osteoporosis. Umbilical cord blood stem cells have also proven useful in treating spinal cord injuries and certain neurological disorders. Adult stem cells have shown promise in treating a wide variety of diseases ranging from brain, breast, testicular, and other types of cancers to multiple sclerosis, Parkinson's, heart damage, and rheumatoid arthritis.

By providing tax incentives for adult and umbilical cord blood stem cell research, the Cures Can Be Found Act will ensure greater resources are devoted to this valuable research. The tax credit for donations of umbilical cord blood will ensure that medical science has a continuous supply of stem cells. Thus, this bill will help scientists discover new cures using stem cells and, hopefully, make routine the use of stem cells to treat formerly incurable diseases.

By encouraging private medical research, the Cures Can Be Found Act enhances a tradition of private medical research that is responsible for many medical breakthroughs. For example, Jonas Salk, discoverer of the polio vaccine, did not receive one dollar from the federal government for his efforts. I urge my colleagues to help the American people support the efforts of future Jonas Salks by cosponsoring the Cures Can Be Found Act.

RECOGNIZING ROGER POOLE ON
THE OCCASION OF HIS RETIREMENT
AS DIRECTING BUSINESS
REPRESENTATIVE OF DISTRICT
NO. 9, INTERNATIONAL ASSOCIATION
OF MACHINISTS AND AEROSPACE
WORKERS

HON. JERRY F. COSTELLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. COSTELLO. Madam Speaker, I rise today to ask my colleagues to join me in recognizing Roger E. Poole and congratulating him on his retirement as Directing Business Representative of District No. 9, International Association of Machinists and Aerospace Workers (I.A.M.A.W.).

Roger Poole has been a 41-year member of Automotive Lodge 313, joining the Machinists Union in 1967. He was elected Business Representative in 1979 before being elected to the offices of Vice President and President. In representing his Local, Roger served on an impressive list of labor councils. These included: the Belleville Union Labor Council, Southwestern Illinois Central Labor Council, Greater Madison County Federation of Labor, District Lodge 9, Illinois State Council of Machinists, Mid-West States Conference of Machinists, and the Illinois State AFL-CIO. Roger also served as a delegate to every IAM Convention since 1972.

Roger's contributions to the labor movement have brought him well-deserved accolades.

He was named Labor Man of the Year by the Southwestern Illinois Central Labor Council and Community Services Labor Man of the Year by the St. Louis Labor Council.

Always active in representing the working men and women of our area, Roger expanded his involvement to civic, political and community organizations. He has been a member of the Machinists Non-Partisan Political League National Planning Committee, President of the Mid-West States Council of Machinists, President of the 12th Congressional District C.O.P.E. AFL-CIO, Vice President of both the Illinois and Missouri State AFL-CIO, Executive Board Member of the St. Louis Labor Council and the United Way of Greater St. Louis. He also found time to serve as Democratic Precinct Committeeman.

Roger and his wife, Rosalie, have two sons, Brian and Jason, and two grandchildren, Darby and Cody.

Madam Speaker, I ask my colleagues to join me in an expression of appreciation and congratulations to Mr. Roger E. Poole, a true champion of organized labor, and to wish him all the best in his retirement.

A TRIBUTE TO YIN YIN HUANG

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Mrs. Yin Yin Huang of Alhambra, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our Nation's women. Accordingly it is my privilege to highlight Mrs. Huang as a woman whose extraordinary efforts are vital to my district.

Now an acclaimed master piano instructor, Yin Yin was born in Taiwan and began her musical training at the age of ten. At sixteen years old, Yin Yin made her concert debut with the Chinese Philharmonic Symphony Orchestra and soon after with the Formosa Chamber Orchestra. She attained her Bachelor of Arts from the University of Chinese Culture, Taipei, and a Masters in Music from California State University, Los Angeles.

Today, Yin Yin has approximately thirty years of musical teaching experience, including courses taught in Taiwan before immigrating to the United States, and serves as a faculty member at California State University, Los Angeles. As an international concert pianist, she has worked with artists from all over the world such as the renowned baritone Dr. William Warfield. From East Asia to the Americas, Yin Yin's musical impact resonates around the world.

Yin Yin always wanted to realize her lifelong desire to make a meaningful difference in her community through music. Showing great compassion and a strong sense of civic duty, she organized a series of local charity concerts to raise money for the 1999 Taiwanese earthquake, the September 11, 2001 terrorist attacks, Hurricane Katrina ravaged New Orleans musicians, and the 2004 South Asian tsunami relief effort.

Yin Yin and her husband have also conducted concerts at local retirement homes, an-

nual midsummer events, and soloist and small ensemble recitals for the past twelve years. In 2005 she established the Acevedo Music & Art Education Foundation, a non-profit organization that enables youths to put their artistic talents to use for benevolent purposes.

In recognition of her charitable work, Yin Yin received the International Federation for World Peace's Ambassador of Peace Award in 2006 and the Pasadena Human Relations Commission's Model of Unity Award in 2008.

Yin Yin has truly surpassed her goal to use music as a tool of positive change in the world; her daily piano lessons inspire others to do so as well. Her steadfast dedication and selfless service are an invaluable addition to the legacy of Women's History Month. With gratitude and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of California's 29th Congressional District, Mrs. Yin Yin Huang.

CELEBRATING THE LIFE OF MARY PETTYS

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. HIGGINS. Madam Speaker, I rise today to honor the life of Mary Pettys, a beloved member of the Western New York community who died tragically when Continental Flight 3407 crashed outside of Buffalo on February 12, 2009. This accident was a horrible and shocking tragedy for the Pettys family as well as for so many of us in Western New York.

Mary "Belle" Pettys was the third of ten children, and when her mother passed away in 2006, Mary nurtured and comforted the whole family, supporting her father and her nine siblings. She was a loving and selfless woman, devoted to her 38 nieces and nephews. Family was always Mary's priority. She was sister and aunt, godmother, confidant, matriarch, and companion—a rock for her family.

What makes her loss all the more sorrowful is that Mary was engaged to be married this spring to William Adamski. William called his beloved fiancée a "woman of chance" who had a passion for playing slot machines and even made appearances on the "Price Is Right" and "The Tonight Show with Jay Leno". Although the two will never be able to celebrate their marriage, we are thankful for the years of love and happiness they shared.

Mary Pettys graduated from Canisius College with a Bachelor's degree and a Master's degree, which she put to use in her long career in healthcare services. Mary was a devout parishioner of Queen of Heaven Church in West Seneca. Donations were made in her honor to the scholarship fund established in memory of Mary's mother at Mount Mercy Academy in South Buffalo.

We are grateful for the spirit, great strength and contributions that Mary shared with our community throughout the years. As was stated at the Memorial Mass held in Mary's honor, "Mary was the 'Soul' of the Pettys family. There is no more pain for her anymore, only for those of her loved ones left behind. We will soldier on knowing that Mary wouldn't want it

any other way. Her indomitable spirit and smile will remain with us forever." It is my honor to pay tribute to Mary Pettys' life and legacy, a remarkable woman who will be missed beyond measure. Our hearts and prayers remain with Mary Pettys and her family, as with all of the victims of Flight 3407.

THE LADIES AUXILIARY OF CLAYTON FIRE COMPANY

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CASTLE. Madam Speaker, it is with great pleasure that I rise today to recognize the Clayton Fire Company Ladies Auxiliary upon the celebration of their 50th anniversary in the State of Delaware.

The auxiliary's first meeting was on March 13, 1959, when members of both the Kent County Ladies Auxiliary and the Smyrna Fire Company Ladies Auxiliary were present to answer questions and explain the procedures behind founding an auxiliary. At this meeting, Jeri Hurlock was elected as the auxiliary's first president. It was then decided that Mrs. Hurlock, Mrs. Ethel Donaway, Mrs. Ann Dickerson, and Mrs. Julia Mast would meet and write the first constitution and by-laws. The next meeting, held on April 6, 1959, established a canteen committee to provide food and refreshment for the firemen while they were out fighting fires. With the appointment of this committee, the auxiliary began its now long-standing tradition of dedicating its time and effort in support of the Clayton Fire Company.

Through fundraisers such as fashion shows and concession stands, the women were able to repay the Clayton Fire Company, which had provided the initial loan to establish the auxiliary. Over the past five decades, the auxiliary has successfully continued to raise funds to benefit both the fire company and the town of Clayton. A junior program for 16 to 18-year-olds was created in 1973, and today, membership in the Clayton Fire Company Ladies Auxiliary has grown to over 70 women, including 35 life members.

On this 50th Anniversary, I would like to recognize the unequalled devotion of the Clayton Fire Company Ladies Auxiliary. Since 1959, the women of the auxiliary have volunteered their time, their energy, and their hearts in support of the Clayton Fire Company and its surrounding community. I commend them for their tireless dedication and immeasurable contributions, and I wish them all the best on this momentous anniversary.

A TRIBUTE TO BETHEL MISSIONARY BAPTIST CHURCH OF PASADENA

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Bethel Missionary Baptist Church of

Pasadena, California. Bethel Missionary Baptist Church is celebrating its fiftieth anniversary with the theme "The Church—Moving Forward in the Power of the Holy Spirit."

Established in February 1959, under the leadership of Reverend Freeman S. Stevens with seventeen members, Bethel Missionary Baptist Church was formally recognized in June of that year as a constituted Baptist Church. For a few months, the church held services at the Pasadena Buddhist Church and with Dr. J. W. Coleman at Community Baptist Church in Pasadena. In December of 1959, Reverend Stevens and church members moved into a small frame house at 1972 N. Fair Oaks Avenue in Pasadena, and with the assistance of architect Luther Eskijian, constructed a new church at the site.

Continuing to grow, the church underwent many renovations over the years, including the purchase of the adjacent property in 1984 which allowed for expansion and a major renovation of the church in 2007 under the leadership of the current pastor, Pastor John T. McCall.

Since its inception, Bethel Missionary Baptist Church has provided spiritual guidance and tangible support to the Altadena and Pasadena community. Some of the church's many programs include the Youth Scholarship Fund instituted by the last Pastor Kurling C. Robinson and Wednesday Family Night, established by Pastor John T. McCall. Other services include a food pantry for the community, Project Fatherhood—a mentoring program for fathers, a youth summer program and a youth fellowship group. In addition, the church actively supports D'veal Family and Youth Services agency's programs such as the Alive and Free Violence Intervention and Prevention program.

I consider it a great privilege to recognize Bethel Missionary Baptist Church on its fiftieth anniversary and I ask all Members to join me in congratulating the congregation for their fifty years of service to the community.

SUPPORT OF A BILL TO AMEND THE RADIATION EXPOSURE COMPENSATION ACT TO INCLUDE THE TERRITORY OF GUAM IN THE LIST OF AFFECTED AREAS WITH RESPECT TO WHICH CLAIMS RELATING TO ATMOSPHERE NUCLEAR TESTING SHALL BE ALLOWED

HON. MADELEINE Z. BORDALLO

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Ms. BORDALLO. Madam Speaker, today I have reintroduced a bill that would amend the Radiation Exposure Compensation Act, RECA, to include Guam in the list of affected areas for claims regarding and relating to atmospheric testing of nuclear weapons. My bill addresses a serious concern about the downwind affects of such testing that was conducted by the United States Government in the Marshall Islands from 1946 through 1962. This is an issue that concerns many of my constituents, and the bill I have reintroduced

today would provide an avenue for redress and compensation for any illnesses that may have been contracted by individuals who resided on Guam during the testing period.

On April 27, 2005, a special committee of the Board of Radiation Effects Research of the National Research Council of the National Academies submitted a report to Congress entitled the "Assessment of the Scientific Information for the Radiation Exposure Screening and Education Program." The report, which was the result of a Congressional directive, stated, "As a result of its analysis, the committee concludes that Guam did receive measurable fallout from atmospheric testing of nuclear weapons in the Pacific. Residents of Guam during that period should be eligible for compensation under RECA in a way similar to that of persons considered to be downwinders." This is a critical finding.

The bill I have reintroduced today directly acts on this finding and would provide a process by which such residents of Guam who may have been affected by radiation fallout from the Pacific tests can file compensable claims under RECA with the Department of Justice. The bill conforms to the current process under RECA that is utilized for residents of certain counties in the Western United States mainland that were similarly affected and downwind of other atmospheric nuclear weapons testing conducted by the United States Government.

In reintroducing this legislation today I recognize the Pacific Association for Radiation Survivors, PARS, for their work and dedication to addressing this issue. Their support and continued efforts in raising public awareness about the legacy of United States testing of nuclear weapons in the Pacific is making a difference in our community and provides an informed basis from which we should take up our work in Congress to amend RECA.

I look forward to working with the Committee on the Judiciary in reviewing this legislation and the findings of the Committee to Assess the Scientific Information for the Radiation Exposure Screening and Education Program. I also look forward to this bill becoming law so that justice may be brought to those individuals who were adversely affected by the atmospheric nuclear tests that were conducted by the United States Government in the Pacific.

HONORING THE ESCANABA DAILY PRESS ON ITS 100TH ANNIVERSARY

HON. BART STUPAK

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. STUPAK. Madam Speaker, I rise to honor the Escanaba Daily Press on its 100th anniversary. The Daily Press has survived the ups and downs the newspaper industry has faced over the past century and watched several local competitors fold, yet remained as a strong and independent voice for the Escanaba, Delta County and Schoolcraft County communities. Madam Speaker, I ask that you and the entire U.S. House of Representatives

join me in honoring the Escanaba Daily Press and the men and women, past and present, who work so hard every day to bring the community its news on this historic milestone.

In 1909 the Escanaba Morning Press was founded by John Norton and Herbet Little. After only a few months of operation, Little left and Norton took over sole management of the paper. The first edition of the Morning Press was published on March 19, 1909 at 1119 Ludington Street. Within two years the paper was moved to its present building at 600 Ludington Street where it has operated ever since.

In 1922 the Escanaba Morning Press changed its name to the Escanaba Daily Press and became an afternoon paper on September 29, 1947. In 1954 the paper was sold to Frank Russell of Marquette, Michigan and George Osborn of Sault Ste. Marie, Michigan. In 1966 it was purchased by the Panax Corporation, which sold the Daily Press to Thomson Newspapers in 1980. Since 1998 the Escanaba Daily Press has been under the ownership of Ogden Newspapers.

Despite changes in ownership over the years, the Daily Press has remained an independent voice for the people of Escanaba and all of Delta and Schoolcraft Counties. As community newspapers across the country have confronted consolidation, closure and downsizing, the Daily Press keeps going strong because of this independent voice and the trust of their readers.

In the late 1970s it was the reporting of the Daily Press in a series on insurance scams that was the driving force in updating state insurance laws. In 1988 the Daily Press won the Associated Press sweepstakes award for doing the best work of any paper of its size in Michigan for a series on the shotgun slaying of four family members and the subsequent week-long search in local woods by the FBI for the suspect and his kidnapped ex-wife.

The Daily Press has won countless awards over the years for editorial writing. In one contest, Michigan Press Association judges said they were "well written editorials that take a clear position even when those positions might be unpopular." In another instance, the MPA wrote that the "Daily Press takes seriously its role as a government watchdog." In an AP annual news writing contest, judges commented, "Every editorial submitted dealt with local issues, with two taking aim at city government. These are issues that newspaper editorial pages are supposed to address. Good job."

Madam Speaker, newspapers like the Escanaba Daily Press are a vital part of our communities. Their reporting is a valuable resource in tracking the history of our communities, reflecting and reporting on our daily lives. The Daily Press has served the Escanaba community and all of Delta and Schoolcraft Counties well over the past century. I ask that you, Madam Speaker, and the entire U.S. House of Representatives, join me in congratulating the Escanaba Daily Press and its past and present staff on 100 years of operation.

A TRIBUTE TO JULI COSTANZO

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Mrs. Juli Costanzo of San Gabriel, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our nation's women. Accordingly it is my privilege to highlight Mrs. Costanzo as a woman whose extraordinary efforts are vital to my district.

Born in nearby Glendale, California, Juli first moved to San Gabriel in 1965. She began as the Owner and Manager of a local small business, Hammy's Hamburgers, went on to become the Executive Director and President of the San Gabriel Chamber of Commerce, and now has served as a San Gabriel City Council member since March of 2003. Juli is a past mayor of the City and is also the Vice President of her family's current small business, Champion Sports Collectables, Inc.

Juli's rise to the apex of San Gabriel leadership can be attributed to her unrelenting devotion to the economic and social welfare of her community. She has served as a board member and event coordinator for numerous local organizations, from the San Gabriel Mission Elementary School Board to the Mission District Mercado and the joint Family Festival and Farmers Market. In her role as a San Gabriel Parks and Recreation Commissioner, Juli helped maintain and improve the integrity of the City's beloved and historic public spaces.

In addition to Juli's City and small business endeavors, she remains an active community member. Whether assisting the San Gabriel Police Department's Neighborhood Watch Program and the San Gabriel Community Coordinating Council, supporting the West San Gabriel Valley YMCA and the Mission District Partnership, or just attending an AYSO Region 40 game, Juli is an ideal example of a friendly face and a helping hand.

Her steadfast dedication and selfless service are an invaluable addition to the legacy of Women's History Month. With gratitude and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of California's 29th Congressional District, Mrs. Juli Costanzo.

INTRODUCTION OF NUCLEAR DISARMAMENT AND ECONOMIC CONVERSION ACT OF 2009

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Ms. NORTON. Madam Speaker, today, I am again introducing the Nuclear Disarmament and Economic Conversion Act (NDECA), as I have done since 1994, after working with the residents who were responsible for a ballot initiative passed by D.C. voters in 1993. NDECA requires the United States to disable and dismantle its nuclear weapons when all other nations possessing nuclear weapons enact laws

to do the same. NDECA further provides that when U.S. nuclear weapons are dismantled, the resources for supporting nuclear weapon programs would be used for our growing human and infrastructure needs, such as housing, health care, Social Security and the environment.

I chose to introduce the NDECA before the March 20th memorial service for William Thomas, who sat in front of the White House in an anti-nuclear vigil for nearly 28 years. His efforts have been called the longest uninterrupted war protest in U.S. history. He truly embodied our inalienable First Amendment rights. Tragically, instead of nuclear disarmament, nations around the world have increased efforts to seek or acquire nuclear capability with Iran's failure to halt uranium enrichment captured attention until recently, China's nuclear weapons and today North Korea continues testing missile long range missiles and there is little doubt that North Korea has acquired a nuclear device. India and Pakistan continue to fight over the Kashmir region and with the recent terrorist strikes in India, the instability in the region persists. Pakistan assures us that its weapons are safe, as nuclear secrets are sold by its top scientists, the streets are riled with protests, a military coup is not out of the question, and the semi-autonomous regions are dominated by Al-Qaeda and the Taliban.

The invasion of Iraq cost the United States much of its leadership on nuclear proliferation and other urgent international issues. This country reached a non-credible status in dissuading other nations who aspire to become or remain nuclear powers as we ourselves took greater initiative in increasing our own nuclear weapons program. We moved in the right direction when the Senate ratified the Moscow Treaty in 2003, which provides that by 2012 both the U.S. and Russia will reduce their long-range warheads by two-thirds from approximately 6,000 warheads each to 2,200. However, the Bush administration failed to build on this effort. According to the study, "Securing The Bomb: An Agenda for Action" (May, 2004; prepared by the Belfer Center, Harvard University Kennedy School of Government): "Total nuclear-threat-reduction spending remains less than one quarter of one percent of the U.S. military budget. Indeed, on average, the Bush administration requests for nuclear-threat-reduction spending over FY 2002–2005 were less, in real terms, than the last Clinton administration request, made long before the 9/11 attacks ever occurred." Instead, the Bush administration moved to increase the country's nuclear capacity.

However, the problem today is even more complicated than nuclear disarmament by nation states. The greatest threat today is from inadequately defended and guarded sites in many countries where there is enough material to make nuclear weapons and many opportunities for terrorists or nations without weapons to secure nuclear materials. Astonishingly, because of the previous administration's absence of leadership, less nuclear material was seized in the two years following the 9/11 attacks than in the two years immediately preceding the attacks ("Securing The Bomb: An Agenda for Action", May 2004).

In my work on the Homeland Security Committee, I know that threats from nuclear pro-

liferation and available nuclear material are more dangerous in the post 9/11 era than in 1994, when I first introduced the Nuclear Disarmament and Economic Conversion Act. It is more urgent than ever to begin closing down nuclear capability here and around the world.

Today, our country has a hobbled economy, 45 million people still without health insurance, a long list of other urgent domestic needs put on the back burner following the invasion of Iraq, large tax cuts for wealthy people and corporations, and millions of Americans losing their homes and jobs. As the only nation that has used nuclear weapons in war, and still possesses the largest arsenal, the U.S. has an obligation to begin the arduous process of leading the world in the transfer of nuclear weapons funds to urgent domestic needs.

CONGRATULATING GUNDERSEN LUTHERAN BREAST CENTER

HON. RON KIND

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. KIND. Madam Speaker, I rise today to congratulate Gundersen Lutheran's Norma J. Vinger Center for Breast Care on becoming the first breast cancer treatment center in the nation to achieve the highest level of distinction from the National Quality Measures for Breast Centers (NQMBC) program. The honor was presented to Gundersen Lutheran because they ranked at or above a designated threshold of performance for 90 percent of the measures specified by the NQMBC. This honor reflects the center's commitment to providing the highest level of quality care to breast cancer patients and their families at the lowest possible costs. I am extremely proud Wisconsin's Third Congressional District is home to a breast care facility that is a national leader in the measurement of treatment and outcomes.

The Norma J. Vinger Center for Breast Care provides state-of-the-art patient and family care emphasizing prevention, education, early detection, and clinical research. Their approach to breast care is holistic and interdisciplinary with a staff that includes experienced physicians, surgeons, nurses, and technologists who are skilled in the latest methods of early diagnosis, treatment, and reconstructive surgery. The Norma J. Vinger Center for Breast Care has discovered numerous breakthroughs in research and breast cancer care that have provided countless patients with hope and access to the most advanced care available in the country.

In addition to the NQMBC honor, Gundersen Lutheran is also one of two organizations in the country that has every available accreditation for the full scope of breast care, diagnosis, and treatment from the American College of Radiology. The Center also boasts two fellowship-trained clinical breast radiologists that specialize in breast cancer care. The Center for Breast Care has demonstrated continued excellence in measuring and comparing quality performance. The staff is also committed to utilizing new advances in technology to ensure that the Center remains a national leader in breast cancer care and research.

Providing care that promotes early detection, is outcome based, and utilizes innovative technology is the most efficient way to administer health care. I am proud to have this La Crosse based breast cancer facility in Wisconsin's Third Congressional District and hope that the great work they are conducting will serve as a model for the rest of the country.

INTRODUCTION OF THE ACCESS TO JUSTICE ACT

HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. MORAN of Virginia. Madam Speaker, I rise today to introduce the Access to Justice Act. A bill to amend the Immigration and Nationality Act to establish a right for an alien to file a motion to reopen a case in removal proceedings if the alien can demonstrate that counsel or a certified representative provided deficient performance.

In one of his last actions as Attorney General, Michael Mukasey ruled that immigrants have no constitutional right to effective legal representation in deportation hearings. After more than 20 years of precedent in special immigration courts overseen by the Justice Department, those now facing deportation have no remedy for the errors committed by incompetent, inattentive lawyers, or even those who claim to be lawyers.

This 11th hour regulation not only goes counter to what has already been established by a long line of decisions in the federal courts and the Board of Immigration Appeals but also is a matter of equal protection/due process. In fact, the United States Court of Appeals for the Ninth Circuit stated in an opinion, "Vulnerable immigrants are preyed upon by unlicensed notaries and unscrupulous appearance attorneys who extract fees in exchange for false promises and shoddy, ineffective representation."

The Supreme Court has found that non-citizens are ineligible for court appointed counsel in civil cases. Removal proceedings are not considered criminal and therefore, immigrants who are in the process of being deported must find their own counsel. Judge Katzmman on the Second Circuit Court of Appeals said in a recent New York Times article, "Justice should not depend on the income level of immigrants." A study in the Georgetown Journal of Legal Ethics found that only 35% of individuals in removal proceedings had counsel; yet asylum seekers who have counsel are three times more likely to succeed in their claim compared to those without representation.

Because of this Supreme Court decision incompetent legal representation is now "discretionary" and thus unreviewable. So the former Attorney General, the final arbiter in immigration cases, decided in his final hours in office without any consultation with Congress that the 6th amendment right to counsel only applies to criminals, not to non-criminals who have privately retained lawyers in civil removal proceedings. Imagine in our great melting pot of an immigrant nation a decision that gives greater access to justice to those who might

have committed a felony more than to those who want to be Americans. When a lawyer fails to show up to court or forgets to file the required paperwork, the individual being deported will have no legal right to appeal on the grounds of deficient counsel.

That is why I am introducing The Access to Justice Act, a bill that would create a legislative fix to the Mukasey decision. This bill creates a right to file a motion to reopen a removal case if deficient performance of counsel can be demonstrated. To provide relief to those who are currently in removal proceedings under this decision, enactment of this bill would allow them to file an appeal.

I urge my colleagues to support the Access to Justice Act. This important and urgent legislation will bring justice to those affected by Mukasey's midnight ruling and ensure fairness in removal proceedings.

A TRIBUTE TO KATHRYN PERINI

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Maadam Speaker, I rise today to honor Ms. Kathryn Perini of Temple City, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our nation's women. Accordingly it is my privilege to highlight Ms. Perini as a woman whose extraordinary efforts are vital to my district.

Few people take the chance to positively impact their community to the extent that Kathy has. A lifelong Temple City resident, Kathy earned her degrees at the nearby University of Southern California and returned to her hometown to apply her education towards helping the people she knew and loved. Kathy began as a teacher and a counselor and she eventually became the principal of Emperor Elementary, a California Distinguished School.

At Emperor, Kathy has created and maintained cooperative and influential relationships with the community, parents, teachers, and students. With a clear action plan, she has crafted a school of academic scholars who benefit from Character Education as the curriculum's core. Kathy also shares her insight by working as a consultant, helping regional and nationwide schools develop not only educated but also responsible citizens. Various esteemed organizations have recognized her with awards, from local PTA groups to the National Character Education Center and the Mattel Foundation Family Learning Program.

Throughout her years as an education trailblazer, Kathy has remained devoted to giving back to the community that helped raise her. In 1986 she founded the Temple City Youth Development program to benefit local students unable to afford extensive field study trips and remains the non-profit's director today. For nearly twenty years Kathy has been a dedicated member of the Tournament of Roses and presently serves on the organization's Executive Committee.

Kathy's dual roles as educator and community leader were tested in early 2006 when her school fell victim to the violent act of arson.

Even in the face of adversity, she rose to the challenge by reaching out to the community for supplies to ensure that all her students' needs were met, regardless of the devastating classroom destruction. In response, Kathy was happily inundated with resources, support, and encouragement.

We are fortunate to have Kathy, a pillar of loyal community leadership, help us develop a new generation of bright and giving Americans. Her steadfast dedication and selfless service are an invaluable addition to the legacy of Women's History Month. With gratitude and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of California's 29th Congressional District, Ms. Kathy Perini.

HONORING THE MEMORY OF JOHN BARNETT WATERMAN II

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 18, 2009

Mr. BONNER. Madam Speaker, the city of Mobile and, indeed, the entire state of Alabama recently lost a dear friend, and I rise today to honor John Barnett Waterman II and pay tribute to his memory.

A lifelong resident of Mobile, John graduated from the University of South Alabama in 1968 and was a member of the school's second graduating class. He was also a member of the university's first pledge class of the Sigma Chi fraternity. John earned a Bachelor of Science degree in finance and went on to pursue a successful career in investments.

A proud patron of the arts, John was a supporter of the Mobile Symphony and also sponsored an annual scholarship for a Mobile graduating high school student to attend the Brevard School of Music.

In 1919, with one ship and \$2,000 capital, John's grandfather founded the Waterman Steamship Corporation, which grew to become the nation's largest family-owned steamship company. The company's headquarters housed the Waterman Globe, a local maritime icon. John was an ardent supporter of the refurbishing of the icon, which is now on display at the University of South Alabama's Mitchell Center.

Madam Speaker, I ask my colleagues to join me in remembering a dedicated community leader and friend to many throughout south Alabama. John Barnett Waterman II will be dearly missed by his family—his wife, Lynne Stanard Waterman; his daughter, Kemp Waterman Buntin and her husband, Jeffrey; his son, John Douglas Waterman; his sisters, Annise Waterman Uphaus and Melissa Waterman Inge; and his grandsons, Gaither Waterman Buntin and Thomas Rush Buntin—as well as the countless friends he leaves behind.

Our thoughts and prayers are with them all during this difficult time.

TRIBUTE TO COLONEL
CHRISTOPHER E. O'CONNOR

HON. DARRELL E. ISSA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. ISSA. Madam Speaker, I rise today to honor and pay tribute to an individual whose dedication and contributions to the United States Marine Corps are exceptional. Our country has been fortunate to have dynamic and dedicated leaders who willingly and unselfishly give their time and talent to keep this country free and safe. United States Marine Colonel Christopher E. O'Connor is one of these individuals. On April 2, 2009, a retirement ceremony honoring Col. O'Connor will be held in Miramar, California. As a thirty year service veteran, Col. O'Connor deserves our thanks and gratitude as we honor him for his distinguished career.

Following his commission through the NROTC Program at the University of Rochester and his education at the Communications and Electronics School at MCAGCC Twenty-nine Palms, Col. O'Connor has served in many capacities over the years. The Marine Air Support Squadron where he served as an Air Support Control Officer in the Direct Air Support Center (DASC), the Aviation Department's action officer in the Aviation Logistics Branch of the Department of Aviation at Marine Headquarters, and operations officer of the 1st Marine Aircraft Wing Aviation Support Element Kaneohe are just three of many assignments Col. O'Connor has been entrusted with.

Receiving his wings in 1985, Col. O'Connor became a CH-53 helicopter pilot and transferred to Marine Heavy Helicopter Squadron 463. Col. O'Connor would leave HMH 463 to deploy to the Philippines but later return as Commanding Officer of the squadron from October 1997 to May 1999 in Kaneohe, Hawaii. In August 2006, Col. O'Connor assumed the position of Commanding Officer of Marine Corps Air Station Miramar. Not only does he supervise over 3,000 Marines, Sailors and Civilian Marines with an operating budget of over \$217 million but he is also responsible for Air Station assets of over \$2 billion.

Col. O'Connor's tireless passion for service has contributed to the betterment of this country. His decorations include the Legion of Merit, Defense Meritorious Service Medal, Meritorious Service Medal with gold star, Joint Service Commendation Medal, Navy Commendation Medal, and Navy Achievement Medal. I am proud to call Chris a fellow community member, American and friend. I know that many citizens and servicemen are grateful for his service and salute him as he ends his term.

PERSIAN NEW YEAR RESOLUTION

HON. LINDA T. SÁNCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Ms. LINDA T. SÁNCHEZ of California. Madam Speaker, I rise today to acknowledge

Nowruz which marks the traditional Iranian New Year and dates back more than 3,000 years. Nowruz, literally meaning "new day," celebrates the arrival of spring and occurs on the vernal equinox, which this year will happen exactly on Friday, March 20th at 7:44 a.m. eastern daylight time. It symbolizes a time of renewal, harkening the departure from the trials and tribulations of the previous year and bringing hope for the New Year. It is celebrated by more than three hundred million Iranians and other peoples all over the world.

Closer to home, more than one million Iranian Americans of all backgrounds, including those of Baha'i, Christian, Jewish, Muslim and Zoroastrian faiths, will be celebrating Nowruz. Recognizing the cultural and historical significance of this day and in its honor, I express my appreciation for the contributions of Iranian-Americans to American society and wish all those who observe this holiday a happy and prosperous new year.

INTRODUCING A RESOLUTION ON
IMPROVING ACCESS TO LONG-
TERM CARE IN THE HOME AND
COMMUNITY

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. HASTINGS of Florida. Madam Speaker, I rise today to introduce a resolution that addresses one of the most crucial health concerns facing our nation: expanding access to quality long-term care in the home and community.

Long-term care is a broad range of health and social services that are used by people who cannot care for themselves because of a physical, cognitive, or mental disability. Eighty percent of long-term care now occurs in the home. The majority of long-term care is provided by family caregivers that are accompanied by community services such as Adult Day Care Programs, home-delivered meals programs, mental health services, and home health workers. Sadly, too many patients and families are enduring the physical, emotional and financial consequences of having poor access to long-term care services.

Madam Speaker, well over 9.4 million adults receive long-term care in the United States of America. And this number is expected to rise. Longer life spans among the chronically ill and disabled, and higher incidences of acquired disabilities from unmanaged conditions such as HIV/AIDS, diabetes, obesity and heart disease will increase our reliance on long-term care.

In little more than two decades, one-fifth of the U.S. population will be age sixty-five or older. States with significant elder populations—like Florida—know the importance of ensuring that our health care system is well equipped to provide decent and routine long-term care services. However, the increase in demand for long-term care services has not been followed by an increased incentive to effectively address and solve the disparities in access to high-quality long-term care. Amazingly, there has never been a national plan for

long-term care, and nearly twenty years have passed since Congress comprehensively reviewed long-term care policy.

The lack of streamlined standards and dominant payment methods for long-term care has left our long-term care system handicapped: depriving countless people of much needed services and placing a tremendous financial and emotional burden on families and caregivers. A significant portion of long-term care is financed with personal funds, and Medicaid is the largest public payer for long-term care. Medicaid and out-of-pocket-spending exclude countless persons from receiving health care service, which can lead to more costly and invasive medical interventions.

Madam Speaker, this is an important bill that must be supported during a critically important time when we are tasked with solving one of the most serious financial and health challenges of our era. This resolution calls for integrating long-term care into health care reform and for making long-term health more affordable.

The resolution regards preventative health and the management of chronic disease as essential components in decreasing the future dependence on long-term care by preventing conditions from becoming permanently debilitating or disabling. And, it encourages collaboration among local, state and federal health care entities to improve working conditions and training for home health aides to lower turnover rates, staff shortages, patient abuse and raising the standard of care.

This resolution supports funding for existing technologies, programs and initiatives that assist informal care givers, and help maintain and improve long-term health services for the disabled and elderly. Lastly, it commits to aiding relevant parties in composing, executing, and economic disparities that limit access to care.

Madam Speaker, I urge my colleagues to join me in supporting this resolution and to truly invest in the present and future welfare of our nation's health care system.

A TRIBUTE TO BRENDA
GALLOWAY

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Mrs. Brenda Galloway of Pasadena, California. Every March we celebrate Women's History Month in recognition of the contributions and the sacrifices made by our nation's women. Accordingly it is my privilege to highlight Mrs. Galloway as a woman whose extraordinary efforts are vital to my district.

Originally from Kentucky, Brenda has lived in Pasadena with her husband Bill for the last forty years. Together they run the family business, Summit Enterprises, which invests in residential commercial properties in the San Gabriel Valley and trains local youth for careers in real estate. A tireless community leader, Brenda has devoted herself to improving the region's arts and educational systems with a blend of energy, enthusiasm, and humility.

Her volunteer work began as a young girl running school paper drives and has grown to include an astounding collection of Southern California non-profit organizations.

In addition to serving on the Board of Directors for the Pasadena YMCA and the La Salle High School Board of Trustees, she has been involved the Pasadena Tournament of Roses Foundation, the L.A. County Commission of Children and Families, the Pasadena Police Department Olympic Committee, Jack & Jill of America, and the Jackie Robinson Memorial Celebration. She is particularly active with the CASA Glamour Gown program, which provides prom gowns and accessories to girls in foster care throughout Los Angeles County.

Showing great care and dedication to the community, Brenda has been involved with several organizations. While devoting herself to these great organizations, Brenda and her husband have also hosted charitable events at their home for many nonprofit groups, such as the Pasadena Playhouse, the Pasadena AIDS Service Center, and the National Park Service's African American Experience Fund. Their generosity extended to Pasadena City College as well, with whom they endowed a Sculpture Garden Plaza in 2000.

Mrs. Galloway's charitable efforts have garnered much deserved recognition in the community. She has been awarded with a lifetime membership to the NAACP for her membership recruitment and fundraising efforts, received a Campus and Community Special Recognition award from PCC in 1999, and was deemed a "Contemporary History Maker" in 2003 by the Pasadena Museum of History. Most recently, the Pasadena Playhouse honored Brenda for her work in the promotion of cultural diversity at the third annual Sheldon Epps Theatrical Diversity Project Celebration, of which she is a founding member.

Brenda's impact on the Pasadena community is a testament to her innate compassion for the people around her. Her steadfast dedication and selfless service are an invaluable addition to the legacy of Women's History Month. With gratitude and admiration, I ask all Members of Congress to join me in honoring an extraordinary woman of California's 29th Congressional District, Mrs. Brenda Galloway.

CONGRATULATING TROOPER
NICHOLAS L. LEWIS

HON. JEAN SCHMIDT

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mrs. SCHMIDT. Madam Speaker, I rise today to congratulate Trooper Nicholas L. Lewis and Dispatcher Sonia M. Banks from the Portsmouth Post of the Ohio State Highway Patrol for being recognized as Ohio's Trooper and Dispatcher of the Year. For the first time both of these prestigious award winners are from the same post. Also, for the second year in a row, the State of Ohio's Trooper of the Year patrols in the Second Congressional District.

Trooper Lewis, a graduate of the 144th Academy Class, has been assigned to the Portsmouth Post since February of 2007.

Trooper Lewis resides in McDermott with his wife, Elizabeth and their two children. In October, Lewis was honored with the Ace Award for finding five stolen vehicles and has had much success in the Criminal Patrol Program. Nick's Post commander, Lieutenant Mike Crispin best describes him as truly believing in the Ohio State Highway Patrol's mission of saving lives and taking drugs off the street.

Dispatcher Banks has worked at the Portsmouth Post since 2003, after being told of the position by a friend—who recommended that she would be perfect for it. Dispatcher Banks lives in Minford with her husband, Chris and their two sons. Recently, Banks was instrumental in the Post's ability to communicate with each other during a bomb scare on a barge and a school shooting, when she worked to acquire a dedicated cell tower for operations.

Madam Speaker, I am very thankful once again to have Ohio's Trooper of the Year patrolling the Second Congressional District. And, I am equally thankful for having the Dispatcher of the Year in the Second District as well. Congratulations Nick and Sonia, I wish you both continued success in the years to come.

PERSONAL EXPLANATION

HON. NEIL ABERCROMBIE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. ABERCROMBIE. Madam Speaker, I regret that I missed rollcall vote no. 128, 129 and 130. Had I been present, I would have voted "aye" on all three votes.

TRIBUTE TO BOBBY GOODWIN

HON. MIKE PENCE

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. PENCE. Madam Speaker, I rise today to pay tribute to Bobby Goodwin's remarkable life of selfless service. I was deeply saddened to learn of his passing and honor his memory today on the floor of the people's House.

Bobby W. Goodwin was born in Flemingsburg, Kentucky on March 22, 1939 to the late Lawrence and Edith Goodwin. He was a graduate of New Castle High School, Class of 1958. A loving husband, father, and grandfather, Bobby leaves behind a wonderful family that will undoubtedly miss him.

A veteran of the United States Army, Bobby retired from the Ford Motor Company in Indianapolis after 35 years of service. He owned Goodwin Bail Bonding and admirably served the New Castle Police Department, being named Outstanding Police Officer of the Year in 1974.

Ever active in the community, Bobby served on the New Castle City Council and was a member of several organizations, including the local Republican Party, VFW and American Legion. At the time of his passing, Bobby served as Head Doorkeeper in the Indiana House of Representatives.

Though Bobby sadly has passed away, he leaves a strong legacy that will continue to serve as a powerful example to all who knew him. I offer my sincere condolences to his loving wife Ann Jo, daughter Kathie, and sons Michael, Gary, and Tony.

TRIBUTE TO AFRICAN PASSAGES

HON. JAMES E. CLYBURN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CLYBURN. Madam Speaker, I rise today to congratulate the National Park Service on the dedication of its newly installed museum exhibit African Passages, which will be housed at the Fort Moultrie Visitors' Center in Sullivan, South Carolina. It gives me great pleasure to acknowledge this scholarly contribution to our historical memory.

Historians estimate that slave ships brought 200,000 to 360,000 men, women, and children into Charleston's harbor. Between 1707 and 1799—when arriving ships carried infectious diseases—their free or enslaved passengers were quarantined either aboard ship or in island "pest houses." This painful history makes Sullivan's Island a gateway through which many African Americans can trace their entry into America. This exhibit thoughtfully examines the role of Sullivan's Island as a quarantine station during the international slave trade when Charleston was the main port of entry for captive Africans in North America.

The exhibit includes the haunting Middle Passage charcoal of Thomas Feelings and the exuberant Gullah art of Jonathan Green. West African objects, leg shackles and an 1803 slave identification badge are among the artifacts on display, which are on loan from the collection of the Avery Research Center for African American Culture at the College of Charleston.

The historical display also includes the story of Priscilla and her 7th generation granddaughter's return to Sierra Leone, which spans three centuries and provides a modern day link from Charleston across the Atlantic. The narrative of Priscilla places a stronger human element on the hundreds of thousands of persons oppressed by slavery. We owe a great debt to historians Edward Ball and Joseph Opala whose scholarship uncovered this timeless tale.

I would also like to acknowledge journalist Herb Frazier, who wrote the text; Studio Displays of Charlotte, NC, who created and installed the exhibit; and the Committee of Descendants, which provided an early investment for the project in 2004. In addition, I would like to thank Michael Allen of the National Park Service. The Remembrance Committee of Charleston has also been instrumental with the completion of the project. Their contributions and service to this initiative are greatly appreciated.

Legendary conductor of the Underground Railroad, Harriet Tubman said, "Every great dream begins with a dreamer. Always remember, you have within you the strength, the patience, and the passion to reach for the stars to change the world." The election of President Barack Obama has brought long due historic change to our country. It is important,

however, to also pay homage to the singular events that defined a country and its people. This exhibit seeks to engage not only the Charleston community, but also the American community about its painful past, which I believe is a prelude for a brighter future for our country.

Madam Speaker, please join me in celebrating the dedication of African Passages in Sullivan, South Carolina. I commend the community and all the stakeholders for their hard work and vision to bring this exhibit to fruition.

A TRIBUTE TO LORNA KHAN

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Lorna Khan.

Lorna Khan was born in Guyana in South America. She had her elementary and secondary school training in Guyana and migrated to the United States to pursue college education in January of 1973. She attended Andrews University in Berrien Springs Michigan where she graduated with a Bachelors Degree in Biology and minor in Chemistry in June of 1977. After graduation she attended New York University in September of 1977 to study Public Health with a focus on nutrition and alcoholism as well as international health. During her two years at New York University, she traveled to the University of the West Indies in Jamaica, West Indies to study their health care system. During her time as a student she worked at Long Island College Hospital Alcoholism center and graduated with her Masters degree in June 1979.

In December 1980, she joined the staff at the Brooklyn Jewish Hospital as data manager for the Oncology department. She supported the Oncologists and Hematologists in their investigative trials of experimental drugs in the hopes of finding a cure for cancer. In 1982 she applied for and was hired as a data coordinator for cancer research at the Montefiore Medical Center. The team of doctors, pharmacists, drug company representatives joined with researchers to look closely at experimental drugs and trying to find a cure for many cancers such as lung, ovarian, breast, cervical, lymphomas and leukemia to name a few.

In October 1984 she joined the Department of Health as a Health Coordinator in Middle School 35 in Brooklyn. Her focus was on adolescent health issues in particular, pregnancy prevention, nutrition education, health referrals and management and suicide prevention. She received training in AIDS education and worked closely with teachers to promote healthy living by junior high school students. After feeling the need to make a greater impact on the education of the young, she began a career with the Department of Education in 1987 as an elementary school teacher at PS 250 in Williamsburg, Brooklyn. After 2 years she accepted a call to return to middle school this time as a mathematics teacher at IS 33, Bedford Stuyvesant, Brooklyn. For the next 13 years she worked as a mathematics teacher,

academic intervention teacher and staff developer.

In 2002 she became the Assistant Principal for mathematics at MS 88 in Park Slope, Brooklyn. The school had just been identified as a SURR school (School Under Registration Review) for below performance literacy and mathematics. She worked with three other Assistant Principals to change the culture of the school and support high expectations for teaching and learning. In the fall of 2004 the school had improved students' performance in both literacy and mathematics and was removed from the SURR list. This was celebrated in a press release done by the Mayor and Chancellor at the school. In February of 2005 she was recruited to be the Principal for the Samuel C. Barnes Elementary School, PS 54. After being in middle school for most of her career, she was hesitant to take on the responsibility as Principal for an elementary school. However, with much prayer and thoughtfulness she accepted the challenge and has been working to bring change to her community. Her goal is to promote an environment where everyone is valued and respected.

It has been a fulfilling time for her as a teacher and administrator and she will continue to do her best to support high levels of teaching and learning for students at this level.

FOOD SAFETY IN RETIREMENT COMMUNITIES

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to introduce legislation to ensure that food served in nursing homes is safe and nutritious. Recently a constituent from my district visited me to discuss food safety and nutrition in nursing homes. He is a Director of Dining Services at a nursing home in Prince William County. Based on his experience, he suggested that requiring Medicare and Medicaid food service facilities, like nursing homes, to have Certified Dietary Managers or qualified dietitians as food service managers would ensure that food served in these facilities is safe and nutritious.

The legislation I have introduced today would require that Medicare and Medicaid food service facilities have either a qualified dietician or Certified Dietary Manager as director of food services. A qualified dietician has four years of training in college, and a Certified Dietary Manager must complete a rigorous food preparation program. This is a commonsense requirement to ensure that senior citizens have safe food, and is particularly important as our population ages.

I would like to emphasize that this proposal came from a local business, and has the support of other companies that operate nursing homes in my district. I am pleased to have the opportunity to work with our partners in the business community to introduce this legislation, which could help protect the health of seniors across the country.

CONGRATULATING THE CALIFORNIA STATE UNIVERSITY, NORTHridge BASKETBALL TEAM

HON. BRAD SHERMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 18, 2009

Mr. SHERMAN. Madam Speaker, I rise today to congratulate the California State University, Northridge (CSUN) men's basketball team for winning the Big West Conference title and earning a spot in the prestigious NCAA Tournament for the second time in its NCAA Division I history.

The Matadors reached this year's tournament by winning a hard-fought Big West Conference title game against University of the Pacific. The Matadors amassed an impressive 17-13 overall record and 11-5 conference record. CSUN led all team categories in the Big West Conference in scoring, rebounding, field goal percentage defense, 3-point field goal percentage defense, rebound margin, and steals.

The Matadors men's basketball team is led by head coach Bobby Braswell, Big West Coach of the Year for a second straight season. He is assisted by a talented and skilled coaching staff including Danny Sprinkle, James Blake, Ryan Dodd, Steve Grech, Bob Vazquez and Louis Wilson.

CSUN is a vibrant, diverse university community of nearly 34,000 students and more than 4,000 faculty and staff, sited on a 356-acre campus in the heart of Los Angeles' San Fernando Valley—a region of over 1.8 million people.

CSUN was founded in 1958 as San Fernando Valley State College and adopted its current name in 1972. Today, it is one of the largest universities in California.

Madam Speaker, I wish to congratulate the Matadors for winning the Big West Conference title and earning a berth in the NCAA Tournament. I am proud of their sportsmanship, athletic excellence, and winning spirit during the regular season, and I wish them all the luck in the NCAA Tournament.

A TRIBUTE TO GENISUS THOMPSON

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Genisus Thompson. Genisus, a native of Greenville, North Carolina, has lived in the East New York community for the past 20 years. Married to the late Dwight Thompson, the love of her life is her son, Anthony. Genisus graduated from Thomas Jefferson High School, attended Kingsborough Community college and then proceeded to study Labor Law at Harry Van Arsdale Jr. Institute.

As an East New York resident, she has devoted a great deal of her time to helping the community to be a better place to live. For example, Genisus has been a member of the

75th Precinct Community Council since 1980 where her efforts and devotion has been instrumental in uplifting her community. Genisus received an award from the 75th Precinct Community Council for outstanding service and dedication. She attended and graduated from the Citizens Police Academy in June of 2007.

Genisus was employed at the Metropolitan Jewish Geriatric Center for 32 years as Chief Switchboard Operator, she was also a shop delegate for Local 1199, 114 division, and retired in June, 2006. In addition to these daily responsibilities, she is an active member of Liberty Baptist Church. Genisus's civic activism includes membership in the Milford Street Block Association and member of the North Brooklyn Democratic Party.

OPERATION OF HYBRID VEHICLES IN HIGH OCCUPANCY VEHICLE LANES

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to introduce legislation that would allow the Commonwealth of Virginia to continue permitting hybrid automobiles with a single occupant to use High Occupancy Vehicle (HOV) lanes in the state. Virginia's General Assembly passed legislation allowing hybrids to use HOV lanes in order to encourage the purchase of these low emission vehicles. This policy has been very successful, as Northern Virginia has achieved rates of hybrid ownership that are among the highest in the country.

Hybrid ownership is important because most families take ten vehicle trips per day; when a family purchases a hybrid they not only reduce emissions during daily commutes but also during errands and other trips. Moreover, the purchase of hybrids helps create greater demand for these vehicles, expediting the rate at which car companies can reach economies of scale in hybrid production.

Data on lane usage of HOV lanes in Northern Virginia show that 60% of the vehicles in HOV lanes have 2 passengers, 20% are violators, and 20% are single occupant hybrids. Before prohibiting hybrids from using HOV lanes, we must enhance law enforcement to discourage cheaters from using these lanes.

Without passage of this legislation, federal law will pre-empt the General Assembly from having the authority to allow hybrids to use HOV lanes. It would be unfortunate if lack of federal action precluded the state from continuing a policy that has been so successful.

A TRIBUTE TO ROSE CARTER

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Rose Carter, a strong upbeat presence in the Brooklyn community.

Rose Carter is a cheerleader. She has strong family values and from an early age demonstrated a deep commitment to her community.

Rose jump-started her community service at The Midwood Development Corporation, Brooklyn, New York, working as a youth coordinator. She took her job seriously and developed and implemented many multicultural programs. She also spearheaded workshops that highlighted self awareness, good citizenship, tolerance and volunteerism.

While at Midwood, she expanded her learning by taking advantage of an opportunity to work as a merchant liaison. In this role, she utilized the relationships which she had cultivated to provide resources for an intergenerational art show; she created the show in an attempt to bridge the gap between the young and the elderly.

Currently Rose Carter works at PS 260 Breuckelen School. There she is known for her hallway presence and commitment to motivating the school community. Rose Carter's everyday efforts are focused on rallying everyone she comes in contact with to have a good day. As the parent coordinator she is dedicated to improving the quality of life for the school population and their families. Rose Carter is very passionate about her work and gives beyond the required responsibilities of the job.

During the Hurricane Katrina disaster, Rose Carter was instrumental in helping victims who relocated to New York and had children enrolled in the school. She facilitated a connection of a Moroccan couple that spoke very little English with a Pakistani group that spoke their native language. This is just one example of her dynamism and devotion.

Rose seeks out civic minded people like herself and she inspires people of all ages and socioeconomic backgrounds to seek and celebrate excellence.

She is a mother, motivator and a consummate optimist.

EXTENSION OF METRORAIL'S ORANGE, YELLOW, BLUE, AND PURPLE LINES

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to introduce legislation to authorize extension of Metrorail's Orange, Yellow, Blue, and Purple lines. I appreciate Mr. JIM MORAN's co-sponsorship of this legislation. I represent a district with the fourth worst congestion in the country. These traffic conditions diminish the economic productivity of our region while contributing to climate change.

While the local Board of Supervisors has worked to transform land use patterns in order to focus development around Metro stations, we only have five Metro stations in Fairfax County and thus have limited capacity to encourage Transit Oriented Development. In Prince William County, there are no Metrorail stations, and my constituents in Prince William must confront congestion nearly every day on

their way to work. Fortunately, both Prince William and Fairfax County are served by the Virginia Railway Express. This commuter rail service is filled to capacity on a daily basis, as is the Metrorail system in Northern Virginia, suggesting a pressing need to expand transit service.

The Metrorail extensions that I have proposed would enhance transit service in the I495, I95, and I66 corridors. Residents of Centreville, Lorton, Woodbridge, and other communities that currently lack Metrorail access would have the option to commute on Metro, which would enhance the quality of life of my constituents while stabilizing housing values and reducing greenhouse gas emissions. During the present economic crisis, homes in Northern Virginia that are located near transit have maintained their value relative to homes only served by highways. For the sake of communities that are threatened by extremely high rates of foreclosure, extension of transit service can be a force for economic revitalization.

This proposed extension of transit service is consistent with local government policies. For example, the Fairfax County Board of Supervisors supports extension of Metrorail in the I66 corridor and in the I95 corridor. This legislation is crafted to give local governments flexibility in locating the stations and determining what type of rail infrastructure to construct. This flexibility is essential to ensure that these transit extensions reflect the needs of Northern Virginia residents and to ensure that we maximize the economic development potential inherent in these Metrorail extensions.

I am proud to offer this legislation that may create the opportunity for our local, state, and federal levels of government to collaborate on extension of transit service. This legislation is essential for the long term vitality of Northern Virginia's economy, neighborhoods, and environment.

A TRIBUTE TO PAMELA TATE-MCMULLEN

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Pamela Tate-McMullen a Parent Coordinator in the Department of Education.

Mrs. Pamela Tate-McMullen was born and raised in Brooklyn, New York where she presently resides with her husband, John and son Justin.

Mrs. Tate-McMullen is a Parent Coordinator in the Department of Education, serving at Bedford Academy High School in Brooklyn, New York. Since the inception of the position of Parent Coordinator (2003), Pamela has served in various capacities working both with the founding leader of Bedford Academy, Mr. George Leonard, and too with the present leadership of Mr. Adolfo Muhammad. Her duties include, but are not limited to: (1) increasing parent involvement in the school by working closely with school-wide, parent and community organizations, (2) convening regular

parent meetings and events around topics of key concerns to parents and other stakeholders, and (3) maintaining ongoing contact with community organizations that are involved with providing services to the schools' educational program such as the Bedford Stuyvesant YMCA, media contacts and key members of the public who are also interested in the ongoing success of Bedford Academy High School.

Mrs. Tate-McMullen and her family are proud members of Christian Cultural Center in Brooklyn, New York, where Pamela serves on the Hospitality Team. One of Pamela's favorite pastimes is singing with the renowned 50's group, the Bobbettes, where she has traveled both locally and internationally.

A vibrant, creative member of the Bedford Academy/Bedford Stuyvesant YMCA team, Pamela has consistently contributed to a congenial relationship between Bedford Academy High School and the governing members and staff of the Bedford Stuyvesant YMCA.

**HONORING THE MILITARY POLICE
COMPANY, QUANTICO MARINE
CORPS BASE**

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, it is my great honor to rise today to recognize a group of outstanding public servants in Northern Virginia. These individuals have demonstrated superior dedication to public safety and have been awarded the prestigious Valor Award by the Prince William County Regional Chamber of Commerce.

It is with great pride that I submit into the Record the names of the recipients of the 2009 Valor Award serving in the Military Police Company at Quantico Marine Corps Base.

Recipients of the Lifesaving Award: Sergeant Adam J. Pieper, Sergeant David A. Eynon

Recipient of the Merit Award: Corporal Kyle Raczkowski

Madam Speaker, I would like to take this opportunity to thank all of the men and women who serve in the Military Police Company at Quantico Marine Corps Base. Their efforts, made on behalf of the citizens of Prince William County, are selfless acts of heroism and truly merit our highest praise. I ask my colleagues to join me in applauding these remarkable individuals.

A TRIBUTE TO NICOLE BAYLEY

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Nicole Bayley, a socially conscious bank manager that enjoys giving back to her community.

Nicole Bayley is an Assistant Vice President/Branch Manager for Carver Federal Sav-

ings Bank, one of the largest African and Caribbean American run banks in the nation.

Ms. Bayley is a highly intelligent banker and is responsible for multimillion dollar deposit generation and currently ranks second in the entire branch network for deposits (outside of the corporate headquarters).

Before she took the position at Carver Federal Savings Bank, Nicole spent seven years each at HSBC Bank and Citibank NA respectively. Two of the largest and most recognized global financial leaders, Ms. Bayley used her time in these institutions to learn and eventually gained a wealth of knowledge about the retail banking sector.

Ms. Bayley is an active member of the Fulton-Nostrand United Merchants Association (FNUMA) and holds a number of accolades and distinctions including recognition as a Business Visionary for her business and community leadership.

She uses her role in the FNUMA to recognize individuals, business and organizations that help keep a clean, safe and vibrant Bedford-Stuyvesant Gateway Business District.

**HONORING THE PRINCE WILLIAM
COUNTY DEPARTMENT OF FIRE
AND RESCUE**

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, it is my great honor to rise today to recognize an outstanding group of public servants in Northern Virginia. These individuals have demonstrated superior dedication to public safety and have been awarded the prestigious Valor Award by the Prince William County Regional Chamber of Commerce.

It is with great pride that I submit into the RECORD the names of the recipients of the 2009 Valor Awards serving in the Prince William County Department of Fire and Rescue.

Recipients of the Lifesaving Award: Technician Robert McParland, Technician Nicholas Feliciano, Technician Ryan Kirk, Technician Michael Hendrickson, Technician Walter Hunt, Technician Scott Coloe, Technician Brennan Gilligan, Technician Victor Vega.

Recipient of the Silver Valor Award: Technician Michael Anthony.

Madam Speaker, I would like to take this opportunity to thank all of the men and women who serve in the Prince William County Department of Fire and Rescue. Their efforts, made on behalf of the citizens of Prince William County, are selfless acts of heroism and truly merit our highest praise. I ask my colleagues to join me in applauding these remarkable individuals.

**A TRIBUTE TO MAXINE
HAMILTON-ALEXANDER**

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Maxine Hamilton-Alexander.

Maxine Hamilton-Alexander "Maxx" is a creative mind that knows "don't worry about a thing, because every little thing is going to be alright". This philosophy is helping to fulfill her dream. She operates an Events Planning & Management Company, Blue Mango LLC, along with spearheading Hamptonians New York (HNY) a nonprofit organization. With the drive, passion to excel and energy that buoys all who interact with her, Maxx is applying her skills and heart, determined to wear her glass slippers.

Besides a proverbial "heart" Maxx brings enthusiasm and the attention to detail it takes to execute exciting and seamless events. She possesses highly developed networking and negotiating skills that are helping her solidify relationships. She stresses that her strength and aspirations are encouraged and accentuated by her children. "They keep me informed, thinking, responsible, engaged, mindful and youthfully fashionable". Maxx also says her most beguiling moments are watching the young ones grow, testing, exploring, maturing.

For over fifteen years Mrs. Hamilton-Alexander has dedicated time and expended personal funds working to enrich the lives of young people. In 2002, urged by her colleagues she incorporated HNY and in 2003 "Gifts from My Heart" was established to bring cheer into the lives of children who need to know someone cares. 2005 Brooklyn came alive with more sounds and rhythms of the Caribbean when her and her team launched the Brooklyn Caribbean Youth Fest.

Mrs. Hamilton-Alexander has spent many hours during the last five years enlisting civic-minded people, seeking advice and building a cohesive committee, while growing Brooklyn Caribbean Youth Fest into an impressive example of artistic excellence. Performances at the festival highlight in celebration, the diverse Culture of Caribbean-Americans. The many cultures of the Caribbean region are saluted with folk songs, dances and poetry. This is a no-nonsense event that boasts performers trekking from as far away as Trenton, New Jersey to strut their stuff.

To date, HNY has served over 5,000 NYC youth through programs and events. Additionally, Mrs. Alexander-Hamilton is a volunteer at PS 260, Prospect Park Youth Council and serves on Brooklyn College World AIDS committee. She also makes direct donations that supplement tuition for students at the Hampton School, Jamaica, West Indies, through an annual Merit Award. Maxx diligently beats the bushes and finds resources necessary to implement her programs which help to nurture young minds. Maxx's dedication to youth and her natural bent for perfection continuously reinforces her reputation as a woman who is unarguably committed to serving the youth.

She received her education from Brooklyn College here in the USA as well as the Jamaica School of Arts, Jamaica. She is happily married to her husband Andrew Alexander with whom she has three lovely daughters Ebony, Amber and Ayana.

HONORING THE PRINCE WILLIAM-
MANASSAS REGIONAL ADULT
DETENTION CENTER

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, it is my great honor to rise today to recognize two outstanding public servants in Northern Virginia. These individuals have demonstrated superior dedication to public safety and have been awarded the prestigious Valor Award by the Prince William County Regional Chamber of Commerce.

It is with great pride that I submit into the RECORD the names of the recipients of the 2009 Valor Awards serving in the Prince William-Manassas Regional Adult Detention Center.

Recipient of the Merit Award: Master Jail Officer Brian Daily

Recipient of the Silver Valor Award: Jail Officer Chester Outland

Madam Speaker, I would like to take this opportunity to thank all of the men and women who serve in the Prince William-Manassas Regional Adult Detention Center. Their efforts, made on behalf of the citizens of Prince William County, are selfless acts of heroism and truly merit our highest praise. I ask my colleagues to join me in applauding these remarkable individuals.

A TRIBUTE TO MRS. OPHELIA
YOUNG PERRY

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Mrs. Ophelia Young Perry pillar of the Brooklyn Community.

Mrs. Ophelia Young Perry is a native of Buckingham County, Virginia. She presently resides with her husband, Mr. William Frank Perry, Jr. in the Flatbush section of Brooklyn, New York. The Perry's have one son, Rev. William Franc Perry, III, Esq.

She has been an active member of the Berean Missionary Baptist Church in Brooklyn for over 56 years. Mrs. Perry is genuinely involved in community and civic affairs. She is the President of Church Women United in Brooklyn. Church Women United (CWU) is the world's largest ecumenical movement of Christian women. Under Mrs. Perry's leadership, the movement's membership has increased to include over 700 Christian women. It is the largest unit of CWU in the country.

In response to shrewd spiritual insight, Mrs. Perry conceived the idea for an observance centered around the "Seven Last Words of Christ." For the past 25 years ecumenical worship begins at 7:00 A.M. on Good Friday and the attendance continues to grow. These services have been held in various community churches and have continued to draw over 4000 worshipers. Participants travel throughout the metropolitan area and from many other

parts of the United States to attend this annual worship celebration. Additionally, she organized the initial Annual Award's Luncheon for the organization and continues to provide her expertise in this worthy cause today.

Under Mrs. Perry's leadership, the Brooklyn Unit of CWU sponsors many other activities to raise funds to make contributions to others in need, including: Holiday sharing, contributions to World Church Services, Rose F. Kennedy Residence for Girls, Project Teen Aid, Herbert G. Birch Services, Antigua/Barbuda Cultural Society, Inc, Fund for Burned Churches, Bedford-Stuyvesant Volunteer Ambulatory Service, Hurricane Floyd Victims in North Carolina and they provide aid to orphaned foreign sisters living in the U.S. She is also affiliated with Berean Missionary Baptist Church, The Women's Civic League of Abyssinian Baptist Church, the Black and Puerto Rican Caucus, the Eastern Baptist Association, Spouses of the Black Congressional Caucus and is a member of the National Council of Negro Women of Brooklyn.

She has won numerous awards for her work including: Women of the Year Award—The National Conference of Christians and Jews, Salute to Brooklyn Women Leadership Humanitarian Award—The Brooklyn League, The Woman's History Month Honoree—Brooklyn District Attorney, The Caribbean American Award—Chamber of Commerce, Outstanding Service Award—The Council of Churches, City of N.Y., Woman of Influence Award—Brooklyn YWCA, Thomas R. Fortune Community Service Award—Unity Democratic Club, Valiant Woman Award—Church Women United, Sandy F. Ray Award—Religious and Humanitarian Award—Cornerstone Baptist Church, Religious Award—People's Institutional AME Church, Religious Award—New Life Tabernacle Life Changing Ministries, Congressional Record United States House of Representatives, Woman of the Year for Community Service—Bridge Street AME Church, "Brooklyn Women of Essence" Con Edison and, finally, National Association of Negro Business and Professional Women, Global Ministries Humanitarian Award and International Affairs Division.

After working for 18 years for Borough President Howard Golden as Liaison to the Christian Community, Borough President, Marty Markowitz appointed her as Good Will Ambassador for Brooklyn Churches.

HONORING THE OCCOQUAN-
WOODBIDGE-LORTON VOLUN-
TEER FIRE DEPARTMENT

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, it is my great honor to rise today to recognize an outstanding public servant in Northern Virginia. This individual has demonstrated superior dedication to public safety and has been awarded the prestigious Valor Award by the Prince William County Regional Chamber of Commerce.

It is with great pride that I submit into the RECORD the name of the recipient of the 2009

Valor Award serving in the Occoquan-Woodbridge-Lorton Volunteer Fire Department.

Recipient of the Silver Valor Award: Firefighter Kurt Bolland.

Madam Speaker, I would like to take this opportunity to thank all of the men and women who serve in the Occoquan-Woodbridge-Lorton Volunteer Fire Department. Their efforts, made on behalf of the citizens of Prince William County, are selfless acts of heroism and truly merit our highest praise. I ask my colleagues to join me in applauding these remarkable individuals.

A TRIBUTE TO ANGELI R.
RASBURY

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Angeli R. Rasbury.

Angeli Rasbury is a writer, educator, artist, attorney and founder of Griot Reading Programs, which is dedicated to promoting literacy among youth of African descent and Black literature. She teaches poetry and creative writing to children as young as five-years-old and teens at the Brooklyn-Stuyvesant Restoration Corporation and New York Writers Coalition. She has facilitated book clubs for middle school and high school students and elders. The reading scores of every middle school student with whom she worked improved. Her writing students have received awards from teachers and city council members. She has been an instructor of creative nonfiction and memoir at the Frederick Douglass Creative Arts Center in New York City and has taught creative writing, college composition and African American literature at Molloy College in Long Island. Ms. Rasbury has worked with girls in a rites of passage program and works with girls involved in the juvenile-justice system. She has organized readings and book programs for children, including programs for the annual Rhymes, Rhythms and Rituals Festival sponsored by African Voices, and literary programs for the adults. She has worked with elders, collecting oral history for Elders Share the Arts. She has been a panelist in the grant review process for artists for the Brooklyn Arts Council. Ms. Rasbury is a member of the New Renaissance Writers Guild and has been a member of the Richard Wright Project and PEN American Center Open Book Committee.

As the youth services community and partnerships associate at the central branch of the Brooklyn Public Library, Ms. Rasbury has provided family-oriented Kwanza and Martin Luther King Program, Jr. Day programs where the focus is the young people in our community. She has provided a monthly art program for two years and provided an opportunity for our youth to work with award-winning and emerging artists, providing arts enrichment for youth and supporting the artists. She has partnered with various community organizations to promote literacy and youth and community development. A former editor for Black

Issues Book Review and QBR: The Black Book Review, other magazines, and community newspapers. Her essays, book reviews, profiles, features and interviews have been published in *Essence*, *American Legacy*, *Black Enterprise*, *The Source*, *Vibe*, and other magazines and online at womensenews.com, for which she is the girls' beat reporter and focuses on detention and incarceration topics. She received a PASS Award (the only national recognition of print and broadcast journalists, TV news and feature reporters, producers, and writers, and those in film and literature who try to focus America's attention on our criminal justice system, juvenile justice system, and child welfare systems in a thoughtful and considerate manner) from the National Council on Crime and Delinquency for her article "Out of Jail, Mothers Struggle to Reclaim Children". Ms. Rasbury's short stories have appeared in *Anansi: Fiction of the African Diaspora*. She has been quoted in the *New York Times*, *Mosaic* and *Brooklyn Rail* and co-edited *Sacred Fire: The QBR 100 Essential Black Books*. She was awarded the DorisJean Austin Fellowship for African American Fiction Writers by the Frederick Douglass Creative Arts Center and has been a panelist at writing and publishing conferences. She performed in *Talkin' Brooklyn: A Story Circle Showcase of Elders Share the Arts and Diary of a Mad Black Feminist*.

Angeli Rasbury has been keynote speaker for the Yellow Rose Awards Program for New York University's College of Arts and Science and the Brooklyn Public Library's Friends and Volunteers luncheon. She holds a B.S. from Syracuse University and a J.D. from Temple University. She practiced criminal defense law as a senior attorney with the Legal Aid Society, Criminal Defense Division. She has taught high school students various areas of the law and civil rights issues through the Law Education and Assistance Program and the New York Civil Rights Coalition and was executive director of the Nkutu Center for Education and Culture. Her photography has been published and exhibited. In her spare time she designs jewelry and loves to travel. She lives in Brooklyn, New York. She spends a lot of time with her nieces and nephews, family and friends.

HONORING THE PRINCE WILLIAM COUNTY POLICE DEPARTMENT

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, it is my great honor to rise today to recognize an outstanding group of public servants in Northern Virginia. These individuals have demonstrated superior dedication to public safety and have been awarded the prestigious Valor Award by the Prince William County Regional Chamber of Commerce.

It is with great pride that I submit into the RECORD the names of the recipients of the 2009 Valor Awards serving in the Prince William County Police Department.

Recipient of the Lifesaving Award: Officer Stephen Mercer

Recipients of the Merit Award: Officer Cottrell Derrick, Officer Jessica Tacha

Recipients of the Hillary Robinette Award: Detective Liam Burke, Detective Todd Troutner

Recipients of the Bronze Valor Award: Henry DeGeneste, Officer Jeanne West

Madam Speaker, I would like to take this opportunity to thank all of the men and women who serve in the Prince William County Police Department. Their efforts, made on behalf of the citizens of Prince William County, are selfless acts of heroism and truly merit our highest praise. I ask my colleagues to join me in applauding these remarkable individuals.

A TRIBUTE TO BETTY J. GIBBS

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 19, 2009

Mr. TOWNS. Madam Speaker, I rise today in recognition of Betty J. Gibbs, a nurturing presence who has been working with the children of Brooklyn for 40 years.

Ms. Betty J. Gibbs, lovingly known to her students as Ms. G and "Granny" to her

"grandbabies," has been an influential figure in the lives of so many people. Ms. Gibbs began her work with students in January of 1968 as a paraprofessional with the NYC Board of Education. She held this position until 1998. She provided general supervision and instruction to small groups of children from grades one through six in math and reading.

In June of 1979, Ms. Gibbs became Site Supervisor for St. Christopher's Group Home. There, Ms. Gibbs was responsible for overseeing the home and the care of the girls that comprised the home, ensuring all the necessities and personal needs are met. She remained a positive inspiration in their lives until August of 1988.

Ms. Betty Gibbs obtained a position as the After School Program Director for Junior High School 275. There, she managed all aspects of the program. She held that position from March 1987, until June of 1988.

Throughout this time, Ms. Gibbs managed to go to school for herself obtaining an A.A.S. from New York Community College in 1973 and a B.A. of Education from Medgar Evers College in 1988.

In 1981, Ms. Gibbs became the Site Supervisor for the Jackie Robinson Center for Physical Culture. For the following 12 years she directed the ten components that comprised the program, as well as developed a multitude of events to help unify the community surrounding the center.

In June of 2003, Ms. Gibbs began working with the Soul Tigers Marching Band, Inc., as Assistant Band Director. There, she is like a second mother to the children. All the students love her and appreciate her nurturing presence in their lives.

She has won a number of awards in her life including: *Unsung Hero* (1996), *Diamond Award* (1993), and awards from The Joint Board of Ushers (1983), the United Community Baptist Church (1982) and Junior Glee Choir St. Marks Church (1976).

SENATE—Monday, March 23, 2009

The Senate met at 2 p.m. and was called to order by the Honorable JIM WEBB, a Senator from the Commonwealth of Virginia.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

O God, our Father, who in the ancient days led people to Your truth, draw us to the paths that lead to life. Lord, strengthen our lawmakers for today's work. May they place what is good for our Nation above partisan concerns and party loyalty. Give them the faith and courage to seek to build a world that fosters unity and cooperation and eliminates suspicion and distrust. Take from them distracting worries, as You infuse them with greater trust in You. Make them satisfied to serve You with faithfulness, seeking to please You in all that they say and do.

We pray in the Redeemer's name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JIM WEBB led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, March 23, 2009.

To the Senate:

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JIM WEBB, a Senator from the Commonwealth of Virginia, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. WEBB thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, we expect to extend morning business until 4

o'clock. We only have consent now to do it until 3 o'clock. We will return later for that.

During the time of morning business, we will have 10-minute speeches by Senators. Following morning business, the Senate will resume consideration of the motion to proceed to H.R. 1388, a bill to reauthorize and reform national service laws. At 6 p.m. this evening we will vote on a motion to invoke cloture on a filibuster preventing us from proceeding to H.R. 1388.

MEASURES PLACED ON THE CALENDAR—H.R. 1586 and S. 651

Mr. REID. Mr. President, it is my understanding that two bills are at the desk and due for a second reading.

The ACTING PRESIDENT pro tempore. The clerk will read the titles of the bills for the second time.

The legislative clerk read as follows:

A bill (H.R. 1586) to impose an additional tax on bonuses received from certain TARP recipients.

A bill (S. 651) to amend the Internal Revenue Code of 1986 to impose an excise tax on excessive bonuses paid by, and received from, companies receiving emergency economic assistance, to limit the amount of nonqualified deferred compensation that employees of such companies may defer from taxation, and for other purposes.

Mr. REID. Mr. President, I object to any further proceedings with respect to these bills en bloc.

The ACTING PRESIDENT pro tempore. Objection is heard.

The bills will be placed on the calendar.

EXTENSION OF MORNING BUSINESS

Mr. REID. Mr. President, at 4 p.m. today we are going to proceed to the national service legislation. I ask unanimous consent that the period for morning business be extended until 4 p.m., under the condition of the previous order; that the Senate resume consideration of the motion to proceed to H.R. 1388 at 4 p.m., with the time until 6 p.m. equally divided and controlled between Senators MIKULSKI and ENZI, the managers of the bill, or their designees; that the 10 minutes immediately prior to the 6 p.m. vote be controlled equally between the leaders or their designees; that at 6 p.m., the Senate proceed to vote on the motion to invoke cloture on the motion to proceed; further, that if cloture is invoked, then postcloture time continue to run during any period of morning business, recess, or adjournment of the Senate; further, that the remaining

provisions of the previous order continue to be in effect.

The ACTING PRESIDENT pro tempore. Is there objection? Without objection, it is so ordered.

SERVE AMERICA ACT

Mr. REID. Mr. President, this afternoon we are going to begin work on the national service legislation. My message to the Senate today is that we are going to finish this legislation this week. We have to. We must start on the budget next week. This is bipartisan legislation. Senators HATCH, KENNEDY, and others have worked very hard on this legislation. There is no reason we should not finish this very quickly. But we will see.

There has been a lot of work done to get us to this point. We are going to move forward. If it is necessary that we work on Friday and Saturday or even Sunday, it is important that we do that so we can start the budget on Monday. Everybody should be warned about that as far as weekend travel. It all depends on what the minority does regarding this bill. Again, everyone should know it is bipartisan, and we need to complete it before we do the budget.

Last week I spoke to a group of young men and women from around the country who are being honored for their commitment to public service. In recent years, vast numbers of young people have sought private sector fields such as finance and banking. There is nothing wrong with their trying to do well, but in this hour of economic crisis for our country, it was encouraging to meet with a group of young people who have made the choice not to do well but to do good.

Americans may find themselves with less time and money to donate to their causes than in previous years, to charities, but we remain a generous country. It is fitting that the Congress now move to the consideration of the Serve America Act, bipartisan legislation cosponsored by 35 Senators, championed by Senators KENNEDY and HATCH and led this week by Senators MIKULSKI and ENZI.

The Serve America Act will provide better opportunities for Americans of all ages, from all regions and walks of life, to answer the call to service.

This legislation builds on the success of the AmeriCorps program with the goal of increasing the number of volunteers from 75,000 up to 250,000.

This bill also creates several new volunteer corps with specific missions in areas of national need: An education

corps to help increase student achievement and graduation rates; a healthy future corps to improve access to health care; a clean energy corps to encourage energy efficiency and conservation measures; a veterans corps to assist our Nation's veterans; and an opportunity corps to assist the economically disadvantaged.

The Serve America Act finally increases the education award for full-time volunteers and links it to increases in the maximum Pell grants.

I urge my colleagues to honor the selfless commitment to a better country that Americans are making in their communities every day by passing this outstanding legislation.

Mr. President, we will also continue meeting to negotiate over President Obama's budget this week. The President's framework sets the right priorities for the country, and Chairman CONRAD continues to work with Democrats and Republicans to strengthen the budget.

We must remember that as deep as our immediate problems may be, the worst mistake we could make is to stop investing in the future. We need a budget that lays the groundwork for an economy that doesn't just recover in the short term but prospers in the long term.

That is why we must invest in education, health care, and renewable energy. These are not optional projects worth saving for better times; we are saving for better times. They are requirements for job creation and long-term economic recovery.

This budget must provide tax relief for working Americans who are struggling under the weight of rising prices and decreasing household incomes.

As we work our way through the budget process, Democrats and Republicans will not agree on everything. But I think we can all agree it is long past time that we get a budget that puts the American people first.

Finally, last week, I followed action from the House of Representatives by offering by unanimous consent legislation that would recoup the outrageous bonuses paid by AIG to its executives. Unfortunately, despite joining Democrats and the American people in their calls for action, there was a Republican objection to my request.

Despite last week's Republican objection to passing the AIG bonus bill, we will continue to work to right this egregious misuse of taxpayer dollars. Republicans have asked for more time to study the legislation, and they are entitled to that. With Republican cooperation, we can quickly and responsibly return these funds to the American people.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to a period of morning business until 4 p.m., with Senators permitted to speak therein for up to 10 minutes each.

The Senator from Nebraska is recognized.

THE BUDGET

Mr. JOHANNES. Mr. President, I rise today to speak about the President's budget outline.

For too long, Washington has promised way too much, without a plan to pay for it. The result is that we face a financial crisis unlike any other generation.

The lesson is that we must not overpromise and, therefore, we must not overspend. Americans are making very tough decisions in their daily lives that members of their Government still refuse to make.

Unfortunately, the President's budget outline is an example of this continued pattern. The President's budget fails to chart our country on a path toward prosperity. It exercises far too little restraint and does not even attempt to tackle the massive fiscal imbalance facing future generations.

The budget we have before us, regrettably, is a spending frenzy, a taxing spree, and a borrowing nightmare as big as any that our country has ever seen. The President's first budget can, most definitely, be characterized as unprecedented and historic on many levels. However, a budget that breaks the record for spending the most, taxing the most, and borrowing the most of any budget in history is not the kind of record the American people can afford to see broken.

Let's take a look at the massive tax increase. With a pricetag of \$1.9 trillion, it winds up being the largest tax increase in history. Incredulously, though, not a single penny goes toward deficit reduction.

Now, one might ask, how is it possible that the budget contains the largest tax increase in history, yet not one cent of that increased revenue goes to pay off our Nation's obligations?

I will tell you why—because the budget gobbles up that tax revenue for more spending. When that revenue isn't enough to fund all of the Government expansion, the President's budget just keeps on spending.

There is so much bloated spending that the CBO released an estimate Friday projecting a deficit of nearly \$1 trillion every year for the next 10 years. Our country is faced with an unprecedented deficit. So can anyone answer whether it is sound fiscal policy to tax more just to spend more?

At a time when we must do something to pay off our debt and reduce deficits, the budget simply ignores

these problems. It taxes and it spends, inching this great Nation ever closer to bankruptcy.

One of the specific tax increases found in the President's budget is a proposal to enact a cap-and-trade regime. Estimates predict that by enacting this policy, each household will see an increase of \$3,100 a year in higher energy costs. But not to worry, the President said he is using the money raised from a cap-and-trade program to make the work opportunity tax credit permanent. That credit would provide families with \$800 more a year.

The math is straightforward. Let's do the math: a tax increase of \$3,100 offset by \$800. This is still a net tax increase of \$2,300. Just think, it would take a family of four who makes \$50,000 a year 2½ weeks to earn enough to pay for the new tax. That same family with a \$100,000 mortgage could make about 3 months of mortgage payments or buy 8 months of groceries with that \$2,300.

Beyond the consumer, the cap-and-trade program will have a devastating impact on the farmers in my State. One study found that enacting cap and trade would raise the cost of producing an acre of corn by anywhere from \$40 to \$80 per acre. Folks in Nebraska produce about 9 million acres of corn each year. So we are looking at \$3 billion to \$7 billion more a year in higher input costs for that producer. This would be devastating.

The President's budget also contains harmful tax increases on small businesses—the job engine of our economy. According to the latest figures, small businesses create over 74 percent of all new private sector jobs, employ over half the labor force, and contribute about half of the Nation's output. The last thing our country needs when unemployment is projected to be as high as 10 percent is a tax on the very segment of our economy that creates the majority of the new jobs. It goes against all logic to encourage output productivity and job creation in one breath and then penalize that same success with tax increases in the next.

The small businesses located in towns across Nebraska cannot afford another penny in extra taxes. When I talk with folks back home, I hear how they are juggling the electric bill, the health care costs, working to make payroll, while trying not to lay people off. Why would they believe that their Government wants them to succeed if Congress turns around and slaps a crippling tax increase on them during their most trying time?

Beyond the staggering tax increases contained in the budget, the spending is also the most we have ever seen in history. The pricetag is \$3.6 trillion for 2010. Let me repeat, \$3.6 trillion. To further illustrate the massive spending and subsequent borrowing we would have to undertake, I have a chart regarding public debt that I wish to put up and share.

Last year, the debt held by the public as a percent of gross domestic product was about 40 percent. As my chart depicts, by 2019, this will rise to 82 percent. If you do the math, that is a 100-percent increase. Let's look at the pure dollar amount. The President's budget outline would double the debt held by the public in 5 years and nearly triple it in 10. It goes from \$5.8 trillion in 2009 to \$17.3 trillion in 2019.

Let's imagine for a second if the average citizen behaved as Government is being suggested it should—to sign up for credit card after credit card after credit card, max them all out without making a single payment on the principal, never once scaling back on their spending, and then send an IOU to the company saying: I will pay you some day.

Even our creditors have come forward with doubts regarding our spending behavior. China within the last few weeks has expressed concern. The chief China economist for JPMorgan, Frank Gong, put it this way:

Inside China, there has been a lot of debate about whether they should continue to buy treasuries.

China is already the No. 1 foreign holder of United States debt. If they stop financing our spending, what then? Who will be Uncle Sam's banker when the IOUs catch up with us?

I am extremely worried by the result this runaway spending will create—lower standard of living, inflation spiraling out of control, less economic opportunity for future generations. What if future generations do not have the ability to get a home loan for that first house or student loans to go to college? Isn't it our goal to provide a better life for our grandchildren and children?

In conclusion, let me say that none of us has a crystal ball. I realize the President has a difficult job, but I do know that trying to lead the country out of this mess with bigger Government, runaway spending, massive debt, and tax increases is not the way to go. Future generations deserve better. Making tough decisions has to start somewhere, and I am disappointed that this budget outline passes the buck to another day.

I will wrap up with this. I look forward to working with my colleagues as we debate our Nation's budget next week. I sincerely hope there is a genuine commitment to tackling some of the concerns that I have outlined today.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KYL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

AIG BONUSES

Mr. KYL. Mr. President, I wish to speak briefly to the issue that has been very much on the minds of the American public over the last several days, and that is the bonuses paid to folks who work with AIG, the insurance company that has been the recipient of taxpayer money under the so-called TARP legislation.

A lot of times when Congress acts in haste, it makes mistakes, and one of the concerns I have about the bill we will be taking up is the question of whether we have adequately thought through the exact remedy we want to impose here in order to get the bonus money back. The House of Representatives acted very quickly and passed a very onerous tax bill that would claw this money back. The Senate has a bill that has been written by the chairman and ranking member of the Finance Committee that would be even broader in the sense that it would both tax the company itself as well as the individuals who receive the bonuses. There are a lot of concerns that have been raised over the weekend about both of these approaches. I have urged a little bit of caution here so we don't do the wrong thing again.

One of the reasons we are in the position we are in is because Congress acted in haste. In fact, when the bill was passed that allowed these bonuses, I don't think very many—if any—of our colleagues knew it was in the legislation. After the fact, we learned that the authorization for the bonuses was in the legislation. But when we act quickly and we don't really know what we are doing, we can make mistakes.

I have suggested there be a hearing in the Senate to answer a lot of the questions the public has been asking. Now, the first question is, Exactly who are these bonuses paid to and why? Is it necessary that these people receive the bonuses in order for the Government to protect its interests in the company it now owns a substantial part of—AIG? Has some of the money been given back? Will more of the money be given back? Is it fair to impose a tax retroactively? In other words, after people have earned the money based upon an expectation that the money will be taxed at regular rates, is there now going to be an extra tax imposed on top of that simply because we don't like what was done? Will it withstand constitutional muster? And perhaps most importantly, how about the Secretary of the Treasury engaging in the authority, which I understand he possesses under the stimulus bill that we passed earlier, to act in the public interest to claw that money back? In other words, is it even necessary for Congress to amend the IRS Code in order for the Secretary of the Treasury to be able to get that money back?

Clearly, this could have all been avoided had the Government asked AIG

to renegotiate the contracts when it gave AIG about \$30 billion 3 weeks ago. The Government was in a position to say: One of the conditions for receiving this so-called TARP money is that you will renegotiate the contracts that provide bonuses for your employees. We could have done that at that time. But it wasn't done, so now we have to figure out the right way to deal with this.

The other reason I am urging caution was expressed by the President in a "60 Minutes" interview that was on television last night. Here is how he answered a question about the constitutionality of this proposed tax law. I am now quoting the President:

Well, I think that as a general proposition you don't want to be passing laws that are just targeting a handful of individuals. You want to pass laws that have some broad applicability. And as a general proposition, I think you certainly don't want to use the Tax Code to punish people.

I think the President is right about exactly what he said there, and that is one of the reasons there is some doubt about whether this law's constitutionality would be upheld and another reason I think we would be wise to hold hearings. But there is yet another reason, and that has to do with whether the private businesses that have been helped by the so-called TARP legislation will want to continue to receive this money or continue to participate in the public-private partnerships that have been established by the Government if there is a possibility there is going to be retroactive punitive legislation imposed upon them or their employees.

So one of the things I would like to do is to make sure that in expressing our outrage—and every one of us is outraged about this—we do it in a way that is constructive and not destructive to the very program the President has created to try to help these struggling companies get back on their feet so that they can lend credit to everybody else who needs credit in our country.

There is a significant view that if the folks participating in this program come to believe that the Government—Congress—can at any time come in and impose a new tax on them, they are going to want to get out of these programs rather than participate in them. In fact, there have been strongly expressed views that these banks will try to repay the TARP funds quickly—prematurely, in effect—in order to get out from underneath the Government's potential further involvement in their businesses. Of course, by paying the money back, they reduce their ability to loan money to the rest of us. Obviously, the whole point in giving them the TARP funds in the first place was to give them more liquidity so that they would have the money to lend to businesses, to families, and others throughout America.

Mr. President, I ask unanimous consent to have printed in the RECORD following my remarks a couple of statements that make this point very clearly. One is an editorial that was in the Washington Post on Friday, March 20, and the other is a very interesting article by Ian Bremmer and Sean West that was printed in the Friday Wall Street Journal.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibits 1 and 2.)

Mr. KYL. Mr. President, the "Washington Gone Wild" editorial in the Washington Post makes the argument I just made. They use the words "short-sighted," "opportunistic," and "irresponsible," and liken this to the actions of a mob to get even with people rather than stopping to think about what it is going to do to the President's TARP program. And that is what I wish to talk about.

I voted for both the first and second TARP. There were only six Republicans in the Senate who supported that second program, and I did it because I believed it was important for the President and the Secretary of the Treasury to have the necessary funding to help these institutions. We are going to destroy that program if the participants in the program come to believe that, out of spite, Congress, reacting to an angry electorate, will simply come down and pass new tax obligations on the employees of these companies in the future. They are going to be very weary of participating.

As the Washington Post editorial notes:

Elected officials have a responsibility to lead, not just to pander; to weigh what makes sense for the country, not just what feels good.

The point is, we now own a big share of this company and parts of some of these other companies, and we want to do what is in their best interest for our best interest and not simply punish them because we are angry that some folks got bonuses.

So I am going to urge my colleagues to take a deep breath here and talk to the administration, to hold a hearing and answer the questions that have been asked here and see whether there isn't a better way to achieve the same result. I just happen to believe that if the Secretary of the Treasury called these folks down to his office and said: You know, for the good of the country, you ought to give half or two-thirds of whatever it is back, and if we can save your company, you will be able to make that money back in no time with a healthy company, and if we don't, it is going to be bad for America—I would appeal to their patriotism. He could also talk to the executives at AIG and ask them to sit down with the same people to renegotiate the contracts. There are other ways, in other words,

to accomplish the same result without doing violence to our Tax Code, to the concept of contracts, and that do not raise the question about the constitutionality of this action.

Mr. President, I urge my colleagues to hold a hearing on the bill. Do not bring this bill up before the Senate for a vote this week but discuss it with the administration and see if we can come up with a better solution and resolve this problem in a sensible way that will be good for America.

EXHIBIT 1

[From the Washington Post, Mar. 20, 2009]

WASHINGTON GONE WILD

"Shortsighted," "opportunistic" and "irresponsible" aptly describe the actions of those who fueled the debacle on Wall Street. They are also apt descriptors for lawmakers more focused on currying favor with a public outraged at the bonuses handed out by bailed-out companies than on fixing the fundamental and still potentially disastrous cracks in the financial system. By changing the terms of a deal months after it was entered into, Congress will show the government to be an unreliable partner, further draining confidence from the financial system and endangering long-term recovery.

Yesterday, the House had the feel of a mob scene, with lawmaker after furious lawmaker vying for floor time to rail against the \$165 million in taxpayer-funded bonuses lavished on employees of American International Group's disgraced Financial Products division. House members rushed through a bill to impose an effective tax rate of 90 percent on bonuses paid to AIG employees and employees of other firms that accepted at least \$5 billion from the Troubled Assets Relief Program—though when then-Treasury Secretary Henry M. Paulson Jr. pressed many of those firms to take the funds last fall, government interference in their compensation systems was not part of the deal. The legislation, approved by a vote of 328 to 93, would affect employees who received bonuses on or after Jan. 1 and whose household incomes exceed \$250,000. Late yesterday afternoon, lawmakers on the Senate Finance Committee introduced their own, broader version of the bonus clawback that would affect firms that accepted as little as \$100 million of government funds.

We understand that legislators are hearing from furious constituents, and we understand why those voters are angry. It is unquestionably galling that some of the employees who crafted and pushed risky derivatives that wreaked financial havoc worldwide should line their pockets with some of the \$173 billion in public funds meant to prop up the too-big-to-fail insurance behemoth and its global business partners. The bonus anger resonates, too, because of a larger sense many voters have that the people who helped trigger this whole economic mess are not the people paying the greatest price.

But elected officials have a responsibility to lead, not just to pander; to weigh what makes sense for the country, not just what feels good. The effective confiscation of legally earned and contractually promised payments may well be unconstitutional. It is almost certain to be unhelpful. The bonuses paid at AIG represent less than one-tenth of 1 percent of the bailout provided so far; recouping those funds will have no discernible fiscal effect. But it will help drive away the best talent at the firm, and despite all the glib messages of "good riddance," that is a

strange action for an owner—and the American public now owns AIG—to take. But the real damage goes well beyond any effect on AIG. The economy continues to suffer from a shortage of credit. The government needs financial institutions—including relatively healthy ones—to take public funds that will then be lent to responsible businesses and consumers. The Obama administration reportedly intends in the next week or two to announce the details of a "private-public partnership" to buy troubled assets from ailing banks. The participation of private hedge funds, investment banks and other firms will be key to the plan's success. But what executive in his right mind will enter into a deal if he or she believes the rules can be changed six months or one year down the road purely on the basis of polls and politicians' fears?

Rather than bringing reason to the debate, President Obama has stoked the anger, and last night, the White House commented favorably on the House action. Perhaps Mr. Obama believes that only by lining up with an angry public now can he persuade it, and Congress, to approve the hundreds of billions more he will need to right the credit system. But he might have expressed his sympathy with public anger over irresponsible behavior in the financial sector while also steering the government in a more constructive direction. The absence of backbone on either end of Pennsylvania Avenue this week could carry a steep price.

EXHIBIT 2

[From the Wall Street Journal, Mar. 20, 2009]

AIG AND "POLITICAL RISK"

(By Ian Bremmer and Sean West)

After quietly tolerating \$170 billion in bailout money for AIG, why have the public, Congress and the administration suddenly blown up about a tiny fraction of that amount that is being paid out in retention payments and bonuses? After all, the AIG bailout channels U.S. taxpayer dollars to foreign banks and even potentially covers hedge-fund profits.

The reason is one of political expediency: The bonuses represent greed in the face of dire circumstances, which resonates with Joe the TARP-funder. The public now has an Enron-like target on which to unload its collective frustration about the financial meltdown. While public outrage is understandable, pandering to it jeopardizes the administration's credentials in a sloppy attempt to score populist points. This raises the political risk for all investors in the U.S. (both domestic and foreign) significantly.

The financial-sector rescue necessitates unpopular actions that will only be politically worth it if the administration actually solves the crisis. Until recently, the Obama administration had taken pragmatic is slow actions that it deemed necessary to fend off disaster, as opposed to pursuing an ideological agenda in how it implements the bailout.

But this week, under pressure to show a strong hand and positive results, the administration latched onto the AIG bonus flap as an angle for currying populist favor. When it became clear that the bonuses were going to be big news, President Obama led the anti-AIG charge with instructions to "pursue every legal avenue" to get the money back. Never mind that the administration was responsible for the TARP provision that (sensibly, from a legal standpoint) exempted pre-existing legal agreements from the bill's limits on compensation. Mr. Obama now says he'd like to create a new "resolution authority" to deal with "contracts that may be inappropriate." Meanwhile, Congress seems

poised to undo the bonuses through special taxes—a move that in other circumstances would clearly be labeled retroactive and unfair.

It was not long ago that Mr. Obama assailed the Bush administration for its dangerous expansion of executive power during a complex crisis. The Obama administration's antics around the AIG bonuses suggest a similar effort to use political power to contort the law. But rather than doing so for reasons of national security, this administration is doing so to pander to an angry public. When the Obama administration and Congress flex this kind of muscle, they attach a new political-risk component to all contracts negotiated in the shadow of the bailout.

That risk may scare potential investors away from bailout recipients because they cannot trust our government's will in the face of public outrage. It destroys our moral high ground the next time Mr. Obama wants to criticize a foreign country for ignoring the rule of law by nationalizing private assets or repudiating international debt. It will certainly make Mr. Obama's task much more difficult when he tries to sell the public on his administration's ability to manage the rest of the bailout, and when he tries to sell private firms on the public-private partnership that will be needed to make the recovery work.

The administration could have let Congress have its week of grandstanding over bonuses, while issuing a public statement acknowledging the bonuses as deplorable, but not important enough to detract from the real work that lies ahead. The tragedy here is the extraordinary amount of time that is being wasted on this issue when the Treasury Department remains understaffed, a detailed toxic-asset plan remains perpetually forthcoming, and the economy continues to shed jobs.

It's predictable that the administration and Congress would rather abuse an easy target over something every voter can get mad about than actually confront the hard issues of managing the financial crisis, including progress on the "stress test" of banks and the restoration of normal credit operations, establishing genuine oversight of the use of bailout funds, and coordinating international efforts on global economic stimulus and changes to financial-industry regulations. That type of governing is far more troublesome, as it involves making difficult decisions on complex topics and communicating unpopular news to constituents.

This is a hallmark moment for the administration. Congressional anger over AIG's bonuses foreshadows the battle looming if and when the administration asks for more financial-sector rescue funds. The administration may rightly sense that failing to join hands with Congress and the public in outrage over the bonuses would complicate release of those funds. But Mr. Obama does not need to show solidarity by diminishing confidence in the rule of law. That bit of populism will cost the president far more in future credibility than he stands to gain in present popularity.

Mr. KYL. Mr. President, I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HONORING GALLAUDET UNIVERSITY

Mr. BROWN. Mr. President, on July 4, 1861, President Lincoln celebrated our Nation's 85th year of independence by declaring to Congress:

The principal aim of the U.S. Government should be to elevate the condition of men—to lift artificial weights from all shoulders—to clear the paths of laudable pursuit for all—to afford all, an unfettered start, and a fair chance in the race of life.

Just a few months prior to enunciating the aim of his Government, President Lincoln signed into Federal law the authorization to confer collegiate degrees to the deaf and the hard of hearing in a campus in Washington, DC, not far from here. For the first time in our Nation's history, and still to this day, Gallaudet University is the only liberal arts university in the world dedicated to pursuit of access to higher education for deaf and hard of hearing students.

Mr. President, 2009 marks the bicentennial, as we know, of President Lincoln's birth. All around our Nation, parents and children, students and teachers are reconnecting the history of Lincoln's life to our world today.

Mr. President, 2009 also marks the 145th anniversary of Gallaudet University's charter, signed by Abraham Lincoln himself. As our country struggles through economic calamity and armed conflict overseas, let us mark the significance of these events by honoring the principal aim that President Lincoln and thousands of Gallaudet students have embarked upon: That every American has an unfettered start and fair chance at the American dream, that it be free of prejudice and ignorance and, instead, full of opportunity and access.

Today, Gallaudet annually enrolls more than 1,600 undergraduate and graduate students who take courses in more than 40 majors. Today, more than 15,000 Gallaudet alumni are leaders in their fields and in their communities, sprinkled all over the United States of America.

Serving on the board of trustees of Gallaudet is one of the great honors of my life. My mother, an English teacher, put such a premium on education. Education has anchored my life as a child in Mansfield, OH, and now as a Senator representing Ohio in Washington. I am reminded each day of this country's rich history, the tapestry of America's diversity—of our language, of our families, of our communities. The tapestry of America's diversity teaches us that wisdom and goodness persist in each of us, despite efforts to marginalize and discriminate by a few of us.

One hundred and forty years ago, the four members of Gallaudet's first graduating class—four people—received degrees signed by President Ulysses S. Grant. To this day, the tradition continues. Every graduate of Gallaudet is conferred a degree signed by the sitting President of the United States. This simple act by a President—President Obama will continue that tradition this year—confers to the students the faith in this country's capacity to elevate the condition of each of us.

I congratulate the students and the faculty, the alumni and the supporters of Gallaudet for teaching all of us the meaning of the values President Lincoln laid before us—that we educate ourselves as part of a community that, full of opportunity and free, as President Lincoln said, free of artificial weight, we educate ourselves as part of a community that works toward the good of our society.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Ms. KLOBUCHAR. I ask to speak for 10 minutes as in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HEALTH CARE REFORM

Ms. KLOBUCHAR. Mr. President, today I am here to talk about health care reform. I would mention, first, that I was just with DEBBIE WASSERMAN SCHULTZ, the Congresswoman who last year battled with breast cancer and today was there, healthy, to introduce a bill. I am proud to be the Senate sponsor, to focus on increasing awareness among younger women about the risks of breast cancer.

But we are here today to talk about something else and that is how to bring costs down in health care. As we look at how to expand health care, as we look at how to improve the quality of health care, there must be work done to contain the costs. I believe, based on what I have seen in my State, you can actually reduce costs and improve quality.

A few weeks ago, President Obama convened a health care summit to bring together industry leaders, providers, and advocacy groups to discuss our opportunity to move forward with serious health care reform. That reform should begin with the Medicare system. Medicare is one of the most valued social welfare programs our country has produced in the last half

century. Yet it is also a program in dire need of reform if it is to survive on sound financial footing and continue to provide the fine medical care our seniors have come to expect from it.

Change is needed now. By 2011, the first baby boomers will enter the Medicare system and by 2016 the number of Medicare beneficiaries will increase by almost 5 percent.

This past winter, I convened a health forum in Minnesota to discuss the various challenges affecting the Medicare system. The message is clear: without action, costs will continue to rise and waste will proliferate.

Medicare is the single largest purchaser of health care and its policies directly affect nearly every health care provider. Medicare's payment system, coding, quality reporting, and record-keeping are the industry standard. Spending for the Medicare Program is projected to increase 114 percent in the next 10 years. Twenty percent of Medicare beneficiaries suffer from one of five chronic diseases. Medicare spends 66 percent of its annual budget to treat this group. Two-thirds of Medicare spending only helps one-fifth of Medicare beneficiaries. If we are going to sustain Medicare as a healthy, high-quality program Americans deserve, we must do something to address these challenges. In short, we need to reform Medicare so it addresses efficient, high-quality care.

As it happens, doctors and hospitals in many regions of the country, including my State of Minnesota, practice exactly this kind of high-quality, low-cost medicine and they should be rewarded for it. But Medicare does not reward them. Instead, it punishes them. In fact, at the health summit last week, President Obama actually asked the gathered group, "Why should we punish Minnesota because other States are less efficient?"

The problem is, despite periodic efforts at reform, Medicare pays for quantity, not quality. More tests and more surgeries mean more money, even if the extra tests and operations do nothing to improve a patient's condition. States that have historically delivered excessive procedures are still rewarded for the wasteful practices of the past, while efficient States, such as Minnesota, are punished.

If you look at this chart, you will see that the areas in dark blue are the ones that receive the lion's share of Medicare payments. The light blue area States, such as Minnesota, Montana, Iowa—I see Maine is looking good, as I see the Senator from Maine across the way—but a number of States, you can see, are in areas where Medicare spending is low but quality of care is high. It is as if there were a huge transfusion that basically takes taxpayer money from one region, one area of the country, and puts it in another.

It is not to say people are not sick in other parts of the country—they do de-

serve that help—but looking at the limited resources, we have to figure out what is working and how come areas of the country that tend to have the lowest health care costs also have the highest quality health care?

It is not what you would think. You would think: Well, the highest cost must have the highest quality. That tends to happen sometimes, in clothing and other things. That is not what is going on in this country right now. Regions with more specialists and more hospital beds tend to provide more services and get more of the money.

According to the Dartmouth Institute for Health Policy and Clinical Practice, high-cost regions in Medicare boast 32 percent more hospital beds, 31 percent more doctors, and 66 percent more medical specialists. In other words, supply is driving demand. The result is that Medicare pays much more in some parts of the country than it does in others for medical care that is no better.

Medicare's own report shows that quality of care is higher in many of these low-cost States. In fact, Medicare spends more in places such as Florida and New Jersey than it spends in States such as Minnesota and Oregon. Let me give you one example:

In Miami, FL, Medicare spent roughly \$15,000 per patient per year in the year 2005. In Minneapolis, a Medicare patient received about \$7,000 worth of care that year. To put it another way, Medicare will spend \$50,000 more on a 65-year-old patient in Miami over the course of his or her lifetime than on a comparable patient in Minneapolis. Now, \$50,000, that is a lot of money.

At \$2.4 trillion per year, health care spending represents close to 17 percent of the American economy, and it will exceed 20 percent by 2018 if the current trends continue. If you look at this internationally, you can see the United States spends far more than any other nation, without getting better care. We can and we must do better. A number of models are out there to provide direction for the future. The Mayo Clinic, based in my home State of Minnesota, is renowned for the effective care it provides at a reasonable cost. Now, think about this. There was a Dartmouth study that came out. It showed this: If the rest of the hospitals in the country used the same kind of high quality, with very high quality efficiency ratings from families, and high efficiency care as the Mayo Clinic now does, in the last 4 years of a patient's life, the country—the taxpayers of this country—would save \$50 billion over 5 years. That is \$50 billion over 5 years by simply following the protocol of having a more organized, efficient delivery system with one primary doctor, with experts who work together, without duplicate tests.

That is \$50 billion every 4 years by following a set protocol with some of

the highest quality ratings in the country. The Congressional Budget Office has also studied the problem and found the potential for huge savings. This chart reflects that Medicare spending would fall by 29 percent if spending in medium- and high-spending regions were the same as that in low-spending regions. That is the CBO.

So how do we change the Medicare system in a way that will reduce these disparities and reward our doctors for doing what is right? Real reform will start when the system starts paying for quality. Here are the three priorities I plan to start working on immediately. First, we need to enhance Medicare incentives that reward quality care. For many illnesses and conditions, the medical profession has widely accepted practice guidelines that result in better health care outcomes, such as when to give aspirin to heart patients, and how often to perform cancer screening, but they are not always followed. A recent RAND Corporation study found that adults received recommended care only 55 percent of the time. Medicare needs to reward doctors and hospitals for doing the right thing and achieving improvement in care. These quality guidelines can be the basis for Medicare payments to providers.

Second, we need to rethink the Medicare payment system. Right now, Medicare pays for tests, visits, and other procedures one by one, giving providers an incentive to order more and more services. We need to have better coordination of care, and less incentive to bill Medicare purely by volume. Increasing the bundling of services in Medicare's payment system has the potential to deliver savings and start rewarding value and not volume.

Third, we need to address the shortage of the number of primary care physicians who are currently practicing across our country. Today, effective primary care is severely undervalued in our health care system. Yet, research suggests that improving access to primary care and reducing reliance on specialty care can improve the efficiency and the quality of health care delivery. To accommodate the needs of an aging population, we need to promote primary care and transition away from our specialty-intensive health care workforce.

The health care system we have now needs major improvement. That means transforming the system to pay doctors for the quality of care they provide and to turn the current disconnected, reactive health care system into one that is integrated and concentrates on delivering the best care for patients.

Again, I want to stress this, when we talk about saving costs, when we look at these studies, those States that are most efficient, those areas that are more efficient, have high quality care.

I leave you with this figure: The Mayo Clinic, in the last 4 years of a patient's life, if those protocols were followed across the country, we would save \$50 billion every 5 years in taxpayer money. That is an independent study, \$50 billion.

I know we can do better. At the same time as we reduce the cost, we can improve the quality of care that our Nation's seniors deserve. Working together, we can give them the system they deserve.

I yield the floor.

The PRESIDING OFFICER (Mrs. HAGAN.) The Senator from Maine is recognized.

Ms. COLLINS. Madam President, I ask unanimous consent that I be permitted to proceed for 15 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Ms. COLLINS pertaining to the introduction of S. 664 are printed in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

The PRESIDING OFFICER. The Senator from South Dakota.

THE BUDGET

Mr. THUNE. Madam President, this next week we will be taking up the budget for fiscal year 2010. Anyone who previously had not been concerned about that debate and what it means for the country and its future probably should be concerned, based upon the most recent CBO report that came out on Friday of last week. It was sobering. It reinforces the point that we have been making about the outline we have seen of the President's budget; that is, this budget spends too much, taxes too much, and borrows too much.

We have spoken extensively about the new spending in the budget. We have talked at great length as well about some of the new taxes in the budget and how it will drive up taxes on small businesses, the largest job creator in the economy, the economic engine that creates two-thirds of the jobs in our economy.

We also want to talk about the fact that it borrows too much. The CBO report punctuates that point. I couldn't have put it more clearly than what they came out with last week, which suggests the initial estimates about the President's budget outline, which we received earlier, were dramatically understated and, in fact, it is going to add significantly more to the deficit than what we initially anticipated. In fact, in fiscal year 2009, which is the year in which we find ourselves right now, the CBO has revised its deficit estimate to where it is going to go over \$1.8 trillion for fiscal year 2009, which represents 13.1 percent—13.1 percent—of our gross domestic product, which dwarfs anything we have seen at any time in history.

So as we enter this debate next week, I think it really is important for all of us in this Chamber to take a good look at this analysis and to try to digest it and, hopefully, for the American people to be able to take a good look at what these numbers mean as well. It is sometimes difficult to even put it into terms people can understand. When I think about \$1 trillion, it is a staggering amount of money. We are throwing around numbers in trillions and trillions and trillions today in the abstract. When you try to put it in terms that everyday Americans can understand, it is almost daunting to try to accomplish that.

So when this new report came out, I think many of us found it even more sobering than what we already knew was going to be a very difficult economic and fiscal climate for the next several years. In fact, the President's budget outline that had been analyzed up to this point suggested the debt was going to double in 5 years and triple in 10 years. That is still the case.

If you can believe this, the publicly held debt, in 2019, is going to be \$17.3 trillion under the CBO's new estimate. It is about \$5.8 trillion today. It literally does, in a 5-year period, double the debt and in a 10-year period triples the debt. It takes the publicly held debt, as a percentage of gross domestic product, from where it is today—a historical average of about, if you look back, 20, 30, 40 percent, but let's say today we are looking at 40 percent, and that is a very high number relative to anything we have seen in history—it takes it up to over 80 percent by the end of that period. So you are looking at public debt and public deficits that are unparalleled and are unprecedented in American history. I think that is the whole point behind the argument we have made throughout the last several weeks in the lead-up to this budget discussion we are going to have next week: This budget spends too much, taxes too much, and borrows too much.

The taxing component is something many of my colleagues have spoken to already. But if you look at, again, the overall tax increases—which many are imposed. And they talk about that it just applies to high-income taxpayers. But you are talking about small businesses, many of which file or organize as subchapter S's or LLCs. So the income they get from their small business flows to their individual income tax statement, which means when these rates go up—and they are going to go up—the effective rates, to 40 and 42 percent, when today those same businesses would be paying 33 or 35 percent, they will be significant increases in the tax burden we are imposing. That is not to mention the new climate change initiative which is also contemplated in the President's budget, which imposes an entirely new energy tax on the American people, on the

American consumers, creating all kinds of new costs for energy, whether it is electricity or fuels. There have been studies that have been done, very credible studies by researchers at MIT, that have suggested it is going to cost the average family in this country over 3,000 additional dollars per year in energy costs by the year 2015.

These are some pretty daunting numbers. But they come on the heels of a stimulus bill that was passed a few weeks back that was about \$800 billion. When you add interest in it, it was about \$1.2 trillion. That was a huge amount of money. When we try to put that in perspective relative to anytime in our Nation's history, it eclipsed anything we had seen previously. Then we had the Omnibus appropriations bill, which increased spending over the previous year by twice the rate of inflation—about 8.3 percent. Then you add the continuing resolution that was passed last year, which funded Government programs last year through March 6 of this year because that was a stopgap appropriations measure that was put in place because the appropriations bills had not been passed last year. Then we had the stimulus bill, which was, as I said, with interest, \$1 trillion. Then we had the Omnibus appropriations bill, and with that a twice-the-rate-of-inflation increase. You add all those numbers together, and we have increased the size of Government this year by 49 percent—49 percent—from fiscal year 2008. I think that points to the fact, again, as to the amount of spending we are doing. It adds up because a lot of that, as I said before, is borrowed money, and it is contributing to these deficit numbers the CBO had just released.

So it would be my hope—and I know others are on the floor who are going to speak to this issue a little bit more in detail. I know the Budget Committee has analyzed the new CBO report. We are awaiting the markup of the budget this week in the Senate. We suspect it is probably going to follow somewhat closely the President's outline, his proposal, although my guess is there will be some differences. But if you take the overall trajectory it creates, it creates a trajectory over the next 10 years that calls for an average deficit—this is the average over the 10-year period—of almost \$1 trillion. It is \$929 billion, according to the Congressional Budget Office. That is the average.

This year, it is \$1.8 trillion. Next year, it is \$1.4 trillion. It drops down to \$670 or \$650 billion, I think, for 1 year. But then it starts spiking and trending back up again, to where, over the course of the 10-year window—the budget analysis and planning that is done here is done in a 10-year window. If you look at that 10-year window, the average deficit is \$929 billion a year.

As I said, these are numbers that are staggering and unlike anything we

have ever seen. It is hard to put into perspective what we are talking about relative to anytime in American history.

The other thing I will mention with regard to the stimulus bill as well—because I think there was an assumption that all this borrowing and all this spending would somehow lead to job creation and hopefully getting the economy expanding and growing again—what the CBO found in their analysis, again, was that in the long term the impact would be negligible or negative from the spending that was created in the stimulus bill. So not only were we getting no additive benefit in terms of job creation from the stimulus spending—or in the long term, at least—we are going to see negative, they think, or at least negligible, zero, economic growth as a result of it. We are adding \$1 trillion to the amount we have borrowed from future generations, and we are asking our children and grandchildren to have to pay it back, not to mention what I am sure are going to be other types of economic consequences associated with that: higher interest rates, higher inflation. There is already a lot of discussion about that as we continue to borrow more and more money, whether there will be people out there who will want to buy our debt.

I believe those are all legitimate concerns and questions we need to raise in this debate, coupled with the fact that there is nothing done in this budget that would in any way significantly reduce the long-term costs associated with the entitlement programs and what is really driving, in the outyears, these deficits: Social Security, Medicare, and Medicaid. There has been a lot of discussion in the new administration about a willingness to sit down and talk about how to reform and make these programs strong and better and more efficient for the future, but there is nothing in this budget that does that.

In fact, the only serious savings we can point to in the President's budget that they try to achieve come out of defense, come out of the military, come out of our national security, which I would argue: If we do not get national security right, the rest is conversation. But they are assuming savings as a result of drawing down troops in Iraq and places such as that, which I think they are overstating what they are going to be able to achieve in savings.

I would argue some of the other assumptions in the President's outline are optimistic with regard to revenues—and I think the CBO study bears that out—to the point now that even the Washington Post, yesterday, came out with an editorial that I think illustrates exactly how serious this fiscal situation is for our country, and drawing into question the fact that there is

very little done in this budget that addresses those long-term fiscal problems I just mentioned in the entitlement programs.

There is nothing to reduce the cost of Government in the outyears, only things that are going to pile on additional costs and add and multiply over a long period of time. The incredible amount of borrowing we are already doing is going to be multiplied many times over into the future.

Madam President, I ask unanimous consent that the editorial from the Washington Post be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Mar. 22, 2009]

RED INK RED ALERT

A CONGRESSIONAL REPORT SHOULD GIVE THE PRESIDENT PAUSE

The new estimates by the Congressional Budget Office showing a federal deficit of 13.1 percent of gross domestic product for the current budget year, which began Oct. 1, are neither surprising nor particularly alarming, though it's larger than the 12.3 percent foreseen by the White House. Both are stunning numbers—far and away the largest deficit ratio since World War II. But spending rises in recessions and tax revenue falls, and we're in a big recession. It would be counterproductive to balance the budget in this historic downturn. The huge deficit includes \$700 billion for a necessary rescue of the financial sector. Nor is it shocking that the CBO forecasts a deficit of 9.6 percent of GDP in fiscal 2010 if Congress enacts President Obama's \$3.6 trillion budget plan—a deficit also much larger than what the president predicted. The difference largely reflects the CBO's economic forecast, which is more up-to-date and, hence, gloomier than the one Mr. Obama relied on.

What is scary, though, is the CBO's depiction of the remaining years of the president's term, and the half-decade after that—if his budget is enacted. In none of those years would the federal deficit fall below 4.1 percent of GDP—and it would be stuck at 5.7 percent of GDP in 2019. This is in stark contrast to the president's projection: that his plan would get the deficit down to about 3 percent or so of GDP by that time. It's true, as Peter R. Orszag, director of the Office of Management and Budget, told us, that the CBO's forecasts are subject to large margins of error, especially in the out years. And Mr. Orszag is correct to point out that, even under the CBO's scenario, the deficit as a share of GDP would decline by half under Mr. Obama.

Still, it's less significant to meet that target than to keep the deficits within sustainable bounds, and few experts believe that years of deficits above 4 percent of GDP are consistent with long-term economic vitality.

If the CBO's numbers are subject to revision on account of changing circumstances, then so are the administration's; and those were based on very rosy economic assumptions to begin with. Very little of the claimed deficit reduction in the Obama plan comes from policy changes; it results more or less automatically from the assumed end of the recession, as well as by claiming savings in reducing operations in Iraq and Afghanistan from unrealistically high forecasts. Yet both the White House and House

Speaker Nancy Pelosi said that the CBO report is no reason to revise the president's ambitious tax and spending blueprint.

Mr. Obama should treat the CBO report as an incentive to fulfill his repeated promises, during and after the campaign, to make hard choices on the budget. Until now he has offered a host of new spending—on health care, middle-class tax cuts, education and alternative energy—without calling for much sacrifice from anyone except the top 5 percent of the income scale. Though his emphasis on controlling health-care costs is welcome, it's not a substitute for reforming the entitlement programs that are the drivers of long-term fiscal crisis, Medicare and Social Security. Yet the president has offered no plan for either and no road map even for achieving a plan. Several members of his own party in the Senate have been expressing doubts about his strategy, and the CBO report will lend credibility to their concerns. He should heed them.

Mr. THUNE. As to the stimulus bill, in and of itself, we are told, if the spending that is included there is not terminated at the end of the 2-year period—when we assume the short-term stimulus spending would terminate—if those programs are continued, the estimate of what they would cost goes from about \$1 trillion to over \$3 trillion over that 10-year period.

So there will be mountains and mountains and mountains of debt as far as the eye can see, complicated by an unwillingness by the new administration to take on any of the serious decisions that have to be made with regard to entitlement programs and mandatory spending in this budget, with lots of new programs created, as I said, new energy taxes under the guise of climate change, a new health care program that is estimated to cost around \$600 billion but which many independent analysts are now saying is going to cost up to \$1.5 trillion.

These are all costs that are adding up and continuing to lead to more and more borrowing, higher and higher deficits, to the point that this year 13.1 percent of GDP is the percentage and over \$1.8 trillion is the actual number of the deficit. And that goes on now for years and years, and an average of \$1 trillion a year just in deficits, to where the public debt, at the end of that 10-year period, will be \$17.3 trillion. That is an incredible problem for our country and for future generations.

So it is high time we got it under control. It is why this budget is so wrong for America and for our future.

Madam President, I yield the remainder of my time.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Madam President, I thank Senator THUNE for his excellent remarks. I will just say that sums it up pretty well. I would like to go into a little more detail about the budget—just some of the matters in it—so we confront honestly the situation with which we are dealing.

This is the budget, which I hold up in my hand. This is the budget the President sent up. It is from the Executive

Office of the White House, Office of Management and Budget. The big print on it says, "A New Era of Responsibility." The small print says, "Renewing America's Promise." Well, I am not sure what "Renewing America's Promise" means, I guess, but I am pretty sure that "A New Era of Responsibility" is not what this budget is. I would like to talk about it because it is breathtaking, really.

Now, some would think: Oh, here we go. This is just another political dustup, just another fight between the Republicans and Democrats, just another partisan spasm. That is what it is all about. They talk about these numbers, and I don't know what these numbers mean: a billion, a trillion, a million. What does all that mean? Well, sometimes numbers do mean something. Sometimes numbers are quite different from one another. Sometimes situations have changed, and sometimes they have not changed much. Sometimes the changes are dramatic, significant, directional in nature, historic in nature. That is what I think we are dealing with today.

I believe the discussion over this budget—I am a member of the Budget Committee—is historic. I believe the decisions we make around this budget will affect the very nature of the economy, the nature of the Government that we have, whether we will continue to have a government of limited powers, and where we are heading. Are we moving toward a "Francification" of America, a socialization of America? That was a big issue in the campaign. It turned out to be where, in the last few weeks, you remember Joe the Plumber and the quote "We are going to spread the wealth around." People said: Oh, no, President Obama does not really mean that. Yes, he is going to do some new things and make some changes, but he is not heading toward a European-type of economy for America.

So let's talk about the budget. What does his budget say? What does it mean? A budget is a President's plan for the future. It tells where he will get the money he wants to spend. It tells where he will spend it. It tells how much money he will spend and how much spending will occur, and will there be a surplus or will there be a deficit?

Now, some people think: Well, he can't help it. That is just the way things are. These are things that a President does not have power over.

Not so. These represent Presidential priorities. Most States in this country have a balanced budget constitutional amendment. They have had shortages bigger than we are having, and those States are getting by. They are having to make some reductions in their expenditures. I have had a bunch of cities and counties in to visit with me the last 2 weeks, and all of them are mak-

ing some kind of reduction in their spending. They are not disappearing from the face of the Earth.

So here we go. This is not a secret document, fundamentally. The numbers I am talking about that he proposes as his budget for the country are here.

Normally, since I have been in the Senate—12 years—and on the Budget Committee most of that time, budgets pass on a party-line vote. There have been some tough, close votes. I remember the budget that had the tax cuts in it was a close vote. Several Democrats voted with the Republicans, and it passed. But this budget is different because we have a very large Democratic majority in the Senate. I think it is a three-vote Democratic majority on the Budget Committee. Under our rules, a budget does not have to be subject to a 60-vote point of order, and it is not subject to filibuster or any kind of 60-vote threshold; it passes on a simple majority. So the Democratic majority—a very large majority now—has the power to pass this budget. That is just the way it is. They have the power. I hope, therefore, they will feel the awesome responsibility they have in discussing this budget because it is so unusual, it is so large, and it is so game-changing, to a degree which I have never seen before, and I don't think any of us have.

One of the things that disturbed me in this whole process is the spectacle of our Secretary of Treasury going to Europe to meet with European leaders and chastising them—and they have had some pretty big stimulus packages—for not having bigger stimulus packages, not spending more money, and not going into more debt. This is so odd because we as Americans have normally been the ones who have criticized the Europeans for their tax and spend and entitlement, socialistic welfare system. So here we are doing that.

Prime Minister Merkel in Germany said it is extraordinarily dangerous that transatlantic conflict is being fanned, and, "I am grateful to the American President that he has told me this is an artificial debate," she told lawmakers on April 2 at the Group of 20 nations. She said:

The Group of 20 nations need to send "a positive psychological signal, not a competition over stimulus packages that can't be implemented."

The European Central Bank president, Mr. Trichet, said this:

If the additional deficits are costing you both a strong increase of the cost of your own refinancing and a loss of confidence of your people, you are not better off!

He goes on to say:

If your people have the sentiment that they will not be better off in an endless spiraling of deficits, they will not spend any money that you give them today!

So the Europeans are pushing back. They are warning us that we are going too far.

So let's look at some of the numbers to which Senator THUNE made reference. The first is the title of the budget, the President's budget, which came right out of this book—these numbers the President has submitted to us—what he plans to occur in America over the next 10 years under his budget.

In 2008, last September 30, we had a \$455 billion deficit. Since World War II, that is the largest deficit the country has ever had—\$455 billion. Do you know what it was the year before? It was \$161 billion. Why did it jump that much? Well, 150 billion of the dollars that jumped was the checks that got sent out. President Bush sent out the checks. He was going to stop the recession. He sent everybody a check last spring. It didn't work. I voted against it. It wasn't easy to vote against constituents getting a check, but I didn't think it worked then, and everybody agrees now that it didn't, but that helped jump the deficit to this record amount—\$455 billion.

What about this year? Including the stimulus package—or a part of it that we just passed—and the \$700 billion Wall Street bailout and the bailout of Fannie and Freddie, scored at about \$200 billion according to CBO, it comes out this year, September 30, the deficit will be \$1,752 billion, more than three times the highest deficit we have had since the Republic—well, at least since World War II, when we were in a life-and-death struggle with millions of people in arms all over the world, turning out airplanes and ships by the thousands.

Is this just one time? Is it just a one-time expenditure? No, it is not. In 2010, the President's own numbers show the deficit will be \$1,171 billion, or about \$1.2 trillion.

According to the numbers in the President's budget, which were gimmicked, in my view, we will already be under a recovery in 2010. We will not be in negative growth; we will have I think 1.6 percent economic growth, GDP growth. We are still going to have \$1.2 trillion in deficits. It drops down to \$912 billion, \$581 billion, \$533 billion, and then starts growing again, and in the 10th year of his budget, he is projecting a deficit of \$712 billion.

Now, within those projections are some rosy scenarios, such as if the economy is growing and unemployment is not too high, then you have more money to spend than if the economy is still slow-sinking and unemployment is high. So the budget assumes an unemployment rate of 8.1 percent, the highest—that is as high as it would ever get during this entire 10-year period. It assumes that next year or later this year, we will have 8.1 percent unemployment. Well, we are at 8.1 percent unemployment now. That is the current figure. The blue chip group, the top economists and the ones most people

look at, project unemployment to be over 9 percent. CBO projects 9 percent will be the maximum unemployment rate. If it goes that high, then we are going to have bigger deficits. So there are some other rosy scenarios in there that the objective economists do not believe will occur.

When you score this budget without using those gimmicks or rosy scenarios, as the Congressional Budget Office is required to do—they are required to make an independent analysis of the President's budget, and they have done so.

Let me just say that we are proud of the independence of the Congressional Budget Office. They are a talented group. They work for us here. The new Director was chosen in a bipartisan way but clearly with the final power in the hands of the substantial Democratic majority in the Senate. They control the ultimate choice of the Congressional Budget Office.

They come out not with a \$712 billion deficit for that year—not \$912 billion but \$1.2 trillion, \$500 billion higher when they use numbers they believe are fair and honest and accurate, coming out with \$1.2 trillion in deficit, not \$700 billion in deficit. There will not be, in this entire 10-year period, taking President Obama's own numbers, and certainly not the Congressional Budget Office's numbers, a single year that is close to as low as the \$455 billion deficit of President Bush's last year. Most of them are twice that or will average twice that.

So what I wish to say to my colleagues is that this is not sustainable.

The President had a great meeting with the Republicans one day at lunch in the room right over here. He was very personable, open, and responded to any questions asked. I thought he was very sincere when he said: Look, we are going to have to spend a lot of money now, but when this economy comes back we are all going to have to work together to reduce the systemic threat of out-of-control deficits. He said that more than once. I thought he meant that. But when you propose a budget that has deficits increasing every year over the next 5 years and reaching, in his own numbers, \$712 billion in deficit—and according to CBO, \$1.2 trillion—then I can't take that very seriously. There is not one act in this budget plan of any significant evaluation of the out-of-control entitlement programs we have or how to bring those under control.

So that is not politics; that is reality. It is not acceptable. We have to say no to this budget. I know my Democratic colleagues are uneasy about those numbers. They tell me they are uneasy about them. They want to support their President. They want to pass this budget. But at some point, I think my colleagues are going to have to say no. I hope they will. Cer-

tainly, the Republicans can't say no; we don't have enough votes.

Now, Senator THUNE made reference to this number.

Madam President, what is our timeframe?

The PRESIDING OFFICER. Morning business expires at 4 o'clock p.m., in several minutes.

Mr. SESSIONS. Madam President, I would just point out these numbers. The public debt, which I think is probably the clearest definition of what our debt situation is—you can argue about that, but the public debt, I believe, is correct—is now \$5.8 trillion. In 5 years, it will be \$11.5 trillion, a doubling of the debt; and in 10 years, another 5 years, it will be \$15.3 trillion, tripling—that is the debt since the founding of the Republic—\$5 trillion right here. In 10 years, we are going to triple the total debt. That is not acceptable. And they are projecting not a recession in the next 10 years after we get out of this one, they are projecting growth, no wars, and it is still like this. The truth is, those of us who observed budgeting before don't stay to the budget totals; we usually go over them through some sort of gimmick or maneuver.

How about another number that is disturbing to me—very disturbing. The White House estimate on interest payments in the budget is \$148 billion for 2009. According to CBO, they estimate it higher at \$170 billion.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. SESSIONS. Madam President, I ask unanimous consent to have 2 additional minutes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. SESSIONS. It shows the interest rate or payments on this tripling debt reaching \$694 billion, according to the White House's own estimate, in 2019, to the people who buy our debt—the largest foreign recipient of which is China. CBO says that is underestimated.

They calculate it to be \$806 billion. The entire general fund of the State of Alabama, an average-size State, is about \$7 billion for the counties, schools, teachers, and roads. The highway budget for the entire United States of America is \$40 billion a year, including interstate, all the money we send to the States, and all of the pork money we put on top of it. This is \$806 billion in interest alone on a debt that we have run up in previous years. That is why people are worried about it.

I will conclude with that and say, again, I know we all get caught up in politics, that is true. But this year, this budget is not a normal budget. It is not a bigger budget or a lot bigger. It is a gargantuan budget, the likes of which we have not seen before. It results in debt increases that are not sustainable. It has no projection of any

containment of spending. It does nothing to deal with the entitlement difficulties that are driving much of the debt, and it cannot be passed in this fashion.

I urge my Democratic colleagues to say: No, Mr. President, you have to go back and look at this some more. We cannot pass this budget and not just take a few hundred billion dollars off, or something like that. We need to have a serious discussion of the financial condition of our country. I think the Republicans will be there trying to work with you on it. But without some leadership from the other side, this budget will go into effect.

I yield the floor.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

NATIONAL SERVICE REAUTHORIZATION ACT—MOTION TO PROCEED

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the motion to proceed to H.R. 1388, which the clerk will report.

The bill clerk read as follows:

Motion to proceed to consideration of the bill (H.R. 1388) to reauthorize and reform the national service laws.

The PRESIDING OFFICER. The Senator from Maryland is recognized.

Ms. MIKULSKI. Madam President, I ask unanimous consent that the previously scheduled 6 p.m. cloture vote now occur at 5:45 p.m., and that 10 minutes immediately prior to 5:45 p.m. be divided as previously ordered, and that all other provisions of the previous order remain in effect.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. MIKULSKI. I thank the Chair.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. REID. Madam President, for the information of Members, a number of Senators wanted us to start the vote earlier tonight, and we are happy to do that. For those who aren't going to arrive until 6 o'clock, we will drag the vote out so they will not miss it.

The PRESIDING OFFICER. The Senator from Maryland is recognized.

Ms. MIKULSKI. Madam President, I am proud today to bring the legislation to the floor entitled Serve America Act. This bill is the result of extensive bipartisan work by Senators KENNEDY and HATCH who have worked more than a year on this legislation but who have devoted their lives to this bill. I know in a short time I will be joined by the distinguished Senator from Utah, Mr. HATCH, who was one of the prime sponsors of the bill. Senator ENZI of Wyoming, the ranking member of the

Health, Education Committee, was also going to be here. He is in a snowstorm in Wyoming. Senator ENZI will bring his remarks to the floor tomorrow.

Let me just say that I want to, first of all, salute Senators KENNEDY and HATCH for designing this legislation because it expands the opportunity to serve this country. At the same time, Senator ENZI and Senator DODD worked assiduously to strengthen the bill.

Senator ENZI brought very key legislative analysis to the bill, and his background as an accountant gave us very much needed reforms in the area of greater accountability and stewardship. I want to, on behalf of our side of the aisle, thank him for his insight and know-how. We have adopted every single one of the Enzi stewardship recommendations.

Our colleague, Senator DODD of Connecticut, himself a former Peace Corps volunteer, has also brought additional thinking to the bill to make sure that volunteers are rewarded by making sure we could expand the summer of service and the semester of service.

Madam President, I have been no stranger to this bill, and one of the things I have done was be the appropriator for appropriations from the time of its inception, from 1993 to 2004, when the VA-HUD and Independent Agencies Committee was dissolved by Mr. Delay of Texas in the House, and the Senate followed suit. That is a chatty way of saying that Senator KIT BOND, who chaired that subcommittee as my ranking member, was able to keep national service functioning and also very much needed reforms.

In 2004, Senators HARKIN and SPECTER got the appropriations portfolio for national service, and they have done an outstanding job. I say all this to say that when we bring up this bill, it is not a Democratic bill; it is a bipartisan bill and an American bill. Ever since the framework for the underlying legislation was created more than a decade ago, we have worked on both sides of the aisle, with Presidents of both parties, to give our young people an opportunity to serve.

This has been an outstanding effort. Today, the legislation I bring to the Senate floor on their behalf is the result of considerable experience, lots of lessons learned, and also the recognition and knowledge that there is a new invigorated spirit in the United States of America. Some are calling it the "Obama effect" because there are so many people who want to give back to the United States of America, to use their own sweat equity to be involved in our communities to make them a better place to be, for our schools to be able to be more effective, for there to be structured afterschool activities for children, and volunteer efforts to add to more housing for Habitat for Humanity—item after item, we could go on. There is this fantastic spirit, and

we want to be able to make use of that energy, that passion, those good intentions, and be able to help them truly to serve America.

Senator KENNEDY and I have worked on this legislation for some time. Way back in 1990, Senator KENNEDY and I introduced the National Community Service Act with then-Senator Nunn, and also with the help of Senator MCCAIN, to establish a corporation for national and community service, and also to create a demonstration project that would then become the AmeriCorps.

When President Bill Clinton came in, we worked to create the National Community Service Act. In 1993, we passed the AmeriCorps legislation. Since then, it has been a profound success. We took that landmark legislation and, working with President Clinton, created a framework for today's national service programs.

Let me be clear, Madam President. We were not in the business of creating another new social program. What we were in the business of was creating a new social invention. What do I mean by that? In our country, we are known for our technological prowess, the great technological inventions. From the rocket ship to the microchip, America has been in the forefront of technology and science.

But also often overlooked, and sometimes undervalued, is our social inventions—those things that the genius of America invents to create an opportunity ladder for our country, to create empowerment opportunities for our constituents.

Let me give a couple of examples, and you can see the American philosophy at work in AmeriCorps. In terms of our social inventions, what are some? Well, you know we are the country that invented night school. At the turn of the old century, with so many immigrants coming from Europe, with Lady Liberty raising her hand saying: Give me your tired, your poor, your yearning to be free—and they also wanted to learn to read English, write English, and learn citizenship. But they were working night and day to be able to do that.

Out of the great settlement houses—primarily the great settlement houses out of New York and Chicago—they said: If you work during the day, we are going to give you an opportunity to learn at night. Out of that settlement house movement came a new social invention called night school. It was never done anywhere else in the world. Look how night school changed the face of America.

Then, while our GIs went overseas and then came back home, we had another social invention that said: We want to thank you not only with words but with deeds. So another empowerment legislation was called the GI bill, which created one great, gigantic op-

portunity ladder for generations of men who would have never had the opportunity for either education or home ownership to be able to move ahead.

Along the way, they knew they could not go off to 4 years of college. They were adults. They had seen war and they had liberated death camps. They could not come back and go "bula bula"; they had to go to work. So we invented something else, too, called the junior college, or the community college, which in and of itself was a social invention.

So you see, every generation comes up with a new idea to build and add to that important opportunity ladder where you can do something for yourself and your country. But government is on your side.

What is it we wanted to do? A social invention for the nineties? What did we face? We saw two things: No. 1, students had incredible debt—and they still do. Their first "mortgage" was not a home but what they owed in terms of their college debt. Also, we saw a new trend coming to America called the "me" generation. Articles and books were being written about it. There were those on both sides of the aisle who wanted to change the "me" generation to the "we" generation. We also wanted to say: How can we help with student debt? That is when we thought about national community service, where you could give back to your country, learn the habits of the heart that de Tocqueville talked about—neighbor helping neighbor, the signature of America, from barn raising to Habitat for Humanity, and habits of the heart and Habitat for Humanity.

We created national service as a form. We didn't want it to be service only for idealistic, affluent kids who could afford to take 2 years off to find themselves. We wanted them to find opportunity to be of service and also to make an important contribution.

That is how we created the original national service legislation. We wanted to strike a balance between precollege and postcollege to help pay for college, get ready for college or to learn a trade. We also wanted to provide the opportunity for retired people to be of service and also, while being of service, to earn a modest voucher to pay down student debt.

We wanted to make sure we could do this in a way that was sensible, affordable, and also would involve the flexibility and creativity of the local community.

We allow not only full-time volunteers but the opportunity for part-time volunteers. Actually, the part-time volunteer was my idea. Putting on my social work hat again, what I saw in our communities was not everybody can go away and not everybody wants

to go away. It could be someone disabled, where their whole support system is in that community. And although they have a physical challenge, they can still give. How about that single mother who graduated from a community college and wants to reduce her debt as she is moving on with her career? This would give her a chance to do that.

There were important lessons learned, and for more than a decade we worked on it. But not all was rosy, not all was smooth. What we then saw in 2003, when I was the ranking member on the appropriations subcommittee funding national service, is they created a debacle. God, did they get sloppy. One of their most colossal errors was that they enrolled over 20,000 volunteers and could not afford to pay for it. That is how sloppy they were in their accounting.

I took to the floor and called them the "Enron of nonprofits." I called for a new board, a new CEO, and new rules of engagement. President Bush responded, and he gave us the right people to right the ship of national service.

I must say, in those 6 years since then, they have worked to do so. They have righted the ship, they have good financial accounting, and people continue to volunteer.

But all that is history. What about the 21st century now? Wow, people want to volunteer like never before. Do you know that last year 35,000 college seniors applied for Teach America? There were only 4,000 slots. There were 35,000 young people who wanted to do it. The Peace Corps got 13,000 applicants last year for 4,000 slots. People want to serve.

While we saw this new flourishing of desire and passion to serve, Senators KENNEDY and HATCH put their abilities and key minds and passion for this issue together and have come up with the Kennedy-Hatch Serve America Act. It is a great bill. Let me tell you about it.

First of all, it improves the number of national volunteers. Over a 7-year period, it would take the volunteers from 75,000 slots to 250,000 slots. But this bill is more about creating opportunities and for people to serve. It is about meeting compelling human needs.

We are going to also expand this bill with lessons learned on focusing some of our AmeriCorps activity into specialized corps. These are what we found: One, an education corps; another, a health futures corps; another, a veterans corps; and another called opportunity corps. These are not outside of AmeriCorps. They will be subsets because we find this is where compelling human need is and at the same time offers great opportunity for volunteers to do it.

What does the education corps do? It improves student engagement. It works

with young people in schools in supplemental services, such as tutoring, field trips, and particularly in these structured school activities. We have found that where they have focused on education, they have improved student academic achievement and graduation rates.

Also, we have something called the clean energy service corps. This is going to work to weatherize more low-income households to be more energy efficient.

We have a health futures corps that will work to increase access to health care among low-income and underserved populations but at the same time work on health promotion and wellness, primarily in schools, to teach our young people the kind of cool, new, edgy ways of doing those healthy habits that will change their lives for a lifetime.

We also are working on a veterans corps to help create housing units for deployed soldiers and to help also with voluntarism to assist military families when a military family is deployed.

I heard of a very innovative approach in Hawaii called Grannies for the Troops. That is grandmothers in the area who want to volunteer to help women whose husbands are deployed with some time off for themselves to go shopping, get other family business done, whatever. You need a volunteer coordinator to make that happen. That is the kind of innovation we are going to have.

We also have in this program help for retirees. We keep all our senior programs and we provide something called an encore fellowship for an older generation to serve. We also provide the opportunity for professionals called volunteers for prosperity to serve overseas. Those two ideas from Senator HATCH were very helpful.

This bill takes AmeriCorps and focuses it in a way that we think offers greater efficiency and provides some other new opportunities to serve, such as the summer of service and the semester of service. It also concentrates on improving the capacity of our nonprofit organizations in some other very innovative ways.

This is just a brief summary of the history that brought us to today and the framework that will take us to tomorrow.

In the last Congress, there was a lot of talk about bridges to nowhere. National Service is a bridge to somewhere. I wish to note in the health corps programs, we already have one that will continue to function under this health umbrella in AmeriCorps. Not only do we help people get connected to the services for which they are eligible, but 85 percent of the young people who work in the National Community Health Corps Program go on themselves to health care jobs. Some decide on a career in medicine. Some

think: Wow, although I already have my degree, I think I will go into an accelerated program and go into nursing, where they have the accelerated program for people with degrees. Others are looking at careers in public health or in x-ray technology. They get turned on.

For people who go into education, they say: You know, I was going to do this for a stint. I want it to be my life's work. They then will go into the field of education as teachers and getting extra degrees and doing a good job. They are the reformers of the next generation. What we do in national service serves the community immediately today, but the impact on the volunteers continues for the rest of their lives.

I think this is a great social investment, and it is a public investment in our young people to help our communities that I think will pay dividends long beyond anything we can imagine.

I hope this bill is adopted by late tomorrow. I hope we can keep amendments to a minimum. I do believe we have had excellent help on both sides of the aisle. We talk about changing direction in this country. I think people do want a new direction. They want to rekindle the habits of the heart. There are a lot of people out there, as we talked about bonuses, who might be talking about "me," but there are a lot of young people who want to be part of the "we" generation.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. MIKULSKI. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. MIKULSKI. Madam President, I ask unanimous consent that the time during the quorum call be charged equally, and I suggest the absence of a quorum.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. Madam President, last May, then-Senator Barack Obama gave a commencement address at Wesleyan University. Senator TED KENNEDY of Massachusetts had been originally scheduled to speak to the graduates, but Senator KENNEDY had taken ill and Senator Obama spoke in his place.

In a tribute to TED KENNEDY's lifetime of service to America, Senator Obama spoke to the graduates about

the importance of national service. It was a remarkable speech. In fact, what he told the graduates was his life story, about how Barack Obama, after graduating from an Ivy League college, could have gone to law school or Wall Street with many of his classmates. But, instead, he took a job as a community organizer on the south side of Chicago.

Many people know this story because they have heard Barack tell it. They may have read about it when the President published his autobiography, "Dreams From My Father," of how he ended up with a broken down little car, taking a job that didn't pay very much as a community organizer in a section of Chicago that had been wracked by the closing of steel mills and all the unemployment and hardship that followed. It wasn't easy work for him. He went church to church trying to organize people in the neighborhoods. The pay wasn't very good, but he knew he was making a difference. He made friends and connections. He learned a lot about life, and he learned a lot about himself. He found direction in his life from those moments that he spent volunteering and giving back to his community.

President Obama—then Senator Obama—called on the graduates at Wesleyan to find their own direction through service to the country. Here is what he said:

There's no community service requirement in the real world; no one forcing you to care. You can take your diploma, walk off this stage, and chase only after the big house and the nice suits and all the other things that our money culture says you should buy. You can choose to narrow your concerns and live your life in a way that tries to keep your story separate from America's. But I hope you don't. Because thinking only about yourself, fulfilling your immediate wants and needs, betrays a poverty of ambition. Because it's only when you hitch your wagon to something larger than yourself that you realize your true potential and discover the role you will play in writing the next great chapter in America's story.

President Obama repeated this call to service throughout his campaign and now into his Presidency. He has called on all Americans to find a way to serve their neighbors and their community to make this Nation a better place.

Over the last few months, we have heard too many stories about the so-called successful people who have followed their ambitions, and sometimes their greed, and the economy and country have suffered. But there are so many other stories to be told—community organizations across this Nation that are reporting record numbers of volunteers coming through their doors as we face this troubling economy. Many of these new volunteers have recently lost their jobs, but they still want to answer the President's call and give back to their communities.

That is the spirit that truly makes America great. Even in the most trou-

bling times, Americans think of those who are suffering, those who have lost their homes or can't put food on the table, and they want to help. There isn't a community in America where you can't find that spirit, and you can find it on the street corners, in church basements, in afternoon and weekend efforts of people just wanting to give a little bit back and to help those less fortunate.

In my State of Illinois, each year 2.7 million volunteers dedicate over 300 million hours of service. The estimated economic contribution of those hours is \$5.9 billion annually. More than 66,000 of these volunteers participate in national service programs through 144 different projects. In Chicago, the City Year program is one of my favorites. It places young volunteers to work full time in some of Chicago's neediest schools. There they serve as tutors, mentors, and role models for Chicago's students.

They usually call me in once a year to meet the new class—and I love them. They are just so bristling with energy and determination and commitment. Many of them are doing something in a communal sense that they have never done in their lives. Some of them are in Chicago for the first time, dazzled by the city but dazzled as well by the people they are working with.

We know we need them. A student drops out of school every 26 seconds in this country. City Year volunteers are helping to keep Chicago students in school and on the road to success.

When asked to share the impact of the City Year corps members on their classroom, teachers recently said:

All of my students who are being tutored are more interested in reading. They are more confident in themselves as striving learners.

It works and it works in both directions. The students are better off; so are the volunteers.

This week we are considering a bill that will dramatically expand national service programs, giving more Americans the chance to serve their country. I thank Senator MIKULSKI for leading us in this effort, bringing this to the floor. The original cosponsors of the bill, of course, were Senator TED KENNEDY and Senator ORRIN HATCH. I joined a long list of Democrats and Republicans as cosponsors as well. Both Senators KENNEDY and HATCH have a long personal commitment to service, and this bill is a testament to their public legacy. Senator MIKULSKI is bringing this to the floor in Senator KENNEDY's absence. I know she will handle this bill well. She always does.

The Serve America Act will triple the number of national service participants to 250,000 participants within 8 years. Along with this dramatic expansion, the bill will also create new corps within AmeriCorps, focused on areas of national need that include education,

the environment, health care, economic opportunity, and helping our veterans.

We are expanding opportunities to serve for Americans in every stage in life. Middle and high school students will be encouraged to participate in service projects during the summer and after school. By serving their communities early in life, these students will be put on a path to a lifetime habit of service.

For working Americans who cannot commit to full-time service, the bill provides funding to community organizations for recruiting and managing part-time volunteers; retirees will be given new opportunities to serve through the Senior Corps, as it exists, and through new initiatives. The bill also increases the education award for the first time since its creation. A lot of the people in the AmeriCorps projects, for example, at the end of their service, earn credits they can use to go on to pursue higher education.

The education award in this bill will be raised to the Pell grant level, which will make it easier for college students with significant student loan debt to consider national service—and the award will be transferable, so that older volunteers can actually transfer the education award to their children or grandchildren. What a great gift to give to your family.

There is a story Senator KENNEDY often tells about national service. On the fifth anniversary of the Peace Corps so many years ago, TED KENNEDY asked a young volunteer why he decided to sign up, and the answer was simple. He said: "It was the first time someone asked me to do something for my country."

With the Serve America Act we are asking again. We are asking Americans of all ages to give back to their communities and to America. Each American has the power to make a small difference in the success of a child or the health of the environment or the lives of hungry neighbors. All those small differences, repeated over and over, can add up to something truly powerful.

Passage of this bill is a priority of our new President and should be a priority for every Member of the Senate. I encourage my colleagues to support this bill and I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. SHAHEEN). Without objection, it is so ordered.

Mr. DURBIN. I ask consent the time remaining under the quorum call be equally divided between both sides.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. I suggest absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HATCH. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HATCH. Madam President, today the Senate begins consideration of the Serve America Act, which is the title of what will be the Senate substitute for H.R. 1388. It is my hope this legislation will help strengthen a culture of service, citizenship, and responsibility in America, and I am proud to join a bipartisan group of Senators in support of this bill as it comes to the Senate floor.

I am sure it goes without saying that Senator TED KENNEDY's absence is deeply felt by all of us as we work on this particular piece of legislation. I, personally, continue to pray for his full and speedy recovery.

To begin, I would like to discuss the context in which this legislation has moved forward to give us some perspective as to what is about to happen. After months of discussion, negotiation, debate, and flatout argument, Senator KENNEDY and I introduced the original version of the Serve America Act last September in the middle of what was often a hotly contested campaign season. Despite the overly partisan atmosphere at the time, a bipartisan group of Senators offered their support for this bill. Even though the differences between the two Presidential candidates were played out on news shows every night, both of them were willing to put their debates aside and become original cosponsors. That pleased me.

I would like, once again, to thank Senator MCCAIN for his continued support, not only for this particular piece of legislation but for volunteer service in general. He has truly been a leader on this issue throughout his life and has rightly won the admiration of those on both sides of the aisle.

In addition to the Kennedy-Hatch legislation, the Serve America Act, the Senate bill also includes legislation that will reauthorize the Corporation of National and Community Service. The reauthorization effort has been led on the Republican side by the distinguished ranking member of the HELP Committee, Senator ENZI, who has worked tirelessly with both Senator KENNEDY and Senator MIKULSKI to reach a bipartisan accord on these much-needed provisions.

In addition to Senators KENNEDY and MCCAIN, I have to extend my thanks, my deep-felt thanks to Senators ENZI and MIKULSKI for their outstanding work on the legislation before us today. Both of them are outstanding

legislators. They are both beloved people in this body. I, personally, feel that way toward each of them.

At the same time all this work has been going on in the Senate, we have been working with both Democrats and Republicans in the House of Representatives to ensure that both Chambers reach similar conclusions with their national service legislation. This has all been accomplished during a time when, for the most part, partisan hostilities have done anything but subside. Since the beginning of the new Congress, we have seen debates on legislation such as the SCHIP bill, the stimulus package and the Omnibus appropriations bill that, in many ways, have deepened the divisions between the two parties. Here in a few weeks, as we begin debate on the budget, we are sure to see even greater clashes between the principled beliefs and ideologies between those on both sides of the aisle.

However, the bill we have before us today is the result of a bipartisan and bicameral effort. In our opinion, this is nothing short of remarkable, given the current political climate.

Once again, the Senate effort has been spearheaded by myself, Senator KENNEDY, Senator ENZI, and Senator MIKULSKI. I doubt any other piece of legislation we consider this year will be the product of such a diversity of views. Senator MIKULSKI has carried this matter on behalf of Senator KENNEDY. I have nothing but tremendous respect for her.

I will not be foolish enough to claim the credit for all this good will, but I am certainly grateful to be a beneficiary.

Service has been one of the golden threads of our Democracy, and the roots of our tradition run deep. Ronald Reagan put this powerful tradition of volunteer service in its appropriate context when he said, speaking of the Mayflower Compact:

The single act—the voluntary binding together of free people to live under the law—set the pattern for what was to come.

A century and a half later, the descendants of those people pledged their lives, their fortunes and their sacred honor to found this nation. Some forfeited their fortunes and their lives; none sacrificed honor. Four score and seven years later, Abraham Lincoln called upon the people of all America to renew their dedication and their commitment to a government of, for and by the people. Isn't it once again time to renew our compact of freedom; to pledge to each other all that is best in our lives; all that gives meaning to them—for the sake of this, our beloved and blessed land?

Together, let us make this a new beginning. Let us make a commitment to care for the needy; to teach our children the values and the virtues handed down to us by our families; to have the courage to defend those values and the willingness to sacrifice for them.

Let us pledge to restore, in our time, the American spirit of voluntary service, of cooperation, of private and community initiative; a spirit that flows like a deep and

mighty river through the history of our nation.

President Reagan had a very good way of putting things.

President Reagan was not alone in his call for service. Presidents down the generations, Republicans and Democrats alike—Teddy and Franklin Roosevelt; Eisenhower and Kennedy; Johnson and Nixon; Carter and George Herbert Walker Bush; and Clinton and George W. Bush—have all worked to awaken the national consciousness to their duties and responsibilities as citizens, to light in every individual that spark of voluntary service, the seed of compassion that makes us serve causes larger than ourselves.

They have done so particularly in times of crisis: during the Great Depression, during our world wars, and after 9/11. Times of trial have always summoned the greatness of our people, and we are right now in a time of challenge today.

Service can take many forms in a free country, and we all have choices, not only as to whether we will serve but how we will serve. There is no greater example of service than those who put on the military uniform and go into battle for our country. Many men and women who choose military service make the ultimate sacrifice. They put their lives on the line for our country. Millions have lost their lives so we might be free.

There are more than 26 million Americans alive today who have served in our armed services. They epitomize American values, the values of duty, honor, and country. They also inspire new generations to ask what they can do for their country.

Other Americans may decide to go into public or Government service. This is a choice that is made by State and municipal workers, by teachers and police officers, and, yes, even by Senators and their staffs—to serve the public interest through their public institutions. I have to admit, I left my own law practice, where we had just started it a few years before. I had left Pittsburgh, moved to Utah, formed a law firm. We were going like gangbusters. My partner is worth a lot of money today. I am not. But I made this choice to come and work for our country. It is made by all these good people, to serve the public interests through our public institutions.

Service to country can take other forms. Many Americans want to serve for a full year or part of a year of national service. Others may want to volunteer to serve in countries abroad for short-term or long-term assignments. We had two people come back last night from a mission over in Africa. He served his whole working life as a chaplain in the military. She is a beautiful woman who has been married to him for all these years. They, at their own expense, volunteered and went to Africa to work in Kenya and Nairobi with

unfortunate people and to build esteem in the hearts of people over there.

They came back last night and spoke in our church. I was so proud of both of them—terrific people.

Others may want to volunteer to serve in countries abroad for short-term or long-term assignments. Still others, in fact the vast majority of Americans, will perform services as traditional episodic volunteers working in schools, houses of worship, workplaces, nonprofit institutions, and neighborhoods.

America is a generous nation and Americans are compassionate people, and our volunteer spirit knows no bounds. In all these cases, everything is a choice. Service in our military is voluntary as is service in our soup kitchens. Public service is not only a voluntary activity, but for many of us subject to regular elections where the citizens get to exercise their own choice of whether a particular candidate for office will exercise the privilege of serving them.

Consistent with our All-Volunteer Army and volunteer opportunities and individuals' choice in communities, nothing in this legislation is mandatory. This bill simply provides more Americans more choices and opportunities to give back to their neighborhoods and their country all through the means which they freely choose.

With a backdrop of this rich history of citizen service in America, Senator KENNEDY and I began discussions more than a year ago about what we might do together to build on the tradition of service in America. I know part of this is because both of us love his sister, Eunice Kennedy Shriver. We have watched this woman year after year after year give service to this country and to children all over the world; not just through the Special Olympics—but especially through the Special Olympics—but in so many other ways. I admire her about as much as any woman in our society today for what she has been able to do with her life. She is a 90-pound dynamo who just keeps going. I think—well, I will not say it because I know it can be embarrassing to her. But the fact is, she is a terrific human being.

I have chatted with all kinds of other people who are giving tremendous service to their fellow human beings, men and women, children, throughout our society. You know, Senator KENNEDY and I and others drew on ideas from Republicans such as my friend Senator JOHN MCCAIN, who introduced his own bill almost a decade ago and, as I mentioned, endorsed the Serve America Act in the midst of his Presidential campaign.

We drew on ideas from Democrats, such as the godmother of national and community service, that is Senator BARBARA MIKULSKI. We hear of godfathers; she is the godmother, a great

woman who has a great heart, and who worked as a social worker for many years, and for whom I have deep affection, no question about it.

From the outset, Senator KENNEDY and I talked about marrying two formerly competing visions of service: first, by supporting traditional volunteering, in the tradition of President Reagan's Private Sector Initiative; George H. W. Bush's Points of Light; and George W. Bush's USA Freedom Corps; and, second, by supporting full-time national and international service in the tradition of Presidents Kennedy, Nixon, for senior service, Clinton and again George W. Bush for both domestic and international service.

We have the attention of our new President. He has talked to me about this. I know he has talked to Senator KENNEDY about this. He completely supports this. He knows how important it is. I have respect for him for jumping right in and helping us with this.

We decided we wanted to create more opportunities for Americans to serve over their lifetimes, so schoolchildren can learn the importance of giving back at a young age, for tapping into the talents of the longest living, healthiest, best educated, and most highly skilled generations of older Americans in our history.

We wanted to tap the ingenuity of our people working through schools, faith-based institutions, workplaces, and communities in America and across the world to tackle challenges large and small.

So today I am very pleased to be here as this legislation makes it over what I hope will be the final few obstacles before becoming law. With this bill, our efforts to expand service will begin early in our schools all across America, and where we can marry learning in classrooms with service in our communities, for those who choose such service learning.

We have a high school dropout epidemic in America, with almost one-third of all students, and nearly 50 percent of African Americans, Hispanic, and Native Americans, failing to graduate with their class. For each of these kids a decision to drop out is a million dollar mistake, since they will earn that much less over a lifetime than their college graduate friends.

For our country, this is a multibillion dollar mistake in increased welfare, prison, and health care costs, and lost revenues from the lack of productive workers. Service learning has been shown to keep students engaged in school, and to boost student academic achievement. So we will offer competitive grants to local and State partnerships to carry out these efforts in our schools.

Again, all of this will be voluntary activity, and it holds the promise of keeping so many of our young people engaged in school. In addition to ele-

mentary and secondary schools, colleges and universities can play a critical role in the culture of service, so we will authorize the Corporation for National Community Service to recognize and provide additional funding to "campuses of service" that do an outstanding job in engaging their students in important community work.

The U.S. Census Bureau tells us that nearly 61 million Americans volunteered through or for an organization last year. Most Americans did so through religious organizations, followed by nonprofits, related to education and youth. While many charities believe volunteers are essential to meeting their missions, only a small percentage of them actually invest in recruiting, training, and utilizing volunteers to meet those missions.

There are always waiting lists of volunteers who want to use their time and talents, but too often they are turned away or they do not come back after a bad experience. So we will invest in a new volunteer generation fund, which will include matching funds by the private sector to increase the capacity of organizations to use volunteers to meet local needs, especially among the poor and disadvantaged.

America is known for its innovation in business and the power of its markets. This bill will fuel the spirit of entrepreneurship in America's nonprofit sector by creating a social innovations fund to foster and support the next generation of great ideas in the social marketplace, such as Teach for America, City Year, Habitat for Humanity, and the U.S. Dream Academy, which are some of the many innovative ideas of our day.

Having mentioned the U.S. Dream Academy, that was started by a wonderful African-American man named Wintley Phipps. Wintley is a Seventh Day Adventist minister. But he decided there were too many of our young African-American kids and others who were children of prisoners, children of people who had been sent to prison, and that a high percentage of them would wind up in prison themselves unless we did something about it. So he has brought computers into the inner cities. He has brought wonderful teachers and others who could be making themselves wealthy outside of this program, who are teaching these kids how to live in a modern world. He has had an amazing transformational change in so many children.

These are the types of things we have to encourage. The idea behind service clearly has always been about transforming the person who serves. I saw how it changed my own life when I served a 2-year mission for my church in the Great Lakes mission. That was Ohio, Indiana, and Michigan. A lot of our young missionaries serve all over the world, such as the young couple I mentioned last night. They came back

from Kenya and Nairobi, where they served I think about a year and a half. Their main job was humanitarian, to help people to be able to know there is a better way; to find water for people, to help them with food, to help them with so many of their problems, to help them to know there is a future. They did that voluntarily, at their own expense. Think about it, at their own expense.

I did my voluntary 2-year service at my own expense. I actually presided over congregations, and I helped out thousands and thousands of people who had problems, and in the process, the one who was helped the most was myself. It was a great blessing in my life. I would not change it for being a Senator, as a matter of fact. It was 2 years out of my life, but the most important 2 years, outside of marriage to Elaine and raising a family with 6 kids, now 23 grandchildren, and 3 great-grandchildren. That was an important time in my life. My folks were poor. They were not wealthy. They helped me and assisted me on my mission. We paid for it all ourselves, and I gave 2 solid years every day, 18 hours a day. I was very dedicated.

But service is also about solving problems in our Nation, and bringing real hope and impact on the ground in our communities with real accountability for results. Some people have written off this bill as promoting "paid volunteerism." This mistaken view is as a result of a fundamental misunderstanding about these programs. National service programs give Americans opportunities for us to serve for a full year or more to tackle tough problems, and that they, in turn, can leverage Federal investment in them to mobilize more traditional volunteers to help.

When you look at the numbers, you can see it is a very smart return on investment. Let me illustrate how this works. Today about 75,000 people participate in national Federal service programs every year. I am not counting the State programs at this point, although I know some of these work in the States as well. But on AmericaCorps and programs such as this, Peace Corps, et cetera, the currently existing programs, there are about 75,000 volunteers who participate in national service programs every year.

Now, as a result of their efforts, 2.2 million traditional persons every year come out to work on the same projects without pay. That is nearly 30 volunteers who get nothing from Government, for every 1 participant in a national service program, who receive a below-poverty stipend and a small education award to defray the cost of higher education.

Let's do the math. If we assume that as we expand national service, as this bill does, the same ratio of participants

to leveraged volunteers holds, we will eventually be seeing roughly 7.5 million new unpaid volunteers every year serving throughout our great Nation.

My gosh, that is something worthwhile doing. Personally, I think it would be more than that. Because with the bill we are also improving the efficiency and the accountability of these programs. Far from promoting paid volunteerism, this bill is all about encouraging traditional volunteerism. We find that people, once they get into this, will love it and want to continue.

We will be targeting national service opportunities to build upon this multiplying effect in order to tap the power of our Nation's greatest asset, our people, to take on some of these large challenges.

Now, some have argued that the priorities outlined in this bill are specifically designed to advance the President's domestic agenda or his priorities with the recent stimulus bill. Well, quite honestly, these people must ascribe to Senator KENNEDY and me abilities that neither of us would claim to have, including psychic powers and precognition. It was more than 2 years ago that I began a dialogue with former officials from the George Herbert Walker Bush and George W. Bush administrations and other leaders of the national and community service field regarding this proposal.

At that time, we agreed we wanted to harness the power of our citizens to solve urgent national problems. It was then, 2 years ago, that we identified five specific areas in which citizens could make a significant difference in addressing needs. We looked at education, and particularly the high school dropout crisis, in the aftermath of the 2006 report, "The Silent Epidemic."

We identified clean energy, opportunity, health and disaster response as key areas in which citizens could make a significant difference and we discussed specific indicators of progress that would bring new accountability for results.

These five areas were identified long before there was even discussion of an economic stimulus and well before the Presidential campaign got in full swing. Since that time, we have added veterans assistance as a key area of national need for the bill. But that is hardly an issue on which President Obama has cornered the market. I hope this clarifies the record on this point.

Having said all that, I am pleased that President Obama sees the value of this bill and wants to support it and will support it and has supported it. It has been a matter of great uplift to me.

So it is with these particular challenges in mind that we drafted the Serve America Act. Gone are the days when national service participants will be able to go about their work without direction or accountability. Under our

bill, their efforts will be directed at these specific areas of national need. In all of these efforts, State and local organizations will lead the way. Volunteers will be leveraged and urgent needs will be met not by distant Government bureaucracies or Government programs but by people working on the front lines of our communities and neighborhoods.

Americans can also spread American compassion around the world. There have been good efforts over the last 7 years and good bills in the Congress to fulfill the promise of President Kennedy's Peace Corps and expand its numbers. It has been a bipartisan effort. Two former Republican Presidents, Ronald Reagan and George W. Bush, grew the Peace Corps during their 8 years in office. As a complement to the growth in the Peace Corps, the Serve America Act will authorize and fund Volunteers for Prosperity, which last year alone mobilized 43,000 doctors, nurses, engineers, and other skilled Americans to meet urgent needs abroad, such as HIV/AIDS and malaria, such as medical procedures to help children who have cleft palates or helping kids to see again.

I could go on and on about what is being done by volunteers all over the world. This cost-effective program puts skilled Americans in the field for flexible term assignments often ranging from a few months to more than 1 year and at extremely low cost to the Federal Government.

President Kennedy said that his Peace Corps would be truly serious when 100,000 Americans were working abroad every year. Well, Volunteers for Prosperity, working together with the Peace Corps, could help fulfill that dream and would show the world the compassion of our people and lead to a more informed foreign policy.

Having mentioned the Peace Corps, why don't I mention Eunice Shriver's great husband, Sargent Shriver, when he fought for the Peace Corps, it wasn't an easy job. By gosh, he had to take on his own administration and everybody else. But he did. What a wonderful, decent, honorable leader and human being that man really is. If you want to read a great biography, read his, how ebullient he always was and how he kept being positive about life and what he was trying to do. I feel fortunate that I have become very good friends of the Shrivvers and their children who now are giving volunteer service, and so many others.

I don't mean to center on this one family because there are so many. In our church alone, we have some 55,000 serving all over the world. That is just missionaries. If we go beyond that to humanitarian service, there are a lot of people serving in those areas. Almost every major national disaster in the world, the first two churches in there with food, clothing, pharmaceuticals,

et cetera, happen to be the Mormon Church and the Catholic Church. They work together. We have worked together all these years to do this type of work.

Volunteers for Prosperity, working together with the Peace Corps, could help fulfill the dreams of so many and would show the world the compassion of our people, leading to a more informed foreign policy. In all cases, we must promote accountability for results and be mindful—very mindful—of cost.

As investments are made in service efforts, programs that are achieving real results should continue, and those that are not working should be defunded.

We also need to do a better job collecting data on the results of these programs and our civic health as a nation. The Nation collects good data about its economy, but it can do a better job collecting information about our country's civic health. This bill will address those needs by establishing a civic health index, building on the good work of the National Conference on Citizenship and the Corporation for National and Community Service, to collect regular data on volunteering, charitable giving, and other indicators of our civic life, so Americans can work to strengthen these platoons of civil society that have always been the backbone of our democracy. I truly think that this data collected for this index will inform our decisionmaking throughout the policy spectrum.

Those of us supporting this bill—Republicans and Democrats alike—believe an investment in the ingenuity and entrepreneurial spirit of our people is one of the best investments our country can make. At a time wrought with economic uncertainty, we should be all too willing to tap the greatest resource at our nation's disposal—the American people. Our citizens are the most generous, energetic, and innovative people in the world. I believe this bill will inspire them to do much of the heavy lifting in their own communities. At a time when many people would argue that what we need is more Federal Government bureaucrats going into neighborhoods to fix things up, this bill will help private groups and individuals to continue their good work and to inspire other people to join in their efforts.

The Serve America Act has strong bipartisan support because it advances a good American idea that has echoed down the ages. You see, when Americans want to solve problems, they don't first look to government or the State—they look to themselves and their communities. The innovation and enterprise of the American people will always have a comparative advantage over big government solutions. I know this from my own personal experience, serving as a Mormon missionary when

I was only 20 years old, 20 to 22. I am proud to be associated with this effort to remind Americans of their duties to their country, to provide them more opportunities to serve it, and to fulfill the promise of the American experiment, which is truly based on their participation in making it all work. I have faith in the American people that they will make this work, and we will all be very happy when they do.

I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KERRY. Madam President, let me begin by thanking the Senator from Utah, whose leadership on this effort has been absolutely spectacular and who obviously, from the words he just spoke, has a deeply personal and historical understanding of the importance of this kind of service. We are all very grateful to him for his partnership with my colleague, Senator KENNEDY, and for the leadership he has offered along the way. I would concur with every word he has spoken about it, all of the good things he said it would do. I couldn't agree more. It will do all those things and more. This is one of the better moments and better bills for which we get an opportunity as Senators to vote.

May I also thank Senator MIKULSKI. She has been tenacious and unbelievably engaged and enthusiastic and wonderful in her commitment to help bring us to this moment. I know how much Senator KENNEDY and Senator HATCH both value the contribution she has made. We all value it. We are grateful to her for stepping in. She has been a tiger. Perish the thought for anybody who has wanted to run counter to her intent to get this done.

I want to speak for a couple moments. I yield myself perhaps 5 minutes. I think we have about 7½ remaining.

This effort we will vote on is going to generate the largest expansion in national service since President Kennedy inspired the creation of VISTA and the Peace Corps. For many of us in public life today, that was the formative moment. That was the demarcation point that excited many of us about public service and brought a lot of us into this arena.

It is particularly fitting that this legislation comes at a time when a new President is inspiring a whole new era of volunteerism, much as President Kennedy did nearly half a century ago. It is equally fitting and appropriate that this legislation bears the name of our friend and beloved colleague, my senior Senator from Massachusetts, TED KENNEDY. As President Obama observed in his first address to Congress, Senator KENNEDY is "an American who has never stopped asking what he can do for his country." It was under Senator KENNEDY's leadership as chairman of the Senate Health, Education,

Labor, and Pensions Committee that this bill was crafted.

This is nothing new for Senator KENNEDY. In 1990, Senator KENNEDY worked with the first President Bush to pass the original National Community Service Act, the Thousand Points of Light Foundation. President Bush called that particular effort, helped by Senator KENNEDY, the hallmark of his Presidency. When President Clinton needed a champion for the proposed Corporation for National Community Service, he didn't have to look any further than TED KENNEDY.

As Senator KENNEDY notes, "Service is a bipartisan goal." Indeed, Members of Congress from across the political spectrum have pledged their support for this measure, which is a clear indication that the ethic of service is spawned not by faithfulness to party but by devotion to country and community.

The Serve America Act is also the work of our colleague from Utah, Senator ORRIN HATCH. Senator HATCH has on many occasions been TED KENNEDY's partner in these kinds of bipartisan efforts. Senator HATCH points out that volunteer service is the lifeblood of our Nation and that it benefits the volunteer as much, if not more, than the country the volunteer is serving. We just heard those words a moment ago from Senator HATCH when he talked about his own experience as a young person, about the mission for faith that he called the greatest of his life. Service is what has always made America, America.

Many times in 2004, when I was running for President, I talked about de Tocqueville's visit to our country and how he found something special here. He wrote about it. He wrote that "America is great because Americans are good." What he meant by that was he had observed this extraordinary spirit of voluntarism, a kind of patriotism that was defined by Americans who would voluntarily give back to their community or help other people or do something openly on behalf of their country and that community. He clearly had not seen or witnessed that kind of giving in his experience in Europe.

Just as it was in de Tocqueville's day, Americans in many ways, big and small, are looking for opportunities to do more for their country. Last year, 62 million Americans gave 8 billion hours of service to the country. Last month, AmeriCorps had tripled the number of applications over the same month as a year ago. I note that my own kids who graduated recently from college commented to me how so many of their classmates in college were all engaged in some kind of local activity, not necessarily fighting on the national stage, but they were involved mentoring kids

or helping in a homeless shelter. Indeed, many of our colleges and universities across the country boast unbelievably high percentages of voluntarism.

They are sending us a signal, telling us why this is a good moment to create a new corps of 175,000 volunteers who are going to be organized and assist in their efforts to do the things we need to do in America. That means that in addition to the other volunteer programs, we will have as many as a quarter of a million Americans serving full time or part time working to meet some of our most pressing challenges: modernizing schools, building homes, serving as mentors or tutors in schools, helping with the sick in hospitals and clinics. And with the Serve America Act, it is going to be a lot easier for professionals and retirees, the baby boomers, the people who were first challenged by President Kennedy's call to service in 1961, it is going to be much easier for them to get involved once again.

So we face great challenges. We should have no illusion about the magnitude of those challenges. But we also have extraordinary opportunities staring us in the face. With the Serve America Act, with more Americans involved, with Americans pulling together, I am confident that is going to be the definition of America's future, and it will be a definition we will all be proud of.

So I urge my colleagues on both sides of the aisle to support this important piece of legislation. I pay tribute, again, to my colleague, TED KENNEDY, and his partners in this effort, Senator MIKULSKI and Senator HATCH, who have brought us to this time. Thank you.

I yield the floor and reserve the remainder of our time.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Ms. MIKULSKI. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. MIKULSKI. Madam President, we are only minutes away from voting on the cloture motion to proceed to the bill. I really urge all of my colleagues to vote yes on this motion so we can proceed to this excellent, dynamic, bipartisan bill called the Serve America Act.

Madam President, in November, people voted for us to change the tone in this country and change the direction and to work on a bipartisan basis to find that sensible center that Colin Powell has so often talked about, to meet America's compelling needs and challenges.

Now, we are not going to turn the economy around quickly, and we are

not going to solve some of our great foreign policy challenges immediately. But we can embark upon a major initiative to be able to meet compelling human needs in our society.

We have a bipartisan effort, crafted by Senators KENNEDY and HATCH, to do exactly that. It is a bipartisan measure to strengthen service and volunteer opportunities. It expands opportunities for individuals of all ages to serve. Its passage is important now, when so many communities are struggling with so many pressing problems and so many people want to serve.

This act invites many more Americans to give a year of service to solve specific challenges in the areas of education, healthy futures, clean energy, even helping our veterans. When they come back from overseas, they are going to have somebody to be with them to get connected to the services and to help those military families while they are serving abroad.

We can do this by passing this legislation. It expands the number of national service corps participants to 250,000 a year. But we do that over a 7-year period. We will be able, through prudent pacing of both recruitment and funding, to do it over a 7-year period.

It also increased the Eli Segal Education Award from \$4,725 to \$5,350, pegging it to Pell grants, helping those who want to serve be able to reduce their student debt or to get a voucher to be able to pursue higher education.

It supports increased service opportunities for students, particularly very young people in the Learn and Serve Program, and middle and high school students through a summer of service and a semester of service.

It also recruits retirees. Many retirees are ready, able, and willing to be involved through Senior Corps programs—RSVP, Senior Companions, and Foster Grandparents.

We have a program called Encore Fellowships to help retirees participate in longer term public service. It also supports international service opportunities. Senator HATCH is too modest to talk about his own fine hand in this bill, but he has offered an excellent suggestion that has been incorporated. It strengthens the current Volunteers for Prosperity Program, which enables people who are retired, who have skills in business, public works, engineering, et cetera, to provide short-term international service opportunities in developing nations.

This is what America is all about. De Tocqueville, when he studied our Nation, said: What is unique about this new country called America? Well, he called it the "habits of the heart," where neighbor helps neighbor, whether it was the barn raising of another era, to also building Habitat for Humanity here.

We need to harvest all of that goodwill and good intention to help turn

our country around. I believe the Serve America Act does this. We will be debating this legislation further tomorrow. I encourage people to vote yes on the cloture motion to proceed. I encourage all who have amendments to come forward tonight and tomorrow morning so we can move it and get the job done. That is what the people want us to do.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Utah.

Mr. HATCH. Madam President, I thank the distinguished Senator from Maryland. She has played such a pivotal role on this bill, she and Senator ENZI in particular. And, of course, Senator KENNEDY and I both feel very deeply toward her and Senator ENZI.

I also want to thank Pastor Rick Warren. A little over a year ago, he came to see me in my office. He heard I was interested in doing a service in America bill, and he came and went over it with me and was very interested and has done a great deal to inspire a number of us on both sides of the floor to be able to do some things in this area.

I also want to thank JOHN MCCAIN. I have mentioned President Obama and Senator MCCAIN, both of whom are supporters of this bill. And you talk about bipartisanship—I think it shows the great character of Senator MCCAIN that he would come and support this type of legislation and, as he is want to do, in so many ways. I have such respect for him and for the President himself. He has been nothing but a great help to us in this matter.

Like I say, this is an opportunity for all of us to vote for a program that will get people involved from teenage years through senior citizen years, the vast majority of whom will not be paid a dime, the vast majority of whom will be leveraged into working because they want to serve the communities. They want to serve these organizations. They want to be part of doing good.

Like I say, with 75,000 for AmeriCorps, and some of the others we have mentioned, we estimate there are 2.2 million people, extrapolated out, who basically are leveraged out, to where they want to get involved, and not one of them is paid for doing it.

If we figure it out mathematically, in just real terms, with this bill, calling for 175,000 new workers, at low pay, stipends for school, we believe we will have upwards of 7 million-plus people who will be giving voluntary service to their fellow human beings, fellow women and men, in their communities and children in their communities. It will do so much good for our society.

Madam President, I have worked on a lot of legislation in my 33 years here, a number of which happen to be landmark pieces of legislation. We should pass this, and I hope we can with a large majority. Should we pass this? I

don't know anything that will do more good in a general way for our society than this particular bill.

I hope everybody will vote for cloture tonight. I also hope we can pass this bill in a relatively short period of time, and I hope we can make it truly bipartisan in every way. We have endeavored to do that. I think we have done a good job on it.

I yield the floor.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will report.

The bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to proceed to Calendar No. 35, H.R. 1388, a bill to reauthorize and reform the national service laws.

Harry Reid, Barbara A. Mikulski, Barbara Boxer, Tom Harkin, Daniel K. Akaka, Tom Udall, Patty Murray, Patrick J. Leahy, Bernard Sanders, Sheldon Whitehouse, Christopher J. Dodd, Jon Tester, Mark R. Warner, Robert P. Casey, Jr., Benjamin L. Cardin, Blanche L. Lincoln, Kent Conrad.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call is waived.

The question is, Is it the sense of the Senate that debate on the motion to proceed to H.R. 1388, a bill to reauthorize and reform the national service laws, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Alaska (Mr. BEGICH), the Senator from California (Mrs. BOXER), the Senator from Iowa (Mr. HARKIN), the Senator from Hawaii (Mr. INOUE), the Senator from Louisiana (Ms. LANDRIEU), the Senator from Florida (Mr. NELSON), the Senator from Arkansas (Mr. PRYOR) are necessarily absent.

I further announce that, if present and voting, the Senator from Iowa (Mr. HARKIN) would vote "yea."

Mr. KYL. The following Senators are necessarily absent: the Senator from Texas (Mr. CORNYN), the Senator from Wyoming (Mr. ENZI), the Senator from Florida (Mr. MARTINEZ), and the Senator from Louisiana (Mr. VITTER).

Further, if present and voting, the Senator from Texas (Mr. CORNYN) would have voted "nay."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 74, nays 14, as follows:

[Rollcall Vote No. 108 Leg.]

YEAS—74

| Cornyn | Landrieu | Vitter |
| Enzi | Martinez | |

The PRESIDING OFFICER (Mr. WARNER). On this vote, the yeas are 74, the nays are 14. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

Mr. REED. I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REED. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

GREEN JOBS

Mr. GRASSLEY. Mr. President, in recent weeks and months, a new phrase has been born that has gained in popularity and support. The new phrase that is so in vogue in the Halls of Congress and at the other end of Pennsylvania Avenue is "green jobs."

I have no fault with the term. Everyone wants to create green-collar jobs. Green jobs are believed to be a critical component of getting us out of the economic doldrums in which we find ourselves. A new White House middle-class task force recently focused on the creation of green jobs as a means of fueling our economy and creating jobs for the middle class. Vice President BIDEN has defined a green job as one that pro-

vides products and services that use renewable energy resources, reduces pollution, and conserves energy and natural resources.

I don't disagree that the creation of these types of jobs is a very worthy ambition. This newfound desire for so-called green jobs has led me to remind my colleagues of an existing industry that is making great strides to reduce pollution, conserve natural resources, and contribute significantly to our economy.

The U.S. renewable fuels industry has been creating good paying jobs in rural America for years. It has been 30 years since a tax incentive for ethanol was passed and 17 years since I fathered the wind energy tax credit. These alternative energies have been producing a renewable resource right here at home that is reducing our dependence on foreign oil and fossil fuels, and it has contributed to a cleaner environment.

U.S. domestic renewable fuels have been doing all these things long before it was cool or in vogue. So don't be surprised that this is the nature of America's farmers, ranchers, and entrepreneurs. They do things because of the intrinsic value to our country and to our economy, whether it is a fad on the east coast or not.

I happen to think it is great that there is a newfound zeal for creating renewable resources here at home. I have been supporting our domestic renewable fuels industry for nearly 30 years as a means to reduce our dependence on volatile nations for our energy, mostly for petroleum. I have been promoting clean wind energy since I fathered the wind energy tax credit back in 1992. I am pleased to see the success and the support wind energy now receives because of my tax incentive.

I hope my colleagues who tout the benefits today of the so-called green jobs fully realize the contribution the domestic ethanol and biodiesel industries have been making for years in this area. Farmers across this country produced more than 9 billion gallons of homegrown renewable fuels last year. Ethanol production displaced 321 million barrels of oil last year. That is the equivalent of our imports from Venezuela for 10 months. The use of 9 billion gallons of ethanol saved American consumers \$32 billion last year.

Yet even with this success, our farmers and the biofuel industry have been under constant attack—at least constant attack over the last 2 years. In a high-priced public relations smear campaign, the food manufacturers and the Grocery Manufacturers Association have tried tirelessly to denigrate the efforts of our farmers. In a baseless campaign, they tried to blame the ethanol industry for raising food prices, even though corn makes up about a nickel of the cost of a box of Corn Flakes. The grocery manufacturers

thought they found a weak link in the food chain that they could target and scapegoat as a culprit behind the rising cost of food. It was clearly proven that the cost of energy had a significantly greater impact on food prices than did other commodity costs.

The fact is, the ones responsible for the high cost of food are the companies whose names stare back at us as we go through the grocery stores and supermarkets, and they have never hidden their motive during this smear campaign. It was stated clearly at the time the smear campaign was started that it was about "protecting our bottom line."

Consumers are still seeing the impact of that pocket lining by big food companies while commodity prices have dropped by half since their highs last summer. But food prices are still at record highs. Even the price of oil has dropped more than \$100 a barrel. Yet food companies continue to keep prices high.

You don't need to take my word for it because we have the grocery store chains themselves fighting back now. SuperValu, Safeway, and Wegmans are just a few chains that are speaking publicly against the price increases pushed on them by Kellogg's, General Mills, Kraft, Nestle, and others. An article in the Los Angeles Times as recently as March 2 stated:

Our large grocery companies operating in Southern California have seen the wholesale price for a carton of Kellogg's Corn Pops rise about 17 percent since June, despite a 52 percent plunge in corn prices from their peak this month.

The chief executive for Safeway was quoted as saying:

It is disingenuous to consumers that all commodity costs are coming down, interest rates coming down, everything is coming down, and the national brands are taking their prices up.

The chief executive of SuperValu described the situation as a "battle-ground" with manufacturers right now over prices.

I am pleased to see others in the food chain call on these food producers to lower prices in light of the large drop in commodity prices, but this isn't the reason I came to speak today. I would like to take just a few more minutes to share with my colleagues another assault that is taking place on biofuels.

In the 2007 Energy Independence and Security Act, Congress enacted and expanded a renewable fuels standard to greatly increase the production and use of biofuels. A component of that renewable fuels standard was a requirement that various biofuels meet specified life cycle greenhouse gas emission reduction targets. The law specified that life cycle greenhouse gas emissions are to include direct emissions and significantly indirect emissions from indirect land use changes. This means that the emissions from planting, growing, and

harvesting the feedstock to the production of biofuels must be included in the calculation. It also means that the Environmental Protection Agency must determine and must measure the greenhouse gas impacts if there is a significant conversion of forest or prairie-to-tillable land because of our biofuel policies.

For the past few months, the Environmental Protection Agency has been working on what we call a rule-making—notice of proposed rule-making—to implement the updated renewable fuels standard. While it hasn't been finalized or made public, there are great concerns about this rule within the biofuels industry surrounding the science behind indirect land use changes. And, of course, when you think of the Environmental Protection Agency, isn't science what EPA is all about?

President Obama, during his Presidential campaign and as President now, has stated that his administration will return to decisions and actions based on "sound science." In January, he said:

Rigid ideology has overruled sound science. Special interests have overshadowed common sense.

Well, I would encourage President Obama and his staff to take a close look at what the EPA is doing in this rulemaking process called a notice of proposed rulemaking on renewable fuels standards. There are a couple of people in the EPA's Office of Air and Radiation who firmly believe—do you believe this?—they can quantify the indirect land use changes that result from our biofuels policies. I am afraid that the bureaucrats at the Environmental Protection Agency are going down a path of blaming our biofuel producers for land use changes around the globe, and specifically even outside of the United States.

The fact is, measuring indirect emissions of greenhouse gas reduction is far from a perfect science, and dozens of credible scientists agree. There is a great deal of complexity and uncertainty surrounding this issue. One study last year claimed that biofuels, as a result of these indirect impacts, actually led to greater emissions and greenhouse gas emissions than did gasoline. This conclusion defies common sense. Under careful scrutiny, credible scientists on the other side disproved these conclusions, and I want to quote some.

Dr. Wang of the Department of Energy's Argonne National Laboratory replied to these assertions by stating:

There has also been no indication that the United States corn ethanol production has so far caused indirect land use changes in other countries, because U.S. corn exports have been maintained at about 2 billion bushels a year, and because U.S. distillers' grain exports have steadily increased in the past 10 years.

May I add that really what EPA—through indirect land use—is talking

about here, in the most common denominator, is they figure that because Iowa or Missouri or Minnesota or Illinois corn producers are growing corn, and some of it is going into ethanol, that someplace down in Brazil, farmers are just sitting around trying to calculate and are going to plow up acre for acre the amount of land that is maybe being used for production of ethanol at this point. Well, I think the practical matter is that just isn't happening, and that is exactly what Dr. Wang is saying here. And if that were the case, what can the farmers of our country do about it? Are we going to be at the point where something that happens in some other country is going to affect our policy here in the United States as to what we can grow and what we can use that crop for? I don't think that is a credible position to take.

Now, I quoted one study, but there are a number of credible studies that have demonstrated that our biofuel policies will have little, if any, impact on international land use. A recent study by Air Improvement Resource found that the production of 15 billion gallons of corn ethanol by the year 2015 should not result in new forests or grassland conversion in the United States or abroad. Let's look at the University of Nebraska. A peer-review study conducted there and published in the Yale Journal of Industrial Ecology found similar conclusions. They concluded that corn ethanol emits 51 percent less greenhouse gases than gasoline. A third study, conducted by Global Insight, found that it is virtually impossible to accurately ascribe greenhouse gas impacts on indirect land use changes to biofuels.

There are a number of assumptions that can affect the conclusion about indirect land use changes. With any model, if you put garbage in, you will get garbage out, and I want to make sure the EPA isn't putting garbage in. I want to make sure they know yields per acre for corn have doubled between 1970 and today. I want EPA to know that nitrogen fertilizer used per acre has been declining since 1985. The Environmental Protection Agency also needs to know that the ethanol industry today is vastly more efficient than it was just a few years ago. Ethanol producers use one-fifth less energy today than they did just 8 years ago. More fuel is being produced from the same amount or even less land.

The California Air Resource Board is also trying to grasp this issue. They are developing a low carbon fuel standard which is penalizing biofuels with an indirect land use change. On March 2, 2009, to counteract this, 111 scientists sent a letter to California Governor Schwarzenegger on this very matter. The scientists are from leading research labs such as Sandia, Lawrence Berkeley, and the National Academy of

Sciences, as well as leading educational institutions, including MIT, UCLA, Michigan State, and Iowa State. Scientists criticized the California Air Resource Board for proposing a regulation that alleges an indirect price-induced land conversion effect around the globe caused by a demand for agricultural production and biofuels.

In other words, they said in this official report what I just said: There isn't some Brazilian farmer just sitting around nervously awaiting whether he can plow up another acre of grassland in Brazil just because some more ethanol is being used out of products we grow here.

The letter of these 111 scientists sent to Governor Schwarzenegger stated:

The ability to predict this alleged effect depends on using an economic model to predict worldwide carbon effects, and the outcomes are unusually sensitive to the assumptions made by the researchers conducting the model run. In addition, this field of science is in its nascent stage, is controversial in much of the scientific community, and is only being enforced against biofuels.

The two primary conclusions of these scientists are that science surrounding indirect land use changes is far too limited and uncertain for regulatory enforcement. Second, indirect effects are often misunderstood and should not be enforced selectively.

Several of us in the Senate are trying to get the Environmental Protection Agency to wake up and reconsider some of their thoughts. Last week I had the opportunity to join my Iowa colleague, Senator HARKIN, as well as 10 other Senators, in appealing to EPA Administrator Lisa Jackson to be cautious on this issue and as doctors would say about medicine: First do no harm.

Because of the incomplete and limited science, we urge in our letter against any premature and, of course, inaccurate conclusions on indirect land use changes. Instead, the EPA should move forward by allowing for public review and refinement of the methodology that they have developed. I am afraid the climate folks at EPA are heading in the wrong direction on this issue. I do not think they are bad people, but I am afraid they do not understand much about American agriculture. I do not think they are aware of the significant crop yield improvements we have seen in recent years or the great potential for the next 20 years.

I will just give my own farming operation as an example. In 1959, when I started farming, we were raising, on average, about 60 bushels of corn per acre. It happened that the first year I farmed I produced considerably less than that amount, but eventually, within 15 years, this farmer, as well as the Iowa average, had gone to about 90 bushels of corn per acre.

Last year, in my county, we raised 175 bushels of corn per acre. During that period of time, we went from till-

ing the field probably six or seven times over to produce a crop to now a point where we are only tilling the field once or twice before harvest. In each of these processes, we are producing more corn, we are producing it more efficiently, and at the same time we have an abundance.

When I started farming, farmers were producing about enough food for 44 other people. A family farmer today produces enough food for 140 other people.

I think we have made great progress, but I am not sure EPA understands the efficiency of the American farmer today and for sure they do not understand that people in Brazil are not just sitting around, seeing how they can take advantage of the fact that American farmers might be producing some of their crop for sustainable energy production in this country as opposed to importing more oil.

I also do not think these people fully understand the benefits of valuable ethanol byproducts, which further reduce the effective land used for fuel production.

Along this line, do they understand that when you take a bushel of corn to make 3 gallons of ethanol that corn is not gone forever, that 18 pounds of the 56 pounds that is in a bushel of corn is left over for animal feed? So it is not all going to production of energy.

To me, it defies common sense that the EPA would publish a proposed rule-making with harmful conclusions about biofuels based on incomplete science and inaccurate assumptions and especially in light of President Obama's commitment to use sound science in decisionmaking by the bureaucracy carrying out the laws we pass. The Environmental Protection Agency's action, if based on erroneous land-use assumptions, could hinder biofuel development and extend America's dependence upon dirtier fossil fuels from parts of the world that are not very stable.

Agricultural practices and land-use decisions in other countries are not driven by U.S. biofuel policies. In other words, there is no Brazilian farmer sitting around in Brazil, waiting to see what Iowa farmers are going to do with their corn—for food or export or for fuel. Even if they were, we have no accurate way to measure it scientifically and we need to ensure that in that measurement, biofuels get credit for these increased efficiencies of production—of the basic commodity as well as the increase in efficiency producing the ethanol.

President Obama was, and as far as I know is still, a strong proponent of our domestic biofuels industry and he especially was during his time in the Senate. I know he recognizes the benefit of producing homegrown renewable fuels, and I doubt he would agree with the conclusion that biofuels emit the same

or more lifecycle greenhouse gas emissions as does gasoline.

I hope the EPA will reconsider its conclusions on this or not hastily draw conclusions.

WHISTLEBLOWER PROTECTIONS

Mr. GRASSLEY. Mr. President, during the height of the Presidential campaign, President Obama made a number of high profile statements and promises about what actions he would take once he was elected and sworn in. These promises outlined a number of important issues such as closing the revolving door for lobbyists in the executive branch, ending the use of no-bid contracts, and curbing the influence of special interests, to name just a few.

Over the years, I have been an outspoken supporter of legislation that would make the Government more transparent and open. I have authored and supported a number of bills that would open the Government up and make it more accountable to the citizens. In particular I have been strong advocate for whistleblowers. Most importantly, I have always pushed the Government to be accountable by conducting vigorous oversight of the Federal bureaucracy regardless of which party controls Congress or the White House. I have been an equal opportunity overseer and have given my Republican colleagues as many headaches as I have given Democrats.

Given my background on oversight, I was supportive of some of the statements President Obama made as a candidate with respect to transparency and openness in Government. A document on the Obama campaign Web site titled, "Restoring Trust in Government and Improving Transparency," outlined ethics and contracting reform, and included a statement that:

Obama will sign legislation in the light of day without attaching signing statements that undermine legislative intent.

Candidate Obama further discussed signing statements during a campaign speech where he said that his administration was "not going to use signing statements as a way of doing an end run around Congress." A video of that speech is available online for all to see.

I was also encouraged by candidate Obama's promises to protect employees in the Federal Government who blow the whistle on fraud, waste, and abuse. In yet another campaign document, candidate Obama stated that he would "strengthen whistleblower laws to protect Federal workers who expose waste, fraud, and abuse of authority in government." That statement was posted on the Change.gov Web site of the Obama Transition Team for all to see. It was a welcome message to the employees of the executive branch that risk their careers and stick their necks out to alert Congress, inspectors General, and the public about fraud, waste,

and abuse in Government agencies and programs.

These employees, also known as whistleblowers, often do nothing more than “commit truth,” and for it they are shunned by their agencies, coworkers, friends, and government. My colleagues have all heard me say time and again that whistleblowers are as welcome as a skunk at a Sunday picnic. These patriot individuals believe that Government can do better for its citizens. They risk everything to make sure that laws are faithfully executed as they were intended and let Congress know when something is not working and needs fixing. Some of the most important reforms to our laws have come from whistleblowers, be it reforming our national security and law enforcement coordination following the tragic events of 9/11, or ensuring we have clean water to drink.

Given Candidate Obama’s promise to not use signing statements to circumvent the legislative intent of Congress and his pledge to support whistleblowers, I was shocked to read the signing statement he issued on the Omnibus appropriations bill that was signed into law on March 11. Not only did President Obama’s action run contrary to his promise not to use signing statements to circumvent the intent of Congress, he also appears to have broken his promise to strengthen whistleblower laws by singling out an important whistleblower protection provision that Congress has included in every appropriations bill for the last decade.

Sections 714(1) and (2) of the omnibus bill contains an appropriations rider that states that no appropriation shall be available to pay the salary of any officer or employee of the Federal Government:

Attempts or threatens to prohibit or prevent, any other officer or employee of the Federal Government from having any direct oral or written communication or contact with any Member, committee, or subcommittee of the Congress.

This rider was first included in appropriations bills in 1997 and has been included in appropriations bills since. It is a strong signal to all agencies that efforts to block federal employees from coming to Congress won’t be tolerated.

However, the applicability of this rider is now in question given the signing statement issued by President Obama. His signing statement, in pertinent part, stated that this provision does not:

detract from [his] authority to direct the heads of executive departments to supervise, control, and correct employees’ communications with Congress.

This statement is shocking. It acknowledges that President Obama envisions a scenario where he would order a Cabinet Secretary to supervise, control, and correct statements made by employees to Congress.

Worse yet, the signing statement goes further to add that this authority

would be used when employee communications would be “unlawful or would reveal information that is properly privileged or otherwise confidential.”

I want to emphasize that word “confidential,” because you will hear about that in just a minute.

While other Presidents have objected to this appropriations rider in the past, President Obama’s signing statement is even more problematic than those because it states that he has the authority to not only restrict privileged material, but also “confidential” information.

By failing to define “confidential,” President Obama has given a blank check to executive branch agencies to block communications with Congress related to an undefined, broad category of information.

Understand, it is a constitutional power and responsibility of this Congress to oversee, as part of our checks and balances of our Constitution, the agencies of Government to make sure laws are faithfully executed, as the Constitution requires, and as money is spent according to Congress.

Even the New York Times noted President Obama’s signing statement includes “one somewhat unclear objection” that “could be read as bumping up against the rights of executive branch whistle-blowers.” Because, in our constitutional responsibility, we have to rely upon people in the executive branch to tell us when the job isn’t being done according to the Constitution or according to law.

So I want to go further than what the New York Times said and say: It does more than bump up against the rights of whistleblowers. It, in fact, is going to be a chill. It will chill executive branch employees from sharing information with Congress in our congressional obligation of oversight.

It could also be construed to be an attempt to limit Members of Congress from conducting this constitutional duty. I wrote to President Obama last Friday raising my concerns with his signing statement, and, most importantly, the chilling effect that it will have on whistleblower communication with Congress.

Today, I have not received a response. However, I read in the New York Times on March 16 that an unnamed administration official stated that President Obama is “committed to whistleblower protections,” and that the administration “had no intention of going further than did Presidents Bill Clinton and George Bush in signing statements concerning similar provisions.”

Then, what is that word “confidential” doing in there? However, that same official did not provide any detail on that additional term “confidential.” I would like President Obama to answer my letter soon and clarify exactly what he meant in this signing state-

ment. Absent a more detailed response from President Obama, I cannot see how his signing statement can be reconciled with the pledges and promises made by Candidate Obama, nor can I reconcile the criticism issued by Candidate Obama about President Bush’s use of signing statements with the statements made by that unnamed administration source in the New York Times.

The unnamed source said President Obama “had no intention of going further than did President Clinton or George Bush in signing statements.” Candidate Obama stated he would not use signing statements in a manner similar to President Bush to circumvent the will of Congress. Now a member of the administration is telling the New York Times that President Obama means to do exactly the same thing as President Bush in issuing signing statements.

It seems to me, if this is the case, Candidate Obama would have a problem with President Obama’s use of signing statements to underline the intent of this appropriations rider on whistleblowers.

Now, a number of my colleagues were quick to object to signing statements issued by President Bush but somehow have so far remained silent regarding President Obama’s use of signing statements. Well, to those who had concerns in the past, I encourage you to take a close look at this signing statement and the potential harm it will cause for Members of Congress doing our constitutional responsibility of oversight to see that the laws are faithfully executed.

Those who may believe my acts are motivated by partisan politics, I want you to look at my record and see that I have repeatedly objected to signing statements that hindered the rights of whistleblowers. Just one example: I objected to a signing statement issued by President Bush back in 2002 that restricted the application of whistleblower protection provisions included in Sarbanes-Oxley.

I also, as another example, objected when a signing statement was issued by President Bush impacting specific reforms contained in the Inspector General Reform Act of 2008.

In closing, I call upon President Obama to revisit the March 11 signing statement and implement sections 714(1) and (2) in a manner consistent with the spirit and intent of this legislation.

As a former Senator, he must recognize the good that whistleblowers do by speaking out and by shedding light on fraud, waste, and abuse in Government agencies and programs.

Candidate Obama supported whistleblowers, but based upon his recent signing statements, these campaign promises now ring hollow. I hope I have interpreted him wrongly and will give

him an opportunity to set the record right because I hope he comes out the same way he did in the campaign: strictly in support of whistleblowers, who are an essential element of the process of our checks and balances of government as Congress does its constitutional job of oversight.

We do not know where all of the skeletons are in the closet. We do not know all of the abuses of law. We do not know of all of the fraudulent things that are going on in government. We need that information from whistleblowers, and the best evidence I can give you of that is the \$22 billion that has been brought back into the Federal Treasury since I got the False Claims Act of 1986 passed.

Most of that information would not have been available without the information from whistleblowers.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business with Senators allowed to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

OMNIBUS PUBLIC LANDS MANAGEMENT ACT

Mr. UDALL of Colorado. Mr. President, I express my strong support for the bipartisan omnibus lands package, HR 146, which the Senate passed overwhelmingly in a floor vote. I thank Energy and Natural Resources Chairman BINGAMAN and Ranking Member MURKOWSKI for working across the aisle to put together this major piece of natural resources legislation. As many of our colleagues have noted, this legislation represents the largest public lands package in decades. Most importantly, this lands package represents a major victory for the people—and the lands—of Colorado.

There is much in this bill to highlight. All of the areas that are slated for protection under this legislation are deserving of such designation.

I have personally visited many of these places that we took action to preserve—places like Longs Peak, a mountain over 14,000 feet that looms over the great plains above Denver; the dramatic red rock canyons where water plunges to the Gunnison River from the Dominguez Canyons; and trails

that climb up the steep rocky slopes of Colorado's northern Front Range looking out over the expanse of prairie that reaches to the eastern horizon.

These lands represent a variety of landscapes and natural attributes. They typify the diversity of our Nation, and their dramatic environments inspire visitors and give them a sense that anything is possible.

The connection we have to our natural landscapes and other equally important provisions—such as providing a funding mechanism for a water conduit that will help provide clean water to help enhance the productivity of farms and ranches along the lower Arkansas River—underscore why this bill is so important and worthy of our support. The areas and vital resources that are protected in this bill will help ensure a vibrant and healthy environment and thereby provide a solid foundation for a healthy and vibrant economy. This bill is not just about the special places it encompasses it is about us and our values. It deserves our support.

Specifically for Coloradans, this package will help preserve and protect majestic public landscapes in Colorado and help provide needed water supplies to communities and farmers on Colorado's productive Eastern Plains. These are issues on which I have worked for many years in the U.S. House of Representatives and now in the Senate. On behalf of the people of Colorado, I am proud that the following provisions will likely become law in the coming days.

First, the bill includes the Arkansas Valley Conduit Act of 2009. This legislation will help protect the water supply for the Arkansas River Valley's communities and productive agricultural lands by advancing the construction of the long-planned Arkansas Valley Conduit. The depressed economic status of southeastern Colorado made it a difficult financial undertaking for the region, a challenge that continues today. This bill will help see this facility become a reality and help the farming and ranching communities in the valley continue to produce needed food for the state and Nation.

Second, the Colorado Northern Front Range Study Act included in the package will help Coloradans protect the scenic Front Range mountain backdrop in the northern Denver-metro area and the region just west of Rocky Flats.

Rising from the Great Plains, the Front Range of the Rocky Mountains provides a scenic mountain backdrop to many communities in the Denver metropolitan area and elsewhere in Colorado. This mountain backdrop, which includes much of the Arapaho-Roosevelt National Forest, is an important aesthetic and economic asset for adjoining communities. It is also part of our unique culture, having beckoned settlers westward before exposing them to the harshness and humbling majesty

of the Rocky Mountain West that helped define the region. The pioneers' independent spirit and respect for nature still lives with us to this day.

Yet rapid population growth is increasing recreational use of the Arapaho-Roosevelt National Forest and adding pressure to develop other lands within and adjacent to that national forest. The bill directs the U.S. Forest Service to study the ownership patterns of the lands comprising the Front Range mountain backdrop and identify areas that are open and may be at risk of development. Additionally, it directs the Forest Service to recommend to Congress how these lands might be protected and how the Federal Government could help local communities and residents to achieve that goal.

Third, the bill includes the National Trails System Willing Seller Authority Act. This act will change the current law prohibiting people who own land associated with several units of the trail system from selling those lands to the Federal Government. Because of this act, people who want to sell land for inclusion in certain units of the National Trails System will be able to do so.

Our national trails are a national treasure, and I have enjoyed them for my whole life. We should allow property owners to sell their land along these trails to the Federal Government to be part of our public lands legacy. But we must make clear that these land sales are from willing sellers.

Finally, this legislation includes the Rocky Mountain National Park Wilderness and Indian Peaks Wilderness Expansion Act. This provision will designate nearly 250,000 acres of Rocky Mountain National Park as wilderness. The provision will guarantee the backcountry of Rocky Mountain National Park will be managed so that future generations will experience the park as we know it today. The legislation will also allow the National Park Service to continue its important efforts to battle the devastating bark beetle infestation and to engage in necessary wildfire mitigation efforts and emergency response actions.

The wilderness designation in this bill will cover some 94 percent of the park including Longs Peak and other major mountains along the Great Continental Divide, glacial cirques and snow fields, broad expanses of alpine tundra and wet meadows, old-growth forests, and hundreds of lakes and streams.

Examples of all the natural ecosystems that make up the splendor of Rocky Mountain National Park are included in the wilderness that will be designated by this bill. At the same time, the wilderness boundaries have been drawn so as to allow continued access for the use of existing roadways, buildings and developed areas, and privately owned land.

In conclusion, the passage of this bill in the Senate and House will mark the culmination of many years of work by a number of Coloradans, and I look forward to it becoming law.

FALMOUTH VOLUNTEER WEEK

Mr. KERRY. Mr. President, this week marks the Celebrate Volunteers Week at the Falmouth Volunteers in Public Schools Program, VIPS, in Falmouth, MA. I would like to take this opportunity to commend and thank those that participate in the VIPS Program which fosters interaction between the citizens of Falmouth and their public schools. Through this connection the schools are empowered to enrich their curriculum and the community at large benefits from a greater participation in their children's future.

The volunteers in this nonprofit organization log about 40,000 hours each year in support of the students, faculty, administration, and the community. This incredible effort is also supported by the business community in Falmouth that not only invests in VIPS events but also supports employee participation.

By comprehensively involving all facets of the Falmouth community VIPS enriches the lives of all involved. They provide mentoring and tutoring programs aimed at raising children's self esteem and teaching English as a second language. They have made school to business partnerships that enhance the educational experience of students by sharing resources with local businesses and bringing in guest speakers. Their innovative Cross Age Science Teaching Program matches junior high school volunteers to help elementary school students learn about electricity.

VIPS has grown from its inception in 1982, when they only had a handful of volunteers, to a robust program with over 1,100 volunteers in all 7 schools in Falmouth. When we think about improving our education system, what we need to remember is that community involvement can make a world of difference. When you get folks in the community to volunteer and become a part of the educational process, they become invested in the success of the students. That is what is happening in Falmouth. I congratulate all of the people who have helped make the Falmouth Volunteers in Public Service a success, and I commend the work that they do.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

VOTE EXPLANATION

• Mrs. BOXER. Mr. President, due to an illness, I was forced to miss the previous two rollcall votes.

The first vote was on the nomination of Elena Kagan to be the Solicitor Gen-

eral of the United States. The second vote was on cloture on the motion to proceed to national service bill. Had I been present for these two rollcall votes, I would have voted aye.

Elena Kagan has the qualifications and intellect to be an outstanding Solicitor General. I am proud that she is the first woman to hold this important position.

I also support the motion to proceed to the national service bill and am disappointed that it is necessary to invoke cloture to break the filibuster against this bipartisan legislation. It is important that we act to expand opportunities for Americans who volunteer their time and talents in service to their communities.●

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

REMEMBERING FALLEN POLICE OFFICERS

• Mrs. BOXER. Mr. President, it is with deep sadness that I discuss one of the deadliest attacks against California law enforcement in my State's history—an attack that took the lives of four Oakland, CA, police officers, and has left our community reeling from the shock of this terrible and senseless loss.

Every day, our law enforcement officers selflessly and bravely put their lives on the line to protect our families and our communities. If anyone, anywhere, needed a reminder of that, this tragedy puts a spotlight on the risk our police officers face every day.

On Saturday, March 21, what should have been a routine midday traffic stop for Oakland PD officers Mark Dunakin and John Hege quickly turned into a murder scene.

After fatally wounding both officers, the suspect fled the scene, leading to a frantic manhunt that involved more than 200 officers from Oakland PD, Alameda County Sheriff's Office, BART Police and the California Highway Patrol. The suspect was quickly tracked down to an apartment. But when the SWAT team entered the apartment, he fired a series of shots from inside of a closet, fatally wounding officers Daniel Sakai and Ervin Romans, and injuring a third, before he was shot and killed.

In the days and weeks ahead, we will have important debates about the problems with our justice system that allowed a violent offender to be on the streets in clear violation of his parole. And we will debate the issue of powerful weapons in the hands of dangerous criminals.

As these debates move forward, I will work to give our law enforcement officers more support and more resources to adequately protect our communities and protect themselves.

Now I want to pay tribute to these four fallen officers.

Sergeant Mark Dunakin, age 40, was an 18-year veteran of Oakland PD. He was no stranger to violent crime, having worked homicide cases in the criminal investigation division. But he later transferred to the motorcycle traffic division where his days focused on patrolling our streets on his beloved Harley Davidson, cracking down on drunk drivers and trying to always enforce our State's seatbelt laws. Sergeant Dunakin is survived by his wife Angela Schwab and their three children.

Officer John Hege, age 41, had been with the Oakland PD for 10 years and had only recently started his dream assignment of becoming part of the motorcycle traffic division. Respected by his colleagues and well liked by his neighbors, Officer Hege was often known to lend a helping hand, and even found time to umpire high school baseball in his free time. After being gunned down this weekend, Officer Hege was declared brain dead. And true to the heroism he exhibited in his life, his organs are being donated to help save other lives. Officer Hege is survived by his father and his beloved dog.

Sergeant Ervin Romans, age 43, had been with the Oakland PD since 1996. As a member of the elite SWAT team, Romans was in charge of entering the most dangerous situations to confront and arrest barricaded suspects. Known as just "Erv" to his friends and colleagues, he was among a group of officers awarded the department's prestigious Medal of Valor in 1999 for helping to evacuate residents during a fire. His captain, Ed Tracey said he "had an exterior image of being the tough, rugged guy, but everyone knows he has a soft heart." Sergeant Romans is survived by his three children.

Sergeant Daniel Sakai, age 35, had recently been named a leader of the entry SWAT team, and was known to all as a rising star. Before joining the SWAT team, Sergeant Sakai worked in the K-9 division, responding to calls with his dog, Doc. He studied forestry at UC Berkeley, where he was a member of the Alpha Sigma Phi fraternity. He also worked as a community service officer at Berkeley, escorting students around campus at night. He is survived by his wife Jennifer, a UC Berkeley police officer, and their daughter.

My thoughts and prayers are with the families, friends, and colleagues of these fallen officers in this tragic time.

We must come together to support those suffering, and in the coming days we must come together, firmly resolved to end the violence that has for too long eaten away at the fabric of our communities.●

IDAHOANS SPEAK OUT ON HIGH ENERGY PRICES

Mr. CRAPO. Mr. President, in mid-June, I asked Idahoans to share with

me how high energy prices are affecting their lives, and they responded by the hundreds. The stories, numbering well over 1,200, are heartbreaking and touching. While energy prices have dropped in recent weeks, the concerns expressed remain very relevant. To respect the efforts of those who took the opportunity to share their thoughts, I am submitting every e-mail sent to me through an address set up specifically for this purpose to the CONGRESSIONAL RECORD. This is not an issue that will be easily resolved, but it is one that deserves immediate and serious attention, and Idahoans deserve to be heard. Their stories not only detail their struggles to meet everyday expenses, but also have suggestions and recommendations as to what Congress can do now to tackle this problem and find solutions that last beyond today. I ask unanimous consent to have today's letters printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

I certainly feel the impact of huge and unpredictable increases in all the necessities: gas/fuel, household energy costs, food, clothing, travel, etc. All of these have risen rather dramatically, sort of like dominoes. I am spending a lot more for a lot less. As I am deciding not to go do something or go buy something, I think of all the merchants and businesses that will, if they are not already, suffer from this (all of us not going places, and buying so much less). I have almost totally quit eating out. Movies are out of the question. I have greatly cut down on my driving. I will just not visit places that I do not absolutely have to (and, truth be told, there are not really that many places one absolutely has to go). I go to the closest grocery store, as they are all expensive. I go to the closest gas station. There is no public transportation between my place of work and my home, which is a real hardship. In fact, our bus service is not bad in Boise, but it is cumbersome and limited. I find this to be a problem. I will not be doing the traveling and vacationing this year that I usually do. I will not be able to visit family members that do not live in Boise. This is not good for business, or morale and attitude (mine). Because I have much less disposable income now, my charitable donations will be, and already are, less. It is so expensive to drive to any of the organizations where I like to help out ("volunteering") that it has had to be cut out. Driving to attend the civic and fun groups that I am a member of and the activities that I like to participate in is now too costly to continue attending. Shopping? Out of the question, with the exceptions listed above. By the way, did you know that the average fuel usage in Ford's (last, I believe) cars—in his day—was 25 mpg. Do you know what it is in this country today? 21 mpg. We all know that this is ridiculous. Clearly, the only entity that benefits from this is fuel companies, and automakers that have not had to retool their factories for decades. And even with that "savings", they're hurting, too, now.

My suggestions, wishes, and hopes?

More public transportation, more types of public transportation, more coverage, more frequent times that public transport goes by, at a minimal cost to riders. And we could use the money that we would save on highways

to fund it! Trains are wonderful, both for passengers and goods.

Laws that insist that all parts of the automobile industry quickly get cars ready for market that are lighter, safer, and much more fuel efficient; that include speedily implementing the roll-out of vehicles (all vehicles, including commercial and military) that some of them are already developing, that are outstanding in design and are environmentally responsible. I should say, that are already in development, although perhaps not by the mainstream auto makers. The use of fossil fuels should be seriously lessened. Oil and gas companies should pay their rightful taxes, and should not be subsidized. New "green" fuel sources should be subsidized at the rate that oil and gas companies currently are, and should get breaks on their taxes for the early years. These should include, but be not limited to: wind, solar, geothermal; and research into new, unknown possible energy sources (with low environmental impact) should also be encouraged with subsidies and whatever helps, within limits. And the whole "alternate fuel" scenario should have some honesty, reality, and integrity infused into it. Specifically: ethanol is in no way environmentally responsible or viable. It is just a give-away for the corporate farm industry. Nuclear fission energy should be banned. There is no way to ensure safe use now, or of the spent fuel in the future, and it misuses precious water resources. I am okay with working towards trying to make nuclear fusion work.

No new drilling—anywhere! Americans can come up with better ideas—let us go back to that "good old American ingenuity and know-how." We used to be on the cutting edge for creativity, inventiveness, and new ideas—and the development of them. Let us "Be The Best We Can Be."

And, lastly, and strongly related to the energy problems we are experiencing: land and soil should be nourished and protected. It should be used in an honest and responsible way. That means, for example, that corn should actually have nutritional value, should have lowered sugar levels, not continue to be genetically and artificially altered so as to be useless for actually providing nutrition for people, because it is nothing but sugar that makes the creation of corn syrup, which is destroying the health of our kids, among other unhealthy products, easy and cheap to produce for greedy and/or corporate "farmers." The land should be cherished, not over-used, misused, and abused. It should be mindfully used to produce food for people—good, nourishing, healthy food to nourish healthy children, mothers, and all of us.

The health, safety, and financial benefits of changing our practices and policies are so extensive that it would take too much space to enumerate here. We could be at the world leaders of industry, development, inventiveness, and productivity if we, as a country, were willing to look at things in a fresh way, rather than stubbornly clutching at "doing things the same old way."

We are supposed to be conservatives—let us actually practice conserving.

SUSAN.

Our family of 5 spends more than \$500 a month now on gasoline (for 3 vehicles—our 3 kids can all drive now), not to mention the higher food prices that are a result of higher fuel costs to truckers and the foolish ethanol policy of the government. We are needing to work additional jobs just to try to make basic ends meet and avoid going deep into

debt. If prices go up further, we will still be going into debt just to cover the basics of food, clothing, transportation and shelter.

We are an average family (financially we make about 60,000 a year from 3 jobs between all of us, with 2 now in college—1 just starting, but living at home), but face above average costs when compared to the averages mentioned in the media and by politicians. For example, Barack Obama makes light of a temporary lifting of the gas tax, saying it would be 30 cents a day. We would be at least twice that much, and many truckers would save even more if diesel tax was lifted. And we are an average family, so I do not believe his numbers for a minute.

We cannot afford to buy an expensive high gas mileage small car to offset the higher gas prices. We must continue to nurse along our two more than 10-year old vehicles that get 19 miles per gallon. Most poor and lower-middle class are in the same situation as us. The upper middle-class and wealthy may be able to handle it to some better degree, although I am not a participant in class envy and they should be considered too. But it is interesting how the [liberals] claim to care about the poor and middle class, yet their do-nothing policy on energy contradicts their claims.

If they think taxing oil companies and redistributing the tax to poor and middle class with rebate checks will solve the problem, they are wrong. The tax will be passed on in ever-higher gas prices and/or the oil companies could limit production to stay just below the windfall tax threshold, thus causing shortages and even higher prices. It did not work when Jimmy Carter tried it, and tweaking it a little to allow oil companies to trade the tax for alternative energy production would likely not help much, in my opinion. We need to get the price down, not give each person a small piece of the large wealth redistribution that helps them for only a few months.

The government needs to remove the restrictions and regulations that hinder progress in tapping our domestic energy sources of all types. Many claim that tapping into our domestic oil and natural gas resources would not do any good for many years. They are wrong. And even if they were right, do you avoid planting a tree just because you will not get a full crop of fruit or sufficient shade for several years? This "tree" of increased domestic oil supply should have been planted over 10 years ago.

But here is why they are wrong: If speculators are part of the cause of increased oil prices whenever there is something in the Mideast that brings concern about possible reduced supply, then they would logically be part of the cause of reduced oil prices if they received good news that our government was finally serious about allowing increased domestic supply. There would be an almost immediate drop in oil prices which would soon show lower prices at the pump. On top of that, the foreign nations that have control over us now would not want to see us quit buying from them in the future, so they would likely increase production to try to get us to not increase our production. Increasing their production would cause an additional price decrease within a short amount of time.

Increasing our domestic drilling and exploration would create additional jobs, as oil companies would hire people to do the additional exploration and drilling. And additional revenues would be created for the states that participated, by leasing land, taxes paid through the additional employment, etc. This would help our national

economy as well, as it became a positive ripple effect.

Increasing other types of energy sources, such as wind, solar, coal, shale, nuclear, natural gas, etc. are all good. Even ethanol is good where it can be produced regionally and help regionally without being forced on us at a certain level by the government, causing a shortage of corn and higher food prices.

A final thought: we need fewer lawsuits by environmentalists, which bog things down way too long. We need to reform the laws to keep them from preventing us from solving this problem. If the government okays further drilling, etc, but allows the radical environmentalists to bring up lawsuit after lawsuit, we'll still be in trouble. Allow a basic environmental process to ensure we are doing this in a reasonable manner, and then have them get out of the way so we can start making use of our resources.

Thanks for allowing me to give my input.
DAVID, Boise.

I am a 15-year Idaho resident, and I commute about 55 miles a day to work. The cost of gasoline/diesel is having a profound effect on the local economy—not to mention my own finances. Idaho, and most other inland states, are feeling the effects directly in higher prices across the board. I know several small business owners, in different markets, who have related to me the disastrous impact this is having on them. I cannot stress enough that we need to increase the supply side of this equation. But, of course, everyone in Washington knows this and the situation is being exploited by those on the left to increase dependence on government.

It is obvious to me that the liberals in Congress see high fuel prices as vehicle to provide them greater control over the lives of the citizens of the United States. The more low income people have to spend on fuel, the more likely they are to require government support in other areas of their lives. This is intended to cement the liberal base as permanent government serfs with no choice in for whom they vote. Ultimately, this is an attack on our liberty from within that, if left unchecked, will result in less freedom, and more and bigger government.

There are a number of facets to this problem: environmental regulation, government regulation, and political demagoguery that is unparalleled in our history. The oil companies are not the problem. Most people I know realize this and are fed up with environmental bullshit reasons for not exploring for more oil. The notion that there is a shortage of oil or, that we are running out of oil, is simply not born out by the facts. But facts do not matter when there is an agenda. As Goebels said, the bigger the lie, the easier it is to sell.

I would love to discuss this at length with you, but I am losing faith in the process. However, I appreciate that you are fighting the good fight. Please keep it up.

MIKE.

I am not sure if I have any faith in our Congress changing anything but I feel some satisfaction with at least voicing my thoughts and if I may say so my feelings about these soaring energy costs.

Yes, the soaring energy costs have had a huge impact on me. I am a single woman working as a Physical Therapist Assistant. I live 30 miles from my place of employment. I own horses so I own a pick-up truck. Up until recently I only drove my truck. It was not great on fuel economy, but as a person with only one income, a house payment, a

vehicle payment, plus other bills. It was not feasible to buy another vehicle. As a single woman that is not mechanically inclined (nor do I have the time), I need vehicles that are safe and reliable. Well, now, I have a small vehicle. So now I have two vehicle payments, plus full coverage insurance on two vehicles, plus a house payment, plus fuel, plus all the other costs to get buy! Fuel for my truck, just to go back and forth to work for one week was costing me between \$80 & 100 reg. gas, the "cheap" stuff! That is not counting doing anything on the weekends, or any "extra" driving. That is simply working 4-5 days a week. I usually work (4) 10s and sometimes a few extra hours on day 5. So yes, now my grocery bill has been reduced, my credit cards are being used more, and it scares the hell out of me!

My home energy bill also nearly doubled. I have not doubled my use. I am away from home most of the time. I rarely watch television, except to turn the news on from 4:30 A.M. to 6 A.M. when I am getting ready for work. I turn my computer on for a few minutes several days a week. I go to bed early so my lights are not even on much, yet my power bill doubled! No, I do not use much air conditioning either! I have a small house less than 1100 square feet. I have had it for sale for over a year and I have not been able to sell it. I replaced the roof last summer. The windows could stand to be replaced, yet I cannot afford to replace those old aluminum windows with vinyl.

Oh, I know most people would say to give up my animals and move to town, but then what is all of this about? What pray tell am I working for? My animals bring me joy and peace from a crazy world. I have raised/owned Arabian horses since 1985, and I have owned horses in general most of my 50 years. So the thought of going to work just to pay taxes, lay on a couch and watch TV after work and on weekends does not sound like much of a life to me. So if we cannot have a few things that bring us joy and comfort why are we working?

Yes, the out-of-control energy costs is slowly wiping all of "working" people out. If everything is taken away and all that is left is work, who wants to live that life? Think about it! Better yet, maybe those [who enjoy privileges and expensive lifestyles] should come live with us that really have to work and live on a budget. Let us take away those expense accounts and all the other freebies! Do you know how many people think like me? There are a lot.

Thank you for giving me the time to get this off my chest.

JUDY, Wendell.

I do not wish to join the whining masses about how energy prices have affected us all. Instead, I wish that Congress would act to pass a national energy policy that would encompass all areas of energy development. We did not win World War II by building only ships or tanks or airplanes, etc. We conquered the global threat at that time by building all assets necessary to win and developed new technologies for the future. The liberals' bumper sticker mantra that we cannot drill our way out of this mess refuses to acknowledge that the way out of this "mess" is to get out of our "boxes" and look at the wider picture. Back in the 1970s, I learned that C-ration California peanut butter burned right out of the can whereas Georgia stuff would not. Why limit our research to corn, chicken parts, et.al. as potential fuels? We should not keep subsidizing our farmers to not plant if corn and other foods/fuels are

now in such demand. We obviously need greater oil production and refining capacity as a significant part of overcoming those forces in OPEC that continue to enslave us to their output. We should work on developing Hydrogen fuel cell technology and put real delivery ability on the ground because who is going to buy a car he cannot refuel? We absolutely must develop nuclear reactor improvements and capacity which is being developed right now in Idaho. Limit individual financial incentives for energy savings because their cost savings should be incentive enough and any rewards beyond that are too open to fraudulent claims and wasting taxpayer money. Congress is too good at wasting our money already. Buying "conservation credits" like Al Gore does for his estate is a sham for the wealthy. It is akin to buying indulgences centuries ago that was the final "straw" that began Martin Luther's Reformation. The [conservatives] in Congress lazily missed an opportunity to make a worthwhile energy policy that "thinks outside the box" in the last several years and, I fear, that if the [liberals] win control of either house in November that we are doomed to suffer the consequences laid out over a thousand years ago by a Greek philosopher that all democracies are doomed to failure that as the people vote more liberties and indulgences to themselves their governments will be more unable to pay for them and they will lapse into anarchy. I believe we are in the third of his four stages right now.

I hope this has not been too boring or offensive. We, as a nation, must act to avoid an energy demand catastrophe, and our Congress is that body that our forefathers have ordained as the ones to do that task. I appreciate your time if you have really read this,
BILL, Idaho Falls.

ADDITIONAL STATEMENTS

TRIBUTE TO WOODFORD COUNTY HIGH SCHOOL STUDENTS

● Mr. BUNNING. Mr. President, today I invite my colleagues to join me in congratulating Jane Brannen and Adam Horn from Woodford County High School, Versailles, KY, for receiving the Achievement Award in writing. This year only 525 students around the country were recipients of this award.

The Achievement Award in writing is given to students who show excellence in English and writing. To be eligible for the award, students must submit a previously written paper and then be invited to participate in a timed essay.

Jane Brannen and Adam Horn both have shown great analytical and writing skills in their submitted papers. I am impressed by the excellence these two students have displayed, and I am confident that they will have success in greater challenges in the future.

Mr. President, I would like to thank Jane Brannen and Adam Horn for their contributions to the Commonwealth of Kentucky and wish them the best of luck in their future endeavors.●

TRIBUTE TO KYLE DARPEL

• Mr. BUNNING. Mr. President, today I invite my colleagues to join me in congratulating Kyle Darpel from Covington Catholic High School, Park Hills, KY, for receiving the Achievement Award in writing. This year only 525 students around the country were recipients of this award.

The Achievement Award in writing is given to students who show excellence in English and writing. To be eligible for the award, students must submit a previously written paper and then be invited to participate in a timed essay.

Kyle Darpel has shown great analytical and writing skills in his submitted paper. I am impressed by the excellence Kyle has displayed, and I am confident that he will have success in greater challenges in the future.

Mr. President, I would like to thank Kyle Darpel for his contribution to the Commonwealth of Kentucky and wish him the best of luck in their future endeavors.●

TRIBUTE TO J. MARI LYNN THOMPSON

• Mr. BUNNING. Mr. President, today I invite my colleagues to join me in congratulating J. Mari Lynn Thompson from Sacred Heart Academy, Louisville, KY, for receiving the Achievement Award in writing. This year only 525 students around the country were recipients of this award.

The Achievement Award in writing is given to students who show excellence in English and writing. To be eligible for the award, students must submit a previously written paper and then be invited to participate in a timed essay.

J. Mari Lynn Thompson has shown great analytical and writing skills in her submitted paper. I am impressed by the excellence she has displayed, and I am confident that she will have success in greater challenges in the future.

Mr. President, I would like to thank J. Mari Lynn Thompson for her contribution to the Commonwealth of Kentucky and wish her the best of luck in her future endeavors.●

TRIBUTE TO CHRISTOPHER G. CAINE

• Mr. LIEBERMAN. Mr. President, I wish today to honor Christopher G. Caine, who will be leaving International Business Machines, IBM, Corporation after 25 years.

For the past 13 years, Chris has served as IBM's vice president for governmental programs. At this position, Chris has had responsibility for all global public policy issues that impact the IBM Corporation. He represented IBM at a number of policy and economic forums that addressed critical issues in the emerging global economy, including the 2004 National Intelligence

Council Conference convened by the Center for Strategic and International Studies; the 2003 World Knowledge Forum in Seoul, Korea; the 2003 World Economic Forum; and events put on by the Shanghai International Forum and the Congressional Black Caucus.

Before taking his current position, Chris served as IBM's director of Human Resources and Environmental Policy, where he worked on a variety of domestic policy issues including health-care reform, labor, personnel, health and safety, environment, and energy. Prior to that, he worked in a variety of government relations capacities for IBM as well as Coca Cola, the Eaton Corporation, and the Electronic Industries Association.

In addition to his professional success, Chris has taken the time to use his skills and expertise for public service. He currently serves on the State Department's Advisory Committees on International Economic Policy and International Communication and Information Policy, where he shares his expertise on global economic issues with our country's top foreign policymakers. He was appointed by then-Governor MARK WARNER to the Virginia Information Technology Investment Board, which works to provide the Commonwealth's government with information technology that will improve efficiency, safeguard important information, and enable the government to better serve the public. He also serves on the advisory boards of the Global Strategy Institute, Ford's Theatre, the Constitution Project, and Brainfood.

Last year, Chris established the Caine's Scholar Award for Global Leadership, Business and Policy at Lafayette College, where he earned his bachelor's degree. This award provides recipients, who are enrolled in Lafayette's policy studies program, a stipend for a summer internship experience. Chris has stated that he created this award with the hope that it will help develop a new generation of leaders that have an appreciation for public policy and business in a global environment.

Looking forward, Chris plans to start his own professional service firm, which will help its clients engage and succeed in our increasingly global economy. If Chris can provide his new clients with the same level of service he gave to IBM and his previous employers, I am confident that his new venture will be a resounding success.

I offer my congratulations and sincere best wishes to Christopher Caine, his wife Betsy, and their two children as he prepares for this exciting new phase in his life.●

REMEMBERING CHIEF MASTER SERGEANT PAUL WESLEY AIREY

• Mr. NELSON of Florida. Mr. President, on March 11, 2009, our Nation lost

a true American hero, the Air Force's first chief master sergeant, Paul Wesley Airey.

During his 27 years of service, Chief Airey served during both World War II and Korea and earned numerous awards and decorations: the Meritorious Service Medal, the Air Medal with oak leaf cluster, the Air Force Commendation Medal, the POW medal, and the Legion of Merit with oak leaf cluster.

During World War II, Chief Airey served as an aerial gunner on B-24 bombers and became a prisoner of war from July 1944 to May 1945.

After serving during Korea, Chief Airey became first sergeant for the Air Defense Command's 4756th Civil Engineering Squadron at Tyndall Air Force Base, FL, where he retired on August 1, 1970.

Grace and I would like to extend our most sincere condolences to the family of this American hero, including retired CMSgt Dale Airey, who followed in his father's footsteps.

Chief Airey is among the most respected and iconic figures in the Air Force. He dedicated his life to the protection of this country, and for that we honor his memory.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

ENROLLED BILL SIGNED

At 2:03 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 1512. An act to amend the Internal Revenue Code of 1986 to extend the funding and expenditure authority of the Airport and Airway Trust Fund, to amend title 49, United States Code, to extend authorizations for the airport improvement program, and for other purposes.

The enrolled bill was subsequently signed by the President pro tempore (Mr. BYRD).

MEASURES PLACED ON THE CALENDAR

The following bills were read the second time, and placed on the calendar:

S. 651. A bill to amend the Internal Revenue Code of 1986 to impose an excise tax on excessive bonuses paid by, and received from, companies receiving Federal emergency economic assistance, to limit the amount of nonqualified deferred compensation that employees of such companies may defer from taxation, and for other purposes.

H.R. 1586. An act to impose an additional tax on bonuses received from certain TARP recipients.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. LEAHY, from the Committee on the Judiciary:

Report to accompany S. 386, a bill to improve enforcement of mortgage fraud, securities fraud, financial institution fraud, and other frauds related to federal assistance and relief programs, for the recovery of funds lost to these frauds, and for other purposes (Rept. No. 111-10).

By Mr. LEAHY, from the Committee on the Judiciary, without amendment:

S. 256. A bill to enhance the ability to combat methamphetamine.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Ms. COLLINS:

S. 664. A bill to create a systemic risk monitor for the financial system of the United States, to oversee financial regulatory activities of the Federal Government, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. FEINGOLD:

S. 665. A bill to allow modified bloc voting by cooperative associations of milk producers in connection with a referendum on Federal milk marketing order reform; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. FEINGOLD:

S. 666. A bill to prohibit products that contain dry ultra-filtered milk products, milk protein concentrate, or casein from being labeled as domestic natural cheese, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. FEINGOLD:

S. 667. A bill to amend the Agricultural Adjustment Act to prohibit the Secretary of Agriculture from basing minimum prices for Class I milk on the distance or transportation costs from any location that is not within a marketing area, except under certain circumstances, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mrs. MURRAY (for herself and Ms. CANTWELL):

S. 668. A bill to reauthorize the Northwest Straits Marine Conservation Initiative Act to promote the protection of the resources of the Northwest Straits, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. BURR (for himself, Mr. WEBB, Mr. GRAHAM, Mr. WICKER, Mr. COBURN, Mr. DEMINT, Mr. ROBERTS, Mr. GRASSLEY, Mr. VITTER, Mr. ENZI, Mr. INHOFE, Mr. ENSIGN, Mr. CRAPO, Mr. COCHRAN, Ms. MURKOWSKI, and Mr. THUNE):

S. 669. A bill to amend title 38, United States Code, to clarify the conditions under which certain persons may be treated as adjudicated mentally incompetent for certain purposes; to the Committee on Veterans' Affairs.

By Mr. HARKIN (for himself, Mr. LAUTENBERG, Mr. LEAHY, and Mr. DURBIN):

S. 670. A bill to amend title XIX of the Social Security Act to encourage States to provide pregnant women enrolled in the Medicaid program with access to comprehensive tobacco cessation services; to the Committee on Finance.

By Mrs. LINCOLN (for herself, Mr. BARRASSO, Mr. DURBIN, Mr. INOUE, and Mr. WYDEN):

S. 671. A bill to amend title XVIII of the Social Security Act to provide for the coverage of marriage and family therapist services and mental health counselor services under part B of the Medicare program, and for other purposes; to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Ms. COLLINS (for herself and Mr. KERRY):

S. Res. 81. A resolution supporting the goals and ideals of World Water Day; to the Committee on Foreign Relations.

By Mr. SPECTER (for himself, Mr. DURBIN, Mr. KERRY, Mr. LIEBERMAN, Mr. CASEY, Mr. LAUTENBERG, Mr. CARDIN, Ms. SNOWE, Mr. BINGAMAN, Mr. WHITEHOUSE, Mr. REED, Mr. VOINOVICH, Mr. MENENDEZ, Mr. BEGICH, Mr. MARTINEZ, Mr. LEVIN, Mr. CHAMBLISS, Mrs. FEINSTEIN, Mr. COCHRAN, Mr. FEINGOLD, Ms. MIKULSKI, Mr. KENNEDY, Ms. LANDRIEU, Mr. DODD, Mr. GREGG, Mr. BENNETT, Mr. CARPER, Ms. STABENOW, Mr. GRASSLEY, Mr. KOHL, Mr. RISCH, Mr. INOUE, Mr. ROCKEFELLER, Mr. ISAKSON, Mrs. MURRAY, Ms. MURKOWSKI, Mrs. SHAHEEN, Mr. LUGAR, Mr. NELSON of Florida, and Mr. JOHNSON):

S. Res. 82. A resolution recognizing the 188th anniversary of the independence of Greece and celebrating Greek and American democracy; considered and agreed to.

By Mr. BROWN:

S. Con. Res. 12. A concurrent resolution recognizing and honoring the signing by President Abraham Lincoln of the legislation authorizing the establishment of collegiate programs at Gallaudet University; to the Committee on the Judiciary.

ADDITIONAL COSPONSORS

S. 27

At the request of Mr. SCHUMER, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 27, a bill to establish the Daniel Webster Congressional Clerkship Program.

S. 244

At the request of Mrs. MURRAY, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 244, a bill to expand programs of early childhood home visitation that in-

crease school readiness, child abuse and neglect prevention, and early identification of developmental and health delays, including potential mental health concerns, and for other purposes.

S. 254

At the request of Mrs. LINCOLN, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 254, a bill to amend title XVIII of the Social Security Act to provide for the coverage of home infusion therapy under the Medicare Program.

S. 257

At the request of Mr. WHITEHOUSE, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 257, a bill to amend title 11, United States Code, to disallow certain claims resulting from high cost credit debts, and for other purposes.

S. 277

At the request of Mrs. HAGAN, her name was added as a cosponsor of S. 277, a bill to amend the National and Community Service Act of 1990 to expand and improve opportunities for service, and for other purposes.

At the request of Mr. DORGAN, his name was added as a cosponsor of S. 277, *supra*.

S. 301

At the request of Mr. GRASSLEY, the names of the Senator from Missouri (Mrs. McCASKILL), the Senator from New York (Mr. SCHUMER), the Senator from Massachusetts (Mr. KENNEDY) and the Senator from Rhode Island (Mr. WHITEHOUSE) were added as cosponsors of S. 301, a bill to amend title XI of the Social Security Act to provide for transparency in the relationship between physicians and manufacturers of drugs, devices, biologicals, or medical supplies for which payment is made under Medicare, Medicaid, or SCHIP.

S. 307

At the request of Mr. WYDEN, the names of the Senator from Georgia (Mr. ISAKSON) and the Senator from Illinois (Mr. BURRIS) were added as cosponsors of S. 307, a bill to amend title XVIII of the Social Security Act to provide flexibility in the manner in which beds are counted for purposes of determining whether a hospital may be designated as a critical access hospital under the Medicare program and to exempt from the critical access hospital inpatient bed limitation the number of beds provided for certain veterans.

S. 343

At the request of Mrs. LINCOLN, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 343, a bill to amend title XVIII of the Social Security Act to provide for Medicare coverage services of qualified respiratory therapists performed under the general supervision of a physician.

S. 353

At the request of Mr. BROWN, the name of the Senator from Alaska (Mr.

BEGICH) was added as a cosponsor of S. 353, a bill to amend title IV of the Public Health Service Act to provide for the establishment of pediatric research consortia.

S. 384

At the request of Mr. LUGAR, the names of the Senator from Iowa (Mr. HARKIN) and the Senator from Maine (Ms. COLLINS) were added as cosponsors of S. 384, a bill to authorize appropriations for fiscal years 2010 through 2014 to provide assistance to foreign countries to promote food security, to stimulate rural economies, and to improve emergency response to food crises, to amend the Foreign Assistance Act of 1961, and for other purposes.

S. 424

At the request of Mr. LEAHY, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 424, a bill to amend the Immigration and Nationality Act to eliminate discrimination in the immigration laws by permitting permanent partners of United States citizens and lawful permanent residents to obtain lawful permanent resident status in the same manner as spouses of citizens and lawful permanent residents and to penalize immigration fraud in connection with permanent partnerships.

S. 448

At the request of Mr. SPECTER, the names of the Senator from New York (Mrs. GILLIBRAND) and the Senator from Missouri (Mrs. MCCASKILL) were added as cosponsors of S. 448, a bill to maintain the free flow of information to the public by providing conditions for the federally compelled disclosure of information by certain persons connected with the news media.

S. 450

At the request of Mr. BAUCUS, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 450, a bill to understand and comprehensively address the oral health problems associated with methamphetamine use.

S. 451

At the request of Ms. COLLINS, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 454

At the request of Mr. LEVIN, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. 454, a bill to improve the organization and procedures of the Department of Defense for the acquisition of major weapon systems, and for other purposes.

S. 464

At the request of Mr. DODD, the name of the Senator from Indiana (Mr. BAYH) was added as a cosponsor of S. 464, a

bill to amend the National and Community Service Act of 1990 to improve the educational awards provided for national service, and for other purposes.

S. 466

At the request of Mr. DODD, the name of the Senator from Indiana (Mr. BAYH) was added as a cosponsor of S. 466, a bill to amend the National and Community Service Act of 1990 to establish a Summer of Service State grant program, a Summer of Service national direct grant program, and related national activities, and for other purposes.

S. 468

At the request of Ms. STABENOW, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 468, a bill to amend title XVIII of the Social Security Act to improve access to emergency medical services and the quality and efficiency of care furnished in emergency departments of hospitals and critical access hospitals by establishing a bipartisan commission to examine factors that affect the effective delivery of such services, by providing for additional payments for certain physician services furnished in such emergency departments, and by establishing a Centers for Medicare & Medicaid Services Working Group, and for other purposes.

S. 491

At the request of Mr. WEBB, the name of the Senator from Kansas (Mr. ROBERTS) was added as a cosponsor of S. 491, a bill to amend the Internal Revenue Code of 1986 to allow Federal civilian and military retirees to pay health insurance premiums on a pretax basis and to allow a deduction for TRICARE supplemental premiums.

S. 500

At the request of Mr. DURBIN, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 500, a bill to amend the Truth in Lending Act to establish a national usury rate for consumer credit transactions.

S. 525

At the request of Mr. DORGAN, the name of the Senator from North Dakota (Mr. CONRAD) was added as a cosponsor of S. 525, a bill to amend the Federal Food, Drug, and Cosmetic Act with respect to the importation of prescription drugs, and for other purposes.

S. 535

At the request of Mr. NELSON of Florida, the names of the Senator from Illinois (Mr. BURRIS), the Senator from South Dakota (Mr. JOHNSON) and the Senator from Iowa (Mr. HARKIN) were added as cosponsors of S. 535, a bill to amend title 10, United States Code, to repeal requirement for reduction of survivor annuities under the Survivor Benefit Plan by veterans' dependency and indemnity compensation, and for other purposes.

S. 541

At the request of Mr. DODD, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 541, a bill to increase the borrowing authority of the Federal Deposit Insurance Corporation, and for other purposes.

S. 543

At the request of Mr. DURBIN, the names of the Senator from New York (Mr. SCHUMER) and the Senator from Delaware (Mr. KAUFMAN) were added as cosponsors of S. 543, a bill to require a pilot program on training, certification, and support for family caregivers of seriously disabled veterans and members of the Armed Forces to provide caregiver services to such veterans and members, and for other purposes.

S. 546

At the request of Mr. REID, the names of the Senator from Montana (Mr. TESTER) and the Senator from Illinois (Mr. BURRIS) were added as cosponsors of S. 546, a bill to amend title 10, United States Code, to permit certain retired members of the uniformed services who have a service-connected disability to receive both disability compensation from the Department of Veterans Affairs for their disability and either retired pay by reason of their years of military service or Combat-Related Special Compensation.

S. 556

At the request of Mr. VITTER, the name of the Senator from Mississippi (Mr. WICKER) was added as a cosponsor of S. 556, a bill to amend chapter 44 of title 18, United States Code, to modernize the process by which interstate firearms transactions are conducted by Federal firearms licensees.

S. 567

At the request of Mr. CRAPO, the name of the Senator from Oklahoma (Mr. COBURN) was added as a cosponsor of S. 567, a bill to repeal the sunset on the reduction of capital gains rates for individuals and on the taxation of dividends of individuals at capital gains rates.

S. 574

At the request of Mr. AKAKA, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 574, a bill to enhance citizen access to Government information and services by establishing that Government documents issued to the public must be written clearly, and for other purposes.

S. 582

At the request of Mr. SANDERS, the names of the Senator from Michigan (Mr. LEVIN), the Senator from Iowa (Mr. HARKIN) and the Senator from Rhode Island (Mr. WHITEHOUSE) were added as cosponsors of S. 582, a bill to amend the Truth in Lending Act to protect consumers from usury, and for other purposes.

S. 605

At the request of Mr. KAUFMAN, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 605, a bill to require the Securities and Exchange Commission to reinstate the uptick rule and effectively regulate abusive short selling activities.

S. 614

At the request of Mrs. HUTCHISON, the names of the Senator from New York (Mr. SCHUMER) and the Senator from Delaware (Mr. KAUFMAN) were added as cosponsors of S. 614, a bill to award a Congressional Gold Medal to the Women Airforce Service Pilots ("WASP").

S. 622

At the request of Mrs. FEINSTEIN, the name of the Senator from Virginia (Mr. WEBB) was added as a cosponsor of S. 622, a bill to ensure parity between the temporary duty imposed on ethanol and tax credits provided on ethanol.

S. 631

At the request of Mr. KOHL, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 631, a bill to provide for nationwide expansion of the pilot program for national and State background checks on direct patient access employees of long-term care facilities or providers.

S. 645

At the request of Mrs. LINCOLN, the name of the Senator from Maine (Ms. SNOWE) was added as a cosponsor of S. 645, a bill to amend title 32, United States Code, to modify the Department of Defense share of expenses under the National Guard Youth Challenge Program.

S. 656

At the request of Mr. REED, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 656, a bill to provide for the adjustment of status of certain nationals of Liberia to that of lawful permanent residents.

S. 659

At the request of Mr. ALEXANDER, the names of the Senator from West Virginia (Mr. BYRD) and the Senator from Massachusetts (Mr. KENNEDY) were added as cosponsors of S. 659, a bill to improve the teaching and learning of American history and civics.

S. 661

At the request of Mr. BINGAMAN, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 661, a bill to strengthen American manufacturing through improved industrial energy efficiency, and for other purposes.

S. RES. 72

At the request of Mr. MENENDEZ, the names of the Senator from Florida (Mr. NELSON) and the Senator from California (Mrs. FEINSTEIN) were added as cosponsors of S. Res. 72, a resolution expressing the sense of the Senate regarding drug trafficking in Mexico.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. COLLINS:

S. 664. A bill to create a systemic risk monitor for the financial system of the United States, to oversee financial regulatory activities of the Federal Government, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Ms. COLLINS. Mr. President, at the heart of the deep recession is a crisis in our financial system that has choked off credit upon which the health of our economy depends. With their jobs disappearing and their life savings evaporating, the American people rightly ask why the Federal Government failed to protect them from Wall Street's greed, unwise decisions, and manipulations that have caused so much harm.

As a former Maine financial regulator, I am convinced regulatory reform is essential to restoring public confidence in our financial markets. America's main street small businesses, homeowners, employees, savers, and investors deserve the protection of a new regulatory system that modernizes regulatory agencies, sets safety and soundness requirements for financial institutions to prevent excessive risk-taking, and improves oversight, accountability, and transparency.

To achieve those goals, I am introducing the Financial System Stabilization and Reform Act of 2009. This legislation will fundamentally restructure our financial regulatory system. It will strengthen oversight and accountability in our financial markets, and it would help rebuild the confidence of our citizens in our economy and help restore stability to our financial markets.

Mr. President, as financial institutions speculated in increasingly risky products and practices, not one of the hundreds of Federal and State agencies involved in financial regulation was responsible for detecting and assessing the risk to the system as a whole. The financial sector was gambling on the rise of the housing market, yet no single regulator could see that everyone, from mortgage brokers to credit default swap traders, was betting on a bubble that was about to burst. Instead, each agency viewed its regulated market through a narrow lens, missing the total risk that permeated our financial markets.

In order to prevent this problem from recurring, a single financial regulator must be tasked with understanding the full range of risks our financial system faces. This regulator also must have the authority to take proactive steps to prevent or minimize systemic risk.

This is an urgent need. Unemployment reached 7.8 percent in my home State in January. Last month, the national unemployment rate hit 8.1 percent, the highest in 25 years. Earlier

this month, the Federal Reserve reported that the net worth of American households plummeted by more than \$11 trillion in 2008, a staggering drop of nearly 20 percent, the most in 63 years. And, at the same time, court proceedings and congressional hearings on the Bernie Madoff case revealed that this multibillion-dollar Ponzi scheme of nonexistent transactions and fraudulent statements was perpetrated for years under the very noses of the Federal agencies that should have stopped it.

The American people need more than words of optimism or promises of a turnaround. With their jobs lost or in jeopardy, with their financial plans in ruin, and now with their hard-earned tax dollars on the line to clean up the mess, they need reforms. They need action.

The American people are angry, and rightfully so. They are angry because the current crisis was not created from their own bad investments or decisions, but by those on Wall Street who concocted complicated financial instruments that ended up backfiring. Investment firms borrowed to the hilt when they did not have the resources to do so.

When the average American decides to purchase a security on credit, margin requirements dictate that he or she put up at least 50 percent of its value in cash. But investment banks did not have to play by the same rules when they bought for their own accounts. And they took advantage of this system.

Indicative of the extent of the borrowing, Bear Stearns had a leverage ratio of 35 to 1, which means the firm borrowed \$35 for every dollar of its own money. For example, suppose your net worth is a dollar and you combine that dollar with \$35 in borrowed money to buy an asset worth \$36. If the value of that asset declines by only \$2, to \$34, you are now bankrupt. This is exactly what happened to Bear Stearns and other investment banks.

Since last spring, the Homeland Security and Governmental Affairs Committee, on which I serve as ranking member, has held a series of hearings on the roots of the present crisis. We began by looking at the derivatives and commodity markets and more recently looked at the steps that can be taken to protect our Nation's financial system as a whole by creating a systemic-risk regulator. The many expert witnesses who have appeared before us have described how our financial system was destabilized by a combination of reckless lending, complex new instruments, securitization of assets, poor disclosure and understanding of risks, excessive leverage, and inadequate regulation.

Our witnesses were in wide agreement that the mounting risk went virtually undetected by the vast network

of Federal and State regulatory agencies. As the Government Accountability Office put it in a recent report to the committee, "it has become apparent that the regulatory system is ill-suited to meet the nation's needs in the 21st century." To meet this challenge, Federal Reserve Chairman Bernanke said recently:

We must have a strategy that regulates the financial system as a whole, in a holistic way, not just its individual components.

This statement confirms a view that I find inescapable, our current system suffers from regulatory gaps that pose enormous risks to our entire economy. The holistic approach recommended by Chairman Bernanke is the guiding principle of the comprehensive legislation I introduce today. Like legislation I introduced last fall, this bill would also regulate Wall Street investment banks for safety and soundness and close the gap that has allowed credit default swaps and other financial instruments to escape regulation by both Federal and State regulators.

To ensure a systemic approach to Federal financial regulation, this legislation calls for the creation of an independent financial stability council to serve as a "systemic-risk regulator." The council would maintain comprehensive oversight of all potential risks to the financial system, and would have the power to act to prevent or mitigate those risks. The financial stability council would be composed of representatives from existing Federal agencies which now have the responsibility to oversee segments of the financial system—the Federal Reserve; the Treasury Department; the Securities and Exchange Commission; the Commodity Futures Trading Commission; the Federal Deposit Insurance Corporation; and the National Credit Union Administration.

The council would be led by a chairman nominated by the President and confirmed by the Senate, with the responsibility for the day-to-day operations of the council. The chairman would be required to appear before Congress twice a year to report on the state of the country's financial system, areas in which systemic risk are anticipated, and whether any legislation is needed for the council to carry out its mission of preventing systemic risks.

Witnesses who have appeared before our committee have stressed the need to ensure that the systemic-risk regulator has the responsibility and the authority to ensure that risks to our financial system are identified and addressed. If it is not clear who has that responsibility, then agencies will dig in their heels and resist changes they do not agree with, and engage in finger-pointing when things go bad. At the same time, other witnesses have stressed the dangers of consolidating too much power in the hands of a single regulator and the need to maintain

the level of oversight Congress has historically exercised with respect to financial market regulation.

The financial stability council created by this legislation balances these concerns. As Damon Silvers, the AFL-CIO representative on the TARP congressional oversight panel, testified before our committee earlier this month:

[T]he best approach is a body made up of the key regulators. . . . It is unlikely a systemic risk regulator would develop deep enough expertise on its own. . . . To be effective it would need to cooperate. . . . with all the routine regulators where the relevant expertise would be resident. . . .

Former Senator John Sununu, another member of the congressional oversight panel, recognized that "systemic risk can materialize in a broad range of areas within our financial system. . . . Thus, it is impractical, and perhaps a dangerous concentration of power, to give one single regulator the power to set or modify any and all standards relating to such risk. Systemic risk oversight and management must be a collaborative effort. . . ."

The financial stability council will be the primary entity responsible for detecting systemic risk and implementing the steps necessary to protect against that risk. The key to such a structure, I believe, is to ensure that the council is headed by a chairman confirmed by the Senate and subject to oversight by Congress, who is dedicated entirely to the mission of the council, and who does not carry a bias in favor of any particular agency on the council.

Some have suggested that the Federal Reserve play the role of systemic-risk regulator. That is not what my bill contemplates. The chairman of the Federal Reserve will be a member of the council, and of course, the Nation's top banker will play a critical role in how the council discharges its responsibilities. But in my view, the Federal Reserve already has enough on its plate, and does not need additional, heavy responsibilities. I should add that nothing in my bill alters the Federal Reserve's role with respect to monetary policy in any way.

This bill, however, would apply safety and soundness regulation to investment bank holding companies by assigning the Federal Reserve this responsibility. Although the five big firms have left the field, this is a necessary step. Any new investment bank would fall into the same regulatory void as its predecessors. The SEC would be able to regulate its broker-dealer operations, but no agency would have the explicit authority to examine its operations for safety and soundness or for systemic risk. The collapses at Bear Stearns and Lehman Brothers illustrate the tremendous costs that can be inflicted if these investment banks are not regulated for safety and soundness. Under this legislation, the coun-

cil's role as the systemic-risk regulator will support the critical importance of the Federal Reserve's safety and soundness duties.

Under my bill, whenever the financial stability council believes that a risk to the financial system is present due to a lack of proper regulation, or by the appearance of new and unregulated financial products or services, it would have the power to propose changes to regulatory policy, using the statutory authority provided to our existing Federal financial regulatory agencies.

The financial stability council will have the power to obtain information directly from any regulated provider of financial products and, in limited form, from State regulators regarding the solvency of State-regulated insurers. The council will also be able to propose regulations of financial instruments which are designed to look like insurance products, but that in reality are financial products which could present a systemic risk. But—and I want to stress this point—my bill does not preempt State law governing traditional insurance products.

In keeping with the recommendations of the experts who testified before our committee, the bill provides the council with the power to adopt rules designed to address the "too big to fail" problem. How often we have heard that term lately. We hear financial experts and Federal officials telling us we have to continue to bail out large institutions like AIG because they are "too big to fail." We need to remedy this problem so we don't find ourselves in the same situation a decade from now. This bill provides the council with the power to adopt rules designed to discourage financial institutions from becoming "too big to fail" or to regulate them appropriately if they become what we call "systemically important financial institutions." The need to regulate how these systemically important financial institutions, or "SIFIs," invest their own capital was not previously recognized. Indeed, the prevailing attitude was that if firms failed because of bad investments, possibly bringing some of their creditors down with them, that was how the market was supposed to work. In true Darwinian fashion, eliminating firms with less investment acumen would only serve to strengthen American capitalism. We now know the fallacy of that reasoning, and it has been a very painful lesson, for it is not just the large investment houses that are hurt, but average Americans from Maine to California also suffer.

Under this legislation the council would help make sure financial institutions do not become "too big to fail" by imposing different capital requirements on them as they grow in size, raising their risk premiums, or requiring them to hold a larger percentage of

their debt as long-term debt. The TARP congressional oversight panel adopted this position, explaining:

We should not identify specific institutions in advance as too big to fail, but rather have a regulatory framework in which institutions have higher capital requirements and pay more on insurance funds on a percentage basis than smaller institutions which are less likely to be rescued as being too systemic to fail.

I want to make clear, though, that the power this bill provides to the council is not meant to restrict financial institutions from growing in size, but rather from becoming risks to the system as a whole.

The bill also provides the council with authority to address so-called regulatory "black holes," created by new and imaginative financial instruments that do not fall within the jurisdictional authority of any Federal financial regulatory agency. Credit default swaps are a perfect example of this problem. Prior to 2000, credit default swaps existed in a regulatory limbo. Neither the SEC nor the CFTC were willing to exert authority over the credit default swap market. As a result, they fell through the jurisdictional cracks. Congress then compounded the problem by explicitly exempting credit default swaps from regulation under the Commodity Futures Modernization Act of 2000.

As was the case with AIG, serious problems can arise when a major "credit event" suddenly reveals that massive claims for collateral posting or payment are converging on credit default swap parties who cannot meet their obligations. But because the market was bilateral and over-the-counter, it was often impossible for regulators—and even market participants—to know in advance how all the tangled webs of contract commitments overlapped and affected any particular party. Under the current system which lacks a systemic-risk regulator, regulators at times lack the authority to take action against excessive debt, inadequate reserves, and other threats, even when they see them occurring.

This legislation specifically addresses the credit default swap problem by repealing the exemption from regulation that Congress created for these instruments in 2000, and by setting up a government-regulated clearinghouse.

But beyond credit default swaps, risky new financial instruments could still avoid the reach of our regulatory system. For that reason, my legislation provides the council with the power to propose regulations and legislation governing the sale or marketing of any financial instrument which would fall into a "black hole," and would otherwise present a systemic risk to the financial systems of the United States if left unmonitored.

Professor Howell Jackson, the acting dean of Harvard Law School, discussed this "black hole" problem in his testi-

mony to our committee early this year. He stated that the underlying issue is that "well-advised financial services firms are capable of exploiting the legalistic boundaries of jurisdictional authority that characterize our system of financial regulation. Without broad jurisdictional mandates, our financial regulators will remain at a serious disadvantage in setting policy for new financial products and risks."

Finally, my bill will merge the Office of Thrift Supervision, OTS, into the Office of the Comptroller of the Currency, OCC. Secretary Paulson recommended this merger in the plan he released last year, and 2 years ago, John Dugan, the U.S. Comptroller, said that such a merger would be "appropriate and healthy." There are currently at least four agencies involved in bank regulation, including the FDIC, the Federal Reserve, and the OCC and OTC. Consolidating and reducing the number of banking regulators would improve the efficiency and effectiveness of this system.

OTS is the best candidate for several reasons, including that many of its largest regulated entities, thrifts, have either collapsed or been acquired in the midst of the financial crisis—such as Washington Mutual and Indy Mac. And in the last 4 months, the inspector general for Treasury has raised serious questions about the objectivity and effectiveness of OTS's supervision of the largest thrifts.

Mr. President, the regulatory reforms in this legislation are absolutely essential to restoring public confidence in our financial markets. We have relied too long on a patchwork of regulatory agencies that is incapable of understanding or controlling risks to the system as a whole. The overarching purpose of this legislation is to ensure that, as the financial-services industry becomes ever more global and complex, those in government, responsible for overseeing the system's stability, can see the whole picture. We are in this crisis precisely because firms, whether for good or bad, exploited legal boundaries, risky financial instruments fell beyond the reach of regulators, and institutions doomed to fail grew too big to fail.

Honest savers, borrowers, investors, Main Street businesses, and responsible financial institutions deserve a regulatory system suited to demands of modern times, where dangerous gaps are closed, and where risky transactions are identified and controlled before they pose a threat to the markets as a whole. These reforms must be made to restore the confidence necessary to stabilize our financial markets. That is what this legislation aims to do, and I urge my colleagues to support it.

By Mr. FEINGOLD:

S. 665. A bill to allow modified bloc voting by cooperative associations of

milk producers in connection with a referendum on Federal milk marketing order reform; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. FEINGOLD. Mr. President, the first day of spring is appropriately also National Agriculture Day and a time to recognize the important contribution made by farmers, ranchers and the agriculture industry that is largely responsible for putting food on the table and clothes on our backs. Agriculture is critically important to both our Nation and Wisconsin. Over 22 million Americans and 420,000 Wisconsinites are employed by farms or agriculture related businesses. Approximately a fifth of U.S. gross domestic product is linked to agriculture and Wisconsin's farms and farm-related businesses create \$51.5 billion in economic activity each year.

Unfortunately, Agriculture Day this year comes at an unusually stressful time for the farm community. Even for an industry used to ups and downs from a variety of sources, the recent problems associated with the global economic troubles are taxing farmers and agriculture in general more than usual. Dairy farmers have been particularly hard hit recently, with the price they receive for their milk having fallen by 50 percent or more since last year. While I was glad that the dairy safety net or Milk Income Loss Contract program was reauthorized and improved during the farm bill, the dramatic drop in prices combined with relatively high input costs will mean that many dairy farmers are not coming close to covering their expenses even with the safety net.

Given these serious challenges facing dairy farmers, on January 30, 2009, I sent a letter with Senator KOHL and 33 other Senators to U.S. Department of Agriculture, USDA, Secretary Tom Vilsack that calls on the USDA to take a series of actions to protect the industry from instability. This geographically diverse group of senators is asking the USDA to more fully utilize existing programs like the Dairy Product Price Support Program, DPPSP, and the Dairy Export Incentive Program, to reverse the outgoing administration's recent decision to halt purchases of value-added dairy products by the DPPSP, and to help more low-income individuals, food banks and schools gain access to nutritious dairy products.

As Americans and businesses are feeling the impact of the current economic troubles and sometimes falling behind on payments, farmers across the country are increasingly facing the same prospect as well. This is one reason I supported \$193 million for Farm Service Agency farm loans and loan restructuring as part of the American Recovery and Reinvestment Act, P.L. 111-5, also known as the stimulus bill—to ensure that credit for farmers is

available during these difficult times. Also along these lines, on March 5, 2009, I sent a letter with Senators BROWN, KOHL, GILLIBRAND and 15 other Senators urging the Obama administration to help reduce farm foreclosures related to the troubled economy. The letter to Agriculture Secretary Tom Vilsack and Treasury Secretary Tim Geithner called for additional requirements for banks and other financial institutions that have taken Federal bailout funds to work with farmers to restructure farm loans to help keep them in their homes and businesses. These conditions would mirror requirements that are already in place on farm loans supported by the USDA Farm Service Agency and the requirements being developed for home loans held by these same lenders that have taken bailout funds. While I did not support the flawed bailout bill, I believe it is essential that bailout funds be used as much as possible to help consumers, farmers, home-owners and others feeling the pain of the economic crisis we are in.

In addition to focusing resources to help farmers and others in agriculture ride out the current economic storm, it is still important to seek solutions to long term inequities in agriculture. I have been particularly concerned about the increasing concentration in agriculture sectors and the potential for this market power to be used unduly against farmers and small independent businesses. During a Senate Judiciary Committee hearing on March 10, 2009, I discussed the grave concerns of Wisconsin farmers about slumping dairy prices and the Bush administration's failure to take action against anti-competitive behavior in the agriculture industry. Under my questioning, Christine Anne Varney, the nominee to be Assistant Attorney General of the Antitrust Division in the Department of Justice, committed, if she is confirmed, to make agriculture a priority of the Antitrust Division. She indicated that she will examine questionable antitrust decisions of the Bush administration and order a thorough review of slumping farm-level dairy prices, which do not appear to be reflected in retail prices paid by consumers.

Even with the troubles currently facing agriculture, farmers, and agriculture are resilient and entrepreneurial. I am certain that these individuals and businesses will bounce back and continue to push for more opportunities for farmers, agriculture and the rural communities that depend on them. Wisconsin's diverse agricultural producers—from ginseng growers to cheese makers to cranberry growers and everything in between—are rightly proud of their work and look for ways to differentiate themselves and add value whether it is through country-of-origin or other labeling, converting to

organic production or other measures. During debate on the farm bill, I was glad to support federal programs such as organic programs, Value-Added Producer Grants and the Rural Micro-entrepreneur Assistance Program as ways that the federal government can support important new opportunities for farmers to improve their livelihood without drastically changing the size and methods of their production.

Of more general importance to all rural residents is closing the digital divide and providing affordable broadband Internet access to all Americans. I was glad the farm bill made improvements to the USDA broadband programs and that the American Recovery and Reinvestment Act followed this up with a commitment to spend \$7.2 billion. On March, 9, 2009, I co-signed a series of letters to the administrators of the Federal broadband programs highlighting the need to ensure that these funds are targeted toward bringing broadband and the opportunities that come with this connectivity to rural areas without service.

Finally, the first day of spring also seems like an opportune time to reintroduce some legislation related to agriculture. While I was able to include several of my proposals in the farm bill last year including a tax provision to allow farmers to remain eligible for Social Security benefits in lean years, country-of-origin labeling for ginseng, a new higher profile office at USDA for small farms, and a provision similar to a bill I had with Senator Grassley to give farmers an option to opt out of mandatory binding arbitration in contracts, I have three bills to reintroduce: The Quality Cheese Act, The Democracy for Dairy Farmers Act and the Federal Milk Marketing Reform Act.

The import of milk protein concentrates and casein, which can substitute for domestic milk in many food products, continues to put pressure on our farmers and can threaten the integrity of our dairy products. For example, concerns about the safety of imported dairy products such as the recent Chinese melamine adulteration have the potential to threaten consumer confidence even for U.S. dairy products. The Quality Cheese Act will preserve the integrity of our natural cheeses by preventing milk protein concentrates and other imported milk substitutes from ever entering cheese vats.

Under the Federal Milk Marketing Order system, the deck has been stacked against Wisconsin's dairy farmers for some time. The legacy of transportation costs being calculated for the base milk price based on the distance from Eau Claire, WI, remains a problem to this day. This rule unfairly keeps Wisconsin's milk price disproportionately low, and bears no relation to the actual costs of transpor-

tation. While I hope that the commission provided for by the farm bill can address this problem also, my Federal Milk Market Reform Act would even the playing field for Wisconsin's producers and remove this longstanding inequity.

If a dairy cooperative decides to vote on behalf of all of its members or "bloc vote," individual members have no opportunity to voice opinions separately. That seems unfair when you consider what significant issues may be at stake. The Democracy for Dairy Producers Act of 2007 is simple and fair. It provides that a cooperative cannot deny any of its members a ballot to opt to vote separately from the cooperative. It also contains safeguards to make sure that farmers have information about each vote and is structured in such a way that it will not slow down the process, and the implementation of any rule or regulation would proceed on schedule.

By Mrs. MURRAY (for herself and Ms. CANTWELL):

S. 668. A bill to reauthorize the Northwest Straits Marine Conservation Initiative Act to promote the protection of the resources of the Northwest Straits, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mrs. MURRAY. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be placed in the RECORD, as follows:

S. 668

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Northwest Straits Marine Conservation Initiative Reauthorization Act of 2009".

SEC. 2. REAUTHORIZATION OF NORTHWEST STRAITS MARINE CONSERVATION INITIATIVE ACT.

The Northwest Straits Marine Conservation Initiative Act (title IV of Public Law 105-384; 112 Stat. 3458) is amended—

(1) in section 402, by striking "(in this title referred to as the 'Commission')"; and

(2) by striking sections 403, 404, and 405 and inserting the following:

"SEC. 403. FINDINGS.

"Congress makes the following findings:

"(1) The marine waters and ecosystem of the Northwest Straits in Puget Sound in the State of Washington represent a unique resource of enormous environmental and economic value to the people of the United States.

"(2) During the 20th century, the environmental health of the Northwest Straits declined dramatically as indicated by impaired water quality, declines in marine wildlife, collapse of harvestable marine species, loss of critical marine habitats, ocean acidification, and sea level rise.

"(3) At the start of the 21st century, the Northwest Straits have been threatened by sea level rise, ocean acidification, and other effects of climate change.

“(4) In 1998, the Northwest Straits Marine Conservation Initiative Act (title IV of Public Law 105-384) was enacted to tap the unprecedented level of citizen stewardship demonstrated in the Northwest Straits and create a mechanism to mobilize public support and raise capacity for local efforts to protect and restore the ecosystem of the Northwest Straits.

“(5) The Northwest Straits Marine Conservation Initiative helps the National Oceanic and Atmospheric Administration and other Federal agencies with their marine missions by fostering local interest in marine issues and involving diverse groups of citizens.

“(6) The Northwest Straits Marine Conservation Initiative shares many of the same goals with the National Oceanic and Atmospheric Administration, including fostering citizen stewardship of marine resources, general ecosystem management, and protecting Federally managed marine species.

“(7) Ocean literacy and identification and removal of marine debris projects are examples of on-going partnerships between the Northwest Straits Marine Conservation Initiative and the National Oceanic and Atmospheric Administration.

“SEC. 404. DEFINITIONS.

“In this title:

“(1) **COMMISSION.**—The term ‘Commission’ means the Northwest Straits Advisory Commission established by section 402.

“(2) **INDIAN TRIBE.**—The term ‘Indian tribe’ has the meaning given that term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

“(3) **NORTHWEST STRAITS.**—The term ‘Northwest Straits’ means the marine waters of the Strait of Juan de Fuca and of Puget Sound from the Canadian border to the south end of Snohomish County.

“SEC. 405. MEMBERSHIP OF THE COMMISSION.

“(a) **COMPOSITION.**—The Commission shall be composed of up to 14 members who shall be appointed as follows:

“(1) One member appointed by a consensus of the members of a marine resources committee established under section 408 for each of the following counties of the State of Washington:

“(A) San Juan County.

“(B) Island County.

“(C) Skagit County.

“(D) Whatcom County.

“(E) Snohomish County.

“(F) Clallam County.

“(G) Jefferson County.

“(2) Two members appointed by the Secretary of the Interior in trust capacity and in consultation with the Northwest Indian Fisheries Commission or the Indian tribes affected by this title collectively, as the Secretary of the Interior considers appropriate, to represent the interests of such tribes.

“(3) One member appointed by the Governor of the State of Washington to represent the interests of the Puget Sound Partnership.

“(4) Four members appointed by the Governor of the State of Washington who—

“(A) are residents of the State of Washington; and

“(B) are not employed by a Federal, State, or local government.

“(b) **VACANCIES.**—A vacancy in the Commission shall be filled in the manner in which the original appointment was made.

“(c) **CHAIRPERSON.**—The Commission shall select a Chairperson from among its members.

“(d) **MEETING.**—The Commission shall meet at the call of the Chairperson, but not less frequently than quarterly.

“(e) **LIAISON.**—The Secretary of Commerce shall, acting through the Under Secretary for Oceans and Atmosphere and in consultation with the Director of the Commission appointed under section 407(a), appoint an employee of the National Oceanic and Atmospheric Administration—

“(1) to serve as a liaison among the Commission and the Department of Commerce; and

“(2) to attend meetings and other events of the Commission as a nonvoting participant.

“SEC. 406. GOAL AND DUTIES OF THE COMMISSION.

“(a) **GOAL.**—The goal of the Commission is to protect and restore the marine waters, habitats, and species of the Northwest Straits region to achieve ecosystem health and sustainable resource use by—

“(1) designing and initiating projects that are driven by sound science, local priorities, community-based decisions, and the ability to measure results;

“(2) building awareness and stewardship and making recommendations to improve the health of the Northwest Straits marine resources;

“(3) maintaining and expanding diverse membership and partner organizations;

“(4) expanding partnerships with governments of Indian tribes and continuing to foster respect for tribal cultures and treaties; and

“(5) recognizing the importance of economic and social benefits that are dependent on marine environments and sustainable marine resources.

“(b) **DUTIES.**—The duties of the Commission are the following:

“(1) To provide resources and technical support for marine resources committees established under section 408.

“(2) To work with such marine resources committees and appropriate entities of Federal and State governments and Indian tribes to develop programs to monitor the overall health of the marine ecosystem of the Northwest Straits.

“(3) To identify factors adversely affecting or preventing the restoration of the health of the marine ecosystem and coastal economies of the Northwest Straits.

“(4) To develop scientifically sound restoration and protection recommendations, informed by local priorities, that address such factors.

“(5) To assist in facilitating the successful implementation of such recommendations by developing broad support among appropriate authorities, stakeholder groups, and local communities.

“(6) To develop and implement regional projects based on such recommendations to protect and restore the Northwest Straits ecosystem.

“(7) To serve as a public forum for the discussion of policies and actions of Federal, State, or local government, an Indian tribe, or the Government of Canada with respect to the marine ecosystem of the Northwest Straits.

“(8) To inform appropriate authorities and local communities about the marine ecosystem of the Northwest Straits and about issues relating to the marine ecosystem of the Northwest Straits.

“(9) To consult with all affected Indian tribes in the region of the Northwest Straits to ensure that the work of the Commission does not violate tribal treaty rights.

“(c) **BENCHMARKS.**—The Commission shall carry out its duties in a manner that promotes the achieving of the benchmarks described in subsection (f)(2).

“(d) **COORDINATION AND COLLABORATION.**—The Commission shall carry out the duties described in subsection (b) in coordination and collaboration, when appropriate, with Federal, State, and local governments and Indian tribes.

“(e) **REGULATORY AUTHORITY.**—The Commission shall have no power to issue regulations.

“(f) **ANNUAL REPORT.**—

“(1) **IN GENERAL.**—Each year, the Commission shall prepare, submit to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Energy and Commerce of the House of Representatives, and the Under Secretary for Oceans and Atmosphere, and make available to the public an annual report describing—

“(A) the activities carried out by the Commission during the preceding year; and

“(B) the progress of the Commission in achieving the benchmarks described in paragraph (2).

“(2) **BENCHMARKS.**—The benchmarks described in this paragraph are the following:

“(A) Protection and restoration of marine, coastal, and nearshore habitats.

“(B) Prevention of loss and achievement of a net gain of healthy habitat areas.

“(C) Protection and restoration of marine populations to healthy, sustainable levels.

“(D) Protection of the marine water quality of the Northwest Straits region and restoration of the health of marine waters.

“(E) Collection of high-quality data and promotion of the use and dissemination of such data.

“(F) Promotion of stewardship and understanding of Northwest Straits marine resources through education and outreach.

“SEC. 407. COMMISSION PERSONNEL AND ADMINISTRATIVE MATTERS.

“(a) **DIRECTOR.**—The Manager of the Shorelands and Environmental Assistance Program of the Department of Ecology of the State of Washington may, upon the recommendation of the Commission and the Director of the Padilla Bay National Estuarine Research Reserve, appoint and terminate a Director of the Commission. The employment of the Director shall be subject to confirmation by the Commission.

“(b) **STAFF.**—The Director may hire such other personnel as may be appropriate to enable the Commission to perform its duties. Such personnel shall be hired through the personnel system of the Department of Ecology of the State of Washington.

“(c) **ADMINISTRATIVE SERVICES.**—If the Governor of the State of Washington makes available to the Commission the administrative services of the State of Washington Department of Ecology and Padilla Bay National Estuarine Research Reserve, the Commission shall use such services for employment, procurement, grant and fiscal management, and support services necessary to carry out the duties of the Commission.

“SEC. 408. MARINE RESOURCES COMMITTEES.

“(a) **IN GENERAL.**—The government of each of the counties referred to in subparagraphs (A) through (G) of section 405(a)(1) may establish a marine resources committee that—

“(1) complies with the requirements of this section; and

“(2) receives from such government the mission, direction, expert assistance, and financial resources necessary—

“(A) to address issues affecting the marine ecosystems within its county; and

“(B) to work to achieve the benchmarks described in section 406(f)(2).

“(b) **MEMBERSHIP.**—

“(1) IN GENERAL.—Each marine resources committee established pursuant to this section shall be composed of—

“(A) members with relevant scientific expertise; and

“(B) members that represent balanced representation, including representation of—

“(i) local governments, including planning staff from counties and cities with marine shorelines;

“(ii) affected economic interests, such as ports and commercial fishers;

“(iii) affected recreational interests, such as sport fishers; and

“(iv) conservation and environmental interests.

“(2) TRIBAL MEMBERS.—With respect to a county referred to in subparagraph (A) through (G) of section 405(a)(1), each Indian tribe with usual and accustomed fishing rights in the waters of such county and each Indian tribe with reservation lands in such county, may appoint one member to the marine resources committee for such county. Such member may be appointed by the respective tribal authority.

“(3) CHAIRPERSON.—

“(A) IN GENERAL.—Each marine resources committee established pursuant to this section shall select a chairperson from among members by a majority vote of the members of the committee.

“(B) ROTATING POSITION.—Each marine resources committee established pursuant to this section shall select a new chairperson at a frequency determined by the county charter of the marine resources committee to create a diversity of representation in the leadership of the marine resources committee.

“(c) DUTIES.—The duties of a marine resources committee established pursuant to this section are the following:

“(1) To assist in assessing marine resource problems in concert with governmental agencies, tribes, and other entities.

“(2) To assist in identifying local implications, needs, and strategies associated with the recovery of Puget Sound salmon and other species in the region of the Northwest Straits listed under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) in coordination with Federal, State, and local governments, Indian tribes, and other entities.

“(3) To work with other entities to enhance the scientific baseline and monitoring program for the marine environment of the Northwest Straits.

“(4) To identify local priorities for marine resource conservation and develop new projects to address those needs.

“(5) To work closely with county leadership to implement local marine conservation and restoration initiatives.

“(6) To coordinate with the Commission on marine ecosystem objectives.

“(7) To educate the public and key constituencies regarding the relationship between healthy marine habitats, harvestable resources, and human activities.

“SEC. 409. NORTHWEST STRAITS MARINE CONSERVATION FOUNDATION.

“(a) ESTABLISHMENT.—The Director of the Commission and the Director of the Padilla Bay National Estuarine Research Reserve may enter into an agreement with an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 to establish a nonprofit foundation to support the Commission and the marine resources committees established under section 408 in carrying out their duties under this Act.

“(b) DESIGNATION.—The foundation authorized by subsection (a) shall be known as the

‘Northwest Straits Marine Conservation Foundation’.

“(c) RECEIPT OF GRANTS.—The Northwest Straits Marine Conservation Foundation may, if eligible, apply for, accept, and use grants awarded by Federal agencies, States, local governments, regional agencies, interstate agencies, corporations, foundations, or other persons to assist the Commission and the marine resources committees in carrying out their duties under this Act.

“(d) TRANSFER OF FUNDS.—The Northwest Straits Marine Conservation Foundation may transfer funds to the Commission or the marine resources committees to assist them in carrying out their duties under this Act.”.

By Mr. BURR (for himself, Mr. WEBB, Mr. GRAHAM, Mr. WICKER, Mr. COBURN, Mr. DEMINT, Mr. ROBERTS, Mr. GRASSLEY, Mr. VITTER, Mr. ENZI, Mr. INHOFE, Mr. ENSIGN, Mr. CRAPO, Mr. COCHRAN, Ms. MURKOWSKI, and Mr. THUNE):

S. 669. A bill to amend title 38, United States Code, to clarify the conditions under which certain persons may be treated as adjudicated mentally incompetent for certain purposes; to the Committee on Veterans' Affairs.

Mr. BURR. Mr. President, I rise today to again introduce bipartisan legislation that would end an arbitrary process through which our own government takes away the 2nd Amendment rights of veterans.

I am pleased to be joined by three of my fellow Veterans' Affairs Committee Members on this legislation—Senators WEBB, GRAHAM, and WICKER—and 12 other members of the Senate, all as original cosponsors.

The legislation is nearly identical to the bill I introduced last Congress under the same title. Unfortunately, after it was approved as an amendment at a Committee markup and reported to the full Senate, no further action was taken. I am hopeful that things will be different this Congress.

As most of my colleagues know, the Federal Gun Control Act prohibits the sale of firearms to certain individuals, including convicted felons, fugitives, drug users, illegal aliens, and individuals who have been “adjudicated as a mental defective.”

The Brady Handgun Violence Prevention Act requires the government to maintain a database on these individuals called the National Instant Criminal Background Check System, or “NICS”. The Brady Law and the NICS database aim to prevent those who may pose a danger to society or themselves from purchasing a firearm.

Gun shop owners reference the NICS to screen customers. Needless to say, it is a serious matter to have one's name on the NICS. Every American should expect a rigorous and fair process before their right to bear arms is taken away.

Unfortunately, when it comes to certain veterans, spouses, dependent children, and dependent parents, the process is neither rigorous nor fair.

Since 1999, VA has sent the names of 116,000 of its beneficiaries to the FBI for inclusion on the NICS.

None of these names were sent to the FBI because they were determined to be a danger to themselves or others. They were listed in NICS because they could not manage their financial affairs. We should not take away a Constitutional right because someone can't balance a checkbook or pay their bills on time.

VA's review process for assigning a fiduciary is meant to determine one's financial responsibility in managing VA-provided cash assistance such as disability compensation, pension, and other benefits.

For example, a veteran may be assigned a fiduciary if they have credit problems.

VA focuses on whether or not benefits paid by VA will be spent in the manner for which they were intended. Nothing involved with VA's appointment of a fiduciary even gets at the question of whether an individual is a danger to themselves or others, or whether the person should own a firearm.

Yet that is exactly what happens if VA appoints a fiduciary. Over 116,000 individuals have been listed in NICS since 1999 because they were appointed a fiduciary.

Again, this includes veterans, surviving spouses and, strangely enough, dependent children. That's right, a child entitled to receive survivor's compensation because their mother or father died as a result of service has their name sent to a government database filled with criminals. Even worse, the child's name stays on this list permanently unless he or she petitions to have it taken off.

This makes no sense. States have age restrictions preventing kids from purchasing firearms. VA sending the names of innocent children to Government database of criminals just because their parent died as a result of service to their country simply makes no sense, and it is downright insulting.

This process is not only arbitrary, it is unfair. Taking away a Constitutional right is a serious action and veterans should be afforded due process under the law. At the very least we should expect such decisions to be made by a competent judicial authority and not by civilian government employees.

The current process is also a double standard. Only VA beneficiaries fall under these guidelines. The Social Security Administration assigns fiduciaries to help beneficiaries, yet it does not send their names to the NICS.

Why are we singling out those who fought for this country and those who sacrificed while their spouse or parent served?

My legislation would end this arbitrary and unfair practice that strips

the finest men and women of this country of their right to bear arms. This legislation would require a judicial authority to determine that an individual is a danger to themselves or others before their 2nd Amendment rights are taken away.

I am not here to ask that we put guns in the hands of dangerous people. I am here to ask that we treat our veterans fairly and that we take their rights seriously. Many of our veterans' organizations and other groups agree.

The Veterans 2nd Amendment Protection Act has the support of the The American Legion, the Veterans of Foreign Wars of the United States, AMVETS, the Military Order of the Purple Heart, the National Alliance on Mental Illness, the National Rifle Association, and Gun Owners of America.

No matter where my colleagues fall on the gun issue, I hope we can all agree that we need a process that is consistent and fair. Our veterans took an oath to uphold the Constitution. They deserve to enjoy the rights they fought so hard to protect.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be placed in the RECORD, as follows:

S. 669

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Veterans 2nd Amendment Protection Act".

SEC. 2. CONDITIONS FOR TREATMENT OF CERTAIN PERSONS AS ADJUDICATED MENTALLY INCOMPETENT FOR CERTAIN PURPOSES.

(a) IN GENERAL.—Chapter 55 of title 38, United States Code, is amended by adding at the end the following new section:

"§5511. Conditions for treatment of certain persons as adjudicated mentally incompetent for certain purposes

"In any case arising out of the administration by the Secretary of laws and benefits under this title, a person who is mentally incapacitated, deemed mentally incompetent, or experiencing an extended loss of consciousness shall not be considered adjudicated as a mental defective under subsection (d)(4) or (g)(4) of section 922 of title 18 without the order or finding of a judge, magistrate, or other judicial authority of competent jurisdiction that such person is a danger to himself or herself or others."

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 55 of such title is amended by adding at the end the following new item:

"5511. Conditions for treatment of certain persons as adjudicated mentally incompetent for certain purposes."

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 81—SUPPORTING THE GOALS AND IDEALS OF WORLD WATER DAY

Ms. COLLINS (for herself and Mr. KERRY) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 81

Whereas the United Nations General Assembly, by resolution, has designated March 22 of each year as "World Water Day";

Whereas a person needs 4 to 5 liters of water per day to survive;

Whereas a person can live weeks without food, but only days without water;

Whereas every 15 seconds a child dies from a water-borne disease;

Whereas, for children under age 5, water-borne diseases are the leading cause of death;

Whereas millions of women and children already spend several hours a day collecting water from distant, often polluted sources;

Whereas every dollar spent on water and sanitation saves an average of \$9 in costs averted and productivity gained;

Whereas, at any given time, 1/2 of the hospital beds in the world are occupied by patients suffering from a water-borne disease;

Whereas 88 percent of all diseases are caused by unsafe drinking water, inadequate sanitation, and poor hygiene;

Whereas 1,100,000,000 (1 in 6) people lack access to an improved water supply;

Whereas 2,600,000,000 people in the world lack access to improved sanitation;

Whereas the 263 transboundary lake and river basins in the world are part of the territory of 145 countries and cover nearly 1/2 of the land surface of the Earth;

Whereas climate change may cause more extreme floods and droughts, increasing political tension and the potential for clashes over transboundary fresh water resources;

Whereas the global celebration of World Water Day is an initiative that grew out of the 1992 United Nations Conference on Environment and Development in Rio de Janeiro;

Whereas the participants in the 2002 World Summit on Sustainable Development in Johannesburg, including the United States, agreed to the Plan of Implementation which included an agreement to work to reduce by 1/2 from the baseline year 1990 "the proportion of people who are unable to reach or to afford safe drinking water"; "and the proportion of people without access to basic sanitation" by 2015; and

Whereas Congress passed and the President signed into law the Senator Paul Simon Water for the Poor Act of 2005 (Public Law 109-121), which was intended to "elevate the role of water and sanitation policy in the development of U.S. foreign policy and improve the effectiveness of U.S. official programs";

Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of World Water Day;

(2) urges an increased effort and the investment of greater resources by the Department of State, the United States Agency for International Development, and all relevant Federal departments and agencies toward providing sustainable and equitable access to safe drinking water and sanitation for the poor and the very poor; and

(3) encourages the people of the United States to observe the week of World Water Day with appropriate activities that promote awareness of the importance of—

(A) access to clean water; and

(B) cooperation between stakeholders in transboundary water management.

Ms. COLLINS. Mr. President, I rise today to submit a resolution supporting the ideals and goals of World Water Day. I am pleased to have my colleague Senator JOHN KERRY joining me as the cosponsor of this resolution.

March 22 was established as World Water Day by the United Nations General Assembly to promote awareness of the importance of access to clean water and improved sanitation. More than one billion people lack access to an improved water supply and 2.6 billion people lack access to improved sanitation.

This year's theme, "Shared Water—Shared Opportunities," highlights opportunities to build trust among countries as they manage their common water resources in ways that promote sustainable economic growth. In the U.S. half of the States border shared waters, and there are growing pressures on the environmental quality and use of these waters.

To recognize World Water Day, activities are planned internationally and here in the U.S. Many cities are sponsoring World Water Day benefit walks, runs and musical celebrations. I urge citizens to participate in these activities and recognize this important day.

In 2000, the United Nations adopted a goal to reduce by half the proportion of people without sustainable access to safe drinking water and basic sanitation by 2015. We have made some progress toward that goal, but more needs to be done. Each day millions of women and girls still spend hours traveling miles to transport water to their homes. In many cases, the source is polluted, leading to disease for them and other members of their families.

The Senator Paul Simon Water for the Poor Act of 2005 provided for U.S. assistance in developing countries to provide equal and affordable access to clean and safe water and sanitation. This access is important to U.S. foreign policy interests, and, more important, is a basic human right.

SENATE RESOLUTION 82—RECOGNIZING THE 188TH ANNIVERSARY OF THE INDEPENDENCE OF GREECE AND CELEBRATING GREEK AND AMERICAN DEMOCRACY

Mr. SPECTER (for himself, Mr. DURBIN, Mr. KERRY, Mr. LIEBERMAN, Mr. CASEY, Mr. LAUTENBERG, Mr. CARDIN, Ms. SNOWE, Mr. BINGAMAN, Mr. WHITEHOUSE, Mr. REED, Mr. VOINOVICH, Mr. MENENDEZ, Mr. BEGICH, Mr. MARTINEZ, Mr. LEVIN, Mr. CHAMBLISS, Mrs. FEINSTEIN, Mr. COCHRAN, Mr. FEINGOLD, Ms. MIKULSKI, Mr. KENNEDY, Ms. LANDRIEU, Mr. DODD, Mr. GREGG, Mr. BENNETT, Mr. CARPER, Ms. STABENOW, Mr. GRASSLEY, Mr. KOHL, Mr. RISCH, Mr. INOUE,

Mr. ROCKEFELLER, Mr. ISAKSON, Mrs. MURRAY, Ms. MURKOWSKI, Mrs. SHAHEEN, Mr. LUGAR, Mr. NELSON of Florida, and Mr. JOHNSON) submitted the following resolution; which was considered and agreed to:

S. RES. 82

Whereas the ancient Greeks developed the concept of democracy, in which the supreme power to govern was vested in the people;

Whereas the Founding Fathers of the United States, many of whom read Greek political philosophy in the original Greek, drew heavily on the political experience and philosophy of ancient Greece in forming our representative democracy;

Whereas Greek Commander in Chief Petros Mavromichalis, a founder of the modern Greek state, said to the citizens of the United States in 1821 that "it is in your land that liberty has fixed her abode and . . . in imitating you, we shall imitate our ancestors and be thought worthy of them if we succeed in resembling you";

Whereas the Greek national anthem, the "Hymn to Liberty", includes the words, "Most heartily was gladdened George Washington's brave land";

Whereas the people of the United States generously offered humanitarian assistance to the Greek people during their struggle for independence;

Whereas Greece played a major role in the World War II struggle to protect freedom and democracy through such bravery as was shown in the historic Battle of Crete, which provided the Axis land war with its first major setback, setting off a chain of events that significantly affected the outcome of World War II;

Whereas hundreds of thousands of Greek civilians were killed in Greece during World War II in defense of the values of the Allies;

Whereas, throughout the 20th century, Greece was one of a few countries that allied with the United States in every major international conflict;

Whereas Greece is a strategic partner and ally of the United States in bringing political stability and economic development to the volatile Balkan region, having invested more than \$20,000,000,000 in the countries of the region, thereby helping to create more than 200,000 new jobs, and having contributed more than \$750,000,000 in development aid for the region;

Whereas Greece actively participates in peacekeeping and peace-building operations conducted by international organizations including the United Nations, the North Atlantic Treaty Organization, the European Union, and the Organization for Security and Co-operation in Europe;

Whereas Greece received worldwide praise for its extraordinary handling during the 2004 Olympic Games of more than 14,000 athletes and more than 2,000,000 spectators and journalists, a feat Greece handled efficiently, securely, and with hospitality;

Whereas Greece, located in a region where Christianity meets Islam and Judaism, maintains excellent relations with Muslim nations and Israel;

Whereas the Government of Greece has taken important steps in recent years in furthering cross-cultural understanding and rapprochement with Turkey, as seen with the January 2008 visit to Turkey by the Prime Minister of Greece, Kostas Karamanlis, the first official visit by a Greek Prime Minister in 49 years;

Whereas Greece and the United States are at the forefront of the effort for freedom, democracy, peace, stability, and human rights;

Whereas those and similar ideals have forged a close bond between Greece and the United States; and

Whereas it is proper and desirable for the United States to celebrate March 25, 2009, Greek Independence Day, with the Greek people and to reaffirm the democratic principles from which these two great nations were born: Now, therefore, be it

Resolved, That the Senate—

(1) extends warm congratulations and best wishes to the people of Greece as they celebrate the 188th anniversary of the independence of Greece;

(2) expresses support for the principles of democratic governance to which the people of Greece are committed; and

(3) notes the important role that Greece has played in the wider European region and in the community of nations since gaining its independence 188 years ago.

SENATE CONCURRENT RESOLUTION 12—RECOGNIZING AND HONORING THE SIGNING BY PRESIDENT ABRAHAM LINCOLN OF THE LEGISLATION AUTHORIZING THE ESTABLISHMENT OF COLLEGIATE PROGRAMS AT GALLAUDET UNIVERSITY

Mr. BROWN submitted the following concurrent resolution; which was referred to the Committee on the Judiciary:

S. CON. RES. 12

Whereas in 2009, the United States honored the 200th anniversary of the birth of President Abraham Lincoln;

Whereas on July 4, 1861, President Lincoln stated in a message to Congress that a principal aim of the United States government should be "to elevate the condition of men—to lift artificial weights from all shoulders—to clear the paths of laudable pursuit for all—to afford all, an unfettered start, and a fair chance, in the race of life";

Whereas on April 8, 1864, President Lincoln signed into law the legislation (Act of April 8, 1864, ch. 52, 13 Stat. 45) authorizing the conferring of collegiate degrees by the Columbia Institution for Instruction of the Deaf and Dumb and the Blind, which is now called Gallaudet University;

Whereas that law led for the first time in history to higher education for deaf students in an environment designed to meet their communication needs;

Whereas Gallaudet University was the first, and is still the only, institution in the world that focuses on educational programs for deaf and hard-of-hearing students from the pre-school through the doctoral level;

Whereas Gallaudet University has been a world leader in the fields of education and research for more than a century; and

Whereas since 1869, graduates of Gallaudet University have pursued distinguished careers of leadership in the United States and throughout the world: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) congratulates and honors Gallaudet University on the 145th anniversary of President Abraham Lincoln's signing of the legislation authorizing the establishment of collegiate programs at Gallaudet University; and

(2) congratulates Gallaudet University for 145 years of unique and exceptional serv-

ice to the deaf people of the United States and the world deaf community.

PRIVILEGES OF THE FLOOR

Mr. REED. Mr. President, I ask unanimous consent that Samantha Harvell, a fellow in Senator BINGAMAN's office, be granted the privilege of the floor during the pendency of H.R. 1388.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONGRATULATING THE COLUMBUS CREW FOR WINNING THE 2008 MAJOR LEAGUE SOCCER CUP

Mr. REID. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration, and the Senate now proceed to S. Res. 61.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 61) commending the Columbus Crew Major League Soccer Team for winning the 2008 Major League Soccer Cup.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 61) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 61

Whereas, on Sunday, November 23, 2008, the Columbus Crew defeated the New York Red Bulls by a score of 3-1 to win the 2008 Major League Soccer (MLS) Cup;

Whereas the Columbus Crew led the league with a record of 17 wins, 7 losses, and 6 draws and scored 50 regular season goals and 8 playoff goals;

Whereas Columbus Crew head coach Sigi Schmid was named the 2008 MLS Coach of the Year and became the first MLS Coach to win an MLS Cup with two different teams;

Whereas Columbus Crew forward Guillermo Barros Schelotto was named the 2008 MLS Most Valuable Player and led the league with 19 regular season assists and 6 playoff assists;

Whereas Columbus Crew defender Chad Marshall was named the 2008 MLS Defender of the Year;

Whereas Columbus Crew forward Alejandro Moreno led the team in scoring with 9 regular season goals and 1 playoff goal;

Whereas Columbus Crew goalkeeper Will Hesmer had 17 wins, 97 saves, and 10 shutouts in 29 regular season games;

Whereas Alejandro Moreno, Chad Marshall, and Frankie Hejduk all scored goals in the MLS Cup Championship game;

Whereas the Columbus Crew was the winner of the 2008 MLS Supporters' Shield for

being the team with the best regular season record;

Whereas Columbus Crew Captain Frankie Hejduk led the team to its first MLS Cup since the team's creation in 1994; and

Whereas the Columbus Crew, along with its supporters, has energized Columbus and brought great pride to the State of Ohio: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the Columbus Crew on winning the 2008 Major League Soccer Cup;

(2) recognizes the achievements of Sigi Schmid, Chad Marshall, Guillermo Barros Schelotto, and the other members of the Columbus Crew for their tireless work ethic and championship form;

(3) salutes the support of the Columbus Crew fan groups, including the Hudson Street Hooligans, the Crew Union, La Turbina Amarilla, and the rest of the Nordecke for unwavering dedication to the Columbus Crew; and

(4) expresses the hope that the Columbus Crew and Major League Soccer will continue to inspire soccer fans and players throughout Ohio, the United States, and the world.

188TH ANNIVERSARY OF THE INDEPENDENCE OF GREECE

Mr. REID. I ask unanimous consent that the Senate proceed to S. Res. 82.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 82) recognizing the 188th anniversary of the independence of Greece and celebrating the Greek and American democracy.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid on the table, there be no intervening action or debate, and any statements relating to this matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 82) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 82

Whereas the ancient Greeks developed the concept of democracy, in which the supreme power to govern was vested in the people;

Whereas the Founding Fathers of the United States, many of whom read Greek political philosophy in the original Greek, drew heavily on the political experience and philosophy of ancient Greece in forming our representative democracy;

Whereas Greek Commander in Chief Petros Mavromichalis, a founder of the modern Greek state, said to the citizens of the United States in 1821 that "it is in your land that liberty has fixed her abode and . . . in imitating you, we shall imitate our ancestors and be thought worthy of them if we succeed in resembling you";

Whereas the Greek national anthem, the "Hymn to Liberty", includes the words, "Most heartily was gladdened George Washington's brave land";

Whereas the people of the United States generously offered humanitarian assistance to the Greek people during their struggle for independence;

Whereas Greece played a major role in the World War II struggle to protect freedom and democracy through such bravery as was shown in the historic Battle of Crete, which provided the Axis land war with its first major setback, setting off a chain of events that significantly affected the outcome of World War II;

Whereas hundreds of thousands of Greek civilians were killed in Greece during World War II in defense of the values of the Allies;

Whereas, throughout the 20th century, Greece was one of a few countries that allied with the United States in every major international conflict;

(3) notes the important role that Greece has played in the wider European region and in the community of nations since gaining its independence 188 years ago.

APPOINTMENTS

The PRESIDING OFFICER. The Chair, on behalf of the majority leader, pursuant to Public Law 111-5, appoints

the following individual to the Health Information Technology Policy Committee: Dr. Frank Nemec of Nevada.

The Chair announces, on behalf of the Secretary of the Senate, pursuant to Public Law 110-509, the appointment of Sheryl B. Vogt, of Georgia, to the Advisory Committee on the Records of Congress.

ORDERS FOR TUESDAY, MARCH 24, 2009

Mr. REID. I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m. tomorrow morning, Tuesday, March 24; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and there then be a period of morning business for up to 1 hour, with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first half and the majority controlling the second half, and with Senators permitted to speak for up to 10 minutes each; further, that following morning business, the Senate resume consideration of the motion to proceed to H.R. 1388, a bill to reauthorize and reform the national service laws, with the time running postcloture as provided under the previous order; finally, I ask unanimous consent that the Senate recess from 12:30 p.m. until 2:15 p.m. to allow for the weekly caucus luncheons.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. REID. If there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 7:10 p.m., adjourned until Tuesday, March 24, 2009, at 10 a.m.

NOMINATIONS

Executive nominations received by the Senate:

FEDERAL COMMUNICATIONS COMMISSION

JULIUS GENACHOWSKI, OF THE DISTRICT OF COLUMBIA, TO BE A MEMBER OF THE FEDERAL COMMUNICATIONS COMMISSION FOR A TERM OF FIVE YEARS FROM JULY 1, 2008, VICE JONATHAN STEVEN ADELSTEIN, TERM EXPIRED.

DEPARTMENT OF AGRICULTURE

JOE LEONARD, JR., OF THE DISTRICT OF COLUMBIA, TO BE AN ASSISTANT SECRETARY OF AGRICULTURE, VICE MARGO M. MCKAY, RESIGNED.

DEPARTMENT OF ENERGY

KRISTINA M. JOHNSON, OF MARYLAND, TO BE UNDER SECRETARY OF ENERGY, VICE CLARENCE H. ALBRIGHT, RESIGNED.

ENVIRONMENTAL PROTECTION AGENCY

CYNTHIA J. GILES, OF RHODE ISLAND, TO BE AN ASSISTANT ADMINISTRATOR OF THE ENVIRONMENTAL PROTECTION AGENCY, VICE GRANTA Y. NAKAYAMA, RESIGNED.

DEPARTMENT OF THE TREASURY

LAEL BRAINARD, OF THE DISTRICT OF COLUMBIA, TO BE AN UNDER SECRETARY OF THE TREASURY, VICE DAVID H. MCCORMICK, RESIGNED.

DEPARTMENT OF STATE

HAROLD HONGJU KOH, OF CONNECTICUT, TO BE LEGAL ADVISER OF THE DEPARTMENT OF STATE, VICE JOHN B. BELLINGER III, RESIGNED.

JOHNNIE CARSON, OF ILLINOIS, TO BE AN ASSISTANT SECRETARY OF STATE (AFRICAN AFFAIRS), VICE JENDAYI ELIZABETH FRAZER, RESIGNED.

HOUSE OF REPRESENTATIVES—Monday, March 23, 2009

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Ms. EDWARDS).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
March 23, 2009.

I hereby appoint the Honorable DONNA F. EDWARDS to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 6, 2009, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 30 minutes and each Member, other than the majority and minority leaders and the minority whip, limited to 5 minutes.

PRESIDENT OBAMA'S BUDGET

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. BLUMENAUER) for 5 minutes.

Mr. BLUMENAUER. Madam Speaker, for the past year we have been on an economic roller coaster, with scary turns and falls coming ever faster, making the sinking feeling in the pit of our stomachs even worse.

Along the way, the Federal Government, spurred by the most-dire predictions, has taken sweeping actions. Some, like the bailout, I opposed; others, like the Economic Recovery Package of President Obama, I supported. But action was warranted to help the struggling economy and restore public confidence. Yet we continue to react to part of the problem with partial stop-gap actions.

This week, Congress has an opportunity to deal with the bigger picture and comprehensive solutions as we consider President Obama's budget.

For decades we have been living beyond our means and the environment's capacity to be a dumping ground for toxic waste, and air and water pollution, especially carbon pollution, that is destabilizing the climate, raising

global temperature and sea levels, and changing things we rely on, like growing seasons and water supply.

We have been living on borrowed time and borrowed money. The previous administration cut taxes for those who needed help the least, increased spending but avoided long-term investments in education and our infrastructure like roads, bridges and rail.

The day of reckoning is here, accelerated by the global financial meltdown, the causes of which are clearer than the remedies. The sad truth is that the geniuses who figured out how to enrich themselves were clueless about the broader implications. Too much energy, brain power and lobbying has been spent on making money for a few, not on creating underlying economic value for the Nation. We have been left with two starkly different paths: we can muddle on through doing what we have done, only less of it, with a battle over who will take the biggest losses while continuing these past patterns. Given the array of special interests and the history involved, we have a pretty good idea what that path will look like.

The other approach is outlined in the President's budget: tackle comprehensively the challenges of health care, education, the long-term fiscal stability of the United States and global warming and its real costs and danger.

The health care system is the biggest opportunity for savings. We spend more money than anyone else in the world for health care, but ours is a system where Americans are sick more often and die sooner than people in most developed countries and in even some poor ones. It is not just foreign countries that have figured this out, but many American communities provide better health care while spending less money than the Nation as a whole. We as a Nation can do this.

Energy dependence and carbon pollution doesn't just threaten our way of life in the future, it attacks our pocketbook and our communities now. The President's plan will save families money, make America more secure, and protect the planet.

In the middle of the economic meltdown, we shouldn't and we won't raise taxes. But over the long haul, we are going to have to pay our debts and find money for rebuilding and renewing America. There are areas in the budget that point the way, like keeping some portion of the expiring tax cuts on the most well-off and reinstituting the Superfund tax to clean up toxic waste.

Finally, there is the question of tackling unnecessary spending. The President points out agricultural subsidies for the rich agribusiness interests, while shortchanging most farmers and ranchers. There is a way to make more rational our support of agriculture. We need to support him as we all face the question whether Cold War weapons that the military doesn't need, and in some cases doesn't even want, are worth the costs to the American taxpayer.

The path contained in the budget will be the first chance for Congress, the administration, and, most important, the public to weave together the elements of change and reform. There are short-term political risks, to be sure. But the long-term benefits are breathtaking, especially when compared to continuing the short term, business as usual, unsustainable course that has led us to this point of economic and fiscal disaster.

My hope and prayer is that Congress will be able to meet the President's challenge and work with him to refine his bold budget, treat our problems with the gravity they merit, and the public with the respect that it is due.

FRUIT OF THE BAILOUT MANIA

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX. Madam Speaker, it is time for a brief history lesson. In the fall of 2008, the Bush administration came running to Congress with an historic ask: \$700 billion with no strings attached to save the country from financial meltdown. At the time I didn't buy it, so I voted against the bailout plan twice. In fact, my distaste for the bailout plan and the unfettered access to taxpayer money that it gave the Treasury Department and the executive branch was so strong that I soon introduced a bill to stop the bailout mania.

It was a simple bill, but it had to be considered by Congress thanks to the way the bailout law had been written. In a nutshell, it would have stopped the second half of the \$700 billion TARP bailout. I introduced it in 2008 and again in 2009. President Bush's request for the second half of the bailout money in early 2009 triggered consideration of my bill. That's when things got interesting.

The week before we considered my bill to stop the bailout, we also considered another bill called the TARP Reform and Accountability Act. Nice name, but what it essentially did was give a tacit thumbs-up on the second half of the bailout and even more wasteful bailouts with taxpayer money of failed automakers. It had some provisions to increase oversight and transparency. But ultimately, it would have expanded the use of taxpayer money for bailouts.

As I look back over the debates from those two days in January and in the ensuing weeks, I found some comments to be rather surprising, especially in light of the news last week about the outrageous bonuses awarded at AIG, a company which received another \$30 billion this month in government bailout cash. The comments and questions from my friends on the other side of the aisle focused on their unwavering trust in the Obama administration's intentions to stop these sorts of executive bonus payments at companies that received bailout money.

During the debate on the anti-bailout measure, my colleague, Chairman FRANK said, "We saw bankers saying I got the money, it's none of your business what we do with it. We saw bonuses given that shouldn't be given. I am confident that the Obama administration has learned from that." In his defense, I know that the chairman of the Financial Services Committee does not support these AIG millionaire bonuses, but we can draw a useful lesson from his comments. It's a simple lesson: the Obama administration pledging that there will be no more excessive bonuses does not make it so.

While I regret that my colleague was so gravely mistaken about the Obama administration, I do think that it is important to point out how quickly the new administration's actions have fallen short of its inflated rhetoric.

Let's take a look at some of the other comments made over the past couple of months. Last month, the gentleman from Illinois (Mr. JACKSON) trumpeted President Obama's promise to limit executive compensation at bailed out companies. He said, "Today, the President will limit executive compensation for executives of companies that take advantage of taxpayer bailout funds. This is the right thing to do." And in January, Mr. POMEROY of North Dakota defended his vote to give the Obama administration the \$350 billion in bailout cash, "The written pledges of the Obama administration to operate TARP with firm conditions, greater oversight and transparent accountability abide with the conditions passed by the House."

So what exactly did the Obama administration pledge to do? It pledged to ensure that bailed out financial institutions did not go overboard with excessive executive compensation bo-

nuses. Specifically, his National Economic Adviser wrote a letter to Congress on January 12 that stated: "The President-elect is committed to using the full arsenal of tools available to us to get credit flowing again to families and businesses. He will ask his Department of Treasury to put in place strict and sensible conditions on CEO compensation and dividend payments until taxpayers get their money back." He continued: "We will ensure that resources are directed to increasing lending and preventing new financial crises and not to enriching shareholders or executives. Those receiving exceptional assistance will be subject to tough but sensible conditions that limit executive compensation until taxpayer money is paid back."

One of my colleagues, Mr. MCGOVERN, was very encouraged by this letter from the incoming administration. I will read what he said in response to the administration's pledge: "And I should say that the statement by the Obama administration, the statement by Larry Summers, is all very encouraging. It demonstrates a real appreciation of what average people are going through."

I will leave it to the American people to judge how well the Obama administration has stood by its pledge to "limit executive compensation until taxpayer money is paid back," and I will leave it to the American people to judge how well this administration appreciates what average people are going through—unless, of course, you consider people who get million-dollar bonuses for running a massive company into the grounds to be average.

SAFE MARKETS DEVELOPMENT ACT

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. DOGGETT) for 5 minutes.

Mr. DOGGETT. Madam Speaker, with all of the recent talk about unearned bonuses, I want to talk about a bonus that we Americans can give to ourselves and the world. We can do that by approving President Obama's plan to "make clean, renewable energy the profitable kind of energy." Because we can build a clean energy economy by reducing greenhouse gas emissions—carbon pollution—through a market-based system, as the President has proposed, I am today, together with a number of my colleagues, introducing the Safe Markets Development Act.

This legislation will help to ensure that any future market for carbon allowances is not abused by price speculators or undermined by excessive price volatility. This is the first cap-and-trade measure to be filed in this Congress, and it is unique both in responding to concerns about market manipulation, and in its broad support bringing new members and a broader array

of interests behind this new idea about how to resolve one aspect of our transition to a cleaner world.

The Safe Markets bill offers an approach that will provide a narrow auction and trading environment for the start-up phase for a cap-and-trade or cap-and-invest system. Experts on commodities markets tell us that price volatility is not unusual with new markets. And certainly legitimate concern recently over speculation in fossil fuel and financial markets must not stand in our way of new clean energy policy.

How does this bill achieve science-based emission reductions? It creates an independent board with strict conflict-of-interest provisions and post-employment restrictions to determine the annual prices per ton of carbon necessary to meet science-based annual emission targets from 2012 to 2020. The Treasury Department would conduct quarterly allowance auctions designed to maintain this price. Under the legislation, the board would conduct an annual review of its success in meeting emission goals in order to adjust for gas prices to ensure compliance with the next year's targets.

Just as a child removes training wheels after becoming comfortable cycling, or tries the shallow end of the pool before moving into the deep end, so too we can gain experience over these first eight years to move eventually to a more traditional cap-and-trade system.

□ 1245

Like President Obama, I believe that the best approach is one that relies upon a 100 percent auction—that does not give away to polluters "pollute free" cards. Budget Director Dr. Peter Orszag has correctly noted that giving away allowances would represent the largest corporate welfare program that has ever been enacted in the history of the United States. As noted in another recent statement by over 600 economists calling for auctioning all allowances, free allocations do little or nothing to protect families and businesses from higher energy costs. The significant shortcomings of the European cap-and-trade system are largely linked to the pursuit of this politically easy but very ineffective course. An abundance of free allocations just leads to more price speculation and would hinder the ability of the system to properly reduce emissions.

The bill that I am introducing today represents the type of legislation that I will continue offering, building block by building block, to help us achieve a comprehensive solution. Next will be a plan that I will advance to ensure the competitiveness of American importers and exporters in the new energy economy. I am pleased this legislation enjoys support from a number of members of the Blue Dog coalition, such as Representative JIM COOPER and Representative HEATH SHULER, as well as

members of other caucuses here in Congress and a broader array of business interests such as the National Venture Capital Association.

Last week, Speaker PELOSI brought together key House committee chairs to sign a statement that they are uniting behind one bill to achieve our shared goal with President Obama of a more accessible, affordable health care system for every American. I believe we need to do the same thing to resolve global warming. Today's bill represents one new element of that broader legislation that must be developed through cooperation and collaboration of the House Energy and Commerce and Ways and Means Committees as well as many other Members.

I believe that a role exists for every Member of this Congress who is willing to work in good faith based on good science to end obstruction and reduce the real threat of global warming. The more Members we bring together, the more successful we will be in enacting the solution that President Obama has offered and move us to a clean energy economy.

THE ECONOMIC CRISIS—WHAT LIES BENEATH

The SPEAKER pro tempore. The Chair recognizes the gentleman from Florida (Mr. STEARNS) for 5 minutes.

Mr. STEARNS. Madam Speaker, our Federal Government has taken drastic measures in the past 6 months, mainly in the form of taxpayer-funded bailouts, in an attempt to put a stop to the complete deterioration of our financial system. Trillions have been spent and companies such as AIG have been deemed "too big to fail." But the Wall Street bailouts have proven to not be a sustainable cure to our financial ills. These bailouts constitute an assault on American capitalism and have introduced a large degree of financial hazard into our economic system.

The nationalization of private assets is inherently un-American. With all the money we have spent thus far, we should have been able to stem much of the economic collapse—but we haven't. We have failed to grasp the root of the problem—the unregulated, out-of-control derivatives market.

The recent disclosure that AIG will pay out \$165 million in bonuses to employees of their Financial Products division—the very unit that made bad bets on toxic mortgages and credit default swaps—is wrong. The Federal Government owns 80 percent of AIG and the Treasury and the Federal Reserve has infused more than \$170 billion in taxpayer bailout money trying to rescue this company. As these recent events demonstrate, the administration's plan of recovery by bailout is not working. Bailout after bailout is not a strategy. It's a formula for waste, fraud and abuse of taxpayer funds.

The Federal Government has spent an exorbitant amount of money trying to rescue the economy but it appears to have had little effect. Beyond the \$700 billion for TARP funds, the government has made commitments of more than \$9 trillion and has spent \$2.2 trillion. And there is very little oversight of this money as the case of the AIG bonuses makes clear. This begs the question: What are we getting for our money?

Clearly the real cause of the financial crisis is more than just the bursting of the housing bubble, since over 90 percent of all homeowners are current on their mortgages. A closer look at the root causes of the crisis reveals flawed incentive structures and an inadequate regulatory system that allowed the derivatives market to spiral out of control.

Specifically, the credit default swap market is completely unregulated and it helped spread the risks generated by subprime mortgages to investors and financial institutions around the world. In the U.S. alone, the Office of the Comptroller of the Currency reported the amount of outstanding credit derivatives from reporting banks to be \$16.4 trillion just a year ago. Among the G10 countries—the United States, the U.K., Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden plus Switzerland—the amount of outstanding credit default swaps is about \$57 trillion.

Many have called credit default swaps and the larger derivatives market the true culprit in the global financial crisis. Derivatives trading also helped to contribute to AIG's near collapse and it seems as if no amount of money can save AIG at the moment, yet the company has been deemed "too big to fail." However, no one has defined what "too big to fail" means in the real world.

Beyond just credit default swaps, the Bank for International Settlements—the world's oldest international financial organization headquartered in Basel, Switzerland—reports the total outstanding amount of over-the-counter derivatives to be \$684 trillion. This large amount of outstanding derivatives demonstrates the world financial system could be in a huge amount of additional trouble during this worldwide economic crisis. Since over-the-counter derivatives are negotiated between parties and not on an exchange, the risk of the contract falls on both of the parties. So if one of the parties is not able to meet the terms of the contract, the first party stands to lose as well. With \$684 trillion of outstanding money, we are playing with very hot fire.

As these statistics show, this is a problem not just in the United States but around the globe.

So what is the solution? Let's break up these firms and sell the pieces off or

separate the toxic loans and let the free market correct the economy as it was designed. The viable portion of these massive financial institutions can still be salvaged. However, we need to examine their asset sheets to determine how deeply involved each company is in the derivatives market.

There are better options than endless bailouts and the nationalization of private assets in this country. We must put an end to throwing trillions at the wrong source of the problem.

WALL STREET BAILOUTS

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. SHERMAN) for 5 minutes.

Mr. SHERMAN. I thank the gentleman from Florida for his remarks, where he refers to AIG as "too big to fail." The latest from Wall Street is, well, it's not so much too big to fail, but too interconnected with the rest of financial institutions. "Too interconnected to fail" is the new line. The fact is this: AIG was too well-connected to fail. AIG should have been in receivership, but that would have disadvantaged the richest, most powerful interests in the world.

Now let us look at the new public-private partnership plan being put forward by the Treasury. It involves a thousand times as much money as AIG executives received in bonuses and it would make the American people a thousand times as angry, except for the fact that it is so technical that the American people may not fully understand it.

Here is how it's supposed to work. The taxpayer puts up 94 percent of the money. The taxpayer takes 94 percent of the risk that the assets purchased will end up being worth nothing. Ninety-four percent. And the taxpayer gets 50 percent of the profits. The private Wall Street interests put up 6 percent of the money, maybe less, and they get 50 percent of the profits. What this will mean is that this new entity that's created, the public-private partnership, will go out and buy these extremely difficult-to-value assets. They're going to overpay for some. They're going to underpay for others. They're going to make money on some. They're going to lose money on others. When they make money, half the profit goes to Wall Street. When they lose money, 94 percent of the loss goes to the taxpayer.

These entities are going to be 94 percent government-owned and financed. At least we're putting up 94 percent of the money. AIG was 80 percent government-owned and when they paid a million-dollar bonus, the country was angry. Well, what about an entity that's 94 percent government-owned? You can be sure this entity will be paying out million-dollar salaries, million-dollar bonuses. I wonder whether the American people will focus on it.

What we have had is a circumstance where so far this government has transferred hundreds of billions of dollars of wealth to Wall Street. But all that money has gone to the big, well-known, publicly traded companies on Wall Street. Well, there is another important tribe on Wall Street, and that is the hedge funds. Now with this new program, we can transfer hundreds of billions of dollars to the right side of Wall Street and hundreds of billions of dollars of taxpayer equity, taking hundreds of billions of dollars of taxpayer risk, for the benefit of the left side of Wall Street. Apparently some people think that's what fairness is—massive wealth transfer to both sides of Wall Street.

Now last week we passed a tax bill. That bill has been criticized by Wall Street and the administration. But they've ignored the statements of Lawrence Tribe, the foremost expert on constitutional law, the professor at Harvard Law School, who outlines step by step why that law was constitutional. Now I had problems with the law because it had loopholes in it. It will allow the Merrill Lynch executives to keep their bonuses. It allows million-dollar-a-month salaries. And I will introduce tomorrow what I think is a much more comprehensive effort to say that those who work for bailed-out firms shouldn't get more than a half million dollars a year, that whatever they get in excess to that they ought to return to their companies, and I hope we will have some cosponsors for that bill. But it is very plain from Lawrence Tribe's analysis that the approach we took in this House yesterday is fully constitutional and that the flimsy constitutional arguments that are being made against it hold water only because they're repeated over and over and over again in somber tones by Wall Street and the establishment.

Let me give you another example. Congress, the Republican Congress in 1996, passed a 200 percent excise tax which is now law, and that excise tax falls on excess bonuses and excess salaries to executives, and it was retroactive, 6 months retroactive from when it was passed and it took effect 6 months earlier. Why does nobody know about this code section with a 200 percent tax on excess compensation? Because it didn't affect Wall Street, so it was not controversial. It affected those who received excess compensation from charitable organizations.

I look forward to working with my colleagues to pass reasonable limits on executive compensation and to make sure that the taxpayer gets more than half the benefits when we put up 94 percent of the equity.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair

declares the House in recess until 2 p.m. today.

Accordingly (at 12 o'clock and 58 minutes p.m.), the House stood in recess until 2 p.m.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. LARSEN of Washington) at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God, contrary lines run parallel; they may never meet. Holding their own, they forever respect equal distance to each other. Contradictory lines are sure to clash because they are determined only by self-direction. A straight line demands everyone to take a side. A curved line, however—however subtle it is—in the end will form a circle and find oneself.

Lord, help us not to be rigid in our own sense of direction or rash in drawing lines for others. Draw us closer to Your presence, Lord, so we may respond to Your influence upon us; and allow us to have Your way with us, both now and forever.

Amen.

THE JOURNAL

The SPEAKER pro tempore (Mr. LARSEN of Washington). The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Massachusetts (Mr. LYNCH) come forward and lead the House in the Pledge of Allegiance.

Mr. LYNCH led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

LEARNING A LESSON FROM THE AMERICAN PEOPLE

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, according to a recent Rasmussen poll, two-thirds of the American people have more confidence in their own judgment than they do in Congress. I couldn't agree more, which

is why I and many of my colleagues in Congress believe we can learn from the American people.

We can tighten our budgets when times are tough; we can cut out the things we don't need; we can make some difficult choices rather than mortgaging the future of the next generation and threatening Social Security. We should respect the fact that Americans know better how to spend their own money.

Congress doesn't need an expert economist to tell us how to be fiscally responsible. We have millions of American families, small businesses, and homebuilders all across this Nation who are fine examples of leadership and resolve. We should be promoting small businesses to create jobs, not tax their success.

In conclusion, God bless our troops, and we will never forget September the 11th.

BUDGET CALAMITY

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, the proposed budget is going to double the national debt. What that means to Joe Sixpack is every American will be responsible for \$70,000 apiece to pay off this massive debt incurred by money-grabbing government. Does anyone know there's a recession going on?

Government cannot spend America into prosperity with somebody else's money. We shouldn't even be borrowing more money during these hard times. The Treasury Secretary says part of the reason government got into this economic mess was government borrowing. Also, government has plans to raise taxes on working citizens to pay for all these fancy projects in the budget.

Americans already pay too much in taxes during this recession. Americans don't want more taxes. Americans don't want to incur more debt. Americans don't want government to spend money it does not have.

Government is taking America's money to reward failure, and sending money to special interest groups. Meanwhile, Americans are losing their jobs. Americans are tired, weary, and mad about government "ripoffs, pay-offs, and layoffs."

And that's just the way it is.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Persons in the gallery will refrain from applause.

HONORING DAYNA HILTON FOR HER NATIONAL RECOGNITION

(Mr. BOOZMAN asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. BOOZMAN. My constituent, Dayna Hilton, was recently named the 2009 Educator of the Year by the National Fire Protection Association. She has diligently been involved in fire service for 9 years. She currently serves as the Public Fire and Life Safety Educator for Johnson County's Rural Fire Department in Clarksville, Arkansas, and is an instructor for both the Arkansas Fire Academy and the National Fire Academy.

Dayna encouraged the Rural Fire Department in Johnson County to make fire prevention part of its mission. Now it has a Fire Prevention Division and, thanks to Dayna's efforts, has received almost \$150,000 in grants and awards for fire prevention efforts.

In addition to serving the State of Arkansas, Dayna has published numerous articles, appeared on several television networks, and recorded educational videos to promote fire and safety on the national level. Dayna owns Firehouse Dog Publishing, and is the published author of Sparkles the Fire Safety Dog.

I ask my colleagues to join me in congratulating Dayna.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

Hon. NANCY PELOSI,
The Speaker, House of Representatives,
Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on March 23, 2009, at 9:40 a.m.:

Appointments:
Congressional Award Board.
Health Information Technology Policy Committee.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

COMMUNICATION FROM DEPUTY STAFF DIRECTOR, COMMITTEE ON ARMED SERVICES

The SPEAKER pro tempore laid before the House the following communication from Paul Arcangeli, Deputy Staff Director, Committee on Armed Services:

COMMITTEE ON ARMED SERVICES,
HOUSE OF REPRESENTATIVES,
Washington, DC, March 19, 2009.

Hon. NANCY PELOSI,
Speaker, House of Representatives, Washington,
DC.

DEAR MADAM SPEAKER: This is to notify you formally, pursuant to Rule VIII of the Rules of the House of Representatives, that I have been served with a subpoena, issued in

the U.S. District Court for the Eastern District of Virginia, for testimony in a criminal case.

After consultation with the Office of General Counsel, I have determined that compliance with the subpoena is consistent with the precedents and privileges of the House.

Sincerely,

PAUL ARCANGELI,
Deputy Staff Director.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

NATIONAL BRAIN INJURY AWARENESS MONTH

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 178) expressing the need for enhanced public awareness of traumatic brain injury and support for the designation of a National Brain Injury Awareness Month.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 178

Whereas traumatic brain injury is a leading cause of death and disability among children and young adults in the United States;

Whereas at least 1.4 million Americans sustain a traumatic brain injury each year;

Whereas each year, more than 125,000 of such Americans sustain permanent life-long disabilities from a traumatic brain injury, resulting in a life-altering experience that can include the most serious physical, cognitive, and emotional impairments;

Whereas every 21 seconds, one person in the United States sustains a traumatic brain injury;

Whereas at least 3.17 million Americans currently live with permanent disabilities resulting from a traumatic brain injury;

Whereas traumatic brain injuries may have a life-altering impact on both Americans living with resultant disabilities and their families;

Whereas concussions are serious injuries to the brain and multiple concussions can lead to lifelong disability and death;

Whereas most cases of traumatic brain injury are preventable;

Whereas traumatic brain injuries cost the nation \$60 billion annually;

Whereas the lack of public awareness is so vast that traumatic brain injury is known in the disability community as the Nation's "silent epidemic";

Whereas traumatic brain injury is the signature wound of the global war on terrorism as a result of roadside bombs and blasts;

Whereas the military personnel who have served in the Armed Forces of the United States in such war and who return to the United States with traumatic brain injuries will require additional Federal, State, and local resources;

Whereas there is a need for enhanced public awareness of traumatic brain injury;

Whereas the designation of a National Brain Injury Awareness Month will work toward enhancing public awareness of traumatic brain injury; and

Whereas the Brain Injury Association of America has recognized March as Brain Injury Awareness Month: Now, therefore, be it Resolved, That House of Representatives—

(1) supports the designation of an appropriate month as National Brain Injury Awareness Month; and

(2) urges the President to issue a proclamation calling on the people of the United States, Federal departments and agencies, States, localities, organizations, and media to annually observe a National Brain Injury Awareness Month with appropriate ceremonies and activities.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Missouri (Mr. AKIN) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. Mr. Speaker, I now yield myself such time as I may consume.

Mr. Speaker, as a Member of the House Committee on Oversight and Government Reform, I am joined by my colleagues in the consideration of House Resolution 178, which expresses support for enhanced public awareness of traumatic brain injury and for designation of National Brain Injury Awareness Month which, for years, has been commemorated annually during the month of March.

House Resolution 178 was introduced by the great Representative BILL PASCRELL of New Jersey, on February 13, 2009, and has the support and cosponsorship of over 90 Members of Congress. The reason for such generous congressional support is the fact that traumatic brain injury impacts nearly 1.5 million Americans a year.

The measure was considered by the Oversight panel on March 10, 2009, and was passed by voice vote with unanimous support from myself and my fellow committee members.

Mr. Speaker, each and every March the National Brain Injury Association of America and its State affiliates come together with other organizations, businesses, schools, and of course those who have survived or sustained traumatic brain injury and their families, to promote greater awareness and understanding of brain injury.

Mr. Speaker, before consideration of this resolution, how many of us were aware that every 21 seconds an individual in our country sustains a traumatic brain injury, or the fact that

among our servicemen and women engaged in the Global War on Terrorism, brain injury has been identified as a "signature wound," usually resulting from roadside bombs and explosive devices.

Often described as a somewhat "silent epidemic," brain injury, whether as a mild concussion or severe enough to result in comatose conditions, certainly deserves the attention of the Congress and the resources and research of this country.

Mr. Speaker, in closing, I'd like to again thank my colleague from New Jersey, Congressman BILL PASCRELL, for working to make sure we recognize the need for greater public awareness of brain injury and for highlighting the National Brain Injury Awareness Month which, this year, I should add, will focus specifically on brain injury in sports and youth recreational activities.

House Resolution 178 is certainly worthy of the support of this body, and I hope my colleagues will vote accordingly.

I reserve the balance of my time.

Mr. AKIN. I yield such time as he may consume to a highly respected and distinguished colleague, the gentleman from Pennsylvania (Mr. PLATTS).

Mr. PLATTS. I appreciate the distinguished gentleman from Missouri yielding to me. I am honored to join with the gentleman from Massachusetts (Mr. LYNCH), as well as my good friend and colleague, the gentleman from New Jersey (Mr. PASCRELL), in speaking in favor of this resolution to express the important need for increased public awareness of traumatic brain injury, and to designate March as National Traumatic Brain Injury Awareness Month.

For the past 4 years, I have been honored to cochair the Congressional Traumatic Brain Injury Task Force with my good friend, Representative PASCRELL from New Jersey. While it's been a pleasure to work with BILL for the last 4 years, I especially want to highlight his great leadership long before I joined the task force—for many years—leading the cause and helping to raise awareness about this important issue.

Together, we have worked to increase awareness of TBI, which many people do not realize is the leading cause of death and disability among children and young adults in the United States.

Mr. Speaker, this year alone, over 1.4 million people will sustain a traumatic brain injury. Sadly, at least 80,000 of these individuals will remain permanently disabled from the trauma.

Falls, motor vehicle crashes, sports injuries, and violence are among the major causes of TBI, leaving every individual susceptible. Additionally, TBIs can manifest themselves in various ways, from small behavioral changes to more tragic injuries, includ-

ing complete physical disability and death.

Brain injuries affect the whole family emotionally and financially, often resulting in huge medical and rehabilitation expenses. The recent tragic death of Natasha Richardson amplifies the importance of bringing awareness to this critical issue. Because Ms. Richardson appeared to be unaffected immediately after a skiing accident in which she hit her head, she did not receive medical treatment. Unfortunately, only hours later, after experiencing a severe headache, she was admitted to the hospital, lapsed into a coma and, tragically, died. Tragedies such as these happen every day and can often be prevented.

TBI has also been named the "signature wound" of the war in Iraq, with approximately more than 20 percent of our deployed men and women returning with this injury. Thanks to the state-of-the-art body armor with which our men and women overseas are equipped, they are able to survive violent attacks while still receiving a blunt force to the head.

Fortunately, in recent years, Congress and the administration have worked together to provide increased funding for military TBI screening and treatment programs. However, more still needs to be done.

Mr. Speaker, because all of our fellow citizens have families, friends, and neighbors who could fall victim to TBI at any time, I strongly urge support from all of our colleagues for this resolution here today, and urge a "yes" vote.

□ 1415

Mr. LYNCH. Mr. Speaker, at this time I take great pleasure in recognizing the gentleman from New Jersey (Mr. PASCRELL) for 5 minutes.

Mr. PASCRELL. Mr. Speaker, I thank my good friend from Massachusetts, and my good friend TODD PLATTS who is the co-chair of the Traumatic Brain Injury Task Force.

Mr. Speaker, I learned about this injury about 10 years ago when I was approached by one of my constituents, Dennis Benigno, whose son was struck by a car, leaving him with severe cognitive and physical disabilities.

In response, former Congressman Jim Greenwood from Pennsylvania and I formed the Congressional Brain Injury Task Force to further education and awareness of brain injuries and support funding for brain injury research. There wasn't too much at that time. In fact, most of the Members of Congress didn't know about the seriousness of the injury and how 1.5 million Americans are affected every year.

I think people often wonder why we spend so much time talking about brain injury. Unfortunately, it took the war to crystallize what this entire issue is all about.

Someone in America suffers a traumatic brain injury every 21 seconds. At least 1.5 million Americans sustain this injury, as I mentioned. That is more than breast cancer, HIV, multiple sclerosis, and spinal cord injuries combined. Of those, 50,000 will die every year. An estimated 3.22 million Americans are currently living with a long-term disability because of TBI. As many as 20 percent of the 1.8 million deployed troops in Afghanistan and Iraq, that is 360,000 soldiers, have sustained TBIs in Iraq and Afghanistan. That is an astonishing figure.

TBI is one of the rare afflictions that is widespread among both the civilian population and among our soldiers. There has been a weakness in the Defense health care system, and many injured soldiers weren't receiving the level of care that they deserved. The military has made great strides in the last several years to better prevent, identify, and treat brain injuries among our brave men and women in uniform, and Congress has been a willing partner in the effort to ensure sustained progress on this front.

Mr. Speaker and my good friend from Massachusetts, just today on the USA Today front-page review: GI's at Risk By Fitness Practices. Many of the soldiers are not fit to go to the battlefield. Many of our football players in colleges and in high schools throughout America are not fit to go on to the field. If they are not screened, we are doing an injustice to the cause.

Accordingly, the Brain Injury Task Force brought together experts from all over the world at St. Joseph's Regional Medical Center in Paterson, New Jersey, in October for the International Conference on Behavioral Health and Traumatic Brain Injury. These experts generated recommendations that were presented to the Congress 2 weeks ago.

We cannot forget that, for these Wounded Warriors and their families, the war will not end when the last shots are fired. Despite the staggering statistics and heart-shattering stories that come to us from Iraq and Afghanistan, public awareness continues to lag and TBI remains a silent epidemic plaguing our Nation.

Traumatic brain injury can strike anyone and leave devastating results. We probably all know someone or know the story of someone whose life was irreversibly changed because of a brain injury. Just last week we saw a flurry of media accounts of the tragic death of actress Natasha Richardson, who sustained a brain injury while skiing. If that tragedy taught us anything, it is that, as far as science has come, we still know relatively little about this pervasive injury.

The Congressional Brain Injury Task Force continues to seek increased funding for the programs authorized by the Traumatic Brain Injury Act, after an

unprecedented amount of congressional support in these recent years.

Designating a month to recognize the prevalence and the seriousness of brain injuries among both civilians and military community will bring much needed public attention to this frequently forgotten malady.

And I might add, Mr. Speaker, that this Wednesday throughout the day, from 10 in the morning until 2 in the afternoon, in the Rayburn building we will have a fair with twice as many displays, close to 50 displays; and then we will have the leading folks from the military and civilian talk about it in the Cannon Building from 3:30 to 4:30, and then in the evening a reception. We are bringing the military and civilians together in order to help our soldiers and help Americans.

This resolution will honor the families who, day in and day out, care for and love their family members who have afflictions, and do so without fanfare, without applause.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LYNCH. I grant the gentleman an additional 1 minute.

Mr. PASCRELL. They do it because they love their sons or daughters or brothers or sisters each day of every month. I invite all Members and the staff to join Wednesday in the Rayburn foyer to meet some of the folks as we recognize Brain Injury Awareness Month here on Capitol Hill. We are hosting a fair with hundreds of individuals from the brain injury community.

Let's pass this resolution to confirm congressional commitment to promoting awareness, education, prevention, and research by reminding all Americans of those individuals and families who suffer from a brain injury.

We have come a long way, Mr. Speaker, in ten years. We could have fit the amount of people in our caucus in a phone booth. That has all changed. We are now close to 125, 130 Members from both sides of the aisle. We are really seeing results, particularly in the last 3 or 4 years.

I want to thank the gentleman from Massachusetts, and I want to thank my friend from Pennsylvania. Of course, this is only the beginning of a fight where we will respond, and our men and women who put their lives on the line will know that we really mean what we say, that we love them and we will do everything we can for them.

Mr. AKIN. Mr. Speaker, I yield myself such time as I may consume.

Last week, the devastation of traumatic brain injury was once again brought to our attention with the death of actress Natasha Richardson. This tragedy was but one type of traumatic brain injury that brings about death or physical debilitation to over 1.4 million people each year.

While the leading cause of traumatic brain injury is the result of falls, they

are followed by automobile accidents, being struck by or against a hard surface, and assault. Men are at the greatest risk of brain injury, and African Americans have the highest death rate from this injury. All of these cold, hard facts do not tell the story of shattered lives of the individual, if they survive, and untold heartache and lifelong impact on loved ones and friends of the injured. In America, there are 125,000 citizens living with life-long disabilities from traumatic brain injuries.

These head injuries come about in many ways, not the least of which are the injuries sustained by our soldiers fighting in Afghanistan and Iraq. The cost in lives and the ongoing suffering is tragic for these brave men and women. Their injuries will continue to require costly medical assistance from State, Federal, and local agencies.

Generally, a concussion is a type of traumatic brain injury that is caused by an injury to the head that many people underestimate. It is critical to recovery that any type of blow to the head, whether it is a child's fall from a swing to a teen sport or automobile accident, be taken seriously. Often, symptoms don't show up immediately, so keeping a close watch on the injured person is imperative so that medical attention can be sought, if needed.

We are grateful for organizations such as the Brain Injury Association of America who are invaluable in generating understanding and awareness of brain injury. We join with all who wish to broadcast a message of hope and action of this often underestimated condition during March, which has been designated as the National Brain Injury Awareness Month.

I yield back the balance of my time. Mr. LYNCH. Mr. Speaker, in closing, I just want to point out the relentless work done on this issue of traumatic brain injury by Mr. PASCRELL from New Jersey, who is the chair, and also by Mr. TODD PLATTS from Pennsylvania, who is the co-chair. I have accompanied both of those gentlemen, I have seen their work in Iraq and Afghanistan. They have seen the situation in Balad, in the field hospitals in Iraq, as well as the military hospital at Landstuhl, Germany, the military hospital there, as well as going back to Walter Reed Army Hospital. They know full well the extent of this. They are our most outspoken advocates on behalf of families whose loved ones have been affected with TBI, and we are all indebted to their hard work.

Mr. Speaker, I ask all of my colleagues to support the measure of Mr. PASCRELL of New Jersey and Mr. PLATTS of Pennsylvania and support House Resolution 178.

Mrs. MILLER of Michigan. Mr. Speaker, I rise today in strong support of H. Res. 178—expressing the need for enhanced public awareness of traumatic brain injury and support for the designation of a National Brain Injury Awareness Month.

It is appropriate that we debate this bill today, since March is widely recognized as Brain Injury Awareness Month. Now, more than ever, we need to heighten the public's awareness to a growing issue—Traumatic Brain Injury.

Traumatic Brain Injury has been called the signature wound of the War on Terror, as thousands of American servicemen and women have been diagnosed with TBI and untold more have yet to be diagnosed.

An estimated 360,000 soldiers have sustained Traumatic Brain Injuries in Iraq and Afghanistan. Furthermore, Military health screening programs have shown that as many as 20% of returning troops have suffered at least a mild concussion.

The use of Improvised Explosive devices are the primary cause of this silent wound. Often, symptoms don't manifest themselves for some time. Many of the symptoms of Traumatic Brain Injury are similar to Post Traumatic Stress Syndrome, further hindering a proper diagnosis.

The dramatic increase in Traumatic Brain Injuries among military veterans has created huge stresses on the VA system's capability to handle. While there was no way that the VA could have predicted the demand for Traumatic Brain Injuries treatment and rehabilitation before our troops were deployed in response to the attacks on our country, the fact remains that we need to provide better services to our veterans, and we need to be able to provide those services in their own communities rather than requiring them to travel for treatment.

The Veterans Administration is already working with some private and nonprofit providers of Traumatic Brain Injury treatment and rehabilitation, but it can and should identify more opportunities to allow veterans to receive appropriate, high-quality care from providers in their own communities.

And that is why I have joined with my colleagues here in Congress and joined the Congressional Brain Injury Task Force.

Our goal is to further educate and raise awareness of brain injury and support funding for basic and applied research on brain injury rehabilitation. It is important that we give brain injury the attention it is due to help us move beyond the "silent epidemic" and towards real treatments, supports, and eventually cures.

The Congressional Brain Injury Task Force has worked to ensure that individuals have access to reliable information, effective prevention strategies, and, if injured, comprehensive and appropriate treatments.

We owe our nation's veterans a debt we cannot fully repay, but we must make sure that every soldier, sailor, airman or Marine exposed to an Improvised Explosive Device is properly screened and treated for Traumatic Brain Injury—we owe them no less.

I support the recognition of March as National Brain Injury Awareness Month and I urge my colleagues to support the passage of this bill.

Mr. LYNCH. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend

the rules and agree to the resolution, H. Res. 178.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

STAN LUNDINE POST OFFICE BUILDING

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 918) to designate the facility of the United States Postal Service located at 300 East 3rd Street in Jamestown, New York, as the "Stan Lundine Post Office Building".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 918

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. STAN LUNDINE POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 300 East 3rd Street in Jamestown, New York, shall be known and designated as the "Stan Lundine Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Stan Lundine Post Office Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Missouri (Mr. AKIN) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. I yield myself such time as I may consume.

Mr. Speaker, in my role as chair of the House Subcommittee with oversight authority of the United States Postal Service, I am pleased to stand before the body in consideration of H.R. 918, which is the measure before us that is designed to rename the United States postal facility located at 300 East Third Street in Jamestown, New York, as the Stan Lundine Post Office Building.

This legislation was introduced by my friend BRIAN HIGGINS, the gentleman from New York, on February 9, 2009, and it was considered and reported out of the Oversight Committee by voice vote on March 10, 2009. In addition, H.R. 918 enjoys the support of the entire sitting New York House delegation.

A native of the city of Jamestown, Stanley Nelson Lundine has devoted over four decades of his life to public service in New York State. Born in Jamestown on February 4, 1939, Mr. Lundine graduated from Jamestown High School in 1957. He received his B.A. from Duke University in 1961, and in 1964 received his juris doctorate from New York University School of Law. Only 5 years after gaining admission to the New York State bar, Mr. Lundine was elected to his first term as mayor of Jamestown, having previously served as the city's associate corporate counsel and chairman of the City Planning Commission.

As mayor of his beloved hometown until 1976, Mr. Lundine dedicated his efforts to addressing long-standing labor strife in the city. To this end, he developed a unique labor-management strategy, and subsequently garnered Jamestown national attention as a widely successful labor-management partnership model, a model that we could dearly use today.

In 1976, Mr. Lundine was elected to represent New York State's 39th Congressional District, becoming the first Democrat to hold that seat since 1874. While representing New York's southern tier district in Congress until 1987, Mr. Lundine continued his commitment to labor-management cooperation through the development of legislation to establish labor-management councils and employee stock ownership plans. Mr. Lundine also remained dedicated to economic development issues, serving as a subcommittee chairman of the House Banking Committee.

In 1986, Mr. Lundine was elected to statewide office as lieutenant governor of New York, under Governor Mario Cuomo, serving until 1994.

□ 1430

Mr. Lundine worked to further develop the State's economy and increased the availability of job training programs and also strengthened New York's housing and technology sectors.

Currently Stan Lundine serves the citizens of New York State through his continued public service on a wide variety of nonprofit, private sector efforts. Notably, in April of 2007, Mr. Lundine was appointed as chair of the State's newly created Commission on Local Government Efficiency and Competitiveness. The panel is tasked with promoting local government collaboration and efficiency in the name of saving taxpayer dollars.

Mr. Speaker, let us honor Stan Lundine's decades of public service through the passage of this legislation to designate his hometown post office in his name. I urge my colleagues to join with me and Congressman BRIAN HIGGINS, who is the chief sponsor of this legislation. And I ask my colleagues to join us in supporting H.R. 918.

I reserve the balance of our time.

Mr. AKIN. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 918, legislation to designate the post office in Jamestown, New York, as the "Stan Lundine Post Office Building." Stan Lundine is one of Jamestown, New York's most steadfast public servants. He served as mayor of Jamestown, as a United States Representative and as Lieutenant Governor of New York. A Jamestown native, Stan Lundine was elected mayor of his hometown in 1970, just 6 years after graduating from New York University School of Law. Realizing his success as a mayor, the people of New York's 39th District elected Lundine to the House of Representatives in 1976. In his five terms as congressman from New York, Lundine continued to focus on labor/management issues. In the Congress, he focused on finance and banking servicing as subcommittee chairman of the House Banking Committee.

After his House career, he was elected Lieutenant Governor of New York under Mario Cuomo and served New York working on housing, technology, and economic development initiatives, as well as training and programming policies. Putting his labor management skills to use, he now serves as a director of the National Forge Company, U.S. Investment Services, and John Ullman Associates. He also serves as executive director of the Chautauqua County Health Network, a group of four hospitals and their physicians dedicated to improving the local health care delivery system in his community.

In recognition of Congressman Stan Lundine's contributions to the country, the State of New York and the city of Jamestown, let us now commemorate his 25 years of public service by naming the post office in his hometown of Jamestown, New York, as the "Stan Lundine Post Office Building."

Mr. Speaker, I yield back the balance of my time.

Mr. LYNCH. Mr. Speaker, in closing I want to thank my colleague for his generous remarks. And I do want to give great credit to Congressman BRIAN HIGGINS from the Buffalo area. He is the central sponsor of this measure to name this post office after Stan Lundine, who is very deserving of this honor.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and pass the bill, H.R. 918.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. LYNCH. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the

Chair's prior announcement, further proceedings on this motion will be postponed.

LANCE CORPORAL DREW W. WEAVER POST OFFICE BUILDING

Mr. LYNCH. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1218) to designate the facility of the United States Postal Service located at 112 South 5th Street in Saint Charles, Missouri, as the "Lance Corporal Drew W. Weaver Post Office Building".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1218

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LANCE CORPORAL DREW W. WEAVER POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 112 South 5th Street in Saint Charles, Missouri, shall be known and designated as the "Lance Corporal Drew W. Weaver Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Lance Corporal Drew W. Weaver Post Office Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. LYNCH) and the gentleman from Missouri (Mr. AKIN) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

GENERAL LEAVE

Mr. LYNCH. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. LYNCH. Mr. Speaker, I present for consideration H.R. 1218, a bill to designate the United States postal facility located at 112 South 5th Street in St. Charles, Missouri, as the "Lance Corporal Drew W. Weaver Post Office Building." This legislation was introduced on February 26 by my colleague and friend, Representative TODD W. AKIN of Missouri, and considered and reported out of the Oversight and Government Reform Committee by a voice vote on March 10, 2009. Additionally, H.R. 1218 enjoys the support of the entire Missouri congressional delegation.

A native of St. Charles, Missouri, Lance Corporal Drew W. Weaver bravely served with the 3rd Light Armored Reconnaissance Battalion, 1st Marine Division, 1st Marine Expeditionary Force out of Twenty-Nine Palms, California. On February 21, 2008, the young marine was killed in action in al Anbar province in Iraq while conducting combat operations in support of Operation Iraqi Freedom.

Born on July 5, 1987, Lance Corporal Weaver decided to join the United States Marine Corps shortly before his graduation from St. Charles West High School in 2005. He was best known for his positive attitude, his sense of humor, his love of adventure, and above all, his dedication and commitment to his family, his friends, his unit and his country.

St. Charles West Assistant Principal Scott Voekl remembers seeing Lance Corporal Weaver take daily morning runs on Zumbahl Road near the school in preparation for boot camp. Upon the young man's return from basic training, Mr. Voekl asked him if serving in the Marines was what he wanted to do. "Absolutely," replied Lance Corporal Weaver. Ken Mayer, another St. Charles West administrator, recalls that Lance Corporal Weaver "truly believed in what he was doing." And St. Charles Mayor Patti York noted that Lance Corporal Weaver was a "true hero" and a beloved member of the St. Charles community.

Mr. Speaker, Lance Corporal Weaver's life and service stand as a testament to the strength and support of his devoted family as well as the bravery and dedication of the young men and women that have joined him in offering the ultimate sacrifice on behalf of our Nation.

It is my hope that we can honor this outstanding soldier through the passage of this legislation without objection. I urge my colleagues to join us in supporting Congressman AKIN in his sponsorship of H.R. 1218.

I reserve the balance of my time.

Mr. AKIN. Mr. Speaker, I yield myself such time as I may consume.

Today I rise in strong support of H.R. 1218, a bill I introduced to honor the life of Drew W. Weaver by designating the post office in St. Charles, Missouri, as the "Lance Corporal Drew W. Weaver Post Office Building."

A resident of St. Charles, Missouri, Lance Corporal Drew W. Weaver was part of the 3rd Light Armored Reconnaissance Battalion, 1st Marine Division, 1st Marine Expeditionary Force.

On February 21, 2007, Lance Corporal Weaver died while conducting combat operations in the al Anbar province of Iraq. As Captain Mark C. Brown noted, Drew was "known for his enthusiasm and his ability to motivate people around him."

Drew's contribution to his country was honored by his community when hundreds, maybe more than hundreds actually, showed up for his memorial service and procession. A graduate of St. Charles West High School, friends and family of Drew remember him as an energetic young man who was eager to serve his country. Ryan Hanson, his best friend and a fellow serviceman, said, "Drew loved what he was doing and was proud of what he did for the Marine Corps."

As a father of two marines, one of whom has served in Iraq and in Fallujah, it is a privilege to stand here today to honor one of our fallen soldiers. Drew's commitment and dedication to his country is a shining example of how our military men and women are the finest our Nation has to offer. His and his family's sacrifice should serve as a reminder to all that the freedom we enjoy as Americans is not always free but the result of tremendous bravery and selfless service of men and women willing to put themselves in harm's way for freedom's cause.

As Reverend James Benz noted during Drew's funeral, "I think we can learn from them that the freedom we enjoy in this country is precious, that it is special, and that it must be preserved sometimes at great personal cost."

Our Nation will be forever indebted to Lance Corporal Drew Weaver.

Mr. Speaker, I ask that my colleagues join me today in honoring Lance Corporal Drew Weaver. Vote "yes" on H.R. 1218.

I yield back the balance of my time.

Mr. LYNCH. Mr. Speaker, I ask all of our Members to join with the gentleman from Missouri in supporting this bill, H.R. 1218.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and pass the bill, H.R. 1218.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. LYNCH. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of no quorum is considered withdrawn.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m. today.

Accordingly (at 2 o'clock and 42 minutes p.m.), the House stood in recess until approximately 6:30 p.m.

□ 1830

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. MASSA) at 6 o'clock and 30 minutes p.m.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 918, by the yeas and nays;

H.R. 1218, de novo.

The first electronic vote will be conducted as a 15-minute vote. The remaining electronic vote will be conducted as a 5-minute vote.

STAN LUNDINE POST OFFICE BUILDING

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 918, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. LYNCH) that the House suspend the rules and pass the bill, H.R. 918.

The vote was taken by electronic device, and there were—yeas 396, nays 0, not voting 35, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members have 2 minutes remaining to vote.

□ 1905

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Ms. SLAUGHTER. Mr. Speaker, on rollcall No. 146, had I been present, I would have voted "aye."

REMOVAL OF NAME OF MEMBER
AS COSPONSOR OF H. RES. 252

Mr. BARRETT of South Carolina. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H. Res. 252.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

NOTICE OF INTENTION TO OFFER
RESOLUTION RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. FLAKE. Mr. Speaker, pursuant to clause 2(a)(1) of rule IX, I hereby notify the House of my intention to offer a resolution as a question of the privileges of the House.

The form of my resolution is as follows:

Whereas, The Hill reported that a prominent lobbying firm specializing in obtaining defense earmarks for its clients, the subject of a "federal investigation into potentially corrupt political contributions," has given \$3.4 million in political donations to no less than 284 Members of Congress.

Whereas, multiple press reports have noted questions related to campaign contributions made by or on behalf of the firm; including questions related to "straw man" contributions, the reimbursement of employees for political giving, pressure on clients to give, a suspicious pattern of giving, and the timing of donations relative to legislative activity.

Whereas, Roll Call has taken note of the timing of contributions from employees of the firm and its clients when it reported that they "have provided thousands of dollars worth of campaign contributions to key Members in close proximity to legislative activity, such as the deadline for earmark request letters or passage of a spending bill."

Whereas, CQ Today specifically noted a Member getting "\$25,000 in campaign con-

tribution money from [the founder of the firm] and his relatives right after his subcommittee approved its spending bill in 2005."

Whereas, the Associated Press also noted that Members received campaign contributions from employees of the firm "around the time they requested" earmarks for companies represented by the firm.

Whereas, clients of the firm received at least \$300 million worth of earmarks in fiscal year 2009 appropriations legislation, including several that were approved even after news of the FBI raid of the firm's offices and Justice Department investigation into the firm was well known.

Whereas, the persistent media attention focused on questions about the nature and timing of campaign contributions related to the firm, as well as reports of the Justice Department conducting research on earmarks and campaign contributions, raise concern about the integrity of Congressional proceedings and the dignity of this institution.

Now, therefore, be it *Resolved*, That

(a) the Committee on Standards of Official Conduct, or a subcommittee of the committee designated by the committee and its members appointed by the chairman and ranking member, shall immediately begin an investigation into the relationship between the source and timing of past contributions to Members of the House related to the raided firm and earmark requests made by Members of the House on behalf of clients of the raided firm.

(b) The Committee on Standards of Official Conduct shall submit a report of its findings to the House of Representatives within 2 months after the date of adoption of this resolution.

The SPEAKER pro tempore. Under rule IX, a resolution offered from the floor by a Member other than the majority leader or the minority leader as a question of the privileges of the House has immediate precedence only at a time designated by the Chair within 2 legislative days after the resolution is properly noticed.

Pending that designation, the form of the resolution noticed by the gentleman from Arizona will appear in the RECORD at this point.

The Chair will not at this point determine whether the resolution constitutes a question of privilege. That determination will be made at the time designated for consideration of the resolution.

THE ADMINISTRATION ISN'T
PROTECTING AMERICANS' JOBS

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, in 2006, Senator Obama told his colleagues, "We need an electronic verification system that can significantly reduce the employment of illegal workers, and give employers the confidence that their workforce is legal."

E-Verify is the voluntary Federal program that does just that by allowing employers to check the employment eligibility of their newly hired

employees. Yet the Democrats have blocked every single attempt made so far this year to enact a long-term extension of E-Verify.

Instead of protecting jobs for U.S. citizens and legal workers, President Obama signed a bill that will provide 300,000 jobs to illegal immigrants in just the construction industry alone.

With 12 million Americans out of work, we should save jobs for American workers and legal immigrants, not give jobs to illegal workers.

ECONOMIC 9/11

(Mr. COHEN asked and was given permission to address the House for 1 minute.)

Mr. COHEN. Mr. Speaker, I want to commend our President, the administration, for the bold action they took today to help resolve our economic morass that we are expressing because of the past administration and the lack of regulations by this Congress. The stock market responded positively with a 500-point gain.

I think it's important that people recognize the good that the administration is doing and trying to do, that we need to work together as a team, as Americans.

After 9/11, Republicans and Democrats came together to support the President and support us in a great crisis. This is an economic 9/11. People should support the President and not do critical things.

Some of them have even suggested, oh, he had time to fill out his NCAA bracket, where he correctly had the Memphis Tigers going to the Sweet Sixteen. There's nothing wrong with that. President Obama is good on the Sweet Sixteen, and he's good on the economy.

COMMENDING KEVIN PETERSEN

(Mr. MCCARTHY of California asked and was given permission to address the House for 1 minute.)

Mr. MCCARTHY of California. Mr. Speaker, I rise today to honor the career of a committed public servant, Kevin Petersen, who retires April 3, 2009, as director of NASA's Dryden Flight Research Center located in my district. Kevin has served at Dryden for 38 years and is currently NASA's longest-serving field center director.

Kevin began his career at Dryden as a university cooperative student in 1971, was hired as an aerospace engineer when he graduated from Iowa State in 1974, and later received a Master of Science degree from UCLA.

Kevin was appointed to be Dryden's director in 1999. His tenure as director has seen Dryden's focus on aeronautics research expand to also support work in environmental and space science, space exploration, and human spaceflight. Currently, Dryden has the

important task of testing the new Orion Launch Abort System. I appreciated Kevin showing me around that key program when I visited.

Kevin Petersen is a role model for all American students considering a career in science, technology, engineering or mathematics. Kevin, you've been a great public servant. I appreciate your dedication, and I wish you the best of luck.

CHIEF MARK MCCURRY: FIRE CHIEF OF THE YEAR

(Mr. MCHENRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCHENRY. Mr. Speaker, I rise today to honor Fire Chief Mark McCurry of Forest City, North Carolina. Chief McCurry was recently named Fire Chief of the Year by the North Carolina Association of Fire Chiefs. It is their highest honor.

Thirty-five years ago, Mark's uncle encouraged him to go into the family business of fire service. Now, 35 years later, Chief McCurry is still serving the community of Forest City. He says putting his life on the line to protect those of his fellow citizens is "like a calling."

Chief McCurry understands that his men no longer just put out fires. All Forest City firemen are now certified EMTs and trained to deal with hazardous materials and weather emergencies.

Mark McCurry recently said, "It takes a crazy person to run into a building that everyone else is running out of." I think we all agree, but no, Chief, it takes an extraordinarily brave man to run into a burning building. And this year, your peers have recognized you as the bravest of all. Congratulations.

□ 1915

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

EARLY ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Florida (Ms. WASSERMAN SCHULTZ) is recognized for 5 minutes.

Ms. WASSERMAN SCHULTZ. Mr. Speaker, this week I will be introducing the EARLY Act: The Breast Cancer Education and Awareness Requires Learning Young Act of 2009. The EARLY Act is designed to empower young women to learn the facts, know their bodies, speak up for their health, and embrace support.

Despite the perception, young women can and do get breast cancer. More than 10,000 women under 40 are diagnosed with breast cancer every year in the United States. Although the incidence of breast cancer in young women is much lower, young women's breast cancers are generally more aggressive, are diagnosed at a later stage, and result in lower survival rates.

Additionally, certain ethnic groups, including Ashkenazi Jews and African American young women, have an increased risk of breast cancer.

I became acutely aware of all of this information, and more, a little more than a year ago. After finding a lump in my breast while doing my routine breast self-exam in the shower, I learned a few weeks later from my doctor that I had breast cancer.

Upon learning of my diagnosis and after genetic counseling, I also decided to have a blood test that would show whether I had a genetic mutation in the BRCA1 or BRCA2 gene. As a woman of Ashkenazi Jewish descent, I was in a category of at-risk populations for these gene mutations. The test results showed that I did indeed carry the BRCA2 genetic marker that suggests a greater susceptibility to breast and ovarian cancers.

After further consultation with my doctors and my husband, I decided to have a double mastectomy and have my ovaries removed to reduce the likelihood of a recurrence of cancer. Today, with a clean bill of health and cancer-free, I plan to introduce the EARLY Act.

The EARLY Act encourages young women to be familiar with the look and feel of their breasts. By knowing what feels normal, a young woman has a better chance of knowing when something feels different.

The EARLY Act will also work to educate young women about changes in their body that could be warning signs of breast cancer. We want them to know that it doesn't only start with a lump. It can be swelling, a rash, breast pain, nipple pain, redness or scaliness, too.

The EARLY Act will encourage young women to be their own voice—to speak up for themselves and know when they need to go to their doctor.

The EARLY Act will teach both young women and medical professionals alike about risk factors, warning signs of breast cancer, and predictive tools such as genetic testing, that can help women make informed decisions about their health.

It will also provide grants to organizations dedicated to supporting young women and the unique issues we face when diagnosed with breast cancer, as well as managing and understanding their risks.

Today, we often fail to teach about risk in this country. As a result, many of us face serious consequences in our

lives. We need to change the educational dialogue and empower not only young women, but everyone to take control of the risks they face. And that begins with education and awareness.

I thought I knew all of my personal risk factors for breast cancer. Because of those risk factors, I performed self-exams, went to my doctor regularly, and have been a longtime legislative advocate in the fight against breast cancer. But when I was diagnosed, I found out I had more risk factors than I was aware of.

For example, I had absolutely no idea that as an Ashkenazi Jewish woman, I was five times more likely than the general population to have an altered BRCA1 or BRCA2 gene, or what the risks of carrying that gene entailed.

This bill will give all young women the tools they need to take control of the risks by teaching awareness of their personal risks and what they can do to manage those risks.

At the end of the day, the old saying rings true: Knowledge is power. By making sure young women know their risk factors, the EARLY Act is the first step in transforming how we approach the fight against breast cancer.

In hearing my story, some people might say I was lucky. While I was certainly fortunate enough to have access to good health care, I didn't find my tumor early because of luck. I found my tumor early because of knowledge and awareness. I knew I should perform breast self-exams, and I was aware of what my body was supposed to feel like.

It is my hope that by sharing my story we will pass the Breast Cancer Education and Awareness Requires Learning Young Act of 2009 into law this year and further reduce the death rate of young women diagnosed with breast cancer.

We need to ensure that every young woman in America can rely on more than just luck. Their survival depends on it.

I urge my colleagues to cosponsor this vital legislation. Thank you very much.

HONORING AN AMERICAN ANIMAL- LOVING CHAMPION

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from North Carolina (Ms. FOXX) is recognized for 5 minutes.

Ms. FOXX. Mr. Speaker, my family and I have always been pet lovers. In fact, we have always been owned by at least one cat and one dog. We support many animal rescue organizations. The current dog and cat we have are both rescue pets. However, we cannot hold a candle to a person whose life has been dedicated to saving animals.

Mr. Speaker, I rise today to honor the life of a great American, a woman

with a passion for the humane treatment of animals, my friend, Gertrude Maxwell. Gertrude Maxwell is the founder, past president, and lifetime chairman of Save-A-Pet of Illinois, which she founded more than 35 years ago. Later, she founded and served as president of Save-A-Pet of Florida. Then, 15 years ago, she started the National Save-a-Pet Foundation, where she currently serves as director and chairman.

Her Save-A-Pet organization exists for one reason—saving animals. It is a nonprofit group dedicated to saving abandoned, homeless, or lost pets, and is committed to shielding pets from the practice of animal euthanasia.

Gertrude is a champion of abandoned and unwanted pets and, as a fellow animal lover, I am inspired by her pioneering work with Save-A-Pet. When she discovered in 1972 that more than 90,000 pets were destroyed every month in the United States, she set about the work of shrinking and hopefully one day eliminating the number of pets euthanized in America.

Throughout her lifetime of work on behalf of animals, Gertrude has established and maintained many animal sanctuaries and adoption centers. Thanks to her unwavering commitment to saving pets, her work has directly saved nearly 100,000 pets over the course of her decades-long campaign on behalf of animals.

After more than 35 years of advocacy for animals, she is still working for the humane treatment of animals. Her tireless efforts also find her lobbying for laws to aid animal welfare, and recently bore fruit when HB 219 the Gertrude Maxwell Save-A-Pet Act was signed into law in Florida last spring.

This legislation creates what is known as a Direct Support Organization that will raise funds from individuals, corporations, and small businesses to provide grants to animal shelters in emergency situations. This organization will provide for spaying and neutering of abandoned cats and dogs, reduce the need for euthanasia of animals, and reduce animal cruelty.

The Gertrude Maxwell Save-A-Pet Act was widely supported by Governor Charlie Crist and organizations like the Florida Veterinary Medical Association; the Florida Association of Kennel Clubs; the Florida Animal Control Association, and the National Rifle Association.

Gertrude has received over 200 awards and honors for her dedication to defenseless and vulnerable animals in America. Today, I honor this outstanding woman for a lifetime of selfless service to her community and for her love for animals.

TARP FUND RECIPIENTS EXERCISE NO RESTRAINT

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tleman from North Carolina (Mr. JONES) is recognized for 5 minutes.

Mr. JONES. Mr. Speaker, last week, the American people were justifiably outraged by news that American International Group—AIG—would be paying out \$165 million in bonuses. AIG would be rewarding its employees for helping the economy post a record \$62 billion loss—and it would be doling out these bonuses while dipping its hands in the taxpayer till.

When a company is 80 percent owned by U.S. taxpayers and it has accepted \$173 billion in Federal bailout funds, the American people expect more.

Unfortunately, Mr. Speaker, with the start of a new week, the U.S. taxpayer is hit with reports of another “TARP-funded corporation gone wild.”

ABC News reported that JPMorgan Chase, a bank that has received \$25 billion in TARP funds, is moving ahead with a \$138 million plan to buy two brand new, luxury corporate jets. The bank will also build a lavish corporate aircraft hangar to house the new jets. According to JPMorgan Chase architects, the new hangar will even be built with a vegetated roof garden.

Mr. Speaker, why can't these TARP beneficiaries get a clue? Where does it end?

Last fall, I voted against the \$700 billion government bailout because U.S. taxpayers should not have to pick up the tab for the poor business decisions of high-flying Wall Street firms.

Let's not forget—no more than a week after Congress passed this \$700 billion bailout, AIG spent over \$400,000 on a lavish retreat for company executives—after they had accepted \$85 billion in Federal bailout money.

The behavior of these financial institutions shows that taxpayers will certainly get a raw deal when the Federal Government does not demand oversight and accountability. These corporations have resorted to taking taxpayer dollars to stave off failures, yet they are still spending like it's business as usual. All the while, the working people of this country are tightening their wallets and coping with a tough economy.

Our country's outstanding public debt is more than \$11 trillion, and it grows by nearly \$4 billion every day. When will the Federal Government stop digging the American taxpayers into this debt?

Mr. Speaker, it's time for our government to start working for the American taxpayer and not the other way around. The American taxpayer is tired and fed up with business as usual. We have got to change the way we do business and remember that the taxpayers pay the bills and the debt of this government.

With that, Mr. Speaker, I will say God continue to bless our men and women in uniform, and God continue to bless America.

□ 1930

TRIBUTE TO FOUR FALLEN OAKLAND POLICE OFFICERS

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. LEE) is recognized for 5 minutes.

Ms. LEE of California. Mr. Speaker, I rise this evening with a heavy heart on behalf of the residents of my congressional district, the Ninth Congressional District of California, to pay tribute to four fallen heroes from the Bay Area.

This weekend, Sergeant Mark Dunakin, Sergeant Ervin Romans, Sergeant Daniel Sakai and Officer John Hege, all members of the Oakland Police Department, were brutally gunned down while serving in the line of duty.

Oftentimes members of law enforcement go unnoticed. But they provide a critical service to help protect our communities. These men performed their jobs to the fullest every day, knowing that there was a possibility that they would ultimately give their lives in service to their community. Today we honor them and join their families and our community in not only mourning their loss but remembering the sacrifices that they made to protect the people of Oakland, California.

I feel that it is very important that everyone remember that these brave men were not nameless, faceless individuals. They were husbands, they were fathers, they were brothers, they were dear friends to many.

Sergeant Dunakin lived in Tracy, California, and was on the police force for 18 years. He was a graduate of Chabot College in Hayward. He was promoted to sergeant in 1999 and worked homicide cases in the criminal division. Following his transfer to the traffic division, he was active in the Click It or Ticket campaign and took part in multi-agency crackdowns on drunken driving suspects. Captain Ed Tracey described Sergeant Dunakin as "Just a cop's cop. He's OPD to the bone. He is absolutely committed to anything that he leads." He leaves to mourn his wife, Angela, and his three children.

Sergeant Romans, 43, of Danville, was an Oakland officer since 1996. He was a member of the entry team, and was considered one of the most adept members of the Oakland Police SWAT team by his colleagues. Erv, as he was affectionately known, was promoted to sergeant in 2005 and worked narcotics cases, making a number of high-profile drug busts. He leaves behind three children.

Sergeant Daniel Sakai of Castro Valley was 35 years old. He was considered a rising star on the Oakland Police SWAT team and was recently named a leader of the entry team. Before joining the SWAT team, Sergeant Sakai worked as a K-9 officer responding to

calls with his dog, Doc. He loved nature and studied forestry at UC Berkeley, where he also worked as a community service officer escorting students around campus at night. After graduation, he spent a year in Japan teaching English. He leaves his wife, Jennifer, and a young daughter.

Officer John Hege, who was 41 years old, joined the Oakland Police Department 10 years ago after serving as a reserve officer. He graduated from St. Mary's College in Moraga, California, and had taught physical education and oversaw study hall at Tennyson High School in Hayward. He lived with his dog on a small cul-de-sac in Concord, California. While off-duty, he was a high school baseball umpire. Officer Hege also wanted to be a motorcycle cop for many years, and in the last few months he finally got his wish. His colleagues noted that he was always the first to respond on the radio to actually assist other officers or to help on a project.

It is my sincere prayer that, in light of this tragedy, we begin to reexamine how we are addressing the ongoing violence which plagues our country. The events in Oakland this weekend are a prime example of why we must address the gaps that we have in our parole system and also renew our efforts to ban the sale of military style assault weapons in this country. It is hard enough being a police officer without the added pressure of knowing that there could be assault rifles embedded throughout our communities.

We cannot bring back these brave men, but through their deaths we can work and put in place policies that will make our communities safer for the people who live there and also for the police officers who oftentimes have a very dangerous job protecting them. The death of these four officers is really an incomprehensible tragedy that is difficult for all of us to fathom.

I extend my deepest sympathies to the family members of the four officers. This is a very difficult time for members of the Oakland Police Department, the City of Oakland and my entire congressional district, actually, for the entire State of California. My heart goes out to all of those members of the police force who are mourning the loss of their brothers. Our prayers are with the family and the friends of these brave young men and women during this very solemn time.

TAX THEM TO DEATH

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Mr. Speaker, the government answer to government-created problems is to tax people and businesses that are producing. The economic philosophy is simple: Punish success by the power of the tax.

The latest government tax plan is the energy tax. The idea is, tax anything that uses energy. And it contains several philosophies. The first one is raise the gasoline tax 10 cents. I guess the government bureaucrats don't think gasoline prices are high enough already. Americans pay 18 cents in Federal gasoline tax, about 20 cents in State tax; and gasoline is approaching \$2 a gallon, so they are going to raise taxes and make it harder for us to drive.

But that is not all. The idea also is to tax mileage of cars. It is called the car user tax. In other words, for every mile an American citizen drives, they are going to get taxed for that mile. Of course, that hurts people in rural areas, it hurts people who don't have mass transit and don't have a choo-choo train to ride to work. But it is the car user tax, and we don't know yet how much that is going to be.

But we have more. The idea also is to tax the use of energy in your home. In other words, when you turn on the lights, you are using electricity and you are going to get taxed for using that energy. If you have hot water in your home and you use a hot water heater that is run by natural gas and you turn on the hot water, since you are using natural gas you are going to get taxed again for the use of energy. And of course in the winter in some places in the United States they use home heating oil to keep warm in the winter. And since they are using energy, they are going to get taxed for that. It is the home use energy tax on all Americans. And of course the same is going to be applied to businesses. But businesses, they are going to pass their taxes on down to the consumer who has to pay all of those taxes as well.

There is more. There is the cap-and-trade tax, or the cap tax as I call it. What that is, it is based on the unproven mythical theory of global warming and the use of CO₂; so if you use any CO₂, you are going to get taxed for that.

There are other taxes. Those include taxes on energy production. What that is, is those businesses—we call them oil companies—that produce energy for the rest of us to use, they are going to be taxed with so many different taxes I don't have time to go through it; but what it amounts to, it will cost the American consumer another 41 cents per gallon of gasoline to pay for that tax on energy production that is being passed from the oil companies down to the American consumer. And, of course, the effect of that, whether intended or unintended, will be to send those energy-producing companies, those oil companies, somewhere else. We already find out that some of them are moving to Switzerland.

When that happens, we will get less tax revenue to begin with. You see, we

already have the second highest corporate income tax in the world. And why would we fault oil companies for moving overseas when they are already paying so much taxes? And these energy taxes will increase and encourage people to move offshore and to other places.

Mr. Speaker, whether people know it or not, we do not have alternatives for the use of crude oil or gasoline yet. Some day we might have one of those electric cars that we all get to drive around in, but we don't have it now. So if we keep sending energy companies overseas, make it harder for them to produce, tax the energy consumption, it is going to be more difficult for us to exist in this world.

So why don't we do something a little novel. Why don't we allow more energy exploration, instead of continuing to subsidize the Middle Eastern oil countries who don't like us anyway.

If we explore more, that will create jobs that stay in America. It will bring revenue to the American Treasury, because those oil companies have to pay for those leases. We can then get more tax revenue from those oil companies, and money will stay here, instead of shipping it overseas to foreign countries. A novel idea. And there is not a tax included in any of that.

But it seems to me, Mr. Speaker, that the current bureaucrats never saw a tax they didn't like. So we will all just get to ride bicycles and freeze in the cold dark of winter, and for light we will have to use candles since we can't afford to pay the electricity tax on our homes.

And that's just the way it is.

ENERGY AND ECONOMICS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. INGLIS) is recognized for 5 minutes.

Mr. INGLIS. Mr. Speaker, following up on the gentleman from Texas (Mr. POE) in talking about energy, I have got a different take on that, and the different take is this: It is all about economics.

Actually, technologies exist right now to be the alternatives. The problem is, they don't compete real well against the incumbent technology, because the incumbent technology doesn't have all of its negative externalities attached to it. If you attach those externalities to those incumbent technologies, all of a sudden new things would happen. And rather than being driven by government and grant programs for this or that, it would be driven by free enterprise, with people making money selling the competing technology.

What do you have to do to get there? You have got to figure out a way to, what economists call, internalize the externals. You have got to figure out a

way to attach to the incumbent technologies, which in this case with transportation is gasoline, attach the negative externalities to the price. In other words, demand accountability. Insist on accountability. Say we are going to attach the national security risk, for example, to gasoline, and we are going to say, what is it really costing us for a gallon of gasoline? Is it the \$1.90 that I paid recently in my car, or is it a lot more than that? The answer is, it is a lot more than that.

If you consider just the supply chain that we have to protect the assets that we have forward deployed to protect the supply chain, and attribute some percentage, it doesn't have to be 100 percent, but some percentage of the cost, for example, of protecting the shipping lanes that carry this stuff that we are addicted to, to us, if you just attach the cost of a percentage of that, maybe 50 percent of it, give 50 percent cost accounting to somebody else, somebody else's account. But let's account to gasoline at least 50 percent of the cost of the operations in protecting the shipping lines. If you do, it is not \$1.90 a gallon. It is a lot more.

□ 1945

But as long as there is an unrecognized externality, then what happens? There is a market distortion. And as long as that market distortion exists, nothing happens in free enterprise. Because what free enterprise is about is a wonderful thing called "making a profit." And the people generally on this side of the aisle understand very well that we are in business to make money, to make a profit. But when your competitor gets a freebie in the national security realm or a freebie when it comes to climate change impact, or a freebie when it comes to, say small particulates, when it comes to coal, nuclear doesn't develop, and alternative energies don't develop because you have got this freebie.

Why not continue on with the cheap old technology, the one that really doesn't take a lot of rocket science? You stick pipe in the ground, out comes some crude, you refine it, stick it in a car and you run it. Not real rocket science. But how about some rocket science of hydrogen, for example? Well, you have to internalize some externals in order to make that work for a profit-making venture.

Until then, we will be talking science projects. I'm on the Science Committee. I'm happy to do science projects. But what I really want to have happen is to have people making money selling the competing technology. Here is a way to do it. We are just hearing about how we don't want more taxes. So let's start with a tax reduction. What if you reduce taxes on something, say payroll or income, and then in an equal amount, apply a tax to carbon-based fuels? Then we will see

what happens. What would happen then is all kinds of exciting things. The new entrepreneurs in the energy field, the Bill Gates of the world in energy would suddenly do for energy what Bill Gates at Microsoft and Steve Jobs at Apple did for the PC and the Internet. America would break free. It would be no additional intake to the government, and Mr. Speaker, we would be on our way to energy independence.

SUPPORT H.R. 1245, HOMEBUYER TAX CREDIT ACT OF 2009

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. BURTON) is recognized for 5 minutes.

Mr. BURTON of Indiana. Mr. Speaker, I'm going to do something novel tonight. I am going to reach out to my Democrat colleagues. And I'm glad to see some of them, like DON, over there tonight to listen to my exhortations.

Mr. Speaker, the \$8,000 tax credit for first-time homebuyers was one of the reasons why home sales went up by about 5.1 percent last month. That was an indication that we are probably moving in the right direction as far as stimulating some economic growth in the housing industry. But the housing industry is in a depression right now. And we need more than just the \$8,000 tax credit for first-time homebuyers.

Now, back in 1975, Congress passed the Tax Reduction Act of 1975, which included a tax credit not just for first-time homebuyers, but for all homebuyers, up to \$2,000 in a tax credit. As a result, they increased within the next year by 400,000 the number of houses that were sold, and in 2 years they were back up to the 2 million house level.

So we need to stimulate economic growth in the housing industry across the board, not just for first-time homebuyers. Now KEN CALVERT of California, our colleague, has introduced a bill, H.R. 1245. I'm a cosponsor of it. And it will give a 10 percent credit, 10 percent of the home price, up to \$15,000 for all homebuyers for 1 year. Now if we did that like they did back in 1975—and this was sponsored mainly by Democrats back in 1975—if we did that across the board for homebuyers up to \$15,000, we would stimulate a huge movement towards home purchasing. Twenty-five percent of the people in this country say they want to buy a home within the next 10 years. We can move that up pretty rapidly if we extend the tax credit to \$15,000 and allow everybody to get it for 1 year. And if we did that, I think that would go a long way toward solving the economic problems we are facing right now. Right now, what we are doing is we are throwing money at the problem, and we are hoping that that will solve it. It is probably going to help a little bit in the short run. But in the long run, if we really want to stimulate economic

growth and activity, we have to get the free market working again. And the best way to do that in my opinion, and I'm saying this to my Democrat colleagues as well as my Republican colleagues, is to give an incentive for people to buy homes, not just first-time homebuyers, but everyone who would like to buy a home or move into a better one.

So if we allow, say, a 10 percent tax credit up to an amount of \$15,000 for just 1 year, I think you would see a huge movement in the purchase of homes in this country, and it will really help the economy.

Now the realtors of this country and the homebuilders of this country really need help. They want this bill. They think it is extremely important. They are out here this week and they are going to be talking about it. So I would like to say to you, DON, and all my Democrat colleagues and my Republican colleagues, let's get together on this one. We can fight on something else. But right now we have an opportunity to really stimulate home purchases in this country and get this economy moving more rapidly in the right direction.

So I hope you will join with me in cosponsoring KEN's bill, H.R. 1245, and I'll be glad to sign any of you up tonight.

**JORGE LUIS GARCIA PEREZ
"ANTUNEZ," CUBAN FREEDOM
FIGHTER**

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Mr. LINCOLN DIAZ-BALART) is recognized for 5 minutes.

Mr. LINCOLN DIAZ-BALART of Florida. This last Friday, I had the honor of being able to speak by telephone with five brave human rights activists, pro-democracy leaders, inside the totalitarian nightmare that is Castro's Cuba.

One of the great heroes of the pro-democracy movement inside the Cuban totalitarian nightmare is Jorge Luis Garcia Perez Antunez. A black man now in his 40s, Antunez was first imprisoned while he was in high school because of his support for democracy and his opposition to totalitarianism. For 17 years, Antunez was regularly beaten as a political prisoner in Castro's gulag. He never gave in. He was released from the gulag last year, but since he never surrenders, he doesn't stop denouncing the thugs and pirates who have destroyed, impoverished and oppressed the Cuban people for 50 years, Antunez has been routinely detained, dozens of times, thrown into a dungeon and subsequently released, since his release from the gulag.

Some days ago, Antunez began a hunger strike in his city of Placetas, in Sancti Spiritus province, Cuba, calling for the end of the death threats being

leveled against Cuban political prisoner Mario Alberto Perez Aguilera; an end to the physical and psychological torture of all Cuban political prisoners; and the cruel and cynical prohibition by the dictatorship against Antunez's sister, Caridad Garcia Perez, being able to rebuild her own house. They don't allow her to rebuild her own house, which was destroyed by one of the devastating hurricanes that passed by Cuba.

Accompanying the hero Antunez when I was able to contact him by telephone on Friday, March 19, was his wife, the pro-democracy leader, Iris Perez Aguilera, whose brother, Mario Alberto Perez Aguilera, is a political prisoner receiving death threats, I'm sure one of many, but the one specified by Antunez, receiving death threats by his jailers. And I also spoke to pro-democracy leaders, Carlos Michael Morales Rodriguez, Alejandro Tur Valladares and Ernesto Mederos. It was my honor to speak with all of them.

Antunez's house was surrounded by state security thugs while we spoke. And he and his colleagues knew very well that our telephone conversation was being monitored by the thug-regime. The courage of these pro-democracy leaders is simply awe-inspiring. They all explained their human rights work and reiterated their commitment to freedom. I told Antunez that I would be speaking in the U.S. Congress this week about him, about his hunger strike, about his heroic struggle for freedom and the heroic struggle of the other pro-democracy leaders I spoke to, and about all of Cuba's political prisoners.

Fidel Castro and his brother, who now has some titles because of the dictator's intestinal illness, constitute the historical revenge of the brutal, racist European colonialism that the Cubans fought to overthrow for almost a century. But they ultimately prevailed.

Antunez, Biscet and the other pro-democracy leaders who continue to fight the Castros' dyarchy represent today's version of Maceo, Banderas, Moncada and all the freedom fighters who ultimately obtained freedom for Cuba.

Now one of the disgusting realities of today is that the fight of the unarmed Cuban people doesn't exist for the international media and the press, with very dignified exceptions. Why are the Cubans non-persons for so much of the media? Their racial discrimination is as shameful as it is condemnable. But Antunez, Biscet and the other Cuban freedom fighters will prevail. They are the future leaders of free Cuba. Antunez's last words to me on Friday said it all. "Tell your colleagues, the representative of the American people, Antunez ni se rinde, ni se va." "Antunez neither surrenders, nor leaves."

Some are advocating that the new administration agree to the expulsion

from Cuba to the U.S. of Biscet, Antunez and other future leaders of Cuba in exchange for some Castro spies currently in U.S. Federal prisons, serving time for conspiring to murder U.S. citizens. That would be a condemnable act that would violate international law as well as the elemental human rights of Cuba's future leaders.

From the floor of the U.S. Congress, I reiterate my admiration for those leaders who confront the totalitarian monster from within Cuba today and who will lead free Cuba tomorrow.

**AFRICA DESERVES PARITY IN OUR
OVERALL FOREIGN POLICY**

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentlewoman from Ohio (Ms. FUDGE) is recognized for 60 minutes as the designee of the majority leader.

Ms. FUDGE. Mr. Speaker, the Congressional Black Caucus, the CBC, is proud to anchor this hour. Currently the CBC is chaired by the Honorable BARBARA LEE from the Ninth Congressional District of California. My name is Congresswoman MARCIA FUDGE, and I represent the 11th Congressional District of Ohio.

CBC members are advocates for families nationally and internationally. We have played a significant role as local and regional activists. We continue to work diligently to be the conscience of the Congress. But understanding that all politics are local, we provide dedicated and focused service to the citizens and congressional districts we serve. The vision of the founding members of the Congressional Black Caucus, to promote the public welfare through legislation designed to meet the needs of millions of neglected citizens, continues to be a focal point for the legislative work and political activities of the Congressional Black Caucus today.

As Members of Congress, CBC members also promote legislation to aid neglected citizens throughout the world. We understand that the United States, as a bellwether, has the ability to positively impact our neighbors abroad.

Mr. Speaker, at this time I yield to our chairwoman, the Honorable BARBARA LEE.

Ms. LEE of California. Thank you very much. And let me thank the gentlelady for yielding and also for your leadership. Once again, thanks to you, we are here talking about the many, many issues which face our country, but also many of the issues which the Congressional Black Caucus is very involved in leading. And oftentimes the public really isn't aware of these issues and exactly what we are doing. So thank you again, Congresswoman MARCIA FUDGE, for your leadership and for staying the course.

As Chair of the CBC, I'm very proud to point out that we are privileged to

draw upon the wisdom and expertise of one of our many colleagues on the House Committee on Foreign Affairs, Congressman DON PAYNE of New Jersey. Congressman PAYNE I must say is more than a member. Of course, he is the Chair of the Africa and Global Health Subcommittee, but he is our resident expert on Africa. And Congressman PAYNE I always say is a Member of Congress who not only understands what our foreign policy should be towards the continent of Africa, but he also understands that Africa deserves parity in our overall foreign policy and oftentimes is in the midst of bringing peaceful solutions to conflicts when others won't go there in many, many dangerous and treacherous situations. He also is on the CBC International Affairs Task Force. And I just want to commend Congressman PAYNE tonight. Thank you for your sacrifices and for your leadership.

We are also represented on the Foreign Affairs Committee by Congressman GREGORY MEEKS of New York, Congresswoman DIANE WATSON of California, Congresswoman SHEILA JACKSON-LEE of Texas and Congressman DAVID SCOTT of Georgia.

I would like to briefly talk tonight about Darfur and Sudan. I mentioned Mr. PAYNE earlier, and let me just say that he was the lone voice in the wilderness for many years saying that we should declare that genocide is taking place in Darfur, because that is exactly what did take place.

□ 2000

He finally brought bipartisan consensus to that, the policy of designating this as genocide, and it took a lot. But the country, our country, has in place, as its foreign policy, that genocide is taking place in Darfur. But it is also important to recognize that we haven't been able to go the next step to really help to end the genocide.

The people of Sudan, they have a desire for a just and lasting peace, but it has been crushed repeatedly by one of the most brutal regimes in the world. More than 2 million South Sudanese have died in the 21-year war and have suffered countless atrocities, mostly committed by the same regime in Khartoum.

Darfurian children, born at the height of the genocide, are now 6 years old, and many of them are still in displaced camps in Darfur or in Eastern Chad as refugees.

Fifteen years ago in Rwanda, the international community turned a blind eye with a million civilians butchered. Have we really done more in the case of Darfur, in South Sudan in Abyei and in Nuba? We declared genocide in 2004, but we haven't acted decisively to stop it. If we had, we could have saved many, many innocent people.

And I have visited Darfur on three occasions, and I have just seen the con-

ditions in the camps deteriorate over the years. And so, now it is very important, given what has just taken place, for the United States to raise its role and elevate our work as it relates to trying to help the world community understand that we have got to do the right thing. We need to support the International Criminal Court in its efforts to hold Sudan President Bashir accountable for his crimes against humanity, and for the President, and we support the President, our President, in appointing a Special Envoy for Sudan. Congressman PAYNE and myself wrote to President Obama, and we are delighted that he has appointed an Ambassador or a Special Envoy to be empowered, and we want him to have the resources to focus on Sudan as a whole with special attention to the ongoing genocide in Darfur. We want full implementation of the CPA and to address the humanitarian crisis because, now as General Bashir has expelled the humanitarian workers, we have an even worse crisis emerging on the humanitarian front.

And so our new Special Envoy is Major General Gration. He will be the Special Envoy, and he is uniquely qualified. Some of us met him in Darfur, and we know that he is very qualified to undertake these critically important efforts. As the President said, and I quote, he said that "he knows the region, he has broad experience and has my complete confidence."

Let me also say that we have to work very closely with the Special Envoy. And again, we want the Special Envoy to have a team of people with the resources to be able to do this job so he can bring peace to the long-suffering people of the Sudan.

Also, in conclusion, let me just highlight the fact that the CBC has led for many, many years in developing our global HIV/AIDS initiatives and the U.S. response to that.

We were instrumental, last year in taking—and can you believe this, Congresswoman FUDGE, Nelson Mandela and the ANC was on the terrorist watch list until last December. So we were able to get him off of the terrorist watch list before his 90th birthday.

We have established June as Caribbean American Heritage Month, honoring those of Caribbean descent who have contributed immensely to this great country.

We are working now on the Shirley Chisholm Caribbean Education Exchange Program, and trying to make sure that our country, Haiti, the poorest country in this hemisphere, receives the type of attention and resources it deserves to help stabilize the country. Hurricanes, natural disasters, poverty, health care needs are badly needed in Haiti, and the CBC has been working very hard to try to help stabilize that country.

I won't go on and on now, but I just wanted to thank Congresswoman

FUDGE because the CBC, again, is continuing to be the conscience of the Congress, not only in our domestic policy, but in our foreign policy, and each and every Member understands that we have to think globally and act locally, and we try to work strategically on both the home front and the international front.

Thank you very much, Congresswoman FUDGE.

Ms. FUDGE. Thank you. Mr. Speaker, I would very much like to thank our Chair for her leadership, for her vision, and certainly for her support of this special hour for the CBC.

Mr. Speaker, I would now like to yield to the gentlelady from Maryland (Ms. EDWARDS).

Ms. EDWARDS of Maryland. I thank the gentlelady for yielding.

From the beginning, our great Nation has been generous, and it has been a safe harbor for immigrants, providing asylum to individuals fleeing political turmoil and humanitarian crisis. But that philosophy has been challenged very seriously, forcing people who have resided lawfully in the United States for over 15 years to return to their country of origin that is no longer their home.

And so today, I rise to urge President Obama to reverse former President Bush's executive order forcing Liberian refugees back to their country. I ask the President to extend lawful status to these persons who have been law-abiding and tax paying citizens for years. These are people who have built lives in this country, who have children who are U.S. citizens, and who do not want to tear their families apart.

Families like Janvier Richard, who lives in my congressional district in Maryland. She fled Liberia for America in 1991 after she and her family were threatened during the Liberian civil war. Janvier has spent 18 years in America, a generation, a lifetime in America. And yet, today, Janvier Richards, and her family, after they were granted Temporary Protected Status by the United States because of the political turmoil and atrocities being committed in Liberia, have now built a home here in these United States for 18 years.

But in 2007, President Bush effectively ended Temporary Protected Status for Liberians by signing a memorandum authorizing Deferred Enforced Departure.

What does that mean?

That means that President Bush ordered all Liberians who had been granted TPS, temporary protected status, to leave the United States by March 31, 2009.

Now, to be sure, Liberians have made tremendous progress, back on the road to democracy under the able leadership of President Ellen Johnson Sirleaf. But today, the question before us and the justice challenge is really about those

who came to this country, like Janvier, from Liberia, started families and businesses, worked hard, paid taxes. Their children are now United States citizens and grew up in America.

Janvier Richards wrote me a letter saying: "I am being told to return home to a country that has no place for me. I have a 5-year-old son born at Holy Cross Hospital in Silver Spring, Maryland, and should be starting school this fall as a new kindergarten student. I have been working and paying taxes since I was 16, and I am happy contribute to American society by all means. This has been my home for 18 years," Janvier writes.

Richard has followed the proper procedures to become a U.S. citizen. She fled here to the United States with her father, who was a U.S. citizen, who filed for citizenship on her behalf. But since he passed away in 2002, immigration officials have continuously ignored Janvier Richard's inquiry about the status of her application, and now she faces deportation.

This is not about people wanting to take advantage of the United States or use Social Services. Janvier has been working and paying taxes since she was 18 years old and has never received government assistance.

This Congress and this administration must work to allow Liberians like Richards and her family to remain lawfully in this country as contributors, as taxpayers, and as citizens. We need to support these families that have become integral parts of our communities.

In closing her letter, Janvier Richards writes, and I quote, "Immigrants started this country. Immigrants are needed in this country. It shouldn't take up to 10 to 15 years before someone can get their green card or citizenship papers. We are working," she continues to write, "we are helping the country succeed. We are needed."

Ms. Richards and her son, the 5-year-old born at Holy Cross Hospital in Silver Spring, others like her who have come to this country and started new productive lives, have done nothing to deserve deportation. And they came here under the spirit in which we have granted asylum status to millions around the world for the generations of this country.

And I, therefore, ask President Obama to stand with Janvier Richards and other Liberians like her and reverse the current executive order.

I thank you, gentlelady, and I yield back.

Ms. FUDGE. I want to thank my colleague for her very moving remarks and because she is here and even though she doesn't feel well, because it is such a very important issue. So I want to thank her.

Mr. Speaker, I would now yield to the gentlelady from Wisconsin (Ms. MOORE).

Ms. MOORE of Wisconsin. Well, thank you so much, Congresswoman FUDGE, for sponsoring this hour. I think it is extremely important to educate our constituencies to a greater extent than we are somehow able to do in 1 minute or even in the heat of a debate.

Mr. Speaker, I am so delighted again to join these distinguished colleagues, the Chair of this special hour, Congresswoman FUDGE, as well as our Dean, I guess, of foreign affairs in the Congressional Black Caucus, Congressman PAYNE. And certainly, I would like to associate myself with the comments of our dear Representative from Maryland. I would like to associate myself with her remarks because I also want to talk about Liberia, but I want to talk about it from the perspective of protecting the investments that we have made in Liberia.

Liberia's relationship to the United States is certainly longstanding. Liberia was settled in the early 1800s by freeborn Blacks and former slaves from the United States of America. These settlers used the Constitution of the United States as the model for their new government. They designed a flag with red and white stripes with a single white star. And, of course, in 1824, the settlement was named Monrovia, after the American President James Monroe, and Monrovia remains the capital of the modern-day Liberia.

I can tell you that, unfortunately, because of arbitrary rule, economic collapse, corrupt governments, Liberia fell into two devastating civil wars in the span of a little more than a decade, as well as a legacy of a ruthless and reckless leader in Charles Taylor, who nearly destroyed the country, created regional instability, drawing in Sierra Leone, another country, and really creating an insecure situation. The most egregious of those things, in my mind, Congresswoman FUDGE, was the engagement of child warriors, children warriors in this fight.

During that fighting, Liberians suffered immensely. Over a quarter of a million lives were lost, and more than half of all of Liberia's 3.5 million people were driven from their homes, including those who found safe haven in our country to escape the violence.

I have visited Liberia a couple of times and heard some of the stories of people, women who were crossing the roads, pregnant and found themselves killed on the road right there for their food. I saw, looked into the vacant eyes of some of the child combatants that they are trying to rehabilitate in the country.

And so I was really pleased when late, late last week, our President, Barack Obama, given all of the challenges that he has, stopped to allow Liberians, who took refuge in our country from the civil war in their home nation to receive deferred enforced de-

parture protection for 12 more months. The President's recent order is so important because Liberians who have been granted either this temporary protected status, TPS, or deferred enforcement departure, DED, are allowed to remain in the U.S. rather than be forced to return to a country in the midst of war.

And let us not think for one moment, Congresswoman FUDGE, that this country is not still at war. And they are still at war because, despite the sage leadership of Ellen Johnson Sirleaf, she is taking tremendous steps to overcome the ravages of war. She is basically having to start from scratch from the destruction that was caused by these two wars. She is busy trying to rebuild the nation's education and health care system, oversee the deactivation and reintegration of the old security forces and ex-combatants. I mean, they need a new police service. Who do you trust and who don't you trust?

□ 2015

And this is a very excruciating process which the United States, of course, thank God, is helping them to do.

They have got to decommission these ex-combatants and help restore its shattered economy in the midst of the worst global recession in decades. Because of the extensive damage done by Charles Taylor and the conflict, things that we take for granted, such as roads, police to protect residents, courts to convict criminals, a basic economy, and confidence people have in its government have all got to be rebuilt. This is not a time to send President Ellen Johnson-Sirleaf another whole slew of people to provide educational opportunities for jobs. It is shocking to go to Liberia. It is the poorest day I have ever had in my life, Congresswoman FUDGE. I have never lived in a community that did not have a library, and I went to Liberia, a place where they do not even have a library in major parts of Liberia.

The challenges are many. Again, they lack health care, education; they suffer from an unemployment rate of 80 percent—yes, eight-zero—80 percent, lingering cultural and social effects from the legacy of war, and again, the haunting eyes of those child soldiers who have got to be reintegrated into society after experiencing or committing serious crimes. Seventy-six percent of Liberians in 2006 lived on less than \$1 per day. Fifty-two percent live on less than 50 cents per day. One hundred fifty-seven infants per 1,000 die before their first birthdays. Over 1,000 mothers die per 100,000 live births.

Most Liberians do not have access to safe drinking water. I was there in Liberia, and I had a bottle of water. Kids came up to me, fighting over the bottle of water, and I was very reluctant to give these children a bottle of water

that I had drank from. Someone said to me, "Ma'am, that is the cleanest water that they will ever have, perhaps, in their entire lives that is in that bottle." These are the conditions that they are living under. Electricity is sporadically available. The list goes on and on and on, and this is only an hour that we have here, Madam Chair.

One tool that the President does have, though, is the economic support flowing into her country from Liberians here in our country, some because of the special protections granted to them by TPS and DED. With the Liberian economy struggling and a global economic recession not making things any easier, money being sent to a country from relatives living in the U.S. is a veritable lifeline.

According to the Liberian government, remittances from the U.S. totaled \$60 million in 2007, providing essential support. According to the International Monetary Fund, Liberia's two civil wars have reduced Liberia's real gross domestic product to about 40 percent of its prewar level between 1989 and 2003. There is no magic wand available to President Johnson-Sirleaf to restore 60 percent of GDP overnight. Again, it would be extremely egregious for us to return citizens to that country without the prerequisite infrastructure. She has also, I hope, the steadfast support of this Congress and of this administration to Liberia and its people.

A couple of years ago, she was right here in this Chamber, and addressed a joint session of Congress, an honor thrust upon this inspiring leader because of the historic connection and special relationship between our two countries. In that address, she said, "The Liberian people are counting on me and my administration to create the conditions that will guarantee the realization of their dreams. We must not betray their trust. All the children I meet, when I ask what they want most, say, 'I want to learn.' 'I want to go to school.' 'I want an education.' We must not betray their trust."

The transition from conflict to peace is never quick nor easy. Madam Chair, I am afraid for the future of Liberia if we do not provide them with adequate support. I am going to amend my remarks and submit them for the RECORD.

In closing, I just want to commend President Obama for his welcomed step. He shares the strong belief that there is a beautiful democracy budding in Liberia, and I congratulate President Obama for his strong expression of support for our Liberia. The good thing about it is that this Nation is just rich with natural resources and that we now have a leader with credibility in President Johnson-Sirleaf. She is so decent as well as being brilliant. This can help create tremendous wealth for its people. It now has this capable leader for its vision, and the diamonds and min-

erals and its port can all lead to great prosperity, and we should be proud to be their great friend.

With that, I yield back my time to you. Thank you again for your stewardship over this hour.

Ms. FUDGE. Thank you very much.

Mr. Speaker, I would very much like to thank my friend and colleague, the gentlelady from Wisconsin, for her passion and for her insight.

At this time, I would now like to yield to the gentleman from New Jersey who, indeed, is the dean of the CBC as it relates to matters of Foreign Affairs, especially those in Africa.

Mr. PAYNE.

Mr. PAYNE. Thank you very much, Representative FUDGE. Let me commend you for taking the leadership for this hour on behalf of the Congressional Black Caucus. We certainly have appreciated your experience as a former mayor and as a person involved in politics in the State of Ohio and how you have come in, not as a trainee, but fully running. We know of the untimely death of your predecessor, Representative Stephanie Tubbs Jones, but we certainly appreciate your taking up the mantle and moving forward.

I would just like to speak briefly on several of the countries that we have mentioned.

We have just heard the gentlelady from Wisconsin talk about Haiti, and I might just mention briefly that Haiti has had a long and difficult history, highlighted by prolonged poverty, political instability and underdevelopment, resulting in a politically fragile state with the lowest standards of living in the entire western hemisphere. With the assistance of the United Nations Stabilization Mission in Haiti and large amounts of international aid, Haiti has been attempting to establish a foundation for longer economic development. Security issues have presented the primary risk to stability while restoring economic growth, investment, employment, and access to basic services have been the major and equally formidable challenges to sustainable development.

President Preval, since assuming his second nonconsecutive term in office in May of 2006, has emphasized the importance of rebuilding democracy, rebuilding Democratic institutions and of establishing conditions for private investment, which is key to the development of any country to create jobs. The success of his government will depend largely on its ability to improve security and social economics.

The condition in the country: 76 percent of the population lives on less than \$2 a day. These are conditions that make it very difficult. Security conditions have improved, but Haitians have seen their already substandard living conditions deteriorate further with the rise in global food prices and in the recent devastation by a series of hurricanes.

When people say, "Why Haiti? Why should we be concerned?" number 1, they are very close to our shores. Number 2, there has been a history of United States' involvement in Haiti. As a matter of fact, in the Battle of Savannah, when we fought for independence of the United States of America from Britain, Haiti sent soldiers over to fight in the Battle of Savannah. As a matter of fact, recently—and I visited last year—the statue that has been dedicated to Haitian soldiers who fought for the independence of the United States' 13 original colonies away from Great Britain.

Also, as we know, Haiti became the first revolt of enslaved people to defeat the colonists, and that sent a message throughout Central and South America. As you know, Haiti in 1804 defeated the forces of the great Napoleon's army, and as a result of this 12-year war between France and Haiti, France was defeated. There is great wealth that France would get from Haiti, which actually was more than all the 13 colonies of the United States provided for Britain. The one portion of the island of Española, of which Haiti is half of it and the other half is the Dominican Republic, gave more wealth to France. So, when France lost Haiti, it lost economics, and as a result, the Louisiana Purchase came about.

As you may know, at that time, the United States was landlocked. The United States only went to the Mississippi River, and it was the land that was owned by France. Because France after the long war with Haiti needed cash—it was land rich and cash poor—it sold the Louisiana Territory for, I think, about \$15 million and, therefore, opened up the West. The Lewis and Clark expedition started in St. Louis as a result of the purchase of the Louisiana Territory. So Haiti has had a tremendous impact on the United States of America.

Finally, about Haiti, part of the erosion which we see was spurred along in World War II. With the U.S. being cut off from the Pacific region, there was a need for rubber to be grown and produced. There was a Haitian grower who said that it was going to be impossible for rubber trees to grow in Haiti. However, the Haitian leadership wanted to help in the war effort and wanted to placate President Roosevelt, and so they cut down natural kinds of ecology, and tried to introduce rubber trees, which would not grow, which was already known by Haitian farmers, but they did it anyway. As a result, erosion started. This was one of the areas that, with the natural habitat taken down and the foreign intervention of other plants, Haiti's erosion also began.

So I just would like to say that we need to take a look at the status of Haitians in America. We need to change that situation so that people who have come to this country will

definitely have an opportunity to become full-fledged citizens of our country.

Let me just quickly talk about the Liberians who we have heard about, another country. We just heard our previous speaker talk about the fact that there was Deferred Enforcement Departure status which expired on March 31 of 2009 for Liberians as a result of the war with Charles Taylor. People got TPS, Temporary Protective Status, from Liberia. Then when that ran out, they had the Deferred Enforcement Departure, and we have gotten word that we believe that Liberians will be able to have a 1-year extension of the DED, from words that I received from President Obama's office.

Let me just say that, once again, in 1820, \$100,000 was funded by the U.S. Congress that went to help start Liberia. As you know, Monrovia was named after President Monroe, and many free black men and women went to Haiti. As a matter of fact, there was an integrated group of blacks and whites that went back originally, but the whites all died, and were unable to survive. Only the blacks survived.

□ 2030

And so we have had a long relationship with Haiti and with Liberia, and we should, certainly, with the 3,600 people who are in the DED current status, I hope that within the next year—and there will be a rally on Wednesday at 1:30 here at the west terrace at the Capitol that will allow Liberian leaders to come and show their appreciation for the extension, and we urge anyone who is free on Wednesday of this week at 1:30 to come and participate in the rally.

Finally, we've heard about Darfur. I was pleased that we were able to get the genocide resolution through, but I did expect more to happen from the world, and I have been disappointed.

I went to eastern Chad, and I spoke to an elderly woman who talked about what happened in her town: a pregnant woman was bayoneted there, a neighbor was shot. Even in huts they would lock, tie the door together and burn the huts and the boys would be burned to death, all of this by al-Bashir, the president who has been indicted by the International Criminal Court and should stand for trial.

As has been mentioned, there's been a long, north-south battle between the NIF government, the National Islamic Front, and the SPLA, the Sudanese Freedom—South Sudanese Liberation Movement, the late Dr. Garang, for 21 years. Four million people have been displaced, two million people have died.

And 21 days after Dr. Garang was able to get the comprehensive peace accord signed, his plane mysteriously crashed and Dr. Garang was killed.

I immediately went there and participated in the mourning and attended

the funeral of him. His wife and children—Rebecca, his wife, is very strong and continues to move forward on the question of South Sudan, the comprehensive peace agreement must be upheld and Darfur, the International Criminal Court, should go forward with the prosecution of al-Bashir. He has put out 13 nongovernmental organizations who are feeding people and are bringing in food and so forth. This must not stand, and he must be stopped.

We could talk about the Congo, but I will yield back the balance of the time so our chairperson of tonight's special order may be able to conclude in any manner that she sees fit. But let me once again thank you for taking this hour, and we still have much to do. The CBC, the conscience of the Congress, will continue to move forward, not only domestically, but internationally.

Ms. FUDGE. Mr. Speaker, I would very much again like to thank our teacher, our dean, our resident expert for his remarks this evening.

And now, Mr. Speaker, I would yield myself as much time as I may consume.

Mr. Speaker, the United States is a leader in advocating for human rights and humanitarian assistance. These ideals are embodied in the desire to assist and guide others that have lost hope.

At the United Nations World Summit in 2005, 191 members of the UN expressed support for the idea of a responsibility to protect. This responsibility to protect proclaims that mass atrocities that occur in one country are the concern of all countries. This echoes the great Dr. Martin Luther King, Jr.'s, declaration that injustice anywhere is a threat to justice everywhere.

With Dr. King's words in our hearts, I rise today to speak about the grave tragedies affecting individuals in Darfur and the temporary protective status, better known as TPS, for individuals from Liberia and Haiti.

I begin with the humanitarian emergency that is taking place in Darfur.

The history of the information in the Darfur region of Sudan is long and complicated. Sudan has been embroiled in a civil war for decades. The conflict took a turn for the worst in 2003 when the Sudanese government mobilized militias known as Janjaweds to attack opposition groups. The militia has brutalized the people of Darfur with murder, rape, torture, and pillage. They have burned down entire villages forcing people to flee their homes and their livelihoods. Entire portions of the region are now ruled by roving bands of armed gunmen.

Since 2003, 300,000 Darfuris have died as a result of a conflict, and approximately 2.7 million have been forced from their homes.

The conflict in Darfur is also having a devastating effect on its western

neighbor, Chad. Nearly 200,000 refugees from Sudan have joined the 90,000 persons displaced by the civil war in Chad. To further complicate matters, both Chad and Sudan have accused each other of supporting rebellions in their countries. Last week, however, the situation in Darfur took a grave turn for the worse.

Sudan's President, Omar al-Bashir, expelled 13 nongovernmental organizations, or NGOs, and 6,500 aid workers from the country. This was in direct retaliation for Bashir's indictment on war crimes and crimes against humanity by the International Criminal Court, better known as the ICC, on March 4, 2009. Bashir's unsubstantiated accusation that the NGOs were cooperating with the ICC investigation only heightens the urgency and necessity for an international response.

The civilian population is composed of two million people who are spread out among 200 refugee camps in Darfur, and in 12 refugee camps in eastern Chad. The UN estimates that 40 percent of Darfuris depend on outside assistance for their survival. This expulsion of humanitarian groups, such as Oxfam and Doctors Without Borders, will adversely affect millions of civilians who rely on NGOs for their most basic food and medical needs. Who will continue to provide these urgent services, Mr. Speaker?

The Sudanese government has clearly demonstrated that it is unwilling or unable to assist its citizens throughout this very conflict. The expulsion of the NGOs is only the most recent act that endangers millions of lives. This is why the international community must unite and forcefully declare that Sudan's government not hold its citizens hostage.

Last week, I and nearly 80 Members of this Congress sent letters to the Secretary General of the League of Arab States, the chairman of the African Union and the President of China urging them to insist that the government of Sudan allow humanitarian organizations to re-enter the country.

President Bashir must separate the ICC action from the charity relief efforts of relief groups. The expulsion violates international humanitarian law and damages efforts to resolve the conflict. Without the NGOs, more than one million Darfuris will be left vulnerable to disease and starvation. These are civilians, Mr. Speaker. They are caught in the cross hairs of a conflict they did not begin and they have no power to end.

By sacrificing his people for political gain, President Bashir has shown a call as disregard for human life that the international community cannot ignore. President Bashir must reverse the expulsion order and allow NGOs back into Sudan. The people of Darfur have suffered enough. To compound their anguish at this critical time is unconscionable.

I applaud President Obama's appointment of a special envoy to Sudan. President Obama named retired Air Force General Scott Graton last week as a special envoy to Sudan, choosing a close adviser with broad experience in the region. The President has indicated that the conflict in Darfur is a priority for his administration. The CBC is encouraged by the administration's stance, and we look forward to working with the President and the Special Envoy Graton.

At this time, Mr. Speaker, I would like to yield to my colleague from the State of Texas, the gentlewoman from the State of Texas, Ms. SHEILA JACKSON-LEE.

Ms. JACKSON-LEE of Texas. I would like to thank the gentlelady from Ohio, first of all, for her leadership in helping to share with our colleagues hour after hour enormously important issues facing not only the United States but facing the world. And I join her this evening.

And I was very appreciative of joining with my chairperson of the Congressional Black Caucus, who I just saw at another meeting who was able to be here, Congressman BARBARA LEE. I want to thank her for her leadership. The chairperson of my Subcommittee on Africa and Global Health, Chairman DONALD PAYNE, who speaks volumes about Africa, and as well, chairs the Foreign Affairs Task Force, of which I am a member of the Congressional Black Caucus; and one of our great leaders as well, Congresswoman GWEN MOORE. I know there were probably others that were here, and I did not get a chance to see them on the floor. But I do want to acknowledge that this is an important hour for us. And I am pleased to be able to join my colleague.

Let me just suggest that there are many ways that we can look at Liberia, Haiti, and Sudan. And it is my intent because I think we have talents here in the United States, Representatives of African nations, that, frankly, we don't get a chance to interact with as much as we would like. And I am going to accept the challenge given to me to host a meeting of African ambassadors that our colleagues will have a chance to sit down with and hear their story, their insight certainly on the issues that we're now raising, particularly Liberia and Sudan—obviously Haiti is in the Caribbean, and I will speak to that issue.

But let me tell you why I want to offer that suggestion. And the reason is because I sat down with one of our distinguished ambassadors last week who mentioned that with all of the meetings on the economy, the worldwide crisis in the economy, interestingly enough, the Continent of Africa is not on the agenda.

We heard an eloquent speech by Prime Minister Brown, and all of us were moved by his passion and his val-

ues, the Prime Minister of Great Britain. And I am told that he is as eloquent and as energized before his own Parliament and in international meetings as he was with us in the joint session.

And we are very blessed, if you will, by having an administration that has the cultural nexus and the heart and the intellect to be concerned about these issues. President Obama has been received overwhelmingly, his election, on the continent. I think we are poised to be of a gigantic opportunity to do what Prime Minister Brown has charged us to do: Don't forget the impoverished. Don't forget the journey we were on trying to address the question of poverty. And that was a big issue as it relates to Africa.

Now, of course, the economy has come and there may be donor nations who have made pledges who have not completed their pledges, but Africa still has the same concerns and therefore, it will be very important to hear from these ambassadors on the issues that we're talking about, which I expect to talk about here tonight.

For example, our esteemed president of Liberia who came out of the World Bank and who has a great respect of not only women of this country, but certainly of our administration and our past administration. She came to Liberia after Charles Taylor in a country that was void of infrastructure, void of water, void of—when I say “water resources,” infrastructure that would have clean running water; void of infrastructure that would have utilities or any mode of, if you will, phone, utility service; void of operating school systems. So we know that she has made great strides, and I have details here.

But at the same time, we are well aware that she needs more resources. We have to have this on the agenda. We have to be able to partnership with the African Union, for example, strengthen it as the African Union attempts to develop its own mission and mandate on how it addresses the issue of conflict.

So I think if I said anything about Liberia, there are certainly two major points: one, the Liberian Americans, but Liberia and the new president, Mrs. Johnson, is someone who has the, if you will, the monetary knowledge because of her experience here in the United States and her training in some of the financial structures of our country, but, also, the will to do it.

□ 2045

We must not forget Liberia in its journey toward economic independence, but it is a microcosm of the needs of the continent.

I also want to thank the administration, President Obama, for heeding the cry of many Members who wrote a letter about Liberian Americans. I'm told by our chairperson, Chairperson PAYNE, Liberian Americans will be

here in the Congress or on the West steps to highlight their plight of continued TPS status, deferred, if you will, deportation that has been going on and on and on.

We have got to solve that. That is something we can look to as we reform immigration. Many times when we discuss immigration, people start thinking it's not their problem, it's a global problem, it's a problem that faces many different ethnic groups. And we all need to come together as a family and fix it so people can be here legally; they can pay taxes; they can, in essence, be separated from those who want to do them harm.

So I want to put Liberia in the eye of the storm as it relates to the economy, and the challenge that the ambassador gave me was why don't you consult with us who are here and let us tell you the economic impact on the continent, what we need to be involved.

The second is, of course, Sudan and I might have been one of the last CODELS, congressional delegations, of three that were able to actually get into Darfur, into the camps. And I had spent time in Chad as well some years back before I was able to get into Darfur. I've been denied—it's a very long story of how long it took, and I frankly didn't know whether I'd get in the time that I went since we were among those who got arrested in front of the Sudanese embassy.

But we went into those camps, and the key thing that I want to say to the distinguished gentlelady is how valuable the NGOs were. They were literally the lifeline of the camps. They were a lifeline of the children. They were the lifeline of the women. And the women were the anchor of the camps because any man that would venture out to try to be a supportive family member, to provide income, would be killed by the janjaweed, or whatever the conflicts, they were targets. And so, mostly, it would be the women. Tragically, the women would be raped, and so things are not well.

And the complete disregard that the leadership of Sudan, the President of Sudan, has for the indictment, for the world family, there is no respect there. And we have a challenge, and we have got to be able to match the will of this country and our foreign policy, our belief in democracy, our belief in the security of children and family and the ability to live on your land without threat and danger and murder and pilage, we've got to the match that with the will of the countries on the continent, the African countries, the heads of States.

This is a new day now. This is in essence an America that has a commonality, that people are not only interested and are sacrificing on behalf of Sudan and the crisis there, but likewise, we have an administration that accounts Susan Rice, who is the U.N.

envoy who I worked with on the crisis between Ethiopia and Eritrea. She is a committed and knowledgeable person about the world but particularly about Africa, and I count on her wisdom. I count on the wisdom of the Secretary of State, Hillary Rodham Clinton, and I count on that foreign policy team, along with the envoy that our President has just selected, Major Scott Gration, that adds to the team that can now focus on Sudan but also focus on the continent of Africa.

I join in denouncing the treatment of our, if you will, NGOs. Just about a year or so ago, we lost a valiant State Department employee that was killed in Sudan, and I frankly have never gotten over it, and I offer my deepest respect and sympathy to his family. It was a horrific act.

And so it is important that we put our foot down on the atrocities that has occurred in Sudan, and people should understand, people are in Darfur because they have been moved off of their land. You can't help to rebuild this area, irrigate it, give people—these are farming people. Don't tell them, well, just go to the city and get another life, get a life. These people have lived on their land, and they have bothered no one. They've raised their families, and now they're being literally torn apart.

Southern Sudan, that tried to get on its feet, that has a lot of oil, it's still in conflict between the Khartoum government and Sudan. Southern Sudan, who has all the oil and cannot seem to get an agreement, to my current knowledge—and I may have need of some additional update to my current knowledge—has not been able to solve the distribution of the oil moneys, and so they're suffering. This is an immediate crisis that needs to be fixed.

As it relates to Haiti, let me again mention the work of the Congressional Black Caucus. We have been working on Haiti for, I don't know, as long as I've been here, but we have had wonderful conversations with President Preval who is a committed and dedicated leader, who is looking for funding for infrastructure, funding, if you will, to rebuild after the terrible onslaught of hurricanes that they had in the last year, 2008. He is looking to work with us and the Congressional Black Caucus in the appropriations process, and we're looking to work with him.

Haiti is a wonderful ally of the United States. We can never pay them for the blood that they shed standing alongside us in the Revolutionary War, and their victory was our victory. Our victory was their victory, and they're hardworking people. You can see that here in the United States, and you can see that obviously in Haiti.

And so what I think, as I close, that you selected hot spots that symbolize the need for us to be engaged, and as I said, finally with respect to immigra-

tion, Haiti, too, so many distraught cases of Haitians treated unfairly in the United States because they don't have the parity that happens when Cubans are fleeing persecution as is defined. Haitians have been fleeing persecution, economic persecution, political persecution, who are here and cannot return back. I want them to get parity, and any immigration bill that I have any hands on, it will be part of that bill.

And so I think it is extremely important, Mr. Speaker, that we look at these issues and be assured that we work on behalf of all of these people. It is our commitment to make their lives better by our statements here today on the floor, but also our collaboration to continue to work on the issues that impact people's lives and as well the quality of life. We need to save lives and we certainly need to save them.

I just want to put on the record that I am working with a Haitian teacher who has suffered so much. She teaches math. She's well-respected. She had a court order that said she was not going to be deported. It's a long story, but I simply want to let the Haitians in Houston know we have not forgotten her, and we want her to stay united with her family.

Thank you very much for your leadership.

Mr. Speaker, I am pleased to rise in support of Sudan, Liberia and Haiti. These are three of the most troubled nations in the world, desperately in need of support from other nations, including the United States.

SUDAN AND DARFUR

I am pleased that President Obama has appointed a Special Envoy to Sudan. Major General Scott Gration is both a humanitarian and a professional soldier. He has proudly served our country but more importantly brings to this position the experience and gravitas necessary to lead our mission.

The United States has for most of our history been a leader among nations in attempting to help foment democracy and bring peace to warring parties in regions throughout the world.

Sudan's western region of Darfur has been embroiled in violent conflict since 2003, which has brought a weighty death toll and displaced over 2 million people. Just recently, Darfur rebels killed 200 people near the capitol city of Khartoum. With violence continuing to worsen in the region, I call on the international community to renew its commitment to finding a solution to the conflict in Darfur.

In 2007, I had the chance to lead a Congressional Delegation to the region of Darfur to see the first hand devastation that has swept through the region.

As Chair of the Congressional Children's Caucus, I am very concerned about the displaced children who suffer due to the lack of nutrition and access to clean water. Additionally, child mortality remains a significant problem throughout the region. I am also concerned that the global food crisis could exacerbate the conflict, placing more children at risk.

We, as a Global community, must unite to address this issue. Let us not let race, religious ties, or bureaucratic systems hinder us from fight for the people of Darfur. As a member of the House Foreign Affairs Committee, I will continue to work towards a solution for the ongoing conflict in Darfur. We must remain steadfast to gaining peace in the region.

Darfur has been embroiled in a deadly conflict for over four years. During that time, at least 400,000 people have been killed; more than 2 million innocent civilians have been forced to flee their homes and now live in displaced-persons camps in Sudan or in refugee camps in neighboring Chad.

And more than 3.5 million men, women, and children are completely reliant on international aid for survival. Not since the Rwandan genocide of 1994 has the world seen such a calculated campaign of displacement, starvation, rape, and mass slaughter.

Since early 2003, Sudanese armed forces and Sudanese government-backed militia known as "Janjaweed" have been fighting two rebel groups in Darfur, the Sudanese Liberation Army/Movement (SLA/SLM) and the Justice and Equality Movement (JEM).

The stated political aim of the rebels has been to compel the government of Sudan to address underdevelopment and the political marginalization of the region. In response, the Sudanese government's regular armed forces and the Janjaweed—largely composed of fighters of Arab nomadic background—have targeted civilian populations and ethnic groups from which the rebels primarily draw their support—the Fur, Masalit and Zaghawa.

The Bush Administration recognized these atrocities—carried out against civilians primarily by the government of Sudan and its allied Janjaweed militias—as genocide. António Guterres, the United Nations High Commissioner for Refugees, has described the situation in Sudan and Chad as "the largest and most complex humanitarian problem on the globe."

The Sudanese government and the Janjaweed militias are responsible for the burning and destruction of hundreds of rural villages, the killing of tens of thousands of people and rape and assault of thousands of women and girls.

With much international pressure, the Darfur Peace Agreement was brokered in May 2006 between the government of Sudan and one faction of Darfur rebels. However, deadlines have been ignored and the violence has escalated, with in-fighting among the various rebel groups and factions dramatically increasing and adding a new layer of complexity to the conflict.

This violence has made it dangerous, if not impossible, for most of the millions of displaced persons to return to their homes. Humanitarian aid agencies face growing obstacles to bringing widespread relief. In August 2006, the UN's top humanitarian official Jan Egeland stated that the situation in Darfur is "going from real bad to catastrophic." Indeed, the violence in Darfur rages on with government-backed militias still attacking civilian populations with impunity.

On July 30, 2004, the UN Security Council adopted resolution 1556 demanding that the government of Sudan disarm the Janjaweed.

This same demand is also an important part of the Darfur Peace Agreement signed in May of 2006.

On August 31, 2006, the Security Council took the further step of authorizing a strong UN peacekeeping force for Darfur by passing resolution 1706. Despite these actions, the Janjaweed are still active and free to commit the same genocidal crimes against civilians in Darfur with the aid of the Sudanese government.

International experts agree that the United Nations Security Council must deploy a peacekeeping force with a mandate to protect civilians immediately. Until it arrives, the under-funded and overwhelmed African Union monitoring mission must be bolstered. And governments and international institutions must provide and ensure access to sufficient humanitarian aid for those in need.

The Darfur Accountability and Divestment Act of 2006, H.R. 180, sponsored by my colleague BARBARA LEE would require: The Securities and Exchange Commission's (SEC) Division of Corporate Finance and the U.S. Treasury to require all companies listing securities on United States capital markets, either directly or through a parent or subsidiary company, including partly-owned subsidiaries, having business operations in a country with a genocide declared by the Department of State or Congress, to disclose the nature of their business operations.

The United States Government (federal) to prohibit contracts with multi-national business enterprises if: They maintain business relationships and investments with national, regional and local governments involved in genocide; and they participate in business activities with any warring parties or rebel groups perpetrating genocide. States and Cities that have divested or are in the process of divesting State and City funds from companies that conduct business in Sudan; and United States colleges and universities that have divested their funds from, or placed restrictions on investments of their funds in, companies that conduct business in Sudan.

The Government Accountability Office (GAO) to investigate the existence and extent of all Federal Retirement Thrift Investment Board investments with national, regional and local governments involved in genocide; or business activities with any warring parties perpetrating genocide; or related to debt-obligations issued by the government of Sudan.

Also, the Chairman of the Securities and Exchange Commission is charged with maintaining and publishing a list of the names of the business enterprises identified by the Securities and Exchange Commission as having ties with perpetrators of genocide.

It also reasserts Section 11 of the Darfur Peace and Accountability Act (stripped from the Senate version) that nothing in that act or any other provision of law shall be construed to preempt any State law that prohibits investment of State funds, including State pension funds, in or relating to the Republic of the Sudan.

LIBERIA

Mr. Speaker, A part of the world that has been neglected for many years is West Africa. And one of the gems of this region is Liberia. I am pleased that Liberia's temporary protective order was extended.

Temporary Protected Status (TPS) is the statutory embodiment of safe haven for those aliens who may not meet the legal definition of refugee but are nonetheless fleeing—or reluctant to return to—potentially dangerous situations.

There are numerous regions throughout the world where discrete and insular minorities might need this type of relief. TPS is blanket relief that may be granted under the following conditions: there is ongoing armed conflict posing serious threat to personal safety; a foreign state requests TPS because it temporarily cannot handle the return of nationals due to environmental disaster or there are extraordinary and temporary conditions in a foreign state that prevent aliens from returning, provided that granting TPS is consistent with U.S. national interests.

The Secretary of Homeland Security in consultation with the Secretary of State, can issue TPS for periods of 6 to 18 months and can extend these periods if conditions do not change in the designated country. To obtain TPS, eligible aliens report to U.S. Citizenship and Immigrant Services (USCIS) in the Department of Homeland Security (DHS), pay a processing fee, and receive registration documents and a work authorization. The major requirements for aliens seeking TPS are proof of eligibility. The regulation specifies grounds of inadmissibility that cannot be waived, including those relating to criminal convictions and the persecution of others.

The United States currently provides TPS or deferred enforced departure (DED) to over 300,000 foreign nationals from a total of seven countries: Burundi, El Salvador, Honduras, Liberia, Nicaragua, Somalia, and Sudan. Liberians have had relief from removal for the longest period, first receiving TPS in March 1991 following the outbreak of civil war. Liberians currently have DED until March 31, 2009, and has now been extended by the Obama Administration.

Liberia is Africa's oldest republic, but it became better known in the 1990s for its long-running, ruinous civil war and its role in a rebellion in neighboring Sierra Leone. By the late 1980s, arbitrary rule and economic collapse culminated in civil war when Charles Taylor's National Patriotic Front of Liberia (NPFL) rebels overran much of the countryside, entering the capital in 1990 and killing then President Samuel Doe. In 1995, a peace agreement was signed, leading to the election of Mr. Taylor as president. Another war began in 1999, escalated in 2000, and ended in 2003.

It pitted the forces of Charles Taylor, elected president in 1997 after Liberia's first civil war (1989–1997), against two armed anti-Taylor rebel groups. It also destabilized neighboring states, which accepted Liberian refugees and, in some cases, hosted anti-Taylor forces and became targets of the Taylor regime.

In 2003, Mr. Taylor—under international pressure to quit and hemmed in by rebels—stepped down and went into exile in Nigeria.

A transitional government headed by Chairman Gyude Bryant steered the country towards elections in 2005. Around 250,000 people were killed in Liberia's civil war, and many thousands more fled the fighting. The conflict left the country in economic ruin and overrun

with illegal weapons. 15,000 U.N. peacekeepers were deployed to help in stabilizing the country.

Liberia held elections in October 2005, with a presidential runoff in November, a key step in a peace-building process following its second civil war in a decade. Ellen Johnson Sirleaf, an economist, won the presidential runoff vote, with 59.4 percent of votes cast and took office in mid-January 2006, becoming the first female president of an African country.

Most observers viewed the vote as orderly, free and fair. It fulfilled a key goal of an August 2003 peace accord that had ended the second civil war and led to an ongoing, U.S.-aided post-war transition process, which is bolstered by the multifaceted peacekeeping and development-focused U.N. Mission in Liberia (UNMIL).

Liberia's security situation is stable but subject to periodic volatility. Liberia's economy and state structures remain devastated by war. Humanitarian conditions are improving.

Liberia receives extensive U.S. post-war reconstruction and security sector reform assistance. In March 2006, former President Taylor was arrested in Nigeria and transferred to the U.S.-supported Special Court for Sierra Leone (SCSL) to face war crimes charges. He was later transferred to The Hague, the Netherlands, where he is on trial by the SCSL.

In addition to providing substantial support for Liberia's post-war peace and reconstruction processes, Congress has maintained a continuing interest in the status of Charles Taylor and in ensuring funding for the SCSL. Other legislation proposed in the 109th and noth Congresses centered on immigration, debt, and tax haven issues, and the commendation of Liberia for successfully holding elections.

The United States has voiced continuing support for President Sirleaf's government since she took office. In February 2008, former President Bush and Mrs. Bush traveled to Liberia, among other African countries. The general aim of the trip was to discuss continued U.S. partnerships with African countries in the areas of democratic reform, respect for human rights, free trade, open investment regimes, and economic opportunity.

In Liberia, President Bush's trip focused on U.S. help in strengthening Liberia's post-war democratic institutions, Governance and Economic Management Assistance Program (GEMAP) efforts to improve management of public finances and combat corruption.

It also highlighted Liberia's status as a target country of the President's Expanded Education Initiative, which through a program component called the Ambassador's Girls' Scholarship program had as of early 2008 supported 2,700 scholarships for girls in Liberia, and its status as new President's Malaria Initiative recipient country. It also drew attention to U.S. security sector reform efforts in Liberia.

Former First Lady Laura Bush and Former Secretary of State Rice, among other prominent U.S. guests, attended President Sirleaf's inauguration in 2006. Their presence, Sirleaf noted in her inaugural speech, "manifests a renewal and strengthening of the long-standing historic special relations which bind our

two countries and peoples." She also stated that it "reflects a new partnership with the United States based on shared values" and that Liberians are "confident that we can continue to count on the assistance of the United States [...] in the urgent task of rebuilding of our nation."

President Bush awarded the U.S. Presidential Medal of Freedom to Sirleaf in November 2007. President Sirleaf has made several official visits to the United States, including in February 2007, when she attended a World Bank-organized Liberia Partners' Forum donor meeting in Washington, DC. She made another such visit in March 2006, during which she addressed a joint session of Congress on March 15 and met with President Bush on March 21.

She reportedly closely consulted with U.S. officials regarding her priorities for Liberia and the status of Charles Taylor. During a pre-inaugural December 2005 trip to the United States, Sirleaf also met with key U.S. and international financial institution officials.

Liberia-related activities by the 110th Congress built on those pursued by the 109th Congress. Congress continued to monitor the activities of the SCSL and, in particular, the Taylor war crimes case, and provide funding for the SCSL. Congress's focus on Liberia also centered on aiding Liberia's efforts to consolidate its post-war governance and economic rebuilding processes. Issues that drew particular congressional attention included:

Efforts to rehabilitate schools, clinics, roads and other public facilities; Progress under the GEMAP transparency initiative; Progress of U.S.-backed security sector restructuring, and possible expansions of related assistance, e.g., for the creation of a quick reaction gendarme unit; increased mobility capacity building for the police and military; and maritime waters and land border monitoring and interdiction capacity building.

Consideration of potential continued support for UNMIL and the pace of its projected draw-down; and U.S. decision-making on debt relief for Liberia and the status of future Brooke Amendment restrictions on Liberia. The U.N. voted to lift a ban on diamond exports, which fueled the civil war, in April 2007. A ban on timber exports was lifted in 2006.

Liberia's security situation is stable but subject to periodic volatility. Progress in governance under the interim government that preceded that of President Sirleaf was mixed; widespread corruption within it was widely reported. Liberia's economy and state structures remain devastated by war.

Humanitarian conditions are improving. Liberia receives extensive U.S. post-war reconstruction and security sector reform assistance and in addition to providing substantial support for Liberia's post-war peace and reconstruction processes, Congress has maintained a continuing interest in the status of Charles Taylor and in ensuring funding for the SCSL.

I hope that President Obama makes his way to Africa very soon. And his presence in a country like Liberia would be a bold statement that change is on the way.

HAITI

Mr. Speaker, I also rise today in solidarity with my colleagues on the Congressional Black Caucus, to speak against the United States' unfair treatment of the people of Haiti.

Haitians should also receive a Temporary Protective Order. Haiti is one of the most impoverished countries in the western hemisphere and the fourth poorest country in the world. There are 8.3 million people residing in Haiti.

The people of Haiti are also facing a severe medical crisis as a result of their poverty. Haiti is the home of 90% of all HIV/AIDS patients in the Caribbean. Over 200,000 Haitian children will be orphaned by HIV/AIDS. Child mortality rates in Haiti are also excessively high. For every 1,000 births in Haiti, 74 infant deaths will occur.

The social conditions in Haiti are as deplorable as the medical condition. Of the millions of Haitian residents, only 46% have access to clean drinking water. Furthermore, 53% of all Haitian residents are malnourished.

Despite our close proximity to Haiti, and the widespread publication of the social and medical plight of Haitian residents, the U.S. government has insisted on blocking humanitarian aid. The U.S. government is attempting to shape the political landscape in Haiti to the severe detriment of the innocent people of Haiti.

The United States government owes Haiti substantial funds in foreign aid. Substantial loans have been negotiated for the people of Haiti. Some estimates have the loans valued at as much as \$146 million dollars. The United States government is delaying the disbursement of these funds to advance their political aims. While the U.S. government stubbornly maintains these restrictive policies the people of Haiti are suffering and dying.

The U.S. government has promised Iraq \$80 billion in aid to rebuild their war torn country. The people of Haiti have suffered as well. But instead of providing much needed aid, the U.S. government blocks humanitarian efforts and refuses to honor outstanding loans.

Mr. Speaker, it is a disgrace that our Congress stands by while the people of Haiti suffer and die. I join my colleagues on the Congressional Black Caucus in imploring the U.S. government to let Haiti live.

Ms. FUDGE. Mr. Speaker, I would like to thank my friend and colleague because she always does bring great focus and great insight, and I thank you so much.

Mr. Speaker, I will close with a few comments.

Mr. Speaker, the suffering of the people of Haiti and Liberia are pressing issues. The United States has more options available in dealing with Haitians and Liberians. It is time for the United States to exert that control and extending temporary protected status, or TPS, for individuals from Haiti and stand by our TPS for Liberians.

As a signatory to the United Nations protocol relating to the status of refugees, the United States has agreed that it will not return an individual to a country where his life or freedom would be threatened. U.S. immigration law employs TPS designations to address this very issue. TPS protects individuals from being deported to a country where that person would be threatened on the basis of race, reli-

gion, nationality, membership in a particular group, or political opinion.

TPS is also sought by those aiming to flee extreme poverty, deprivation, violence, and the dislocation brought on by famines or natural disasters in their home countries.

Mr. Speaker, I think that it is time for this country to understand the significance of helping those who cannot help themselves.

I began this hour talk about a quote from Dr. Martin Luther King, and I will close with the same one, that injustice anywhere is injustice everywhere.

Mr. Speaker, I just ask that this Congress and the Members who are hearing this or who will read this at some other point do make themselves aware of the plight of the people who we spoke about today.

Ms. WATERS. Mr. Speaker, on March 4th, the International Criminal Court (ICC) issued an arrest warrant for Sudanese President Omar Hassan Ahmad al-Bashir for war crimes and crimes against humanity.

That very same day, following the ICC's decision, the Government of Sudan expelled 13 non-governmental organizations (NGOs) from Darfur, accusing them of cooperating with the ICC investigation. These non-governmental organizations include many of the most respected humanitarian organizations in the world. Among them are Oxfam, Doctors Without Borders, International Rescue Committee, and Mercy Corps.

The withdrawal of these organizations will leave millions of civilians without access to food, clean water, and medical assistance. This outrageous action is just another example of the cruelty of the Government of Sudan towards its own people. And it proves that the ICC's decision to issue an arrest warrant for Bashir was entirely justified.

The Government of Sudan has been carrying out a campaign of genocide against the people of Darfur since 2003. The Sudanese government is supporting militia groups that are engaged in genocidal practices in communities of African farmers in the Western province of Darfur. These militias are razing villages, systematically raping women and girls, specifically targeting and destroying food and water supplies, and massacring communities. In the last five years the conflict has taken the lives of hundreds of thousands of civilians. On October 1, 2008, the United Nations reported that there were almost 2.7 million internally displaced persons in Darfur, almost 300,000 of whom were newly displaced in 2008, and an additional 2 million people continue to be directly affected by the conflict.

In July of 2007, the United Nations Security Council passed Resolution 1769, which authorized the deployment of a joint United Nations/African Union peacekeeping force in Darfur, known as UNAMID. The force was to consist of a total of 26,000 troops. However, UNAMID was deployed at only 63 percent of its full strength as of December 31, 2008, and does not have the capacity to fulfill its mandate to protect civilians in Darfur. UNAMID must immediately deploy its forces at their full strength, and take all necessary and appropriate action to protect the people of Darfur.

Early in 2006, I visited the Darfur region with my good friend from California, Speaker NANCY PELOSI, and I was deeply disturbed by what I saw. As far as the eyes could see, there were crowds of displaced people who had been driven from their homes, living literally on the ground with nothing but little tarps to cover them. That was three years ago, and yet this genocide has been allowed to continue.

If we are serious about opposing genocide, we must take decisive action to stop it.

We must demand that all nations respect and enforce the decision of the ICC.

We must demand that humanitarian organizations be allowed to return to Sudan.

We must enact and enforce comprehensive sanctions against Sudan without exceptions.

We must demand that China stop bankrolling the genocide.

And we must demand that the United Nations immediately deploy its peacekeeping forces and do everything necessary to protect civilians and save the people of Darfur.

It's long past time to get serious about genocide.

ECONOMIC SITUATION FACING OUR COUNTRY

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Louisiana (Mr. SCALISE) is recognized for 60 minutes as the designee of the minority leader.

Mr. SCALISE. Mr. Speaker, I appreciate the opportunity to address the House for an hour. We're going to be talking about the economic situation facing our country and specifically the budget situation.

Just about a month ago, the President right here on this floor laid out some of the proposals for what his budget would represent, and then the next day he laid out the blueprint for that budget. And I think it caught a lot of people around the country by surprise, really caused some great concern by people, especially as it relates to this record level of funding, taxing, and borrowing.

And over the last few weeks, you've heard a lot of people laying out those details, just what that spending means, just what those taxes mean in terms of the average cost to American families. The middle class families, not just rich people as was purported, but middle class families will be paying over \$3,000 on an energy bill.

And then what I think really frightened the American people was the record level of borrowing that this budget represents, and with over \$1.7 trillion in the first year in next year's budget that the President has submitted, over a tripling of the deficit that was, quote, unquote, inherited.

And so, as these record levels of spending and taxes and record levels of borrowing have been laid out, you've heard a chorus of echoes, not just by those of us here in this Chamber who

are strongly opposed to that irresponsible spending, to that unprecedented level of taxing that will literally stifle the growth of small businesses and middle class families, but also the borrowing that affects our next generation. This isn't money that we have. This is money that would be borrowed from our children and our grandchildren, saddling them with, on estimates, of over \$3,000 of debt just in the President's spending bill, that \$800 billion piece of legislation called stimulus, that just in its first few weeks added more than \$3,000 of national debt on to the backs of every man, woman and child in this country.

And so with that, I wanted to lay out some of the details of just what the spending means, just what these record deficits mean to the American people, to a budget process, and historically, to lay out where these deficits that the President's budget really stand in relation to history in time because these are things that have not passed yet.

And the American people all across the country, they've had these tea parties that have been sprouting up in States all throughout the Nation and literally hundreds, in some cases thousands, of people are showing up and saying enough is enough, Mr. President and Members of Congress, stop this reckless spending, stop and back away from these tax increase proposals that will stifle middle-class families and our small businesses and don't go and borrow trillions—not hundreds of billions—but trillions of dollars from our families, from our children and our grandchildren who we want to leave a better life to. We don't want to saddle them with trillions of dollars in new debt.

And some of these charts that we're going to show and talk about really illustrate what this means, what these budgets mean because these budget documents that are being debated up here in Congress, they talk about big numbers and they talk about programs. And some of these are government programs that are good, successful programs. Some of these are government programs that should have never been in place in the first place. Some of them are programs that are failing, yet will be getting more money from the Federal Government.

And where is this money coming from? And as people look and ask these tough questions, what they realize is this is money we don't have. This is money that would be borrowed in record numbers, and this chart right here shows real well, leading into this administration taking office just 2 months ago, the fact that the deficit at the end of the current fiscal year will be more than tripled by the President's proposed budget.

This budget in 2010 is the President's proposed budget, over \$1.7 trillion, and in fact, on Friday, the Congressional

Budget Office came out with revised numbers. And unfortunately, those revised numbers were not good for the President. They surely were not good for the taxpayers of this country. They were not good for our children and grandchildren.

My daughter, Madison, who's 2 years old, will be inheriting more of this debt, thousands of dollars in national debt. Now this deficit that was projected to be \$1.7 trillion has risen to \$1.9 trillion just in the last few days.

□ 2100

There's no end in sight. What we're saying is: Mr. President, don't go down this road. There is a better way. We need to rein in the spending that is going on here in Washington. We need to look out across the country and see what other people that are dealing with these tough economic times are doing.

Families are cutting back, Mr. Speaker. Families are cutting back to deal with these tough economic times. They're making adjustments in their household budget. They're stretching their dollars. Some people are saving and paying down debt. And at time that we're seeing families making responsible decisions and States dealing with their deficits—and yes, States are hurting too—but States are making cuts to be responsible.

It seems like here in Washington is the only place where spending is out of control and people just think there's no end. But there is an end. As people ponder these record deficits that are shown on these charts, one of the things we're going to try to do here in this House, at least, is to let the people's voices be heard and say: Enough is enough.

We've got to stop this out-of-control spending. It hasn't happened yet. These bills have not even been filed yet. Just the outlines. This \$1.7 trillion number for next year's deficit hasn't even gone through a committee process yet.

So there's still time to stop this. There's still time to stop this out of control spending. That's what we're going to be talking about tonight.

We're going to show some more charts and we're going to talk some more about the historical and future numbers. First, I'd like to yield to the gentleman from Ohio, a friend of mine who has been talking about this same issue for weeks and months as well, my friend, Mr. JORDAN.

Mr. JORDAN of Ohio. I thank my friend and colleague from Louisiana. I appreciate his good work on this issue and many others. My friend mentioned the tea parties that are taking place across this country. The reason you see families and taxpayers and Americans gathering at these events is because they get it. I learned a long time ago that the people always get it before the politicians do. And they understand

that this kind of spending and what it means for their kids and their grandkids and what it means for future generations of Americans is just plain wrong.

My colleague has pointed out some of the numbers. But just put it in perspective of just what has happened in the last 6 weeks. First, we had the \$700 billion so-called stimulus and all the program spending that was in that bill. The bill was designed to help jumpstart our economy, but we all know it was mostly just spending on Federal Government programs.

Then we had the \$410 billion omnibus with its over 800 earmarks. Now, this week, with the budget vote going to happen in the Budget Committee, which I have the privilege of being a member of, we will now have, as my colleague pointed out, a budget that has the 10 largest annual deficits in American history. A budget that will go from—and this is important—from 29 percent of GDP spending to over 28 percent of the gross domestic product. A budget that will increase spending over \$1 trillion this year; a budget that will double the national debt in the next 8 years.

Frankly, and I think this is interesting, a budget that adds more to the debt in 6 years—now, think about this—this administration is going to add more to the national debt with their budget numbers in the next 6 years than it took all 43 previous Presidents to accumulate. So more than 6 years that it took over 200 years to get to. That's how much spending we are talking about.

You don't take my word for it. Take the statement that Senator GREGG made today, where he said this budget is going to, in his words, "bankrupt the country." This is the same guy that the Obama administration wanted as a part of their administration. Initially offered him the job of Commerce Secretary.

Take some senior Democrat Members of the Senate. Senator CONRAD said, "More discipline on the spending side is also going to be required of this budget." Some Democrats are getting the idea this budget is way out of line. They understand what my colleague talked about, and that is this budget is harmful to future generations of Americans, harmful to our economy, and is the wrong direction to go.

We need a budget that spends less, taxes less, and borrows less. That is what we want to talk about this evening.

I'm happy to yield back to my colleague, and look forward to participating more in this hour. But I appreciate his leadership on this issue and reserving this time this evening.

With that, I yield back.

Mr. SCALISE. Again, I want to thank my friend from Ohio for pointing that out. One of the things you talked about

is where all of this spending has gone just in the last few months. We've heard a lot of talk over the past few months—the last 2 months, really, that President Obama has been in office—about all of the problems that have been inherited; that were laid on his doorstep when he became President.

We've got to be very careful at paying attention to the facts and looking at in fact how we did get here today, now that we are in March. This isn't something that started before January 20 when the President took the oath of office.

We've got a chart right here that actually shows some of the spending that my friend from Ohio was talking about. When we go into this stimulus bill, as it was called, a stimulus bill that spent \$787 billion in today's dollars, the Congressional Budget Office expects that with interest and debt service it will end up costing over \$1.2 trillion in deficit spending—money we did not have.

This bill was a bill that President Obama himself filed—not a bill, in our opinion, that will help get the economy back on track. It was a bill that did some spending on some infrastructure issues. Less than 10 percent of that bill in fact was spending on infrastructure.

The vast majority of that bill was spending on government—growing the size of government, both Federal Government and State governments, and actually adding employees not to the private sector, which is what many of us want to see. When we talk about stimulus, we think about how we help those small businesses get that loan to go out and use their entrepreneurial spirit to create jobs in the private sector, to put people to work, to give people the opportunity for a lifelong career, not creating more jobs in government, growing the size of a government that's already too big.

In fact, that's what that stimulus bill did. It added over \$1 trillion. And you see a spike in spending there. And then immediately right after that, less than a week, a bill that got little notice because it happened right after the President's spending bill, which he dubbed the stimulus bill, was this omnibus spending bill—over \$400 billion, a bill that grew the size of government by 8 percent in 1 week. In 1 week.

Over \$400 billion coming on the heels in February of that stimulus bill. And you see the spike that it created in spending. None of this was spending that the President inherited. This was all spending that he created on his own. In fact, we just found out—we're going to continue for months, unfortunately, finding out some of the things that were in that bill because that so-called stimulus bill was over 1,000 pages long. Again, over \$1 trillion in actual spending.

That bill was filed on a Thursday night. That final bill that was voted on in the House on a Friday, it was filed

at 11 p.m. on a Thursday night. Nobody on the Democratic side, even those who were actually on the conference committee, had the opportunity to read it.

And now we are starting to find out some of the things that were in that bill—not things that help stimulate our economy to get our economy back on track. In fact, just last week we found out as the country was outraged, rightfully so, finding out that executives from AIG were receiving bonuses—over \$160 million in bonuses—from Federal money that they got from that financial bailout, which many of us here opposed.

But we found out that they got that money under the authority of language that was put in the President's stimulus bill. That's right. The stimulus bill that this President signed in February actually contained language that was inserted by dark of night. No one wants to take credit for it. But we know now Senator CHRIS DODD, the Democrat chairman of the Banking Committee, was instructed by White House officials to put language in the President's stimulus bill protecting the ability of AIG to give out bonuses. That was in that stimulus bill.

Who knows what else is in there because we continue to find out more of the damaging repercussions from that bill. Yet, that bill gave us over \$800 billion of immediate increased national debt. Over \$3,000 for every man, woman, and child came from that stimulus bill in new deficit spending.

Again, another chart that displays just how high these record deficits are, because when you start talking about numbers and billions of dollars become hundreds of billions and then it becomes trillions of dollars, as we're talking now, sometimes it's hard for people to grasp numbers when you get into that range because it's just numbers that this country has never seen before. These are unprecedented amounts of spending.

Yet, when you talk about a \$400 billion deficit, which occurred in 2004 and, as can you see, there was a trend downward. Those deficits were actually decreasing under President Bush. Still, spending that many here are not comfortable with and would not have liked to see continue.

I am a cosponsor of a bill to balance the Federal budget. We should have a balanced budget in Washington. Unfortunately, we don't. But at least there was a trend downward to reduce the size of those deficits. Then, here comes the President's budget. Files it. Over \$1.7 trillion in deficit spending. You see this massive spike. Largest deficit in the history of our country. That comes off the back of the President making the quote, "We cannot simply spend as we please and defer the consequences."

President Obama said that right here on this House floor on February 23. "We cannot simply spend as we please

and defer the consequences." Then, the next day he filed a bill, his budget outline, that actually adds a \$1.7 trillion addition to our national debt in 1 year.

So, ultimately what people are more concerned about is the actual deeds. Not as much the words, but the actions. The actions are scaring a lot of people in terms of these record levels of spending.

With that, we've got a friend of ours from Louisiana, a new Member, somebody who has been passionate in this cause of controlling deficit spending, getting a hold of runaway spending in Washington, Dr. Fleming.

Mr. FLEMING. Well, I thank the gentleman, my fellow Louisianan, Mr. SCALISE, for yielding for a moment. I also thank my friend from Ohio (Mr. JORDAN) for his comments as well.

You know, we are talking a lot about budget deficits. And we hear this word to the point where we're almost numb. We have to ask ourselves: Well, what difference does it make? If we go another year in deficit spending or perhaps over \$1 trillion in deficit spending, is it going to change our lives?

So I think the average person out there who's maybe watching us on C-SPAN this evening has got to contemplate: What difference does that make?

Well, let me point out a couple of things in history that maybe we should think about. You may recall that during World War I, the allies defeated Germany and, after doing so, we required war reparations. The only way that Germany could deal with that, could actually make those war reparation payments, was just to print more money. They had to deficit spend big time.

It became such a problem that it literally took a wheel barrow to carry enough currency to go buy a loaf of bread. Of course, that sounds silly. It sounds like a caricature. But these people were in desperate need.

We, of course, suffered during the Great Depression. But the Germans, because of this, were in a tremendous need. It caused a complete collapse of their culture and their society. And what did we get in return? We got Nazism. We got Adolph Hitler. He took control of Germany only because that country became so desperate that it could not keep what was otherwise a democracy, could not keep that going.

We fast forward to the 1960s when we went through this second wave, if you will, of social programs in America; the first being, of course, the New Deal under FDR and so forth.

We have Lyndon Johnson who, of course, instituted many entitlement programs, many of which we have today. We saw that that deficit spending began at that point, and it began to accelerate. It was worsened by a prolonged war in Vietnam. But we really didn't see evidence of it, just like today.

Well, are we really seeing evidence of budget deficits? Are we really impacted in our daily lives?

Well, slowly but surely as the seventies rolled around and we began to also have problems with energy, we began to see inflation going up to the tune of 10, 12, 13 percent. We also went into a period of stagflation, where the economy became stagnant, prices remained high. The people who were hurt the most in all that were people on fixed incomes, because every year their dollars bought less.

□ 2115

And so then this country got into something we call cost of living increases, and everybody looked forward to that. They had to have the cost of living increases. But some got more than others and some didn't get any at all, and so we saw the deterioration in our economy and our standard of living as a result of inflation. To solve this, we put the hammer down by cutting off the supply of money, which made interest rates go up. I can remember trying to buy a house and getting a mortgage for an 18 percent interest rate, and that is because we were trying to bring the growth of money under control.

Mr. Speaker, the impact of deficit spending and budgets that are out of control do affect us in everyday life. I am old enough to have seen this happen, have studied it in school, have family members who were injured during World War II indirectly as a result of some of these financial consequences that occurred.

I feel like one of the main problems we have with our government today is we don't learn from history. History just seems to repeat itself over and over and over again. If there is anything we have learned in the past, that is that we have got to have fiscal discipline in our government. At home, I have to balance my budget, as difficult that is sometimes. My city, my State, they all have to balance the budget. Why is it that my Federal Government, the most important government, the most powerful government in this world, why is it that it can't keep its fiscal house in order?

I am a newbie Congressman, I have only been here 2 or 3 months. Before I came here, I really have had this nagging question: What is it about Washington that Washington can't get it right? And I was hoping that in coming here I would get at least some insight as to why we do crazy things with our spending and so forth. Unfortunately, now that I am here, it is worse than I ever thought. I am still seeking those answers.

Mr. SCALISE. If I can reclaim my time. I sure don't want to discourage you. There is a Chinese proverb: May you live in interesting times. And we are definitely living in interesting times.

I think the good news is, this is the best time for people with the focus that you have got, as a new member, somebody coming here to try to rein in out-of-control spending, this is the exact time to be here because this is the time where speaking up can stop this train, this train of runaway spending, as this bill that has been proposed has not passed into law yet.

The public is starting to have the same level of discomfort that those of us here tonight have, and I think the opportunity for us to galvanize that energy that is going on all around the country as we talk about these tea parties that people are having spontaneously to protest about this record level of spending and borrowing and taxing. We have got the ability to stop this from happening, because some of this has happened, as we have pointed out, but the worst has not yet happened. But if nothing changes, then it will happen. And that is where we have an opportunity. And I know my friend from Ohio has something to add, and then we have other people to join us.

Mr. JORDAN of Ohio. I appreciate the gentleman.

Not only is it record levels of spending; it is being done at a record pace. Let me just give you a couple facts. Think about this. This is why Americans, as we have talked about already, are showing up, Mr. Speaker, at these tea parties, because they are sick of this type of activity from their government that their tax dollars support.

Think about this: \$24 billion is being spent each day. Over the first 50 days of the new administration, Democrats have spent approximately \$24 billion a day, most of it with borrowed money. Over the first 50 days of this new administration, Democrats have spent approximately \$1 billion an hour, most of it with borrowed money.

So it is not just the amount; it is the pace at which this spending is going on. And you wonder why thousands of people are showing up in cities across this country, families, taxpayers, small business owners are showing up and saying, enough is enough. We are tired of this bailout fever, this spending fever that has got a hold of Washington. We want some sanity back in our government. We want some sanity back in our Congress.

And it's not just about the numbers. We are going to give tons of numbers here in this hour, and the gentleman from Louisiana and the doctor from Louisiana have given some numbers and some history as well. But in the end, it is about people and the impact this has. Think about this budget that is going to be in the Budget Committee for a vote this Wednesday, 2 days from now, this budget with record levels of spending, record deficit, tenth largest annual deficit in American history over the next 10 years, think about this budget. And I don't think it is being an

alarmist to say this: This is an attack on freedom, because think about what this budget does. It is the largest tax increase in history. When you take money out of the pockets of families, and I have said before, I am convinced some politicians won't be happy until they have an IV hooked up to the taxpayers' wallet and they can hit the drip button any time they want. They want the money. They think they are smarter than the American family out there.

So record level of taxes, unprecedented continuation of the spending that we have been talking about, a further nationalization of health care. Now, think about all three of those for a second. When they take your money, you have less freedom. When they spend and spend and spend and mortgage our kids' and grandkids' future, that simply means the next generations of Americans are going to have less freedom because they are going to have to pay that money back, which means less money in their pockets to go after their goals and dreams. When you have a further nationalization of health care and you have some centralized board here in Washington deciding what kind of health care you and your family are going to get, that is a loss of liberty. And the worse one, which we haven't even got to, and I know my colleague from Louisiana understands this issue probably better than anybody on the floor tonight, that is this cap-and-trade, cap-and-tax concept, which will be the largest tax increase in history. Every single family, every single business owner is going to pay more in energy and utility costs. All those in this budget.

So I think when we talk about an attack on liberty and an attack on freedom, it is not using too strong of language, I think it is just being honest. Because the word and principle we most associate with the United States of America is freedom, and that is what this budget is attacking. And that is why we are here tonight under the leadership of our friend from Louisiana talking about how bad this is and the direction that it takes our country, and why we think our policies of keeping taxes low, getting spending under control, not imposing this crazy cap-and-trade concept on American families and business owners is the right approach to take.

With that, I yield back to my colleague from Louisiana.

Mr. SCALISE. Again, I thank the gentleman from Ohio. And what you talked about, we definitely are going to cover in detail later on throughout this hour tonight on both the historical side, as my friend from North Louisiana talked about even going back to World War II and some of the flaws of the spending that was encountered during the New Deal leading up to World War II, but also on today's proposal, that proposal that you will be looking at in the Budget Committee.

Mr. Speaker, one of the things we want to point out on this tax proposal, because when the President talked throughout the campaign, when he talked here on the House floor just a few weeks ago, one of the things he said was 95 percent of the American people will not see their taxes raised by a dime. And while he may have been technically accurate in that statement, what many people are finding out now by the cap-and-trade, what many of us call an energy tax or a cap-and-tax proposal, those American families that are making in the bottom 95 percent, so to speak, in this country, they won't be seeing a dime increase, they will be seeing over \$3,000 a year in tax increases in the form of higher energy bills, and that is this proposal that is in the President's budget, \$1.4 trillion in new taxes.

Some of this falls on the people making over \$250,000. Here, we are playing class warfare, something that I don't agree with because it is not good policy. But this right here, the small business and investor's tax, generates \$630 billion. This is what the President talks about when he says for those people who are in the top 5 percent of income earners, people making over \$250,000, will see a tax increase. What he is talking about is a \$636 billion tax increase, half of which will fall on the backs of small business owners in this country. The people that actually employ more than 70 percent of the American workforce will be seeing a tax increase.

Now, anybody that can explain how that is good fiscal policy, especially during tough economic times, the floor is open for them to discuss it, because no one has yet to come and explain that. This is a horrible proposal. But on top of that, what they have also proposed is this cap-and-trade tax, and it is \$640 billion. That hasn't been talked about much by the President in terms of its impact, but what this tax means, in fact the budget director for the President just 1 year ago when he was working for the Congressional Budget Office said that this would mean over \$1,600 a year in new taxes that people would pay on their electricity bills.

So I guess what he means when you are not going to pay another dime, \$1,300 to \$1,600 a year in new energy taxes is not a dime, but it something that would break many families in this country. But it would fall on the backs of every family in this country. No family under the current proposal is exempted. So a married couple making \$30,000 a year with two kids will be paying about \$1,300 a year more in energy costs from the President's own budget.

This is bad policy. This is policy that we are going to fight. We are going to fight it in committee. It hopefully will not get to this House floor, but we will fight it on this floor. And one of the

people that will be fighting that battle with us is our good friend from Georgia (Mr. BROWN).

Mr. BROWN of Georgia. I thank my good friend from Louisiana for yielding.

This is a steamroller of socialism that is being shoved down the throats of the American public, that is going to strangle the American economy and is going to choke the American people economically. NANCY PELOSI, HARRY REID, and Barack Obama are driving this steamroller of socialism. Socialism never has worked, it never will work. It is not going to work today, and it hasn't worked in the past, as our doctor colleague from Louisiana was just talking about the history, and I agree with that.

The thing that this is going to hurt most, though, are people on limited income. We hear from our friends on the Democratic side that they are for the poor people and for the disadvantaged, but this cap-and-tax policy, or cap-and-trade as it is called, is going to hurt the most the people on limited income, the retirees. It is going to hurt people who are at the bottom end of the social ladder; because, as you said, Mr. SCALISE, it is going to be \$3,000 per family that they are going to have to pay, not only for energy costs, but when gas and diesel prices go up, that means it costs more to get food to the grocery store. That means that grocery prices are going to go up. It means that it costs more money to get medicines in to the drug stores, so medication is going to go up. Every single good and service in this Nation will go up because of this cap-and-tax policy that is being proposed by this administration and by the liberals on the Democratic side. It is going to strangle our economy, as I just mentioned, and it is going to hurt the people who can least afford to pay the \$3,000.

I am a physician, as the gentleman knows. Many of my patients can't afford to pay an extra \$3,000 out of their pocket to pay for this crazy idea of taxing energy at this kind of rate. It is just untenable, it is totally unacceptable, and we have got to stop it. And that is what Republicans are doing here tonight, is talking about this, and we are going to continue to fight to stop this.

In fact, the reason I came down here tonight to join you in this discussion, if you would just take the top chart down and we will look at the top chart as well as the one just below it that you just covered up.

We keep hearing from our Democratic colleagues that all this financial problem is something that they inherited and they are trying to fix it. Well, they didn't inherit it; they have created it themselves. And the chart that you have up top just shows that the budget deficit is going to climb markedly under the proposals that have already been passed by this House. We

have just seen bill after bill after bill that has increased the deficit.

We are borrowing too much money from our grandchildren. I don't know a grandparent in this country that will say anything but, I will try to sacrifice for my children and for my grandchildren. That's what parents and grandparents do, we sacrifice for our children and our grandchildren. But the Democrats don't want to do that. They want to take from our children, they want to take from our grandchildren.

Republicans have presented many, many alternatives to the housing bill that this Congress passed that is going to increase the cost of housing loans to everybody, and it is going to actually deny people, particularly just getting in the market that don't have good credit ratings, it is going to deny the poor people from being able to get mortgages in the future.

We saw this awful TARP bill that President Bush and Hank Paulson pushed forward, we have seen how that has been mismanaged. That is borrowing from our grandchildren. We have seen bill after bill, and now this budget on top of that, we are borrowing too much, we are spending too much, we are taxing too much, and it has got to stop.

□ 2130

Republicans have offered many alternatives. But the Democratic leadership are being obstructionist. They won't even hear of our plan, because they are driving this steamroller of socialism down the throats of the American people. I'm beginning to think that there is a very concerted effort to try to change the philosophy of government in America, one, as Mr. JORDAN was just talking about, where we are going to lose our freedom. We have seen that happen historically. We have got to put a stop to it. It is up to the American people. It is up to the American people to put a stop to it by demanding that we not pass this budget that the Democrats in this administration are bringing forward.

We have got to stop bailing out AIG and all these other entities that are just taking us down the road to financial serfdom of the American people. We have got to stop it. It is up to the American people, and it is up to Republicans to stop it. We have got to get the American people to demand that our voice as Republicans is heard so that we can present our alternatives that NANCY PELOSI won't even bring to the floor. She won't allow our proposals to be heard in committee. We can't get a vote.

It is wrong. It is hurting the American people, and it is hurting the people who the Democrats say that they want to represent, and that is the poor people and the disadvantaged people, the people on limited incomes. So we

have proposals, Republicans have proposals that will stop the spending, that will stop the taxation, that will look to the free enterprise system, that will get our economy back on the right road so that we can solve this financial crisis that we have and even get the housing market back on the right road. But our proposals need to be heard on this floor.

So the American people need to demand that our proposals are heard, voted upon and let's have a debate. We would want to join with our Democratic colleagues to find some commonsense, market-based solutions that will maintain freedom and stop this steamroller of socialism that is going to take away from not only this current generation, but it is going to put our children and our grandchildren in a position that their standard of living is going to be much lower than ours is today.

It is up to us. And we are going to continue to fight. That is what we are doing here tonight. I congratulate you, Mr. SCALISE, for being down here tonight with these charts to try to show the American people the direction we are headed by this administration, by the leadership in this House and this U.S. Senate. We have got to stop it. We have got to put the brakes on this steamroller of socialism so that the American people can be free and can throw off the shackles of the Federal Government, can run their family, run their businesses and run their lives without all the government intrusion. And that is what we are here fighting for tonight.

I thank the gentleman for yielding, and I yield back.

Mr. SCALISE. Thank you. Reclaiming my time, I appreciate what the gentleman from Georgia talked about, because that is, in fact, the reason that we are here tonight. It is not that we are willing to throw in the towel, take this and just accept this train to run down the track. What we are trying to do is talk about this problem and not just lay out the proposals that are here before us, but the implications of those proposals, to families all across this country. In fact, these proposals fly in the face of the decisions that families across this country are making themselves. As they deal with tough economic times, people are actually acting in a responsible way. They are cutting back their spending. They are setting money aside and paying down debt. But they are sure not going deeper into debt. If you have got a high credit card balance, the last thing you do is go order two more credit cards and then run up the balance on those.

That is what the President's proposal in his budget does. It, in fact, triples the current year level of deficit spending. I want to make this point again as we talk about the history revisionism that is going on as people talk about

what they inherited. There was a deficit that President Obama inherited. The problem is that he is tripling that deficit in his first budget out the box. He is tripling that level of spending in a way that is irresponsible. He even acknowledges, as he is doing it, that deficit spending is irresponsible. And anybody is free to go back in time and criticize people in the past who helped create this national debt that we have. I have surely done it. Many others have done it. But when you criticize something, you don't replace the thing that you're criticizing by doing it two or three times even worse.

So, if he is going to stand with us and criticize the deficit spending, then he needs to actually stand with us and start cutting this Federal budget, not tripling, tripling the size of this debt, the national deficit that we are going to be facing next year. And so that is what we are talking about tonight is what we are going to be fighting in the coming months.

One of the people at the forefront of that fight is my friend on the Budget Committee, Mr. JORDAN from Ohio.

Mr. JORDAN of Ohio. I just want to make a quick point and just reiterate what my friend from Louisiana just had mentioned. Think of the contrast of what American families are having to do with their budget in this tough economic situation they find themselves in versus what the Federal Government is going to do. I just want to go back and talk about one fact I had talked about earlier, because when you talk about spending at this rate, the new administration, the Democrats in Congress, are spending approximately \$24 billion every day in the first 50 days of this administration. This is unprecedented spending. When you spend that fast, when you spend that much, it is no wonder you make mistakes like this AIG fiasco we had last week.

So again, the contrast could not be more clear with what American families are doing in the tough economic times they face and they have to deal with versus how the Federal Government is reacting. Families are tightening their belt. They are doing what American families have had to do many other times in history when things got tough. But their government is spending at unprecedented levels and at an unprecedented pace, making mistakes as they do it. And we saw that last week.

So again I yield back to my friend and colleague and thank him for his work on this important issue.

Mr. SCALISE. I think when people look to Washington, they are looking for leadership. They are not looking for just more checks thrown around or cash thrown around to States or to people. What they want to see is policies, good sound policies to respond to the things that are happening across the country. I think people are very

concerned. We are finally starting to see people speak up and not just complain at home or sit on their couch. They are literally standing up and going to these tea parties that they are having all across the country now. In fact on April 15, the day that many of us dread, the day that we pay our taxes, that is the day that many of these tea parties are going to be held throughout the country where people are in essence revolting against this record level of spending, this record level of borrowing, deficit spending and taking money that we don't have from our kids and grandkids to run up these massive deficits each year under the President's budget.

They are doing it because they know that this hasn't happened yet. They are proposals by this President. But this is a President like any, and this is a Congress like any, that needs to respond to what people are saying across this country. And so while we are speaking on this floor tonight talking about the dangers of deficit spending and record borrowing and these taxes that are being proposed, and we are trying to stop this from happening, people across the country are doing the same thing.

I think my friend here is going to chime in as well and talk about this.

Mr. ROE of Tennessee. Thank you. I appreciate the gentleman yielding.

I have just a couple of comments. I was back in my district this weekend and talked to some of our local governments. My background is a physician and a local mayor. And the community that I was mayor in just before I came here is looking at making a 5 percent cut in their budget, worst case scenario. They are looking at what they have to do to balance their budget. I also talked to a town administrator of Morristown, Tennessee, this past week. They were looking at their MTPO funds. They got an extra \$720,000 in stimulus money for a bus system. To show you how out of touch the Federal Government is, they had about \$600,000 in MTPO funds, that is Metropolitan Transportation Planning Organization funds, and they can buy buses with these funds and they can build bus stations. There is just one small problem in that community. Their general fund budget has got a \$1.6 million hole in it. They have 16 people they can't hire right now that they normally do. They can't afford to hire the bus drivers.

That is something that gets lost in this place up here is that we spend at these record deficits, and local communities are making these tough decisions. And they are tough decisions. Business leaders are doing exactly what they are doing with their budgets, tightening their belts. What do we do up here? In the omnibus spending bill, which I call the "ominous spending bill," when everybody else is cutting it, what are we doing? Up 8 percent. Now, how can I go back to Ten-

nessee and explain to people that we print money—or borrow it—and then go back and spend at that level while they are having to make these tough decisions? I yield back.

Mr. SCALISE. I thank my friend from Tennessee for talking about the challenges as people look at what is happening up here in Washington and they are dealing with tough economic times back home. And this isn't something that families and States are new to. It seems like budgets are cyclical, sometimes you're up, sometimes you're down. But ultimately, you have to live within your means. And families are doing exactly that. Then they are looking at Washington and they are seeing what's happening up there when in just 2 months of a new administration where people were promised change, where a President stood here on this House floor just a few weeks ago and said, "We cannot simply spend as we please and defer the consequences." And I think we all agree with those statements. But the problem is people then look, and the next day, the very next day after the President made those statements, he files a bill that spends and borrows at record levels, \$1.7 trillion in borrowing and \$1.4 trillion in new taxes. Many of those new taxes will fall on the backs of middle class families and small businesses.

People are saying, "Wait a minute, that wasn't the change we were told about." If they made less than \$250,000, they surely didn't think they were going to see a dime of new taxes. And then they see that bill, the President's cap-and-trade bill, that actually adds roughly \$1,300 just in energy costs. The estimates are that it will be more than \$3,000 per family—not people making over \$250,000, but a middle class family or a family making maybe \$20,000 a year will see roughly \$3,000 when you count up your higher energy bill, your higher gas bill at the pump and when you go and pay for products that use energy, like food. Any food product you use there is energy, transportation, related to that. So people look at all of this combined and they say, "this doesn't add up to the things that I was hearing and that I was excited about." And so they are speaking up.

What is important is that people are not just going to sit back and let this happen. We are not going to sit back and let this happen.

I'll yield back to my friend.

Mr. ROE of Tennessee. We have already had a perfect example of cap-and-trade. It was last year when oil prices went to \$147 a barrel. Every American citizen knows that that went straight out of their hip pocket. And like you pointed out, everything you buy at the grocery store, every product that is transported by energy pays for that. And we have already seen that. We know what will happen with cap-and-trade.

Mr. SCALISE. Reclaiming my time.

One other thing that was not brought up yet but a bill that was just filed about a week and a half ago that the President said that he supports is this bill called the Employee Free Choice Act, which has just perplexed the business community throughout this country. Small businesses are literally shaking at the thought that their employee workforce and employees across this country—we have already started hearing from employees who are very angered and disappointed that Democrats in Congress would take away their right to a secret ballot vote when it comes to deciding whether or not they want to form a union. And yet that is now part of the President's agenda, an agenda item that is estimated to cost this economy in our country over 600,000 jobs in the first year in a tough economic time when we need to be creating jobs. The bill that they are filing could actually cost, run jobs out of this country to the tune of about 600,000 a year.

I yield to my friend from Georgia.

Mr. BROUN of Georgia. You brought up a good point there. In fact I was talking to a manufacturer in my district not long ago about this so-called employers free—

Mr. SCALISE. Employees Free Choice Act, which it is not.

Mr. BROUN of Georgia. The reason I have a hard time remembering that is because there is nothing free about it. It is actually a method of trying to force unionization on employers and employees alike. It is going to cost jobs. In fact, what I just was fixing to say was that I was talking to an employer in my district who said to me that if this act passes, he is going to shut the doors, and his business is going to go offshore. And that is going to happen all over this country. It is going to cost thousands and thousands of jobs.

Why is that happening? It is happening as a payback. It is happening as a payback to the Democrats who get all this money and all the support from the labor unions because the labor unions want to make an environment where they can force unionization on small businesses and large businesses all over this country. And what is even more egregious is the forced arbitration that is in that bill that is not free either. It is totally wrong. Again, this is a steamroller of socialism being shoved down the throats of the American people. And we have got to stop it.

□ 2145

But it is going to cost jobs. And what it is going to do is it is going to put us in a bigger financial mess as a Nation. When we have the cap-and-tax placed on all energy, it is going to drive up the cost of all goods and services. Just like Dr. ROE was just talking about up in Tennessee, folks up there already

saw what happened. We have already seen in Georgia what happens. People stop utilizing energy. It is going to actually cost the Federal Government money instead of—and it is going to cost jobs.

I am beginning to think that that is the purpose of all this is to try to put everybody on the government dole, try to create a big socialistic society where everybody gets a check from the Federal Government.

But the thing is, America's hurting. America's hurting terribly. We have got to do something and we have got to do it now. But going down this road towards bigger deficits, borrowing more, spending more, taxing more is not the solution. The solution is stimulating the free enterprise system. Free enterprise is the economic engine that pulls along the train of economic security in America. And we are killing that engine. We are throttling it down, and we are shutting it off.

And we have got to create jobs. We have got to create good-paying jobs. Building a bigger government, borrowing from our children and our grandchildren, is not the solution. And so we have just got to do everything we can to stop it.

And I applaud you, Mr. SCALISE, for bringing all these issues forward because it is just absolutely critical that the American people understand what is going on.

You brought out the quote from the President. The problem is, what he says and what he does are two different things. He said he would never, never sign a bill that has earmarks in it. Well the first bill, that omnibus bill, was nothing but earmarks. It was just a payback to the liberal entities, as well as all of the liberal agenda that they have had stuck in some drawer somewhere. They just dusted them all off and brought them forth. We don't have the money to pay for that. And it markedly increases the size of government.

We saw that with the budget that he has been proposing. And everything we are going to see is, we just see over and over again, the President says one thing and he does another. He says, we cannot simply spend as we please and defer the consequences, but that is exactly what he is doing.

Mr. SCALISE. Well, reclaiming my time, one of the things that you talked about, you know, as you talk about the concern that your business people in Georgia have, I have heard the same thing from not just employers but from employees, workers in South Louisiana, who are very concerned that their ability to, their right to a secret ballot would be taken away. In fact, while it is called the Employee Free Choice Act, myself and others call it the Secret Ballot Elimination Act, because all of us in Congress, the President, even the leadership on the Demo-

cratic side, we are all elected by secret ballot. There is a secret ballot right that people have, and part of the reason for that is it protects employees from coercion and intimidation and those kind of threats that have happened throughout our history. And that is the reason that that is in place. And that a bill would be filed as part of the President's agenda that would take away somebody's right to a secret ballot, something that is at the heart of any democracy, I think, is offensive. And it shows people which road they are going down, that while we have got problems with our economy and we need to be focused on creating jobs, they see what this administration is really focused on. Taxing people's energy bills, taxing small businesses for the work that they do, that hurts their ability to go out and create more jobs to hire people in this country. And then passing legislation that would actually take away somebody's secret ballot, it is something that has gotten people's attention. They are seeing what these deficits will do to our future, our children and our grandchildren, and people are starting to speak up. And I am glad somebody else that is going to be speaking up is my friend from Texas (Mr. GOHMERT).

Mr. GOHMERT. I appreciate the gentleman yielding. There have been so many wonderful points made here. I say wonderful as an adjective, when actually it is tough to say wonderful about such a very perplexing and disconcerting issue.

One thing that I haven't heard mentioned yet is about another issue that is contained in the budget, and that is with regard to restrictions on charitable deductions. Has the gentleman mentioned that?

And I appreciate the time you yield.

What struck me this weekend as I thought about President Obama and the Democratic leadership trying to restrict the deductions for charitable donations is, why would you do this? Because we know, worldwide, the best help that goes to people in need, whether they are starving or after an emergency, comes from the charities, the American charities. They can go straight in and start helping those people, whereas, our government, it has to go through the other government, often a third-world government, and sometimes we end up propping up really bad governments, just trying to help the people if we go through the government.

So why would the Democratic leadership and the President be wanting to cut down on charitable donations?

And that is when it hit me this weekend. It is about the GRE, the GRE, the Government Running Everything. That is what it is about. It is about power. That is where this restriction on deductions for charitable contributions is coming from. They want the govern-

ment controlling everything. They see how philanthropic the American people are, how they want to help out of the generosity of their heart, and they say, gee, these charitable organizations, they are nongovernment organizations, NGOs are doing a great job. That ought to be us. Why don't we control that too?

When the government's job ought to be making sure there is a level playing field; everybody has an equal opportunity, not equal results, but an equal opportunity. And our job is to provide for the common defense against enemies, both foreign and domestic. And if we do, we go after the cheaters. That is our job.

But we have been so busy trying to run everything, we have not been going after the cheaters effectively; not on Wall Street, not in corporate America, not out there in the streets. That is what we have got to get back to.

But I appreciate the gentleman yielding. But I just had to share, that is what hit me this weekend. It is about the GRE, the government running everything. This group running things now wants all power, including the power of charitable organizations.

Thank you. I yield back.

Mr. SCALISE. Well, I thank my friend from Texas. And you know, coming from Louisiana, right after Katrina, with all of the failures of government, from the Federal Government to the State government to the local government, it was our charities, it was our faith-based organizations that were the first ones in and consistently delivered so much relief and, in fact, are still in the New Orleans area today helping people rebuild, helping families get back into homes. It is those charitable organizations that don't get anything from government in most cases. And they just do it out of the goodness of their own heart and the divine providence from the Lord. And the fact that this President's budget takes away people's ability to deduct those charitable donations, clearly threatens a lot of those organizations themselves.

And I know our time is limited. One thing we wanted to touch on as we have talked about the spending and the borrowing and the taxing, where is this money coming from?

We had actually done some research on the President's budget. And in the first 4 years, in President Obama's first 4 years in office, and I am sure that the limits on the elections will dictate if there is going to be another four, but I think as people look at this and they get more concerned, where is this money coming from? Who are we borrowing this from? This isn't money we have.

The first place the President is going in his budget is raiding the Social Security Trust Fund. And senior citizens out there who, justifiably, are dependent on that fixed income from Social

Security, and future generations who want to expect something from Social Security, are very alarmed to see that in the first 4 years, the President takes over \$900 billion out of the Social Security Trust Fund. And so, record levels, again, of not just borrowing, not just record levels of taxes, but record levels, never before in the history of our country have we seen nearly \$1 trillion taken out of the Social Security Trust Fund in just 4 years.

And so, as we see the record levels of spending, and people can even look at this budget and they might find items in the budget, not in the baseline budget, but new levels of spending that they might like and think sound good. But then as they compare that against where this is coming from, is it worth adding to the Federal budget to take from Social Security, to take from our children and grandchildren, to tax small businesses and to tax every family on their energy bill? These are the questions that Americans are pondering. These are the questions we are fighting.

And I will finish with my friend from Georgia (Mr. BROWN).

Mr. BROWN of Georgia. I thank the gentleman for yielding. One other place that they are proposing taking money from is from our defense, from procurement. They are going to take away from our troops, and that is absolutely the worst thing to do. We live in a dangerous world. And we hear people talk about we have got to support our troops. But they want to take away the procurement that is absolutely critical for us to have a strong national defense. Constitutionally, that is the major function of the Federal Government. And the liberals want to take money away from our troops who are fighting for our freedom, who are giving up and their families are giving up sometimes their lives, their limbs and a whole lot of sacrifices that they are giving. And what we are hearing from the other side is they want to take away from our troops and take away from our defense.

The anti-missile defense system is another area that they are talking about taking money from. Just last week I went and watched a rocket shoot down another rocket, a SCUD missile. It was just a phenomenal test, and they want to cancel that, which is going to make us less secure as a Nation. We can't continue down this same road. We have got to stop it.

Thank you.

Mr. SCALISE. I thank my friend from Georgia. And that is why, we are living in challenging times, but that is why we are proposing alternatives. As we have talked about the problems of this budget, we have good alternatives we will be talking about more throughout the course of this year.

And I thank the Speaker for allowing us this time.

HEALTH CARE REFORM IS NEEDED

The SPEAKER pro tempore (Mr. DRIEHAUS). Under the Speaker's announced policy of January 6, 2009, the gentleman from Georgia (Mr. GINGREY) is recognized for 60 minutes.

Mr. GINGREY of Georgia. Mr. Speaker, I thank you. And I thank our side of the aisle for having the opportunity to speak to our colleagues, both Republicans and Democrats tonight, about a very, very important issue. The team that just spoke, Mr. Speaker, on the floor of this House about much of the spending and the plans and the too much spending, too much taxing, too much borrowing theme, which is absolutely what the American public, Mr. Speaker, needs to know about, including the plans and the spending and to have a comprehensive health care reform plan that we would vote on, we literally, Mr. Speaker, would vote on before this body and the other body goes on the traditional August recess. That is what, just barely a little more than 4 months away. And the big question is not do we need health care reform? I think my colleagues, and particularly my colleagues on this side of the aisle, who are doctor Members of this body, who are with me tonight to discuss this, the issue of health care reform, we do not disagree, Mr. Speaker, and my colleagues, that this needs to be done.

Nobody, whether Republican or Democrat, whether majority or minority, would want to see 47 million people in this country to have no health insurance whatsoever, and maybe another 25 million that are underinsured. And, yes, indeed, it could happen to one of my adult children and their young families. They all have decent jobs, but one major illness away from being underinsured and possibly ending up in a bankruptcy court, facing foreclosure on their homes and these kind of crises that we all agree we need to avoid.

So the reform of the health care system is not really a question of whether or not this side of the aisle agrees. We do agree. It is a matter, though, of how we do it and when we do it, and what we can afford to do. And I think that what the President has proposed so far is, just as we hear about his overall budget in a 10-year projection, and the numbers that we received over the weekend from the Congressional non-partisan budget office, of unsustainable debt, deficits that will lead to possibly doubling of the national debt within 10 years. It is something that really has to be addressed.

Well, Mr. Speaker, tonight, we are here with, I am leading the hour, but I am very pleased that some of my colleagues on the GOP Republican Doctors Caucus have joined with me. And I wanted to set the tone for what we will talk about during this hour, and that is about physician work force; and will

we have the manpower, when those 47 million hopefully do have health insurance, and the under-insured are fully insured, where are we going to come up with the doctors, the health care providers, to be able to provide that care?

Having a plastic card, Mr. Speaker, that says you are covered and you have access doesn't guarantee any individual that they are going to be able to have a provider who is going to see them.

□ 2200

And my fear is that they will not be able to have that access, particularly if the majority is successful in their plans to have a government default option to go along with, let's say, Medicare and Medicaid and TRICARE and veterans' health care benefits and the CHIP program. It is just adding one more responsibility of the Federal Government to control all of health care, and that is really what we are going to talk about tonight.

As I walked over here, Mr. Speaker—I was walking in the building, into this great Capitol House Chamber, the people's House—there was an emergency, and I saw physicians from the office of the House physician—paramedics, nurses—sprinting to the ambulance that is parked right outside this building for just such an emergency. I thought to myself, you know, thank God for the health care system that we already have. We definitely can improve upon that, and we will talk about that tonight, but thank God that we have that ability to respond in that manner.

It makes me think, Mr. Speaker, of the tragedy that occurred up in Canada in regard to this famous actress—and I will not mention her name—the tragic death of that actress after what seemed like a fairly routine, snow-skiing fall in which she got up, dusted herself off and said: I am fine. I do not need any medical care. Let me just go back to my resort hotel room. I am fine. Of course, that is what she did, and we all know now that 2 hours later, when she began to get into trouble and, maybe, passed out and a 911 call was made, it was 4 hours later that she was finally seen at a major medical center that could respond to this subdural hematoma that she obviously had developed. By that time, she was brain dead, and a life was lost, not just a life of a famous person and a prominent person but a mother of young children and of a devastated family.

So when we, Mr. Speaker, hear this talk about a single-payor system, of a government-run system not unlike the Canadian system—I am not necessarily picking on Canada. They are our good friends and neighbors to the north, but the same thing could be said, I think, about the system in the U.K. or in Taiwan or in any of the other countries that have a national health insurance,

government-run program. If this accident had occurred, I think, out in Colorado in the United States, that young mother and famous actress would be alive today.

So these are some of my thoughts as we begin to discuss. I call on my colleagues, the doctor colleagues, who are with me tonight. I want to ask my colleagues to focus their attention on this first poster. It is titled "A Second Opinion," and then, of course, it is subtitled "Strengthen the Doctor-Patient Relationship." That is what we want to do, and that is what we will talk about.

With this second opinion theme, I think, most people associate a second opinion with a medical opinion, and understand that, when they go to the doctor, sometimes a second opinion is very, very valuable. In fact, I think almost always it is very valuable. So it is important when the other side of the aisle—when the majority party—says or some of their news media, co-conspirators, if you will, who support a national health insurance program or any major issue that the majority party is promoting says, well, the Republicans, all they are is a party of "no," they do not have another alternative. They are just saying, well, we are going to stand in the way of something that we do not like because the majority party has presented it, and this is all political.

Mr. Speaker, nothing could be further from the truth, and that is certainly true in regard to the health care of this Nation. This second opinion theme could apply to energy; it could apply to what the previous team was talking about in regard to the budget and spending. We do have a plan on the Republican side on all of these issues and, if you will, a second opinion Republican plan on health care.

So, with that sort of setting the theme, I want to go ahead and recognize my colleagues. I am going to first call on the gentleman from Pennsylvania, my classmate who has been with me here in the House—and we are now serving our fourth term—and that is Dr. TIM MURPHY from the great State of Pennsylvania.

Dr. MURPHY, I would like to give you an opportunity to talk about some of the issues that you have been focusing on, not just as part of the Republican Doctors Caucus but since you came to Congress some 6½ years ago. I will yield to the gentleman from Pennsylvania.

Mr. TIM MURPHY of Pennsylvania. I thank the gentleman from Georgia, not only for your leadership in health care but for your time here.

You know, we have many times discussed the issues involved in health care, and although I hear many people talk about the issue of accessible and affordable quality health care, very often the solution offered in this body by government is more government,

and that is health care is expensive, so let's have someone pay for it—the government. Along those lines, Medicare and Medicaid oftentimes list it as, because so much is spent there—and I think Medicaid is \$350 billion a year there. Between Medicare, Medicaid and the VA, almost half of the Federal mandatory budget is spent.

The question is: Are they effective? Are they efficient? Does it have quality-based health care?

I want to bring up just a couple issues here and emphasize the importance of that doctor-patient relationship. I am a psychologist. For many years, I have worked for hospitals in the Pittsburgh region in the pediatric, maternity and general medicine settings, but I have always had a strong relationship in working with a wide range of physicians and with other health care specialists, recognizing it is a team and in letting the team do their work that you really end up with some significant savings in quality of care. Let me talk about a couple of ways that that does occur.

A recent report sent out by the New England Health Care Institute noted that the U.S. really spends more on health care than any other nation on Earth, and many times people talk about the negatives of our health care system in terms of higher rates, for example, of infant mortality, but there are concerns about how that data is reached. I will not go into that now.

What I do want to point out, however, is that out of this \$2.3 trillion health care system, which is very expensive and gets in the way of a lot of families affording health care, one of the deep concerns, perhaps, is that 30 to 40 percent of those health care dollars are wasted. \$600 billion to \$700 billion is what is listed in this report. Let me name a couple of things that go into this. If we let the doctor-patient relationship take supremacy over this and let physicians make decisions for what patients need, there are some changes we might see.

First of all, unexplained variations in the intensity of medical and surgical procedures, including but not limited to end-of-life care, the overuse of coronary artery bypass surgery and the overuse of percutaneous coronary procedures has the potential of avoidable costs of \$600 billion. The misuse of drugs, overprescribing and underprescribing: some \$52 billion. The overuse of non-urgent Emergency Department care: the savings could be \$21 billion. The overuse of generic antihypertensives: a potential savings of \$3 billion. The list goes on.

Now the question is: Why would these conditions exist?

Well, actually, government, itself, stands in the way in many cases, and sometimes, well, it is the way health insurance is set up, but if the issue were instead that physicians could be

the ones who are moving forward in this, I believe a lot of savings could take place. I believe what we should be doing as a legislative body is finding ways to break down those barriers and really helping to improve. One of the points to be made by a number of the doctors here on the floor tonight is about having more physicians involved. Let's take one of those aspects.

Having a health care home is important, and one of the health care homes for people in some areas has to do with having a community health center. Now, community health centers provide great quality of care with a wide range of medical services, as my colleagues note. Yet there is a shortage of physicians, in part, because it is not the best paying position in the world, but many physicians want to help. The strange thing about this is that, in a wide range of health care areas, if you work at a community health center, your medical malpractice insurance is paid. If you volunteer, you are on your own, and so these clinics say, We cannot possibly afford that. There are different kinds of malpractice insurance that is not important to get into at this point. We have tried a number of times to allow it so physicians could actually volunteer—so psychologists could volunteer, so dentists, podiatrists, social workers, and nurse practitioners—but no, the government says, We cannot let you do that.

There are also areas, too, that come up here in terms of how we could let disease management work. Here is one of the strangest things that happens with Medicaid:

You know, one group that has a great deal of problems is that of people with severe diabetes. The severe diabetics, if they have problems with the circulation in their feet, for example, the real tragedy might be that they might have their feet amputated, but isn't it strange that Medicare and Medicaid will not pay for that physician or that nurse to monitor the patients closely—to call them, to work with them, to do more than just give them a pamphlet, but to work closely with them to keep them out of the hospital, to make sure that they are getting their insulin, to make sure they are monitored for their weight, et cetera, but we will not pay for that? We will pay \$50,000 for that tragic surgery that could have been avoided, but we will not pay money to help when they manage the care.

Now I might say that there is a recent study that came out that, I believe, is filled with methodological flaws, saying that disease management has some questionable applications. Unfortunately, they focused on those who oftentimes had the most severe illnesses. As I am sure many of the physicians here tonight can attest, the real value is getting to that patient early or when the complications begin to show up rather than to wait until the

end. I know, in my career as a psychologist, I had a patient who is now a deeply depressed, suicidal inpatient. When you could have been working with them years before, it makes a big difference in their outcomes.

We have to make sure that the system that we allow here with health insurance and with physicians working with patients really allows for a great deal of predischarge planning, of working closely and individualizing that care and for making sure that it is there.

Let me mention a couple of other things as we proceed forward. Recent legislation under the House set aside nearly \$2 billion to help physician practices have health information technology. A good idea. The question is how it is done. If that health information technology is merely paying for keeping hospital records on a computer, that is not going to be enough because that is a passive system that only makes it a little easier to pull up records rather than having to wait for the records to arrive.

What we need is a smart, interactive system that is portable for the patient so that records follow the patient, not so that patients follow the records. We have to make sure it is private, that confidentiality is protected, and we have to make sure it is personal so that the relationship between doctor and patient is what is paramount here. That physician and information they are obtaining and what they are writing whenever they have a diagnosis is a smart record that also helps provide information to that doctor about best practices, about feedback, about prescriptions, and even about the feedback of whether or not that patient got that prescription and if he is following through. It is all of those things. In today's world, because there is a shortage of physicians and because insurance with Medicare, Medicaid or private insurance oftentimes does not pay for having the physician actually work to follow up with the patient, then that health IT is just one, big, expensive thing on the desk of the physician, and it is not really providing the care they need.

Let me mention one other thing here, and that has to do with point of care lab tests. The system we have designed is one where—and because some physicians have been found when they own the labs—the concern was were they overprescribing lab tests. I would love to hear some input from my physician colleagues on that, too. So what did they say? They said, Let's not allow physicians to do this at all, where sometimes the most valuable thing is if the physician says, I need an x-ray; I need a lab test; I need this information right away. Instead, they have to send that patient out to a lab or send the information out. It could be a couple of weeks before they would get it back.

The best way to improve patient compliance is quicker information. Even to allow, for example, pharmacies and drug stores to provide some of this lab information would be more valuable. All this feeds into the system that part of the way to save the \$600 billion or \$700 billion worth of loss in the health care system is to put the tools in the hands of those who provide the health care. Make sure there are enough physicians. Make sure they have the tools they need so that as they diagnose, as they prescribe, as they work with other colleagues in the health care field that that information is shared in an effective way that is personal, that is private, that is portable, and actually that is permanent, too. These are not records that are lost as a person moves on to another health care plan or whatever they do in life.

Part of what we are doing here as the GOP Doctors Caucus is operating on the idea that we are all gathered together here to really work on making sure that we are developing patient-centered, patient-driven health care reforms based on quality, access, affordability, portability, and choice. Over the coming months, you will hear from us continually speak about this because we believe we have a health care system that can be based upon those, that can save massive amounts of money and that can save hundreds of thousands of lives. That needs to be our goal, not only to do no harm but to make sure we put health care back in the hands of those making those health care decisions. In so doing, we go at the very thing that people are raising the concerns about, and that is making health care more affordable and more accessible with quality as the underlying point.

With that, I yield back to the gentleman from Georgia.

□ 2215

Mr. GINGREY of Georgia. I thank my colleague, my co-chairman of the GOP Doctors Caucus and of all of the important points, Mr. Speaker, that Dr. MURPHY brought to us. That point he made about the doctor-patient relationship being paramount I think is the most important. And that is our concern that if we go to a government-run, totally government-run system, that that will be sacrificed and that will be sacrificed badly.

Before I yield to my colleague, Dr. FLEMING from Louisiana, Mr. Speaker, I wanted to draw my colleagues' attention to this next slide in regard to the supply/demand crisis.

Even if nothing changed under the current system, we already have a shortage. And it will only get worse as we approach the year 2025. There are a lot of reasons that. Growth in an aging population. There is an immense physician shortage on the horizon. It is expected by 2025 to be a shortage by

125,000 physicians, and the demand for care by that time will increase by 26 percent.

Now, the bulk of the shortage—and these are statistics from the Association of the American Medical College; this was a center for workforce studies back in 2008, so just a year ago—but the bulk of that shortage, in fact, 37 percent of the projected shortage, is in primary care physicians. And I don't disagree with President Obama and the majority party in regard to the need to get more primary care physicians, to have these medical homes that we talk about, to stress wellness. And that is so important.

So it couldn't be more timely for me to call on Dr. FLEMING, who—he specializes in family practice, and has for a number of years, in south Louisiana.

And it is indeed a pleasure to yield time now to Dr. JOHN FLEMING.

Mr. FLEMING. I thank the gentleman for yielding. And also I want to thank Doctors MURPHY and GINGREY in your leadership on this subject and your years in Congress.

I want to say first of all, Mr. Speaker, that health care in the United States is among the best in the world, but the financing of it is a basket case. We have 47 million uninsured Americans and they are not who you think they are. They are not the poor; they have Medicaid. They are not the elderly; they have Medicare. They are not workers for large corporations or the government, such as us tonight. They are owners of small businesses and their employees. They have tremendous difficulty acquiring affordable insurance. And I see this every day.

I, myself, am a small business owner apart from being a family physician with still an active practice. And what is, in fact, going on in this situation is this: the risk pool for a small business is very small, and all it takes is one heart transplant or certainly renal dialysis and it can blow the whole plan up; everybody in the company can find themselves without insurance.

Well, I think that we, on the GOP side, we Republicans, and certainly we Republican physicians, agree with the other side and also with our President that we do need comprehensive health care. We need access to health care and coverage for all Americans.

And in fact, when you think about it with the entitled laws in the 1980s, every American today is entitled to health care regardless of his ability to pay. And if you don't believe me, go to an emergency room demanding care, and you will receive that care without anyone asking about your ability to pay. And that is certainly an honorable and laudable value that we have.

The problem is that that same individual probably has an illness such as diabetes or hypertension, which, if they had received care early in the disease or maybe in a stage of prevention,

would not only not be in the emergency room, but the outcome would be much better and the cost would be much lower.

So, you see, when someone goes to the emergency room or staggers into an emergency room perhaps on their death bed and we providers have to pull them out, somebody gets a bill for that. And that bill is going to be many times higher than what it would have been otherwise. This, of course, creates bankruptcies. Many families end up filing bankruptcy after going through a major thing like this. So who absorbs that cost? The cost is absorbed by those who pay insurance premiums and taxpayers.

So it is not free medicine. So since we're already providing the resources, why not front-load that into preventative and early diagnostic care?

I am a strong believer in health care reform, and I will just tick through several of them that I think need to be implemented with all dispatch.

First, we need to have portability. Dr. MURPHY mentioned that before. We do need to go to electronic health records in a way that is going to make practices more efficient. We need to do away with archaic insurance laws which cause these small risk pools. We need to create large risk pools and make "pre-existing illness" a term that is no longer in the American lexicon.

We need to make sure that everyone gets basic private health care insurance, and I think that family physicians should be the linchpin in health care because it has been proven time and time again that family physicians, the primary care providers, create a much more efficient form of health care, but they also work very closely with their colleagues to ensure that they get uploaded or downloaded or whatever is necessary in order to get the best.

But let me comment on one more thing before I yield. And that is that we're right now in a crossroads of decision making. We all agree that we need comprehensive health care reform. The question is will it be a single-payer governmental system such as what we have today with Medicare or Medicaid, or will it be a private health care system?

Now if we expand Medicare to include everyone, as some have suggested in this body, what is going to absorb that overflow and cost?

You see today, Medicare is somewhat successful in that the fraud, abuse, and the waste is being absorbed by the taxpayer and also those who pay private subscription rates. When we go to an entire system that is a single payer Medicare system, there will be nobody to pick up the tab at that point. So what are we left with?

Well, number one, we know that when you have a government-type sys-

tem, a micromanaged system from the top, you end up with spot shortages, which we already have today; and I am sure that Dr. GINGREY will discuss that further. But also you have a situation beyond the spot shortages that is how do you control costs? And government can control costs only one way, and that is rationing. That means that somebody is told "no" when there is in fact something that can be done.

On the other hand, you take a private system, even if it's funded by government entities, either partially or in whole, if it's administered privately, it is far more efficient. And I will just give you a quick example.

Today, we talk about fraud and abuse and waste. And how can we find this fraud and abuse and what do we do about it? Well, we have to go after it legally to prosecute it. It is very expensive. You only find the tip of the iceberg. In a private plan, everyone works to build efficiency in the system, and if someone is just a little bit off the graph, you reeducate, you help them, or if they don't respond, you terminate them. You don't have to worry about finding someone who is manufacturing health claims or any of that kind of nonsense. It just doesn't happen.

So the bottom line is we need to get physicians, all providers, on board with working towards a much more efficient system, and we need to get the patients involved as well.

For many years, as my colleagues here, I know, have experienced, you couldn't talk patients into accepting generic drugs. Today with the tiered payment systems, the incentives are in favor of generic drugs, and now you can't beg patients not to take generic medications because they are much cheaper.

So there is a lot of work that we need to do, Mr. Speaker, and these are just some of the suggestions.

But finally, I would just like to say that we need to do a lot more to improve the availability, particularly of primary care providers, and we're going to have to do that by increasing the reimbursement rates because what we're really getting is a paradoxical effect. The more we clamp down reimbursement rates for family physicians and others, the more they have to do other things to make up the difference, which echoes costs throughout the system.

So thank you.

Mr. GINGREY of Georgia. I thank the gentleman from Louisiana, the good doctor.

And, you know, again, stressing this theme of going forward, the shortage of manpower, it has a lot to do with physician satisfaction in their chosen profession. And I think that is basically what we want to make sure, Mr. Speaker, that everybody, all of our colleagues understand on both sides of the aisle, that as Dr. FLEMING was saying,

if you have access to an affordable health insurance policy, as we all hope and pray for those 47 million, if it's a system that is run by the government and we crowd out the private market completely—and that is one of my big fears and I think that of my colleagues—then these young men and women that normally would—our best and brightest who would normally want to go to medical school and maybe become a family practitioner and provide this care, they are not going to do it. They are going to choose another profession. They are going to maybe become lawyers, but not doctors. And I think that is a big concern.

And I don't think anybody knows more about this than the next person that I will yield to, Dr. PHIL ROE, a fellow OB-GYN physician, who has provided women's care and delivered lots of babies in the Tri-City area of Tennessee—Kingsport, Bristol, Johnson City—and he knows of what he speaks. And I think he's going to talk to us a little bit about what probably everybody in this Chamber is aware of, and that is something called TIN care in Tennessee, and I am happy to yield to my colleague, a freshman representative doing a wonderful job, Dr. PHIL ROE.

Mr. ROE of Tennessee. A couple of things to historically go back over, and I might mention that if the public out there that is watching this tonight thinks that the government's management of AIG is good, then they are going to be thrilled to death with the government management of health care, I can tell you that.

I am going to go through a couple of historical things.

You and I went through the managed care in all of the 1990s and all of the promises that were going to occur, the cost savings and so forth, that didn't show up; and one of the things that concerned me about health care going forward is accessibility, not just in physicians but in other health care providers.

For instance, our nursing staff. By 2016—that is 7 years from now—we're going to need one million more registered nurses in this country. And in the next 8-10 years, more physicians will be retiring and dying than we're producing in this country.

And let me go back a few years to read this to us just briefly. It is a 1994 report to both Congress and the Secretary of Health and Human Services, the National Council on Graduate Medical Education noted, "In a managed care dominated health care system, the Bureau of Health Professions Commissions projects a year 2000 shortage of 35,000 generalist physicians and a surplus of 115,000 specialist physicians" and recommended that the "nation 'produce 25 percent fewer physicians annually.'" That was just 13 years ago.

"In 1995, the PEW Commission recommended medical schools 'by 2005 reduce the size of entering medical school class in the U.S. by 20-25 percent,' arguing further that this reduction should come from the closure of existing medical schools."

Have you ever heard of anything as ridiculous as that? And think of what a catastrophe that would have been had we followed this.

The Institute of Medicine committee "recommended 'no new schools of allopathic or osteopathic medicine be opened, that class sizes in existing schools not be increased, and that public funds not be made available to open new schools or expand class sizes.'"

Now, to give you an example just to reiterate what you said, if physicians don't retire—and there are over a quarter of a million physicians over the age of 55; that is a third of the practicing doctors in America—do retire in the next 10 years, which they most certainly will, this number—and the reason that is so important for the folks listening is the access to care. What happens will be that patients won't have access to their physicians, and I have seen that.

I have practiced and trained in Memphis, inner-city Memphis and a rural area where I am now, and you all know inner-cities and the rural areas are the two most underserved areas in America now.

□ 2230

Patients in those areas are now not only having a difficult time paying for care, just finding someone to give them the care. So this particular recommendation that was made, if it had been followed, would have been an utter disaster for the American health care system.

We need to encourage more and more young people. The community where I live has a Quillen College of Medicine, has 26 students. It hasn't increased the class size in 20 years. Why? They don't have funding to do it, and we have a tremendous shortage of primary care physicians.

At the end of my practice last year when I was still in the operating room, one of the most difficult things I had to do was find a primary care provider for a post-surgical patient. It is difficult to do now, and it is going to get much, much, much worse.

I will mention a couple of things about our TennCare system, and it was a system that was started with noble objectives, to provide care for all Tennesseans. It was rapidly put together, and I heard you say at the beginning of this, we don't need to do this fast; we need to do this right. It's important.

The health care that we provide affects every citizen in this country. Every one of us is going to have to abide by this system, and who should be in control of that system are the pa-

tients and the physicians. That's who should be making these health care decisions.

Now, in a survey that was done in the current budget crisis in the State, the State was about \$1 billion short before the stimulus package came along. And what the stimulus package does is simply put off these hard decisions for about 2 years in our State. But that survey showed that nearly half the physicians in the State of Tennessee would end their participation or consider ending their participation in one or both of the MCOs in the State—that's the medical care organizations—if those cuts were enacted to ease the State budget crisis, and another 31 percent said they would reduce the number of TennCare patients they're seeing. That's 80 percent either would stop or reduce the number that they're currently seeing.

I spoke to one of our large hospital administrators this past weekend, and right now, we have TennCare covering 60 percent of hospital costs. Medicare covers about 90 percent of hospital costs. The uninsured obviously cover none of the costs, and the private payers have to make up that difference to keep the hospital open.

You hear that your medical benefits are tax deductible and so forth. Well, I would argue they're not. If you go ahead, that's a hidden tax right there that a person who has private health insurance has to pay when they pay it. Now I know this year because in the past year, I bought my own policy. I've a health savings account, and to buy this health savings account, I was fortunate to be able to do that. It is about \$1,000 a month, but I had to earn about \$18,000 to pay that after taxes. So, for a person with a health savings account or a small business or whatever, they're on your own, you're in real trouble in this country now.

And I think the health care plan in this country should have about four principles. One is a basic health plan for all Americans, and we can define that a lot of ways, but I think one of the ways you could define it is the least expensive government plan.

And number two, illness should not bankrupt you. If you get sick, if you develop multiple myeloma or a malignancy or something or at no cause of your own, you should not be bankrupted by that illness.

And number three, it should be portable. You should be able to move. If you lose your job, as many people have done during this current recession, you should be able to carry your health benefits along and not have COBRA payments that people with expensive, who let's say Bill Gates would have a hard time paying.

So I look forward to continuing this discussion in the future.

Mr. GINGREY of Georgia. Well, I thank the gentleman from Tennessee

and the words of the wisdom that he brought us to.

Before I yield to my colleague from Georgia, I want to just make a few comments, Mr. Speaker, about some of the statistics in regard to physician workforce shortage. Any my State, my home State of Georgia, it's ranked 40th in the Nation with respect to active physicians per 100,000 people. In Georgia, there are 204 per 100,000. National average is 250.

Georgia also has the dubious ranking of 44th in the Nation with respect to active primary care physicians. You just heard that from Dr. FLEMING, and you will hear it in just a minute from Dr. PAUL BROUN, a family practitioner in Georgia.

Seventy-three primary care physicians per 100,000 in Georgia; the national average, 88.1. Eighty-nine percent of job seekers graduating from Georgia medical residency programs received and accepted job offers in 2004 but only 54 percent of them stayed in my great State of Georgia.

So just kind of bringing home some of the statistics from where we live and represent.

At this time, I'm proud to yield to Dr. PAUL BROUN, the gentleman who represents my hometown of Augusta, Georgia, and Athens, Georgia, the home of the University of Georgia, the great bulldog nation and many, many wonderful counties in between.

I yield to the gentleman from Georgia, Dr. PAUL BROUN.

Mr. BROUN of Georgia. Thank you, Dr. GINGREY. I appreciate you bringing these very important points to the floor tonight.

I want to talk about the issue that you just brought up about the lack of primary care physicians in our home State of Georgia, but before I do that, I wanted to remark about something Dr. MURPHY brought up tonight, and that's the cost of regulatory burden on the health care system, particularly as it deals with lab and X-ray and those types of things.

I want to give an example. Back a number of years ago, I was practicing medicine in rural south Georgia, and Congress passed a bill called the Clinical Laboratory Improvement Act. It was signed into law. It's called CLIA. I had a small lab in my office, totally quality controlled, wanted to make sure that the tests that I did there were accurate so that I could give the best quality care to my patients that I possibly was trained to do.

And CLIA shut down that lab. Well, why? Well, the reason that CLIA shut down the lab was that the people here in Congress decided that it was a conflict of interest for doctors to own labs and that they may be an overutilization. But the thing is, what this has done is it's markedly driven up the cost of health care for all of us, the cost of insurance, and it made insurance less affordable.

Now, to show you how that works is that in my lab, if a patient came to see me with a red, sore throat, maybe had little white patches on their throat, running a fever, coughing, aching all over, runny nose, this could be a strep throat, need a penicillin shot or some antibiotics. It could be a viral infection. They look exactly the same. I would do a test in my office called the complete blood count, or CBC. It took 5 minutes to do the test. I charged \$12 for the test. I made 50 cents on it, if any at all.

Well, CLIA shut down my lab. I couldn't do those tests any longer. If patients came in with those same symptoms, I had to decide whether just to go ahead and give them antibiotics and expose them to the overutilization of antibiotics that, not only the exposure to them which could create super-infections, also increases the cost, because the overutilization of antibiotics markedly drives up the costs for all of us. Or I would do the test, and to do so, I would have to send them over to the hospital to get that done. It would take 2 to 3 hours to do a test I could do in 5 minutes, and it cost \$75 whereas the test in my office cost \$12.

You can see what that one test, the cost across the whole health care system has been for that one test for patients that come in with sore throats which is a very common illness that primary care physicians, like I, see.

So the regulatory burden on the system markedly increases the cost and makes it less affordable. So if we could get the regulatory burden off of the health care system, it would literally lower the cost of insurance and would make it more affordable.

We actually hear of about 47 million people in this country not having health care. Well, everybody has health care. As Dr. FLEMING was talking about, entitlement laws made it so that people could go to the emergency room and get health care. So everybody has access to health care. Everybody can get health care. The question is where do they get it, at what cost, and who pays for it.

Well, if we go to a socialized medicine system—and the code word for socialized medicine in this body here is comprehensive health care reform—if we go to socialized health care, it's going to make it less affordable and be harder for people to get health care, provided to them.

But in Georgia, we have a tremendous lack of primary care doctors. In fact, in more than one-third of the counties—we have 159 counties in the State of Georgia. Fifty-eight of those counties, over a third, are officially designated as primary health professional shortage areas. This means on average that there is less than one doctor per 3,500 people in those counties. About 1.5 million people in the State of Georgia alone are affected by the shortage of doctors.

We need in Georgia 259 more doctors to serve those underserved areas, just to fill that official estimate of shortage, and ideally, in fact, the experts say that there should be one doctor per 2,000 people. To attain that goal, we would need another 421 doctors, primary care providers, to face that shortage.

Now, the Medical College of Georgia, my school that I graduated from, is just expanding and developing new campuses. There's one that's going to start accepting their new class in Athens, and they're going to have other communities around the State of Georgia to try to train physicians. But we've got to give doctors the freedom to practice medicine, not put constraints on them, not to shackle them. We've got to get the regulatory burden off of their practices so they can practice medicine without all this government intrusion so they can give the care that they're trained to give.

And going down this road of socialized medicine that this administration and that the liberal leadership here in Congress is pushing us towards is going to hurt the health care system. It's going to create a larger doctor shortage, and it's going to mean that people have less access to care, particularly good, quality care.

So we need to have a patient-focused health care reform and not a government-focused health care reform, which is what we and the Doctors Caucus, what the Republican party is bringing forth as the solution to the health care crisis, which is actually a health care financing crisis, not a health care crisis in itself.

So I thank the gentleman for bringing this up tonight. I thank the gentleman for yielding, and I look forward to working with our colleagues so that we can actually find some common-sense, market-based solutions that we propose and, hopefully, the American people will demand it from their Member of Congress so that we can continue to give good, quality health care here in America.

I thank the gentleman for yielding.

Mr. GINGREY of Georgia. I thank my colleague, Dr. BROUN, for joining with us in this hour, talking about the issue of strengthening the doctor-patient relationship and not destroying it.

And as Dr. BROUN pointed out in some of his statistics, those shortages that he was talking about in the State of Georgia—and this is applicable to 49 other States as well—we're talking about under the current system. But once we cover the 47 million uninsured, and these numbers just get that much more difficult, and actually the shortage increases by 4 percent, and these statistics are frightening.

And before I introduce the next speaker, my colleague from Texas, my fellow OB/GYN colleague, I wanted my colleagues to see this next slide. And

part of the reason of this physician shortage—and as I say, it will only get worse in the future—is declining reimbursement ranked as the number one impediment to the delivery of patient care.

Sixty-five percent of physicians surveyed said that Medicaid pays less than the cost of providing that care, and 35 percent of the physicians surveyed said Medicare pays less than cost of providing that care. Nobody in this House of Representatives has worked harder than my classmate, the good OB/GYN doctor from Plano, Dallas-Fort Worth. He has worked so hard to try to provide a reimbursement based on a reasonable formula and not this current sustainable growth rate.

Nobody can really understand how that's ever figured, but doctors know that every year it's figured in a cut in their reimbursement, and that indeed, Mr. Speaker, is not sustainable.

And with that, I yield to my colleague from Texas, Dr. BURGESS.

□ 2245

Mr. BURGESS. I want to thank my friend for yielding. I should mention, of course, you know we passed out of our committee, the Committee on Energy and Commerce, just 2 weeks ago, H.R. 914, which would have, for the first time, increased the number of primary care residencies available. It was a self-replenishing loan program. Oftentimes, the biggest barrier to entry for a hospital that doesn't currently offer a residency program, the biggest barrier for entry is the cost for getting into that residency program. This will provide an ongoing self-replenishing series of loans.

We have been held up a little bit by the Office of Management and Budget. It is one of the weird things that happens to you here in Washington. Last year's Congressional Budget Office said this bill was not a problem financially. Last year's Congressional Budget Office is this year's Office of Management and Budget. And this year's Office of Management and Budget says, Wait a minute. If you make more primary care doctors, they're going to see more folks and they're going to send in more bills. It's going to cost more money. So we can't have that.

We've kind of reached a little bit of an impasse there. I hope to get past that. It just underscores sometimes the futility of working in this environment in which we find ourselves.

Now, just a few weeks ago I was fortunate enough to be asked down to the White House to participate in the health care summit, and President Obama, to his credit, as he was wrapping things up said, Look, I just want to figure out what works.

Well, I'm here to help him. I'm so glad to hear him say that. He says, The cake was not already baked. We would work through this in our congressional

committees. He'll provide guideposts and guidelines. At the end of the day, it's going to be a congressional decision.

I applaud him if that's the case. I still have some reservations deep down inside that this bill has already been written in the Speaker's office. But I will take the President at his word because, after all, we are charged in the practice of medicine for following evidence-based practice. We are told to practice evidence-based medicine. We as policymakers should also practice evidence-based policy as well.

The reform discussion has centered primarily on the number of Americans who lack insurance. That's understandable. It's a good reason. The number is astonishingly high—and growing.

But, honestly, we do have to look beyond just the single knee-jerk, silver bullet response to, We want to fix the number of uninsured. Because that may not solve our problem.

We have a grand national experiment going on in the State of Massachusetts right now. A great increase in coverage because of an individual mandate. But we have a problem. We don't quite have the number of primary care physicians required to render the care to all those folks who now have that coverage.

So, across the Nation issues with the medical workforce are going to continue to loom large and, like my colleague from Tennessee, I can remember sitting in those medical meetings 15 years ago and hearing the stories about how we were over provided. I didn't even know that was a verb, quite honestly. We were over provided in health care in this country, and we needed to scale back the number of doctors we were producing.

Now, 15 years later, that sounds like nonsense. When you consider the length of time that it takes to make one of us, those of us who are on the House floor late tonight. I don't know. Certainly, 12 years after college and my professional education, it is not at all an uncommon story. It takes a long time to make one of us.

So changes in that pipeline really can have a dramatic effect down the road. It's so important for us to get the policy right.

Another point on our Energy and Commerce Subcommittee on Health. Last fall, we heard from a woman who's a pediatrician in rural Alabama. It sticks in my mind because she went into practice the same year that I did—1981. She has worked her heart out there taking care of poor kids in rural Alabama.

Her practice currently has reached a point where it's 70 to 80 percent Medicaid. And she can't keep her doors open. She's having to borrow from her retirement plan in order to pay the overhead for her office to keep the clinic doors open.

Well, I learned that lesson a long time ago with managed care back in

the 1990s. If you're losing a little bit on every patient, it gets harder to make it up in volume. The harder you work, the more behind you get.

That was exactly the situation that she had found herself in. It's because we require such a significant amount of cross-subsidization. The private sector has to cross-subsidize the public sector—Medicare or Medicaid—or doctors cannot afford to keep their doors open. Precisely the information you have up on your slide.

Government-administered health care misleads Americans into thinking that they have coverage. But the reality is they're denied care at the out end because there simply is not the doctors offices there to provide it.

Well, you have been very generous with your time. I'm going to yield back so we can hear from some of our other great colleagues who are on the floor with us tonight. I thank you for bringing this hour together.

Mr. GINGREY of Georgia. I thank my colleague on the Energy and Commerce Committee, Dr. BURGESS.

I want to yield to another of my physician colleagues from Georgia, Dr. TOM PRICE, an orthopedic surgeon who represents the district adjacent to mine, the Sixth District of Georgia.

Dr. PRICE is going to tell us a little bit about these 47 million uninsured, many of whom are employed and simply cannot afford what is offered by their employer, their portion of the premium, and many of them of course work for very small employers that can't afford to offer coverage at all.

At this point, I am proud to yield to my colleague, the chairman of the Republican Study Committee, Dr. TOM PRICE.

Mr. PRICE of Georgia. I thank my friend from Georgia, Dr. GINGREY, for yielding and for his leadership in this area and for organizing this hour this evening.

Mr. Speaker, you have heard a lot of conversation tonight about health care and about access and affordability and quality and primary care physicians. I think it's important to talk about the thing that all of those affect, and that is patients. Patients are what this is all about.

I'm pleased to join my physician colleagues on the Republican side of the aisle tonight to talk about patients and the effect of health care and national health care policy on patients.

If I think about the eight physicians who are here on the floor tonight, we probably have seen a half million patients in our professional life and get a sense about what it means to take care of people and make certain that they get well, depending on the malady that befalls them.

We all have our different principles about health care. Mine are five—the usual three: Access and affordability and quality. Then I add innovation and

responsiveness. I think it's imperative we have a system that has the greatest amount of access, the greatest amount of affordability, the highest quality, and the most responsive and most innovative system.

I would suggest, as I know my friend would agree from Georgia, and my other physician colleagues here, that governmental intervention and increasing involvement doesn't improve any of those things. It doesn't improve access, it doesn't improve affordability, it certainly doesn't improve quality, doesn't improve innovation or responsiveness.

So what's the solution? What's the solution for the patients across this Nation who are maybe watching this evening, Mr. Speaker, and saying: What are you going to do?

Well, the solution, I believe, as I know my colleagues do, is to make certain that patients have ownership of the system. The only way to get the system to move in the direction that patients want it to move is to have a patient-centered system so that patients own and control their own health insurance policy.

Everybody's got to have health insurance. You can get to that system in a way that most of us support, which is through the Tax Code. Making certain that it makes financial sense for all patients to have health insurance. But, once they do, how do you make the system move in the direction it ought to move, and that is the direction that patients want it to move. It's to allow for patients to own and control their health insurance policy, regardless of who's paying the cost.

That's important because that changes the relationship between the insurance company and the patient. Right now, when the patient calls the insurance company and says, You're not doing what I need to have done, or my doctor recommends, the insurance company, by and large, says, Call somebody who cares. Because you aren't controlling the system.

When patients own and control the system, then the system moves in the direction that patients want it to move.

We are working diligently to come up with a product that will allow the American people to look to Washington and say, Hey, those guys are doing what we think ought to be done in our health care system.

I'm so pleased to be able to join you tonight and talk about positive solutions for our health care system that puts patients in control.

I yield back.

Mr. GINGREY of Georgia. Dr. PRICE, thank you so much.

Mr. Speaker, I realize that we are running very close to that witching hour. Maybe I saved the best until last. He probably thinks that I'm shorting him on time because his LSU Tigers

whipped up pretty badly on my Georgia Tech Yellow Jackets in the Bowl game. That's not the case at all.

I'm proud to yield to the internist and gastroenterologist from Baton Rouge, Dr. Patrick.

Mr. CASSIDY. You're so bitter about that loss, you call me Patrick instead of CASSIDY.

I actually teach residents. I'm still on faculty with LSU Med School. It's not accidental that we end up having too few specialists.

For example, just to put the issue into focus, only about 2 percent of medical school grads in 2007 planned to go into a primary care career. That's 2 percent.

Now, it's not accidental why this is. As it turns out, the Federal Government gives more money to train specialists. It gives less to train a generalist and more to train a specialist.

When you're out, reimbursement is less for visits, but more for procedures. So the primary care physician that we don't have enough of gets paid less for the amount of effort he or she puts into their job.

So I say this to say that it's Federal policies that have gotten us here, and there are wise Federal policies that can get us out. But I want to just give a little bit of humility to the people who want to remake our system, assuming that a top-down approach will benefit.

I echo what Dr. PRICE said—it's better to have that patient in charge of the system. When it's top down, we end up with systems which end up skewing us towards more specialists and fewer generalists. I think if we take history as a guide, we will say that we will be much better if the patient have the power as opposed to CMS or another Federal bureaucracy having the power.

With that, I yield back.

Mr. GINGREY of Georgia. Mr. Speaker, I thank Dr. Patrick. And I thank all of my colleagues. You can see the level of interest of the GOP Doctors Caucus. But we want to work with the physicians, the medical providers, the nurses on the other side of the aisle, and work in a bipartisan way.

In this area of a second opinion, we will continue to bring other issues forward as we continue in the 111th Congress.

Mr. Speaker, with that I yield back.

OMISSION FROM THE CONGRESSIONAL RECORD OF THURSDAY, MARCH 19, 2009 AT PAGE 8156

BILLS PRESENTED TO THE PRESIDENT

Lorraine C. Miller, Clerk of the House reports that on March 18, 2009 she presented to the President of the United States, for his approval, the following bill.

H.R. 1127. To extend certain immigration programs.

Lorraine C. Miller, Clerk of the House reports that on March 19, 2009 she presented to the President of the United States, for his approval, the following bill.

H.R. 1541. To provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. ELLISON (at the request of Mr. HOYER) for today.

Mr. GARY G. MILLER of California (at the request of Mr. BOEHNER) for today and the balance of the week on account of medical reasons.

Mr. WESTMORELAND (at the request of Mr. BOEHNER) for today on account of illness.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Ms. EDWARDS of Maryland) to revise and extend their remarks and include extraneous material:)

Ms. WASSERMAN SCHULTZ, for 5 minutes, today.

Ms. WOOLSEY, for 5 minutes, today.

Ms. LEE of California, for 5 minutes, today.

Ms. WATERS, for 5 minutes, today.

Mr. DEFazio, for 5 minutes, today.

Mr. SHERMAN, for 5 minutes, today.

(The following Members (at the request of Mr. LINCOLN DIAZ-BALART of Florida) to revise and extend their remarks and include extraneous material:)

Mr. INGLIS, for 5 minutes, today and March 30.

Mr. POE of Texas, for 5 minutes, March 30.

Mr. BURTON of Indiana, for 5 minutes, today, March 24, 25 and 26.

Mr. JONES, for 5 minutes, March 30.

Ms. ROS-LEHTINEN, for 5 minutes, March 25.

Mr. ROE of Tennessee, for 5 minutes, today.

Mr. ROGERS of Michigan, for 5 minutes, March 25.

Mr. LINCOLN DIAZ-BALART of Florida, for 5 minutes, today.

ENROLLED BILL SIGNED

Lorraine C. Miller, Clerk of the House, reported and found truly enrolled a bill of the House of the following title, which was thereupon signed by the Speaker:

H.R. 1512. An act to amend the Internal Revenue Code of 1986 to extend the funding and expenditure authority of the Airport and Airway Trust Fund, to amend title 49, United

States Code, to extend authorizations for the airport improvement program, and for other purposes.

ADJOURNMENT

Mr. GINGREY of Georgia. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 10 o'clock and 56 minutes p.m.), under its previous order, the House adjourned until tomorrow, Tuesday, March 24, 2009, at 10:30 a.m., for morning-hour debate.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

986. A letter from the Assistant Secretary for Health Affairs, Department of Defense, transmitting the Department's report on the study of adverse health events of exposure to depleted uranium munitions on both soldiers and children of uranium-exposed soldiers who were born after the soldiers were exposed to depleted uranium, pursuant to Section 716 of the National Defense Authorization Act for Fiscal Year 2007; to the Committee on Armed Services.

987. A letter from the Associate General Counsel for Legislation & Regulations on behalf of Board, Board of Directors of the HOPE for Homeowners Program, transmitting the Board's final rule — Rules Regarding Access to Information Under the Freedom of Information Act [Docket No.: B-2009-F04] (RIN: 2580-AA02) received March 11, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

988. A letter from the Vice Chair and First Vice President, Export-Import Bank, transmitting a report on transactions involving U.S. exports to Mexico pursuant to Section 2(b)(3) of the Export-Import Bank Act of 1945, as amended; to the Committee on Financial Services.

989. A letter from the Vice Chair and First Vice President, Export-Import Bank, transmitting a report on transactions involving U.S. exports to Japan pursuant to Section 2(b)(3) of the Export-Import Bank Act of 1945, as amended; to the Committee on Financial Services.

990. A letter from the Vice Chair and First Vice President, Export-Import Bank, transmitting a report on transactions involving U.S. exports to Mexico pursuant to Section 2(b)(3) of the Export-Import Bank Act of 1945, as amended; to the Committee on Financial Services.

991. A letter from the Director, Export-Import Bank, transmitting a report on transactions involving U.S. exports to Japan pursuant to Section 2(b)(3) of the Export-Import Bank Act of 1945, as amended; to the Committee on Financial Services.

992. A letter from the Vice Chair and First Vice President, Export-Import Bank, transmitting a report on transactions involving U.S. exports to Turkey pursuant to Section 2(b)(3) of the Export-Import Bank Act of 1945, as amended; to the Committee on Financial Services.

993. A letter from the Director, Office of Legal Affairs, Federal Deposit Insurance Corporation, transmitting the Corporation's final rule — Risk Based Assessments (RIN:

3064-AD35) received March 11, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

994. A letter from the Secretary, Federal Trade Commission, transmitting the Commission's thirty-first annual report summarizing actions the Commission took during 2008 with respect to the Fair Debt Collection Practices Act, 15 U.S.C. 1692-1692o; to the Committee on Financial Services.

995. A letter from the Deputy Assistant Secretary, Department of Labor, transmitting notification of a grant award for the San Mateo County Community College District in response to the Solicitation for Grant Applications (SGA), SGA/DFA PY 08-02, as part of the Department's competitive Community-Based Job Training Initiative; to the Committee on Education and Labor.

996. A letter from the Acting Director, Pension Benefit Guaranty Corporation, transmitting the Corporation's final rule — Benefits Payable in Terminated Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits — received March 3, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and Labor.

997. A letter from the Director, Regulations Policy and Mgmt. Staff, Department of Health and Human Services, transmitting the Department's final rule — Institutional Review Boards; Registration Requirements [Docket No.: FDA-2004-N-0117] (formerly Docket No.: 2004N-0242) (RIN: 0910-AB88) received March 3, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

998. A letter from the Acting Chief Financial Officer, Department of the Treasury, transmitting the Department's annual Alternative Fuel Vehicle Report for Fiscal Year 2008, pursuant to Section 8 of the Energy Conservation Reauthorization Act of 1998; to the Committee on Energy and Commerce.

999. A letter from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting the Commission's final rule — In the Matter of Amendment of Section 73.622(i), Final DTV Table of Allotments, Television Broadcast Stations. (Scranton, Pennsylvania) [MB Docket No.: 08-125 RM-11457] received March 11, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1000. A letter from the Acting Assistant Secretary for Legislative Affairs, Department of State, transmitting certification of a proposed technical assistance agreement for the export of technical data, defense services, and defense articles to India (Transmittal No. DDTC 018-09), pursuant to 22 U.S.C. 39, 36(c); to the Committee on Foreign Affairs.

1001. A letter from the Vice Admiral, USN Director, Defense Security Cooperation Agency, transmitting reports submitted in accordance with Sections 36(a) and 26(b) of the Arms Export Control Act, the 24 March 1979 Report by the Committee on Foreign Affairs, and the Seventh Report by the Committee on Government Operations for the first quarter of Fiscal Year 2009, 1 October 2008 — 31 December 2008; to the Committee on Foreign Affairs.

1002. A letter from the Acting Director, Defense Security Cooperation Agency, transmitting notification concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance (LOA) to Mexico for defense articles and services (Transmittal No. 09-18), pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended; to the Committee on Foreign Affairs.

1003. A letter from the Vice Admiral, USN Director, Defense Security Cooperation

Agency, transmitting the Agency's report in accordance with Section 36(a) of the Arms Export Control Act; to the Committee on Foreign Affairs.

1004. A letter from the Secretary General, Inter-Parliamentary Union, transmitting a letter enlisting support for the new democracy project that addresses the representation of minorities and indigenous peoples in national parliaments; to the Committee on Foreign Affairs.

1005. A letter from the Director, Department of Making Pregnancy Safer, World Health Organization, transmitting notification of a three-day meeting to share experiences between policy-makers and planners, and to increase advocacy to boost investments and significantly improve progress on maternal and newborn health and survival; to the Committee on Foreign Affairs.

1006. A letter from the Senior Procurement Executive and Director, Office of Acquisition Management, Department of Commerce, transmitting the Department's report on Fiscal Year 2008 Commercial Services Management efforts, pursuant to Public Law 108-199, section 647(b); to the Committee on Oversight and Government Reform.

1007. A letter from the Acting Assoc. Gen. Counsel for General Law, Department of Homeland Security, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

1008. A letter from the Senior Vice President and Chief Financial Officer, Export-Import Bank, transmitting the Bank's annual report for fiscal year 2008, pursuant to the Chief Financial Officers Act of 1990; to the Committee on Oversight and Government Reform.

1009. A letter from the Director, National Science Foundation, transmitting the Foundation's report on its competitive sourcing efforts for Fiscal Year 2008, pursuant to Public Law 108-199, section 647(b); to the Committee on Oversight and Government Reform.

1010. A letter from the Chairman, Nuclear Regulatory Commission, transmitting the Commission's Annual Report on the Administration of the Government in the Sunshine Act for Calendar Year 2008, pursuant to Public Law 94-409 and Public Law 104-66; to the Committee on Oversight and Government Reform.

1011. A letter from the Acting Director, Office of Personnel Management, transmitting the Office's final rule — Prevailing Rate Systems; Abolishment of Santa Clara, California, as a Nonappropriated Fund Federal Wage System Wage Area (RIN: 3206-AL74) received March 13, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

1012. A letter from the Associate Legal Counsel, U.S. Equal Employment Opportunity Commission, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

1013. A letter from the Acting Administrator, U.S. Small Business Administration, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

1014. A letter from the Co-Chief Privacy Officer, Federal Election Commission, transmitting the Commission's Privacy Act Report for fiscal year 2008, pursuant to Section 522 of the Consolidated Appropriations Act for 2005; to the Committee on House Administration.

1015. A letter from the Chief, Branch of Listing, Department of the Interior, transmitting the Department's final rule — Endangered and Threatened Wildlife and Plants; Listing *Phyllostegia hispida* (No Common Name) as Endangered Throughout Its Range [FWS-R1-ES-2008-0016; MO 9221050083-B2] (RIN: 1018-AV00) received March 11, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1016. A letter from the Chief, Branch of Listing, Department of the Interior, transmitting the Department's final rule — Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for the Louisiana Black Bear (*Ursus americanus luteolus*) [FWS-R4-ES-2008-0047 92210-1117-0000-B4] (RIN: 1018-AV52) received March 11, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1017. A letter from the Acting Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration, transmitting the Administration's 2008 Report on the Disclosure of Financial Interest and Recusal Requirements for Regional Fishery Management Councils and Scientific and Statistical Committees, pursuant to Section 302(j) of the Magnuson-Stevens Fishery Conservation and Management Act; to the Committee on Natural Resources.

1018. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Taking of Marine Mammals Incidental to Commercial Fishing Operations; Atlantic Large Whale Take Reduction Plan [Docket No.: 090213177-9179-01] (RIN: 0648-XN40) received March 11, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1019. A letter from the Deputy Assistant Administrator For Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Bering Sea and Aleutian Islands; Final 2009 and 2010 Harvest Specifications for Groundfish [Docket No.: 0810141351-9087-02] (RIN: 0648-XL28) received March 9, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1020. A letter from the Staff Director, United States Commission on Civil Rights, transmitting notification that the Commission recently appointed members to the Oklahoma Advisory Committee; to the Committee on the Judiciary.

1021. A letter from the Staff Director, United States Commission on Civil Rights, transmitting notification that the Commission recently appointed members to the Mississippi Advisory Committee; to the Committee on the Judiciary.

1022. A letter from the Chief, Trade and Commercial Regulations Branch, Department of Homeland Security, transmitting the Department's final rule — EXTENSION OF IMPORT RESTRICTIONS IMPOSED ON ARCHAEOLOGICAL MATERIAL FROM HONDURAS [CBP Dec. 09-05] (RIN: 1505-AC11) received March 5, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1023. A letter from the Deputy Director, Office of Regulations, Social Security Administration, transmitting the Administration's final rule — Representative Payment Under Titles II, VIII and XVI of the Social Security Act [Docket No.: SSA 2008-0007] (RIN: 0960-AG70) received March 11, 2009, pursuant to 5

U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

1024. A letter from the Deputy Director, Office of Regulations, Social Security Administration, transmitting the Administration's final rule — Expiration Date Extension for Musculoskeletal Body System Listings [Docket No.: SSA-2008-0070] (RIN: 0960-AG93) received March 11, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

REPORTS OF COMMITTEES OF PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. CONYERS: Committee on the Judiciary. H.R. 1107. A bill to enact certain laws relating to public contracts as title 41, United States Code, "Public Contracts" (Rept. 111-42). Referred to the House Calendar.

Mr. WAXMAN: Committee on Energy and Commerce. H.R. 479. A bill to amend the Public Health Service Act to provide a means for continued improvement in emergency medical services for children; with an amendment (Rept. 111-43). Referred to the Committee of the Whole House on the State of the Union.

Mr. WAXMAN: Committee on Energy and Commerce. H.R. 1246. A bill to amend the Public Health Service Act regarding early detection, diagnosis, and treatment of hearing loss (Rept. 111-44). Referred to the Committee of the Whole House on the State of the Union.

Mr. WAXMAN: Committee on Energy and Commerce. H.R. 307. A bill to enhance and further research into paralysis and to improve rehabilitation and the quality of life for persons living with paralysis and other physical disabilities, and for other purposes (Rept. 111-45). Referred to the Committee of the Whole House on the State of the Union.

Mr. WAXMAN: Committee on Energy and Commerce. H.R. 577. A bill to establish a grant program to provide vision care to children, and for other purposes; with an amendment (Rept. 111-46). Referred to the Committee of the Whole House on the State of the Union.

Mr. WAXMAN: Committee on Energy and Commerce. H.R. 756. A bill to amend the Public Health Service Act with respect to pain care (Rept. 111-47). Referred to the Committee of the Whole House on the State of the Union.

Mr. WAXMAN: Committee on Energy and Commerce. H.R. 20. A bill to provide for research on, and services for individuals with, postpartum depression and psychosis; with an amendment (Rept. 111-48). Referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mrs. MALONEY (for herself and Mr. HONDA):

H.R. 1659. A bill to amend the Uniformed and Overseas Citizens Absentee Voting Act to require the Presidential designee responsible for carrying out Federal functions under the Act to have experience in election administration and be approved by the Sen-

ate, to establish the Overseas Voting Advisory Board to oversee the administration of the Act so that American citizens who live overseas or serve in the military can participate in elections for public office, and for other purposes; to the Committee on House Administration, and in addition to the Committee on Rules, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. MCHUGH (for himself, Mr. ARCURI, Mr. NUNES, and Mr. BISHOP of Utah):

H.R. 1660. A bill to amend the Immigration and Nationality Act to provide a special rule for the period of admission of H-2A non-immigrants employed as dairy workers and sheepherders, and for other purposes; to the Committee on the Judiciary, and in addition to the Committee on Education and Labor, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BARROW:

H.R. 1661. A bill to establish a health registry to ensure that certain individuals who may have been exposed to formaldehyde in a travel trailer have an opportunity to register for such registry and receive medical treatment for such exposure, and for other purposes; to the Committee on Energy and Commerce.

By Mr. BARROW:

H.R. 1662. A bill to amend the Child Care and Development Block Grant Act of 1990 to require child care providers to provide to parents information regarding whether such providers carry current liability insurance; to the Committee on Education and Labor.

By Mr. DENT (for himself, Mr. LANCE, Mr. PAULSEN, Mr. BILBRAY, Mr. MARCHANT, Mr. WALDEN, Mr. COBLE, Mr. MARSHALL, Mrs. MYRICK, Mr. PLATTS, Mr. LOBIONDO, Mr. SESSIONS, Ms. GINNY BROWN-WAITE of Florida, Mr. POE of Texas, Mrs. CAPITO, Mr. SHULER, Mr. CARNEY, Mr. TIM MURPHY of Pennsylvania, Mr. KIRK, Mr. ROYCE, and Mrs. MILLER of Michigan):

H.R. 1663. A bill to require State and local law enforcement agencies to determine the immigration status of all individuals arrested by such agencies for a felony, to require such agencies to report to the Secretary of Homeland Security when they have arrested for a felony an alien unlawfully present in the United States, to require mandatory Federal detention of such individuals pending removal in cases where they are not otherwise detained, and for other purposes; to the Committee on the Judiciary.

By Mr. GRAYSON (for himself, Mr. HIMES, Ms. LEE of California, Mr. WELCH, Mr. ELLISON, Mr. ORTIZ, Mr. PERRIELLO, Ms. JACKSON-LEE of Texas, and Mr. CONNOLLY of Virginia):

H.R. 1664. A bill to amend the executive compensation provisions of the Emergency Economic Stabilization Act of 2008 to prohibit unreasonable and excessive compensation and compensation not based on performance standards; to the Committee on Financial Services.

By Mr. CUMMINGS (for himself, Mr. OBERSTAR, Mr. MICA, and Mr. LOBIONDO):

H.R. 1665. A bill to structure Coast Guard acquisition processes and policies, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. DOGGETT (for himself, Mr. COOPER, Mr. SHULER, Mr. THOMPSON of California, Mr. BLUMENAUER, Mr. STARK, Mr. LEWIS of Georgia, Ms. BERKLEY, Ms. LINDA T. SANCHEZ of California, Mr. YARMUTH, Mr. BRADY of Pennsylvania, Mr. COHEN, Mr. FATTAH, Mr. JOHNSON of Georgia, Mr. ROTHMAN of New Jersey, Mr. SIRES, Mr. NADLER of New York, Mr. FARR, Mr. CUMMINGS, Ms. CLARKE, Mr. ACKERMAN, and Ms. EDDIE BERNICE JOHNSON of Texas):

H.R. 1666. A bill to amend the Internal Revenue Code of 1986 to establish an auction and revenue collection mechanism for a carbon market that ensures price stability with environmental integrity; to the Committee on Ways and Means, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. ABERCROMBIE:

H.R. 1667. A bill to prohibit profiteering and fraud relating to military action, relief, and reconstruction efforts, and for other purposes; to the Committee on the Judiciary.

By Ms. GINNY BROWN-WAITE of Florida:

H.R. 1668. A bill to debar or suspend contractors from Federal contracting for unlawful employment of aliens, and for other purposes; to the Committee on Homeland Security, and in addition to the Committee on Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CONNOLLY of Virginia:

H.R. 1669. A bill to require the Secretary of the Treasury to establish a market for municipal securities, to require cooperation between the Secretary and the Chairman of the Board of Governors of the Federal Reserve System in addressing the municipal securities market situation including through the establishment of municipal securities funding facilities, and for other purposes; to the Committee on Financial Services.

By Mr. DAVIS of Illinois (for himself, Mr. PAYNE, Mrs. CHRISTENSEN, Mr. BRADY of Pennsylvania, Ms. LEE of California, Mr. MEEKS of New York, Mr. CARNEY, Mr. DOYLE, Mr. LARSON of Connecticut, Mr. MOORE of Kansas, Mr. HINCHAY, Mr. KUCINICH, Mr. LEWIS of Georgia, Ms. BALDWIN, Mr. COHEN, Mr. FATTAH, Ms. DELAURO, Mr. ISRAEL, Ms. KAPTUR, Mr. KIND, Mr. LANGEVIN, Mr. OLVER, Ms. LORETTA SANCHEZ of California, Ms. SCHWARTZ, Mr. SESTAK, and Ms. VELÁZQUEZ):

H.R. 1670. A bill to amend title XIX of the Social Security Act to provide individuals with disabilities and older Americans with equal access to community-based attendant services and supports, and for other purposes; to the Committee on Energy and Commerce.

By Mr. LARSEN of Washington (for himself, Mr. SULLIVAN, Ms. WATERS, Mr. WU, Mr. GUTHRIE, Ms. BORDALLO, Mr. SIMPSON, and Mr. SPACE):

H.R. 1671. A bill to understand and comprehensively address the oral health problems associated with methamphetamine use; to the Committee on Energy and Commerce.

By Mr. LARSEN of Washington (for himself, Mr. INSLEE, and Mr. DICKS):

H.R. 1672. A bill to reauthorize the Northwest Straits Marine Conservation Initiative

Act to promote the protection of the resources of the Northwest Straits, and for other purposes; to the Committee on Natural Resources.

By Mr. DANIEL E. LUNGREN of California:

H.R. 1673. A bill to amend the Emergency Economic Stabilization Act of 2008 with respect to bonus payments; to the Committee on Financial Services.

By Mrs. MALONEY:

H.R. 1674. A bill to amend the National Consumer Cooperative Bank Act to allow for the treatment of the nonprofit corporation affiliate of the Bank as a community development financial institution for purposes of the Community Development Banking and Financial Institutions Act of 1994; to the Committee on Financial Services.

By Mr. MURPHY of Connecticut (for himself, Mrs. BIGGERT, Mr. FRANK of Massachusetts, Ms. WATERS, Ms. SCHAKOWSKY, Mr. ELLISON, Mr. SIREs, and Mr. FILNER):

H.R. 1675. A bill to amend section 811 of the Cranston-Gonzalez National Affordable Housing Act to improve the program under such section for supportive housing for persons with disabilities; to the Committee on Financial Services.

By Mr. WEINER:

H.R. 1676. A bill to prevent tobacco smuggling, to ensure the collection of all tobacco taxes, and for other purposes; to the Committee on the Judiciary.

By Ms. WOOLSEY:

H. Con. Res. 77. Concurrent resolution recognizing and honoring the signing by President Abraham Lincoln of the legislation authorizing the establishment of collegiate programs at Gallaudet University; to the Committee on Education and Labor.

By Ms. CASTOR of Florida (for herself and Mr. REICHERT):

H. Res. 274. A resolution expressing support for designation of March as National Nutrition Month; to the Committee on Energy and Commerce.

By Mr. MURPHY of Connecticut:

H. Res. 275. A resolution expressing the sense of the House of Representatives that all public elementary schools and public secondary schools should display a copy of the Declaration of Independence, the Constitution, and the Bill of Rights; to the Committee on Education and Labor.

By Mr. NUNES:

H. Res. 276. A resolution to provide earmark reform in the House of Representatives; to the Committee on Rules, and in addition to the Committee on Standards of Official Conduct, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS

Under clause 9 of rule XXI, lists or statements on congressional earmarks, limited tax benefits, or limited tariff benefits were submitted as follows:

OFFERED BY MR. SPRATT

The provisions that warranted a referral to the Committee on the Budget in H.R. 1404, the Federal Land Assistance, Management and Enhancement Act, do not include any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9(d), 9(e), or 9(f) of Rule XXI.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:

H. Res. 252: Mr. BARRETT of South Carolina.

EXTENSIONS OF REMARKS

LAUREN MINTO

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. VISCLOSKY. Madam Speaker, the Energy and Water Appropriations Subcommittee will soon bid farewell to our Congressional Fellow, Lauren Minto, who has been with the Subcommittee for over a year. Before her detail with the Committee, Ms. Minto served the United States Army Corps of Engineers as Legal Clerk and Assistant District Counsel at the Corps' Louisville Office of Counsel for over six years. There, she supported the implementation and regulation of Corps projects funded through the appropriations process. Reviewing legislative language, responding to Congressional requests, and evaluating policy compliance, Ms. Minto developed a strong understanding of the relationship between Congressional legislation and on-site execution as well as a unique level of legal expertise required to facilitate the process.

It is no surprise, therefore, that Ms. Minto quickly became an invaluable member of the Committee staff when she joined the team in February 2008. Her in-depth knowledge of the legal implications of bill language and policy compliance, as well as her technical experience with the Corps' civil works projects, made her an indispensable addition to the staff. A remarkably fast learner and tireless worker, Ms. Minto quickly mastered the responsibilities assigned to her. Her refined analytical skills and exceptional attention to detail have been critical to our success in reviewing requests, synthesizing disparate information, and, ultimately, producing the bills and reports for the fiscal year 2009 and American Reinvestment and Recovery Act.

Perhaps her most noteworthy contribution, however, has been to the development of the Energy and Water Subcommittee's Member Request Database. A relatively new system, the database is meant to facilitate the review and processing of requests made to the Subcommittee. Ms. Minto had the unfortunate experience of being one of the first to deal with the system. In her typically tireless way, she not only overcame any of the unforeseen obstacles, but took an active role in updating and reforming the database. Working closely with our IT department, Ms. Minto made targeted suggestions to perfect the system and, because of her work, our jobs, and those of future staff members will be easier. Indeed, Members' offices have expressed their appreciation for the standardized system of authorized projects that are now generated automatically. Ms. Minto's efforts have lead to more reliable, accurate requests and more transparency. This has enabled Members to focus more on the policy behind the earmarks and less on the technical aspects of entering requests.

For these innovations, and for her overall diligence, ingenuity, and consistently positive attitude over the past year, all of us at the Energy and Water Subcommittee would like to thank her. She will be sorely missed. We wish her all the best in her future endeavors, and are confident that she will go on to do great things.

IN REMEMBRANCE OF DR. HENRY
DAVID PRENSKY

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. KUCINICH. Madam Speaker, I rise today in honor and remembrance of Dr. David Prenskey—a profoundly respected and admired activist, lecturer and classical music enthusiast.

Dr. Prenskey was born in Brooklyn, New York in 1917, to a mother who encouraged him to study piano and from whom he inherited his love of classical music. Dr. Prenskey attended dental school and served as a ship's dentist for the U.S. Navy during World War II. Following his service in the Navy, he found a way to integrate his profession and his love of classical music through his dental practices in Miami, Florida and Mexico City, Mexico by playing classical music to relax his patients. In 1954, he married fellow art enthusiast Bryna Prenskey, who opened her own art gallery featuring Contemporary Mexican Art.

Dr. Prenskey dedicated his time to supporting local art programs, education and was an active member in the local Democratic Party. He shared his love of classical music with audiences around Palm Beach, Florida as a lecturer for the Society of the Four Arts and Regional Arts, the Etta Res Institute of New Dimensions at Palm Beach Community College, as well as for the Florida Philharmonic Orchestra. He was integral in the advancement of the Alexander W. Dreyfoos Jr. School of the Arts in West Palm Beach and dedicated his time to developing the schools' art and music libraries, scholarships and foundation. In honor of his commitment to the school, the orchestra rehearsal hall bears his name. In addition to Dr. Prenskey's dedication to the advancement of the arts, he was an avid activist for universal health care and founded Floridians for Health Care. Additionally, he co-founded the local Palm Beach Democratic Club. Although it has been almost a year since his passing, Dr. Prenskey's ability to mobilize the community and advocate for the social welfare of others continues to be evident to all those who have been touched by his efforts.

Madam Speaker and colleagues, please join me in remembrance of Dr. Henry David Prenskey and in honor of his outstanding achievements in the advancement of arts education and health care.

HONORING GLORIA MENDOZA

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. ENGEL. Madam Speaker, Gloria Mendoza has dedicated her life to education, starting as a kindergarten teacher and advancing to administrator, all the time an advocate for students and staff. She has had a consistent commitment to quality education for all students, in the process becoming a role model for students.

She worked in New York City public schools for ten years as a teacher and administrator and in 1987 started her career with the Yonkers Public Schools as an Assistant Principal at Enrico Fermi School for the Performing Arts.

In 1991, she was appointed Principal of School 17, and served as Principal of Museum Middle School prior to her current assignment as Principal of Enrico Fermi School for the Performing Arts.

She has built partnerships with community organizations to create initiatives for her schools, including the Groundworks Gardening Project, the Parents-as-Partners Family Resource Center, the Healthy Eating Program, sponsored by St. John's Hospital and the Gorton High School Medical Magnet, the Westchester County Grandparent Volunteer Program, Yonkers Police Department's DARE Program, and St. Joseph's Hospital Yonkers Spectrum Clinic.

She has demonstrated that civic involvement and community service are important to her students' success and has encouraged staff, parents and students to reach out to the sick and the elderly, as well as to members of the United States Military in Iraq.

One of her passions, the Yonkers Pathways to Success, is a program to help adults learn to speak English and earn their high school diploma.

For her dedication to education she is being honored by the Yonkers YWCA with its Pacesetter Award, and I congratulate her and thank her for her great work in educating our children.

A TRIBUTE TO LEGAL ACTION OF
WISCONSIN

HON. GWEN MOORE

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Ms. MOORE of Wisconsin. Madam Speaker, I rise to pay tribute to Legal Action of Wisconsin. Legal Action of Wisconsin is the largest staff-based provider of civil legal services for low income persons in Wisconsin. In April,

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

2009, Legal Action of Wisconsin will celebrate its 40th anniversary.

In 1968, Milwaukee Legal Services and Freedom Through Equality merged to become Legal Action of Wisconsin. Legal Action staff and volunteer attorneys providing pro bono services have represented and served over 400,000 clients since its inception. The agency has gained public benefits on behalf of clients, helped clients gain custody of their children, and assisted clients in relief from evictions. Further, Legal Action has always sought to go beyond individual representation for low income people by seeking systemic change for problems in order to provide relief to as many clients possible. Legal Action's intervention on behalf of low-income clients has resulted in many achievements including rule changes and modifications, improved procedures from agencies and greater income for clients. They have also positively impacted school systems, health care systems, prison systems and the agribusiness industry to benefit and provide fundamental justice for clients.

The sole mission of Legal Action of Wisconsin has been to achieve fundamental justice for its clients through creative and effective legal representation. To that end, Legal Action of Wisconsin's lawyers, paralegals and support staff have always upheld the basic democratic principle that all people are entitled to equal justice under law. Legal Action continues to act in cooperation with clients, the private bar, and community organizations to ensure that they remain a community oriented law firm.

Madam Speaker, it is with great pleasure and admiration that I pay tribute to Legal Action of Wisconsin for their 40 years of service. Its dedicated staff, board of directors, and volunteers continue to adhere to the principle that all people are entitled to equal justice under the law in the 4th Congressional District and the entire State of Wisconsin.

THANKING JOE DAVID BERG FOR
HIS SERVICE TO THE HOUSE

HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. BRADY of Pennsylvania. Madam Speaker, on the occasion of his retirement on February 2, 2009, we rise to thank Mr. Joe David Berg for 32 years of distinguished service to the United States House of Representatives. Joe has served this great institution as a valuable employee of House Information Resources (HIR), in the Office of the Chief Administrative Officer.

Joe began his tenure with the United States House of Representatives in 1977 as a Senior Technical Aid working in the Configuration Planning and Management Section (CPMS). All computing capabilities were provided by a huge mainframe computer with hardware that filled a 10,000 square foot room. Joe provided technical support to the mainframe programmers as a member of the Programmer Assistants Team for ten years.

Joe served the House in many different roles during his 32 years working at HIR. His

expertise in the Configuration Planning and Management Section led to Joe becoming manager of that group. Joe served as assistant to the Operations Manager, where he implemented automated system monitoring and alerts. The use of automated monitoring tools was so effective that Joe continues to implement automated monitoring and alerts systems on current technology. Joe served as Security Manager of House systems for more than 2 years. He also served as Special Assistant in Communications, working on the budget, planning and coordination of Communications activities. In Technical Support, Joe provided direct support to Member offices with the National Change of Address service, better known as NCOA. The NCOA service, formerly operated by HIR, improves the accuracy of postal mailing lists. Joe currently serves as a Senior System Engineer on the Windows System Engineering team.

Joe's excellent level of performance over the years gave him the opportunity to oversee and work on many complex projects to include building the AppManager monitoring system and was an active part of the design and build of the FinMart financial system that will become a part of the Atlas Project. Joe assisted in the initial build of the SQL database clusters that are the backbone of the majority of Windows based applications and websites for the House and is the primary engineer for the Windows based Active Server Page (ASP) and Moveable Type websites for Member and Committee offices. Joe single-handedly created sites for over 202 offices. He is also the primary engineer supporting the Federal Funds project. He has actively worked with our Virtualization effort in our "Green the Capitol" initiative and was instrumental in preliminary testing and subsequent implementation. He is one of the primary engineers for all hardware based efforts and server builds on the Infrastructure Team. He has provided countless consulting services to customers for various application and system creation projects.

On behalf of the entire House community, we extend congratulations to Joe for many years of dedication and outstanding contributions to the United States House of Representatives. We wish Joe many wonderful years in fulfilling his retirement dreams.

HELPING FAMILIES SAVE THEIR
HOMES ACT

HON. PHIL HARE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. HARE. Madam Speaker, I rise today in strong support of H.R. 1106, the Helping Families Save Their Homes Act of 2009.

When I was a kid, my parents lost their house. My father became sick and could not keep up with the payments. Millions of Americans have suffered a similar fate during the current economic crisis and millions more are hanging on by a thread. We have a moral obligation to help prevent vulnerable homeowners from experiencing the same pain and suffering my family did.

It is projected that nearly 4,000 homes in my congressional district will go into foreclosure this year with over 8,000 to follow in the next 4 years.

H.R. 1106, the Helping Families Save Their Homes Act would provide lenders the incentive to refinance mortgages for homeowners in danger of foreclosure. It would reduce fees for refinancing and protect lenders from investor lawsuits. In addition, the bill would allow bankruptcy judges to modify the terms of a mortgage for homeowners who can no longer afford their payments. This provision will save an estimated 1,225 homes in my district.

Millions of Americans have lost their jobs through no fault of their own. So it is no wonder that many cannot afford their house payments. Allowing working families to renegotiate the terms of their mortgage is both fair and responsible.

Addressing the foreclosure crisis is key to our economic recovery. The mortgage meltdown got us into this mess, driving down home values and leaving our banks frozen with toxic assets. This legislation will protect homeowners and get our economy back on track. I urge my colleagues to vote yes on H.R. 1106 and help families save their homes.

IN HONOR OF DR. MITCHELL J.
BIENIA

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. KUCINICH. Madam Speaker, I rise today in honor and recognition of Dr. Mitchell J. Bienia, as he is honored as the recipient of the 2009 Cleveland Society of Poles "Good Joe" Polish Heritage Award. Dr. Bienia's dedicated service to the Cleveland community as well as to the Polish American community continues to be evident throughout his life.

In his 30-year tenure with the Cleveland School District, he worked as teacher, guidance counselor, department head and administrator. For ten years, Dr. Bienia worked as a part-time guidance counselor at Cuyahoga Community College. Among numerous professional accolades, Dr. Bienia was the recipient of the 1970 Martha Holden Jennings Outstanding Teacher of the Year Award, the 1990 Phi Delta Kappa Award, and the 1995 Counselor of the Year Award. Dr. Bienia's integrity and dedication to making a difference in his professional life is mirrored in his personal life as well. A lifelong volunteer, he has served as a member and leader with numerous social service organizations, including his current post as a Board Member with Cleveland Metropolitan General Hospital.

In addition to his community service, Dr. Bienia has worked tirelessly to promote and preserve his Polish heritage. He has been an active member and leader with several local and national Polish organizations and currently serves as the National Director for the Chicago-based Polish Roman Catholic Union of America. Dr. Bienia and his wife Krystyna are the proud parents of two grown daughters—Krystyna and Michelle, to whom they have passed down the value of family, faith and service to others.

Madam Speaker and colleagues, please join me in honor and recognition of Dr. Mitchell J. Bienia, whose service to family, friends, community and dedication to sharing Poland's cultural gifts all serve to illuminate the diversity that defines the Cleveland community and is the foundation of our country. Dr. Bienia's faith, his love of family and commitment to community is a testament to the true meaning of citizenship and reflects the American dream.

COMMENDING MARTIN AND BETH
ARON OF SPRINGFIELD, NEW
JERSEY

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. LANCE. Madam Speaker, I rise today to pay special tribute to Martin and Beth Aron of Springfield, New Jersey. For nearly two decades, Martin and Beth Aron have worked tirelessly to make a difference in their community by helping others.

In fact, there are dozens of New Jersey civic, social welfare, educational, artistic and religious organizations that have benefited from the Arons' hard work, dedication and selfless sacrifices to help those in need.

On March 31, 2009 Congregation Israel in Springfield, New Jersey will honor Martin and Beth at the synagogue's 34th Annual Tribute Dinner for their remarkable and enduring contribution to Congregation Israel and to communities throughout New Jersey.

Over the years, the Arons have been involved in the Zamir Chorale and Zamire Chorale Foundation, both of which promote Jewish choral music as a vehicle to inspire Jewish life, culture and continuity. The Zamir Chorale performed at the White House this past year. The Arons have also been involved in the formation and development of Joseph Kushner Hebrew Academy of Livingston, New Jersey, improving the education opportunities of children with unique learning challenges, as well as in the charitable, community outreach and children's programming activities at Congregation Israel.

It gives me great pleasure to share the remarkable efforts of Martin and Beth Aron with my colleagues in the United States Congress and with the American people. I am also honored to join Congregation Israel in recognizing their outstanding service to their community.

HONORING THE LIFE OF FRANK L.
SWANNER

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. MILLER of Florida. Madam Speaker, on behalf of the United States Congress, it is with great respect and honor that I rise today to recognize the life and legacy of Northwest Florida's beloved Frank Swanner.

Frank Swanner was a man who lived his life deeply rooted in his strong faith in God and

love for his family and community. Born in Tanner, Alabama on January 28, 1921, he began his working career as a farmer, member of the Limestone County School Board, and an active member of the local Baptist Church and Baptist Association, as well as, working at Chemstrand/Monsanto.

When Chemstrand/Monsanto transferred the Swanner family from Decatur to the Pensacola Plant in 1959, Mr. Swanner and his family moved to Milton, Florida, where he continued his active service in the church and community as Deacon and music leader in Ferris Hill Baptist Church, treasurer of the Santa Rosa Baptist Association, a member of the Santa Rosa County Civil Service Board, the Local Democratic Committee, and the Kiwanis Club.

In addition to his love for God and family, Frank had a tremendous love for our country. During World War II, Frank Swanner joined the United States Army, which brought him to Omaha Beach and the shores of Normandy on June 6, 1944. With honor and sacrifice, he and millions of men and women answered the call of duty. They have become known as the "Greatest Generation," and we are eternally grateful for their service.

To some, Frank Swanner will be remembered as a community leader and fellow worshipper, and to others, an avid softball player and bowler. To some he will be remembered as a friend in the Wendy's Lunch Bunch, and to others, a comrade in the United States Army and World War II Veteran. He will long be remembered by his family and friends as a loving and compassionate person full of energy and charisma. Frank Swanner touched a number of lives, and all who knew him are forever blessed for the love and inspiration that has left a lasting impression in our hearts.

Madam Speaker, on behalf of the United States Congress, I am proud to honor one of America's great heroes, Frank Swanner, for his honorable leadership and service to Northwest Florida and to this great Nation.

TAXPAYER FUNDED BONUSES AT
AIG

HON. BETTY McCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Ms. McCOLLUM. Madam Speaker, I rise today to add my voice in opposition to plans by American International Group Inc. (AIG) to reward their executives with "job performance" bonuses worth over \$165 million at a time when the American people, including my constituents in Minnesota, are making huge sacrifices to make ends meet.

Yesterday, I joined my colleagues in co-signing a letter to Treasury Secretary Timothy Geithner to express my objection to AIG's payment of these ill-timed executive bonuses.

I want to go further and call on the Administration to repeal AIG's latest federal stabilization infusion of \$30 billion until they retrieve the \$165 million in bonuses, provide assurances that bonuses will no longer be disbursed without Congressional oversight and agree to turn over regular disclosure forms to account for how taxpayer funds are being used.

We must demand the highest level of transparency and accountability, especially since American taxpayers have provided over \$170 billion in funding to AIG and control approximately 80 percent of the company.

The purpose of the funds is to stabilize and prevent the devastating collapse of the financial markets, not to reward executives whose performance deserves an "F" grade for their failure to protect investors and consumers.

For traders—whose recklessness and greed greatly contributed to the financial crisis—to think they can profit at the expense of the taxpayers is unconscionable.

This latest irresponsible act by AIG has further compromised the public trust.

I am pleased that President Obama has responded so quickly by pursuing every legal avenue to block these bonuses. Like the President, who yesterday expressed that he is "choked up with anger," I am angry and so are the millions of families bearing the brunt of the economic meltdown.

These monies must be recovered immediately and AIG must provide documentation as to which executives were to receive the bonuses so we can determine if these awards violate recently enacted federal restrictions.

In January, I voted for House passage of H.R. 384, the TARP Reform and Accountability Act, to strengthen accountability and oversight of the Troubled Asset Relief Program and require tough, sensible restrictions on executive pay.

And recently, Congress passed the American Reinvestment and Recovery Act, which President Obama signed into law, to curb multi-million dollar packages and limit bonuses.

We must work closely with the Obama Administration to rigorously enforce these requirements and close potential loopholes so that taxpayers are protected.

HONORING CONSTANCE WALKER-
FOWLER

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. ENGEL. Madam Speaker, Constance Walker-Fowler is a native of Detroit who moved to Yonkers in 1997 and has been deeply involved in the community and civic organizations since her arrival.

She is Chair of the Yonkers Commission on Human Rights, where she helped to develop the language for the resolution Against Domestic Violence. She is a Life Member of the National Council of Negro Women and for the past four years president of its Hudson Valley Section.

She is also a member of the Hudson River Community Association; Sister-to-Sister Inc.; the Westchester Black Women's Political Caucus; a Trustee of the Schomburg Corporation; and serves on the Advisory Board of Groundworks Hudson Valley. She is also Democratic District Leader and Secretary of the Third Ward election district.

Further, she is Secretary of the International Governing Board of Voices of African Mothers,

an organization dedicated to alleviating hunger in Africa.

Even further, she is dedicated to her family, often visiting her son Andre in England and helping her Aunt Mamie and her sister Norice and her family.

In short, Constance Walker-Fowler is dedicated to helping her communities from every aspect while still maintaining close and devoted ties to her family.

I congratulate her on her receiving the Humanitarian Award of the Yonkers YWCA and wish her every success.

INTRODUCTION OF THE "FIXING THE FEDERAL VOTING ASSISTANCE PROGRAM ACT"

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mrs. MALONEY. Madam Speaker, today, along with Representative HONDA (D-CA), I am reintroducing the "Fixing the Federal Voting Assistance Program Act" which would do two things: (1) make the Director of the Federal Voting Assistance Office a presidential appointee confirmable by the Senate, and (2) create an advisory board to strengthen oversight of the office to ensure better access to the ballot by overseas military and civilian voters.

The Federal Voter Assistance Program (FVAP) is the government's primary office for helping ensure access to the ballot for thousands of overseas voters, both civilian and military, in recent elections. This legislation is designed to bring greater attention to the voting office in the Department of Defense and enhanced oversight to ensure that it does its job of providing greater access to voting for our soldiers, sailors and airmen, their families, as well as civilians living overseas.

The "Fixing the Federal Voting Assistance Program Act" is a necessary step in ensuring that overseas voters are counted in elections. I believe that Americans serving in the military abroad or civilians residing overseas still do not have adequate help from the government in facilitating their right of access to the ballot. Representative HONDA and I believe we need to start working on improving access to the next election now while the problems are still fresh in our minds so that we are not facing them again in 2010.

IN RECOGNITION OF SAM BURNS

HON. DORIS O. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Ms. MATSUI. Madam Speaker, I rise today to pay tribute to Sam Burns, a dear friend and tireless community leader who recently passed away. Sam served as the head of the Sacramento Convention Center and Visitors Bureau and was an admired advocate for drawing tourism into Sacramento. As his family and friends gather to honor and remember his

wonderful life, I ask all of my colleagues to join me in saluting one of Sacramento's most well-respected figures.

Sam was a prominent leader in the Sacramento Region, and his death leaves a tremendous void in the community. When Sam was hired by city leaders in 1972, the Memorial Auditorium was the largest local venue for conventions. Under Sam's leadership, a new Sacramento Community Center opened in 1974, finally putting Sacramento on the map as a convention host. With an \$80 million expansion in 1995, the Community Center was renamed Sacramento Convention Center Complex and is now home to dozens of major events, conventions, and community gatherings each year.

Sam was a strong supporter of all that Sacramento has to offer, from the prestigious Crocker Art Museum to Old Sacramento and the city's riverfront. The high quality of his work and his dedication to Sacramento led to the expansion of his duties in 1993, when he was named to lead the Community and Visitor Services Department. Sam became responsible for drawing large crowds to Sacramento as he promoted the Sacramento Jazz Festival and other city events.

Sam's passion and commitment resonated in his work and will not soon be forgotten by the Sacramento community. His positive impact is seen across our city in the expansion of downtown hotels and the numerous conventions held each year. Sam was a wonderful public servant and ambassador to Sacramento, but he was an even better husband and father. He leaves behind his lovely wife Betsy and three children, Brandi, Michael and Brett.

Madam Speaker, as Sam Burns' family and friends gather to honor his wonderful legacy and many contributions, I am honored to pay tribute to him. Those of us who were privileged enough to call him our friend will deeply miss him. I ask all my colleagues to pause and join me in paying respect to an extraordinary man, Sam Burns.

TRIBUTE TO KANSAS CITY, KANSAS, YWCA EXECUTIVE DIRECTOR CATHY BREIDENTHAL

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. MOORE of Kansas. Madam Speaker, I rise today to pay tribute to Cathy Breidenthal, the longtime executive director of the YWCA of Kansas City, Kansas, who retired from that position on February 28, 2009, after nearly 23 years of dedicated service to that important community institution. Cathy's reinvigoration of the Kansas City YWCA, which included a capital campaign, coupled with a significant expansion in services and programs, will be celebrated at a "Heart of Gold" fundraiser for the institution on March 27th. The Kansas City Star recently carried an article detailing Cathy Breidenthal's service to our local YWCA community; I include it here for review by our colleagues, who I am sure join with me in recognizing the important contributions made by

Cathy Breidenthal during her years of service to the YWCA of Kansas City, Kansas. We wish her well upon her well-earned retirement!

[From the Kansas City Star, Dec. 31, 2008]

YWCA EXECUTIVE DIRECTOR TO RETIRE

(By Joy Gipple)

Cathy Breidenthal, executive director for 22 years of the YWCA of Kansas City, Kan., recently announced her retirement.

"When longtime EDs (executive directors) retire, it's kind of an initial shock," said YWCA board member Theresa Reyes Cummings. "She's really been a pillar."

"Eliminating racism, empowering women" is the branding statement for the YWCA's mission.

"The growth in those two areas is something that I feel really good about," Breidenthal said.

Breidenthal has been credited with a regeneration of the YWCA during her tenure. A major effort was the capital campaign that resulted in sweeping improvements to the facility at 1017 N. Sixth St. and a subsequent expansion in services and programs.

"That process started in 2001, which was our 100th year," Breidenthal said. "In 2002, a lot of construction development was occurring right on our block—the BPU office building and hotel, etc.—so we had some decisions to make as to whether we were going to stay and be a positive part of this (downtown revitalization) development."

The YWCA board decided the agency should stay in the original building. The project included an art gallery, theater and meeting space, as well as a health and fitness facility.

In 2003 the YWCA started its first entrepreneurial initiative: the Corner Café.

"I was looking at the opportunity and some of the amenities that are so important to urban development," Breidenthal said. "We knew there was no upscale coffee shop or café at that time, and we felt that if we were going to phase this in, we needed to do something that really showed progress and our willingness to take that leap of faith."

Underwriting support helped to get it started, and five years later the café continues to provide daily lunch, "happy hour" cookies and coffees, catering services and culinary classes.

"Like any new business, particularly in an area that hasn't quite reached its full potential for development, it has taken some time," Breidenthal said. "I think the same is true with the art and community meeting space and the health and fitness facility."

She described people's reactions when they see the facility for the first time, or for those who remember the old building and then notice the change.

"They are truly amazed," Breidenthal said. "Every time we have an event and people are there seeing that and they realize they can rent that space, that our food is wonderful—we have an excellent chef—that it's really a quality thing . . . seeing is believing."

When Breidenthal came on board at the YWCA in 1986, she was the only full-time staff member. Today there are 15 full- or part-time employees, and that number was even larger while some government-funded programs used the new facility for a time.

A program called the Teen Pregnancy Network shifted the focus to adolescent health issues. "It really started us in that direction that is still one of the mainstays of our program," Breidenthal said.

The Resource Sharing Project was another way of using the space and providing services. "We had an entity that was an adult

day care looking for space," Breidenthal explained. "We had the space but very limited programming. So it was a very win-win for a number of years until we started growing our program and needed the full facility."

Breidenthal also chairs the Downtown Shareholders Group, working on the business improvement district.

"I have a real commitment and I really care about the YWCA and the downtown," Breidenthal said. "I've been part of that urban environment for over 35 years and certainly want it to succeed."

The YWCA board is planning the transition and there will likely be a job posting in January. Breidenthal's last day will be Feb. 28.

She expects the YWCA will continue to be a leader in downtown revitalization. "Being at the crossroads of so many cultures here—certainly that can be one of our strengths and that's another area that fits with the YWCA's mission," Breidenthal said.

Theresa Reyes Cummings echoed those sentiments. "We're going to move forward and we have a lot to offer the community," Cummings said. "It's an exciting time."

HONORING CLAUDETTE J. STOTHART

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. ENGEL. Madam Speaker, Claudette J. Stothart is a retired teacher with vast experience in teaching, from grade school to college and who is also an active member of her community.

For 24 years she taught in New York City as a special education teacher as well as coordinating English as a Second Language courses and Social Studies. She was an adjunct Professor at Rockland Community College for 12 years and at Mercy College for 4 years. She also worked in Greenburgh as a middle school teacher during the summer months.

She worked closely with students, especially to make sure those who were merely acting out did not become candidates for special education, while advising parents of their rights, in the process inspiring both parents and students.

She was nominated by her students for, and accepted by, Who's Who Among American Teachers.

She is a long time member of the Westchester Black Women's Political Caucus, a member of Westchester Women's Leaders, the International Women's Round Table, and the African American Advisory Board.

She is a firm believer in education as a means to ease socioeconomic ills. She is deservedly receiving the Yonkers YWCA Inspiration Award and I congratulate her for her life's work in inspiring students, teachers and parents.

HILLSBOROUGH HIGH SCHOOL STUDENTS WORK TO MAKE A DIFFERENCE

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. LANCE. Madam Speaker, I rise today to recognize the efforts of high school students from the Seventh Congressional District who are volunteering their time to help those in need throughout the world.

Specifically, I would like to commend hundreds of Hillsborough High School students who are volunteering for an annual fundraising event known as Shelter From The Storm 4. The event takes place on Saturday, March 28, 2009 and will raise funds to help students in Haiti and Honduras have access to pure, clean drinking water.

The students have recognized that access to clean water is so basic—yet so precious to disadvantaged communities around the world. The funds Hillsborough High School students raise will help purchase water filters, rain-water collection compartments and provide education on proper sanitation.

Organized by students, Shelter From The Storm 4 will feature numerous educational guest speakers, a three-hour concert and a special festival.

Several dozen student organizations at Hillsborough High School are playing important roles in the event's success, such as the Rotary Club and Boy Scouts and Girl Scouts. I also commend the leadership of all the teachers involved, who provided guidance to the students throughout the planning stages and implementation of the fundraiser.

Madam Speaker, I am proud to commend all of the Hillsborough High School students who are involved with this special fundraising event. These students are clearly working hard to make a difference and help those in need.

RECOGNIZING THE INAUGURAL NATURALIZATION CEREMONY OF THE CITIZENSHIP COUNTS ORGANIZATION

HON. HARRY E. MITCHELL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. MITCHELL. Madam Speaker, I rise in recognition of the Citizenship Counts organization, whose inaugural naturalization ceremony is being held today to welcome new American citizens. The event's keynote speaker, Gerda Weissmann Klein, is one of very few living survivors of the Holocaust and the founder of Citizenship Counts. She has used her experiences to educate and inspire others in our community and all over the world.

Gerda's story is one of true bravery and heroism. She survived the perils of six concentration camps during the Holocaust and a 350-mile march through Eastern Europe before being liberated by Allied forces. In the many years since, Gerda has dedicated her

life to being an advocate for the teaching of tolerance, empowerment, and respect through her extensive work with the Gerda and Kurt Klein Foundation and Citizenship Counts.

The Citizenship Counts organization motivates students through civics education and community service while bolstering pride in their citizenship. Through these programs, Citizenship Counts effectively promotes the ideal of American citizenship as a responsibility, and instills the strong moral values that Gerda has worked so tirelessly to uphold.

Madam Speaker, please join me in recognizing Citizenship Counts, an organization whose efforts have truly strengthened our community.

RECOGNIZING THE CELEBRATION OF NOWRUZ

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. WAXMAN. Madam Speaker, I would like to take this opportunity to recognize Nowruz, a traditional Persian holiday taking place this week that celebrates the arrival of spring.

Dating back more than 3,000 years, Nowruz is observed by millions of people of Persian descent in the United States, Iran, Iraq, Central Asia, and many other regions of the world. The two-week holiday symbolizes renewal, health, happiness, and prosperity. The holiday's ecumenical values are celebrated by adherents of many religions including Islam, Judaism, Zoroastrianism, and the Bahai'i faith. It is considered a special time to share with family and friends and honor cultural traditions.

Here in the United States, Nowruz serves to remind us of the many noteworthy and lasting contributions of Iranian-Americans to the social and economic fabric of American society. I am pleased to join Iranian-Americans in my congressional district and others around the country and around the world in honoring this special occasion.

FEDERAL MUNICIPAL BOND MARKETING SUPPORT AND SECURITIZATION ACT OF 2009

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, today I introduced the Federal Municipal Bond Marketing Support and Securitization Act of 2009 to address the collateral damage suffered by our state and local governments as a result of the financial crisis. The nation's 55,000 issuers of tax-exempt bonds, including most state and local governments, continue to experience limited access to the capital markets due to the liquidity crisis despite the fact that municipal bonds have always been among the safest investments.

A municipal bond expert recently told me, pointedly, that it is a nightmare out there for those entities attempting to float bonds.

Prior to my election to Congress last November, I spent the last 14 years in local government as a member of the Board of Supervisors of Fairfax County, Virginia, the last five as Chairman. I oversaw a local government with an annual budget of \$4.5 billion and a AAA rating from Wall Street's three main credit rating agencies. I understand state and local governments, and I believe they are the most effective engines for creating jobs on Main Street, whether by building new schools, fire stations and water treatment plants, or repairing our nation's ailing infrastructure and implementing our environmental agenda.

State and local governments issue debt for their myriad projects through the selling of bonds, and the municipal bond market was one of many victims of the financial meltdown last fall. After the fallout, investors and money fled from those bond markets to U.S. Treasury notes as a safe haven. As a result, the nation's 55,000 issuers of tax-exempt bonds, our state and local governments, are experiencing limited access to the capital markets due to the liquidity crisis despite the fact that "munis" are and always have been among the safest of investments.

Further complicating the issue is the fact that the private insurance market has virtually disappeared, eliminating a viable means of credit enhancement, which allows a small town water authority, for example, to attain the same credit-worthiness as a metropolitan transportation authority.

The drying up of bond markets and lack of insurance has created a double-whammy of steep shortfalls and tough financial choices for state and local governments. In light of this fiscal and capital crisis, legislation is needed to direct the Secretary of the Treasury to establish a program to provide direct credit enhancements or insurance for municipal bonds to help our state and local partners move forward on their shovel-ready projects.

House Financial Services Committee Chairman BARNEY FRANK agreed with me during a colloquy on the subject in mid-January in which he called states and municipalities among the most sympathetic victims of the economic turmoil. Since then, I have been consulting with Chairman FRANK, my colleagues, municipal governments and others who are active in the municipal bond market to craft a solution. What I proposed today may not provide the ultimate solution, but it provides a starting point to begin addressing this critical situation.

My legislation directs the Secretary of the Treasury and Federal Reserve Board to work together to strategically intervene in the municipal bond market to restore liquidity and spark local job creation. It gives the Treasury Secretary the authority, either directly or through the Federal Financing Bank, to provide credit enhancements or guarantees or to outright purchase municipal bonds. It calls on the Federal Reserve to exercise its authority to establish a credit facility for the express purpose of assisting our local and state partners. Of course, the method, source, timing and conditions of any new financing arrangement would be subject to Treasury's approval.

The federal government historically has been reluctant to interfere with the municipal markets, but I believe such concerns could be

addressed by imposing some reasonable limits and conditions on the nature and amount of assistance to minimize risk. Furthermore, municipal bonds historically have a solid performance rating with a low rate of default.

A basic measure for the public to have confidence that the recovery and reinvestment package is working will be the creation of jobs and the completion of physical projects. President Obama has set the goal of creating three to four million jobs. Unlike the financial services relief plan, in which the reward for our investment was largely unseen by the general public, expectations are high for tangible results—paychecks and progress—from this stimulus plan.

It is my firm belief that the primary vehicle for delivering on that promise will be our investments in state and local governments, but we first need to ensure that localities are ready to run with the ball once we make the hand-off. That will require immediate federal action to stabilize their fiscal situation and to revive the municipal bond market.

I believe this bill can help stabilize the municipal bond market, and I look forward to working with Chairman FRANK and other interested members in finding a solution to this serious problem.

HONORING THE MEMORY OF J.W.
ANDREWS, JR.

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. BONNER. Madam Speaker, the city of Jackson and, indeed, the entire State of Alabama recently lost a dear friend, and I rise today to honor J.W. Andrews, Jr., and pay tribute to his memory.

Born in Prestwick, Alabama, Mr. Andrews married Ida Virginia Tiggs Andrews in 1937, and the two were married nearly 55 years when she died. He began his career as a machine operator at a veneer mill before becoming an insurance agent for Unity Burial Life Insurance Co. in the early 1950s. By the end of the decade, he had become manager of the company as well as of the accompanying Unity Funeral Home. In the mid-1970s, Mr. Andrews and his wife purchased the funeral home, which became Andrews Funeral Home in 1986. The couple also owned Andrews Flower and Gift Shop.

During the 1960s, Mr. Andrews became active in both politics and the civil rights movement in Clarke County. He traveled to various communities holding voter registration classes, helping familiarize residents with the voter questionnaire used by the Board of Registrars. He was also a longtime president of the Clarke County Voters League, an organization formed to promote and protect the voting rights of African Americans.

Mr. Andrews was instrumental in the formation of several county commission and school board districts, which provided African Americans representation on those boards. In 1985, Mr. Andrews became one of the first two African Americans to be elected to serve on the Jackson City Council, a seat he held for 14

years. He was also the first African American to serve on the Clarke County Board of Education.

In recognition of his many achievements, the city of Jackson honored Mr. Andrews by rededicating State Highway 177 from the end of Commerce Street to U.S. 43 as the "J.W. Andrews Highway." In 1997, he was honored as the Civitan Club's 47th "Citizen of the Year."

Mr. Andrews was an active member of his church, St. Union Baptist Church in Jackson. He served as a deacon for more than 50 years as well as treasurer, Sunday school superintendent, and choir member. For more than 50 years, he served as host of the Sunday morning radio programs "Spiritual Time" and later "Early Morning Gospel" on WHOD-FM. He also served as an Alabama Democratic Conference chairman for more than 35 years.

Madam Speaker, I ask my colleagues to join me in remembering a dedicated community leader and friend to many throughout south Alabama. J.W. Andrews, Jr., will be dearly missed by his family—his children, William Wesley Andrews, Sr., Hattie Virginia Sampson, Carl Gregory Andrews, and Harriette Andrews Douglas; his sister, Jessie Mae Jackson; his 11 grandchildren; his 22 great-grandchildren; and his seven great-great-grandchildren—as well as the countless friends he leaves behind.

Our thoughts and prayers are with them all during this difficult time.

IN HONOR OF OFFICER
CHRISTOPHER TRUCILLO

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. PALLONE. Madam Speaker, I rise today to honor Christopher Trucillo, Chief of Department of the Port Authority Police of New York & New Jersey. Chief Trucillo began his law enforcement career in 1978 as a municipal police officer in Harrison, New Jersey. He continued his career of public service by later joining the Port Authority Police Department in 1986. As an officer for the Port Authority, Chief Trucillo worked different operational, administrative, and investigative functions. On September 11, 2001 while assigned as the Commanding Officer of the Internal Affairs Bureau, Chief Trucillo responded to the World Trade Center disaster by mobilizing the members of his staff and accounting for all Port Authority Police personnel who responded. Under his leadership an irreplaceable connection was created between the families of those who were lost in the tragic events of 9/11 and the police department. Chief Trucillo was named the "2004 Boss of the Year" by the New York State Shields for "outstanding leadership and commitment to law enforcement." He was also honored with the Lifetime Achievement Award from the National Police Defense Foundation. On January 6, 2009, he retired after thirty years of public service and dedication as a police officer. His years of valuable service and commitment are greatly appreciated and will certainly be remembered.

I would also like to enter into the RECORD this poem that was given to me about Chief Trucillo and his service as it is a fitting tribute to a dedicated public servant. The poem was written by Albert Caswell, a friend of Chief Trucillo.

TRUE

True . . .
To Be True!
In Life, and In Death . . . and In All You Do
. . .
Jersey's Best . . .
This, and no less . . .
All In That Moment of Truth . . .
When death lies so close . . . right before you
as the most . . .
A Father, A Husband . . . A Top Cop . . .
A Leader of Heroes, at the top . . .
Straight, as an arrow . . .
With a heart of girth . . .
Which, could not be stopped . . .
Kind and caring . . .
He's at the Top . . .
He's a Top Cop . . .
As on this night, for him . . . all of our tears
are sharing . . .
Sharing, knowing . . . such men so glowing
. . . are but few and far between . . .
Just Everything!
Who Are True!
As he touches all . . .
A Man, who in our hearts stand's so very tall
. . .
For All of his Men and Women in Blue . . .
As his heart goes out to them . . . so calls
. . .
All out there on That Thin Blue Line . . .
Quiet Heroes, living and reacting with death
. . . all in micro seconds in time . . .
Giving all, until none lies left . . .
For What is Real, For What Is Really True
. . .
For on this night, who will they save? Who
will they bless?
As a cop lies dying . . . as their precious
lives, they will give no less!
Being True!
As have all of those families who have lived
with death . . .
All for them, over the years . . . so many
sleepless nights, and the tears he's shed
. . .
For all those who have died . . .
Consoling, all those husbands and wives . . .
Looking, into their children's eyes . . .
Being True, to all those lives . . . for them
he cries . . .
Working his way up . . .
A Cop's Cop . . .
Walking out that door . . .
His family, not knowing for sure . . . if
they'd ever see him any more . . .
For his job, Chris must be True!
In our lives, and in our times . . . in all we
do . . .
The Greatest of all things . . . that a heart
can be!
Is True!
Yes Chris . . . that's you . . . True!
True!

A TRIBUTE TO MAYOR HARRY L.
BALDWIN OF SAN GABRIEL

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. SCHIFF. Madam Speaker, I rise today to honor Harry L. Baldwin, retiring as Mayor of

the City of San Gabriel. Mayor Baldwin served on the City Council for seventeen years and was selected Mayor by his colleagues on the council for three terms. Mayor Baldwin's legacy in the City of San Gabriel and surrounding communities will endure for generations to come.

During his tenure, Mayor Baldwin worked vigorously and enthusiastically to promote and secure funds for many important projects. One of Mayor Baldwin's greatest accomplishments has been his work to obtain federal funding for the construction of grade separations and safety mitigation for the Alameda Corridor East Project. Over a decade of effort, nearly five hundred million dollars was acquired for this endeavor. Mayor Baldwin's service as President of the San Gabriel Valley Council of Governments (COG) and Vice Chairman of the Alameda Corridor East Construction Authority (ACE) was crucial in securing this funding.

Promoting the interests of the region has been a high priority for Mayor Baldwin. While working on the City Council, he secured funds for park expansions and was essential to the formation of the San Gabriel Rivers and Mountains Conservancy. Additionally, public safety has always been a significant concern of Mayor Baldwin's. He was able to identify a pressing need in the city's Fire Department for expanded services and instituted a paramedic training program for the staff.

Mayor Baldwin and his wife Sally have lived in the Mission District for over forty-five years. The product of California public schools, he graduated from both Mark Keppel High School and UCLA. After graduating, Harry worked in the insurance business until just six years ago.

Before election to the City Council in 1992, Mr. Baldwin was president of the San Gabriel Chamber of Commerce. Since then, he has been actively involved with the Southern California Association of Governments (SCAG). He served as President of the West San Gabriel Valley YMCA and is currently a board member of the Arthritis Foundation of Southern California, San Gabriel Valley Branch, in addition to being involved with many other organizations.

Mayor Baldwin has been a tireless advocate for the City of San Gabriel and the region as a whole. I ask all Members to join me in thanking Harry L. Baldwin for the years of selfless, dedicated service he has provided to the community.

IN RECOGNITION OF NOWRUZ,
IRANIAN NEW YEAR

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mrs. MALONEY. Madam Speaker, I rise today in support of Nowruz, which marks the traditional Iranian New Year and dates back more than 3,000 years. Nowruz, literally meaning "new day," celebrates the arrival of spring and occurs on the vernal equinox which this year happened on Friday, March 20th.

Through the ages Nowruz has provided the occasion for renewal and rejuvenation, dis-

playing new resolve in settling old issues, and making new beginnings. Nowruz celebrates the core of our common humanity and our relation to Mother Nature. Although colored with vestiges of Iran's Mazdian and Zoroastrian past, Nowruz celebration is neither religious nor national in nature, nor is it an ethnic celebration. Muslim, Jewish, Zoroastrian, Baha'i, and Christian Iranians as well as many other peoples celebrate Nowruz with the same enthusiasm and sense of belonging.

As an original cosponsor of H. Res. 267, which recognizes the cultural and historical significance of Nowruz, I am pleased that we are using this occasion to reflect on the many contributions Iranian Americans have made to our society. I am proud of the ethnically diverse district that I represent and greatly appreciate all that Iranian Americans have added to the rich and varied culture of New York City.

Recognizing the cultural and historical significance of Nowruz and in its observance, I want to wish Iranian Americans and all those who observe this holiday a happy and prosperous new year.

HONORING THE LIFE AND CON-
TRIBUTIONS OF MS. BESSIE
SWINDLE AND THE DEDICATION
OF THE BESSIE SWINDLE COM-
MUNITY CENTER IN HOUSTON,
TEXAS

HON. AL GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. AL GREEN of Texas. Madam Speaker, today I am honored to recognize the life and contributions of a distinguished member of my Houston staff, a constituent and more importantly a friend who was honored on Saturday, March 21, 2009 with the naming of the Bessie Swindle Community Center in Houston, Texas.

A respected leader and activist, Ms. Swindle has committed her life to serving her community. Over the course of more than thirty years, she has endeavored to serve as the voice for those who have, over the years, found themselves in unfortunate and difficult circumstances. I believe her record of unselfish dedication to her city and community will serve as a bright light for those who dare to follow in her footsteps.

Ms. Bessie Swindle was born in Loreauville, Louisiana and transplanted to Houston. Currently, she is the Outreach Coordinator for Congressman AL GREEN of the 9th Congressional District of Texas. Ms. Swindle was appointed by Mayor Bill White to his Phone Tower Commission and is a former member of the Police Officers Civil Service Commission-City of Houston, which is responsible for reviewing HPD criminal activities.

During her distinguished lifetime of service, Ms. Swindle has earned numerous awards and honors. In 2004, she was a recipient of an Honorary Associate in Arts Degree from Houston Community College System.

Finally, Madam Speaker, I would be remiss if I did not thank Mayor Bill White, City Controller Annise Parker, and the distinguished

members of the Houston City Council, including the Honorable Wanda Adams who sponsored this special tribute, for their foresight in honoring my friend, Ms. Bessie Swindle.

NATIONAL CONSUMER COOPERATIVE BANK ACT AMENDMENTS OF 2009

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mrs. MALONEY. Madam Speaker, I rise to offer the National Consumer Cooperative Bank Act Amendments of 2009. This legislation makes a technical correction to the National Consumer Cooperative Bank Act of 1978.

The National Consumer Cooperative Bank Act of 1978 created the National Consumer Cooperative Bank, NCB, which is dedicated to strengthening communities nationwide through the delivery of banking and financial services, complemented by a special focus on cooperative expansion and economic development. The same Act established a non-profit corporation to reach further into low income communities and to serve disadvantaged populations. NCB Capital Impact is that non-profit, mission-driven subsidiary of NCB that works to provide housing, education, health care, cultural centers, small businesses and social services in economically distressed communities.

NCB Capital Impact has an impressive track record providing assistance to low- and moderate-income communities. Over time, NCB has invested \$250 million for education facilities; helped finance 137,396 school seats; 33,132 units of multifamily homeownership or other affordable housing and 8,900 affordable assisted living units for seniors and persons with disabilities; 2.9 million square feet of community health center space serving 350,300 patients annually, and helped created 25,000 jobs for low-income individuals.

Back in my district—the 14th district of New York—NCB Capital Impact has played a significant role in providing financing for much needed housing and community development projects. NCB has facilitated more than 600 loans in my district alone. Most of these loans are for housing, including affordable housing, as well as loans for community facilities and loans to non-profit organizations like the Council of New York Cooperatives and Condominiums. Together, these groups are able to provide assisted living, affordable housing and services to the frail and elderly.

Despite their good work in serving low-income communities and disadvantaged populations, NCB Capital Impact is not eligible for assistance authorized under the Community Development Banking and Financial Institutions Act of 1994, which is administered by the CDFI Fund. NCB Capital Impact meets all of the eligibility criteria on its own and without exception; however the Fund has ruled it cannot certify NCB Capital Impact as a CDFI because of the corporate structure of its parent NCB. In short, NCB Capital Impact is shut off from critical sources of financial awards that are needed to maintain their housing and community development efforts.

The interest of NCB Capital Impact in gaining CDFI certification is two-fold. First, it has a track record that is comparable to other organizations that received CDFI status; its mission is dedicated to working with low income populations and communities. Second, increasingly in the community development finance field, CDFI certification is viewed as a 'good housekeeping seal' of approval in working with other federal agencies and other private and public institutions.

I urge my colleagues to join me in supporting this technical amendment to the NCB statute so that the non-profit, mission-driven NCB Capital Impact may continue to provide services to distressed and underserved communities throughout New York and the country at-large.

CONGRATULATING LADY TIGERS OF BENTON HARBOR HIGH SCHOOL

HON. FRED UPTON

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. UPTON. Madam Speaker, I rise today to congratulate the Lady Tigers of Benton Harbor High School on their first ever state basketball championship. These outstanding young women have come a long way this past season and have made their community so very proud. It had been 25 years since the Lady Tigers last appeared in the Class A finals . . . and this time they emerged as champions!

Winning a state championship is something that will last a lifetime. It is a remarkable achievement that few teams in southwest Michigan ever experience, and it is a legacy that will live with the 2008–09 Lady Tigers forever. The Lady Tigers and Coach Harvey know what brought this state title back to Benton Harbor—hard work. It is doing that one extra sprint, that extra drill, shooting that extra free throw after practice that helped make the Lady Tigers champions. Nobody outworked the Tigers and nobody could beat them in the state tournament. And nobody had a greater following or more community support than our Lady Tigers.

It is an honor to pay tribute to the entire Lady Tiger squad: Olivia Askew, Damonica Buford, Tiara Greer-Allen, Andrea Ellis, Iesha Ellis, Deborah Meeks, Rashonda Pargo, Nyesha Winbush, and All-American Destiny Williams, who led the Lady Tigers with 31 points and added 21 rebounds. We salute all of you.

On behalf of all the residents of southwest Michigan, congratulations again to the Lady Tigers and Coach Harvey and the entire Benton Harbor community—you are an inspiration to us all. It is Tiger Pride at its finest. Go Tigers!

INTRODUCTION OF THE PAY FOR PERFORMANCE ACT

HON. ALAN GRAYSON

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. GRAYSON. Madam Speaker, tonight I am proud to introduce the Pay for Performance Act of 2009.

Madam Speaker, this bill is based on two simple concepts. One, no one has the right to get rich off taxpayer money. And two, no one should get rich off abject failure.

An economy in which a bank executive can line his own pocket by destroying his company with risky bets is an economy that will spiral downwards. And a government that hands out money to such executives is a government that fails to protect the taxpayers.

Our job is to act on behalf of taxpayers to fix our economy, and we do so tonight with this bill.

Madam Speaker, the U.S. Government spent \$170 billion to stabilize AIG, and it now owns 80% of that company. Yet recently, AIG paid more than \$165 million in bonuses to 73 employees with this taxpayer money. That is like paying an arsonist to put out his own fires.

The restrictions in this bill apply only to financial institutions that have taken capital investments from the taxpayer, and they are commonsense restrictions. Pay can't be excessive or unreasonable, and bonuses must be based on performance standards. And if the banks want to avoid these common-sense restrictions, there's a very simple solution—just pay the bailout money back to the government, as so many banks claim they want to do. I know the taxpayers in my district will take it back happily.

As I asked the CEO of AIG when he came to testify before the Financial Services committee, is it more important to protect bank executives who have lost billions of dollars, or to protect us? The answer to that question is now before this body.

I know which side I'm on.

I encourage my colleagues to cosponsor this important bill.

CONGRATULATING MAYOR SAM JONES FOR BEING NAMED MOBILIAN OF THE YEAR

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. BONNER. Madam Speaker, it is with great pride and pleasure that I rise today to honor Mobile Mayor Sam Jones on the occasion of being named Mobilian of the Year for 2008 by the Cottage Hill Civitan Club. The Mobilian of the Year is the city's most prestigious civic honor, and Mayor Jones is most deserving of this award in recognition of his tireless efforts on behalf of the Port City.

A native of Mobile, Mayor Jones graduated from Central High School in Mobile. He attended Florida Junior College and Jacksonville University in Florida before enrolling at the

Alabama Interdenominational Seminary, where he was awarded an honorary doctorate.

Mayor Jones started his career in the U.S. Navy where he served for nine years. He served on the USS *Forrestal* where he was a flight deck troubleshooter for A-7 aircraft, an equal opportunity officer, race relations education specialist, and community services coordinator.

From 1980 until 1987, Mayor Jones was executive director of Mobile Community Action, Inc., where he oversaw a 240-person staff and a \$5 million annual budget. He then served as a Mobile County Commissioner for four terms.

In 2005, Sam Jones was elected as the first African American mayor of Mobile. Mobile's Press-Register recently editorialized that "Mobile's first African American mayor has demonstrated to the nation that Mobile is a progressive and inclusive Southern city where all residents have the opportunity for public service."

Mayor Jones is a man known for working 10-12 hour days, including weekends, and is rarely one to take a vacation. As captain of the city of Mobile, Mayor Jones has done yeoman's work helping to recruit several significant economic projects to Mobile, including the biggest economic development project in the history of our state, ThyssenKrupp's \$4 billion state-of-the-art steel plant.

Mayor Jones has an obvious love for Mobile. He has served as the past president of the Association of County Commissions of Alabama; a former member of the National Association of Counties Board of Directors; the National Association of Counties Election Reform Steering Committee; co-chair of Renewal 90 Educational Initiative; steering committee member of the 1988, 1992 and 2000 Education Funding Referendum Initiatives; former member of the Alabama Sentencing Commission; judge, Alabama Court of the Judiciary; former member of the Judicial Inquiry Commission; past member of the Alabama Port Authority; former member of the Mobile Area Chamber of Commerce Board of Directors; former board member of the United Way of Southwest Alabama and 1998 chairman of a \$7 million campaign for the organization; founder of the Mobile County Community Development Partnership; founder, Prichard Federal Credit Union; former chair of Envision Mobile/Baldwin; member, Underage Drinking Task Force; member, 100 Black Men, Mobile Chapter; and director of Christian Education and Sunday School Superintendent for Macedonia Missionary Baptist Church.

He also currently serves on the boards of several organizations, including the University of South Alabama, the South Alabama Regional Planning Commission, the Mobile United Steering Committee, the Mobile Senior Bowl Committee, the MLK Redevelopment Corporation, the Mobile County Governmental Utilities, Mobile County Communication District, Volunteers of America, and Maritime Center of the Gulf of Mexico. He also serves as chair of the Metropolitan Planning Organization and is an emeritus member of the Community Foundation of Southwest Alabama.

Madam Speaker, I would like to offer my personal congratulations to Mayor Sam Jones for being named the Mobilian of the Year for

2008 and in so doing recognize him for his many outstanding accomplishments.

I ask my colleagues to join me in congratulating a dedicated professional and friend to many throughout south Alabama. I know his many friends and colleagues join me in praising his accomplishments and extending thanks for his many efforts over the years on behalf of the city of Mobile and the entire state.

RECOGNIZING ZEIDERS ENTERPRISES CELEBRATING TWENTY-FIVE YEARS OF BUSINESS

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 23, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the contributions of Zeiders Enterprises over the 25 years since its founding in Prince William County, Virginia. The more than 700 staff members of Zeiders Enterprises provide services and assistance to more than 1.5 million military and family members at nearly 50 military installations worldwide each year.

Zeiders employees serve in crucial roles as clinical counselors, victim advocates, new parent support specialists, financial counselors, transition specialists, and relocation specialists. Through these activities, Zeiders Enterprises has made a direct, positive difference in the lives of individuals, families, their communities, and the organizations in which they serve. Especially noteworthy is the role that Zeiders plays in supporting the special needs of military service members and their families. Zeiders Enterprises is a founding sponsor of The Quality of Life Foundation, whose mission is to honor and serve our severely injured combat service members and their families by helping them face the life-changing challenges unique to their situations.

Employees at Zeiders contribute outside the workplace through extensive volunteer service. This volunteer support of the American Red Cross, Peace Corps, local schools, youth development programs, mentoring programs, victim advocate programs, youth sports programs, community orchestras, volunteer fire and rescue departments, and military service in National Guard and Reserve occurs in Prince William County, Virginia, and across the nation where Zeiders employees live and work. The consistent contributions of Zeiders employees to the communities in which they serve are truly impressive.

A culture of public services emanates from the top of the Zeiders Enterprises organization. Michael Zeiders, president and CEO, serves the citizens of Prince William County and Virginia as an active member of both the Northern Virginia Workforce Investment Board and the SkillSource Group Board. Under his leadership, Zeiders Enterprises is an active partner in the community. Additionally, Mr. Zeiders has supported families of Wounded Warriors nationwide through the Quality of Life Foundation.

Madam Speaker, I ask my colleagues to join with me today to congratulate Zeiders Enterprises on its 25th anniversary and to pay trib-

ute to the significant contributions its employees have made in improving the lives of our brave men and women who serve this great country.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, March 24, 2009 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED MARCH 25

9:30 a.m.

Foreign Relations

To hold hearings to examine the nomination of Christopher R. Hill, of Rhode Island, a Career Member of the Senior Foreign Service, Class of Career Minister, to be Ambassador of the United States of America to the Republic of Iraq.
